City officials estimate that the company is deriving a gross revenue from the garbage of about \$100,000 a year for grease, \$38,000 for tankage (which is used as a fertilizer base), together with the payment by the city of 27 cents a ton, which amounts to about \$13,500 a year; the whole totaling a little over \$150,000. This is based on an estimated grease extraction of 2½ per cent of the weight of the garbage and a price of 4 cents a pound received for this. (Market quotations were found from 4½ to 8½ cents per pound.) It is believed that 19 per cent of the gross tonnage of the garbage is available as fertilizing base, which is said to sell at \$4 a ton f. o. b. at the plant. These figures were not furnished by the company, which gives information of this kind to its stockholders only, but is an estimate made by the city officials who have supervision over the company's work.—*Municipal Journal and Engineer*.

WOULD OIL STREETS WHILE BUILDING.

At a meeting of the highway commissioners of Joliet, Ill., the members gave some time to the question of oiling streets, and it is not improbable that in the course of the winter this question will be discussed among those residing along highways planned to be improved next season. It is the belief of the commissioners spoken to that the work can be done better and more satisfactorily if the oil preparation is put in with the material when the streets are made. It is believed that if the composition is mixed with the stone when the street is made it will give much better results in the end, and that cost of doing the work will be less than when it is done after the streets have been built. The commissioners see the benefits of the oiled streets and in all parts of the city and township where this method of treating the surface has been tried it has been found satisfactory. The members of the board are willing to do all they can to bring about this improvement, and it is certain there will be a large amount of new streets treated with the oil preparation next season.

OFFICIAL DIRECTORY.

MAYOR'S OFFICE.

Room 27, City Hall. Tel. Fort Hill 3000.
 JOHN F. FITZGERALD, *Mayor*.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, SEPTEMBER 24, 1910.

No. 39

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall, and at all news stands.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 10, at 3.30 p. m.

Meeting of School Committee, Monday, September 26, at 5.30 p. m.

Meetings of the Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Street Department.

John P. Meehan, chauffeur, 1 day at \$3, \$3.

Street Department (Highway Division).

For the week ending Thursday, September 15, 1910:

Bernard J. McGovern, engineer, 1 day at \$3, \$3; Andrew T. Roach, weigher, 1 day at \$2.50, \$2.50; John T. Sweeney, subforeman, 1 day at \$3.50, \$3.50; William L. Carty, inspector, 1 day at \$3, \$3; James F. Whooley, inspector, 2 days at \$2.50, \$5; Francis P. Aieta, clerk, 1 day at \$2.50, \$2.50; James J. Sullivan, messenger, 1 day at \$3, \$3; John H. Murphy, inspector, 1 day at \$3, \$3; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Ralph E. Reardon, inspector, 2 days at \$3, \$6; Patrick H. Connolly, inspector, 1 day at \$3, \$3; Edmund J. Fitzgerald, inspector, $1\frac{1}{2}$ days at \$3, \$4.50; James D. Gorman, inspector, 1 day at \$3, \$3; Frank J. Hasson, inspector, $1\frac{1}{4}$ days at \$3, \$3.75; George W. Jepson, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Thomas W. H. Kelly, inspector 3 days at \$4, \$12; William J. Lynch, inspector, $1\frac{1}{4}$ days at \$3, \$3.75; Frank E. Martin, inspector, 2 days at \$3, \$6; Charles E. Sheehy, inspector, 1 day at \$3, \$3; John J. Hayes, inspector, $\frac{1}{2}$ day at \$3, \$0.75; Michael F. O'Brien, inspector, $\frac{1}{2}$ day at \$3, \$1.50; James A. Keveney, inspector, 1 day at \$3, \$3; and 70 laborers, \$160.26; Joseph Coyle, carpenter, 1 day at \$3, \$3; John J. Green, teamster, 1 day at \$2.75, \$2.75; Benjamin F. Arey, first assistant draw-

tender, 4 days at \$900 per year, \$9.86; William J. Doherty, first assistant drawtender, 1 day at \$900 per year, \$2.46; Martin J. Griffin, first assistant drawtender, 1 day at \$900 per year, \$2.46; and 9 assistant drawtenders, 15 days at \$2.19, \$32.85.

Street Department (Sanitary Division).

For the week ending Thursday, September 15, 1910:

D. J. O'Brien, inspector, 1 day at \$3, \$3; J. J. Connors, driver, $\frac{1}{2}$ day at \$2.50, \$0.31; James Reynolds, driver, $\frac{1}{2}$ day at \$2.50, \$0.31; J. J. Barry, scowman, $\frac{1}{2}$ day at \$2.50, \$1.25; E. J. Hardy, scowman, $\frac{1}{2}$ day at \$2.50, \$1.25; J. A. Dillon, foreman, 1 day at \$3.50, \$3.50; Daniel Collins, mate, $1\frac{1}{4}$ days at \$3, \$3.75; John Pomeroy, engineer, $1\frac{1}{4}$ days at \$3.50, \$4.38; James Reily, fireman, $1\frac{1}{4}$ days at \$2.83, \$3.54; James Kelly, fireman, 1 day at \$2.83, \$2.83; and 4 laborers, \$5.72.

J. J. Shea, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; W. W. Quinn, inspector, 1 day at \$2.50, \$2.50; J. F. Kelley, inspector, 1 day at \$3, \$3; James Cassell, driver, 1 day at \$2.50, \$2.50; Peter King, driver, 2 days at \$2.50, \$5; Patrick Norton, driver, 1 day at \$2.50, \$2.50; Michael Mullen, stableman, 1 day at \$2.50, \$2.50; Thomas Rice, driver, 1 day at \$2.50, \$2.50; S. A. Sawyer, driver, 1 day at \$2.50, \$2.50; Patrick Sweeney, driver, 1 day at \$2.50, \$2.50; P. F. McCormick, driver, 1 day at \$2.50, \$2.50; Charles P. Hobbe, stableman, 1 day at \$2.50, \$2.50; H. J. McCarron, watchman, 1 day at \$2.50, \$2.50; C. J. Scanlon, inspector, $1\frac{1}{2}$ days at \$2.50, \$3.75; D. J. Griffin, inspector, 1 day at \$2.50, \$2.50; A. H. Brown, driver, 1 day at \$2.50, \$2.50; D. J. Sullivan, driver, 2 days at \$2.50, \$5; J. A. Brown, driver, 1 day at \$2.50, \$2.50; and 67 laborers, \$162.40.

Street Department (Sewer Division).

For the week ending Thursday, September 15, 1910:

James A. Bell, rodman, $\frac{1}{2}$ day at \$2.50, \$1.25; Walter I. Brown, inspector, $1\frac{1}{2}$ days at \$3.50, \$5.25; William V. P. Hoar, rodman, 2 days at \$2.50, \$5; Daniel P. Kelley, junior engineer, $1\frac{1}{4}$ days at \$3.50, \$4.38; John J. Lane, rodman, $1\frac{1}{2}$ days at \$2.50, \$3.75; Fred A. Lovejoy, junior engineer, 2 days at \$4, \$8; Henry A. Sherman, instrumentman, $1\frac{1}{2}$ days at \$3.50, \$5.25; John J. Bradley, rodman, $\frac{1}{2}$ day at \$2.50, \$1.25; William Warren, instrumentman, $1\frac{1}{4}$ days at \$3.50, \$4.38; William B. Barnes, rodman, 2 days at \$2, \$4; William J. Drummond, inspector, 1 day at \$3.50, \$3.50; Michael E. Garra, inspector, 1 day at \$5, \$5; Charles L. Rand, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; James A. Mitchell, inspector, 1 day at \$3, \$3; John W. O'Neil, inspector, 1 day at \$3.50, \$3.50; Nathan W. O'Neil, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Thomas Hughes, laborer, 1 day at \$2.50, \$2.50; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; Thomas McDonald, yardman, 1 day at \$2.50, \$2.50; and 25 laborers, $29\frac{1}{2}$ days at \$2.25, \$66.38.

Water Department (Distribution Division).

For the week ending Thursday, September 15, 1910:

Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Timothy J. Kelliher, chauffeur, 1 day at \$2.75, \$2.75; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John Austin, watchman, 1

day at \$2.50, \$2.50; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Robert McLaughlin, emergency man, 1 day at \$2.25, \$2.25; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; Robert A. Barry, gateman, 1 day at \$2.25, \$2.25; Thomas A. Gorman, foreman, $1\frac{1}{4}$ days at \$2.75, \$4.81; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, $1\frac{3}{4}$ days at \$2.75, \$4.81; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; James Donovan, stableman, 1 day at \$2.25, \$2.25; Thomas Bowen, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Peter M. Brown, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Michael F. Burke, teamster, $1\frac{3}{8}$ days at \$2.50, \$2.73; Raffaele Curcio, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; David Leo, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Thomas Magee, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Jeremiah J. McLaughlin, teamster, $\frac{1}{2}$ day at \$2.50, \$1.88; Matthew I. Nolan, teamster, $1\frac{3}{8}$ days at \$2.50, \$2.73; Timothy Noonan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; James J. O'Brien, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John J. O'Brien, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward A. Pyne, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Michael Ronan, teamster, $2\frac{1}{2}$ days at \$2.25, \$4.57; John C. Thompson, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Thomas Williams, teamster, $\frac{1}{2}$ day at \$2.25, \$1.97; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; James McKenney, teamster, $1\frac{1}{8}$ days at \$2.25, \$2.67; Dennis Shea, laborer, 1 day at \$2.25, \$2.25; John McNulty, laborer, $2\frac{1}{8}$ days at \$2.25, \$4.78; John Concannon, laborer, $1\frac{1}{4}$ days at \$2.25, \$2.53; Patrick Canney, laborer, $1\frac{7}{8}$ day at \$2.25, \$0.98; Alexander Thompson, plumber, $\frac{7}{8}$ day at \$3, \$1.31; John Welch, plumber's helper, $\frac{7}{8}$ day at \$2.25, \$0.98; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; Patrick Cassidy, watchman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; James F. Black, repairer, 1 day at \$2.50, \$2.50; John Egan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; James Murphy, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John Cummings, repairer, $1\frac{1}{4}$ days at \$2.75, \$3.44; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, yardman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; Humphrey Sullivan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Peter Welch, stableman, $1\frac{1}{4}$ days at \$2.25, \$3.66; Edward M. Houghton, laborer, 1 day at \$2.25, \$2.25; John McCormick, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Richard P. Collins, inspector, $4\frac{1}{8}$ days at \$2.75, \$11.86; Charles M. Driscoll, plumber, $1\frac{7}{8}$ day at \$2.75, \$1.20; Martin Dunlap, plumber's helper, $1\frac{1}{8}$ day at \$2.25, \$0.98; Reuben Overton, laborer, $1\frac{1}{8}$ day at \$2.25, \$0.14; Isaac Saperstein, repairer, $\frac{1}{2}$ day at

\$2.50, \$0.31; Michael Mulloy, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; William Lonergan, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Michael C. Sullivan, plumber, $\frac{1}{2}$ day at \$2.50, \$0.63; Timothy F. Murphy, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Patrick J. Kelley, inspector, $4\frac{1}{2}$ days at \$2.95, \$14.01; Eugene Shea, watchman, 1 day at \$2.25, \$2.25; John Rogers, laborer, 1 day at \$2.25, \$2.25; Michael Galvin, laborer, 1 day at \$2.25, \$2.25; Patrick Joyce, laborer, 1 day at \$2.25, \$2.25; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Patrick J. Feeney, inspector, $\frac{5}{8}$ day at \$2.75, \$1.72; Peter O'Hare, pipe layer, $\frac{5}{8}$ day at \$2.50, \$1.56; John Farrell, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; John Coyne, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; John McKay, pipe layer, $\frac{5}{8}$ day at \$2.50, \$1.56; Thomas Barrett, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; James V. Russell, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; Charles Quigley, laborer, 1 day at \$2.25, \$2.25.

Water Department (Income Division).

For the week ending Thursday, July 21, 1910:

P. J. Clougherty, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.70; M. J. Dinnenn, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; T. J. Dolan, plumber, $\frac{1}{2}$ day at \$3, \$0.75; E. H. Gilmore, tester, $1\frac{1}{2}$ days at \$2.50, \$3.75; B. Magee, carpenter, $1\frac{5}{8}$ day at \$3.50, \$1.09; E. Mahoney, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; T. J. McAuliffe, laborer, $1\frac{3}{8}$ days at \$2.25, \$2.32; F. McCarthy, laborer, $1\frac{1}{2}$ days at \$2.50, \$3.13; M. M. McGrath, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; M. Mulkern, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.81; Joseph Rice, tester, $\frac{3}{4}$ day at \$2.50, \$1.88; P. A. Russell, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; J. J. Shea, laborer, $1\frac{1}{8}$ day at \$2.25, \$0.70; Daniel Sullivan, laborer, $2\frac{5}{8}$ days at \$2.25, \$5.20; J. Sullivan, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; T. J. Sullivan, plumber, $\frac{5}{8}$ day at \$3, \$0.94; J. E. Tierney, machinist, $\frac{1}{2}$ day at \$3, \$1.50; M. P. Welch, plumber, $2\frac{5}{8}$ days at \$2.75, \$6.36; W. F. Whalen, plumber, $\frac{3}{8}$ day at \$3, \$0.56; J. F. Anderson, foreman, 24 hours at \$0.62 $\frac{1}{2}$ per hour, \$15; J. H. Dougherty, clerk, 24 hours at \$0.62 $\frac{1}{2}$ per hour, \$15.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending September 22, 1910:

INFIRMARY DEPARTMENT.

On September 21 the Mayor approved a contract with Potter & Wrightington for furnishing 225 barrels of flour. Bids on these goods, opened September 10, were as follows:

Potter & Wrightington, \$4.93; Washburn-Crosby Company, \$5.25.

PUBLIC GROUNDS DEPARTMENT.

On September 21 the Mayor approved a contract with Coleman Brothers for soil work and renovation of Boston Common. Bids on this work, opened September 8, were as follows:

Charles J. Jacobs, \$34,173; Coleman Brothers, \$40,210; James Driscoll & Son, \$42,225; Rowe Contracting Company, \$42,900; Thomas J. Kelly, \$45,240; M. J. O'Hern, \$59,490.

STREET DEPARTMENT (Sewer Division).

On September 17 the Mayor approved a contract with Raffale Cartullo for building pipe sewers in Rockview street, West

Roxbury. Bids on this work, opened September 12, were as follows:

Raffale Cartullo, \$953.30; George J. Regan, \$1,028.59; Commonwealth Construction Company, \$1,082.89; E. F. Kennelly, \$1,095.90; Antony Cefalo, \$1,203.47; A. M. Cusack, \$1,251.70.

On September 21 the Mayor approved a contract with Murphy & Dolan for building pipe sewers and drains in Maynard street, West Roxbury. Bids on this work, opened September 12, were as follows:

Murphy & Dolan, \$4,346.65; Antony Cefalo, \$4,521.43; Charles J. Jacobs, \$4,534.13; McCarthy & Walsh, \$4,570.85; George J. Regan, \$4,713.23; Commonwealth Construction Company, \$5,064.60; E. F. Kennelly, \$5,202.45; A. M. Cusack, \$5,390.05; Mark H. Lynch, \$6,430.70.

WITHOUT ADVERTISING.

PUBLIC BUILDINGS DEPARTMENT.

The Mayor has approved a contract with J. J. Hurley & Co. (this contract was also approved by the Governor) for new steam heating plant in the Old State House. Bids on the work were as follows:

J. J. Hurley & Co., \$994; James P. Dwyer, \$1,216; Ingalls & Kendricksen, \$1,295; Isaac Coffin Company, \$1,350.

STREET DEPARTMENT (Highway Division).

A contract with the Adams-Pond Company for laying artificial stone sidewalks on Rowena street, Dorchester, at an estimated cost of \$840, takes the place of the contract originally made for laying artificial stone sidewalks in Beaumont street, because of the objection of a large property owner on the latter street to having the sidewalk laid.

SUPPLY DEPARTMENT.

On September 17 the Mayor approved a contract, awarded without advertising, with the Buick Motor Company for furnishing two automobiles at \$950 each for use by the Health Department.

ADDITIONS AND ALLOWANCES ON CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Deduction and additions for miscellaneous items, resulting in net deduction of \$422.46 on contract with Stephen Brennan for the erection of the Second Ward Building. Original contract, \$66,520; total deductions, \$4,104.14; contract as standing, \$62,416.86.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising: Resurface Etna street with macadam at an estimated cost of \$1,300; construct Rochdale street from Cobden to Fenner streets at an estimated cost of \$1,300; resurface Walk Hill street from Hyde Park avenue to Canterbury street at an estimated cost of \$4,500; resurface Cleveland Circle with macadam at an estimated cost of \$1,500.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary."

(Signed) L. K. ROYKE,
"Superintendent of Streets."

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Mayor:

Signs.—Eddie Gardner, 60 Spring street; M. Levine, 2414 Washington street; Charles Salamone, 93 $\frac{1}{2}$ Boylston street; John E. Cochran, 246 Harvard street, Dorchester; Lewis Galid, 185 Tremont street; John Rizzotto, 723 Tremont street.

Illuminated Signs.—John Rizzotto, 723 Tremont street; G. O. Killory, 91A Court street; Terrence Rolfe, 3 Breed street, Ward 1; P. Finnegan & Co., 6 Greenwich street; Charles Wagner Clothing Company, 173 Summer street; Samuel G. Moss, 29 Exchange street; Giuseppe Capelle, 1056 Washington street.

Bulkhead Opening.—Peter F. Kelley, 27 Lexington street, Ward 3.

Ornamental Cornice.—Charles Berman, 431-433 Bennington street.

Gasolene.—A. F. Bruce, 334-336 Bowdoin street, Dorchester.

Wire Across Street.—Henry R. Sweeney, 269-278 Princeton street, East Boston.

To Close Highways.—Cunard street, Ward 18; Geneva avenue, Olney street to railroad; Everett Street Bridge, East Boston.

Street Railway Locations.—West End Street Railway Company, alterations, Columbus avenue at Northampton street; Columbus avenue at Dartmouth street, and Columbia road, Hancock and Bowdoin streets; also a temporary location on Ipswich street, at Boylston road.

Pole Locations.—New England Telephone and Telegraph Company, erect four on Bigelow street, at Dunboy street; erect three on Dunboy street, west from Bigelow street.

LAND-TAKING FOR SCHOOL PURPOSES.

On September 22 the Mayor approved a vote of the Board of Street Commissioners taking, under right of eminent domain, certain parcels of land for school-house purposes in the Charlestown district, described as follows: A parcel supposed to belong to Joseph Stone, Jasper Stone and Carrie L. Cuthbertson, located on Elm street, and containing 2,407 square feet, more or less; a parcel of land supposed to belong to John A. Barnes, located on Elm street, and containing 1,611 square feet, more or less.

The Mayor has approved a vote of the Board of Street Commissioners, made after consultation with the Law Department and on its advice, in the matter of damages occasioned to the estate of Daniel J. Puffer by reason of a taking for school purposes on Auburn court, whereby amount is set at \$2,800.

PAYMENT FOR METROPOLITAN SEWERAGE SERVICE.

An agreement has been entered into by the Mayor, representing the City of Boston, and the Metropolitan Water and Sewerage Board, that there shall be paid to the City of Boston, as compensation for the discharge of the sewage from the Neponset and Charles river systems through the Boston sewerage works at Moon Island, the sum of \$6,423.73 per year for the five years 1912 to 1916.

TRANSFER.

The following transfer has been approved by the Mayor: \$900 from the Reserve Fund to the Election Department.

PERMISSION TO SELL.

FIRE DEPARTMENT.

The Mayor has granted to the Fire Commissioner authority to sell to Daniel J. Collins for \$401 cash a quantity of old junk, he being the highest of thirteen bidders.

HEALTH DEPARTMENT.

The Mayor has granted to the Board of Health authority for the disposal of horses, by auction or otherwise, not exceeding in value the sum of \$500. Said horses having been replaced by the use of automobiles.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances have been made by the superintendent and approved by the Mayor:

Patrick Connelly, Sanitary Division, 17 days at \$2.25, \$38.25.

Thomas Akin, Highway Division, 7 days at \$3, \$21.

MADE IN CHICAGO.

Not many years ago "Made in Chicago," stamped on any article of merchandise would have been limited almost to a bow and arrow, a piece of sawed timber or a clay brick. Next month, through the enterprise of the Chicago Association of Commerce, there is to be a show and window exhibition in most of the stores within the loop, of goods "Made in Chicago."

That there are many excellent things that are made in Chicago, and about which Chicago does not know, is the fault both of the manufacturer who fails to appreciate and work his home market, as well as the public, who ignorantly seem to look down upon homemade goods of any description and seek their merchandise elsewhere.

This prejudice against goods of home manufacture, this distrust of one's home market, this backbiting, destructive idea which posess so many in business is one of the worst features the city possesses, one of the greatest detriments to its commercial progress.

If, then, by publicity of Chicago manufactures to Chicagoans a greater confidence can be established in Chicago-made goods, and a better quality of goods produced, the effort of the association will be worth while. The result, too, will be for a higher average of commercial integrity, for other things being equal, the belief in and the purchase of home manufacture, and home manufacture worthy of belief and purchase is a happier trade condition than to be found to sell away from home or to purchase from the outside.

The sooner that Chicago believes in herself and her manufactures, and makes them worthy of belief, the quicker will she regain her old-time reputation for hustle, good will, co-operation, and sticking together which is ever so sadly lacking. If it's "Made in Chicago," buy it, don't knock it, and if you're making it in Chicago, make the best there is, for the greatest market in the world is at your door.

FIRE RECORD.

During the first six months of 1910 the property losses from fire in the United States amounted to nearly \$85,000,000. For the same period in 1909 the total was nearly \$90,000,000, and in 1908 the six months' record was about \$104,000,000. — *Insurance Engineer.*

STREET CLEANING IN VIENNA.

In Vienna, Austria, the street cleaning is largely done by the city, although a part of the carts and horses used are obtained from private parties by contract. The immediate management and supervision of the street cleaning in all the districts, save three, are in charge of the district councilmen, in consequence of which there are different methods of carrying on the work. The laborers, mostly persons unfit for any other kind of work, are paid low wages. The municipality has at present 317 horses, 51 sweeping machines, 44 watering carts, 110 dirt carts and 907 other carts for various purposes. The municipality cleans all thoroughfares and the sidewalks in front of vacant lots. The cleaning of the other sidewalks is obligatory on house owners, as is also the watering of the same, the latter being required in dry weather between 7 and 8 in the morning and between 2 and 3 in the afternoon. Owners also must keep cleared of snow and ice a path 6 feet 6 inches wide on the sidewalk.

In the city proper streets paved with granite and wood are cleaned nightly with sweeping machines, the preliminary sprinkling being done by patent automatic watering carts. Of the other streets, the most important are cleaned by machines at night. The sweeping machines are given about 331,000 square feet, each to clean. In the business district cleaning begins at 11.30 p. m., and elsewhere at 10 p. m., and ends about seven hours later. For gathering up the sweepings there are fifteen groups of men, each composed of a foreman and ten laborers, who begin work one-half hour after the machines start.

Asphalt streets are washed between 5 and 8 in the morning, and are cleaned with hand squeegees. Heavy traffic thoroughfares are swept by hand at night; all other streets not swept by machine are cleaned with hand brooms in the daytime. The cost of cleaning the streets in 1909 was approximately \$1,157,700.

WORKMEN'S INSURANCE.

The German system of workmen's insurance has been investigated by Dr. W. H. Tolman for the National Electric Light Association, with a view of obtaining first-hand information regarding the prevention of accidents and compensation to workmen. There can be no doubt that these questions are among the most important demanding attention in the United States at the present time, and while some progress is being made it does not seem that the seriousness of the situation is realized except in a few localities. With some exceptions state laws are notoriously inadequate and state factory inspections are ineffectual in the prevention of industrial accidents. Properties of various kinds are well protected by law, but the protection of human life and compensation for the loss thereof are subjects regarding which very little legislation has been enacted. Dr. Tolman states that Germany is satisfied with her social insurance system, which has been in force for a quarter of a century, and, while he is not prepared to say that we should accept the German system in its entirety, he is of the opinion that its guiding principles can and should be adopted with such modifications as are necessary for local needs and conditions. According to the latest statistics the total receipts for social insurance in Germany amounted to about two and one-half billion dollars during the twenty-four years ending January 1, 1909. Of this sum the

employers paid approximately one-half and the workmen and the empire the remaining half. The insured workmen received nearly two billion dollars, of which one billion was for care during sickness. It is interesting to note that the workmen received from the fund double the amount they paid into it. There is undoubtedly growing in the United States a feeling that the needless sacrifice of human life is affecting our industrial efficiency, and if this phase of the question could be more strongly brought out and impressed upon the minds of those who formulate policies it would probably be a comparatively short time before remedial measures were forthcoming. It is true that some manufacturing plants have done much towards the installation of devices for protecting the employees, but the movement is only in its infancy, and it is to be hoped that progress will be made as rapidly as safety will permit.—*Engineering Record.*

WILL IMPROVE STREETS FROM WHEELAGE TAX.

The wheelage tax is now in force in Duluth, Minn. Incidentally the city will collect between \$15,000 and \$20,000 from the wheelage tax, which was authorized by the citizens at the last election. The money will be applied strictly to maintaining the streets and avenues in the city limits, many of which are in need of repair. The tax ranges from \$3 for a single horse vehicle to 50 cents per horse power for automobiles and \$10 per ton for big trucks. The automobiles were put on a horse power basis for the reason that the larger and more powerful the engines the more damage the cars do to the street. At the time the above amendment to the charter was passed another was carried enabling the city to levy not to exceed one-half mill as a supplement to the wheelage tax. If the full amount is levied this fall, about \$18,000 will be raised in this way. Both taxes would net the city from \$35,000 to \$40,000 a year, which would be applied to street improvements.—*Municipal Journal and Engineer.*

CITY OF BOSTON.

PROPOSALS FOR CONDUCTOR CABLE.

Supply Department, City of Boston, invites proposals for the conductor cable needed by the fire-alarm branch of the Fire Department. Amount of cable required as follows:

- 12,692 feet 19-conductor lead cable, more or less.
- 2,386 feet 10-conductor lead cable, more or less.
- 809 feet 6-conductor lead cable, more or less.
- 1,000 feet 19-conductor overhead cable, more or less.

Underground cables to be lead covered, $\frac{1}{8}$ inch, 14 B. & S. gauge, best quality copper conductors, with at least $\frac{1}{2}$ rubber or kerite insulation, to test 500 megohms to the mile, said test to be made in presence of a representative of this department and guaranteed for five years, excepting only mechanical injury, electrolysis or damage by lightning. One conductor in each layer to be marked to assure identification. Said cables to be equal in all respects to those now in use by this department. The overhead cable to be 14 B. & S. gauge, $\frac{3}{16}$ rubber or kerite insulation, double taped, with one conductor in each layer marked. Cables to be delivered f. o. b. Boston, on reels holding such lengths as may be designated hereafter, reels to be returned when empty at expense of the bidder. Bids with certified check for \$500 must be left at the office of the Superintendent of Supplies, Room 826, Tremont Building, before 12 m. Thursday, September 29, at which time and place the proposals will be publicly opened and read. The superintendent reserves the right to reject any or all proposals. The successful bidder must furnish a bond with a surety company authorized to do business in Massachusetts, or a certified check, as surety for the faithful performance of his work. A duplicate bid must be left with the City Auditor at the same time.

(Sept. 24.) J. EDWARD MULLEN,
Superintendent of Supplies.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

City of Boston — Street Department
NOTICE

The Board of Street Commissioners, in accordance with chapter 393 of the Acts of 1906, have passed orders for the laying out and construction of the following highways:

SOUTH BOSTON.

Emmet street, between East Third street and East Second street.

WEST ROXBURY.

Ainsworth street, between Centre street and South street.

Danville street, between Bellevue street and Wren street.

ROXBURY.

Brinsley street, between Columbia road and Washington street.

Granville street, between Adams street and Milton street.

ROXBURY AND DORCHESTER.

Intervale street, between Blue Hill avenue and Normandy street.

Notice is hereby given that the Street Department is about to do the work contemplated in said orders, and that all work to be done in said highways by all persons or corporations having rights in the same to lay or repair either sewer, gas, water or other pipes must be done before MONDAY, October 3, 1910, as after that time no permits for openings will be granted until two years after said highways are completed.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 6, 1910. (Sept. 24.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe sewer and drains in Quint avenue, between Princeton and Brighton avenues, Brighton, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewer in Quint avenue," and left at the said office of the Superintendent of Streets before 12 m. on Monday, October 3, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 22, 1910. (Sept. 24.)

CITY OF BOSTON.

PROPOSALS FOR RESETTING EDGESTONES, RELAYING GUTTERS AND BRICK SIDEWALKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for resetting edgestones, relaying gutters and brick sidewalks in Brent street, between Washington street and Talbot avenue, Dorchester, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, September 30, 1910, with a certified check for two hundred dollars (\$200), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals, and no proposals will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Edgestones, Gutters and Sidewalks in Brent Street."

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 22, 1910. (Sept. 24.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe sewer and drains in Atkins street, from Hunnewell avenue, 100 feet north of Stratton street, Brighton, and giving bond therefor of a surety company approved by the superintendent in the sum of three hundred dollars (\$300), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Atkins Street," and left at the said office of the Superintendent of Streets before 12 m. on Monday, October 3, 1910, with a certified check for two hundred dollars (\$200), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 22, 1910. (Sept. 24.)

CITY OF BOSTON.

PROPOSALS FOR BRICK PAVEMENT.

Proposals, on blanks obtained at the engineer's office, Franklin Park, for excavating and laying brick pavement on Prince Street Playground, North End, and giving bond of a surety company therefor in \$1,000, signed by bidder and left before 3 o'clock p. m. of October 4, 1910, at the office of the commissioners, Olmsted Park, Jamaica Plain, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals and to give preference to bidders paying the trade unions' rate of wages.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,

DANIEL H. COAKLEY,
Commissioners.

(Sept. 24.)

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building walls, fencing, etc., Bennett School, Chestnut Hill avenue, Brighton, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, September 30, 1910, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(Sept. 24.)

CITY OF BOSTON.

PROPOSALS FOR HARNESSES.

Sealed proposals will be received at the office of the City of Boston, Supply Department, Room 826, Tremont Building, until eleven o'clock Tuesday, October 4, for—

73 double-lead harnesses.
56 single-lead harnesses.

Specifications can be obtained at the office of the superintendent, Room 826, Tremont Building. The bids, which will be publicly opened and read at eleven o'clock on Tuesday, October 4, must be accompanied by a certified check for \$500. A bid in duplicate, without a check, must be filed with the City Auditor. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Sept. 24.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING DRAW, SPAN DOVER STREET BRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing draw span of Dover Street Bridge over Fort Point Channel, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Dover Street Bridge," and left at the said office of the Superintendent of Streets before 12 m. on Thursday, October 6, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 22, 1910. (Sept. 24-Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 11 o'clock Wednesday, September 28, for the hay, grain and straw needed in the different departments for October, 1910. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1, straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The oats must be No. 2, clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Wednesday, September 28, at 11 a. m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Sept. 24.)

CITY OF BOSTON.

LEASE OF HEAD HOUSE, MARINE PARK.

The Board of Park Commissioners of Boston invites proposals for leasing the Head House at Marine Park for a term of three or five years from January 1, 1911. A bond will be required in the sum of one thousand dollars (\$1,000), with sureties for the faithful carrying out of the requirements of the lease, a copy of which may be seen at the office of the Board, Olmsted Park, Jamaica Plain. A proposal on the form obtained at the said office, must be filled out and signed by the applicant, indorsed "Bid for Leasing the Head House," and sent by mail, or otherwise, to the said office on or before 10 a. m. of Saturday, October 15, 1910. Proposals will be received only from caterers of established reputation and experience and of pecuniary responsibility. The Board reserves the right to reject any or all proposals or to accept any proposal it deems best for the city.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
Board of Park Commissioners.

(Sept. 24.)

CITY OF BOSTON.

AUCTIONEER'S SALE.

Abandoned Schoolhouse Site, 64 North Margin Street.

On Monday, October 3, 1910, at 12 o'clock noon, will be sold at public auction on the premises a parcel of land with brick school building contained thereon, the property of the City of Boston. The lot contains 1,639 square feet, 25.05 feet front by 66 feet deep. Terms, \$500 in cash or certified check at sale; balance cash on delivery of deed. For plans and further particulars apply to John C. Kiley, 18 Tremont street, or to Cruik & Byrne, auctioneers, 2370 Washington street, Roxbury. (Sept. 24-Oct. 1.)

FINANCE COMMISSION.

September 16, 1910.

To the Honorable the City Council:

GENTLEMEN,—The Finance Commission is informed that at an early date an ordinance for the creation of a department of public works by the consolidation of the present Street, Water and Engineering Departments will be submitted to the City Council. In order to remove any misapprehension resulting from statements in the Press as to the position of the Finance Commission on the question of consolidation, the commission desires to state that as yet no definite plan of consolidation has been submitted for its consideration. Any desirable consolidation should concentrate responsibility, reduce friction and promote efficiency and economy. If a plan is submitted which seems well adapted to secure these results it should receive the approval of the City Council. If such results do not seem likely to follow consolidation the existing order of departments should be maintained.

The commission suggests that the City Council carefully consider the following matters before it reaches a conclusion as to the desirability of the proposed change:

1. The danger of consolidating the departments to such an extent as to create a system beyond the administrative capacity of any individual likely to be appointed as its head.

2. The liability of having persons appointed as heads of the engineering and water divisions of less competency than those likely to be appointed under the existing system as heads of the Engineering and Water Departments, whose qualifications must be approved by the Civil Service Commissioners.

3. Whether in the plan submitted adequate provision is made for keeping the labor force and the financial accounts of the water division separate from the force and the accounts of other divisions of the department of public works. Unless such separation is accomplished the expenses of the water division may be improperly increased and the water-takers be charged exorbitant rates in consequence.

Any plan of consolidation should show the distribution of power and responsibility, the division of labor, the salary and wage schedules and the number of officials and subordinates in each of the divisions of the department. A proper scheme of consolidation should effect large economies as hundreds of thousands of dollars are wasted annually by the retention of numerous clerks and other employees who are not needed in the service.

Respectfully submitted,

THE FINANCE COMMISSION,

by JOHN A. SULLIVAN,

Chairman.

September 17, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—In various reports submitted to the Mayor and City Council the former Finance Commission called attention to the enormous increase in the indebtedness of the city and to the necessity of reforming its financial policy. Thus the commission recommended:

1. That the practice of borrowing money for the extension of water mains be discontinued and that the money be provided by taxes. (Vol. I., pp. 24-26; Vol. II., p. 168.)

2. That the practice of borrowing outside the debt limit for sewer purposes be discontinued. (Vol. II., p. 168.)

3. That the money needed for the improvement of Hyde Park avenue be borrowed inside the debt limit and not as provided by chapter 437 of the Acts of 1908, outside the debt limit. (Vol. I., p. 508.)

4. That items amounting to over \$500,000 in the loan bill of July 26, 1907, be repealed. (Vol. I., p. 127.)

5. That no money be borrowed outside the debt limit except for rapid transit purposes. (Vol. II., p. 168.)

6. That no money be borrowed for water works, schools, sewer construction, current expenses, or for any purpose of an annually recurrent nature. (Vol. II., p. 168.)

These recommendations were based upon the following facts:

1. Much of the money borrowed was for unnecessary objects; or for repairs, maintenance, or other current expenses which should have been provided from taxes. (Vol. I., pp. 112, 113; Vol. II., p. 167.)

2. These unnecessary or improper loans, issued between the years 1895 and 1907, had contributed largely to increase the debt four times as fast as the increase in the valuation of property in the city subject to taxation, and seven and one-half times as fast as the increase in population; the debt having increased 166 per cent in this period while the valuation had increased only 38 per cent and the population only 22.7 per cent.

3. As a consequence the city was paying over \$5,000,000 annually for interest and sinking fund requirements, or about one-fourth of the entire amount raised by taxation.

Some of the recommendations of the commission have not been adopted. Thus, money has since been borrowed for land and buildings for schools and for sewer purposes.

Though the School Committee this year appropriated \$529,557, for land and buildings for schools, this being the second successful attempt to exercise the power to raise money for this purpose by taxation since the passage of chapter 448 of the Acts of 1901 authorizing appropriations of an amount equal to forty cents on each thousand dollars of the valuation of property,—it has also borrowed \$1,000,000 this year for land and buildings. The Legislature, on the recommendation of the Finance Commission, this year refused authority to borrow \$2,500,000 more for land and buildings; and the commission believes that in the near future the authority to borrow \$500,000 annually for this purpose should be revoked, and that all money needed thereafter be provided out of taxes. (See Finance Commission report dated April 1, 1910.)

Large loans for surface drainage authorized by chapter 485 of the Acts of 1907, and for sewerage works under chapter 426 of the Acts of 1897 are still being made; but these are within the debt limit and not outside as in the past, the authority for borrowing outside the debt limit for these purposes having been revoked by chapter 315 of the Acts of 1908. Of the \$1,284,000 appropriated this year for such purposes, \$974,000 was provided out of loans and only \$310,000 from taxes; or less than one-fourth of the whole amount. These expenses recur annually and the commission believes they should be met wholly from taxes.

The greater part of the recommendations of the commission have been adopted

however, and much progress in financial reform has been made. Thus:

The proposed loan of \$300,000 in the year 1907, for the extension of water mains was rejected by the City Council; and no loans for this purpose have been authorized since.

The loan of \$69,000 for the improvement of Hyde Park avenue was made within the debt limit and not outside as authorized by the Legislature.

Favorable action has been secured on \$297,000 of the items in the loan bill of July 26, 1907 amounting to \$514,500 which were recommended by the commission to be revoked, \$233,000 having been rescinded and \$64,000 having been transferred for useful objects; items amounting to \$213,000 have been issued contrary to the commission's recommendations and one item for \$2,500 has not been rescinded but it has not been issued.

The Legislature on the recommendation of the commission, by chapter 315 of the Acts of 1909, revoked all authority previously given under special acts to issue loans outside the debt limit except for rapid transit purposes.

Since the date of the commission's recommendation no money has been borrowed for current expenses, and with the exceptions previously noted as to school and sewer loans none has been borrowed for expenses of an annually recurrent nature. In 1909-10 and in the present year no money has been borrowed for street repairs, as in former years, the money for this purpose having been provided from taxes. Moreover, last year considerable sums were appropriated from taxes for permanent improvements such as those at the City Hospital and at Curtis Hall, for reconstruction of bridges and for a new boat for the Infirmary Department; and this year for permanent improvements at the City Hospital, for bridge reconstruction, for a new ferryboat, and for the reconstruction of Eastern Avenue Wharf. Such action marks the approach of a sound financial policy and cannot be too highly commended.

As a result of such improved financial methods, the city's indebtedness for all except rapid transit, metropolitan district and state purposes, actually decreased \$1,720,768.36 in the fiscal years 1908-09 and 1909-10, of which reduction \$1,000,000 was due to the payment by the state to the city for the Boston Insane Hospital property.

The commission makes no criticism at the present time of the loans made in the current year, but calls attention to the fact that the debt is again rising rapidly and that there is a necessity of scrutinizing with the greatest care the loan orders now pending.

Notwithstanding the appropriations from taxes which, under the lax financial methods of former years would have been made from loans, the net city and county debt which was \$71,345,972.58 on January 31, 1910, rose to \$74,983,605.29, by August 31, 1910, an increase in seven months of \$3,637,632.71. The increase will be partially offset by payments into the sinking funds during the year, but it is certain that the net city and county debt will be much greater at the end of the year than it was at the beginning.

The loans authorized in the present and previous years, and issued in this year, amount to \$4,173,500, including \$1,000,000 for rapid transit purposes and \$1,000,000 for land and buildings for schools.

The loan orders now pending in the City Council amount to \$2,110,750, as shown in a table annexed hereto, marked

"Appendix A." Only \$1,193,545.71, or about one-half this amount can be authorized now, however, as the borrowing capacity which was \$3,774,045.71, at the beginning of the year has been reduced by loans amounting to \$2,580,500, as shown in an appendix hereto marked "B."

Notwithstanding this slender borrowing capacity the commission believes that the city's interests require the passage of the following loans:

1. Land for the extension of the department of infectious diseases, City Hospital, \$67,000:

The City Hospital Trustees urge this loan in order to provide additional facilities for the treatment of infectious diseases. In the two years, 1908 to 1910, inclusive, 226 persons suffering from scarlet fever or diphtheria were denied admission on account of lack of accommodations; and in the latter of the two years over 100 persons ill with scarlet fever were also denied admission, but were sent to the Haynes Memorial Hospital for treatment at the city's expense. In case of epidemic the facilities at the City Hospital are inadequate. The commission believes the extension to be necessary at the present time, and as the land can be secured at a fair price there appears to be no reason for delay.

2. Fire Department, rebuilding repair shop, \$68,658:

The recent destruction of the repair shop makes the passage of a loan necessary. Besides the \$68,658 for rebuilding the repair shop, \$115,500 is asked to provide tools, machinery and fire apparatus. The commission believes that only the sum required for rebuilding the repair shop should be raised by loan and that such of the other items as are necessary be provided for by a transfer from the reserve fund, which on August 31, was \$177,429.50.

3. Incinerating plant, \$300,000:

The need of providing better means of disposing of refuse is generally recognized. The former superintendent of streets, now engineer for the commission, believes that money should be provided now for the erection of one incinerating plant. In this opinion the commission concurs unless far more favorable terms than the existing ones are secured by the city from the contractors who are now disposing of refuse at Spectacle Island and on Atlantic avenue, or from other contractors, it will be necessary for the city to erect a number of incinerating plants. The present Superintendent of Streets, on August 27, 1910, advertised for bids for disposing of refuse for a term of ten years from January 1, 1912, the date of the expiration of the contract between the city and the New England Sanitary Product Company. Pending the submission of bids the money for one incinerator should be provided and plans for its construction should be drawn, so that the city in the event of receiving unsatisfactory bids may, at once, make partial provision for the disposal of refuse and arrange for the erection of more incinerators next year. The bids of private contractors should be considered, and the city's policy determined not later than the beginning of the next fiscal year.

4. Street lighting equipment, \$180,000:

As already stated in its report, dated July 22, 1910, the commission believes this loan order should be increased to \$310,000 so as to provide for automatic lighting and extinguishing devices as well as for the inverted mantle gas lamps contemplated in the original loan order of \$180,000. By this means the city would become the owner of its own street lighting equipment, the middleman would be eliminated and the city would save over

the present prices about \$55,000 a year. The recommendation of the commission has not been adopted, partly because of the Mayor's reported unwillingness to displace some of the present force of lamp-lighters, who are employees of a private contractor, and partly because of the Superintendent of Street's opinion that the efficiency of automatic devices has not been demonstrated. The superintendent accordingly advertised for bids for street lighting on a two-year contract, but the advertisement has since been withdrawn, properly, the commission thinks, as no company, obliged to install 12,000 street lamps, could bid successfully in competition with the present contractor whose plan is now installed. The Superintendent of Streets now states that it is his intention to solicit bids on a more comprehensive plan—namely on a five or ten-year contract from operating companies which will furnish gas, lamps, and care for the equipment, from companies which will sell lamps, or automatic devices, but will not take care of the equipment and also from the Edison Electric Illuminating Company for furnishing electric lamps and light. He states that as a result of the bids which may be obtained it may be necessary to have \$310,000 available for the purchase of as lamps and automatic devices and he believes a loan for that amount should be authorized. If the loan is needed it will be available, and if it is not required it need not be issued.

If these four loans, aggregating \$745,658 are passed, the existing borrowing capacity will have been reduced to \$447,887, which will have to provide for all contingencies until the 1st of next February. The commission believes that this is none too large margin of safety for a city of the size of Boston, exposed as it is to such dangers as the recent fire in the lumber district has made manifest. The City Auditor believes, and in this the Finance Commission concurs, that the entire borrowing capacity of the city should not be exhausted in any year, but that a reserve of not less than \$500,000 should be maintained. Epidemics, conflagrations and bursting of water mains may occur at any time; and a reserve of at least \$500,000 should be available for such contingencies. The necessity of a reserve is emphasized by the fact that a large sum may be needed this year to provide for the erection of a building and the installation of apparatus for a new fire-alarm system. This subject has already been referred by the Mayor to the Chamber of Commerce, the Boston Board of Fire Underwriters and the Finance Commission for consideration.

The commission believes that the following loan orders now pending, should be rejected:

1. Parks, playgrounds and bathing establishments, \$1,085,750:

These various orders should be rejected for lack of funds; none are of sufficient importance to justify trenching upon the small reserve.

2. Street widenings:

Norfolk street, Ward 24.....	\$260,000
Union Park street.....	95,000
	\$355,000

Norfolk Street, \$260,000.—The engineer of the Finance Commission believes that there is urgent need of widening Norfolk street between Codman square and the junction of Bernard street and Lauriat avenue as this part of the street contains two car tracks and is not wide enough to provide properly for the heavy travel which it sustains. The need of widening the street beyond Hobson square he believes to be less urgent though it is his

opinion that it will have to be done in the near future and that its postponement will increase the land damages the city will have to pay.

The commission believes that the widening would be of public benefit but that it is not of such pressing necessity as to justify the withdrawal of so large a portion of the money which can be borrowed this year. The Street Commissioners should be requested to report to the City Council before the beginning of the next fiscal year as to the cost and the necessity of this widening as compared with improvements of other thoroughfares.

Union Park Street, \$95,000.—The widening of this street is proposed in order to improve the perspective of the Cathedral of the Holy Cross, as appears from the following language in the message of the Mayor accompanying the loan order:

"I beg to recommend for passage the accompanying loan order for \$95,000 for the widening of Union Park street, between Washington street and Harrison avenue, to a mean width of about 71 feet. It has always been regarded as unfortunate that Union Park street should be contracted at this portion of its course to a narrow and unattractive passageway. It forms the northern boundary of the Cathedral of the Holy Cross, which is one of the largest and noblest edifices of public worship in the city. The flank view of this great pile is, I am assured, particularly fine from an architectural standpoint, but its effect is lost to a great extent because of the absence of a proper perspective. By broadening Union Park street an admirable oblique view of the entire structure, including the facade and one side, with the left transept, may be obtained from Washington street, and its cruciform character, from which the name is derived, will be plainly revealed."

The æsthetic purpose which appears in the message is a laudable one; but it does not justify the proposed expenditure of the city's money. If it were held to do so any public street might be widened in order to improve the view of edifices not public property.

Nor is the fact that Union Park is wider than Union Park street a sufficient reason for widening a portion of the latter as now proposed. They were not laid out at the same time as one highway, but at different times and for different widths. The former was intended as a park and highway, the latter as a highway only, and the width of each was determined with reference to their intended uses. If Union Park street is too narrow to accommodate its pedestrian and team traffic it should be widened as soon as the city can afford it. Until it is shown to be too narrow for these purposes it should not be widened at the city's expense. The commission believes that there is not a sufficient volume of team traffic or travel by pedestrians to justify any expenditure of the city's money for this purpose. The team traffic through Union Park street and some of the adjacent streets between Washington street and Harrison avenue was counted for nine hour periods on two days, August 3 and 8, between 8 a. m. and 6 p. m. The traffic through Union Park street was fairly uniform averaging approximately nine teams per hour; a very small amount of traffic. The average for the first street north of Union Park street, Waltham street, was thirty-four teams per hour; and of the first street south of Union Park street, Malden street, nine teams per hour. The needs of local traffic in the immediate vicinity are amply provided for by Malden and Waltham

streets; and, as Waltham street joins Union Park street just beyond Harrison avenue and continues as a single street to Albany street, through traffic could be accommodated on Waltham street alone. There is no reason to believe that either local or through traffic interests will benefit if Union Park street is widened. As for pedestrians, there is no apparent necessity for widening the street to accommodate them.

Even though the widening might yield certain direct benefits such as the increased development of real estate in the vicinity and corresponding increase in taxable values that does not justify the widening if general public convenience does not require it. Moreover, the commission believes that if any indirect benefits are realized they will be slight owing to the character of the buildings and occupations in the vicinity, the presence of the elevated railway structure, and the known tendency to depreciation in value in this part of the South End.

Various precedents, so called, have been cited by the advocates of the widening, but none of them touch the real question at issue, namely: The necessity of widening the street. It seems to the commission that the laying out of streets in the past, which were not expected to promote public convenience, furnishes precedents which ought not to be followed by a city that lacks money for improvements of great public advantage such as the widening of thoroughfares, the laying out of streets in the growing suburbs, the provisions of better bathing facilities, more playgrounds for the children, and a system of public convenience stations.

Moreover, the precedents cited, namely, the purchase of Trinity Triangle in Copley square, the laying out of Avenue Louis Pasteur and of Opera place, differ from the Union Park street case in important particulars.

Thus by the purchase of Trinity Triangle the city preserved forever for the benefit of the public free access of light and air to Copley square, an existing public park. To permit the triangle to be built upon by a private owner would have seriously impaired the value of the city's interests in Copley square, in the Public Library and in the Art Museum. The city had acquired a site for the Public Library, had given a site for the Art Museum and had laid out Copley square prior to the purchase of Trinity Triangle, which was the final act in a series of improvements conceived at an earlier period and involving millions of dollars. The city's interests were important enough to justify the payment of \$30,000 for their protection and doubtless the expenditure would have been made if adjacent church and other private property had not been in existence.

It should also be noted that in these cases private interests made contributions, unlike the Union Park street case, where the improvement is intended to be at the city's sole expense. Thus the land for Avenue Louis Pasteur was given to the city, half the value of the land was contributed by private parties in the Opera place case, and, according to the report of the majority of the Board of Aldermen, private parties contributed \$41,000 to the purchase of Trinity Triangle, the city's contribution being \$30,000. (See City Council Minutes for the year 1884, page 603, 612.) The legislative history of the purchase of Trinity Triangle is shown in an appendix hereto annexed, marked "C."

The city is under no moral obligation to widen Union Park street. The part now proposed to be widened was a narrow pri-

vate way known as Blake's court up to 1860, when it was dedicated as a public highway and named Union Park street. In 1860 the church authorities began to acquire land for the Cathedral, and in 1868 the corner stone of the Cathedral was laid. Thus it appears that the site was acquired and the edifice erected with a full knowledge of the physical environment, and if a mistake was then made in building a noble structure on a narrow street, that furnishes no reason for the widening of the street now at the expense of the city.

3. Bridge on Medway street over New York, New Haven & Hartford Railroad tracks, \$15,000:

The engineer of the commission reports that this loan is intended to provide better fire protection in the territory served by the bridge, which, though apparently strong enough for all purposes, would, on account of its width and crooked approaches, cause the Fire Department difficulty in the maneuvering of long ladder trucks. In his opinion, however, such apparatus would not be required, as the section served by the bridge is an isolated one, nearly surrounded by the metropolitan park reservation, and the houses are only twenty-six in number, of ordinary wooden frame construction and assessed for a total of \$59,600, or about 30 per cent more than the cost of the protection. The bridge was built and is maintained by the railroad and whenever the bridge is altered the company should be called upon to pay a portion of the expense. The commission believes that action on this case can be postponed without danger of serious consequences.

4. Branch public libraries:

North End.....	\$50,000
Ward 25.....	25,000
Charlestown.....	45,000
	\$120,000

The building of branch libraries at the North End and at Charlestown have been recommended by the library trustees and the commission sees no objection to providing them whenever funds are available. The necessity for any of the three items is not so great, however, as to require that it be provided for now out of the small borrowing capacity remaining.

5. Engine house and site, Parker Hill, \$25,000:

The former Finance Commission on the advice of the then Fire Commissioner recommended that a loan order for \$15,000 for "engine house and apparatus" on Parker Hill be rejected on the ground that "the top of a hill is not a good place for an engine house" and that the needs of the district could be served better by putting in a high service water system on the hill, which, though more costly in the first instance, would be more economical in the long run, as it would save the cost of maintaining an engine house. (Vol. 1, p. 113.)

The loan was issued, however, but only \$27.90, the cost of advertising, has been expended out of the \$15,000 appropriated. The additional loan of \$25,000 is intended to provide land for the site, thus increasing the cost of the original plan, which was to put the house on the land owned by the city. In the opinion of the commission the balance of the original loan should not be expended and the pending loan should be rejected, as the project is even more objectionable now than it was when the former Fire Commissioner and the former Finance Commission recommended its abandonment.

The commission recommends:

1. That the sound policy of providing out of taxes for the extension of water

mains, repair of streets and for other current expenses be continued.

2. That the practice of borrowing money for such annually recurring needs as sewers and land and buildings for schools be discontinued, for the former at once, and for the latter as soon as existing school needs are provided for; and that such expenditures be met from taxes thereafter.

3. That loans be provided for the following objects:

Land for infectious diseases department,	
City Hospital.....	\$67,000
Repair shop and apparatus, Fire Department.....	68,658
Incinerator.....	300,000
Street lighting equipment.....	310,000
	\$745,658

4. That all other loans now pending, aggregating \$1,630,750, be rejected.

5. That the borrowing capacity of \$447,887 remaining after the four loans above recommended are provided for be reserved for emergencies.

6. That hereafter not less than \$500,000 of the borrowing capacity of the city be maintained as a reserve, no part of it to be used except in cases of the greatest emergency.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

APPENDIX A.

LOAN ORDERS PENDING.

1. Incinerator.....	\$300,000
2. Street lighting equipment:	
Inverted mantle gas lamps.....	180,000
3. (a) Parks and playgrounds recommended by Park Commission:	
Commonwealth avenue:	
Loam and planting:	
Brighton avenue	
to Warren street,	\$9,750
Warren street to	
Chestnut Hill	
avenue.....	27,000
Strandway:	
Sanitary on playground.....	12,000
Fencing children's playground.....	1,000
Children's shelter..	1,500
Protection of beach,	
6,000 cubic yards	
filling at 60 cents..	3,600
Copp's Hill Terraces:	
Grading.....	800
800 square yards	
granolithic pavement	
at \$2.....	1,600
Changes in masonry	
and fences.....	800
Charlestown Playground:	
Completion of sanitary	
and locker building.....	10,000
Grading, loaming	
and planting.....	1,500
Completion of gymnasium.....	500
Rogers Park:	
Sanitary.....	7,500
Grading, loaming and	
planting.....	2,000
Neponset Playground:	
Filling and grading..	10,000
Shelter.....	1,500
Billings Field:	
Filling and grading,	
Fence around children's	
corner.....	1,000
Shelter.....	1,500
Prince Street Playground:	
Paving.....	3,600
Shelter.....	1,500
Mystic Playground:	
Raising sea wall and	
grading.....	1,500
Roslindale Playground:	
Retaining wall....	2,500
Fencing, including	
children's corner..	2,000
Grading.....	500
Forest Hills Playground:	
Sanitary and locker	
building.....	15,000
West Third Street Playground:	
Grading, surfacing,	
loaming, fencing,	
sanitary accommodations, etc...	8,300

West Fifth Street Play-ground:	
Grading, surfacing, loaming, fencing, sanitary accommodations, etc.	\$8,800
Fellows Street Play-ground:	
Sanitary accommodations	4,000
Chestnut Hill Park, additions:	
Grading and planting,	1,500
	\$141,250
Neighborhood Playgrounds:	
Ward 2.....	\$35,000
Ward 3.....	25,000
Ward 13.....	25,000
Ward 14.....	35,000
Ward 15.....	35,000
Ward 16.....	35,000
Ward 20.....	35,000
Ward 23.....	35,000
	260,000
(b) Parks and playgrounds recommended by members of the City Council:	
Playground or park, Meeting House Hill, Improvement, North End Park.....	\$49,000
Enlargement, Orchard Park and municipal building.....	35,000
Playground and park, Neponset river.....	200,000
Playground and park, Mt. Ida.....	15,000
Overlook Park, Ward 20.....	50,000
Improvement of playground, McKenzie Beach.....	27,000
Playground, Ward 5.....	10,000
Playground, Ward 25.....	150,000
Sanitary and locker building, Strandway Playground.....	15,000
	14,000
	565,000
4. Bathing Establishments:	
(a) Dewey Beach, Charlestown.....	\$15,000
(b) New building, McKenzie Beach, Ward 16.....	1,500

	\$2,580,550 00
Right to borrow August 31, 1910..	\$1,193,545 71

APPENDIX C.

TRINITY TRIANGLE.

Origin and History.

- 1884, Oct. 8. Alderman Greenough offered an order that the Street Commissioners be requested to report on the cost of laying out Trinity Triangle as a public street. Order passed. Sent down. (See City Council Minutes, 1884, page 458.)
- 1884, Nov. 1. Street Commissioners report that \$62,000 would be required to lay it out as a public street. Laid on table on motion of Alderman Greenough. (See City Council Minutes, 1884, page 513.)
- 1884, Dec. 15. Alderman Leighton offered an order that \$30,000 be appropriated to cover the expense of acquiring the land (Trinity Triangle). (See City Council Minutes, 1884, page 588.)
- 1884, Dec. 15. Letter from Stanton Blake, former secretary of a committee of citizens for the preservation of Trinity Triangle, suggesting the appropriation of \$30,000 for the purchase of the property. Letter states that owner values the land at \$71,541.35, against which \$30,000 had been collected by private subscription and \$6,541.35 more expected. Order and communication referred to the Finance Committee. (See City Council Minutes, 1884, page 588.)
- 1884, Dec. 22. Alderman Leighton offered the following report:

Majority Report.

- (1.) The present is the time to acquire the estate before any structure is erected which would add to the cost.
- (2.) That the larger interests of the city in this locality demand that immediate steps be taken to protect those interests.
- (3.) The abutters are paying more than \$41,000.

C. V. WHITEN,
For the Majority.

Committee submitted a new draft of the order offered by Alderman Leighton but which was substantially the same, calling for \$30,000 appropriation for the purchase of the land (Trinity Triangle).

Minority Report.

- (1.) Not reasonable to suppose the removal of the value of this property from the assessors' books can be met by assessments upon the property of others.
- (2.) Already large sum of money expended in ornamenting this open space.
- (3.) Expenditure of money for purely ornamental purposes.
- (4.) Not been shown that public necessity and convenience require this expenditure.
- (5.) High valuation and tax rate demand that no appropriation be granted not absolutely needed.

Reference to next Council recommended.

JOHN W. FRASER,†
J. EDW. LAPPEN,*
J. F. MARLEY.*

* Mr. Marley and Mr. Lappen, on December 26, 1884, withdrew their names from the minority report and agreed to the appropriation.

† Mr. Fraser, on January 1, 1885, voted for the appropriation. Majority report accepted. The chairman of the Board of Aldermen read a petition signed by 1,200 leading citizens and tax-

payers of Boston in favor of the project and appropriation. Order recommended by the majority read a second time and passed. Yeas 12, nays 0. (See City Council Minutes, 1884, page 603.)

- 1884, Dec. 26. Councilman Bromwich in the debate in the Council over the passage of the order stated that \$41,000 out of the \$71,000 had been subscribed by gentlemen who lived in the neighborhood of Trinity Triangle. (See City Council Minutes, 1884, page 612.)
- 1884, Dec. 26. Report of the majority accepted by the Common Council. Yeas 49, nays 15. (See City Council Minutes, 1884, pages 609-614.)
- 1885, Jan. 1. Order read a second time and passed in concurrence. Yeas 62, nays 2. (See City Council Minutes, 1885, page 651.)
- 1885, Mar. 12. Ordered that Trinity Triangle be made a part of Copley square. Referred to Committee on Commons and Squares. (See City Council Minutes, 1885, page 178.)
- 1885, April 16. Ordered, That the name of Copley square is hereby made to include the parcel of land adjacent thereto recently purchased by the city and known as Trinity Triangle. Order passed. Sent up. (See City Council Minutes, 1885, page 275.)
- 1885, April 20. Above order passed in concurrence and Aldermen notified. (See City Council Minutes, 1885, page 280.)

BUFFALO IS COMING TO THE FRONT.

The announcement of the Chamber of Commerce and Manufacturers' Club of Buffalo, on the want page of the *Fourth Estate*, that it is in the market for a high class publicity secretary is an evidence of the progress the "Queen City of the Lakes" is making as a municipal advertiser. With a substantial fund to back the work, Buffalo is about to start off on a campaign of publicity that will make known to the nation the unusual advantages of "the city at the junction of rail, lake, canal and river."

Buffalo's debut in the advertising field is but recent. Although for the past few years it has been felt that the city's facilities should be published broadcast, there was a lack of concert on the part of those active in the city work, which seemed to preclude success. The big trouble appeared to lie in the fact that there were two strong rival commercial organizations instead of one.

With the amalgamation of the Chamber of Commerce and Manufacturers' Club into one commanding organization this difficulty was overcome. In ratification of the consolidation a dinner was held, at which President Taft was the guest of honor. More than a thousand men sat down to the feast, most of them members of the Chamber. Enthusiasm ran high that night; the unified civic spirit was seen to be an accomplished fact.

Taking advantage of an awakened civic spirit, a campaign was inaugurated to raise \$100,000 for the promotion of the city's interests through the Chamber. In six days more than \$100,000 was assured, by far the greater part of this having come from the membership of the organization, which numbers upwards of 2,000.

The working organization that will be established as a result of the raising of this fund is now being gotten together. Since Buffalo combines industrial advantages with tourist attractiveness, three bureaus will be instituted,—a convention bureau, and industrial bureau and a publicity bureau. Through these departments, and especially through the general advertising of the last-named, Buffalo expects to place itself in the fore front of the cities with even greater expedition than it has been making.—*Fourth Estate*.

PROCEEDINGS OF CITY COUNCIL.

Monday, September 19, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent, Coun. Kenny.

The Council voted, on motion of Coun. BRAND, to dispense with the reading of the records of the last meeting.

APPOINTMENT BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, September 19, 1910.
To the City Council:
Subject to confirmation by your honorable body, I hereby appoint Charles J. Donovan (7 Wallace court, Ward 5) a Weigher of Coal for the term ending April 30, 1911.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Laid over under the law.

SANITARY CONVENIENCES IN BOSTON.

The following was received:

City of Boston,
Office of the Mayor, September 14, 1910.
To the City Council:

A communication from Mr. M. L. Berkowitz, executive secretary of the United Improvement Association, inclosing a report prepared by the committee on public health of that association on the subject of sanitary conveniences in the City of Boston, has been received by me. I understand that duplicates of this document have been sent to the individual members of your honorable body, and presume that, in view of the grave importance of the subject treated in this extremely thorough and interesting report, you will give the matter the attention which it eminently deserves.

I await any action which may be taken by your honorable body upon this question and beg to assure you of my desire to co-operate with you in any plan which you may adopt which in my opinion is practicable and harmonious with the general interests of the city.

Respectfully,
JOHN F. FITZGERALD, Mayor.

September 10, 1910.

Hon. John F. Fitzgerald, Mayor,
City of Boston, City Hall, Boston:

Dear Sir,—Inclosed you will find a report prepared by the Committee on Public Health upon the subject of public sanitaries and convenience stations in the City of Boston, which was adopted by the delegates representing the local citizens' and improvement associations combined in the United Improvement Association at a meeting on June 1 last.

The delay in forwarding this report to you is occasioned by the fact that it was felt by the members of the committee that with the large amount of city business on hand during the summer months it would be better to hold this important subject until a time when it could be assured most careful consideration.

The importance of this matter as a city problem is apparent, and we trust that it will receive your serious attention.

Very truly yours,

M. L. BERKOWITZ,
Executive Secretary.

The Committee on Public Health of the United Improvement Association believes that the City of Boston should give serious consideration, in the interest of the health of the people, to the subject of the establishment of public sanitaries or convenience stations. At present, with a single exception, there are no such stations worthy of the name within the municipal limits. The sole exception is the well equipped and maintained station on the Common, where complete toilet facilities are provided for both sexes.

A board of experts on this subject might be selected, the members of which would gladly volunteer their services in the working out of a plan which would result, year by year, in the building of suitable additional stations, first in the downtown districts and later at junction points in the outlying sections, until the entire city is provided for.

The committee has purposely refrained in the report which follows from naming specific points at which the first stations should be built, leaving that to the judgment of a representative board under whose jurisdiction a plan should be evolved.

The desire of the committee and of the association which it represents has been to point out what other cities are doing in this respect and what the City of Boston owes to her citizens.

The report is as follows:

The importance and actual need of convenience stations has not, until recently, been appreciated

by the majority of American municipalities. The rapidly increasing growth of the population in our city, with the ever increasing burden borne by private enterprise in caring for the health and comfort of the public, demands immediate consideration and some attempt on the part of the municipality to lessen this burden.

It is noted that this need is met in most American cities by retail merchants, hotels, restaurants, office buildings, railroad stations and saloons. To those who are familiar with local institutions and customs the above agencies may in a way supply the need, but the visitor to our city is seriously inconvenienced.

A visit to twenty saloons out of 300, situated in the "Loop District" in the city of Chicago, brought out the following facts: First, that every saloon had toilet facilities; second, that the saloon men regard this privilege as bringing in more trade than their free lunch counters; third, that the toilet facilities are constantly used because they are convenient, numerous, and a man feels that he is welcome. The saloon is supplying more than any other agency, at least in Chicago, the public comfort or convenience stations that the public demand. The danger to the young or any man cannot be minimized, when there is evidence to show that either the taste for liquor was first acquired in this way, or, at least, the habit enslaved the individual through the continued use of the saloon as a convenience station.

This makes clear certainly the distinct moral bearing of this utility.

From an economic point of view many of the private enterprises would be saved much money, which is now expended in increased janitor service, increased water rates, cost of maintenance, as soap, toilet paper and disinfectants, in addition to the loss of rentable floor space and the possible loss of tenants by the encroachment of the public.

It has been noted in other cities that the absence of these stations has had a demoralizing effect on the discipline of public servants. Ex-President Roosevelt when Police Commissioner of New York complained that the police could plead a legitimate excuse for entering a saloon other than in the performance of duty. Other public as well as private employees engaged in out-door work are seriously inconvenienced, therefore the provision of public convenience stations should be recognized as a necessity for citizen as well as public servant.

The provision of public toilet facilities has a distinct effect upon public health. There is no doubt that over distention of the bowels, particularly from prolonged retention of their contents, can result in most serious damage to the health of the individual, male or female, causing in some instances displacement of pelvic viscera, constipation with its attendant phenomena, increased irritability of the bladder, disintegration of the bladder, mucous membrane and cystitis.

Particularly in the larger cities women and children are kept from their homes for many hours during the day, and the discomfort arising, especially to aged persons, will readily be recognized. The following letter was sent to the chairmen of the Boards of Health in some of the principal cities of the United States by the committee:

"The Committee on Public Health of the United Improvement Association desires to secure information with regard to public sanitaries or convenience stations in your city, and desires to learn the kind of stations which exist, the number, cost of building and cost of maintenance.

"The committee is endeavoring to bring about the establishment of a greater number of public sanitaries in Boston, and desires to prepare a plan to be presented to the Board of Health. Whatever assistance that you can give will be appreciated."

New York, Chicago, Minneapolis, St. Paul, Cleveland and Rochester replied promptly with the following facts:

New York has nine public stations at an average cost of \$26,000, three being above ground and six below. On the male side the stations are open from 6 a. m. until 12 p. m., and on the female side from 6 a. m. until 10 p. m. Three male and two female attendants are employed in each. They work in eight-hour shifts, and are paid respectively \$2.50 and \$2 per day each.

Chicago reported three stations, Minneapolis and St. Paul none at present.

Cleveland has one combination waiting room and convenience station, situated in a public square, costing \$10,000, and maintained at an expense of \$5,751.84 per year. There were eight male and eight female attendants, working in eight-hour shifts, being paid \$55 and \$45 per month respectively. Hand towels are furnished free, 1,500 being used yearly. Daily attendance averaged 9,000. The waiting is so arranged that it can be inclosed in winter.

Rochester reported one station, costing \$11,000, but not yet complete. In addition it was ascertained that Worcester has one station, costing \$13,759.64, already overtaxed and enlargement contemplated.

Holyoke has no convenience station at present, and is using closets in conjunction with trolley waiting rooms.

Brooklyn in 1907 had at least six of the best equipped convenience stations in the country, all of the underground type, well heated, ventilated, lighted and maintained in perfect condition, at a total cost of \$123,549. These six stations during the year 1905 were patronized by 10,778,387 men and 1,336,930 women, totalling 12,115,317, averaging 2,000,000 at each station per year.

In Washington, D. C., there are two stations, one

above and one below ground, costing \$25,000 each, with an appropriation of \$5,000 for maintenance. In 1907 the total number of patrons averaged a million for each station, or actually 5,272 per day, 198 per hour, nearly five per minute. Twelve and one-half per cent of the total users were women, who contributed a little less than 7 per cent of the receipts from pay compartments and clean-towel fees. Cost of maintenance was \$6,200, the total cost for operating the stations, including wages, supplies, repairs and all charges, amounted to 3.1 mills per person using them, and after subtracting receipts from the expenditures it amounted to 2½ mills per person.

Boston reported one convenience station, Columbus, Denver, Hartford, Indianapolis, Louisville, Milwaukee, St. Louis, Providence and Bridgeport have either allotted appropriations or are agitating for them.

A letter similar to the one above transcribed was sent to the consuls in London, Paris, Berlin, Vienna, Glasgow and St. Petersburg, and brought forth the following facts in relation to each:

According to our consul at Paris this city is behind the other European cities in the matter of convenience stations, having only two underground stations and a number of unsightly urinals.

Vienna has 178 urinals, with 798 compartments and a number of conveniences, and other Austrian cities follow Germany in this respect. Berlin has 146 urinals and 785 compartments; Dresden 29 public conveniences for men, one of which can be used as a lavatory for women. Leipzig and Munich have a number of public urinals and conveniences for men and women. Milan, Rome and Naples provide public comfort stations, in addition to numerous public urinals. Rio Janeiro, Brazil, has thirty public lavatories at suitable intervals in fifteen small public market places. St. Petersburg has a few convenience stations, unsystematically arranged and improperly maintained. London and Glasgow are referred to in most of the consular replies as representing the greatest progress in this line of public conveniences.

Quoting in part from the letter received from the consul in London, describing the conditions in the city of Westminster, a part of greater London, he writes:

"The accommodation is of two kinds, viz.:

"(a) Underground public conveniences for men and women, of which there are 17 in Westminster, the majority situated in busy streets, and,

"(b) Above ground urinals for men, of which there are 40. The underground conveniences are mostly constructed under the streets or under public parks adjacent to, and with means of access direct from, the streets. They contain urinals, water-closets and lavatory accommodations. In the case of one of these underground conveniences, there is also a dressing room which can be hired on payment of a small fee. In the men's conveniences a charge of 2 cents is made (by means of penny-in-the-slot locks) for the use of the water-closets, and a similar charge is made in the women's conveniences for the use of the urinals or the water-closets. A charge of 4 cents is made for the use of the lavatories. At the Marble Arch station (Hyde Park), on the men's side, there are 24 water-closets, 12 lavatory basins and 72 urinals; on the women's side there are 10 water-closets and 4 lavatory basins. The average cost of maintenance and working is \$3,946 per year, with receipts of \$6,161 per year.

"The station at Piccadilly Circus contains, on the men's side, 14 water-closets, 10 lavatory basins and 20 urinals; on the women's side, 6 water-closets, 5 lavatory basins; average cost, maintenance and working, \$4,618; receipts, \$9,781 per year. The underground conveniences are opened at 7.30 a. m. on week days and 9 a. m. on Sundays. Most of the men's conveniences remain open until 1 a. m. and most of the women's until midnight. There is always an attendant at the underground stations, and two at the larger ones."

The addresses of the various contractors are also given for future reference.

The communication from our consul at Glasgow was even more interesting and complete, and is quoted as follows:

"There are in Glasgow 132 public conveniences which may be classified as follows:

28 underground.

11 above ground, or pavilion conveniences.

9 built urinals.

85 square or circular cast-iron urinals.

"The underground conveniences are located in the center of a street or in suitable places at the junction of two or more streets; the above ground, or pavilion, conveniences and the built urinals are placed at or adjoining the building lines of the streets; the cast-iron urinals are erected at the edge of foot pavements on the streets or where two or more streets come together.

"I beg to inclose herewith diagrams of 26 underground conveniences in various parts of the city, which are self explanatory. I also inclose a copy of the specifications for the erection of one of these conveniences and a copy of the specification for built urinal, both of which may be taken as practically applicable to the majority of underground conveniences. The urinals of the latter class are built with white enameled tile lining, enameled fire clay urinal stalls, with most modest fittings, the outer walls being constructed of terra cotta and stone courses."

There was inclosed a table of all the conveniences which are in charge of attendants, with accommodation, cost, receipts and expenditures for each for three years. The diagrams cover a wide range of application to this question, including examples of difficult but desirable locations, with different methods of arrangement and types of construction, also means of obtaining direct light. These diagrams will be most valuable for future reference.

The unsightly and unsanitary single or grouped surface urinal is no longer considered scientific. It is desirable that public conveniences in general should be so placed as to attract the least attention, that they in every instance be wholly or partially underground. If partially above ground, suitable landscape gardening or type of design would combine to minimize their prominence. The arrangement of the respective entrances for men and women should be so designed as to remove a very natural distaste to their use. If possible, they should be concealed from each other, and in any case they should be as far removed from each other as the conditions surrounding the site will permit. Not only should the exterior and the approaches to a public convenience be of such a character as will educate the public, but the interior and its equipment should be so perfectly designed that the use of the station will tend to elevate the sense of decency rather than degrade it. Habits of cleanliness should be induced, and self respect stimulated, and these results will not follow if a station is poor in design, equipment, and improperly cared for.

The interior design of a public station should be simple and open. The passageways should be straight and wide, thus minimizing congestion on the one hand and enabling the visitor as well as attendant to observe all parts of the interior. All such accessories as bootblackening stands, newspaper counters, checking windows and telephone booths should be subordinate to the main feature of the design. Natural illumination is preferable to artificial, and is one point in favor of above ground stations. The plumbing fixtures should be of the very best material, and their arrangement should be such as to permit easy access for repairs and thus lessen cost of maintenance.

As to the question of fees for the use of the conveniences there is a difference of opinion. In London and Glasgow they are charged. In Birmingham the revenue from the fee station is sufficient to pay for the entire up-keep and the interest on the capital invested, and permits the accumulation of a sinking fund to pay cost of construction. In the United States the opinion is in favor of free stations. Rules and regulations for these stations in New York and Brooklyn are as follows:

"Open day and night. Free to the public. No money must be offered or accepted. No loud, profane or indecent language. No beer or liquor allowed on the premises. No lounging or loitering allowed. Drunken or disorderly persons not admitted. Any person defacing or damaging any part of this building will be dealt with according to law. Attendants must report promptly for duty, relieving each other on time. Be constantly present, watchful, careful, courteous and polite to all. Night attendants will thoroughly clean parts. This duty must neither be shirked nor neglected. Violation of these rules should be reported at once."

In addition to consular reports, we are indebted for much of the above information to Mr. V. C. Hart, Jr., and John E. Allen, whose articles appeared in the "Journal of Domestic Engineering."

Referred to the Executive Committee.

APPROPRIATION FOR BREAKWATER, DEER ISLAND.

The following was received:

City of Boston,
Office of the Mayor, September 14, 1910.
To the City Council:

I beg to transmit a letter from the Penal Institutions Commissioner requesting that the sum of eight hundred seventy-two and forty-five one-hundredths dollars (\$872.45) be appropriated to make good a deficit in the special appropriation for a breakwater, etc., at Deer Island, to be expended by the Penal Institutions Commissioner. In my opinion the reasons given by the commissioner are satisfactory and I desire to recommend the accompanying order for passage by your honorable body.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Penal Institutions Department,
September 10, 1910.

The Mayor of Boston:

Sir,—Your attention is respectfully called to the condition of the appropriation of fifty thousand (\$50,000) dollars which was made by the City Council from money received from the sale of land at Deer Island from the United States government on May 11, 1909.

This money has been used for building a new piggery, which is completed and paid for; a new dining room completed and paid for, and a new breakwater, which has been completed, as certified to me by the City Engineer. The account is as follows:

Appropriation.....	\$50,000
Expenditures:	
Breakwater, including amount allowed for damage by storm and excess of length over original estimate.....	\$21,651 75
Piggery.....	16,945 63
Dining room.....	12,275 07
	\$50,872 45
Appropriation.....	50,000 00
Deficit.....	\$872 45

This shows a deficit of eight hundred seventy-two and forty-five one-hundredths dollars (\$872.45), caused under the last contract by the washing away of part of the work in the great storm of last Christmas, and the fact that about seventy (70) feet had to be constructed in the wall above the original estimate of the engineer.

I therefore respectfully request that a provision be made for a transfer to this appropriation, so that the contractor may receive the balance of his money for work which he has done, without unnecessary delay.

Yours respectfully,
FRED S. GORE, Commissioner.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer the sum of eight hundred seventy-two and forty-five one-hundredths dollars (\$872.45) from the appropriation for Reserve Fund to the appropriation for Penal Institutions Department, breakwater, etc., Deer Island.

Referred to the Executive Committee.

TRANSFER FOR ASHMONT BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, September 15, 1910.
To the City Council:

I am informed by the Superintendent of Streets that the expenditures for the Ashmont Bridge extension will exceed the appropriation by the sum of ninety-five and eighty-six one-hundredths dollars (\$95.86). It is contrary to the established policy of the city to provide this amount from the regular departmental appropriation and a special transfer from the Reserve Fund will be necessary in order to cover this trifling balance. I beg to recommend the passage of the accompanying order for the purpose of making good the deficit. A communication from the Superintendent of Streets requesting the transfer is appended for your information.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Street Department,
City Hall, September 14, 1910.
To the Honorable the Mayor:

A transfer is respectfully requested of the sum of \$95.86 from the Reserve Fund to the appropriation for Ashmont Bridge extension to cover balance of cost of said work.

Respectfully,
L. K. ROURKE,
Superintendent of Streets.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer the sum of ninety-five and eighty-six one-hundredths dollars (\$95.86) from the appropriation for Reserve Fund to the appropriation for Street Department, Ashmont Bridge extension.

Referred to the Executive Committee.

DEPARTMENT OF PUBLIC WORKS.

The following was received:

City of Boston,
Office of the Mayor, September 15, 1910.
To the City Council:

I beg to recommend the passage of the accompanying ordinance, which consolidates the Engineering, Street and Water Departments in a new department to be known as the Department of Public Works. The ordinance has been prepared by the Corporation Counsel with the advice and approval of the Superintendent of Streets, who is also the acting City Engineer.

Two principal considerations render the adoption of this ordinance imperative in the interest of more efficient and economical administration. In the first place, the relations of the three departments which it merges have been for some time of an intimate yet anomalous character. A large part of the construction work of the Street and Water Departments is planned by the City Engineer, who, however, has no absolute authority or definite responsibility. Such scattered control, except in the case of highly conscientious officials, inevitably tends toward petty conflicts, evasions and the weakening of discipline. Moreover, the use of the streets by the Water and Street Departments needs to be thoroughly co-ordinated. The similarity of the problems affecting the water and sewer systems is recognized by the Commonwealth in the organ-

ization of the Metropolitan Water and Sewerage Board, and the separation of these two systems in the present arrangement of our city departments is certainly artificial in the highest degree.

The second motive for the consolidation is the need of raising the Street Department to a high plane of efficiency. It is the most costly and important department under the control of the Mayor and the City Council. Its appropriation is by far the largest, it employs the greatest number of men, and its activities radiate into nearly every sphere of the life of the community. It has executive charge of the means of transportation, namely, the streets, bridges and ferries, and performs an indispensable sanitary function in its operation of the sewer system, in the removal of ashes, refuse and garbage from private habitations, and in the flushing, oiling and sweeping of the public thoroughfares. Its lamp division is, of course, a most valuable adjunct to the organized police force of the city. Thus the interests of commerce, public health and civic order are dependent in a large degree upon the successful conduct of this department and it cannot be permitted to deteriorate without affecting the community in some of its most vital energies and functions. The proposed ordinance removes the department from all distracting and irrelevant influences by prescribing the appointment at its head of a civil engineer, who will be sure to bring to his duties the high standards of his profession and the ambition to achieve results of permanent value.

The salary of the head of the Department of Public Works has been fixed at nine thousand dollars (\$9,000), which is equal to that of the Corporation Counsel but far less than is received in private life by men who are invested with similar responsibilities.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston.
In the year Nineteen Hundred and Ten.

An Ordinance Establishing a Department of Public Works and Abolishing the Engineering Department, the Street Department, and the Water Department.

Be it ordained by the City Council of Boston, as follows:

Section 1. The Department of Public Works which is hereby established shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession; who shall construct all streets and sewers; shall have discretionary power as to the grades, materials and other particulars of construction of streets, sidewalks and sewers; shall have charge of and keep clean and in good condition and repair the streets, all sewer systems under the control of the city, and the catch-basins in the streets connected with the sewers; shall keep the streets properly watered; shall remove from yards and areas, when so placed as to be easily removed, all ashes accumulated from the burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal, and all noxious and refuse substances; shall, on the fifteenth day of each month send to the City Auditor detailed bills of all material, tools and machinery furnished by either of the divisions of said department to any other such division or for any special work.

Section 2. Said commissioner shall have the care and management of the ferries owned by the city, shall purchase or build all boats, and make the necessary repairs and alterations on the slips, drops, buildings and boats used for ferry purposes; and shall cause all moneys received by him or his subordinates from tolls and other sources to be paid to the city collector on the day following the day of the receipt thereof, but may retain in the possession of the clerk to the deputy commissioner in charge of the ferry division a sum not exceeding one thousand dollars for making change and for other purposes.

Section 3. Said commissioner shall have charge of all lamps established by the city council and maintained at the expense of the city, of all lamps set up in parks, parkways, or public grounds, and of all lamp posts, posts or fixtures connected with such lamps, and shall set up and affix lamps in the streets; shall have the care and custody of all city property hitherto in the possession of the lamp department, or that shall hereafter be acquired for the purpose of street lighting, and shall maintain and keep the same in good repair; shall see that the streets are lighted by such methods of lighting as the city council may from time to time order, and that the lamps in the streets are lighted and extinguished at such times as are ordered by the city council.

Section 4. Said commissioner shall have the care and management of all bridges which are used as highways, and are in whole or in part under the charge of the city, and of so much of Harvard bridge and Prison Point bridge as are under the charge and control of the city; shall be the commissioner to act with another commissioner for the city of Cambridge, and as such commissioner shall have and exercise all the powers in relation to West Boston bridge and Craigie bridge conferred by chapter three hundred and two of the Acts of the year 1870; shall keep the rails and planks in good order and all dirt, snow and ice removed from the sidewalks; shall keep all said bridges, or those parts thereof under his care, and the abutments, guards, draws and wharves thereof clean and in good condition and repair; shall appoint draw-tenders for the draws in bridges of which he has the care, and see that they properly

perform their duties, and may remove them for such cause as he shall deem sufficient, and shall assign in his order of removal. Each draw-tender so appointed shall take charge by night and by day of the draw of which he is draw-tender; shall require from the person in charge of a vessel applying to pass through the draw a true statement of the name, extreme width, and draught of the vessel; shall determine the order in which vessels may pass through the draw, and may direct the placing of warping-lines, anchors and cables, and the use of any warping apparatus provided by the city; shall cause the draw to be opened for the passage of vessels in accordance with the regulations of the War Department approved May twelfth, 1910; shall cause the draw to be closed with all possible expedition after a vessel has passed through, not permitting more than one vessel to pass through at one opening of the draw, except that, when the draw is open and the bridge is free from persons desiring to cross, he may, in his discretion, permit other vessels to pass through before causing the draw to be closed; he shall perform such additional duties as said commissioner may require.

Sect. 5. Said commissioner shall place and maintain in one or more suitable conspicuous places, to be selected by him, on each street of the city, the name of the street and of the ward in which the street is situated, as shown by the records; shall require the number of each building on a street which he shall designate as the street number therefor to be affixed to or inscribed on the building by the owner, and may determine the form, size, and material of any such number, and the place and mode of affixing or inscribing it.

Sect. 6. Said commissioner shall keep a book in which he shall record the date of every order for constructing a sewer, the name of the contractor or builder constructing it, the date of commencing and the date of completing the work, and the cost of the sewer; also a book in which he shall certify the names of the owners of estates assessed for the construction of the sewer, the number of feet of land of each estate bordering on the street or strip of land in which the sewer was laid, the amount of each assessment, the date of completion of the sewer, and the dates when the notices of assessments were given. He shall make and deliver to the city collector all bills for assessments as they become due.

Sect. 7. Said commissioner shall keep a plan for every existing and every new sewer, showing its depth, breadth, mode of construction and general direction, and shall, from time to time, ascertain and insert on said plans all entries made into the sewers.

Sect. 8. Said commissioner shall, when about to build a new sewer or repair an old sewer, notify all abutters on that part of the line of said sewer when he proposes to do work, and afford them facilities for entering the sewer; and shall, when about to construct a new street, at least four weeks before beginning work, and, when about to make a new surface of any street, at least two weeks before beginning work, notify all persons authorized to place any structure in such street, and require and see that all persons having any work to be done in the streets so designated shall do all such work before the surface of such street is again prepared for and opened to public travel; and, after the completion of the work then done on such street, shall not, for the space of one year thereafter, permit any department or person to disturb the surface of such street or way within the area of such previous disturbance, except in case of obvious necessity, a record of which shall be made in a book to be kept for that purpose.

Sect. 9. Said commissioner may issue permits to persons having authority in the premises to open, occupy, obstruct and use portions of the streets, and should the portion of the street which has been so opened or used require repaving or resurfacing within a period of two years from the time it has been so used the commissioner shall notify the person applying for the permit under authority of which the portion was so used to make such repairs, as in the opinion of said commissioner are necessary, and in case of the failure of the said person to make such repairs within one week from the date of the said notification then the commissioner shall have the right to make such necessary repairs, and the expense of the same shall be paid by such persons; all amounts received by the city collector for work done or materials furnished under notification of the commissioner as above authorized shall be placed to the credit and used as a part of the appropriation for the public works department. Every permit issued as aforesaid shall specify the time, place, size and use of such opening, occupation or obstruction, and the time within which the street must be put in good condition, and shall be on a condition the terms of which shall be those stated in chapter three, section twenty-one, of the Revised Ordinances of 1898, and in addition that the person applying for the permit shall place and maintain from the beginning of twilight, through the whole of every night, over or near the place so occupied, opened, obstructed or used, and over or near any dirt, gravel or other material placed in or near such place, a light or lights sufficient to protect travelers from injury; shall place and maintain a safe and convenient way for the use of foot travelers and for vehicles around or over such place; shall protect such trees as shall be designated by the superintendent of public grounds in such manner as he shall specify; shall provide suitable sanitary accommodations for his employees; shall, if he does not, within the time pre-

scribed by said commissioner, put the street into good condition satisfactory to said commissioner, pay whatever sum the said commissioner shall expend for putting it into such condition; and shall deliver up the permit to an officer of the police force of said city on or before the expiration of the time fixed in the permit for completing the work, such permit to be returned by said officer to the public works department; said commissioner may, in addition to said specifications, specify in the permit, or after the issuing thereof, in writing, the kind of rail or fence to inclose the place, and the kind of way over or around such place, and the manner of constructing the same. If such a permit is issued to a public service corporation said commissioner shall detail an inspector to supervise said opening, occupation and use; said inspector shall see that the backfilling is properly done and the surface repaved or resurfaced to the satisfaction of the commissioner, and a bill shall be deposited monthly with the city collector against the corporations whose work has been inspected for the wages or salaries of said inspectors; all moneys received by the city collector for such inspection as above authorized shall be placed to the credit and used as a part of the appropriation for the public works department.

Sect. 10. Said commissioner may issue such a permit to competent mechanics for the purpose of entering particular drains into public drains and sewers, on a condition the terms of which shall be those hereinbefore stated in section nine of this chapter, and in addition that the person applying for the permit shall make connection of the said drain with the said sewer only in the manner shown on the back of said permit, and only in the presence of an inspector of the sewer division; shall have on the ground, when the inspector arrives to see the connection made, any slant, bend or curve to be used in making the connection; shall not cover up any work until inspected by one of said inspectors; shall not lay the drain in the same trench with a water pipe; shall not connect any exhaust from a steam engine, any blow-off from a steam boiler, or any other pipe for delivering steam or hot water, with the drain or sewer; shall, when he receives any pipe from the public works department in exchange for another, return such other to the yard of the public works department within twenty-four hours after receiving such exchange. Said commissioner shall in each drain permit specify the size, material and mode of construction of the particular drain, and the direction and grade for laying it, but before issuing the permit for entering the drain into a particular public sewer from land upon which a sewer assessment has not been paid he shall be paid for the city an assessment of two cents per square foot for all land in the estate from which the entry is made within one hundred feet of the street or strip of land in which the sewer or particular drain is laid.

Sect. 11. Said commissioner may issue such a permit to a responsible person for the purpose of raising and lowering goods and merchandise into and from buildings, on a condition the terms of which shall be those stated in chapter 3, section 21, of the Revised Ordinances of 1898, and in addition that the person applying for the permit shall maintain, during the whole time the work is in progress, good and sufficient barriers across the sidewalk, from the wall of the building to or from which the goods or merchandise are so raised, out to the curbstone or edge of the sidewalk, on each side of said goods or merchandise, sufficient to protect travelers from injury or danger; and that he will not encumber the sidewalk for more than fifteen minutes at a time for such work.

Sect. 12. Said commissioner shall issue such a permit to any person authorized by the city council to place a coal hole, vault or coal slide under a street, or a cover thereto, on a condition the terms of which shall be those hereinbefore stated in section nine of this chapter, and in addition that the person applying for the permit shall make the underground structure of suitable construction satisfactory to the commissioner; shall make the opening of a coal hole or coal slide circular, and not more than eighteen inches in diameter, and furnish a cover therefor of iron, made with a rough upper surface, and with three or more iron rods or legs at least two feet in length, fitting closely to the side of the opening, and projecting downwards from the underside of the cover, and so constructed that, while the cover can be lifted perpendicularly, it cannot be tipped or easily removed from the opening.

Sect. 13. Said commissioner shall, when authorized thereto by the street commissioners, issue such a permit to a building mover actually engaged in the business, for the purpose of moving a building through the streets, on a condition the terms of which shall be those stated in section nine of this chapter; provided, that an application for such permit, describing the locations from and to which, and the route over which, the building is to be moved, the length, width and height of the building, and the principal material of its exterior and roof, and accompanied by the written consent of the building commissioner to the placing of the building on the lot proposed, shall be first made to said commissioner, who shall make an examination of the premises, and report thereon to the street commissioners for its action. Whenever it appears that the moving of a building will encumber the tracks of any railroad corporation, a public hearing shall be given by the street commissioners upon the subject before such permit is authorized.

Sect. 14. Said commissioner shall, when authorized thereto, by an order of the city council or the street commissioners, according to the nature of the permit, issue such a permit to a responsible person, for the purpose of laying, maintaining and using wires, railway tracks or rails in the streets, or wires, pipes or conduits under the surface thereof, on a condition the terms of which shall be those stated in section nine of this chapter, and in addition that the person applying for the permit shall, whenever requested so to do by the mayor, furnish in his conduits for wires accommodations free of charge for all wires belonging to, or to be used by, the city; shall remove the conduits and wires whenever directed, and not until directed, so to do by the city council; and shall not disturb or interfere with any wires, pipes, or sewers lawfully laid in such street or connected therewith.

Sect. 15. Said commissioner shall, when authorized thereto by an order of the street commissioners, issue such a permit to a responsible person for the purpose of placing and maintaining in the streets poles for the support of wires, on a condition the terms of which shall be those hereinbefore stated in section nine of this chapter, and in addition that the person applying for the permit shall keep said poles well painted and in good condition, to the satisfaction of the commissioner; shall place the wires on said poles not less than twenty-five feet from the ground; shall keep thin name of the person owning the pole distinctly painted on the crossbars used and occupied by him on the pole, and also on the pole at a point not less than six feet nor more than eight feet from the ground; shall allow the departments of the city the exclusive use of the upper crossbar and top of each pole, free of all charge, for the purpose of placing wires thereon; shall not suffer or permit any other person to place or keep wires on said poles, or upon the fixtures thereto affixed, without permission being first obtained in writing from the city council; shall not remove any pole erected under this order until, and shall remove any pole when, directed by the street commissioners so to do; and that on the violation of any term of these conditions the said commissioner shall remove the poles at the expense of the person owning them.

Sect. 16. Said commissioner, before he delivers any such permit to any person for the applicant thereof, shall have received from such person a certificate that a copy of the permit, entered in a book kept for the purpose, is a correct copy of the permit he receives, and the applicant, unless an employee of the city applying for a permit for public work, shall have given a bond, in the case of permits under sections nine, ten, eleven, and twelve of this chapter, of one thousand dollars; under section thirteen of this chapter of three thousand dollars and under sections fourteen and fifteen of this chapter, of twenty thousand dollars; each bond, with one or more sureties satisfactory to said commissioner, conditioned to the faithful observance of the conditions and specifications of each and every permit thereafter issued on his application by the commissioner, and said commissioner may at any time require a new bond, which shall be considered a strengthening bond, unless the sureties on the former bond or bonds are expressly released from their liability by vote of the city council. No bond shall be required of any person to open a public street for the purpose of planting a tree therein if said person has been duly authorized by the proper municipal authorities to plant trees in said highways.

Sect. 17. Said commissioner shall not issue any such permit to a person who has within twelve months previous to his application violated or failed to observe the conditions or specifications of any such permit; but the issuing of such permits and the opening, occupation, obstruction and the use of portions of streets, and the making and maintaining of coal holes, vaults and other permanent excavations under the surface of streets, and their covers, shall be subject to any permission, control, regulation, restriction or revocation which the city council or street commissioners may make.

Sect. 18. Every owner of an estate hereafter maintaining any cellar, vault, coal hole or other excavation under the part of the street adjacent to, or which is a part of, his estate, shall do so only on condition that such maintenance shall be considered as an agreement on his part to hold the city harmless from any claims for damage to himself or the occupants of said estate resulting from gas, sewage or water leaking into such excavation or upon such estate; and every such owner, and every person maintaining a post, pole or other structure in a street, or a wire, pipe, conduit or other structure under a street, shall do so only on the condition that such maintenance shall be considered as an agreement on his part with the city to keep the same and the covers thereof in good repair and condition at all times during his ownership, and to indemnify and save harmless the city against any and all damages, costs, expenses or compensation which it may sustain or be required to pay, by reason of such excavation or structure being under or in the street, or being out of repair during his ownership, or by reason of any cover of the same being out of repair or unfastened during his ownership.

Sect. 19. Said commissioner shall require every person who maintains an entrance on a level with, or below, or a flight of steps descending immediately from, or near, the line of the street, and which is not otherwise safely or securely

guarded to the satisfaction of said commissioner, to include such entrance or steps with a permanent iron railing on each side, at least three feet high from the top of the sidewalk or pavement, and to provide the same with a gate opening inwardly, or two iron chains across the entrance way, one near the top and the other half way from the ground to the top of the railing, and to keep said gates or chains closed during the night, unless the entrance or steps are sufficiently lighted to prevent accident.

Sect. 20. Said commissioner shall keep a record of the notices of defects in streets sent to him, with the name of the person giving the notice, and the time when given, and he shall without delay cause the locality of the alleged defect to be examined, and, if the defect is of such a character as to endanger the safety of public travel, shall do whatever may be necessary to protect the public from injury by the defect, and cause it to be immediately repaired; and every person in the employ of the city shall send to said superintendent notice of every such defect which may come to his notice.

Sect. 21. Said commissioner shall in his annual report include a statement of the repairs and expenditures on each street and on each bridge under his charge; of the number of times each draw of a bridge has been opened for the passage of vessels; of the number of vessels laden with cargo that have passed through each draw; of the condition of each ferryboat, slip, drop, tank and building used for ferry purposes, and of the repairs and expenditures on each; and of the number of persons and teams of different classes that have passed over each ferry during the year.

Sect. 22. The commissioner shall have the care and control of all property acquired or held by the city for the purposes of its water supply; shall maintain the same in good order and condition; shall use and operate the same, and furnish all supplies required therefor; shall take all measures necessary to protect and preserve the purity of the water; shall purchase, lay, maintain and test all meters, pipes and other fixtures and appliances necessary for supplying water for the inhabitants of the city, including the placing of drinking fountains and supplying the same with cold water; shall, as often at least as once in each year, cause the premises of every person who takes water to be visited, and the water fixtures therein to be examined by a skilled inspector; shall shut the water off from, and let it on to, any particular service when notified by the city collector that the water rate therefor has not, or has, been paid, and at such other times as he deems it necessary; shall exercise a constant supervision over the use of water, and, with the approval of the mayor, shall, from time to time, determine and establish the rates for the use of water.

Sect. 23. Said commissioner shall make contracts, issue bills for the use of water, and send the bills to the city collector; shall make abatements of charges for water where improperly assessed; shall provide that all bills for water by annual rates shall be due in advance on the first day of January of each year, and be paid within sixty days thereafter; that all bills for fractional parts of a year, or for specific supplies, shall be due when the water is let on or delivered, and be paid within ten days thereafter; that all bills for water furnished and measured by meter shall never be less than eight (8) dollars per year, shall be due on the first day of January, April, July and October, and shall be paid within ten days thereafter; shall, when two or more dwelling houses are valued together for the assessment of taxes, make separate valuations of each; and shall, when a portion only of an estate is chargeable for the water, make a separate valuation of such portion, and on such valuations the amounts to be paid, if based on values, shall be assessed.

Sect. 24. Said commissioner shall require the secretary of the department to receive all moneys deposited on account of main, service, fire, elevator, motor and other pipes and the laying thereof, or, as security, give a receipt in behalf of the city therefor; pay, from the moneys so received, the amount found by him to be due the person paying any such money, as excess over the amount due the city, and, on or before the fifth day of every month, pay over the moneys in his possession due the city, and account for all moneys so received by him since the last accounting, as provided in chapter three, section eighteen, of the Revised Ordinances of the year 1898.

Sect. 25. Said commissioner shall, from time to time, as he deems necessary, apply, remove and test water meters and maintain the same in good condition; shall record, in a book kept for the purpose, a statement of the style, size, number of each meter, date when purchased, location, date when set, reading at such date, date when taken out, the reason therefor, the reading at such date, a detailed statement of test and percentage of error shown, and the reading and date when reset; also a description of all defects and repairs of such meters.

Sect. 26. Said commissioner, whenever the water has been shut off from any premises because the bill for water has not been paid, and there is a change in the occupancy of said premises, may let the water on again without waiting for the payment of the amount due from any former occupant. In case of contracts for specific supplies he shall shut the water off as soon as the contract has been carried out; the foregoing provisions shall apply when two or more parties take water from the

same service pipe, although one or more may have paid the amount due from him or them.

Sect. 27. Said commissioner shall keep suitable books, in which shall be entered the names of all persons who take water, the kind of building in which it is taken, the name of the street, and the number thereon, the nature of the use, the number of taps, and the rate assessed.

Sect. 28. Said commissioner shall, in his annual report, include a statement of the number of water takers and the purpose for which the water is taken, the number and kind of meters applied during the previous municipal year, the number and kind of meter in use, the number of cases where the water has been shut off, and the number and amount of abatements which have been made during the preceding municipal year.

Sect. 29. Said commissioner shall cause the following regulations to be printed on every bill for water, which shall constitute a part of the contract with every taker of water furnished by the city.

Regulations.

1. Every water taker shall pay the rates for water furnished on his application within the time and at the place specified in the bills therefor; shall, at his own expense, keep the service pipes within his premises, including any area or vault beneath the sidewalk, in good order and repair and protected from frost; shall not allow the water to leak away or run to waste; shall not—unless he pays the rates established therefor, or takes water by meter rates—use water from a hose; shall not use water from a hose in any case, except during such days and hours and in such manner as the water commissioner may from time to time specify; shall not make any change in the pipes or water fixtures under the street or within his premises, unless such change is approved by the water commissioner; shall not conceal the purpose for which the water is used; shall allow the water commissioner and persons authorized by him to enter the premises supplied with water, examine the fixtures, and ascertain the quantity of water used, the manner of use, and whether there is unnecessary waste; and shall indemnify the city for all damages it may sustain or be required to pay in consequence of any injury resulting from any violation of these regulations by the water taker.

2. Every water taker must stop the use of water for any purpose when required to do so by the water commissioner, and must guard against collapse of a boiler and other injuries liable to result from want of water, as the water is liable to be shut off at any time without notice.

3. No water taker shall, except in accordance with a written permit from the water commissioner, or in case of fire in the neighborhood, allow water to be taken from his premises or use water for any purpose other than those for which he pays, or unscrew or open any hydrant attached to the water pipes of the city.

4. No water taker shall demand or be entitled to any abatement of his water rates for any year on account of the premises being vacated, unless they are vacated before the first day of January, and notice thereof is given to the water commissioner before the first day of February of such year; nor shall any water taker demand or be entitled to any abatement of rates, compensation, or damage on account of the shutting off, or the stopping of the use of water for any cause.

5. The water commissioner shall equip with water meters all new services installed, and shall also, in accordance with the provisions of chapter five hundred twenty-four of the Acts of nineteen hundred and seven, as amended by chapter one hundred seventy-seven of the Acts of nineteen hundred and nine, annually equip with water meters at least five per cent of the water service which were unmetered on December thirty-first, nineteen hundred and seven; shall, if a water taker refuses to allow a water meter to be placed on his premises, cause the water to be shut off from the same; may, without notice, cause the water to be shut off from any premises, or require the use of water for any purpose designated by him to be stopped; and may, if any water taker, whether supplied through an independent service pipe or a service pipe used in common with another, violates any of these regulations, cause the water to be shut off from all premises supplied by such pipe until satisfied that the regulations will be observed and all amounts due for water have been paid to the city collector, together with such further sum, not exceeding ten dollars, as said collector may require.

Sect. 30. Said commissioner shall have full charge of all engineering work of every nature and description upon and connected with all public works, unless otherwise provided for by statute, and of the laying out and construction of all public improvements except the laying out, locating anew, altering, widening and discontinuing of highways, and shall make such surveys, plans, estimates, statements, descriptions and specifications as are required or requested for the carrying out of any public work by any official or board in charge of any department of the city in the discharge of the duties of such department, or by the mayor, city council or any committee thereof.

Sect. 31. Said commissioner shall by himself or by his duly-authorized agents inspect and measure all public work done under his direction by any department by contract or otherwise, and the city auditor, in case any bill or estimate for such work is presented to said city auditor for allowance, may require from said commissioner a

certificate of such bill or estimate stating if the materials have been furnished or the work done in accordance with proper engineering standards, or in accordance with the terms of the contract for said work.

Sect. 32. Said commissioner shall have authority to order any public work, whether done by a department or under contract or otherwise, to be discontinued, reconstructed or removed, whenever in his opinion said work fails in any manner to comply with or fulfil the terms, conditions, specifications and requirements of any such contract or agreement, or fails in his opinion to conform with proper engineering standards.

Sect. 33. Any expense incurred by said commissioner in carrying out any of the provisions of this act except as provided for by the appropriation for the department of public works shall be charged to the several appropriations under which the works are authorized or paid for, upon requisition of the said commissioner.

Sect. 34. Section five of chapter three of the Revised Ordinances is hereby amended by striking out the following words: "The city engineer, six thousand dollars; the water commissioner, five thousand dollars; the superintendent of streets, seventy-five hundred dollars," and by inserting the words, "The commissioner of public works, nine thousand dollars."

Sect. 35. Chapters sixteen and forty-two of the Revised Ordinances of 1898, and chapter 3 of the Ordinances of 1908, and all ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed.

Referred to the Committee on Ordinances.

LAND FOR CITY HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, September 16, 1910.
To the City Council:

Supplementing my previous communication on the same subject, I desire to recommend the passage of the accompanying order, which provides for the appropriation of sixty-seven thousand dollars (\$67,000) for the purchase of an estate owned by the heirs of the late Robert Treat Paine and for the acquisition of certain rights in a passageway between said estate and the City Hospital, said estate to be used for an extension to the South Department of the City Hospital for infectious diseases.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the sum of sixty-seven thousand dollars (\$67,000) be appropriated, to be expended by the City Hospital Trustees for the purchase of an estate owned by the heirs of the late Robert Treat Paine and bounded by Massachusetts avenue and Northampton street, and for the acquisition of certain rights in a passageway between said estate and the City Hospital, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Augustus A. Rothe, for compensation for injuries caused by an alleged defect in Falmouth street.

Mrs. Joseph M. Cowbig, to be paid expenses incurred on account of the poisoning of her minor child by the spraying of trees by the city.

George W. Parker, to be refunded the amount paid by him for a permit to occupy the sidewalk, which he was allowed to use only five days.

Charles E. Dickerman, to be paid for chickens killed by dogs.

Hannah Foley, for compensation for injuries to her minor son at the Columbus Avenue Playground.

James O'Donnell, for compensation for injuries received while at work for the city.

Mrs. Annie J. Morehouse, for compensation for injuries received from a fall at 46 Marshallfield street.

Faneuil Hall, Etc.

Petitions for the use of Faneuil Hall were received as follows:

George F. Monahan, on the evening of September 23.

Ferrer Memorial Association, on the evening of October 13.

William F. Murray, on the evening of September 19.

Executive Committee.

Petitions for sidewalks were received, as follows:

(Brick with Granite Edgestone.)

Samuel Fine, 106 Morris street, Ward 1.

(Brick.)

Ann B. Fay, 15 Kensington street, Ward 21.
L. B. Abbott, 255 Walnut avenue, Ward 21.

(Gravel with Granite Edgestone.)

Travers Brothers, 127-131 Gerard street, Ward 17.
Michael S. Morton, 75 Morton street, Ward 23.
Mary A. Carroll, 171 King street, Ward 24.

(Artificial Stone with Granite Edgestone.)

Harris Poorvu, 276-282 Hanover street, Ward 6.
S. Vorenberg, 117 State street, Ward 6.
James Donaldson, 327-329 Washington street, Ward 7.
William W. Willson, 323 Washington street, Ward 7.
Perry Mason Company, 201 Columbus avenue, Ward 10.
Catherine Hannon, 7 Farragut road, Ward 14.
Mattapan Deposit and Trust Company, 474 West Broadway, Ward 14.
Baker Building Associates, 409 West Broadway and on F street, Ward 15.
F. A. Corbett, 8-20 Eastman street, Ward 16.
C. F. Powell, 14 Glenarm street, Ward 20.
C. F. Whitehead, 62 Hancock street, Ward 20.
C. F. Whitehead, 76-80 Hancock street, Ward 20.
Lottie M. Kellogg, 18 Waterlow street, Ward 20.
Louis Segel, 362 Blue Hill avenue, Ward 20.
A. R. Gilliland, 6-8 Pleasant street, Ward 20.
F. G. Powell, 119 Washington street, Ward 20.
William E. Douse, 107-109 Fuller street, Ward 24.
John T. Daly, 340 Centre street, Ward 24.
Mary C. Decker, 783 Washington street, Ward 24.
J. Murphy, 32-34 Chickatawbut street, Ward 24.
Annie M. Biggs, 56 Chickatawbut street, Ward 24.
Mrs. G. A. Goodwin, 30 Edson street, Ward 24.
Robert C. Martin, 44 Fairmount street, Ward 24.
John Hagerty, 1272 Blue Hill avenue, Ward 24.
Herbert L. York, 9 Braemore road, Ward 25.
Timothy Keefe *et al.*, Hewlett street, Ward 23.

CONSTABLES' BONDS.

The City Treasurer, after having duly approved of the same, submitted the constables' bonds of Andrew J. Condon and Frank J. Sullivan.
Approved by the Council.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received.
Placed on file.

CONFIRMATION OF APPOINTMENTS.

A communication was received from the Civil Service Commissioners approving the appointment of Charles D. Daly as Fire Commissioner, said communication being filed September 15.
Placed on file.

STORAGE OF GASOLENE.

Notices were received of the keeping of explosives at the following named locations, and of intention to use said premises for the same purpose for the ensuing year, viz.:
Stephen Bradford, 145 Norfolk street, Ward 24.
Franklin Square Auto Company, 51-55 Mystic street, Ward 12.
Peter C. Werner, Boston Harbor.
Placed on file.

ALTERATIONS, ETC., OF LOCATIONS.

Copies of orders were received from the Street Commissioners, as follows:
Alteration of location of West End Street Railway Company on Columbus avenue at Northampton street, 322d location.
Alteration of location of the same company at Dartmouth street and Columbus avenue, 323d location.
Alteration of location of the same company at Columbia road, Hancock and Bowdoin streets, 324th location.
Temporary location for same company at Ipswich street, 325th location.
Placed on file.

RAILROAD POLICE.

A communication was received from the Police Commissioner certifying that Gorham E. Stanford had been appointed railroad police officer for the New York, New Haven & Hartford Railroad.
Placed on file.
Notice was received from the Boston, Revere Beach & Lynn Railroad that Frank C. Pearsons and others were no longer employed as railroad police.
Placed on file.

PANAMA EXPOSITION.

A communication was received from Norman Walker, chairman committee on meetings and conventions, New Orleans, La., asking that the City of Boston indorse New Orleans as the city to hold the Panama Exposition.
Placed on file.

DEPARTMENT OF PUBLIC WORKS.

The following was received:

Boston Finance Commission,
September 16, 1910.

To the Honorable the City Council:

Gentlemen,—The Finance Commission is informed that at an early date an ordinance for the creation of a department of public works by the consolidation of the present Street, Water and Engineering Departments will be submitted to the City Council. In order to remove any misapprehension resulting from statements in the Press as to the position of the Finance Commission on the question of consolidation, the commission desires to state that as yet no definite plan of consolidation has been submitted for its consideration. Any desirable consolidation should concentrate responsibility, reduce friction and promote efficiency and economy. If a plan is submitted which seems well adapted to secure these results it should receive the approval of the City Council. If such results do not seem likely to follow consolidation the existing order of departments should be maintained.

The commission suggests that the City Council carefully consider the following matters before it reaches a conclusion as to the desirability of the proposed change:

1. The danger of consolidating the departments to such an extent as to create a system beyond the administrative capacity of any individual likely to be appointed as its head.

2. The liability of having persons appointed as heads of the engineering and water divisions of less competency than those likely to be appointed under the existing system as heads of the Engineering and Water Departments, whose qualifications must be approved by the Civil Service Commissioners.

3. Whether in the plan submitted adequate provision is made for keeping the labor force and the financial accounts of the water division separate from the force and the accounts of other divisions of the department of public works. Unless such separation is accomplished the expenses of the water division may be improperly increased and the water-takers be charged exorbitant rates in consequence.

Any plan of consolidation should show the distribution of power and responsibility, the division of labor, the salary and wage schedules and the number of officials and subordinates in each of the divisions of the department. A proper scheme of consolidation should effect large economies as hundreds of thousands of dollars are wasted annually by the retention of numerous clerks and other employees who are not needed in the service.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

Referred to Committee on Ordinances.

CITY FINANCES.

A communication was received from the Finance Commission in regard to city finances and was referred to the Executive Committee.

MINORS' LICENSES.

President BALLANTYNE submitted reports on petitions for minors' licenses for ten newsboys and two vendors, and asked approval of the Council on the same.

The licenses were granted on the usual conditions.

CONFIRMATION OF APPOINTMENTS.

The Council proceeded to take up Nos. 1 and 2, unfinished business, viz.:
Action on appointments submitted by the Mayor September 12, viz.:

1. Jason W. Butters, to be a Constable of the City of Boston for the term ending April 30, 1911.
2. George W. Whitney, to be a Weigher of Beef for the term ending April 30, 1911.

The question came on confirmation. Committee Coun. Brand and McDonald.
Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

PUBLIC LANDS.

Coun. COLLINS, for the Committee on Public Lands, submitted the following:

(1) Report on message of Mayor, communication, preambles and order (referred July 18) to exchange land belonging to city with Winsor School land in Berners square—that the order ought to pass.
(2) Report on message of Mayor, communications, preambles and order (referred April 4) to release city's rights in land in Belgrade avenue—that the order ought to pass.
(3) Report on order (referred June 27) for sale of city land at Massachusetts avenue and Shirley street—that the order ought to pass in a new draft, viz.:

Ordered, That his Honor the Mayor be, and he hereby is, authorized in the name and behalf of the

city, in a manner satisfactory to the Law Department, to sell a parcel of land belonging to the City of Boston, bounded and described as follows: Northeast by Massachusetts avenue, 2 and $\frac{3}{4}$ feet; southeast by Shirley street, 13 and $\frac{2}{3}$ feet; west by land supposed to belong to Lucius A. Brown, 6 and $\frac{1}{2}$ feet; and northwest by the same, 8 and $\frac{3}{4}$ feet; containing 29 square feet, more or less; all said measurements being approximate; said land to be sold at a valuation of not less than 50 per cent in excess of assessed valuation of adjoining land, the proceeds of said sale to be applied to the sinking fund for the liquidation of the city debt.

Coun. COLLINS—Mr. President, in view of the fact that perhaps some of the members are not acquainted with these matters on which they are about to be called upon to act, I respectfully ask that this matter together with those which follow be referred to the Executive Committee. Your Committee on Public Lands has gone into this matter very carefully, but there are only three of us, and although we are well informed on the particular matter, yet since others are not I will offer that as a motion.

The PRESIDENT—If there is no objection the Chair will withdraw that order and accept the motion of Coun. Collins that it be referred to the Executive Committee.

The orders were passed.

LEAVE OF ABSENCE ON COLUMBUS DAY.

Coun. BUCKLEY offered an order—That the Fire Commissioner be hereby authorized to grant leave of absence, without loss of pay, to all employees of his department who are members of the Knights of Columbus and who wish to parade, on Columbus Day, October 12, 1910.
Passed.

RECESS TAKEN.

The Council voted, at 4.10 p. m., on motion of Coun. McDONALD, to take a recess subject to the call of the President.

The members reassembled in the Council Chamber and were called to order by the President at 5.09 o'clock p. m.

REPAIR OF KINGSTON STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to see that Kingston street, from Essex street to Beach street, be immediately put in safe and proper condition for public travel.
Passed.

LEGISLATION FOR GREATER BOSTON.

Coun. CURLEY offered an order—That his Honor the Mayor be requested to arrange a conference with the mayors, chairmen or presidents of boards of selectmen, or other proper officials, in the district known as Metropolitan Boston, and take such measures as may be necessary to secure their co-operation in the evolving of a plan to be presented to the next General Court for the establishment of a Greater Boston.
Referred to the Executive Committee.

EXECUTIVE REPORTS.

Coun. HALE, for the Executive Committee, submitted the following:

(1) Report on report on message of Mayor, communication, preambles and order (referred to-day) to exchange land belonging to city with Winsor School property in Berners square—that the preambles and order ought to pass.

Report accepted; preambles and order passed, yeas 8, nays 0.

(2) Report on report on message of Mayor, communications, preambles and order (referred to-day) to release city's rights to land in Belgrade avenue—that the preambles and order ought to pass.

Report accepted; preambles and order passed, yeas 8, nays 0.

(3) Report on report on order (referred to-day) for sale of city land at Massachusetts avenue and Shirley street—that the order as recommended in new draft ought to pass.

Report accepted; order passed, yeas 8, nays 0.
(4) Report on message of Mayor and order (referred to-day) for loan of \$67,000 for additional land for hospital—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.
The order will take its second reading later on as provided for by law.

(5) Report on message of Mayor, communication and order (referred to-day) transferring the sum of \$782.45 from the appropriation for Reserve Fund to the appropriation for Penal Institutions Department, breakwater, etc., Deer Island—that the order ought to pass.

Report accepted; order passed, yeas 7, nays 0.
(6) Report on message of Mayor, communi-

cation and order (referred to-day) to transfer \$95.86 from the appropriation for Reserve Fund to the appropriation for Street Department, Ashmont Bridge extension—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.
(7) Report on report and recommendations of Finance Commission (referred to-day) as to items in proposed loan bill for 1910—that the same be referred to the Committee on Finance.

Report accepted; said reference ordered.
(8) Report on message of Mayor and communications from the United Improvement Association concerning sanitaries and convenience stations (referred to-day)—recommending reference to the Committee on Finance.

Report accepted; said reference ordered.
(9) Report on message of Mayor and communications and order (referred September 12) to appropriate \$1,500 for exhibit at Town Planning Conference—that no action is necessary.

Accepted.
(10) Report on petition of Timothy Keefe *et al.* (referred to-day) for sidewalks on Hewlett street, Ward 23—recommending the passage of the following:

Ordered, That the Superintendent of Streets make a sidewalk along both sides of Hewlett street, from South street to Centre street, Ward 23, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestone, under the provisions of chapter 437 of the Acts of 1893.

Report accepted; order passed.
(11) Report on petition of Edmund D. Codman *et al.*, (referred September 12), that the City Council take action in favor of additional transportation facilities in neighborhood of Bowdoin and Scollay squares, recommending the passage of the following preambles and resolves:

Whereas, the City Council is of the opinion that the present transportation facilities at Bowdoin square and Scollay square are inadequate; therefore be it

Resolved, That this City Council is in favor of more adequate underground transportation facilities being immediately provided; and be it further Resolved, That a committee of three be appointed by the President to co-operate in advocating plans submitted by them, or such other plans as may be deemed more feasible.

Report accepted; preamble and resolve passed.
The PRESIDENT appointed as said committee Coun. Brand, Attridge and McDonald.

(12.) Reports on petitions (severally referred to-day), recommending the passage of orders that the Superintendent of Streets make sidewalks on the following-named streets in front of the herein-after named estates, said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width and to be built as specified, the owner to furnish the material viz:

Petitions for sidewalks were received, as follows:

Brick with Granite Edgestone.

Samuel Fine, 106 Morris street, Ward 1.

Brick.

Ann B. Fay, 15 Kensington street, Ward 21.

L. B. Abbott, 255 Walnut avenue, Ward 21.

Gravel with Granite Edgestone.

Travers Bros., 127-131 Gerard street, Ward 17.

Michael S. Morton, 75 Morton street, Ward 23.

Mary A. Carroll, 171 King street, Ward 24.

Artificial Stone with Granite Edgestone.

Harris Poorvu, 276-282 Hanover street, Ward 6.

S. Vorenberg, 117 State street, Ward 6.

James Donaldson, 327-329 Washington street, Ward 7.

William W. Willson, 323 Washington street, Ward 7.

Perry Mason Company, 201 Columbus avenue, Ward 10.

Catherine Hannon, 7 Farragut road, Ward 14.

Mattapan Deposit and Trust Company, 474 West Broadway, Ward 14.

Baker Building Associates, 409 West Broadway and on F street, Ward 15.

F. A. Corbett, 8-20 Eastman street, Ward 16.

F. G. Powell, 14 Glenarm street, Ward 20.

C. F. Whitehead, 62 Hancock street, Ward 20.

C. F. Whitehead, 76-80 Hancock street, Ward 20.

Lottie M. Kellongg, 18 Waterlow street, Ward 20.

Louis Segel, 362 Blue Hill avenue, Ward 20.

A. R. Gilliland, 6-8 Pleasant street, Ward 20.

F. G. Powell, 119 Washington street, Ward 20.

William E. Douse, 107-109 Fuller street, Ward 24.

John T. Daly, 340 Centre street, Ward 24.

Mary C. Decker, 783 Washington street, Ward 24.

J. Murphy, 32-34 Chickatawbut street, Ward 24.

Annie M. Biggs, 56 Chickatawbut street, Ward 24.

Mrs. G. A. Goodwin, 30 Edson street, Ward 24.

Robert C. Martin, 44 Fairmount street, Ward 24.

John Hagerty, 1272 Blue Hill avenue, Ward 24.

Herbert L. York, 9 Braemore road, Ward 25.

Reports severally accepted; orders passed.

USE OF FANEUIL HALL.

Coun. CURLEY, for the Committee on Faneuil Hall, etc., submitted reports on petitions (severally referred to-day), for the use of Faneuil Hall—that leave be granted, viz:

William F. Murray, evening of September 19.

George F. Monahan, evening of September 23.

Ferrer Memorial Association, evening of October 13.

Reports severally accepted; leave granted on usual conditions.

EXPENSE OF HEARING.

Coun. HALE offered an order—That the bills incurred for advertising and stenographic services in connection with hearing or hearings to be held by the Executive Committee on petition of the Boston Elevated Railway Company, lessee, for permission to operate as a common carrier of newspapers, baggage, express matter and freight on tracks of West End and Old Colony Street Railway Companies in the City of Boston, be approved and charged to the appropriation for City Council, Incidental Expenses.

Passed.

GENERAL RECONSIDERATION.

Coun. BRAND moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

NEXT MEETING.

The Council voted, on motion of Coun. CURLEY, that when it adjourn it be to meet on Monday, October 10, at three o'clock p. m.

Adjourned, at 5.40 o'clock p. m., on motion of Coun. BRAND.

THE EFFECTS OF FROST.

The effects of frost on building stone is a subject of vital interest to architects, engineers and builders. Atmospheric variations exercise so prejudicial an effect upon certain building stones that the opening of a new quarry is a matter of great importance. Architects and engineers do not adopt materials from fresh sources without being fully satisfied as to their reliability. The prudence of this course is justified by the fact that cases have occurred where the builders have been compelled to suspend operations because of their ignorance as to the resistance to frost of the stone employed.

During a long period the Brand system furnished the only means by which this knowledge could be gained.

In the present day this information is obtained by laboratory tests, during which the stone is subjected to successive and rapid variations of temperature.

The specimen of stone selected for examination is cut in the form of a 7-centimetre cube, which is submerged in a vessel containing water. The vessel is placed under the receiver of an air-pump, air being exhausted until a partial vacuum of 10 inches is obtained. The quantity of water absorbed is naturally governed by the porosity of the material. If the stone is not to be employed under water, it is sufficient to accept the natural absorption of the cube after immersion in water for twenty-four hours. After saturation the cube is introduced into an apparatus containing a freezing, mixture, capable of maintaining during several hours the temperature of from -20 degrees to -15 degrees C. After being exposed for hours to the temperature of say -15 degrees C. the cube is removed from the apparatus and immersed in distilled water, or, in default, in drinking water, of which the temperature is +15 degrees C. The specimen is then examined. In cases where distilled water is employed for washing, the water is collected and examined for soluble salts. After a second immersion in water the cube is again submitted to a second freezing process at +15 degrees C. for

four hours. The process is repeated so as to subject the materials to twenty-five freezings and thawings in succession. Finally the stone is examined under the microscope.

When we take into consideration the great size of some of our modern stone structures, the immense weight to be borne by the lower courses will be appreciated. The question of resistance to frost in such cases must be of primary importance.

WASTED ROOF SPACE.

Why is it that architects, builders, and the public generally have remained blind to the advantages which would result from the utilization of roof space? Aside from an occasional venture in the way of small roof gardens, absolutely nothing is done in this direction. Hundreds of thousands of feet of valuable and easily available space are left go to waste unheeded. In New York some effort has been made in this direction, but as yet there seems to be no general awakening, the movement being confined to a few hospitals that have established open air wards for the treatment of pulmonary diseases.

If no other point in favor of the plan were considered the value of this now neglected space would be immeasurable for the establishment of sanitariums. Here the patient would be sure to get all the sun and fresh air he would need free from fog, mist or dust, and away from the noise of the streets. Open air gymnasiums could be equipped or playgrounds for children. That they would amply repay the outlay necessary there is no room for doubt. In the case of a large apartment block the expense of fitting up this extra story would be insignificant as compared with the benefits resulting. Nor would this benefit be confined to the increased enjoyment or comfort of tenants, but would be manifest in the added earning power of the property.

We are prone to boast about our being ahead of the world in pretty nearly everything and of our ability to utilize force and material down to zero, but right here we could learn a valuable lesson from Europe. There you will find in all the North European cities roof gardens, open air gymnasiums, and playgrounds, almost every building being equipped, as to roof space, for pleasure or profit. The high cost of land in cities leads to building over every available foot, leaving no provision for a yard or space for children to play about in. A small additional expenditure would put a perfect playground at their disposal.

The possibilities of this undeveloped field are practically limitless. There are countless cases where a neglect to develop them is almost criminal. It is really amazing that one should endeavor to get the full worth of his land by running the building up to an excessive height and then waste totally on the top of the building the exact area of the ground he is endeavoring to utilize to the limit.

CITY ABOLISHES FREE COLLECTION FROM BUSINESS HOUSES.

Chicago, Ill.—The city has abolished the free collection of garbage and waste from business houses in the loop district. The ordinance governing such matters, which has been in force for years, provides that the owners of business houses shall remove waste at their own cost. Special orders have been issued from time to time for the Street Department to do this work until business men have come to look on it as a right.—*Municipal Journal and Engineer.*

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, OCTOBER 1, 1910.

No. 40

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

BY SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 10, at 3.30 p. m.

Meeting of School Committee, Monday, October 3, at 5.30 p. m.

Meetings of the Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

HEARING.

Pursuant to the provisions of chapter 112 of the Resolves of the Legislature of the present year, a public hearing will be given by the Joint Board on Metropolitan Improvements on matters relating to the construction of a tunnel between the North and South Stations in the City of Boston on October 6, 1910, at 2.30 p. m., at Room 240 of the State House.

Callahan, 773 Sixth street, South Boston; Joseph H. Kelly, 15 Marion street, Charlestown; Daniel A. Crowley, 267 West Fourth street, South Boston; James A. Cronin, 7 Clarence street, Roxbury; James F. Kenney, 16 Woodward Park street, Dorchester, at the rate of \$720 per annum.

HEALTH DEPARTMENT.

Appointment of Dr. Burdett L. Arms as director of the laboratory of this department, at \$2,500 per year, in place of Dr. Francis H. Slack.

Appointment of Mary J. Barry as a district nurse in this department, at a salary of \$75 per month.

HOSPITAL DEPARTMENT.

To Fill Vacancies.

Permanent.—Kate Johnston, scrubber (re-employed), \$5 per week; Norah Joy, ward maid (re-employed), \$12 per month; Margaret McCorinick, ward maid, \$12 per

month; Annie Dwyer, ward maid, \$12 per month; Margaret Mahoney, ward helper, \$14 per month; Mary Shea, ward helper, \$5 per week; Minnie Dwyer, ward helper, \$14 per month; Frederick J. Kendrick, orderly, \$25 per month; Charles Smith, Jr., orderly, \$25 per month; Dr. James W. Manary, executive assistant (re-employed), \$75 per month; May Thistle, chambermaid, \$15 per month; May Murphy, chambermaid, \$15 per month; Sarah M. Ferrick, graduate special nurse, \$21 per week; Walter W. Gwinnell, graduate special nurse, \$21 per week; Mabelle F. Driscoll, nurse (re-employed), \$8.33 per month; William Horan, house porter, \$25 per month; Annie Morrison, table girl, \$15 per month.

Temporary.—Mary McCleave, supply cook, \$35 per month.

The following employees have had increase of wages:

Aniela Zdybieka, laundress, \$16 to \$18 per month; William E. Thompson, laundry engineer, \$18 to \$21 per week; Ernest F. Cochrane, assistant engineer, \$18 to \$21 per week; Arthur Swanson, assistant engineer, \$18 to \$21 per week; George W. Richardson, assistant engineer, \$18 to \$21 per week; Annie F. White, head nurse, \$12.50 to \$35 per month; Eliza M. Morrison, head nurse, \$12.50 to \$35 per month.

(The assistant engineers have the option of \$18 a week with meals, or \$21 without meals. The four mentioned above have decided to accept \$21 without meals.)

INFIRMARY DEPARTMENT.

Almshouse and Hospital, Long Island.

For the week ending September 22:

To fill vacancies.—Bertha Goff, nurse, \$10 per month;

Temporary service.—Mary Hilton, cook, \$25 per month; Margaret L. Hurley, acting head nurse, \$35 per month.

Increase in salary.—Mary C. Kelly, nurse, \$10 to \$12 per month.

For the week ending September 29:

To fill vacancies.—Abbie T. Sullivan, nurse, \$10 per month; Ellen Desmond, laundress, \$18 per month; Flora A. Ducharme, head nurse, \$35 per month.

Temporary Employment.—Alice Clark, stenographer, \$30 per month.

OVERTIME ALLOWED.

Bath Department.

For the week ending Thursday, September 22, 1910:

Daniel J. Ahern, towing gang, $\frac{1}{2}$ day at \$2.75, \$1.38; William T. Bibbey, towing gang, $\frac{1}{2}$ day at \$2.75, \$1.38; Hugh J. Conway, towing gang, $\frac{1}{2}$ day at \$2.25, \$1.13; Timothy Harrington, towing gang, $\frac{1}{2}$ day at \$2.50, \$1.25; Timothy F. Keneally, towing gang, $\frac{1}{2}$ day at \$2.25, \$1.13; George P. Quinn, towing gang, $\frac{1}{2}$ day at \$2.50, \$1.25; Edward A. Swett, towing gang, $\frac{1}{2}$ day at \$2.50, \$1.25; Joseph F. Hussey, towing gang, $\frac{1}{2}$ day at \$2.50, \$1.25.

Park Department.

For the week ending Thursday, September 22, 1910:

William H. Allen, foreman, $1\frac{1}{2}$ days at \$3.25, \$5.69; George W. H. Timson, timekeeper, 1 day at \$2.50, \$2.50; Bernard J. Conley, machinist, 2 days at \$3, \$6; Robert Hindle, machinist, $\frac{1}{2}$ day at \$3, \$1.50; William E. Fischer, gardener, 1 day at \$3, \$3; Robert Coulsey, gardener, $1\frac{1}{2}$ days at \$2.75, \$3.09; James H. Kelley, janitor, 1 day at \$2.50, \$2.50; Thomas Dillon, driver and chauffeur, $1\frac{1}{2}$ days at \$3, \$4.50; John J. Regan, boy and chauffeur, $\frac{1}{4}$ week at \$9 per week, \$3.19; Charles A. Hogan, clerk, $1\frac{1}{2}$ days at \$2.50,

\$3.13; John T. Conboy, gardener, 1 day at \$3, \$3; Peter M. McManus, gardener, 1 day at \$3, \$3; Edward J. Moriarty, steam roller engineer, $1\frac{1}{2}$ days at \$3, \$3.38; William H. Smith, steam roller engineer, $\frac{3}{4}$ day at \$3, \$2.25; John J. Tatten, Jr., fireman, $\frac{1}{2}$ day at \$2.50, \$1.88; Julius Weidner, subforeman, $1\frac{1}{2}$ days at \$3.25, \$4.47; Mrs. William Campbell, matron, $\frac{1}{4}$ week at \$10, per week, \$0.71; Alice Timmins, matron, 1 day at \$1.50, \$1.50; Peter Barker, gardener, 1 day at \$3, \$3; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; Michael McNulty, subforeman, $\frac{1}{4}$ day at \$3.25, \$0.81; Ann I. Loftus, instructor, $\frac{1}{4}$ week at \$13.80 per week, \$1.97; Margaret Mulhern, matron, 1 day at \$1.50, \$1.50; Thomas A. Callahan, laborer and assistant in care of building, $\frac{1}{2}$ day at \$2.50, \$1.25; William L. Tuttle, subforeman, 1 day at \$3.25, \$3.25; John Younie, watchman, 1 day at \$2.50, \$2.50; 65 laborers, 58 $\frac{1}{2}$ days at \$2.25, \$131.97.

Street Department (Highway Division).

For the week ending Thursday, September 22, 1910:

Bernard J. McGovern, engineer, 1 day at \$3, \$3; Andrew T. Roach, weigher, 1 day at \$2.50, \$2.50; John T. Sweeney, subforeman, 1 day at \$3.50, \$3.50; William L. Carty, inspector, 1 day at \$3, \$3; James F. Whoolley, inspector, 3 days at \$2.50, \$7.50; Francis P. Aieta, clerk, 1 day at \$2.50, \$2.50; William F. Grace, subforeman, $\frac{1}{2}$ day at \$3.50, \$1.75; John H. Murphy, inspector, 1 day at \$3, \$3; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Frederick C. Power, inspector, 2 days at \$3, \$6; Ralph E. Reardon, inspector, 1 day at \$3, \$3; Patrick H. Connolly, inspector, $1\frac{1}{2}$ days at \$3, \$4.50; Edward J. Fitzgerald, inspector, $1\frac{1}{2}$ days at \$3, \$5.25; James D. Gorman, inspector, 2 days at \$3, \$6; Frank J. Hasson, inspector, $1\frac{1}{2}$ days at \$3, \$4.50; George W. Jepson, inspector, 1 day at \$3, \$3; Thomas W. H. Kelly, inspector, $1\frac{1}{2}$ days at \$4, \$7; William J. Lynch, inspector, 3 days at \$3, \$9; Frank E. Martin, inspector, $2\frac{1}{2}$ days at \$3, \$8.25; Charles E. Sheehee, inspector, 1 day at \$3, \$3; John J. Hayes, inspector, $1\frac{1}{2}$ days at \$3, \$5.25; James A. Keveney, inspector, $1\frac{1}{2}$ days at \$3, \$3.75; 66 laborers, \$150.63.

Jeremiah Brosnahan, stableman, 2 days at \$2.50, \$5; Hugh McLaughlin, stableman, 1 day at \$2.25, \$2.25; A. S. Quinn, subforeman, 2 days at \$3.50, \$7; Joseph Coyle, carpenter, 2 days at \$3, \$6; William J. Doherty, first assistant drawtender, 1 day at \$2.46, \$2.46; Benjamin F. Arey, first assistant drawtender, 3 days at \$2.46, \$7.39; 14 assistant drawtenders, 19 days at \$2.19, \$41.61.

Street Department (Sanitary Division).

For the week ending Thursday, September 22, 1910:

J. J. Barry, scowman, 1 day at \$2.50, \$2.50; E. J. Hardy, scowman, $1\frac{1}{2}$ days at \$2.50, \$3.75; Daniel Collins, mate, $1\frac{1}{2}$ days at \$3, \$3.75; John Pomeroy, engineer, $1\frac{1}{2}$ days at \$3.50, \$5.25; James Riley, fireman, $1\frac{1}{2}$ days at \$2.83 $\frac{1}{2}$, \$4.25; James Kelly, fireman, 1 day at \$2.83 $\frac{1}{2}$, \$2.83; 9 laborers, \$21.39; J. J. Shea, driver, 1 day at \$2.50, \$2.50; W. V. Quinn, inspector, 1 day at \$2.50, \$2.50; J. P. Kelley, inspector, 1 day at \$3, \$3; James Cassell, driver, 1 day at \$2.50, \$2.50; Peter King, driver, 1 day at \$2.50, \$2.50; Patrick Norton, driver, 1 day at \$2.50, \$2.50; Michael Mullen, stableman, 1 day at \$2.50, \$2.50; Thomas Rice, driver, 1 day at \$2.50, \$2.50; Patrick Sweeney, driver, 1 day at \$2.50, \$2.50; H. J. McCarron, watchman, 1 day at \$2.50,

\$2.50; C. J. Scanlan, inspector, 1½ days at \$2.50, \$3.75; Richard Welch, inspector, 1 day at \$3, \$3; D. J. Griffin, inspector, 1 day at \$2.50, \$2.50; D. J. Sullivan, driver, 1 day at \$2.50, \$2.50; J. A. Brown, driver, 1 day at \$2.50, \$2.50; H. J. Barry, driver, 1 day at \$2.50, \$2.50; P. F. McCormick, driver, 1 day at \$2.50, \$2.50; 56 laborers, \$168.49.

Street Department (Sewer Division).

For the week ending Thursday, September 22, 1910:

Cushing Baker, engineer, 1 day at \$2.91½, \$2.91; Walter I. Brown, inspector, 1½ days at \$3.50, \$5.25; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; William J. Drummond, inspector, 1 day at \$3.50, \$3.50; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Michael F. Garra, inspector, 1 day at \$5, \$5; Robert Harding, gateman, 1 day at \$2.91½, \$2.91; Patrick J. Hartigan, teamster, 1 day at \$2.50, \$2.50; John J. Lane, rodman, 1½ days at \$2.50, \$3.75; Daniel Madden, gateman, 1 day at \$2.91½, \$2.91; William H. Marnell, inspector, ¾ day at \$5, \$3.75; Thomas McDonald, yardman, 1 day at \$2.50, \$2.50; James A. Mitchell, inspector, 1 day at \$3, \$3; Timothy Nagle, gateman, 1 day at \$2.91½, \$2.91; Nathan F. O'Neil, teamster, 1½ days at \$2.50, \$3.75; Henry A. Sherman, instrumentman, 1½ days at \$3.50, \$5.25; George H. Sloan, rodman, 1½ days at \$2.50, \$3.75; and 23 laborers, 23 days at \$2.25, \$51.75.

Water Department (Distribution Division).

For the week ending Thursday, September 22, 1910:

Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Timothy J. Kelleher, chauffeur, 1 day at \$2.75, \$2.75; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John Austin, watchman, 1 day at \$2.50, \$2.50; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Robert McLaughlin, emergency man, 1 day at \$2.25, \$2.25; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; Robert A. Barry, watchman, 1 day at \$2.25, \$2.25; Thomas A. Gorman, foreman, 1½ days at \$2.75, \$4.81; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1½ days at \$2.75, \$4.81; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; James Donovan, stableman, 1 day at \$2.25, \$2.25; Thomas Bowen, teamster, ¾ day at \$2.25, \$1.69; Peter M. Brown, teamster, 2½ days at \$2.25, \$4.64; Michael F. Burke, teamster, 1½ days at \$2.50, \$2.97; Raphael Curcio, teamster, ¾ day at \$2.25, \$1.69; David Leo, teamster, 1½ days at \$2.25, \$3.94; Thomas Magee, teamster, 1½ days at \$2.25, \$3.94; Jeremiah J. McLaughlin, teamster, ¾ day at \$2.50, \$1.88; Mathew Nolan, teamster, 1½ days at \$2.50, \$2.58; Timothy Noonan, teamster, ¾ day at \$2.25, \$1.69; James J. O'Brien, teamster, ¾ day at \$2.25, \$1.41; Edward A. Pyne, teamster, ¾ day at \$2.25, \$1.69; Michael Ronan, teamster, ¾ day at \$2.25, \$1.69; John C. Thompson, teamster, ¾ day at \$2.25, \$1.69; Thomas Williams, teamster 1½ days at \$2.25, \$2.53; Daniel J. Buckley,

watchman, 1 day at \$2.25, \$2.25; Patrick Gorman, watchman, 1 day at \$2.25, \$2.25; James McKenney, teamster, ¾ day at \$2.25, \$1.69; Dennis Shea, stableman, 1½ days at \$2.25, \$2.81; Eugene Shea, watchman, 1 day at \$2.25, \$2.25; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; John McNulty, laborer, 1 day at \$2.25, \$2.25; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; Patrick Cassidy, watchman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 1 day at \$2.75, \$2.75; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; Humphrey Sullivan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Peter Welch, laborer, 1½ days at \$2.25, \$2.67; Edward Houghton, teamster, ¾ day at \$2.25, \$1.69; John McCormick, 1st, teamster, ¾ day at \$2.25, \$1.69; John Egan, teamster, ¾ day at \$2.25, \$1.69; James Murphy, teamster, ¾ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, ¾ day at \$2.25, \$1.69; John McCarthy, 1st, laborer, ¾ day at \$2.25, \$0.42; Patrick J. Kelly, inspector, 1½ days at \$2.95, \$4.24; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; Patrick F. Mullen, inspector, 1½ day at \$2.75, \$1.89; Joseph T. Ryan, plumber, ¾ day at \$3, \$1.50; Patrick Lawless, plumber's helper, ¾ day at \$2.25, \$0.28; Hugh Campbell, repairer, ¾ day at \$2.50, \$1.56; Michael F. Daly, laborer, ¾ day at \$2.25, \$1.41; Patrick C. Waters, laborer, ¾ day at \$2.25, \$1.41; Charles Hines, plumber, ¾ day at \$3, \$1.59; Lawrence Hillary, repairer, 1 day at \$2.50, \$2.50; John Farrell, laborer, ¾ day at \$2.25, \$0.42; Michael Galvin, laborer, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Daniel O'Brien, repairer, ¾ day at \$2.50, \$1.09; Martin Burke, repairer, 1 day at \$2.50, \$2.50; Florence Driscoll, laborer, 1 day at \$2.25, \$2.25.

Water Department (Income Division).

For the week ending Thursday, September 22, 1910:

P. J. Clougherty, laborer, 1½ days at \$2.25, \$3.38; J. H. Cullen, plumber, ¾ day at \$3, \$1.69; M. J. Dinneen, laborer, ¾ day at \$2.25, \$0.84; T. J. Dolan, plumber, ¾ day at \$3, \$1.13; E. H. Gilmore, tester, 1½ days at \$2.50, \$3.13; O. Gilloon, plumber, ¾ day at \$3, \$2.44; E. Mahoney, laborer, ¾ day at \$2.25, \$1.41; J. J. Mahoney, laborer, ¾ day at \$2.25, \$1.27; T. McAuliffe, laborer, ¾ day at \$2.25, \$2.11; F. McCarthy, laborer, 1½ days at \$2.50, \$3.75; P. J. McCarthy, plumber, ¾ day at \$2.75, \$0.60; M. M. McGrath, laborer, 1 day at \$2.25, \$2.25; G. A. Murphy, laborer, ¾ day at \$2.25, \$1.27; M. Mulkern, laborer, 1½ days at \$2.25, \$3.59; J. H. O'Brien, laborer, ¾ day at \$2.25, \$0.49; Joseph Rice, tester, 1½ days at \$2.50, \$3.75; J. J. Roche, laborer, ¾ day at \$2.25, \$1.83; D. J. Rull, plumber, ¾ day at \$3, \$1.69; P. A. Russell, laborer, 1½ days at \$2.25, \$3.59; Daniel Sullivan, laborer, ¾ day at \$2.25, \$1.69; J. Sullivan, laborer, 1½ days at \$2.25, \$3.16; M. P. Welch, plumber, ¾ day at \$2.75, \$2.06; J. F. Anderson, foreman, 8 hours at \$0.62½ per hour, \$5. J. H. Dougherty, clerk, 8 hours at \$0.62½ per hour, \$5.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending September 29, 1910:

PARK DEPARTMENT.

On September 22 the Mayor approved a contract with Louis B. Cadario for erecting sanitary and locker building on William Eustis Playground. Bids on this work, opened September 1, were as follows:

Louis B. Cadario, \$12,790; John F. Griffin Company, \$13,370; Daniel L. Shepard, \$13,470; Holmes Building Company, \$13,700; John A. Rooney, \$13,870; Ford & Denning, \$14,623; A. Piotti, \$14,647; G. A. Cahill, \$14,905; William L. Morrison, \$15,240; McNeil Brothers, \$18,477.

PENAL INSTITUTIONS DEPARTMENT.

On September 27 the Mayor approved a contract with Potter & Wrightington for furnishing 300 barrels of flour, for use at the House of Correction, Deer Island. Bids on these goods, opened September 22, were as follows: Potter & Wrightington, \$5.03; James H. Knowles, \$5.04; William S. Hills, \$5.10; Washburn-Crosby Company, \$5.25.

PUBLIC BUILDINGS DEPARTMENT.

On September 27 the Mayor approved a contract with Thomas W. Byrne for installing electrical fixtures in the New Library at Jamaica Plain. Bids on this work, opened September 19, were as follows:

Thomas W. Byrne, \$848; McKenney & Waterbury, \$1,000; Edwin C. Lewis, Inc., \$1,029.50; Pettingill & Andrews, \$1,047; E. H. Tarbell Company, \$1,072.60.

STREET DEPARTMENT (Highway Division).

On September 27 the Mayor approved a contract with the Barber Asphalt Company for asphalt paving in Kingston street, between Essex and Beach streets. Bids on this work, opened September 16, were as follows:

Barber Asphalt Paving Company, \$3,129.35; Jones & Meehan, \$3,699; Warren Brothers, \$3,338.70.

WITHOUT ADVERTISING.

SUPPLY DEPARTMENT.

On September 27 the Mayor approved a contract, made for use by the Public Grounds Department, without advertising, for the purchase from J. H. MacAlman of 1 Columbia automobile, for the sum of \$2,750, less \$300 allowance on an old "Overland" automobile. Estimated amount of contract, \$2,450.

ADDITIONS AND ALLOWANCES ON CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

FIRE DEPARTMENT.

Additions, for miscellaneous items, amounting to \$648.61, and deductions for miscellaneous items, amounting to \$56.50, on contract with McGahey & O'Connor for new fire house, Ward 24. Original contract, \$13,300; total additions, \$1,048.61; total deductions, \$156.50; contract as standing, \$14,192.11.

INFIRMARY DEPARTMENT.

Addition, amounting to \$950, on contract with the George Lawley & Son Cor-

poration, for building new boat, on account of the substitution of a 750 gallon turbine driven centrifugal pump, for duplex fire pump named in contract.

PUBLIC BUILDINGS DEPARTMENT.

Addition, amounting to \$187.50, on contract with the A. Varnerin Company for reconstruction of Curtis Hall, on account of insuring building against loss by fire. Original contract, \$74,844; total additions, \$387.50; contract as standing, \$75,231.50.

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved a finding of the Board of Street Commissioners that in the matter of land-taking for school purposes on Elm street, Charlestown, damages have been occasioned to several estates, as follows:

Joseph Stone *et al.*, 2,407 square feet, \$2,413.50;
John A. Barnes, 1,611 square feet, \$2,105.50.

The Mayor has approved the vote of the Board of Schoolhouse Commissioners, requesting the Board of Street Commissioners to take for schoolhouse purposes a parcel of land situated on Paris street, in the Lyman District, East Boston, and containing about 38,600 square feet.

STREET COMMISSIONERS.

The Mayor has approved the action of the Board of Street Commissioners suspending assessments for sewerage works in Addington road and private land, Brighton, amounting to \$600 on lots Nos. 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12, 13, owned by Mary F. Connolly, for such times as the lots may remain vacant; the improvement of any of said lots by the erection of buildings to terminate period of suspension.

The Mayor has approved a vote of the Board of Street Commissioners, abating the balance of assessments for sewerage works, amounting to \$49.56, against the estate of Augustus Hemenway, Jr.

The Mayor has approved an order of the Board of Street Commissioners, that no person suffers damage in his estate by the laying out and construction of Quint avenue, Brighton, as a highway, from Brighton avenue to Princeton street, and assessing benefits as follows:

Lot.	Amount.
1. Anna M. Dearborn.....	\$229 04

23. William J. Doherty.....	175 00
24. Mary Darcy.....	100 00
25. John Darcy.....	50 00
Total.....	\$3,495 17

Estimated Cost of Construction:

Sewer construction.....	\$438 00
Street construction.....	5,700 00
Total.....	\$6,138 00

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising: Build a sanitary sewer and surface drain, and two catch-basins in a street located from Walnut street at Water street, called "New Way," at an estimated cost of \$1,559.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary."

"(Signed) L. K. ROURKE,
"Superintendent of Streets."

FINANCE COMMISSION.

September 26, 1910.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—Your favor of September 24, 1910, printed on Saturday and Sunday, has been received by the commission this (Monday) afternoon at 3.30 o'clock.

On September 8, 1910, the commission received from the City Collector the following letter, which is the only written communication from him:

CITY OF BOSTON, COLLECTING DEPARTMENT.
CITY HALL, September 8, 1910.

HON. JOHN A. SULLIVAN, Chairman of the Finance Commission, Town Hall Building, Boston:

DEAR SIR,—In consequence of certain statements appearing in the newspapers, pending the investigation of the apparent unfaithfulness of one of the deputy collectors in this department, it is deemed proper to communicate to you the principal facts as they appear to date, although as yet my investigation is not fully complete.

Briefly the facts are these: A short time since, in preparing the usual advertisement for the sale of property of delinquent taxpayers, it was discovered that one party held receipts signed by Cornelius F. Crowley, a deputy collector, for taxes for two years, one being signed October, 1908, and the other receipted October, 1909, same being tax bills for the respective years on real estate, amounting to \$102.30 each.

The tax for 1908 was apparently retained and not turned in until just before I had ascertained which deputy made the collection. The tax for 1909 has since been turned in.

Upon further investigation it appears that certain sums in poll and personal taxes have been collected for the year 1909, amounting in the aggregate to \$425.70, and not turned over. These latter collections were made from thirty-three different parties and of this amount restitution of \$200 has been made, leaving, as far as at present determined, a balance outstanding of \$225.70, which the deputy in question promises to make good.

It is barely possible that discrepancies may be discovered in taxes for prior years, but the amounts would necessarily be very small.

The deputy mentioned left the service of the city immediately after the discovery of the shortage

first described, and guarantees to restore any sums that may have been collected and not turned over by him.

I may say here that all moneys received at this office are all properly entered and credited, and there is no discrepancy or confusion connected therewith.

This is simply a case of a collector who has collected certain sums and not turned over the full amount of said collections, a circumstance that is liable to occur in any business house employing collectors.

It is practically impossible under the present system that any substantial sum could be withheld without detection sooner or later. I have recently adopted a new plan in relation to the collection of poll and personal taxes which I believe to be as efficient as any that can be devised; in fact, I was informed yesterday by a representative of a large auditing concern that it is practically the identical system adopted by the Collecting Department of the city of New York and which they find to be the best and most effective check against speculations on the part of deputy or sub-collectors.

Respectfully,
S. BOWDOIN PARKER, City Collector.

Your Honor will perceive that in this letter there is no request to the commission of any kind.

Subsequently the City Collector called upon the chairman of the commission and stated the results of his further investigations, but at no time was the question of instituting criminal proceedings raised or the opinion of the commission asked thereon.

The commission does not understand how there could be any difference of opinion upon such a matter. It appears from the collector's letter that there were not less than thirty-three different instances of moneys collected and not paid over, one at least going back to 1908. There would seem to be but one question, which is equivalent to asking whether the criminal laws which would be applied without hesitation in cases where the money of a private citizen is stolen should be suspended when the money of the city is stolen by a city official.

The commission respectfully refers your Honor to that section of the city charter which provides that:

"The mayor shall be vigilant and active at all times in causing the laws for the government of said city to be duly executed and enforced; to inspect the conduct of all subordinate officers in the government thereof, and, as far as may be in his power, to cause all negligence, carelessness and positive violation of duty to be duly prosecuted and punished."

The commission advises that the facts be laid before the District Attorney of Suffolk County for his action.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

CITY OF BOSTON.

PROPOSALS FOR PAINTING DRAW SPAN, CHARLESTOWN BRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for cleaning and painting the draw span of Charlestown Bridge over the Charles river, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Painting Charlestown Bridge," and left at the said office of the Superintendent of Streets before 12 m. on Thursday, October 13, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,

Superintendent of Streets.

Boston, September 29, 1910. (Oct. 1.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR MILK.

The trustees will receive sealed proposals for a supply of milk for the Hospital Department between November 1, 1910, and May 1, 1911, provided that after February 1, 1911, sufficient appropriation is made therefor and the trustees so order, otherwise to terminate February 1, 1911. Proposals for the total supply or for part of the supply, but not less than 400 quarts a day, will be considered. The milk supply is to include delivery at the Hospital proper, 818 Harrison avenue, the South Department, 745 Massachusetts avenue, the Haymarket Square Relief Station, the East Boston Relief Station, 14 Porter street, East Boston, and the Convalescent Home, 2150 Dorchester avenue, Dorchester. Each proposal must be accompanied by a properly certified check for one hundred dollars (\$100), and a bond will be required of an approved surety company not exceeding two thousand dollars (\$2,000), as fixed by the trustees, for the faithful performance of the contract. The quantity of milk desired for all departments will vary from 1,148 to 1,488 quarts per day, more or less, according to the requirements of the season and the number of patients. Each receptacle must be clean and particularly free from dents, and have the name of the contractor, the dairy from which the milk comes and "The Boston City Hospital" stamped or otherwise indelibly marked thereon, and be sealed when it leaves the dairy. The milk is to be transported in coolers with a capacity of from twenty to forty quarts. These coolers are to be used exclusively for the Boston City Hospital. The contractor will be required to furnish to the trustees a list of the dairies from which the milk supply for the hospital will be taken. The milk from each dairy must be properly identified. In each case the product and the premises will be subject to the approval of an inspector appointed by the trustees. The employees must also be subject to an examination by this inspector. The contract calls for pure dairy milk, neither skimmed, topped, nor watered, and which, when subjected to analysis, shall be shown to have none of its natural constituents removed and nothing added thereto, and be of the quality required by the laws of the Commonwealth. The bacterial count must not exceed 100,000 bacteria to the cubic centimeter. The animals in each dairy must be of record as having passed successfully the test with tuberculin at dates satisfactory to the trustees. If the dairies are situated outside of the Commonwealth, the right is reserved to have them inspected by an officer of the State Board of Health, as well as by the special inspector of the trustees. Milk must be delivered at the hospital before 12 o'clock noon on each day, and must not be more than twenty-four hours old. The bid of a proposer who does not receive an invoice of milk on Sunday will not be considered. Price to be per quart. The contractor is to be responsible for the cleanliness of the coolers. Proposals should be addressed "The Boston City Hospital, Proposals for Milk Supply," and left at the hospital not later than Monday, October 10, 1910, at 12 o'clock noon, at which time and place they will be publicly opened. A duplicate copy of the proposal must be filed with the City Auditor before 12 o'clock noon on the date given above for receiving proposals. The right is reserved to reject any and all proposals. By order of the trustees.

JOHN H. MCCOLLUM,
Superintendent.

(Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR PAINTING METAL WORK.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for painting the metal work of the four fixed spans of Dover Street Bridge over Fort Point Channel, and giving bond therefor of a surety company, approved by the superintendent, in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Painting Dover Street Bridge," and left at the said office of the Superintendent of Streets before 12 m. on Thursday, October 13, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 29, 1910. (Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR LAYING WATER PIPES.

The Water Commissioner of the City of Boston invites proposals for laying about 3,200 feet of 30-inch water pipe, and 1,250 feet of 24-inch water pipe in Chelsea street, from Addison street to Brooks street, East Boston, and giving bond of a surety company doing business in Massachusetts in the sum of four thousand (4,000) dollars on the contract. Only proposals obtained at the Water Commissioner's office, Room 58, City Hall, Boston, signed by the bidder and there left before 12 o'clock noon, of Friday, October 7, 1910, with a certified check for the sum of one thousand (1,000) dollars will then and there be publicly opened and read. A duplicate sealed proposal, without check, must be deposited with the City Auditor before the time above specified. The commissioner reserves the right to reject any or all proposals should he deem it to be for the interest of the city so to do.

WILLIAM E. HANNAN,
Water Commissioner.

(Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR MACADAM ROADWAY AND ARTIFICIAL STONE SIDEWALKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for constructing a macadam roadway and artificial stone sidewalks in Morton street, from Blue Hill avenue about 580 feet easterly, Dorchester, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, October 7, 1910, with a certified check for \$500, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Macadam Roadway, and Artificial Stone Sidewalks in Morton Street."

L. K. ROURKE,
Superintendent of Streets.

Boston, September 29, 1910. (Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR MACADAM ROADWAY IN OLD COLONY AVENUE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for constructing a macadam roadway in Old Colony avenue, between Dorchester and Hyde streets, South Boston, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Monday, October 10, 1910, with a certified check for \$1,000, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Macadam Roadway in Old Colony Avenue."

AUCTIONEER'S SALE.

Abandoned Schoolhouse Site, 64 North Margin Street.

On Monday, October 3, 1910, at 12 o'clock noon, will be sold at public auction on the premises a parcel of land with brick school building contained thereon, the property of the City of Boston. The lot contains 1,659 square feet, 25.05 feet front by 66 feet deep. Terms, \$500 in cash or certified check at sale; balance cash on delivery of deed. For plans and further particulars apply to John C. Kiley, 18 Tremont street, or to Cruik & Byrne, auctioneers, 2370 Washington street, Roxbury. (Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING DRAW SPAN, DOVER STREET BRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing draw span of Dover Street Bridge over Fort Point Channel, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Dover Street Bridge," and left at the said office of the Superintendent of Streets before 12 m. on Thursday, October 6, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, September 22, 1910. (Oct. 1.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for building sewerage works in Morton street, between Blue Hill avenue and Norfolk street; in Leslie street, between Morton and Woolson streets, and in Wildwood street, from Morton street to Woolson street, Dorchester, and giving bond therefor of a surety company approved by the superintendent in the sum of two thousand dollars (\$2,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewerage Works in Morton, Leslie and Wildwood Streets," and left at the said office of the Superintendent of Streets before 12 m. on Tuesday, October 11, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. (Oct. 1.)

MILWAUKEE'S NEW HARBOR.

That Milwaukee has advantages far superior to Chicago as a harbor city which should be taken advantage of at the earliest possible moment is the opinion of Alderman Bogk, chairman of the council special committee intrusted with carrying out the proposed \$1,000,000 harbor project. Chairman Bogk points out that Milwaukee had what Chicago must create at the expense of thousands of dollars, and that it was certain that the local harbor when completed will be the best on the great lakes.

PROCEEDINGS OF CITY COUNCIL.

Wednesday, September 28, 1910.

Special meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President BALLANTYNE in the chair. Absent, Coun. Curley and Hale.

The Council voted, on motion of Coun. BRAND, to dispense with the reading of the records of the last meeting.

The Clerk read the call of the meeting, as follows:

City of Boston,

Office of the Mayor, September 23, 1910.

To the Members of the City Council:

You are hereby requested to assemble in the City Council Chamber on Wednesday, September 28, at two o'clock p. m., to take suitable action upon the loan order drafted and recommended by me, providing for \$250,000 for a temporary bridge across the Mystic river, and for such other business as may legally come before the meeting.

As your honorable body has adjourned until Monday, October 10, and this order was filed with the City Clerk on August 1, it would appear to be your intention that it should become operative by the lapse of the sixty days designated in the statute. If this is your intention I desire to ask you to reconsider it, as the order seems to be one upon which the City Council should place itself upon record, if only by passing it at the first reading. It was drafted in response to instructions issued by the officials of the national government, which has consented to material modifications in its original plan, and no color should be given to the suspicion of hesitancy or want of cordiality on the part of the city in accepting so favorable a proposition.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

APPOINTMENT OF WEIGHERS OF BEEF.

The following was received:

City of Boston,

Office of the Mayor, September 27, 1910.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint James Conroy (137 North Beacon street, Ward 25) and Ira W. Forsaith (16 Hawthorne street, Watertown, Mass.) Weighers of Beef for the term ending April 30, 1911.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Laid over for one week under the law.

APPOINTMENT OF CONSTABLE.

The following was received:

City of Boston,

Office of the Mayor, September 27, 1910.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint Matthew J. Peters (115 L street, Ward 14) a Constable of the City of Boston for the term ending April 30, 1911.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Laid over for one week under the law.

USE OF BUILDING, 33 BEACON STREET.

The following was received:

City of Boston,

Office of the Mayor, September 28, 1910.

To the City Council:

After mature consideration I have come to believe that the home of the late George Francis Parkman at 33 Beacon street should be retained by the city as a memorial building to perpetuate the name of this great Boston philanthropist. A large part of Mr. Parkman's life was spent in this house, and the view which he obtained of the Common from its windows gave him the inspiration for his generous bequest. No memorial could be erected on any site that would be so intimately associated with the man or so expressive of his outlook upon life. If used as an office building for the Park and Public Grounds Departments it would continue to express, through such occupancy, his attitude of love and regard for the open spaces of the city dedicated to the health and pleasure of the people. In other words, we have in our very hands, so to speak, the most fitting of all monuments to Mr. Parkman, one which possesses in a minor degree the atmosphere of sentiment and personality which attaches to Mt. Vernon and Monticello. I am informed that the building can be readily remodeled, and recommend that the accompanying preamble and order, requesting that the Mayor and the Corporation Counsel take the preliminary steps for its purchase from the executors, be adopted by your honorable body.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Whereas, In the opinion of the City Council it is desirable that the former residence of George Francis Parkman on Beacon street be kept in the possession of the city as a means of perpetuating his memory and that of his gift to the city for the care of its Common and parks; be it

Ordered, That the Mayor be requested, through

the Law Department, to ascertain the fair value of said house for either sale or lease, with a view of purchasing or leasing it from the Parkman Fund for departmental purposes, and that the Corporation Counsel be requested to report to this body what would be a fair price for the city to pay for this property by purchase or lease and what would be the probable cost of adapting it for the use of the Park, Public Grounds and possibly other city departments.

Referred to Committee on Parkman Fund.

TRANSFER FROM RESERVE FUND.

The following was received:

City of Boston,

Office of the Mayor, September 26, 1910.

To the City Council:

I beg to recommend the passage of the accompanying order providing for the transfer of one thousand dollars (\$1,000) from the Reserve Fund to the appropriation for Mayor, public celebrations. Owing to the large demands made upon this appropriation by the celebration of Independence Day, which cost about three thousand dollars (\$3,000) more than the corresponding celebration in 1909, it would seem to be necessary to add this amount in order to insure a fitting celebration of the new holiday created by the Legislature at its recent session. Plans are under way for an enormous parade and for other features which promise to make the first celebration of Columbus Day a memorable event, and the portion of the fund for public celebrations now remaining, with this addition, is none too great for the preparation of a suitable program.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer the sum of one thousand dollars (\$1,000) from the appropriation for the Reserve Fund to the appropriation for Mayor, public celebrations.

Referred to the Executive Committee.

REMOVAL OF RESTRICTIONS ON LAND.

The following was received:

City of Boston,

Office of the Mayor, September 27, 1910.

To the City Council:

I transmit herewith a communication from the Board of Park Commissioners recommending the passage of an order authorizing said Board to modify or amend the restrictions imposed upon certain land of the heirs of Albert W. Nickerson, situate on Peterborough street and near the Fens, so as to permit the erection of apartment houses upon said land costing not less than four thousand dollars per story for every twenty-five feet or less of frontage and at the same rate for any greater width, and I concur in their recommendation.

Respectfully submitted,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Park Department, September 22, 1910.

Hon. John F. Fitzgerald, Mayor,

City Hall, Boston:

Dear Sir,—We have received a petition from the heirs of Albert W. Nickerson for a modification or amendment of the restrictions imposed upon certain land of the petitioners abutting on Peterborough street and near the Fens, so as to permit of apartment houses on said land costing not less than \$4,000 per story for every twenty-five feet or less of frontage, and at the same rate for any greater width.

In order to do this it is requisite that the City Council pass an order giving us authority to change said restriction. The Park Commission does not object to the granting of the petition, if that can lawfully be done without affecting the legal or equitable rights of others, and we inclose for your consideration a copy of an order prepared and approved for this purpose by the Law Department, together with a copy of the petition of the Nickerson heirs.

Yours respectfully,

ROBERT S. PEABODY,
Chairman.

Ordered, That the Board of Park Commissioners, with the approval of the Mayor, and by an instrument satisfactory to the Law Department, may in the name and behalf of the city modify and amend the restrictions contained in a deed given to the city by the heirs of Albert W. Nickerson, dated June 19, 1899, and recorded with Suffolk Deeds, Lib. 2622, page 104, so far as they apply to a lot of land owned by said heirs, and bounded southeasterly by Peterborough street one hundred feet, southwesterly by other land of said heirs one hundred thirty feet, northwesterly by a passageway one hundred feet, and northeasterly by land of Clara G. Brooks one hundred thirty feet,

by altering or amending paragraph 2 of said restrictions, so as to permit the erection or placing upon said land of apartment houses costing not less than four thousand dollars per story for every twenty-five feet or less of frontage, and at the same rate for any greater width.

Referred to the Committee on Public Lands.

TEMPORARY BRIDGE OVER MYSTIC RIVER.

The following was received:

City of Boston,

Office of the Mayor, September 22, 1910.

To the City Council:

I transmit herewith, in order that it may be placed in the files of the City Clerk, an instrument from the War Department of the United States Government authorizing the city to construct a temporary bridge across the main or north channel of the Mystic river for use while the existing bridge, known as the "Chelsea Bridge," is being altered or rebuilt.

Respectfully,

JOHN F. FITZGERALD, Mayor.

(Annexed was the communication referred to.)

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Mrs. Margaret Lawler, for compensation for injuries to her minor son by a city team.

William E. Nichols, for compensation for injuries caused by a defective iron cover in the sidewalk.

Executive.

Mary H. Burgess, for children under fifteen years of age to appear at Roxbury Neighborhood Hall, September 30, 1910.

Petitions for sidewalks were received, viz.:

(Brick.)

Woodbury & Leighton Company, Winsor School,

Bellevue street, Ward 19.

Peter Anderson, 20 Ellery street, Ward 15.

Annie McMenimom, 51 Yeoman street, Ward 17.

Joseph Weiner, 17 Lansing street, Ward 21.

Edward F. O'Brien, 11-15 Bellflower street, Ward 16.

(Artificial Stone.)

Rueter & Co., 65 New Heath street, Ward 19.

Hagopian Brothers, 2-8 Erie street, Ward 20.

Mrs. W. C. Mayo, 35 Bushnell street, Ward 24.

Henry C. Fowle, 376 Park street, Ward 20.

Walter Tufts, 13 Gloucester street, Ward 11.

Reuter & Co., 158-164 and 159 Terrace street, Ward 19.

C. E. Sleeper, Manager, Castle Square Hotel, 424 Tremont street, Ward 9.

P. O'Hearn, 38, 42, 46, 50, 54, 58 Neponset avenue, 97, 101, 105 Mill street, Ward 24.

F. J. Rockwell, corner Geneva avenue and Oakley street, Ward 20.

Robert M. Bowen, 8-14 Kingsdale street, Ward 20.

James G. Curtis, 68 Dix street, Ward 24.

W. H. Crowell, 6 Charles street, Ward 20.

Mary A. McCree, 40-44 Draper street, Ward 20.

W. H. Crosby, 412-414 Talbot avenue, Ward 20.

J. J. Powers, 20 Westland avenue, Ward 10.

Ephraim M. Ollman, 51-55 Forest Hills street, and on Sylvia street, Ward 23.

F. M. McCarthy, Breed square, corner Saratoga and Bennington streets, Ward 1.

Referred to the Executive Committee who, later in the session, submitted reports recommending the passage of orders that the Superintendent of Streets make sidewalks, to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of the material named, the owners to furnish said material, in front of the estates as set forth in the above petitions.

Reports accepted; orders passed.

ERECTION AND REMOVAL OF POLES.

Copies were received of orders of the Street Commissioners granting pole locations, etc., as follows:

New England Telephone and Telegraph Company, to attach wires to poles on Kenrick street, Ward 25.

Same company to erect poles on Bigelow street, Ward 25.

Same company, to erect poles on Dunboy street, Ward 25.

Same company, to attach wires to poles on Austin street, Ward 23.

Same company, to erect and remove one pole on Morton street, Ward 24.

Edison Electric Illuminating Company, to erect and to remove one pole on Harvard avenue, Ward 25.

Same company, to erect and to remove one pole on East Eighth street, Ward 14.

Placed on file.

TRACK LOCATIONS.

A copy of order of Street Commissioners granting to the West End Street Railway Company an alteration of location of tracks on Adams and Gibson streets, Dorchester, was received (326th location).

A copy of order of Street Commissioners granting to the West End Street Railway Company for alteration of locations of tracks on West and East Broadway and Dorchester street, was received (327th location).

Placed on file and ordered printed.

NOTICES OF HEARINGS.

Notice was received from the Harbor and Land Commissioners of hearing on September 21 on petition of City of Boston for license to build seawall and fill solid at Eastern Avenue Wharf.

Notice was received from the Railroad Commissioners of hearing on October 4 on petitions of West End Street Railway Company for approval of 322d, 323d, 324th and 325th locations.

Placed on file.

COAL AND COKE LICENSES.

A list was received of the coal and coke licenses granted by the Secretary of the Commonwealth.

Placed on file.

CONFIRMATION OF APPOINTMENT.

Coun. BRAND called up No. 1 on the calendar viz.:

1. Action on appointment, submitted by the Mayor September 19, of Charles J. Donovan, to be a Weigher of Coal for the term ending April 30, 1911.

The question came on confirmation. Committee, Brand and Kenny. Whole number of ballots cast 6; yes 6, no 0, and the appointment was confirmed.

MINORS' LICENSES.

The PRESIDENT submitted applications for minors' licenses from fourteen newsboys and one bootblack, and it was voted that licenses be granted on the usual conditions.

PAY ROLL, REGISTRY OF DEEDS.

A communication was received from W. T. A. Fitzgerald, Register of Deeds, certifying that from August 22 to September 26, 1910, work had been performed in his office to the amount of \$3,777.29. Referred to the Committee on County Accounts.

LOAN FOR CHELSEA BRIDGE.

Coun. KENNY, for the Committee on Finance, submitted a report on the order (referred August 1) to expend \$250,000 for the construction of a temporary bridge across the north channel of Mystic river between the cities of Boston and Chelsea—that the order ought not to pass.

Coun. KENNY—In submitting that report on behalf of the committee I would like to offer a few remarks. Unless action is taken as indicated along the lines of this report to-day this order will become operative on the first of October. The members of the Committee on Finance feel that before they are called upon to appropriate for the payment of a loan this very large sum of money we should have further information and data with respect to the share which the City of Boston may be called upon to contribute in the construction of this temporary bridge. Our report, therefore, is not adverse in the sense that we are not in favor of the temporary bridge, for, as I understand, under the law we shall sooner or later be called upon to construct this bridge. But pending further investigation and examination into the matter we offer this report, without prejudice to the order itself.

The report was accepted and the order was rejected.

PAVING OF DUDLEY SQUARE.

President BALLANTYNE offered an order—That the Superintendent of Streets, through his Honor the Mayor, be requested to pave Dudley square and its approaches with vitrified brick or wood pavements, and also relay the edgestones and flaggings connected with same, the expense attending the same to be charged to the appropriation for Street Department, Highway Division.

Passed.

SIDEWALK CONSTRUCTION, HEWINS STREET.

Coun. COLLINS offered an order—That the Superintendent of Streets make a sidewalk along the estate next to No. 15 Hewins street (northerly), Ward 20, in front of the estates bordering thereon;

said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestone, under the provisions of chapter 437 of the Acts of 1893.

Passed.

APPROVAL OF PAY ROLL.

Coun. ATTRIDGE, for the Committee on County Accounts, submitted a report recommending the approving the pay roll of the Registry of Deeds for the period from August 22 to September 26, 1910, amounting to \$3,777.29.

Report accepted; said pay roll approved.

RECESS.

On motion of Coun. KENNY the Council voted, at 2.18 o'clock, to take a recess subject to the call of the President.

The members reassembled in the Council Chamber and were called to order by President BALLANTYNE at 3.30 p. m.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on petition of Mary H. Burgess for a permit for children under fifteen years of age to appear at Roxbury Neighborhood Hall September 30, 1910—that leave be granted.

Report accepted; permit granted on the usual conditions.

(2) Report on the message of the Mayor and order (referred to-day) authorizing the transfer of \$1,000 from Reserve Fund to appropriation for public celebrations—that the order ought to pass.

The report of the committee was accepted and the order was passed, yeas 6, nays 0.

GENERAL RECONSIDERATION.

On motion of Coun. BRAND the Council refused a general reconsideration of all action taken to-day.

Adjourned, on motion of Coun. COLLINS, at 3.45 p. m.

LONDON'S EXPENDITURE.

What does London spend on its local government? A clue to the answer is to be found in Part IV. of the Local Taxation Returns, which contains the accounts of the local authorities within the county area for the year 1907-08. The following table shows the total expenditure "not defrayed out of loans" for that year, in respect of 198 authorities:

London County Council.....	£11,235,147
Corporation of the city of London....	1,290,221
Metropolitan police.....	1,749,786
Borough councils (28).....	4,894,583
Metropolitan Asylum District.....	1,130,525
Managers of Poor Law School and Sick Asylum Districts.....	203,777
Boards of guardians (31).....	3,311,886
Lunatic asylums committees (11).....	634,305
Overseers of city parishes (112).....	36,585
Central unemployed body.....	132,804
Trustees of certain squares.....	950

These figures give a total of £24,620,569, from which £2,418,929 has to be deducted in order to avoid duplicate reckonings, leaving a net total of £22,201,640. To this, again, has to be added the £3,986,804 representing the expenditure out of loans, which raises the aggregate to £26,188,444. Thus local government costs London roughly half a million sterling a week. The accounts of the Metropolitan Water Board are not included in the return, which is already out of date in several important respects. For example, the number of London authorities is stated as 198, but 112 of them were abolished under the City's Amalgamation of Parishes Act. Again, five trustee bodies of certain squares can hardly be regarded as "local authorities" in the same sense that borough councils and boards of guardians are local authorities. The number of bona fide local authorities in London is 81, or, including the water board, 82.—*Municipal Journal*.

CINCINNATI MUNICIPAL RESEARCH BUREAU.

A bureau of Municipal research was organized in Cincinnati in the spring of 1909, and has just issued a report of its first year's work ending June 30. The purpose of the bureau is stated to be "To conduct an entirely nonpartisan study of the methods and work of the several departments of the city government, with a view to recommending such modifications and improvements as it believes to be to advantage; to do whatever it can to promote the efficiency and economy of municipal administration; and to furnish citizens with the facts of public business."

The general method pursued by the bureau is to examine the pay rolls, confer with officials and prepare a schedule showing the organization of the work and the working force, submitting this to the department for verification and correction. Also draw up and submit descriptions of the accounts kept and of the statistical and service records. Special investigation is then made of such portion of the department's work as may seem to require it, and a report is submitted to the head of the department setting forth what has been found and recommending changes to remedy defects. If these recommendations are adopted, assistance is rendered in putting them into operation. Finally it makes public the report and the action taken by the department thereon.

Every effort is made to co-operate harmoniously with the city officials and to assist them in securing the greatest possible efficiency. During the year changes in forms of records prepared by it were adopted by the Park Department, the Health Department, Water Department and Bureau of Tenement House Inspection, and recommendations to other departments have been approved although not yet adopted.—*Municipal Journal and Engineer*.

PURE FOOD LAW FOR CLEVELAND.

City Chemist Taussig, of Cleveland, Ohio, has asked the city law department to co-operate with him in the preparation of a city pure food ordinance which will enable his department to handle pure food crusades with dispatch. On evidence produced by the city chemist warrants for the arrest of fourteen manufacturers and bottlers of summer beverages were sworn out at the Central Police Station several days ago and thirteen of the fourteen appeared in court. Twelve pleaded not guilty and their cases were all continued, while in the other case a suspended sentence of \$100 and costs was imposed. It was asserted by the city chemist that saccharine was found in a sample of ginger ale taken from his place of business.—*Municipal Journal and Engineer*.

CURBSTONE SHOWER BATHS.

Minneapolis is planning to put in corner shower baths in the congested districts to be used on hot days by the small boys. The committee of council having the matter in hand were given a demonstration on a recent hot day. No difficulty was experienced in finding plenty of boys anxious to stand under the shower.

LIGHTING STANDARDS OF CONCRETE.

Two hundred and fifty lighting standards of concrete have been erected along the boulevard by Lincoln Park in Chicago. This is more economical than iron and wears better and looks better than wood.

FROM SCHOOL TO WORK.

Miss F. H. Durham, an officer of the education committee of the London County Council, visited Germany earlier in the year to investigate the conditions under which children of the working classes pass from the schools into the labor market and the results of her inquiries have been embodied in a report on "Juvenile Labor in Germany and how it is being dealt with."

Strassburg, Cologne, Munich and Berlin were visited, and Miss Durham found in each of these cities an evident fear of the future, as far as the problem of boy labor is concerned, and that in each of them the matter is receiving attention, not only for the sake of the individual prosperity of the town, but as part of the national policy of securing the future greatness and prosperity of the Empire.

The conditions of life in Berlin are regarded as akin to those of life in London. But Berlin, "though growing luxurious, is not so spendthrift of young life as is London." It has no newspaper boy, no child street trader. The number of errand boys and girls are, however, increasing. The van boy — the typical blind alley victim of London — is unusual in Berlin, and the telegraph and messenger services are performed by men who are mostly ex-soldiers. Miss Durham testifies, however, to a large and growing army of unskilled workers in Berlin and to a large demand for unskilled boy labor.

ORGANIZATION.

There are three authorities dealing with the question of juvenile labor in Germany — the labor exchanges, the Handwerkers' Chamber of Trade (Handwerkerskammer), and the educational authorities. By far the most important part is played by the local educational authorities in connection with the Handwerkerskammer. The labor exchanges, in so far as they deal with the matter, act as little more than centers of statistical registration.

BERLIN.

The German labor exchanges are not national or imperial, but municipal or private. In Berlin the exchanges are not actively dealing with the juvenile labor problem, nor have they initiated any working scheme of co-operation with the educational authorities or masters' associations. The Berlin Central Exchange has a department for unskilled labor, including boys under sixteen. There is also a special section for apprentices. The exchange does not interest itself in the welfare of the boy; it is merely an agency for supplying a demand, or it affords, as Miss Durham puts it, "a more ready means of recruiting an already overfull unskilled labor market." But she goes further than this, and claims that this is all that lies within the power of an impartially conducted labor exchange in Berlin or in London or anywhere else to undertake unaided.

We are told that these facts are being recognized in Berlin by town authorities, school authorities, and the Handwerkerskammer, and that the last named is lending all its aid to co-operate with the education authorities. The Handwerkerskammer approaches the elementary school directly, making information as to trades and future careers for children known to the teachers. It also distributes throughout the schools a pamphlet entitled, "Wass willst Du Werden?" *Anglicized* "What do you want to become?" Through the agency of the Handwerkerskammer, the masters in the various trades have been canvassed as to the most convenient hours for allowing their apprentices to attend

evening continuation classes and consulted as to the kind of instruction to be given. The supervising activity of Handwerkerskammer extends to seeing that the masters carry out their obligations towards the boys.

MUNICH.

In Munich, it is stated, the labor exchange, education authorities, and Handwerkerskammer co-operate to deal with the apprenticeship section of the exchange. A definite attempt is being made to dissuade parents from sending their children into the unskilled labor market and to aid in the selection of suitable children for the various skilled trades. As far as the apprenticeship section goes we are told that the real work of helping and advising the children is done by the school authorities and teachers, whilst that of notifying the vacancies, supervising the workshops, and protecting the interests of the apprentices is done by the guilds or the Handwerkerskammer. The exchange acts only as a center for registration.

Unskilled boy laborers are said to be left entirely to the labor exchange, and they receive, therefore, no advice in selecting their work. As they are not on the roll of the Handwerkerskammer, they receive neither help nor supervision from that side. It must be remembered, however, that they have to attend school until sixteen years of age, and they are thus kept in touch with the education authorities.

Reverting again to the placing of apprentices, it is stated since 1907 comparatively few boys leave school without having had a year's training in manual work. Employers have in these last years found it more convenient to apply straight to the schools for their boy apprentices. This has been effected largely through the manual training instructors. In 1909 the labor exchange reported that the activity of the juvenile department had been interfered with owing to the fact that in the previous year many of the schools arranged to place out their own scholars by the help of the teachers and not through the exchange. The report then pointed out that the centralization of the exchange work was greatly to the interest of all concerned, and urged that the school teachers should refer both scholars applying for work and masters seeking apprentices to the exchange.

Miss Durham expresses the view that the exchange is right in pointing out that confusion will follow unless the source of supply be dealt with in an organized way, and she says that if the school authorities are to deal with placing out, they should deal with it as a whole and not leave individual schools to compete one against another.

STRASSBURG.

In Strassburg the school, the labor exchange and the Handwerkerskammer co-operate. The work of advising and supervising the young people is done by the school of the Handwerkerskammer, and the labor exchange acts as a channel. Once a year a meeting is held of school inspectors, medical officers, teachers and children, and labor exchange officials, and the work of the labor exchange is explained to them and they are told about trades. A card is issued to every child, which has to be filled up with the aid of the teacher. The school doctor examines every child, and the child's physical condition before he leaves the school is noted on the form. If possible, places are found for the children before the leaving date.

Advice as to trade appears to be given by the school, and not the labor exchange. Every child is directed to call at the exchange, and either notify the work it has found independently, or else, if help is required to find a place, to ask help of the exchange. All applications from masters for apprentices made to the labor exchange are referred to the Handwerkerskammer for inquiry, and the boys when placed are under the supervision of the Handwerkerskammer.

COLOGNE.

The Cologne exchange is said to be not active in dealing with juvenile labor. Boys under sixteen for unskilled work are scheduled separately from men. In the neighborhood of this great city there are large factories employing much unskilled labor, and the work of the exchange in dealing with unskilled occupations is greatly in excess of that done by the sections dealing with special trades. The exchange does not give advice to young people, does not exercise any supervision or control, or make inquiries as to employers.

Summarizing her inquiries, Miss Durham says: "Though we may arrive at the solution of the boy-labor problem by different and, perhaps, more devious paths, there can be no doubt that Germany has already got down to the bedrock, viz., the recognition of the fact that her responsibility towards her children-citizens does not cease with the end of their elementary school career." — *Municipal Journal*.

MUNICIPAL LODGING HOUSE FOR WOMEN.

The lodging house for women which was opened by the Manchester Corporation is the first municipal enterprise of its kind in England. It is true that accommodation for women is provided in municipal lodging houses at Croydon, Darwen and Huddersfield, but separate buildings are not available in these towns. There is, however, a municipal lodging house for women in Glasgow, and it was to Glasgow that the Manchester subcommittee went in search of instruction. The lodging house at Manchester is really the outcome of a movement that was set on foot by a number of public-spirited ladies, notably Miss Margaret Ashton, and as a graceful tribute to this lady's efforts on behalf of her poorer sisters the new building has been called Ashton House. Miss Ashton is a member of the Sanitary Committee, and has been closely identified with the scheme at every stage of its progress.

The lodging house is intended for the accommodation of women of the poorest class, such as charwomen, hawkers, field workers, mill workers, ragpickers, etc. Accommodation is provided for 220 inmates, each of whom will have her cubicle in a self-contained apartment. The charges will be 4 d., 5 d. and 6 d. per night, the accommodation being always the same and the price varying only with the floors. The cost of the erection and equipment of the building is estimated at £13,000, and the plans were prepared by the City Architect Mr. Henry Price.

DESCRIPTION OF THE GLASGOW SCHEME.

The town council of Glasgow of the last generation, in consideration that various parts of the city were built, and that the buildings thereon were so densely

inhabited as to be highly injurious to the moral and physical welfare of the inhabitants, promoted and obtained the Glasgow Improvements Act of 1866. By this act they obtained powers to acquire the lands and buildings of certain defined congested areas, to demolish the buildings situated thereon, and to reconstitute those portions of the city scheduled under the act. The powers under this act extended to making provision for erecting and maintaining such dwelling houses for mechanics, laborers, and other persons of the working and poorer classes as the trustees from time to time might think expedient.

Within the areas scheduled, there existed at the passing of the act, a great number of common lodging houses carried on by private enterprise, where men and women were huddled together in dark, unwholesome rooms, unprovided in many cases with the most elementary requisites of decent living and healthful existence. These congeries of dwellings overcrowded with transient or permanent lodgers, too often sunk in vice and misery, were the source and breeding ground of infection and disease. The town council of that date knew that to destroy the insanitary abodes and unregulated lodging houses without at the same time providing better and healthier accommodation for the class—who, through choice or exigency, occupied them—would not cure, but only deepen the evil.

These were the cogent considerations that induced the trustees to embark upon their first building enterprise, which consisted of the erection of two lodging houses—one for men and the other, the Moncur street lodging house, for women.

This house is situated between East Russell street and Moncur street. It was at first opened with a frontage to East Russell street in the year 1871, and provided ninety-four beds, which were let at 3d. and 4d. per night. The house is precisely on the same lines as those built for men—which have, since the date when Glasgow opened this home, and the Drygate Home for men, become familiar municipal institutions in many English as well as Scottish cities.

The accommodation in this home was found insufficient for the demand, and in the year 1889 an addition was made and opened in June, 1890 by which the number of beds was brought up to 125. In 1894 the pressure for further accommodation again induced the managing committee of the corporation to enlarge the building. A new front was built to Moncur street in which the main entrance was placed. This addition was completed in 1895, and the increased accommodation gave a total of 248 beds, with new recreation hall, dining hall, kitchen, etc. The charges at present run from 3d. to 6d. per night. The measurement allowed per person is 400 cubic feet.

The house is open at 6 a. m., and by 8 a. m. all the dormitories have to be vacated by the lodgers. After this the servants clean these rooms and make up the beds in the afternoon. Lodgers are allowed to go to bed between 8 and 10.30 p. m., when doors are closed.

The effect of the opening and carrying on of these lodging houses, for men as well as for women in Glasgow, has been to enable the casual workers of either sex to live under sanitary and wholesome conditions. It has enabled the health authorities of the city to deal with epidemics of small-pox and other zymotic diseases, to isolate the patients and stamp out the trouble in a brief period. In former times some such diseases were chronic, and epidemics lingered in the noisome and dingy

lodging houses, when official guardians found it difficult to locate the source of infection, and the general body of citizens proved that "out of sight was out of mind." The lodging houses have been a financial success from the first.—*Municipal Journal*.

IMPROVEMENTS IN MADRID.

The City Council of Madrid has begun work upon the new boulevard, to be called the "Grand Via," which has been projected for about twenty-five years. A syndicate composed of French and English capitalists secured the contract for its construction.

The new boulevard will be opened through the most congested part of the city and will connect the parks and boulevards of the northern and southern parts of the capital. The thoroughfare is to be divided into three sections, the first being 1,751 feet long and 82 feet wide, the second 1,342 feet long and 115 feet wide, the third 1,224 feet long and 82 feet wide. The 358 buildings, most of them six stories high, now standing in the course, will be razed, and 3,500 families and 500 business concerns occupying these houses will be forced to find new quarters. The period of construction is to extend over eight years, but the houses in the first section must all be razed by October 1, 1910.

This project is expected to stimulate business generally, as it will render necessary the construction of at least a sufficient number of houses to replace those which are to be torn down. Furthermore, the city is enjoying a healthy growth, and the modernization of its older parts is going on rapidly, and to an extent that is not realized by those who have not visited it recently. Hitherto Madrid has been a city without suburbs, but many "additions" are now springing up, in which modern houses are being built.—*Municipal Journal and Engineer*.

FOR IDEAL POLICE FORCE.

Chicago, Ill.—With a special "school of instruction" for probationary patrolmen, Chief of Police Leroy T. Steward plans to provide Chicago with the "most thoroughly trained, excellently equipped and splendidly capable constabulary in the world." His plans in detail have been announced and contemplate a thorough course in discipline, police duties, demeanor toward the public and in the city and state laws relating to the Police Department, and such a military training as will make the additions to the force, Chief Steward hopes, ornaments as well as efficient guardians of the peace. In addition they are to be trained in the preparation of their cases against prisoners and taught how and when to shoot straight. Chief Steward detailed Lieutenant Nootbar, one of the strictest disciplinarians in the department, as chief instructor. His assistants will be two sergeants selected by the chief on their records. At the end of the six-month probation the instructor will report to the chief the probationer's efficiency, and if it is up to the grade he will be regularly appointed to the force.—*Municipal Journal and Engineer*.

LESSONS IN CLEANLINESS.

Next September, Mexico is to celebrate the one hundredth anniversary of its independence, and in order to help the poor people of Mexico City to cultivate habits of cleanliness free baths, free washtubs and free barbers have been established.

GARBAGE DISPOSAL IN PARIS.

In Paris household refuse is set out in front of houses during the night in tin, zinc or galvanized iron cans or boxes, whence it is collected in the early morning hours by large wagons belonging to the municipality. For this service an ordinary family living in a flat pays a tax of about \$11 per year. The wagons carry the rubbish to quays along the river Seine, where it is dumped through chutes to barges. Both while in the boxes along the streets and on the quay the refuse is worked over by chiffoniers, or ragpickers, who sort out and take away rags, paper and other articles, from the sale of which a large number of men, women and children gain a living in Paris.

There are several private establishments in the neighborhood of Paris for the salvage of bottles, glass, crockery, tin cans, bones, etc., but by far the most important of them is at Bondy, about eight miles east of Paris, on the Canal de l'Ourcq, which connects with the Seine. The establishment is owned and operated by a private company which was organized and took up the business after the government of Paris had failed in its attempt to destroy the city garbage by burning. The refuse landed at the wharves in Bondy is carefully picked over, and all rags, bones, old paper, tin cans, metal, glass, oyster shells, etc., which have escaped the hook of the chiffonier are taken out and assorted for separate treatment. The cans are cut up for tin, which is used in making toys, for which large quantities of this scrap tin are sent to Germany. The rough bones are used as material for glue, the finer ones for making knife handles, buttons, dominos, dice and other articles. Oyster shells, which are rich in lime and phosphates, are ground into powder, which is mixed with grain and other materials to make food for poultry. The remainder of the rubbish, which consists mainly of ashes and vegetable refuse is pulverized and sold to farmers as a fertilizer. Owing to its percentage of potash it is too strong to be used alone; it is therefore mixed with barnyard manure.—*Municipal Engineering*.

PROPOSES TO IMPOSE TAX ON SHOW WINDOWS.

Many show windows and basement entrances of buildings in Fort Worth, Texas, encroach on the sidewalks. The city has no power under the present charter to impose a tax on those so benefited. The question has been made the subject of several discussions at meetings of the city commissioners. It is the intention to ask an amendment of the charter giving the city the right to demand and receive pay for this special privilege. A plan, however, will be tried, and it may be effective. Commissioner of Finance and Revenue W. J. Gilvin was directed to conduct individual negotiations with each and every property owner in the city whose premises encroach on the sidewalks in the manner above specified and endeavor to enter into a voluntary agreement for an equitable compensation for the privileges so enjoyed. The measure of compensation would be the advantages to the property owner through his tenant beneficiaries. It is the belief of the commissioners that the advantages to the property owners will be so apparent that they will be quite willing to enter into an agreement with the finance commissioner to make a proper compensation to the city.—*Municipal Journal and Engineer*.

NEW YORK THE MOST PROGRESSIVE CITY IN THE WORLD.

Prof. Stanley D. Adshead of Liverpool University, department of civic design, delivered an address on "Standards of Public Efficiency" before the Commission on Congestion in the City Hall recently. In the course of his remarks he said:

"Nothing is so apt to break up one's opinions as regards what constitutes the minimum requirements for public control so as to insure efficiency, safety and satisfactory hygienic conditions like a visit to a neighboring country where other standards are maintained which differ from those to which one has become accustomed. It is my privilege at the present moment to be enjoying for the first time a visit to the United States and to see here your accepted standards, in particular those which refer to the public safety in matters of construction, transportation, hygiene and the maintenance of streets, parks and public places of all kinds. A new view always carries with it a strong impression, and as such may have value."

"As you are aware, overcrowding of Manhattan exists almost to the extent of two-thirds more than in any European city. This, to my mind, is due indirectly to the peculiar conditions of its position, it being practically an island, and directly to the immense value of land and lack of foresight shown by the public authorities in the immediate past."

"Of course, when we talk of 1,600 to the acre in New York and 600 in London we must not overlook the fact that New York possesses an exceptionally healthy climate and comparatively wide streets."

"At the same time, even admitting this, no argument can convince me that a tenement building code is satisfactory which allows a tenement to be erected to a height of 150 feet in a 100-foot street with as much as 70 per cent of its area covered, the remaining 30 per cent being an area not more than 12 feet wide up to a height of 60 feet and for the rest only a few feet wider."

"It has been my privilege to visit many of your new-law tenements, and it was very distressing to find that natural light was quite out of the question in most of the rooms overlooking these areas, artificial light being used during the whole of the day. I hold no brief for the European slum; rather the reverse; but I am afraid that in the matter of admitted requirement as regards light and air in England and Germany there is no question but that the standard set by New York is infinitely too low."

"In the New York slum my impression is that the occupant cannot be described as poor. They are exceedingly well dressed, well fed and clean in their person. When compared with the slum dweller in England, the cleanliness and tidiness of their rooms are, beyond all question, superior."

"Certainly New York shows no appearance of either poverty or distress as such are evidenced in British towns. Your difficulty is not, as in England, one of employment, but is almost entirely one of providing space. Looking back on the administration of cities, I see that English and European cities of first rate importance would have fallen into the difficulties with which New York is faced had similar topographical conditions existed. Your restricted area has increased the value of your sites and created proportionate difficulties in the way of imposing restrictive measures as regards their control."

"I submit that it would be foolish, if not unjust, to suddenly and without warning or compensation impose severe restrictive measures on the use which

privilege, tradition and custom has set upon land. No doubt the owners of real estate in New York, as in other countries, especially Germany, are holding up their property on a fictitious and artificial basis, if the land continues to be used for tenements for the working population. The real value of any site depends not upon artificial conditions which a short-sighted policy has fenced around it but upon its appropriate use as regards class of buildings and the efficiency with which, when erected, the business of the building is conducted, and these always accompanied by sound hygienic conditions."

"I foresee in New York what is also to be seen in Germany in such towns as Dusseldorf, Frankfurt and Berlin, and which is even more imminent in London, Liverpool and Manchester at the present day, a collapse in the value of property which is artificially held up owing to the lack of restrictive measures and inadequacy in the application for distributing the population and for extending the boundaries of a town."

"It appears to me that the solution of the New York problem is to advocate as far as possible:

"1. The removal of all factories and businesses out of the restricted area of Manhattan wherever such businesses can be carried on elsewhere."

"2. To encourage in every possible way the construction of more arterial lines of communication, particularly by subway."

"3. To open up all undeveloped and desirable building land within twenty miles of the city of New York by constructing new lines of communication and so decentralizing the city. At the same time, but not before, to enforce stringent and restrictive measures on the use of land in Manhattan. This may bring about a temporary collapse, but any such collapse will ultimately be followed by a recovery which will be brought about by a more advantageous use of the site. Alterations in the use or restrictions put upon land should be made as gradually and carefully as possible. The medical operation of drawing the sore is less harmful than the surgical one of removing it."

"But there will ever remain a large class who wish to reside next to their work in the town. This being so, we must take care to see that such dwellings are hygienically satisfactory in every way, but our immediate interest should concern itself with the erection of dwellings in the outlying districts."

"The policy of the London county council during the early years of its administration, as also the policy in Liverpool and the other large provincial towns, has been to pull down and reconstruct, to improve conditions in the matter of their housing and without much regard to the appropriate use of the site or its possible more appropriate use for business purposes; but it has been found that this has been a mistake, and New York would do well not to fall into the error of these towns. In reality this policy has only tended to worse overcrowding elsewhere. In England we are now aware of the mistake which has been made, and are directing our attention to the improved conditions of communication and to the possibilities of extension."

"The reason why land is cheaper by one-fifth around London and Liverpool than in any town in Germany or here is entirely due to the fact that the English towns have an infinitely superior arterial development and are more extensive than is to be found elsewhere."

"Our new town planning act is especially

a housing one and is intended in the first place to assist in bringing about a reduction in the price of land and so make it feasible for cottages to be erected such as will attract the town dweller and so assist in loosening out the town. It might be of interest were I to say a few words about our town planning act. At first sight it appears to be an act which will promote the development of new towns, but this is not quite so, as actually it is restrictive rather than constructive. It is essentially a supplement to the local by-law further restricting the use of land. The largest landowner and land speculator in Liverpool recently told me that he had no objection to buy and sell land which had been under the injunction of the town planning act, but he objected strongly to buying first and then selling after the application of the act."

"It is an adoptive act and applies to land likely to be used for building purposes, so it practically may cover all unbuilt-on land around the town. In its application it means that the local authority may decide entirely the use to which an owner may put his land. The local authority is empowered to control the width and direction of all streets and the use to which the land may be put, whether for cottages, factories or business premises. The exact wording of the act is 'the height and character of the buildings and the number which may be erected on each acre.' In its adoption a plan will be prepared in the first place by the local authority or, in some cases, a private owner, covering a suitable area and showing a suggested treatment of the layout. This is then submitted to the local governing board in London and after receiving their approval is again reconsidered and publicly displayed. Owners may make suggestions and recommendations at every stage of the procedure which will, in many cases, be adopted. Finally, it will be approved by the local government board, who are practically the final arbiters in all disputes."

"Possibly such an act is hardly applicable or desirable in this country, but there is no doubt that the reasonable control of the building area prevents its ever attaining a fictitious value."

"I understand you have in the city of New York room for approximately 103,000 tenements, and responsible for their proper sanitary condition you have some 300 inspectors. I consider this number to be totally inadequate, having regard to the overcrowding which is sure to exist."

"In some twelve tenements which I have myself inspected the average were littered with refuse which must vitiate the air and be very dangerous to the occupants of the back rooms. There does not appear to me to be any regular system for insuring the cleanliness of the back yards; add to this that the paving was in many cases exceptionally bad, and the yard must consequently have been extremely contaminated."

"Having first visited the German towns, I regret that the standard of maintenance of your parks and open spaces is exceedingly low. I would like to see in this borough a few more flowers and some well kept and well watered lawns. Some of your railings are badly in need of a coat of paint."

"Your overhead railway will no doubt be removed in due course. New York needs more wood block streets and should pay more attention to the question of reducing the noise, which must be very injurious to the nervous system of those whose fate it is to be in close proximity to the overhead line."

"But with all your faults, which in most cases have come with the peculiar condition which you have had to face, the architecture of New York is the finest of any modern architecture in the world. Unlike England and Germany and, to some extent, France, New York in its street architecture is never trivial. Everything is on a grand scale. Your tall buildings are a credit to your ingenuity. In your building construction you are far ahead of all the other nations in the world."

"From the economic standpoint, we admit, more control will shortly have to be exercised as regards the distribution of your tall blocks, else not only will the individual suffer but the city at large. In conclusion I would sum up by saying that New York is the most progressive city in the world, the most ambitious and the most capable of putting into execution its ideas, and doubtless these very conditions have brought in their track the troubles to which I have referred."—*Municipal Facts*.

FIRE LOSS IN UNITED STATES FOR ONE MONTH.

A big increase in fire losses throughout the United States and Canada was reported for last month. Statistics put the total losses at \$26,847,900, which is more than \$11,000,000 greater than the losses for the corresponding month a year ago. The July, 1909, losses aggregated \$15,830,900. Excessive losses in the north-western section of the United States, wherein are situated the big lumber camps, boosted last month's loss. Lumber yards, lumber mills and timber lands were hard hit by fires, the losses to these properties having been about \$6,000,000. Since the first of the year the fire losses have totaled \$126,076,800, which compares with \$119,633,900 for the first seven months of last year and \$140,820,900 for the same period the previous year. The following table shows the losses by months so far this year, compared with the first eight months of last year and the same period of 1908:

	1908.	1909.	1910.
January..	\$29,582,000	\$22,735,000	\$15,175,400
February..	14,489,700	16,131,000	15,489,350
March....	16,723,300	13,795,400	18,465,550
April.....	26,009,000	19,345,300	18,091,800
May.....	15,181,150	17,360,400	18,823,200
June.....	19,512,000	14,435,000	13,183,600
July.....	15,323,750	15,830,900	26,847,900
Totals,	\$140,820,900	\$119,633,900	\$126,076,800

The fires enumerated below, together with the loss in each instance, were the most serious last month, from a fire insurance standpoint:

Amprior, Ont., lumber yards.....	\$1,000,000
Paterson, N. J., ribbon mills.....	250,000
Charleston, S. C., wholesale stores.....	250,000
Marinette, Wis., timber lands.....	1,200,000
Campbelltown, N. B., conflagration....	3,500,000
Portland, various.....	480,000
New York City, steamship pier.....	750,000
St. Paul, business block.....	270,000
Lakeview, Ill., grain elevator and brewery	600,000
Waukegan, Ill., iron and brass works....	350,000

—*Municipal Journal and Engineer*.

Street cleaning in London last year required a total of over 65,840,000 imperial gallons of water. It is stated in the "Surveyor" that the quantity of refuse removed during the year was 51,821 van loads taken from premises, and 28,930 loads of sweepings from the public way, making a total of 80,759 loads.—*Engineering Record*.

MAKING CIVILIZATION.

When the historians of the 25th century come to classify the agencies that helped along civilization in the epoch now upon us they may give the first place not to flying machines nor telephones, nor transmission of power by electricity, but to the application of oil to highways. During the period from 1885-1895 the American people talked about good roads. From 1895-1905 they constructed a few hundred miles with great difficulty and expense, only to see them torn to pieces by automobiles. The next decade was the period of oiled roads, which is even yet only at its beginning. We are moved to this line of reflection by contemplating the June 15th issue of the *Municipal Journal*—a "Good Roads Number" which is largely given up in advertising in illustration, and in text to the subject of making good roads by the process of making roads good—by oiling them. The advertising pages are given over to a long line of patented forms of tar, asphalt, oil and calcium chloride mixtures, to be used for laying dust and permanently surfacing roads. Human ingenuity has been almost exhausted in finding names for these concoctions; tarvia, sarco, dustoline, bitu-mass, solvay, asphaltoline, asphaltol are samples of these, not to mention those using the name of the inventor. The advertisements show also a great variety of appliances that are used for laying and spreading the oil, and there is one huge leviathan of a thing pictured, that scoops up portions of the road, mixes the soil with oil and passes out and spreads an asphalt pavement while you wait. The main body of the magazine is taken up with a highly interesting series of articles devoted almost exclusively to the story of road improvement by the use of oil in various parts of the East. The experience seems to be the same everywhere—that the automobiles were ruining the roads until the use of oil saved them.—*Pacific Outlook*.

SUBWAY ONLY REMEDY FOR CHICAGO SAYS POLICE EXPERT AFTER EUROPEAN TRIP—RECOMMENDATIONS IN REPORT.

Chicago, Ill.—Permanent relief of congested downtown traffic, especially in the loop district, can be afforded only by a subway, according to Capt. Charles C. Healey of the Chicago mounted police. He made a comprehensive report to the Association of Commerce, which sent him as its representative to investigate traffic conditions in European cities to the end of improving Chicago conditions. Chicago's traffic rules are as good as any in the world, but Chicagoans are not so observant of them as they should be, according to the report. Captain Healey found that the methods employed by all of the cities he visited were copied from the London system and declared that Chicago's methods are fully as good as those of the English metropolis. Captain Healey's suggestions for adoption by Chicago were condensed as follows:

The pedestrians and drivers of Chicago, like those of London, should be taught and compelled to obey the directions of officers at street crossings.

A school should be organized for the instruction of newly appointed traffic men, which should be attended for at least a month previous to the entry upon their duties. These men should be taught general police duties, crossing regulations, proper demeanor to the public, and they should also be instructed as to the ordi-

nances of the city and the method of presenting and handling their cases in court.

There should be absolute unobstruction of street cars and the rule should be applied to make all slowly moving vehicles keep as close to the curb as possible.

The streets in the business district should be cleaned at night and properly sprinkled so as not to obstruct traffic during the daytime.—*Municipal Journal and Engineer*.

VIENNA'S WATER WORKS.

The New Water Works of Vienna, which it is proposed to open formally on December 2 of this year, the eightieth birthday of Emperor Francis Joseph, draw their supply from high springs in the Alps. The water is collected in an aqueduct about 113 miles long, having 6½ miles of branches to a number of springs not on the main line. The aqueduct is 6.89 feet high and 6.23 feet wide, and is a concrete structure in most places. Few aqueducts have probably been constructed which have such a great length of tunnel, amounting to about 45 per cent, or a total distance of 53.4 miles. Some of these tunnels are noteworthy undertakings, particularly that at Göstling, which is 3½ miles long. There are 100 small bridges on the line, having a total length of about 5 miles, but most crossings of valleys have been made with pipe siphons, of which 13 miles have been constructed in all. The water will reach the city under a sufficient head to supply most sections, but there will be six small high-service districts to which the water must be pumped. For this purpose it is proposed to use electrically driven pumps furnished with current generated by a plant operated by the water in the low-level mains. The new works are estimated to supply 51,300,000 gallons daily, which will relieve the present serious scarcity of water in the city, where only about 35,000,000 gallons a day can be obtained under the most favorable circumstances from the old works and this quantity sometimes sinks to 26,000,000 gallons, or only about 13 gallons per capita. It has taken about 10 years to build the new works.—*Engineering Record*.

NEW PLAN FOR OILING STREETS.

Dr. William J. Kiefer, chairman of the highway committee of councils, for Lebanon, Pa., was visited by a Mr. Daniels, representing the Atlantic Refining Company, a Philadelphia concern, with a proposition for treating Lebanon's streets with oil. Mr. Daniels' preparation is an asphalt base oil, of the kind commonly used for oiling streets, so prepared that it will mix with water. Emulsified, the oil loses none of its dust-settling qualities. It costs, emulsified, \$3 a barrel, and a barrel must be used in every sprinkler load of 500 gallons of water. It must be used only once a week, however, instead of twelve times a week, as is now the case with plain water sprinkling. At the price, \$3 a barrel, the city is not now prepared to use the preparation. It would save the city money, eventually, however, some councilmen think, because it costs the public between \$4,000 and \$5,000 annually to sprinkle the streets with water alone. It would relieve the horses of the fire companies of much work, it is pointed out, and would leave them free for fire service practically all of the time.—*Municipal Journal and Engineer*.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, OCTOBER 8, 1910.

No. 41

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 10, at 3 p. m.

Meeting of School Committee, Monday, October 17, at 5.30 p. m.

Meetings of the Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Street Department (Sewer Division).

For the week ending Thursday, September 29, 1910:

James A. Bell, rodman, $\frac{1}{2}$ day at \$2.50, \$0.63; John J. Bradley, rodman, $\frac{1}{2}$ day at \$2.50, \$1.88; Carl S. Drake, junior engineer, 1 day at \$4, \$4; Douglass C. Fagan, rodman, $\frac{1}{2}$ day at \$2.50, \$1.25; Thomas J. Ganley, rodman, $\frac{1}{2}$ day at \$2.50, \$1.25; Daniel P. Kelley, instrumentman, $\frac{1}{2}$ day at \$3.50, \$2.63; Thomas J. Rice, rodman, $\frac{1}{2}$ day at \$2, \$1; William Warren, instrumentman, $\frac{1}{2}$ day at \$3.50, \$1.75; Walter I. Brown, inspector, $1\frac{1}{2}$

days at \$3.50, \$5.25; H. A. Sherman, instrumentman, $1\frac{1}{2}$ days at \$3.50, \$5.25; George Sloan, rodman, $1\frac{1}{2}$ days at \$2, \$3; W. J. Drummond, inspector, 1 day at \$3.50, \$3.50; M. F. Garra, inspector, 1 day at \$5, \$5; J. A. Mitchell, inspector, 1 day at \$3, \$3; Frank J. Johnson, yardman, 1 day at \$2.50, \$2.50; J. C. Coleman, clerk, 1 day at \$3.50, \$3.50; Thomas McDonald, yardman, 1 day at \$2.50, \$2.50; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; Nathan F. O'Neil, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Thomas Hughes, laborer, $\frac{1}{2}$ day at \$2.50, \$1.25; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; Robert Harding, gateman, 1 day at \$2.91, \$2.91; Daniel Madden, gateman, 1 day at \$2.91, \$2.91; Timothy Nagle, gateman, 1 day at \$2.91, \$2.91; 40 laborers, 39 days at \$2.25, \$87.76.

Water Department (Distribution Division).

For the week ending Thursday, September 29, 1910.

John McNulty, laborer, 1 day at \$2.25, \$2.25; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; Patrick Cassidy, watchman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; John Cummings, repairer, $1\frac{1}{2}$ days at \$2.75, \$3.78; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, yardman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James N. Synnott, gateman, 1 day at \$2.50, \$2.50; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Edward Houghton, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John McCormick, 1st, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John Egan, teamster, $1\frac{1}{2}$ days at \$2.25, \$2.81; James Murphy, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Michael Galvin, watchman, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Eugene Shea, watchman, 1 day at \$2.25, \$2.25; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; John Cronin, laborer, $\frac{1}{2}$ day at \$2.25, \$0.84; Patrick Coleman, laborer, $\frac{1}{2}$ day at \$2.25, \$0.84; John Begley, pipe layer, $\frac{1}{2}$ day at \$2.75, \$1.38; Cornelius Sullivan, 2d, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Daniel D. Burke, laborer, $1\frac{1}{2}$ day at \$2.25, \$2.39; Michael McLaughlin, repairer, $\frac{1}{2}$ day at \$2.50, \$1.25; John W. Murphy, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.39; John Connolly, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael F. Daly, 2d, laborer, $1\frac{1}{2}$ day at \$2.25, \$2.11; John McCarthy, 2d, pipe layer, $\frac{1}{2}$ day at \$2.50, \$1.25; Michael Mulloy, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; William Lonergan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Isaac Saperstein, repairer, $1\frac{1}{2}$ days at \$2.50, \$2.66; Patrick C. Waters, laborer, $1\frac{1}{2}$ day at \$2.25, \$2.11; Hugh McLaughlin, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William T. Lenehan, foreman, $1\frac{1}{2}$ day at \$5.11, \$4.80; James Lyons, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Michael C. Sullivan, plumber, $\frac{1}{2}$ day at \$2.50, \$0.63; Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Timothy Kelleher, chauffeur, 1 day at \$2.75, \$2.75; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; Daniel J. Heffernan, chauffeur, 2 days at \$2.25, \$4.50; John J. Broderick, emergency

*One day omitted week of September 22, 1910.

man, 1 day at \$2.25, \$2.25; John Austin, watchman, 1 day at \$2.50, \$2.50; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Robert McLaughlin, emergency man, 1 day at \$2.25, \$2.25; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Robert A. Barry, watchman, 1 day at \$2.25, \$2.25; Thomas A. Gorman, foreman, 1½ days at \$2.75, \$4.81; John Cahill, stableman, 1 day at \$2.25, \$2.25; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; James J. Conners, stableman, 1½ days at \$2.75, \$4.81; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; James Donovan, stableman, 1 day at \$2.25, \$2.25; Thomas Bowen, teamster, ¼ day at \$2.25, \$1.69; Peter M. Brown, teamster, ¼ day at \$2.25, \$1.41; Michael F. Burke, teamster, 1½ days at \$2.50, \$2.34; Raphael Curcio, teamster, ¼ day at \$2.25, \$1.69; David Leo, teamster, ¼ day at \$2.25, \$1.69; Thomas Magee, teamster, ¼ day at \$2.25, \$1.41; Jeremiah J. McLaughlin, teamster, ¼ day at \$2.50, \$2.19; Mathew Nolan, teamster, 1½ days at \$2.50, \$2.74; Timothy Noonan, teamster, 1½ days at \$2.25, \$4.22; James J. O'Brien, teamster, ¼ day at \$2.25, \$1.69; John J. O'Brien, teamster, ¼ day at \$2.25, \$1.69; Edward A. Pyne, teamster, ¼ day at \$2.25, \$1.69; Michael Ronan, teamster, 1½ days at \$2.25, \$2.95; John C. Thompson, teamster, ½ day at \$2.25, \$1.41; Thomas Williams, teamster, 1½ days at \$2.25, \$2.74; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; James McKenney, teamster ¼ day at \$2.25, \$1.69; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Patrick Heffernan, repairer, ¼ day at \$2.75, \$0.34; Michael McCarthy, 2d, laborer, ¼ day at \$2.25, \$0.28; Daniel Fallon, laborer, ¼ day at \$2.25, \$0.28; John Leonard, laborer, ¼ day at \$2.25, \$0.28; Joseph T. Ryan, plumber, ¼ day at \$3, \$0.38; Hugh Campbell, repairer, 7½ days at \$2.50, \$1.09; Jeremiah Scanlon, inspector, ¼ day at \$2.75, \$0.69; Mathew Brennan, inspector, ¼ day at \$3, \$1.50; Patrick J. Kelly, inspector, 1½ days at \$2.95, \$3.50; Patrick F. Mullen, inspector, 1½ days at \$2.75, \$2.23; John J. Gallagher, pipe layer, 1 day at \$2.50, \$2.50; John McCormick, 2d, watchman, 1 day at \$2.25, \$2.25; Dennis McGowan, watchman, 1 day at \$2.25, \$2.25; John Farrell, laborer, 1 day at \$2.25, \$2.25.

Water Department (Income Division).

For the week ending Thursday, September 29, 1910:

P. J. Clougherty, laborer, 1½ days at \$2.25, \$4.29; J. H. Cullen, plumber, ¼ day at \$3, \$0.75; M. J. Dinneen, laborer, 1½ days at \$2.25, \$0.77; T. J. Dolan, plumber, 1½ days at \$3, \$2.81; E. H. Gilmore, tester, 1 day at \$2.50, \$2.50; J. Gilroy, repairer, ¼ day at \$2.25, \$0.56; O. J. Gilloon, plumber, 1½ days at \$3, \$1.41; E. Mahoney, laborer, ¼ day at \$2.25, \$1.69; J. J. Mahoney, laborer, ¼ day at \$2.25, \$0.56; T. McAuliffe, laborer, 1 day at \$2.25, \$2.25; Frank McCarthy, laborer, 1½ days at \$2.50, \$3.13; P. J. McCarthy, plumber, 7½ days at \$2.75, \$0.60; M. M. McGrath, laborer, 1 day at \$2.25, \$2.25; George A. Murphy, laborer, ¼ day at \$2.25, \$0.56; M. Mulkern, laborer,

1½ days at \$2.25, \$3.02; J. H. O'Brien, laborer, 7½ days at \$2.25, \$0.49; Joseph Rice, tester, ¼ day at \$2.50, \$1.88; James J. Roche, laborer, 1½ days at \$2.25, \$1.05; D. J. Rull, Jr., plumber, ¼ day at \$3, \$0.75; P. A. Russell, laborer, 1½ days at \$2.25, \$3.72; D. Sullivan, laborer, 1½ days at \$2.25, \$2.46; J. Sullivan, laborer, 1 day at \$2.25, \$2.25; T. J. Sullivan, plumber, 1½ days at \$3, \$1.03; J. E. Tierney, machinist, 1 day at \$3, \$3; M. P. Welch, plumber, 1½ days at \$2.75, \$3.01.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending October 6, 1910:

SCHOOLHOUSE DEPARTMENT.

On October 3 the Mayor approved a contract with D. M. Biggs & Co. for grading the grounds of the Blackinton School for the sum of \$1,850. There was no other bid.

STREET DEPARTMENT (Highway Division).

On October 3 the Mayor approved a contract with James Doherty for building with trap rock a macadam roadway in West Park street, Dorchester. Bids on this work, opened September 27, were as follows:

	Local Stone.	Trap Rock.
James Doherty	\$1,677 85	\$1,694 85
William J. Rafferty & Co. . .	1,795 70	1,855 20
J. B. O'Rourke & Co. . . .	1,873 20	1,873 20
John McCourt & Co.	2,117 80	2,160 30

On October 3 the Mayor approved a contract with James Doherty for building with trap rock a macadam roadway and artificial stone sidewalks in Westcott street, Dorchester. Bids on this work, opened September 27, were as follows:

SUPPLY DEPARTMENT.

On October 5 the Mayor approved a contract with the W. F. Whittemore Company for supplying hay, straw, oats, shorts and corn for use of the various city departments, during October, in different sections of the city. Bids on these goods, opened September 28, were as follows:

	No. 1 Hay.	No. 2 Hay.	Straw.	Oats.	Shorts.	Corn.
SOUTH BOSTON.						
W. P. Whittemore Company				\$0 41½	\$25 00	\$0 70
John J. White				42	26 00	67
Nathan Tutts & Sons				43	25 00	66
CITY PROPER.

J. B. O'Rourke & Co.	3,634 25	3,634 25
John McCourt & Co.	4,105 25	4,183 25

STREET DEPARTMENT (Sewer Division):

On October 3 the Mayor approved a contract with Antony Cefalo for constructing pipe surface drains in Ainsworth street. Bids on this work, opened September 26, were as follows:

Antony Cefalo, \$1,077.77; Charles J. Jacobs Company, \$1,213.50; Murphy & Dolan, \$1,281.52; George J. Regan, \$1,313.42; Emelio De Christofaro, \$1,373.55; J. B. O'Rourke & Co., \$1,407.50; William Rafferty & Co., \$1,429.55; McCarthy & Walsh, \$1,500.65; Michele Cappuccio, \$1,507.46; Connecticut Construction Company, \$1,548.87; Raffele Cartullo, \$1,610.

On October 5, the Mayor approved a contract with the J. C. Coleman & Sons Company for building pipe sewers and drains in Rockdale and Rosewood streets, Dorchester. Bids on this work, opened September 27, were as follows:

J. C. Coleman & Sons Company, \$3,708.05; Commonwealth Construction Company, \$4,047.87; J. H. Ferguson, \$4,102.19; George Regan, \$4,172.87; William J. Rafferty & Co., \$4,448.18; McCarthy & Walsh, \$4,827.76; Charles J. Jacobs & Co., \$4,832.18; Antony Cefalo, \$4,839.09; J. B. O'Rourke & Co., \$5,105.28; John McCourt & Co., \$5,115.67.

On October 6 the Mayor approved a contract with George J. Regan for constructing pipe sewers and drains in Quint avenue, Brighton. Bids on this work, opened October 3, were as follows:

George J. Regan, \$2,702.76; J. B. O'Rourke & Co., \$2,763.85; Antony Cefalo, \$2,889.57; Michael Cappuccio, \$2,973.62; Luke D. Mullen, \$3,000.55; Commonwealth Construction Company, \$3,058.66; Di Pietro & D. Spolite, \$3,061.50; McCarthy & Walsh, \$3,154.10; A. M. Cusack, \$3,210.15; Charles J. Jacobs Company, \$3,401; John McCourt & Co., \$3,655.

SUPPLY DEPARTMENT.

On October 3 the Mayor approved a contract with F. M. Ferrin for supplying 12,692 feet of 19-inch, 2,386 feet of 10-inch and 809 feet of 6-inch lead conductor cable, and 1,000 feet of 19-inch overhead cable. Bids on these goods, opened September 29, were as follows:

Kerits Insulated Wire and Cable Company, \$5,184.67; F. M. Ferrin, \$5,246.22; National India Rubber Company, \$5,731.36; Pettingell-Andrews Co., \$10,567.79.

On October 5 the Mayor approved a contract with Hosmer, Robinson & Co. for supplying hay and straw for use by various city departments during October in the South Boston, East Boston, Charlestown and city proper districts. Bids on these goods, opened September 28, were as follows:

	No. 1 Hay.	Straw.
SOUTH BOSTON.		
Hosmer, Robinson & Co.....	\$19 50	\$15 00
Scott & Paine.....	20 30	14 00

Hosmer, Robinson & Co.....	19 50	15 00
Scott & Paine.....	20 50	14 00
CITY PROPER.		
Hosmer, Robinson & Co.....	19 50	15 00

WITHOUT ADVERTISING.

FIRE DEPARTMENT.

On October 6 the Mayor, in view of the representations in the following letter, approved three contracts made, without advertising, with the American La France Fire Engine Company, for the purchase of the following engines:

One two-horse Babcock chemical engine for the sum of \$1,408; one Combination ladder truck (duplicate of Ladder Company 26), for the sum of \$1,790; one 85-foot American aerial truck for the sum of \$5,300.

"The reason for not advertising for proposals in this matter is that the necessity of the case demands immediate action. I inclose a statement covering the facts, showing the necessity for the immediate purchase of this apparatus.

"CHARLES D. DALY,
"Fire Commissioner."

Fire Department,
Boston, October 5, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—I have the honor to call your attention to the dangerous and depleted condition of certain apparatus of this department.

During the past year there has been a small supply of apparatus in reserve in this department. Certain highly essential pieces, fitted for excellent service, was destroyed while at the repair shop during the fire August 9th, the result being that the department had left for active service the inadequate apparatus of the reserve which had been substituted for the original pieces.

It results that Ladder No. 14, serving the heart of the commercial district, is a slow raising aerial that has been discarded for years. It would not be able to render effective service in time of emergency. To make matters worse it has broken down twice.

The reserve chemical engine in the house

of chemical No. 5, Egleston square, was built in 1874; is thoroughly out of date and unsatisfactory.

The ladder truck serving the Grove Hall district is over 25 years old, and is quite inadequate. There is no ladder available within a distance of one-half mile. In this case, as in the other two, the apparatus has far outlived its usefulness.

I therefore recommend, to replace the destroyed apparatus, the immediate purchase of one aerial truck to take the place of ladder No. 14; one chemical engine to take the place of chemical No. 5, and one combination truck to take the place of ladder No. 23. The destruction of any of the apparatus now in service, as might well result at any large fire, would make conditions very serious.

This department considers the purchase and immediate delivery of this apparatus a matter of urgent necessity.

Yours respectfully,

CHARLES D. DALY,
Commissioner.

PUBLIC GROUNDS DEPARTMENT.

On October 3 the Mayor, in view of the following representations, approved a contract, without advertising, with F. Krasser & Co. for the erection of a wrought-iron fence around the Warren Statue. Bids on this work were as follows:

F. Krasser & Co., \$1,620; Norcross Brothers Company (hammered surface), \$2,800; Norcross Brothers Company (plain surface), \$2,200; Nelson Brothers, \$3,600.

DORCHESTER, September 29, 1910.

Hon. JOHN F. FITZGERALD,
Mayor of Boston:

Dear Sir,—I submit for your approval the attached contract of F. Krasser & Co. to erect a wrought-iron fence around the Warren Statue, according to the accompanying specifications, for the sum of \$1,620.

Although this amount exceeds the one thousand dollar limit, above which the City Charter provides that bids for work shall be advertised, permission was obtained January 10, 1910, from the late Mayor, Hon. George A. Hibbard, to execute this contract without such advertising. This was in view of the character of the work calling for thoroughly skilled workmen and the fact that the number of such iron workers in Boston capable of turning out a satisfactory job in wrought-iron work is so limited. The architect, Mr. Alexander S. Jenney, the late Mr. Jackson of the Engineering Department, and the Art Commission were all of the opinion that the best results could be obtained by having a few competent iron workers invited to figure on this fence.

Respectfully yours,

D. H. SULLIVAN,
Superintendent.

This fence was deemed advisable by the Art Commission, but because of the nature of the work the architects, Messrs. Carrere & Hastings, who designed the monument and proposed fence, were of the opinion that the number of iron workers in Boston, capable of turning out work of the character required, was limited, and advised against the policy of advertising for bids.

The authority to award without advertising was granted by Mayor Hibbard, January 10, 1910.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force,

without advertising: Relay and regulate Causeway street, from Leverett street to south side of Lowell street, at an estimated cost of \$1,200; resurface Cambridge street, Brighton, from Charles river to Allston Bridge, at an estimated cost of \$10,000; resurface Main street, between Mead street and Furbush court, at an estimated cost of \$2,100; resurface Bremen street, between Maverick and Bennington streets, at an estimated cost of \$4,000; resurface Warren street, from Copeland street to Blue Hill avenue, at an estimated cost of \$1,500.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

"L. K. ROURKE,
"Superintendent of Streets."

Similar authority has been granted to build a surface drain in Ardale street, West Roxbury, at an estimated cost of \$8,844; to build a sanitary sewer, surface drain, and rebuild about 225 feet of house drains, in Washington street, Dorchester, between Park and Harvard streets, at an estimated cost of \$7,393; to build a concrete surface drain in Selwyn street, West Roxbury, at an estimated cost of \$6,933; to build sanitary sewer and concrete surface drain in Tremont street, between Cunard and Davenport streets, Roxbury, at an estimated cost of \$12,857.

"This work can, in my opinion, be as advantageously done by day labor as any work now necessary.

"L. K. ROURKE,
"Superintendent of Streets."

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners, have been approved by the Mayor:

Signs.—Henry S. Noyes, 3 School street; A. N. Drury, 67 Warren street; Philip K. Nofel, 66 Hudson street; Louis Model, 15 Main street, Ward 5; Leonardo Fiammore, 30 Clark street; S. Pastenek, 1371 Dorchester avenue; Louis Breen, 1423 Dorchester avenue.

Illuminated Signs.—Albert C. Haley, 1453 Dorchester avenue; L. C. Page, 53 Beacon street; Angelo Giordano, 139 Richmond street; Stephen G. Psarris & Co., 130 Summer street; Rosario Lo Surdo, 212 Dover street; Dunlap, Cook & Co., rear of 172 Tremont street; B. H. Kaufman, 341 Washington street; Zona Brothers, 1090A Dorchester avenue; George S. Saunders, 11 Devonshire street; Charles M. Murphy, 2 Hyde Park avenue; Walton's restaurant, 7 School street.

Gasolene.—W. A. Naylor, 2 Schuyler street, Roxbury.

Move Wooden Building.—H. S. Angus & Son, 1 Ashley street to 11 Antrim street, East Boston.

Conduit.—Trustees, will of A. Hemenway, 115 to 116–118 North street.

Pole Locations.—New England Telephone and Telegraph Company: erect six, Vinland street, Ward 25; erect three, Bellevue street, Ward 19; attach to fourteen poles of the Edison Company on Boardman street, East Boston. Edison Electric Illuminating Company: to attach to poles of New England Telephone and Telegraph Company, one, Cambridge street, Ward 25; one, Brighton avenue, Ward 25; two, Huntington avenue, east of Rogers avenue; to attach to one pole of the West End Street Railway Company on Blue Hill avenue, near Cheney street; to erect and remove one, East Eighth street, west of M street; to erect and remove one, Harvard avenue, Ward 25.

New England Telephone and Telegraph Company: to erect and remove one, Morton street, Ward 24.

Street Railway Locations.—West End Street Railway Company: alteration at junction of Adams and Gibson streets, Dorchester; alterations and additions, West and East Broadway, Dorchester street, etc.

Bay Window.—Bernard Rowe, 63 Brooks street.

OPENING OF BATHS AND GYMNASIA.

The Bath Department has announced the opening of the gymnasium season in its public gymnasia for the coming year. The trustees desire to call particular attention to the excellent facilities that are afforded the community to acquire the art of swimming, without charge, in the bathing pools in the Cabot Street Bath House and the Ward 16 Gymnasium, under the direction of competent instructors.

The hours are as follows:

GYMNASIA OPEN FROM 10 A. M.
UNTIL 10 P. M.

MONDAY AND THURSDAY (WOMEN AND GIRLS).

Mothers' class from 10 a. m. to 12 m.
School girls from 4 p. m. to 6 p. m.
Working girls from 7.30 p. m. to 10 p. m.

TUESDAY AND FRIDAY (MEN FROM 10 A. M. TO
10 P. M.).

Class from 7.30 to 10 p. m.
Individual instruction from 3.30 to 5.30 p. m.

WEDNESDAY AND SATURDAY (BOYS).

Wednesday, school boys from 4 p. m. to 6 p. m.
Wednesday, working boys from 7.30 p. m. to 10 p. m.
Saturday, juniors from 10 a. m. to 12 m.
Saturday, seniors, from 2 p. m. to 4 p. m.

STREET COMMISSIONERS.

The Mayor has approved orders of the Board of Street Commissioners, that no person suffers damages in his estate, and that no person receives special benefit by reason of the widening of Pope street, East Boston, as a highway, on the southerly side, west of Curtis street.

The Mayor has approved a vote of the Board of Street Commissioners, taken after consultation with the Law Department, and on its advice, assessing damages occasioned the estate of Benjamin H. Green by the laying out of Wales street, at the sum of \$1,898.80.

CLAIMS.

On October 5 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

John J. Garrity, \$100, on account of damage to property at 19 Gustin street caused by change of grade.

Lavenia Strang, \$35, on account of personal injuries caused by defect in sidewalk on Third street, near O street, November 14, 1909.

James Brown, \$25, on account of personal injuries caused by a projecting manhole stone at 245 Atlantic avenue, March 12, 1910.

Nicola Petrona, \$35, on account of personal injuries caused by collision of ferryboat with slip, at East Boston, June 12, 1910.

PAYMENTS TO DISABLED EMPLOYEES.

WATER DEPARTMENT.

The following allowances made by the commissioner have been approved by the Mayor:

Martin H. Connolly, Distribution Division, 18 days at \$2.50, \$45. Thomas Coyne, 2d, Distribution Division, 19 days at \$2.25, \$42.75.

FINANCE COMMISSION.

October 4, 1910.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—The Finance Commission received at 4.45 p. m. on October 3 the letter addressed to the commission under date of September 30th, which, on October 2, was published in the newspapers.

The letter states:

That the late Andreas Tomfohrde died leaving a large estate, and that the total value of his property at 37-41, 45-47 and 51 Court street has been greatly enhanced in the last twenty years, the land value increasing from \$238,000 to \$695,100, or nearly 200 per cent, though the building, "either through neglect or from natural depreciation, decreased in value \$42,100, or in round numbers 60 per cent."

That "this fortunate investor is reported to have made no public bequests, yet he owed every dollar of this added value to the public. No intellectual or moral quality was displayed by him in acquiring it, and no form of service was rendered. His only talent was to purchase and to keep."

That "meanwhile, the growth of population, the ever-swelling tide of travel and of trade, the expenditures of the public money on pavements, sidewalks, lights and fire and police protection, the building of a great court house in Pemberton square,—in a word, all the multi-fold activities of the community at large increased and enhanced the value of his estate and would have enhanced it equally if the owner had been some absentee landlord instead of a restaurant keeper doing business on the premises," and

That the annual payment of taxes to the city of about 1½ per cent was inadequate.

The letter concludes with a request to the commission to "consider some plan by which a larger fraction of the increased value of land may go to the community, at least when this increase assumes abnormal proportions, and, failing this, the owner may be compelled to maintain some minimum ratio of value between the land and the buildings erected upon it."

The proposed additional tax is presumably founded on the assumed right of the public to take the increased values which it is said to have created, thus depriving the actual owner of wealth not derived from his individual efforts.

The question of the just distribution of values created by increase of population and general growth of commerce and industry is one almost as old as society itself. It is a never ending subject of discussion by political economists, particularly by those who advocate either a single tax upon land and the abolition of all other forms of taxation, or the government ownership of all land. The decision of the question would affect every person and every interest in the entire community. No body charged with such duties as those which rest upon the Finance Commission could give sufficient time to the study of this question to deal with it adequately.

The work already begun by the commission on its own initiative, together with other work which it will be obliged to perform, would make the assumption of this task exceedingly difficult, if not impossible; the additional work assumed by the commission at your Honor's request makes it absolutely impossible. A list of the subjects which have been referred to the commission by your Honor, and which are receiving its consideration is as follows:

- Mar. 17, 1910. School Department investigation.
- Aug. 17, 1910. 1. High Pressure Water Service.
- 2. Laws Relating to Wharf Construction.
- 3. Creation of Reserve Fire Signal System.
- 4. Adequacy of Present Building Laws.
- 5. Increase in membership of Fire Department.
- Sept. 17, 1910. Economic and Social Problems involved in the report of Edward F. McSweeney, Chairman Consumptives' Hospital Department.
- Sept. 24, 1910. Transfer to the State of the Suffolk School for Boys.
- Sept. 24, 1910. Transfer to the State of the Boston Normal School.
- Sept. 24, 1910. Transfer to the State of the Consumptives' Hospital Department.
- Sept. 28, 1910. Cost of construction of water bridges connecting Boston with other cities in the Metropolitan district.

The commission, therefore, respectfully declines to investigate the subject, but believes that it may be pertinent before dismissing it to invite your Honor's attention to some of the general considerations which make it inexpedient to deal with a subject of this character.

The commission believes it both a sound economic principle and a just governmental policy which takes from the mass of citizens only the amount necessary for the honest and economical administration of government, and leaves the remainder of the citizens' earnings to themselves to be used in productive enterprises that promote the general welfare. The city's revenues are ample now for all legitimate needs provided the city's business be conducted honestly and economically. To increase the revenues by further taxes would be to divert money from productive industry and to invite extravagance in municipal expenditures.

The commission does not believe it necessary to discuss the tendency of the proposed plan to discourage investments in real estate, and to inaugurate a partial system of state socialism. It is sufficient for the present to state that, in the opinion of the commission, the plan could not be worked out without an amendment of the Constitution of the state, which limits taxes on estates to proportional and reasonable assessments.

Moreover, as none of the select bodies authorized by the Legislature to consider the entire subject of taxation, viz.: the Commission of 1896, the Joint Special Committee of 1906 and the Commission of 1907, have recommended any such changes as are suggested by your Honor, the commission believes that there is little likelihood of the enactment in the near future of any law embodying the plan submitted for its consideration.

The commission respectfully points out that the issues suggested by your Honor are state wide, not municipal in character, and could not be intelligently treated without full consideration of the vast questions involved in the theories of single tax, state socialism and public ownership of land, work which could be performed, if at all, only after years of study by a specially qualified state commission.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

PERMISSION TO SELL.

PARK DEPARTMENT.

The Mayor has granted to the Park Commissioners permission to sell surplus sheep and lambs to individuals.

LEASES OF PROPERTY FOR POLICE USES.

The Mayor has approved a renewal of the lease, for three years, of premises 35-37 La Grange street, owned by Edward H. Eldredge *et al.*, trustees, at the rate of \$1,000 yearly, the city to assume all taxes, the said property to be used as a patrol house for Station 4 of the Police Department.

The Mayor has approved a lease, for five years, of premises 678 Harrison avenue, owned by Charles T. Gallagher *et al.*, trustees, at the rate of \$500 yearly, the said property to be used as a patrol house for Station 5 of the Police Department.

AMENDMENT OF SCHEDULE OF PERMIT CHARGES.

The Mayor has approved the following amendment to the schedule of charges for various classes of permits, as printed in the *City Record*, July 16, by the addition of Class 19, to read as follows:

Annual permits at rates other than those in the preceding classes, when, in the opinion of the Superintendent of Streets, such permits are requisite to the proper conduct of the permit system.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENTS.

The following appointments have been made, subject to confirmation by the Board of Civil Service Commissioners:

October 6, Felix W. McGettrick to be Penal Institutions Commissioner.

October 6, Philip J. Sondheim to be a Children's Institutions Trustee.

FREIGHT HANDLING AT TERMINALS.

Freight handling facilities at terminals were brought into prominence again by the repeated references to them in the speech of President Taft before the Ohio Valley Improvement Association at Cincinnati on September 21. The eminent orator would doubtless acknowledge without hesitation that his personal acquaintance with the subject is slight, but as the preparation of a presidential address is assisted by specialists in the important subjects discussed, what he had to say is important. In relation to the work of the Burton Commission, he stated: "In their investigations abroad, the commission found that a great deal of money and time had been spent in perfecting the terminals for river transportation, and they deplore the entire absence of such terminals on many of the navigable rivers of this country." These investigations further showed that where water-borne traffic has increased most, as on the Great Lakes, elaborate provisions have been made for handling the more important classes of freight in the most economical manner. President Taft then compares railroad and barge transportation, and asserts that the average rate of speed of a loaded freight train is not much greater than that of a tug and barges on the great inland rivers, so that as regular schedules are possible as on railroads, provided the navigability of the river can be maintained substantially uniform throughout the year. But regular schedules and fair speed are not all that is necessary, as the president clearly stated in the following words: "One of the advantages the railroads have over the river arises from the readier transfer of traffic from one railroad to another,

as compared with transfer from water to land or land to water; and this affects not only the physical transfer of traffic, but the through haul of cars without break of bulk. In this connection we must note the physical disadvantage of rivers, due to the very considerable oscillation in their levels, which makes it more difficult to provide convenient and adequate loading machinery and renders the receipt and shipment of freight proportionately more expensive."—*Engineering Record*.

BUREAUS OF MUNICIPAL RESEARCH.

Bureaus of municipal research are now in operation in several cities and their number bids fair to increase. They generally have for their purpose the promotion of efficiency and economy in the conduct of municipal business and to this end they study the methods by which different departments of city governments carry on their work with a view of recommending such changes as may seem necessary. There is no doubt that the efforts of such organizations may accomplish much good where the criticism is of a constructive rather than of a destructive nature. It is often a very simple matter to criticize the head of a department for inefficiency, but quite a different thing to improve conditions when subjected to the same restrictions as those under which he works. Self-appointed committees of investigation should bear this in mind, and, furthermore, they should remember that in those cases where a department is honestly trying to do its work, but is unsuccessful because of influences beyond its control, the greatest good will result if recommendations are made directly to the department concerned, and with as little publicity as possible. Where incompetency is found the proper way to remedy matters is by peaceful methods, but if these fail it is then time to use forceful means. Co-operation and a desire on the part of the department head to secure greater efficiency will usually result in a speedy improvement, but where the investigating committee is met with great opposition by a department which is being studied it is due to one of two causes: either the committee has failed to exercise tact in handling the investigation, or the department has something to cover up. In the latter case, if the investigation is really being conducted in the interest of the public, it is probable that most good will result in those cases where opposition is greatest. It is evident that a principal function of such a bureau is to awaken public interest in the administration of municipal affairs. Publicity, therefore, should be the means to an end rather than the end itself. The bureau should not be prone to rush into print too hastily.—*Engineering Record*.

ARGUMENT FOR CITY LODGING HOUSES.

Receiving no encouragement from Mayor J. E. Reyburn of Philadelphia in the move to have unoccupied city property opened for the use of the unemployed and homeless, a second letter has reached him from John N. Landberg, counsel for the International Brotherhood Welfare Association and Committee of the Unemployed. James Eads How, the national chairman, likewise failed to interest the mayor in the movement. The second letter to the mayor suggests that he has not had the object of the movement properly presented before him, adding:

"As a direct result of Dr. How's agitation municipal lodging houses have been established, first in St. Louis and later in

Chicago, and the usefulness of these needed institutions has been demonstrated, first, in the conservation of the strength of the homeless unemployed, who otherwise sleep here and there, in squares and public places about the city, which mode of life undermines their health, rendering them utterly unfit for almost any kind of work when they get it; secondly, in the diminution of crime, with the resultant congestion of prisons, since in the absence of a municipal lodging house homeless men arrested for vagrancy are incarcerated in the county prison, which has a pernicious tendency of making criminals out of decent but poor, fellows; thirdly, in that a great many worthy citizens will no longer lose their franchise by being compelled to wander about from place to place."

NEW ORLEANS PAVING PLANS.

A paving plan that Chairman Frawley has suggested to Mayor Martin Behrman of New Orleans, La., and which he hopes will be favorably considered, is to devote the surplus revenue of the years which the city is authorized to anticipate to paving a business street above and below Canal street with Belgian block. Say, Peters street; it might be paved from Clouet street to Canal, and then South Peters to Tchoupitoulas, where the streets connect, and from there Tchoupitoulas to Washington avenue. That would make a fine street in front of the main business part of the city, and the drivers of floats and heavy wagons could be compelled to use that street with their loads and keep off the new-paved asphalt streets. The \$400,000 from one year would pay for the city's part of this work, and when a Belgian block street is once finished it lasts many years. Lafayette and Perdido streets were paved with these blocks in 1894, and the pavement is practically as good now as when it was put down, any deterioration being mainly due to the laying of conduits, etc. In spite of the apparent desirability of that class of streets, strange to say, very little of the material was used after these streets were paved. Brick was tried and abandoned and then asphalt, bitulithic and recently granitoid, but some good block pavement streets, it is argued, would save these fine streets from wear and tear.

DULUTH PLANS MUNICIPAL DOCKS.

Duluth, Minn.—The proposed formation of a powerful independent vessel line to free the lake ports of the grip of the so-called package freight line trust and the railroads, which are now in absolute control of the Great Lakes' commerce, because of their ownership of the terminals, was revealed by Mayor M. B. Cullum at the final meeting of the conference committee. Upon his declaration that Duluth is now the "missing link" in the chain of municipal docks which have been planned, the conference committee recommended to the Council that \$15,000 be set aside from the permanent improvement fund as the nucleus of a local system of municipal docks. Cleveland is preparing to spend \$15,000,000 for a system of municipal docks; Chicago is expending vast sums, and Superior and Oconto, Wis., and other cities are working on plans for independent landing facilities.—*Municipal Journal and Engineer*.

Asphalt pavements in Berlin, Germany, aggregate about 45 per cent of the total paved area of the city, according to a United States consular report. About 53 per cent is stone pavement and 2 per cent wood.—*Engineering Record*.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR PLUMBING.

The trustees of the Consumptives' Hospital of Boston invite bids for "Plumbing of the Domestic Administration Building and Corridor at the Consumptives' Hospital, River street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the architects, Maginnis & Walsh, 902 Colonial Building, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m. Wednesday, October 19, 1910, with a certified check for \$300, payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trade unions' rate of wages. The proposal should be enclosed in an envelope, sealed and marked, "Bid for Plumbing of the Domestic Administration Building and Corridor at the Consumptives' Hospital."

PROPOSALS FOR BUILDING CONCRETE WALL
AT BLACKWOOD STREET.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for building concrete wall at Blackwood street, City Proper, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be enclosed in an envelope, sealed, marked "Bid for Blackwood Street Wall," and left at the said office of the Superintendent of Streets before 12 m. on Monday, October 17, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 6, 1910. (Oct. 8.)

CITY OF BOSTON.

PROPOSALS FOR ELECTRICAL WORK.

The trustees of the Consumptives' Hospital of Boston invite bids for "Electrical Work for the Domestic Administration Building and Corridor at the Consumptives' Hospital, River Street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the engineers, Hollis French & Allen Hubbard, Room 534, 85 Beach street, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m. Wednesday, October 19, 1910, with a certified check for \$250 payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trade unions' rate of wages. The proposals should be enclosed in an envelope, sealed and marked "Bid for Electrical Work for the Domestic Administration Building and Corridor at the Consumptives' Hospital."

COMMONWEALTH OF MASSACHUSETTS.

OFFICE OF THE BOARD OF HARBOR AND LAND COMMISSIONERS.

STATE HOUSE, BOSTON, September 30, 1910.
Notice is hereby given that the City of Boston has made application to this Board for license to extend Eastern Avenue Wharf and rebuild the southerly pier, in Boston Harbor, in Boston, as per plans filed with said application; and Wednesday, the 19th day of October, 1910, at 11 o'clock a. m., and this office, have been assigned as the time and place for hearing all parties interested therein. For the Board,

GEORGE E. SMITH,
(Oct. 8.) *Chairman.*

CITY OF BOSTON.

PROPOSALS FOR COAL.

Contractors are invited to furnish proposals for a supply of whatever hard white ash, broken, egg and stove coal, and also whatever bituminous coal for steam purposes, that may be required for the public buildings, and for the several departments of the City of Boston, not otherwise provided for, from November 1, 1910, to February 1, 1911. A certified check for \$1,000, payable to and to be the property of the City of Boston if the proposal is not carried out must be filed with the proposal. A satisfactory bond in the sum stated in the contract will also be required. The bidders must use the form of proposal to be obtained at the office of the Supply Department, 826 Tremont Building, fill out and sign the same, and leave it at the office of the Superintendent of Supplies before 12 o'clock m. of Monday, October 17, at which time and place said proposals will be publicly opened and read. The proposals and check should be enclosed in an envelope indorsed "Proposals for Coal." The undersigned reserves the right to reject any and all proposals and give preference to bidders paying the trade unions' rate of wages.

J. EDWARD MULLEN,
(Oct. 8-15.) *Superintendent of Supplies.*

CITY OF BOSTON.

PROPOSALS FOR HEATING.

The trustees of the Consumptives' Hospital of Boston invite bids for "Heating of Domestic Administration Building and Corridor at the Consumptives' Hospital, River Street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the engineers, Hollis French & Allen Hubbard, Room 534, 85 Beach street, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m. Wednesday, October 19, 1910, with a certified check for \$250, payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trade unions' rate of wages. The proposals should be enclosed in an envelope, sealed and marked "Bid for Heating of Domestic Administration Building and Corridor at the Consumptives' Hospital."

EDWARD F. MCSWEENEY,
(Oct. 8-15.) *Chairman Board of Trustees.*

COUNTY OF SUFFOLK.

PROPOSALS FOR WIRING FOR INCANDESCENT LAMPS AT THE SUFFOLK COUNTY JAIL.

Sealed proposals will be received at this office until two o'clock p. m. October 31, 1910, and then opened, for the installation of electric wires, fixtures and appurtenances for the male portion of Suffolk County Jail and the residence of the sheriff of Suffolk County adjacent to the jail, in accordance with specifications, copies of which may be obtained upon application to the sheriff at his office. A duplicate copy of such proposal shall be delivered to J. Alfred Mitchell, County Auditor, before the time of opening such proposals.

FRED H. SEAVEY,
(Oct. 8-15.) *Sheriff.*

CITY OF BOSTON.

HEARING ON PETITION OF BOSTON ELEVATED RAILWAY COMPANY.

The Executive Committee of the City Council will hold a public hearing on the petition of the Boston Elevated Railway Company, lessee, for permission to operate as a common carrier of newspapers, baggage, express matter and freight on tracks of West End and Old Colony Street Railway Companies in City of Boston, on Friday evening, October 14, at 8 o'clock, in the Committee Room, City Hall. Per order of the chairman.

JOHN F. DEVER,
CITY HALL, October 8, 1910. (Oct. 8.)
Clerk of Committers.

UNIONS TO BUY MILWAUKEE BONDS.

Milwaukee, Wis.—Milwaukee will be able to dispose of its city bonds even if the large New York banking houses refuse to handle them. Several of the national unions, including the Bakers, the Brewery Workers and the Western Mine Workers, have agreed to purchase large blocks of Milwaukee securities.—*Municipal Journal.*

PROCEEDINGS OF SCHOOL COMMITTEE.

Sept. 26, 1910.

A meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5 o'clock P. M., the Chairman presiding.

Present: Messrs. Ellis and Magen.

ADJOURNMENT.

The Board adjourned at 6:50 o'clock P. M., in the absence of a quorum, to meet on Monday, Oct. 3, 1910, at 5 o'clock P. M.

Attest:

THORNTON D. APOLLONIO,
Secretary.

Oct. 3, 1910.

A meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5:06 o'clock P. M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the meeting of Sept. 12, 1910, was omitted, the Board approving them as printed.

STREET CLEANING CRUSADE.

The following communications were received:—

CITY OF BOSTON.

Office of the Mayor.
September 21, 1910.

School Committee,
Mason street,
Boston, Mass.

Gentlemen:—

The city government is engaged in a street cleaning crusade in which it desires to enlist the support of every person possible. We have been led to believe, from the example of other cities, like Milwaukee and New York, that the children, whose thoughtlessness contributes so much to the unsightly littering of the streets, might, if tactfully approached, be persuaded to adopt more tidy habits and even constitute themselves in some instances as apostles of the proposed reform. If the one hundred thousand pupils of the public schools could be organized into a boys' and girls' brigade for the purpose of keeping the streets clean hardly any other agency would be more powerful in effecting this desired end.

With this thought in mind I have prepared the following letter to the school boys and school girls of Boston, which I respectfully submit to your committee with the request that it be read on an appointed morning by every teacher in the public schools to his or her class, and, if possible, accompanied with suitable remarks and questions. The actual reading of the document ought not to take more than three to four minutes, and I trust that you may regard the purpose of it as educational in a broader sense and may find it possible, without disarrangement of your program of studies, to set aside a short period some morning when this appeal could be made. Should the suggestion meet with your approval, as I trust it will, I shall be most happy to have printed copies of the appeal mailed to the teachers of the city without expense to your committee.

Yours very truly,

John F. Fitzgerald, Mayor.

CITY OF BOSTON

Office of the Mayor.

To the School Boys and School Girls of Boston:—

I wonder if you know how much it cost last year to keep the streets of Boston clean. The exact amount was \$600,417.38—almost a dollar for every man, woman and child in the city. In ten years this would make over six and a half million dollars, and still the streets are not so clean as they ought to be. Whose fault is this? Nearly everybody's more or less. So many persons seem to think the street, which is properly the opening between the houses through which we walk or ride, is also intended as a great receptacle or dumping place for rubbish. Walk along and notice, especially in the channel near the curb-

stone, the torn fragments of paper blowing about, the apple cores, banana skins, corn husks, peanut shells and house refuse, and then notice the same street after it has been swept. How smooth and clean and almost new it looks! Doctors tell us that all this rubbish lying in the dust carries germs of disease and makes people sick. A good doctor wants to keep people well. He tries to prevent sickness even if, when he has done so, fewer patients come to seek his services. So all the doctors are asking for cleaner streets and the city government is also eager to have them because it costs so much every year to collect and remove rubbish. But what can the doctor do and what can the city government do if the people themselves continue to treat the open street as if it were the dumping ground?

We are told that the people in Europe do not use the streets in this way. In Germany, for example, they would regard some of our habits as most uncleanly, and when you come to think of it, are they not quite right? The street is in one sense the floor of the city, and no person who has been well brought up would throw soiled papers or decayed fruit on the floor of his home or of a school room. The waste baskets are there for just that purpose. So, why not let us all agree for the next year, when we are tempted to use the streets in this way, to refrain from doing so and to hunt up a suitable barrel or receptacle in which the rubbish may be placed. This may cost us a little trouble but most things that are valuable have to be paid for.

I wish the pupils in the schools might be the leaders in a movement of this kind. They are doing it in other cities and Boston ought not to be behind in so excellent a work. There are more than one hundred thousand of you studying in the schools and if all the litter you cast away in the whole year were heaped up in some open field next Fourth of July morning I think it would make the biggest and brightest bonfire that Boston ever saw. Let us keep the streets clean and be all so much the healthier, happier, and perhaps the richer for it. After we have tried this for a whole year I am sure the results will be so satisfactory and we shall be so proud of our new looking streets and so happy in our improved health that we shall be glad to continue the practice, until some time our city will present as neat an appearance to visitors as the cities of Europe do. I ask every boy and girl in the schools of Boston to contribute his or her share toward making our city the cleanest city in America.

John F. Fitzgerald, Mayor.

The communications were placed on file, and the Secretary directed to take such steps as may be necessary to have the suggestion of His Honor, the Mayor, carried into effect.

EVENING CLASSES FOR ITALIAN WORKERS DESIRING TO LEARN ENGLISH.

A communication was received from His Honor, the Mayor, under date of Sept. 16, 1910, enclosing resolutions, expressing the desire of certain organized Italian laborers of this city to be afforded opportunities for the acquisition of the English language.

Referred to the Superintendent for investigation and report.

INSTALLATION OF DRINKING FOUNTAINS AND WATER METERS IN SCHOOL BUILDINGS.

A communication was received from the Schoolhouse Commissioners, under date of Sept. 29, 1910, with reference to the use of common drinking cups in school buildings, and stating that preparations have been made to install bubbling fountains in all school-houses; also with reference to water meters, stating that fixtures and tanks to control the flow of water have already been installed in a number of buildings, and suggesting that, in view of the fact that the Committee will be saved a large sum of money by the installation of these fixtures, the Schoolhouse Commission be reimbursed for the cost of same, if possible. In the same connection a circular issued by the Secretary to principals of schools and districts calling attention to the provisions of the act restricting the use of common drinking cups, and cautioning them against allowing any violation thereof was also submitted.

Placed on file.

DEATHS.

The Superintendent reported the deaths of the following-named teachers, who had been retired on pension:—

Public Latin School—Charles J. Capen, master, Oct. 2, 1910.

Thomas N. Hart District—Laura J. Gerry, assistant, Aug. 25, 1910.

The Superintendent also reported the death of the following-named teacher:—

Eliot District—Annie M. H. Gillespie, assistant, Sept. 23, 1910.

Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, were presented:—

(To Retire from the Service.)

Mechanic Arts High School—George J. Brunelle, assistant instructor, to take effect Aug. 31, 1910.

Bowdoin District—Edna Sloane Clark, assistant kindergarten, to take effect Aug. 31, 1910.

Brimmer District—Alma Boodro, assistant, to take effect Aug. 31, 1910.

Charles Sumner District—Margaret F. Hilliard, assistant kindergarten, to take effect Aug. 31, 1910.

Dearborn District—Teresa C. Hoye, Mary A. Lynch, assistants, to take effect Sept. 30, 1910.

Dillaway District—Mabel L. Harrington, assistant, to take effect Aug. 31, 1910.

Edward Everett District—Ellen R. Scott, assistant, to take effect Aug. 31, 1910.

Oliver Hazard Perry District—Willena E. Browne, first assistant kindergarten, to take effect Sept. 30, 1910.

Oliver Wendell Holmes District—Mary C. Sinnott, assistant, to take effect Oct. 10, 1910.

Prescott District—Agnes M. Turnbull, assistant, to take effect Sept. 27, 1910.

Roger Wolcott District—Helen F. Farrell, assistant, to take effect Sept. 30, 1910.

Thomas Gardner District—Imogene J. M. Conland, assistant, to take effect Sept. 30, 1910.

Thomas N. Hart District—Alice M. Desmond, assistant, to take effect Oct. 3, 1910.

Department of School Hygiene—Leo H. Leary, assistant instructor of athletics, to take effect Aug. 31, 1910.

Manual Training—Mary T. Baker, assistant instructor, to take effect Aug. 31, 1910.

Accepted.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SPECIAL ASSISTANTS.

Mechanic Arts High School—George Adamson (second year), Herbert W. Anderson, Joseph H. Barber (second year), Herbert C. Blaisdell, John R. Carlson, Harry R. L. Chellman, Roland E. Copeland, Fred J. Giduz, Raymond P. Gilman (second year), Herman S. Hall (second year), Eben P. MacCannell, Edward W. Malone (second year), Dexter A. Mower (second year), William E. O'Connor (second year), Lawrence I. Peak, Bernard J. Riordan, Elmer B. Robinson, mechanical department, Sept. 14, 1910.

Abraham Lincoln District—Nora M. McLean, Mary A. Sweeney, Sept. 14, 1910; Teresa A. Regan, Sept. 19, 1910.

Adams District—Margaret A. M. Collins, Mary A. Fouhy, Eleanor F. Morris, Sept. 14, 1910; Mary R. Dooley, Sept. 20, 1910; Mary A. Ford, Sept. 19, 1910; Elizabeth M. McLaughlin, Sept. 21, 1910.

Bennett District—Louise G. Farrington, Sept. 22, 1910; Fanny E. Hayden, kindergarten, Sept. 14, 1910.

Bowditch District—Mary V. Sullivan, Anna D. Ware, kindergarten, Sept. 14, 1910; Elinor C. Twombly, Oct. 1, 1910.

Bunker Hill District—Louise B. Horgan, Catherine E. O'Mara, Oct. 3, 1910.

Charles Sumner District—Mary E. Rohrer, kindergarten, Sept. 21, 1910; Florence A. Smith, Sept. 14, 1910.

Cheverus District—Gertrude M. Denehy, Sept. 28, 1910; Gertrude V. Nugent, Sept. 14, 1910.

Comins District—Gertrude E. Appel, Sept. 26, 1910.

Dearborn District—Anna M. Devin, Mary R. Dooley, Oct. 3, 1910; Gertrude A. LeBlanc, Sept. 14, 1910.

Edward Everett District—Minnie A. Allen, Sept. 14, 1910.

Franklin District—Azniv Beshgeturlan, Oct. 3, 1910.

Frothingham District—Rose M. Bigg, Margaret M. F. Conley, Sept. 14, 1910.

George Putnam District—Mary A. McLaughlin, Sept. 14, 1910.

Hancock District—Mary E. Jago, Sept. 26, 1910; Aloyse M. Owen, Sept. 19, 1910.

Henry L. Pierce District—Katharine A. Lyons, Sept. 15, 1910.

Hugh O'Brien District—M. Frances Bell, Sept. 14, 1910.

John A. Andrew District—Katherine G. O'Brien, Sept. 26, 1910.

Lewis District—Mary L. Carty, Eugene H. Dorr, Sept. 14, 1910; Eleanor F. Morris, Sept. 22, 1910; Regina E. Sallaway, Sept. 15, 1910; Rose A. Vogel, Sept. 16, 1910.

Lowell District—Annie C. Shea, Sept. 14, 1910.

Lyman District—Helen T. Campbell, Grace M. Quirk, Anna E. Shields, Sept. 14, 1910; Ethel D. Hodson, Sept. 14, 15, 16, 1910, three days; Florence R. Le Blanc, Sept. 19, 1910; Gertrude V. Nugent, Sept. 26, 1910.

Martin District—Louise G. Farrington, Emma R. Plummer, Sept. 14, 1910.

Mather District—Peter A. Landrigan, Sept. 14, 1910.

Minot District—Alice G. McGrath, Sept. 14, 1910.

Norcross District—Frances E. Kelley, Sept. 14, 1910.

Oliver Wendell Holmes District—Helen T. Casey, Josephine E. Creber, E. Louise Morrissey, Sept. 14, 1910; Ethel M. Jordan, Sept. 19, 1910; Ethel M. Wilson, Sept. 26, 1910.

Phillips Brooks District—Elizabeth P. Brennan, Caroline L. McAloon, Mary D. McKenna, Mary F. Reagan, Sept. 15, 1910; Mary E. Doherty, Sarah L. Kavenagh, Mary L. Lee, Gertrude P. Stephan, Joseph I. Whalen, Sept. 14, 1910; Winifred H. Nash, Sept. 16, 1910; Regina E. Sallaway, Sept. 23, 1910.

Prescott District—James E. Lynch, Sept. 14-23, 1910; William H. Ryan, Sept. 14, 1910.

Quincy District—Bertha F. Murray, Sept. 16, 1910.

Rice District—Rae E. Blanchard, Sept. 19, 1910; Anna M. Doherty, kindergarten, Sept. 21, 1910.

Robert G. Shaw District—Sybilla A. Dierck, Sept. 26, 1910; Gertrude E. Lennon, Sept. 19, 1910.

Roger Wolcott District—Mary St. A. Casey, Sept. 26, 1910.

Sherwin District—Mary J. Manning, Ruth Pierce, Sept. 14, 1910.

Shurtleff District—Marguerite R. O'Neill, Sept. 27, 1910.

Thomas Gardner District—Helen M. Bulle, Sept. 14, 1910; Helen J. Roberts, Sept. 19, 1910.

Warren District—Theresa M. Cotter, kindergarten, Sept. 14, 1910; Isabel M. Curry, Ellen C. Hayes, Sept. 14, 1910; Grace A. Greene, Oct. 3, 1910.

Washington Allston District—Helen P. Kelly, Sept. 14, 1910.

Wells District—Elinore F. Donoghue, Sept. 15, 1910; Gertrude E. Johnson, Sept. 19, 1910.

Approved.

TEMPORARY TEACHERS.

Girls' Latin School—Rebecca D. Moore, assistant instructor, Sept. 14, 1910.

Bennett District—Mary M. Glennon, assistant, Sept. 14, 1910.

Prescott District—Eleanor M. Kyle, assistant, Sept. 14, 1910.

Quincy District—Mary F. Thornton, assistant, Sept. 14, 1910, to Nov. 14, 1910.

Roger Wolcott District—Theresa F. Long, assistant, Sept. 23, 1910, one day.

Thomas Gardner District—Helen Loring, assistant, Sept. 26, 1910.

Placed on file.

ON PROBATION.

(From the Eligible List.)

Girls' Latin School—M. Alice Kimball, assistant instructor, Sept. 14, 1910.

Dorchester High School—George M. Morris, special instructor in drawing and manual training, Oct. 31, 1910.

East Boston High School—Walter H. Naylor, special instructor in drawing and manual training, Oct. 4, 1910.

Harvard District—Marguerite B. Kaye, assistant kindergarten, Oct. 18, 1910.

Henry L. Pierce District—Katharine A. Lyons, assistant, Oct. 18, 1910; Margaret M. Sallaway, assistant, Sept. 14, 1910.

Phillips Brooks District—Winifred H. Nash, assistant, Oct. 18, 1910.

Rice District—Rae E. Blanchard, assistant, Oct. 18, 1910.

Sherwin District—Mary J. Manning, Ruth Pierce, assistants, Oct. 18, 1910.

Thomas Gardner District—Helen Loring, assistant, Oct. 3, 1910.

Warren District—Ellen C. Hayes, assistant, Oct. 18, 1910.

Washington Allston District—Helen P. Kelly, assistant, Oct. 18, 1910.

Sewing Teacher, Winifred Dalton, Sept. 19, 1910.

Cookery Teacher, Grace E. Cousens, Sept. 19, 1910.

The first three appointments were approved under a suspension of the rules, and the remaining appointments laid over.

(By Promotion.)

High School of Commerce—Newton D. Clarke, master, head of a department (from junior-master), Oct. 4, 1910; Edward J. Rowse, junior-master (from instructor), Oct. 4, 1910.

Bowditch District—Florence J. Ferguson, first assistant kindergarten (from assistant), Sept. 14, 1910; Alice Greene, first assistant in charge (from assistant), Oct. 1, 1910.

Bunker Hill District—Jennie F. White, first assistant in charge (from assistant), Jan. 2, 1911.

Comins District—Sabina Egan, first assistant in charge (from assistant), Sept. 14, 1910.

Warren District—Alice C. Ringer, first assistant kindergarten (from assistant kindergarten, Harvard District), Sept. 14, 1910.

Horace Mann School—Mabel E. Adams, assistant principal (from assistant), Sept. 14, 1910.

Laid over.

Under a License.

Foley, Elizabeth C. Hutchison, Mary R. Kennedy, Martha A. Knowles, Ellen J. MacMahon, Marie E. McCue, Susan A. McKenna, Katherine W. Moffat, Leila M. Nicholl, Annie C. Scollard, Mary T. Sherry, Elizabeth M. Shine, Mary E. Smith, Julia E. Sullivan, Mary E. Towle, Laura J. Westcott.

Approved, and placed on file.

CLOSING OF PLAYGROUNDS FOR SUMMER SEASON.

A communication was received from the Superintendent, under date of Sept. 26, 1910, stating that, subject to the approval of the Board, he had authorized the closing of the school-yard playgrounds for the summer season on Wednesday, Sept. 7, 1910, and had directed that the corners of the park playgrounds be continued in session until further notice.

Approved, and placed on file.

OPENING SCHOOL-YARD PLAYGROUNDS, FALL SEASON.

A communication was received from the Superintendent, under date of Sept. 26, 1910, stating that, subject to the approval of the Board, he had authorized the opening of the following school-yard playgrounds on Monday, Sept. 19, 1910, the daily session of each to be from fifteen minutes after the close of school until 5:30 P.M. on each school day and on Saturday forenoons:

Adams and Chestnut-streets.

Choate Burnham.

Cook.

Cyrus Alger.

Emerson.

George-street.

Hancock.

Lucretia Crocker.

Lyman.

Phillips Brooks.

Polk-street.

Approved, and placed on file.

EMPLOYMENT OF LABORATORY ASSISTANTS, ENGLISH HIGH SCHOOL.

On motion of the Superintendent, it was

ORDERED, That during the months of September, October, November and December, 1910, the employment of laboratory assistants in the English High School at an expense not to exceed two hundred (200) dollars is hereby authorized, said assistants being employed in place of an additional instructor to which the school is entitled under the regulations, and that the expense thereof be charged to the appropriation for salaries of instructors.

EMPLOYMENT OF LABORATORY ASSISTANTS, GIRLS' HIGH SCHOOL, RESCINDED.

On motion of the Superintendent, it was ORDERED, That the order passed June 20, 1910 (see p. 123), relative to the employment of laboratory assistants in the Girls' High School is hereby rescinded.

EMPLOYMENT OF LABORATORY ASSISTANTS, GIRLS' HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That during the months of September, October, November and December, 1910, the employment of laboratory assistants in the Girls' High School, at an expense not to exceed two hundred dollars (\$200), is hereby authorized, said assistants being employed in place of an additional teacher to which the school is entitled under the regulations, and that the expense thereof be charged to the appropriation for the salaries of instructors.

CLERICAL ASSISTANT, GIRLS' LATIN SCHOOL.

On motion of the Superintendent, it was ORDERED, That a temporary clerical assistant is hereby allowed in the Girls' Latin School until such time as the position may be permanently filled in accordance with the Civil Service rules.

A communication was received from the Superintendent, under date of Sept. 26, 1910, stating that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Lillian Dorion, temporary clerical assistant, Girls' Latin School, to take effect Sept. 12, 1910.

Placed on file, and the appointment approved.

On motion of the Superintendent, it was ORDERED, That the rate of compensation of Lillian Dorion, temporary clerical assistant, Girls' Latin School, is hereby established at two dollars and twenty-five cents (\$2.25) per day of service.

A communication was received from the Superintendent, under date of Oct. 3, 1910, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Caroline I. C. Martens, clerical assistant in the Girls' Latin School, to take effect Oct. 3, 1910.

Placed on file, and the appointment approved.

CLERICAL ASSISTANT, DORCHESTER HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the term of service in the Dorchester High School of Sadie H. Roberts, clerical assistant, take effect Sept. 14, 1910, instead of Sept. 20, 1910, as reported to the Board at the previous meeting. (See p. 139.)

APPOINTMENT OF CLERICAL ASSISTANT, MARTIN SCHOOL.

On motion of the Superintendent, it was ORDERED, That a permanent clerical assistant is hereby authorized in the Model School, Martin District, in place of a temporary clerical assistant.

A communication was received from the Superintendent, under date of Sept. 26, 1910, stating that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Mary J. O'Neil, clerical assistant in the Model School, Martin District, to take effect Oct. 1, 1910.

Placed on file, and the appointment approved.

On motion of the Superintendent, it was ORDERED, That the compensation of the clerical assistant in the Model School, Martin District, be, and hereby is, established as follows: first year six hundred dollars (\$600); annual increase sixty dollars (\$60); maximum seven hundred and twenty dollars (\$720).

CLERICAL ASSISTANT, MECHANIC ARTS HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the term of service in the Mechanic Arts High School of Eunice

W. Alden, clerical assistant, take effect Sept. 12, 1910, instead of Sept. 20, 1910, as reported to the Board at the previous meeting (see p. 139).

EMPLOYMENT OF TOOL-KEEPER, CENTRAL EVENING INDUSTRIAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment of a tool-keeper in the Central Evening Industrial School is hereby authorized to take effect Oct. 7, 1910, the compensation of said tool-keeper to be at the rate of seventy-five (75) cents per evening of actual service.

ADVERTISING OPENING OF EVENING SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Director of Evening and Continuation Schools is hereby authorized to expend an amount not exceeding one hundred thirty dollars (\$130) for printing and distributing advertising matter in connection with the opening of the evening schools of 1910-11, said amount to be distributed among the several schools as follows: Evening high schools, fifty dollars (\$50); evening elementary schools, sixty-five dollars (\$65); and evening industrial school and branches, fifteen dollars (\$15).

REGISTRATION, EVENING SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Director of Evening and Continuation Schools is hereby authorized to open such evening schools as he may deem expedient in advance of the regular date of opening for the purpose of registration only, janitors and special assistants of such schools as he may designate, in accordance with this order, to be paid for service in advance of the regular opening.

ESTABLISHMENT OF BRANCH OF COMINS EVENING SCHOOL.

On motion of the Superintendent, it was ORDERED, That for the term of 1910-11, a branch of the Comins Evening Elementary School be established in the Kenilworth-Street School-house for classes in industrial subjects.

WOMAN FIRST ASSISTANT, BOWDOIN EVENING SCHOOL.

The Superintendent offered the following:—

ORDERED, That the employment of a woman as first assistant in the Bowdoin Evening School is hereby authorized for the term 1910-11, instead of a male first assistant, to which the school is entitled under the regulations.

Passed, under a suspension of the rules.

ADDITIONAL FIRST ASSISTANT, ELIOT EVENING SCHOOL.

The Superintendent offered the following:—

ORDERED, That the employment of an additional first assistant in the Eliot Evening Elementary School is hereby authorized for the term 1910-11.

Passed, under a suspension of the rules.

CONTINUATION SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to conduct the following continuation courses during the school year 1910-11:—

One advanced course, dry goods, two sessions, fifteen weeks each.

One advanced course, shoe and leather, two sessions, fifteen weeks each.

Ten preparatory courses, salesmanship, etc., two sessions, fifteen weeks each.

On motion of the Superintendent, it was ORDERED, That the Schoolhouse Commission is hereby requested to secure and furnish suitable rooms for the housing of the pupils of the continuation schools.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to appoint assistants in advanced courses and assistants in preparatory courses of continuation schools.

On motion of the Superintendent, it was ORDERED, That the salary of assistants, advanced courses continuation schools, be fixed for the school year ending Aug. 31, 1911, at the rate of four dollars (\$4) for each half-day of actual service.

On motion of the Superintendent, it was ORDERED, That the salary of assistants, preparatory courses, continuation schools, be fixed for the school year ending Aug. 31, 1911, at the rate of two dollars (\$2) for each half-day of actual service.

EXCHANGE TEACHER, DORCHESTER HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That Edmund Venzlaff, exchange teacher from Prussia, is hereby assigned to regular work on full time in the Dorchester High School, from Oct. 1, 1910, to July 1, 1911.

On motion of the Superintendent, it was ORDERED, That Edmund Venzlaff, exchange teacher from Prussia, assigned to the Dorchester High School, be paid at the rate of one hundred dollars (\$100) per month from Oct. 1, 1910, to July 1, 1911.

SPECIAL ASSISTANT INSTRUCTOR IN COMMERCIAL BRANCHES, EAST BOSTON HIGH SCHOOL.

The Superintendent offered the following:—

ORDERED, That during the school year 1910-1911 a special assistant instructor in commercial branches be authorized in the East Boston High School, instead of a clerical assistant to which the school is entitled under the regulations.

Passed, under a suspension of the rules.

KINDERGARTEN, CUSHMAN SCHOOL-HOUSE, HANCOCK DISTRICT.

On motion of the Superintendent, it was ORDERED, That the kindergarten in Room One of the Cushman school-house, Hancock District, is hereby transferred to the afternoon, and located in kindergarten Room Two of the same building.

On motion of the Superintendent, it was ORDERED, That the Schoolhouse Commission is hereby requested to fit up Room One of the kindergarten in the Cushman School-house, Hancock District, with furniture for regular grade work.

TRANSFER OF KINDERGARTEN, CHRISTOPHER COLUMBUS SCHOOL-HOUSE, ELIOT DISTRICT.

On motion of the Superintendent, it was ORDERED, That the kindergarten in the Christopher Columbus School-house, Eliot District, is hereby transferred to the afternoon and located in the Formert School-house.

On motion of the Superintendent, it was ORDERED, That the Schoolhouse Commission is hereby requested to fit up the kindergarten room vacated in the Christopher Columbus school, Eliot district, with furniture for regular grade work.

DISCONTINUANCE OF AFTERNOON KINDERGARTEN, HUGH O'BRIEN DISTRICT.

On motion of the Superintendent, it was ORDERED, That the afternoon kindergarten in the Hugh O'Brien School be discontinued to take effect Oct. 1, 1910.

ADDITIONAL ASSISTANT, KINDERGARTEN, ROBERT G. SHAW DISTRICT.

The following was offered by the Superintendent:—

ORDERED, That an additional first assistant, kindergarten, be allowed in the Robert G. Shaw District for such portion of the school year 1910-11 as the Superintendent may determine.

Passed, under a suspension of the rules.

ESTABLISHMENT OF DAY INDUSTRIAL TRAINING SCHOOL, OLD EAST BOSTON HIGH SCHOOL-HOUSE.

On motion of the Superintendent, it was ORDERED, That the Massachusetts State Board of Education is hereby requested to establish in the city of Boston, beginning Oct. 1, 1910, an independent day school for the industrial training of boys and girls over 14 years of age, said school to be conducted by the Massachusetts State Board of Education, through the School Committee acting as its agent, in accordance with the provisions of chapter 505 of the acts of 1906 or any amendments thereto; the proposed school to be located in the Old East Boston High School-house, Meridian st., East Boston, the two and four year courses of study if and when established to include printing, bookbinding, and such other subjects as the authorities in control from time to time may decide upon, and the methods of instruction to provide for as close an approximation to actual shop conditions as possible and desirable.

RE-ESTABLISHMENT, PRE-APPRENTICE SCHOOL IN PRINTING AND BOOK-BINDING.

On motion of the Superintendent, it was ORDERED, That the Pre-Apprentice School in Printing and Book-binding be re-established to take effect Sept. 1, 1910, and temporarily continued, pending the decision of the State Board of Education with reference to its permanent establishment as a separate industrial school.

SALARY, INSTRUCTOR IN PRINTING.

On motion of the Superintendent, it was ORDERED, That the salary of the instructor in printing is hereby established for the school year ending Aug. 31, 1911, at the rate of one hundred and twenty-five dollars (\$125) per month, to take effect Sept. 1, 1910.

EMPLOYMENT OF INSTRUCTOR, PRE-APPRENTICE SCHOOL IN PRINTING AND BOOK-BINDING.

On motion of the Superintendent, it was ORDERED, That the employment in the Pre-Apprentice School in Printing and Book-binding, to take effect Sept. 14, 1910, of Mary I. Donlan, an instructor in drawing and manual training, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient.

On motion of the Superintendent, it was ORDERED, That during the service of Mary I. Donlan, instructor, drawing and manual training, in the Pre-Apprentice School in Printing and Book-binding, her compensation is hereby fixed for the school year ending Aug. 31, 1911, at eight dollars (\$8) per month in addition to the regular salary of her rank as instructor, drawing and manual training.

WITHDRAWAL OF TEACHERS FROM FRANKLIN PARK SCHOOL.

A communication was received from the Superintendent, under date of Oct. 3, 1910, reporting that, subject to the approval of the Board, he had withdrawn the assignments of Corinna Barry and Nellie M. Durgin, assistants, in the Oliver Wendell Holmes District, to positions of like rank in the Franklin Park School, to take effect Sept. 26, 1910; said teachers to continue on and after the above date in their respective ranks as regular teachers in the Oliver Wendell Holmes District.

Placed on file.

On motion of the Superintendent, it was ORDERED, That Helen M. Mead, assigned as first assistant in charge, Franklin Park School, is hereby assigned to regular work as assistant in the Oliver Wendell Holmes District, to take effect Sept. 29, 1910.

GENERAL MEETING OF TEACHERS ON FRIDAY, OCT. 7, 1910.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to procure the use of a suitable hall, at an expense not to exceed one hundred dollars (\$100), in which a

general meeting of all teachers of the Boston Public Schools may be held on Friday afternoon, Oct. 7, 1910.

OBSERVANCE OF HEALTH DAY.

On motion of the Superintendent, it was ORDERED, That the first Friday in October be observed as Health Day in the Boston Public Schools, and that the Superintendent is hereby authorized to arrange such a program for that day as he may deem expedient, for the purpose of presenting in a special manner the value and importance of conserving health.

NEWSBOYS' TRIAL BOARD.

A communication was received from the Superintendent, under date of Sept. 28, 1910, stating that, after conference with persons interested in the tentative plan for a Newsboys' Trial Board (see p. 142), he recommends the following modifications thereof:—

Section 1. The trial board shall consist of five members as follows: Two adults, to be appointed annually by the School Committee, for the term of one year from Oct. 15, 1910, and three newsboys elected annually from the number of newsboy captains. Annually, in September, on a day designated by the Superintendent, newsboy captains shall be elected in each school or district having ten or more licensed newsboys in attendance.

Section 2. All licensed newsboys attending the public schools shall be entitled to vote. The preparation of the ballot and the mode, manner and place of election shall be decided by an official or officials to be appointed by the Superintendent of Schools. The election shall be decided by plurality vote.

Section 3. If any newsboy judge resigns or moves out of the city, the remaining judges shall appoint a newsboy to serve for the unexpired term.

Placed on file, and the recommendations adopted.

SPECIAL INSTRUCTOR IN DRAWING AND MANUAL TRAINING, EAST BOSTON HIGH SCHOOL.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Section 231, paragraph 13, clause 4. Strike out the clause and insert in place thereof the following:—

In the East Boston High School, one special instructor in drawing and manual training instead of an instructor.

Passed, under a suspension of the rules.

AMENDMENT TO REGULATIONS.

The following order was offered:—

ORDERED, That section 200 of the regulations be amended by striking out the words "three and one-half" in the second line, and substituting in place thereof the word "four," so that the section will read as follows:—

Sect. 200. All children living in the city who are four years of age and upwards, and who are not disqualified by non-compliance with the rules and regulations, shall be entitled to attend the public schools; but neither a non-resident child, nor one who has only a temporary residence in the city, shall be allowed to enter or to remain in any school, unless his parent, guardian or some responsible person has executed an agreement to pay the tuition of such child, or until a statement from the business agent permitting such child to attend the school has been received by the principal thereof.

Passed, under a suspension of the rules.

AMENDMENT TO ELIGIBLE LIST.

A communication was received from the Board of Superintendents, under date of Oct. 1, 1910, reporting that it had amended School Document No. 7, 1910, List of Candidates Eligible for Appointment as Teachers, as follows:—

Page 11. High School Certificates (English): Leroy A. Ames; Name temporarily removed by request.

Placed on file.

FREE-HAND DRAWING EXHIBIT AT MECHANICS FAIR.

A report was received from the Board of Superintendents, under date of Sept. 26, 1910, on the communication referred at the meeting of Sept. 12, 1910 (see p.

142), from the Boston Mechanics Exposition, with reference to offering prizes to pupils in the elementary and high schools for free-hand drawing, in connection with the Mechanics Fair to be held in Mechanics Building during the month of October, 1910, stating that in its opinion it would be unwise to depart from the principle which has been in effect for several years, namely, that individual prizes should not be offered to the pupils in any department. The Board of Superintendents feels that such prizes tend to the overemphasis of a subject and to a competition which is not beneficial. Apart from the question of the desirability of offering prizes, the time available in the present instance renders the proposition impracticable as the finished drawings are asked for by October first. The Board of Superintendents therefore recommends that the proposition of the Boston Mechanics Exposition be not accepted.

Placed on file, and the recommendation adopted.

AMENDMENT OF REGULATIONS.

A communication was received from the Board of Superintendents, under date of Oct. 3, 1910, recommending that the rules be amended to provide that the age limitation shall not affect the admission of candidates to examination for certificates which do not render the holders eligible for appointment to permanent positions as members of the supervising staff or as teachers in the public schools, nor the validity of certificates which do not render the holders eligible for appointment to such permanent positions.

Placed on file.

In connection with the foregoing, the following order was offered:—

ORDERED, That the rules be amended as follows:—

Section 136, paragraph 2. Strike out the provision "that this restriction as to age shall not affect applicants for temporary certificates," and substitute in place thereof the following:—

Provided that this restriction as to age shall not affect applicants for certificates which do not render the holders eligible for appointment to permanent positions as members of the supervising staff or as teachers in the public schools—so that the paragraph will read as follows:—

2. The Board of Superintendents shall not admit to such examinations candidates who shall have reached their fortieth birthday on or before the thirtieth day of June next following the date of the examination, and may exclude therefrom any candidate who, in the opinion of said Board of Superintendents, is ineligible for admission thereto, provided that this restriction as to age shall not affect applicants for certificates which do not render the holders eligible for appointment to permanent positions as members of the supervising staff or as teachers in the public schools.

Section 143, paragraph 2. Insert in the eleventh line to immediately follow "January 1, 1909," the following:—

nor the validity of certificates which do not render the holders eligible for appointment to permanent positions as members of the supervising staff or as teachers in the public schools, so that the paragraph will read as follows:—

2. Certificates issued on examination after June 1, 1906, shall cease to be valid on the thirtieth day of June of the sixth year following the date of issue, provided that no certificates shall remain valid after the thirtieth day of June next following the fortieth birthday of the holder thereof, except as hereinafter provided, and that this limitation as to age shall not affect the validity of certificates issued prior to January 1, 1909, nor the validity of certificates which do not render the holders eligible for appointment to permanent positions as members of the supervising staff or as teachers in the public schools, nor the validity of certificates hereafter issued to permanent teachers in the public schools.

Passed, under a suspension of the rules.

APPROPRIATIONS AND EXPENDITURES TO OCT. 1, 1910.

A communication was received from the Business Agent, under date of Oct. 1, 1910, submitting a statement showing the appropriations, expenditures and balances of the first nine months of the current financial year, the total expenditures, and ex-

penditures for the corresponding nine months of the financial year 1909-10, with the increases and decreases in the several items.

Placed on file.

In connection with the foregoing statement, a communication was received from the Business Agent, under date of Sept. 28, 1910, relating to the actual expenditures for salaries of teachers in high schools.

Placed on file.

APPROPRIATIONS AND EXPENDITURES, SUPPLIES AND INCIDENTALS.

A communication was received from the Business Agent, under date of Oct. 1, 1910, submitting a statement of the appropriations, expenditures and balances for each of the items of the appropriation for supplies and incidentals up to and including the Oct. 1 draft.

Placed on file.

TUITION OF CHILDREN LIVING AT DEER ISLAND ATTENDING SCHOOLS IN WINTHROP.

A communication was received from the Business Agent, under date of Sept. 13, 1910, recommending that he be authorized during the school year 1910-11 to issue permits to children living at Deer Island, Boston Harbor, to attend the elementary schools in the town of Winthrop, the City of Boston to pay tuition for such attendance.

Placed on file, and on motion it was

ORDERED, That the Business Agent be authorized during the school year 1910-11 to issue permits to children living at Deer Island, Boston Harbor, to attend the elementary schools in the town of Winthrop, the City of Boston to pay tuition for such attendance.

TUITION OF NON-RESIDENT PUPIL, GIRLS' LATIN SCHOOL.

A communication was received from the Business Agent, under date of Sept. 16, 1910, transmitting a request from Max White that his daughter be permitted to attend the Girls' Latin School without payment of tuition, and as this application does not come within any of the classes of cases agreed upon by the School Committee as having reasonable grounds for being exempt from payment of tuition, he has refused to grant the request.

Placed on file, and the decision of the Business Agent not to grant the desired permit approved.

APPOINTMENT OF ASSISTANT, BUSINESS AGENT'S OFFICE.

A communication was received from the Business Agent, under date of Sept. 13, 1910, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Kate L. Vine, assistant in his office, to take effect Sept. 21, 1910.

Placed on file, and the appointment approved.

BOOKS OF THE PRINCIPAL OF THE TRADE SCHOOL FOR GIRLS.

A communication was received from the Business Agent, under date of Sept. 21, 1910, reporting that on Sept. 20, 1910, he audited the books of the Principal of the Trade School for Girls from the opening of the school in Sept. 1909, through Sept. 19, 1910, and found them correct and the balance in the National Rockland Bank, as certified to by A. L. Bacon, Cashier, to agree with the balance in the checkbook; and he has instructed the new principal of the school to give the retiring principal a receipt for the cash balance now in the bank.

Placed on file.

SALARY OF KATHARINE W. MOFFATT.

A communication was received from the Business Agent, under date of Sept. 28, 1910, with reference to the compensation of Katharine W. Moffatt, assistant elementary schools, who has been assigned to a boys' class above the third grade in one of the districts which the School Committee has designated, and recommending that Order No. 14 of the salary schedule be rescinded, and an-

other order passed in place thereof which will allow this teacher to receive the salary to which she is entitled.

Placed on file, and on motion it was ORDERED, That Order No. 14 of the Schedule for Teachers' Salaries 1910-11 is hereby rescinded.

On motion, it was

ORDERED, That Katharine W. Moffatt, assistant elementary schools, assigned to a boys' class above the third grade in the Warren District, be placed upon the maximum salary of her rank, nine hundred and eighty-four dollars (\$984.) per year, to take effect Sept. 1, 1910, upon her passing the second promotional examination.

DATE OF INCREASE IN SALARY OF TEACHERS IN TRADE SCHOOLS FOR GIRLS.

A communication was received from the Business Agent, under date of Oct. 3, 1910, submitting for the approval of the Board decisions made by him with reference to the compensation of five teachers, employed in the Trade School for Girls.

Placed on file, and the decision of the Business Agent approved.

DEATHS OF JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Oct. 3, 1910, reporting the death of George A. King, late janitor of the Frothingham School-house, on Oct. 1, 1910; and of George F. Barker, late regular substitute janitor on Oct. 2, 1910.

Placed on file.

APPOINTMENT OF GEORGE F. CHESSEMAN.

A communication was received from the Schoolhouse Custodian, under date of Sept. 24, 1910, recommending the appointment of George F. Chessman, janitor of the Andrews School-house, to have charge of Portable No. 60, in the yard of that building, to take effect Sept. 1, 1910.

Placed on file, and the appointment approved.

JANITORSHIP, BENJAMIN POPE SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Sept. 26, 1910, submitting a list of applicants for transfer to the janitorship of the Benjamin Pope School-house, and recommending that Andrew J. Dole, janitor of the Clinch School-house, who stands at the head of the list, be transferred to said position to take effect Oct. 9, 1910.

Placed on file, and the transfer of Andrew J. Dole to said position approved to take effect on the date stated.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Oct. 1, 1910, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for such services, as follows:—

Albert Palmer and Portable No. 62 School-houses—Charles Timmins, acting janitor. Amount due for services rendered Sept. 13 to 17, inclusive, \$10.21.

Benjamin Pope and Portables Nos. 16, 36 and 63 School-houses—Henry J. Mahoney, acting janitor. Appointed Sept. 18. Amount due for services rendered Sept. 18 to Oct. 3, inclusive, \$41.92. Reappointed Sept. 28, 1910.

Harvard Hill School-house—Charles Timmins, acting janitor. Appointed Sept. 18, reappointed Sept. 28. Amount due for services rendered Sept. 18 to Oct. 3, inclusive, \$27.15.

Hutchings-street Portable No. 41—Henry T. Brennan, acting janitor. Appointed Sept. 18, reappointed Sept. 28. Amount due for services rendered Sept. 18 to Oct. 3, inclusive, \$5.28.

Louisa M. Alcott School-house—John Hoey, acting janitor. Amount due for services rendered Sept. 13 to 17, inclusive, \$11.01.

Parkman School-house—Denis J. Lenehan, acting janitor. Appointed Sept. 18, reappointed Sept. 28. Amount due for services rendered Sept. 18 to Oct. 3, inclusive, \$29.19.

Peter Faneuil School-house—Henry J. Mahoney, acting janitor. Amount due for services rendered Sept. 13 to 17, inclusive, \$15.12.

Placed on file, and the reappointments approved.

On motion, it was

ORDERED, That for services rendered as acting janitors of various school-houses, payment be made as follows:—

To Henry T. Brennan, Hutchings-street Portable No. 41, from Sept. 18, to Oct. 3, 1910, inclusive, 5 and 28-100 dollars (\$5.28).

To John Hoey, Louisa M. Alcott School-house, from Sept. 13 to Sept. 17, 1910, inclusive, eleven and 1-100 dollars (\$11.01).

To Denis J. Lenehan, Parkman School-house, from Sept. 18 to Oct. 3, 1910, inclusive, twenty-nine and 19-100 dollars (\$29.19).

To Henry J. Mahoney, Benjamin Pope and Portables Nos. 16, 36 and 63 School-houses, from Sept. 18 to Oct. 3, 1910, inclusive, forty-one and 92-100 dollars (\$41.92).

To Henry J. Mahoney, Peter Faneuil School-house, from Sept. 13 to Sept. 17, 1910, inclusive, fifteen and 12-100 dollars (\$15.12).

To Charles Timmins, Albert Palmer and Portable No. 62 School-houses, from Sept. 13 to Sept. 17, 1910, inclusive, ten and 21-100 dollars (\$10.21).

To Charles Timmins, Harvard Hill School-house, from Sept. 18 to Oct. 3, 1910, inclusive, twenty-seven and 15-100 dollars (\$27.15).

APPOINTMENT OF JANITOR, DOANE BUILDING SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Oct. 3, 1910, recommending that Thomas F. Powell, acting janitor of the Warren School-house, be appointed janitor of the Doane building school, located on the corner of Pearl and Wesley streets, Charlestown, to take effect Sept. 14, 1910, and to continue as long as he acts as janitor of the Warren School-house.

Placed on file, and the appointment approved.

On motion, it was

ORDERED, That the salary of the janitor of the Doane-building school, located on the corner of Pearl and Wesley streets, Charlestown, be established at the regular schedule rate of seven and 3-100 dollars (\$7.03) per week, to take effect Sept. 14, 1910, and until otherwise ordered.

AREAS, DORCHESTER HIGH SCHOOL AND DOANE BUILDING, WARREN DISTRICT.

Communications were received from the Schoolhouse Custodian, under dates of Sept. 24 and Oct. 3, 1910, transmitting a certification of the areas of the Doane-building School, Warren District, and a recertification of the areas of the Dorchester High School-house, both to take effect Sept. 14, 1910, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certifications, to take effect on the dates stated.

APPROVAL OF PAY ROLLS AND BILLS.

On motion, it was

ORDERED, That the pay rolls and bills, both regular and special, for the month of October, 1910, prepared and certified to by the Business Agent, and the contracts for the same month, be approved on behalf of this board by Mr. Lee, or in the event of his absence by Dr. Scannell.

PAYMENT TO CHARLES A. NEUERT.

On motion, it was

ORDERED, That there be paid to Charles A. Neuert for extra services rendered in making out 4000 coal tickets, with coupons, and in superintending the housing of coal in school buildings during the summer of 1910, the sum of one hundred dollars (\$100).

HUMIDITY OF CLASS-ROOMS.

A report was received from the Advisory Committee on School Hygiene on the order passed June 6, 1910 (see p. 110), with reference to the Humidity of Class-rooms,

stating that the Committee believes it is important and essential to health that the air in school-rooms should have a greater degree of humidity than is generally the case; that the best degree of humidity for health and efficiency in our climate should not exceed a wet bulb temperature of 70 degrees; that the best method of testing the humidity of the school-rooms is with the Sling psychrometer of the United States Weather Bureau patent; that better results are expected from maintaining the standard room temperature of 67 degrees F. than from any attempt to increase the humidity with a view to establishing a lower room temperature.

Referred to Mr. Lee for further conference on the subject with the Advisory Committee on School Hygiene, and such action as he may deem expedient.

RELATION OF SCHOOL NURSES TO OTHER NURSES AND SOCIAL WORKERS.

A communication was received from the Director of School Hygiene, under date of Sept. 22, 1910, requesting that the Advisory Committee on School Hygiene be given further time to consider and report on the Relation of School Nurses to Other Nurses and Social Workers (see p. 129).

Placed on file, and further time granted.

PLAYGROUND ACTIVITIES, SUMMER OF 1910.

A communication was received from James P. Munroe, under date of Sept. 13, 1910, addressed to the Director of School Hygiene, expressing appreciation of the work done by that department in carrying out the boys' games this summer; also a communication from Francis S. Mason, Chairman of the Boston-1915 Conference of Workers with Youth, under the same date, extending the thanks and appreciation of that committee for the cooperation of the School Committee and its departments in making the said playgrounds a more effective force for the regeneration and uplifting of our youth.

Placed on file.

COMPENSATION OF TEACHERS OF BOYS' CLASSES IN BRIMMER SCHOOL ABOVE THE THIRD GRADE.

A communication was received from various teachers in the Brimmer School, Abraham Lincoln District, under date of Sept. 23, 1910, stating that they are teachers of boys' classes exclusively, and as such are entitled to the extra compensation payable to teachers of such classes in grades above the third, as provided in the general salary schedule for the current year, and requesting that they be granted such additional compensation.

Laid on the table.

PETITION FOR THE ESTABLISHMENT OF A KINDERGARTEN, ROGER WOLCOTT DISTRICT.

A petition was received from John F. Kennedy and forty-four other residents of Mattapan, in the Roger Wolcott District, that a kindergarten be established in the vicinity of Walkhill and Wellington Hill streets, stating that a number of children would be thereby benefited.

Referred to the Superintendent for consideration and report.

REPORT ON THE FRANKLIN PARK SCHOOL.

A communication was received from the Boston Association for the Relief and Control of Tuberculosis signed by Robert T. Paine, President, and S. H. Stone, Secretary, under date of Sept. 30, 1910, enclosing a report of a special committee appointed by this Association to report upon the Franklin Park School, strongly urging that the school be continued in view of its success up to the present time, and recommending that if it is to be regarded as an experiment it should not be given up until other more permanent arrangements are made to take its place.

Referred to a special committee consisting of Dr. Scannell and Mr. Lee for consideration and report.

ELECTION OF MEMBERS OF BOARD OF TRUSTEES, TEACHERS' RETIREMENT FUND.

The Board proceeded to the election of two members of the Board of Trustees of the Teachers' Retirement Fund, the terms of Messrs. Ellis and Magenis, members of said Board, expiring October, 1910.

The members as their names were called respectively stated that they voted as follows:—

For Mr. Lee: Messrs. Brock, Ellis and Scannell—3.

For Mr. Magenis: Messrs. Brock, Ellis, Lee and Scannell—4.

Absent: Mr. Magenis.

Messrs. Lee and Magenis were thereupon declared elected members of said Board for a period of two years.

PAYMENT TO ACTING PRINCIPAL OF PRE-APPRENTICE SCHOOL OF PRINTING AND BOOK-BINDING.

The orders offered at the meeting of Sept. 12, 1910 (see p. 143), with reference to the payment of \$100 to the acting principal of the Pre-Apprentice School of Printing and Book-binding, and the amendment of the salary schedule to include a salary of the position, were taken from the table and placed on file.

APPOINTMENT OF JANITOR, ENGLISH HIGH SCHOOL ANNEX.

The communication from the School-house Custodian, received at the meeting of Sept. 12, 1910 (see p. 141), with reference to the provisional appointment of Michael Finn, as janitor of the English High School Annex, was taken from the table; Mr. Brock made an oral report thereon, and the appointment of Michael Finn, to take effect Sept. 6, 1910, was approved.

NAMING OF SCHOOL IN HONOR OF OLIVER HOLDEN.

The Chairman submitted a communication addressed to him by J. W. Robinson, under date of Oct. 3, 1910, with reference to naming a school in Charlestown in honor of Oliver Holden.

Placed on file, and the secretary directed to transmit a copy thereof to Dr. Scannell.

ADJOURNMENT.

The Board adjourned at 7:07 o'clock P.M.

Attest:

THORNTON D. APOLLONIO,

Secretary.

MAY DESTROY 1,500 UNSANITARY HOUSES.

Conditions on the south side of El Paso, Tex., near the river, with reference to the unsanitary surroundings in which the majority of the people of that section live, were discussed recently by the city council. Supplementary to his regular report, City Physician Anderson declared that some way should be found to do away with the small huts in the lower portion of the city, the direct cause of an alarming death rate, which is on the increase. The city attorney assured the health department that the health department has full power in matters sanitary, but that he viewed the idea of destroying 1,500 houses with considerable alarm, and suggested that some of the most aggravated cases be first attended to, and that these be followed up until the district had been made habitable from a modern standpoint. He added that the city could compel the owners to make sewer connections and confiscate the rent as payment. Alderman Clayton stated that the health department had full power to regulate dwellings, and even to destroy them, as he understood it, when the lives of the inmates or neighbors were endangered.—*Municipal Journal and Engineer.*

ADVERTISING TOWNS AND CITIES.

All over the country interest in putting "Our Town" on the map grows daily. Whenever some enterprising city or town undertakes an advertising campaign or accomplishes something which attracts the attention of the country, enterprising citizens in different states ask the question, "Why can't we do something like that for Our Town?"

How to start things in the right direction and make home people boosters for the home town is the primary problem.

In every town a fair per cent of the leading business men are convinced of the necessity of organized effort. What bothers them is how to weld together what little progressive spirit there now is in the town in such a manner as to gather more force and more money support and more moral support.

The El Paso, Texas, *Herald* voices a condition in that town which is interesting:

"Seven years ago a merchant opened up a small shop on a downtown business street in El Paso. He found \$5 per month spent for advertising a very heavy burden, but he knew the value of a good daily newspaper as an advertising medium and he knew how to use his space to the best advantage. With the *Herald's* help that merchant has grown and prospered until now he spends as much on the average in one day as he spent in a whole month when he began business only a few years ago.

"The same kind of a story could be told of many of El Paso's most successful merchants, who have built up their businesses with the help of advertising space in the *Herald*. Many a merchant can be cited who spends to-day five to ten times as much as he was spending for advertising only a few years ago. The proof of their wisdom is in the record of their daily cash receipts.

"Similar reasoning applies to the city of El Paso. The city may be considered as a great mercantile establishment with the object of getting people into her store and inducing them to buy her goods. El Paso is a city of nearly 40,000 people with upwards of \$60,000,000 of wealth, that is, sixty million dollars of capital invested. Yet this city, this great mercantile institution, with an investment of \$60,000,000, spends less per year in advertising than many a local merchant whose capital does not exceed \$50,000.

"El Paso's expenditure for advertising runs from \$1,000 to \$3,000 annually, and it is very difficult to raise funds for this purpose. Yet Seattle spends \$75,000 a year; Portland, \$100,000; Buffalo, \$150,000; Des Moines, \$50,000; Dayton, Ohio, \$40,000; Spokane, \$60,000; Tacoma, \$30,000; Vancouver, \$30,000; Oakland, \$50,000; San Antonio, \$25,000; San Angelo, Texas, a city of 10,000 inhabitants, \$12,000; Mineral Wells, Texas, not much more than a village, spends more than El Paso for advertising every year; Boise, Idaho, less than half our size, spends \$15,000; Los Angeles, Sacramento, Kansas City, San Diego, Salt Lake, Denver, and scores of other progressive cities, notably the live, bustling cities of the southern Atlantic states, are spending sums ranging from \$5,000 to \$100,000 annually to advertise the advantages of the community as a whole.

"El Paso is not getting the results she should be getting out of her marvelous good fortune and rapid development. We must learn the lesson of advertising as a community, which every individual merchant and business man has learned for himself long ago."—*Municipal World.*

CITY REFUSE COLLECTION.

The long neglected problem of the collection and disposal of city wastes has at last been attacked in something like a scientific manner, and some fairly satisfactory results have been obtained, so far as disposal is concerned. There is too much tendency toward imitation in this, as in other municipal matters, with resultant total or partial failures where conditions are so different that the methods used in one city cannot be applied in another. Most of these failures are due to the differences in methods of collection of refuse and in the matters included in the collections.

The fact is that the collection of the refuse is quite as important a matter as its disposal, and may be quite as much of a nuisance, although it may be so scattered in place and time as not to give rise to serious objections. The various classes of refuse may be described as follows:

Garbage, meaning animal and vegetable refuse which attends the preparation of food for consumption, is large in amount and productive of great nuisance if not properly taken care of. It is therefore the main object in view in considering the disposal of the city's wastes, always excepting sewage as otherwise taken care of. There is a certain amount of value in garbage, which attracts the attention of many, and reduction systems, feeding of hogs, etc., have been used to rescue this value. From the point of view of this value, the garbage of cities varies greatly, and the garbage from different parts of the same city varies greatly. The garbage from hotels, restaurants, large boarding houses, flats, etc., where it accumulates rapidly enough to warrant removal at frequent intervals, is of high quality, and but little fermented, and has a commercial value often sufficient to warrant private contractors in removing it without charge, or even paying a small sum for the privilege of removing it. In the latter case the garbage is, in the full sense, property, and under Pennsylvania decisions is under the control of its owner, subject, of course, to reasonable rules and regulations regarding its sanitary storage, removal and disposal. The garbage from residences generally does not accumulate rapidly enough, nor are these accumulations close enough together to make the material of sufficient value to warrant anyone in collecting and disposing of it without charge, not to speak of paying for the privilege. This class of garbage is, therefore, a constant source of expense to the householder, if he must pay for its removal, or to the city, if there is a general public system of removal. It can hardly be classed as property, and is subject to the control of the city council and the department to which the operation of the garbage disposal system is intrusted.

Commercial garbage includes not only the garbage from hotels, etc., above referred to, but also the refuse and spoiled materials from markets, vegetable and fruit commission houses, groceries, meat, fish and fowl shops, and slaughter houses and docks. Some of these wastes have considerable value.

Manure is another kind of refuse which has a certain commercial value in some cities, but is sometimes, especially in the larger cities, difficult to dispose of for the householder who has but a single animal, so that it must sometimes be added to the refuse to be collected by the scavenging department of the city.

Dead animals have a value which, in the case of the larger animals, may be sufficient to make them property in a real sense, for which a small sum may even be paid. The small animals ordinarily find their way to the garbage disposal plant.

The ashes of a city usually amount to a larger tonnage than all its other refuse. If kept by themselves, they are clean and wholly unobjectionable, except as they may be so handled as to produce dust in handling, carting or depositing. They have a considerable proportion of unburned or partly burned coal, which is sometimes considered worth saving. Ashes and cinders from manufacturing plants have less coal, but are sometimes available for making porous foundations for walks and the like or for making concrete, and so may have a certain property value.

Street sweepings are often treated in the same way as ashes, *i. e.*, used for filling. Paved streets which are crossed by unpaved streets have a large proportion of inorganic matter in their sweepings, and the organic matter is probably largely manure, so that the street sweepings can be used for filling, if the health department will keep the process under inspection and see that the materials and methods of depositing them conform at all times to sanitary requirements. If hand labor is used in picking up droppings during the day, their collections may be treated as manure is treated.

There is a considerable volume of refuse from a city which is not included in any of the classes above described. Its weight is comparatively small. This refuse, most of it, is reasonably clean, though some of it, for example, mattresses from sick rooms or hospitals, may be dangerous from a sanitary standpoint. Much of this matter is combustible, but some of it is not, and may be objectionable about a disposal plant. Some of it is commercial in the sense that it has sufficient value to warrant private collection, but, especially in households, the quantity and regularity of production may not be such as to bring it into the commercial class.

The combustible refuse consists of paper, wood, straw, grass, tree trimmings, mattresses and other cloth, etc. Mercantile and manufacturing establishments may have enough such material of commercial value to derive quite a revenue from its sale.

Incombustible refuse includes such household waste as tin cans, bottles, broken crockery and glass, leather, metals, remains of building repairs, etc., besides occasional earth, brick, cement, mortar, etc., the result of more extensive building or repair. Some of this material is of sufficient value to make fortunes for the junk men who go about gathering it up, and the remainder is probably not any more objectional than ashes for use as filling. Such material as cans, broken crockery and glass are difficult to dispose of, because they are not wholly satisfactory as filling and are not destructible.

Night soil is a class of municipal refuse which should rapidly become less in amount. A city with complete municipal sewer and water systems should be able to enforce water and sewer connections so that such deposits need seldom occur, and the board of health, by a strenuous campaign, could substitute the earth closet for the vault, where something is necessary, and thus reduce the nuisance of disposal. The nuisance of the earth closets would not be greater than that of the vaults now is, and it is readily subject to control by inspection, while

the latter is very difficult of control. The amount of material to be removed would be greater, and it might be necessary to furnish the dry earth, but in the very small sections of the city without sewers, and during the comparatively short time before the sewer and water pipes are extended, the earth closet system should be a great improvement over the vault system. The board of health doubtless can, and certainly should, make it impossible to have a deposit of night soil in areas having sewers and water.

It is evident that these various classes of refuse will vary greatly in amount in various cities and at various times of the year. It is also evident that opinions of property owners, city officials, contractors, and others interested, will differ as to the value of the various classes of refuse and as to what should be done with them for the purpose of extracting this value at the same time that the nonproductive parts are disposed of. Too often this attempt to save results in nuisance or danger to health far greater than any actual saving.

Whether each class of refuse shall be collected separately, or two, three or more together, is a question of importance, both as regards cost and sanitary conditions, and as regards the method of disposal adopted. It is evident that the method of disposal depends directly upon the method of collection adopted and that the two are inseparably connected. Unfortunately, this connection is too often overlooked, and the disposal plant is a failure through no fault of its own, but because it has not been chosen to suit the conditions existing.

There are almost as many variations in the methods of separating and collecting refuse as there are combinations of the kinds of refuse above listed, no two cities agreeing exactly in these matters and practically all of them having radically defective methods of collecting one or more of the classes of refuse. The description of the method of collection of garbage, combustible and incombustible refuse, and ashes, in Minneapolis, given on another page of this number of *Municipal Engineering*, shows a system far better than the average, but one which should not be followed blindly. Descriptions of other methods of collection will be given from time to time.

The purpose of the writer will be effected if the emphasis put upon the necessity of adequate methods of collection of the city's refuse will lead to the same careful study of the subject in each city that has been given to the disposal of the collected refuse in a few of the cities of the country.—*Municipal Engineering*.

WHOLESALE BATHING.

New York is planning to have a public bathhouse on Coney Island which will cost \$170,000, and will accommodate 7,000 people. It is calculated that 28,000 people could be given bathing privileges in the course of a day, and that the average number through the season would be 10,000 a day.

NO TAXES, ON THE CONTRARY.

In the town of Khigenburg, Germany, there are no taxes, the city government being supported by various municipal enterprises. Last year a dividend of about \$50 per inhabitant was declared and paid. The profit accrued chiefly through the success of the municipal brick works.

MUNICIPAL BONDS.

The subject of the issuing of municipal bonds was discussed in a paper before the League of Third Class Cities of Pennsylvania by Mr. Park Terrell, manager of the municipal department of the Columbia Trust Company. Mr. Terrell states that in 1909 over \$320,000,000 of municipal bonds were issued, which was almost double the amount of three years previous. He believes that this large increase in municipal bonds is fully warranted, except in certain instances. He does, however, maintain that long-term bonds are much less favorable to cities than those maturing in small annual installments. The sinking fund he terms "a bungling relic of the days when credit was low and some assurance had to be given the bondholder that the principal of his investment would be paid when due. Not only does the sinking fund clog and complicate the finances of a municipality, but it has absolutely no redeeming qualities. If a sinking fund is intended to serve any purpose it is that of providing out of itself for the immediate redemption of the debt when it shall fall due, regardless of whether the municipality shall be able to otherwise pay the bonds or not." But as it is the custom of municipalities to invest the sinking fund in their own bonds, the fund itself is dependent upon the general credit of the city. With the serial bond there would be no sinking fund, but instead sums which would otherwise be placed in the sinking fund are used to redeem the bonds. As the interest received on sinking fund deposits is usually much lower than the interest on the bonds, this means a saving to the city.

In Pennsylvania there is a state tax of four mills on municipal bonds, which is deducted by the municipality from the annual premiums in case the bonds are held inside the state. This could be avoided by intended purchasers obtaining the bonds through friends residing outside the state, thus avoiding the state tax. Many states have abolished the tax on municipal bonds, and Mr. Terrell believes that the city is a financial gainer when this is done and the same amount of state taxes paid from the general funds.

The power to issue bonds without their being authorized by popular vote he considers to be objectionable, and believes that it would be possible for the departments or finance committees to decide once a year or once in two years what bonds will be required during the next year or two for all purposes, and hold one election for all of these, thus making the expense for each inconsiderable. He refers to several objections to the popular voting on bonds; among these, that such voting should be by taxpayers only and would thus require special elections. Another is, that a sufficient interest would not be shown by the people to carry the bond elections. The former he did not think it desirable to discuss; in reply to the latter he referred to the State of Georgia, where all bond issues amounting to more than one-fifth of one per cent of the assessed valuation must receive a two-thirds vote of the entire electorate, the result being that the people take a greater interest in public improvements than in most other states and the officials are more careful as to what improvements shall be proposed. In addition to this, Georgia municipal bonds must have their validity affirmed by the Superior Court, after which their legality can never be questioned.

A number of cases of forging of municipal bonds have occurred; over a million dollars worth of bonds having

been forged and used as collateral in one instance. To remedy this there has arisen the practice of the certification of municipal bonds by trust companies. The first attempts at this were crude and inadequate, but gradually experience indicated improvements and the present plan is quite elaborate, and constitutes a complete system of checks against misuse of paper or engraved plates and the employment of steel engravings, the very designs for which are owned by the certifying company. Of course the certification itself might be forged. At the present time the value of certification depends largely on the safeguards employed in the protection and issuance of the securities and the attention of municipal officials responsible for the proper issue of bonds should be directed to the quality and effectiveness of these safeguards.

It is advised that municipalities employ in advance of the sale an attorney who makes a speciality of municipal law, and whose opinion will be generally accepted by bond dealers, to co-operate with the city solicitor in order that the legality of the bonds may be established to the satisfaction of every possible bidder. Mr. Terrell stated that more than one-half of the bond issues offered for sale are not in legal form when so offered; and that the cost to bond dealers of having all these issues examined by competent attorneys must of course be deducted by them from the amounts which they bid for such bonds. By having such examinations made itself the municipality would be saved such deduction and also the trouble and possible loss incidental to a long delay after the sale while the proceedings are being examined, corrected and finally passed upon by the purchaser's attorney.—*Municipal Journal and Engineer.*

CITY BUSINESS BUILDERS.

The Chicago *Tribune* recognizes the importance of the town development secretary and calls him the man who is creating a new profession. The *Tribune* says:

A new field is opening for alert, ambitious young men, as a result of the activity of many cities in seeking new industries, "boosting" civic pride, securing conventions and the hundred and one details of ambitious municipal activity that come within the scope of a commercial organization.

In nearly every city of 10,000 population or more a civic organization has secured a grasp upon the commercial life of the community that necessitates the employment of a specialist to conduct the association's business. Upon one officer, usually termed as "executive secretary," falls the brunt of the organization's duties.

There are at least forty cities in the country which endeavor each year to entertain several state or national conventions, while many are always seeking the less important gatherings. Upon the commercial organization and, consequently, the "executive secretary," the duties of entertaining the visitors fall.

One not versed in the art of securing conventions has but little idea of the labor necessary to "pull" the delegates to any special city when a dozen more perhaps desire to entertain them at the next session of the organization. It requires work, the hardest kind of specialized work, to do it.

The "executive secretary" assumes the duties of the entire membership of the commercial organization when it is learned that a national or state convention will be

held in the city in which he is employed. While it is expected that he shall exert various forms of influence, his chief aim in business life is to advertise the city.

The most convenient way to advertise, he reasons, is to please the delegates. Decoration of the business streets in the colors and insignia of the visiting organization must be planned, and the "executive secretary" superintends it. The delegates must be shown the advantages of the city as a commercial center and the "city beautiful" slogan becomes popular through his efforts.

As a representative of the varied interests of his city the "executive secretary" must be a business orator, without the frills of a political stump speaker, but with his brain packed with interesting statistics. When he approaches a syndicate of capitalists who are seeking the location for a manufacturing plant it is he who must do most of the persuading.

In several cities the directors of the business men's organizations have graduated from another profession—that of advertising. The advertising man makes the best "executive secretary." Everything from "hatpin" ordinances to national political conventions comes within his varied jurisdiction, and he must possess tact to dispose of them all without offending his organization or the second party in the many contracts which he draughts.

WATER WASTE DETECTION IN WASHINGTON.

In the report of W. A. McFarland, superintendent of water department of the District of Columbia, for the year ending June 30, which has just been made public, great praise is given to the so-called pitometer division of the department, whose efforts are given largely to the detection of underground leakage and waste of water. The cost of running this division during the year was \$26,244.82. The value of one year's continuance of the leakage and other waste detected and stopped, at the regular rate of 4 cents per 1,000 gallons, would be about \$93,000, and if valued at only 1 cent a 1,000 gallons would show a saving each year of 89 per cent on the investment represented by the cost of operating the pitometer division. Mr. Paul Lanham, chief of this division, reports that the leakage and waste stopped in the northwest section of the city amounted to 1,582,300 gallons per day from leaking fixtures and careless waste in houses; 1,070,000 gallons due to leaking service pipes; 173,200 gallons due to defective joints in the mains; 300 gallons to a leaking fire hydrant; 40,200 gallons to horse fountains; 19,000 gallons to sewer flush basins, and 411,400 gallons to night flow in federal buildings and in fountains, about half the total leakage being found in this section.

Some of the effects of meters are pointed out by Mr. McFarland. The average night flow per square in the metered territory was found to be 873 gallons per night, while in the unmetered territory it was 10,500 gallons. Of this flow 42 per cent was within the private premises in the metered territory and 55.6 per cent in unmetered territory.

Of the leakage from defective service pipes iron pipes were responsible for 2,438,000 gallons; lead services for 1,201,878; wiped joints on services for 710,145; abandoned services, 305,075; defective or loose couplings on services, 118,690; curb cocks, 84,825. Of 21,642 houses inspected, leaking fixtures were found in 3,305, or 15 per cent.—*Municipal Journal and Engineer.*

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, OCTOBER 15, 1910.

No. 42

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the
Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 24, at 3 p. m.
Meeting of School Committee, Monday, October 17, at 5.30 p. m.
Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; Humphrey Sullivan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James N. Synnott, gateman, 1 day at \$2.50, \$2.50; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Edward M. Houghton, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John McCormick, 1st, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John Egan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; James Murphy, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Michael Galvin, watchman, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Eugene Shea, watchman, 1 day at \$2.25, \$2.25; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; Patrick F. Mullen, inspector, $1\frac{1}{2}$ days at \$2.75, \$4.98; Thomas A. Gorman, foreman, $1\frac{1}{2}$ days at \$2.75, \$4.81; Michael Hogarty, repairer, $\frac{1}{2}$ day at \$2.50, \$0.31; Mathew O'Neil, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; William A. O'Connor, inspector, $\frac{3}{8}$ day at \$2.75, \$0.52; Joseph T. Ryan, plumber, $\frac{1}{2}$ day at \$3, \$0.38; Patrick Lawless, plumber's helper, $\frac{1}{2}$ day at \$2.25, \$0.28; John J. Barry, repairer, $1\frac{1}{2}$ days at \$2.50, \$3.52; Alexander Thompson, plumber, $\frac{1}{2}$ day at \$3, \$2.44; John Welch, plumber's helper, $\frac{1}{2}$ day at \$2.25, \$0.98; Edward Quigley, laborer, $\frac{1}{2}$ day at \$2.25, \$0.98; Daniel O'Brien, repairer, $\frac{1}{2}$ day at \$2.50, \$1.25; John Concannon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas Coyne, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; Timothy F. Murphy, plumber's helper, $\frac{1}{2}$ day at \$2.25, \$0.56; John Sullivan, 1st, machinist, $\frac{1}{2}$ day at \$2.75, \$0.34; Owen Lynch, laborer, 1 day at \$2.25, \$2.25; Michael Mulloy, laborer, $\frac{1}{2}$ day at \$2.25, \$1.55; John Leonard, laborer, $\frac{1}{2}$ day at \$2.25, \$0.98; Daniel Burke, laborer, $\frac{1}{2}$ day at \$2.25, \$0.42; Patrick Coleman, laborer, 1 day at \$2.25, \$2.25; Michael Donahue, laborer, 1 day at \$2.25, \$2.25.

Water Department (Income Division).

For the week ending Thursday, October 6, 1910:

P. J. Clougherty, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.87; J. H. Cullen, plumber, $\frac{3}{4}$ day at \$3, \$2.53; M. J. Dinneen, laborer, $1\frac{3}{4}$ days at \$2.25, \$2.46; T. J. Dolan, plumber, $\frac{1}{2}$ day at \$3, \$1.50; E. H. Gilmore, tester, 1 day at \$2.50, \$2.50; C. Gilloon, plumber, $1\frac{1}{2}$ days at \$3, \$3.66; E. Mahoney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; J. J. Mahoney, laborer, $\frac{3}{4}$ day at \$2.25, \$1.90; T. McAuliffe, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; F. McCarthy, laborer, $1\frac{1}{2}$ days at \$2.50, \$3.75; P. J. McCarthy, plumber, $\frac{1}{2}$ day at \$2.75, \$0.34; M. M. McGrath, laborer, 1 day at \$2.25, \$2.25; G. Murphy, laborer, $\frac{3}{4}$ day at \$2.25, \$1.90; M. Mulkern, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.52; J. H. O'Brien, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Joseph Rice, tester, $1\frac{1}{2}$ days at \$2.50, \$3.75; J. J. Roche, laborer, $1\frac{3}{4}$ days at \$2.25, \$3.87; D. J. Rull, Jr., plumber, $\frac{3}{4}$ day at \$3, \$2.53; P. A. Russell, laborer, 2 days at \$2.25, \$4.50; J. J. Shea, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Daniel Sullivan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; J. Sullivan, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.95; T. J. Sullivan, plumber, $\frac{1}{2}$ day at \$3, \$0.38; J. E. Tierney, machinist, $\frac{1}{2}$ day at \$3, \$0.75; M. P. Welch, plumber, $\frac{1}{2}$ day at \$2.75, \$2.41.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending October 13, 1910:

HOSPITAL DEPARTMENT.

On October 10 the Mayor approved a contract with W. L. Morrison for alterations, repairs and additional fire protection at the City Hospital. Bids on this work, opened September 28, were as follows:

W. L. Morrison, \$44,003; John A. Rooney, \$56,621; Jones & Meehan, \$82,764.

On October 10 the Mayor approved a contract with the M. B. Foster Electric Company for changes in electrical wiring at the City Hospital. Bids on this work, opened September 26, were as follows:

M. B. Foster Electric Company, \$9,967; Lord Electric Company, \$10,925; Clark & Mills Electric Company, \$11,321; Alfred J. Hixon, \$12,333; Edwin C. Lewis, Inc., \$12,794; Barnes Pope Electric Company, \$14,037.

SCHOOLHOUSE DEPARTMENT.

On October 10 the Mayor approved a contract with John J. Lane for building walls, fence, etc., at the Bennett School, Brighton. Bids on this work, opened September 30, were as follows:

John J. Lane, \$1,540; Commonwealth Construction & Supply Company, \$1,554; Fred E. Bowes, \$1,658.40; Holmes Building Company, \$1,671; J. F. Griffin & Co., \$1,798; William Hennessey, \$1,865; D. M. Biggs & Son, \$2,200; A. Piotti, \$2,452.

On October 13 the Mayor approved a contract with John F. Griffin & Co. for building piers, fencing, etc., at the James Otis School, East Boston. Bids on this work, opened October 7, were as follows:

John F. Griffin & Co., \$1,296; D. M. Biggs & Co., \$1,425; Holmes Building Company, \$1,646; F. E. Bowes, \$1,762; Grecian Iron Works, \$2,380; W. A. Snow Iron Works Company, \$5,021.

WATER DEPARTMENT.

On October 11 the Mayor approved a contract with the Charles J. Jacobs Company for laying about 3,200 feet of 30-inch pipe and 1,250 feet of 24-inch pipe in Chelsea street, East Boston. Bids on this work, opened October 7, were as follows:

Charles J. Jacobs Company, \$4,264.50; William J. Rafferty & Co., \$5,338.50; A. M. Cusack, \$5,968.50; Charles N. Callahan, \$6,334; McCarthy & Walsh, \$6,442.50; James L. Bryne, \$6,446; J. B. O'Rourke & Co., \$6,682.50; N. Russo, \$6,703.50; Luke D. Mullen, \$7,086.50; J. F. O'Connell, \$7,831; H. G. Porter, \$8,220.

WITHOUT ADVERTISING.

BATH DEPARTMENT.

The Mayor has approved a contract, without advertising, for the purchase of one Gasolene Model G.B. White Touring car, for the sum of \$2,500, less \$500 to be allowed for the car now used by the department.

"After examining various cars, prices, etc., the Bath Trustees decided that the proposition of the White Company was the most advantageous for the department.

RICHARD M. WALSH,
Chairman Bath Trustees."

FIRE DEPARTMENT.

In view of the representations contained in the accompanying letter, the Mayor has approved a contract with the American LaFrance Engine Company for the purchase of a No. 1 size steam fire engine for the sum of \$5,250; and a contract with the International Power Company for the purchase of a No. 2 size engine for the sum of \$4,650.

Fire Department,
Boston, October 7, 1910.

Hon. John F. Fitzgerald, Mayor:

SIR,—Pursuant to the letter requesting authority to purchase one first size steam fire engine from the American LaFrance Fire Engine Company of Elmira, New York, for the sum of \$5,250 and one second size steam fire engine from the International Power Company of Providence, Rhode Island, for the sum of \$4,650 I have the honor to point out in detail the necessity of this action.

In the fire of August 9, Engine No. 9, a second size, was destroyed, and old Engine No. 40, a reserve, is now taking the place of Engine No. 9. Engine No. 40 was put in service in 1890, and so is twenty years old; over twice the ordinary life of a fire engine. Although it was partially rebuilt in 1901 the boilers are now in poor condition, and this department considers its replacement a matter of urgent necessity.

This department needs at once a first size engine in order to increase its reserve. Ordinarily the reserve in this department runs in the neighborhood of ten engines. It is now depleted to four. A heavy fire with the loss or disabling of engines would seriously handicap the department.

I have therefore requested authority to take immediate action in this matter.

Respectfully,

CHARLES D. DALY,
Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

On October 10 the Mayor approved a contract with the Art Metal Construction Company for furnishing and installing metal book stacks for the New Library at Jamaica Plain. Bids on these goods were as follows:

Art Metal Construction Company, \$886; Library Bureau, \$970; A. Varnerin Company, \$1,045.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising: Build a sanitary sewer and seven catch basins in Greenwood street at an estimated cost of \$1,750; build a sanitary sewer, surface drain and about 175 feet of house drain and one catch-basin in Madison street, Roxbury, at an estimated cost of \$4,542; build about 28 feet of 3 feet 6 inches brick sewer in Atlantic avenue and Central street at an estimated cost of \$1,176.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

L. K. ROURKE,
Superintendent of Streets."

PERMISSION TO SELL.

The Mayor has granted to the Fire Commissioner permission to sell to George L. Glennon a quantity of junk left after the fire of August 9 for the sum of \$205, he being the highest bidder.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE,
BOSTON, MASS., October 6, 1910.

To the Heads of Departments:

Your attention is called to chapter 619 of the Acts of 1910, designated as "An Act to Authorize Cities and Towns of the Commonwealth to Establish Retirement Systems for their Employees." Some of the main points of this measure may be briefly stated as follows:

The City Council is to vote upon the acceptance of the act and if the vote is affirmative it is to be submitted to the voters at the following municipal election.

All employees of the city at the time when the act goes into effect may become members of the retirement association, so called, and all employees who enter the service at a later date must do so, except those who are fifty-five years of age on the day of entering.

Members of the association may retire with the benefits of the system at sixty years of age, and must retire at the age of seventy.

A Board of Retirement, consisting of the City Treasurer, one member of the retirement association selected by the other members, and a third person chosen by these two, determines the percentage of their wages which are to be contributed annually by the various classes of employees. The city guarantees an amount equal to the deposit of the contributor.

The amount of the deposit is to be not less than one per cent or more than five per cent of the annual wages, except in the case of employees who receive more than \$30 a week. Such employees are considered for the purposes of the retirement fund as receiving that salary and no more.

These accumulations, consisting of equal amounts deposited by the employees and the city, are converted into an annuity for the benefit of the contributor, immediately upon his retirement, and the proceeds are paid to him during the remainder of his life. In case of death during the period of service, or retirement from the city service, all previous payments are refunded with interest.

Among the questions that arise in relation to this measure are

(a) The cost of the system to the city in actual pecuniary outlay.

(b) Its effect on the service in removing aged employees who by their example tend to retard the efficiency of younger and more active men.

(c) The positive gain resulting from the substitution of younger and stronger men for the retiring veterans.

(d) The net gain or loss to the city as a whole, measured, first, in terms of pecuniary outlay, and secondly, in terms of efficiency.

You are hereby directed to consider this question in its various phases as it applies to your respective departments and to be prepared to meet inquiries with specific information.

Yours respectfully,

JOHN F. FITZGERALD, Mayor.

APPROVAL OF PRIVATE WAY.

On October 8 the Mayor approved the location, direction, widths and grades of private ways at Roxbury, designated as Walnut Park road and Westminster road, as shown on a plan approved by the Board of Street Commissioners, and on file at the office of the City Engineer.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.

1910.

Oct. 13. The Passion Play of Oberammergau. Dr. John C. Bowker, F.R.G.S.

Oct. 20. Longfellow: the Poet and the Man. Mrs. Marian Longfellow O'Donoghue.

Oct. 27. Alaska, the Land of Promise. Rev. W. M. Partridge. Three Lectures. Greece and Japan: a Racial Aesthetic Contrast. F. Melbourne Greene.

Nov. 3. Greek Art.

Nov. 10. Japanese Art.

Nov. 17. The Aesthetic Ideals of Greece and Japan.

Dec. 1. Carthage. George B. Dexter.

Dec. 8. Cortona, a Hill Town of Italy. Eben F. Comins.

Dec. 15. The Passion Play of Oberammergau. Rev. Thomas I. Gasson, S. J.

Dec. 29. Famous Teachers of Music during Ten Centuries: their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.

1911.

Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.

Jan. 12. *Photography in relation to Illustration. J. Horace McFarland.

Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.

Jan. 26. *The Paper and Binding of Books. Cedric Chivers.

Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.

Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.

Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.

March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.

March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.

March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.

March 23. Switzerland and the Rhine. Henry Warren Poor.

March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight o'clock.

1910.

Oct. 17. Forestry and Insect Pests. C. O. Bailey (secretary of the Massachusetts Forestry Department).

Nov. 21. A Western Outdoor Trip. Mary E. Haskell.

Dec. 12. Norway and the North Cape. Frederick M. Brooks.

1911.

Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).

Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").

March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).

April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

*

* Under the auspices of the Society of Printers.

APPOINTMENT OF ARCHITECTS.

The Mayor has approved the appointment, by the Fire Commissioner, of Messrs. Parker, Thomas & Rice as architects for the new repair and construction shops of the Fire Department, at the usual architects' commission.

The Mayor has approved the appointment of Messrs. Swasey, Raymond & Page to furnish plans, specifications, estimates and superintendence of construction of a new ferryboat; they to receive the sum of \$2,700 for their services.

FINANCE COMMISSION.

October 13, 1910.

Hon. JOHN F. FITZGERALD, Mayor:

SIR,—On July 5, 1910, Your Honor attempted to fill the vacant position of Health Commissioner by appointing a person whom the Civil Service Commission failed to certify as qualified by "education, training or experience" for the position.

On the 8th of August, 1910, notwithstanding the rejection of the first appointee by the Civil Service Commission, Your Honor appointed another person who was not a physician or a sanitary engineer, or one who had had experience in public health administration; or whose education, training or experience otherwise fitted him for the office. The person thus appointed was an Overseer of the Poor, and the appointment was a temporary one, made under that provision of the charter amendments which authorizes the Mayor, pending a permanent appointment, to appoint temporarily as the head of a department the head of any other department, or a member of any municipal board. This appointment has ceased to be a temporary one within the meaning of the law, and Your Honor should appoint a qualified person as Health Commissioner at the earliest possible moment. The continuance in office, under the guise of a temporary appointment of one whose qualifications would not be likely to secure the approval of the Civil Service Commission, if the appointment were made in the regular way provided by the charter, tends to demoralize the administration of the Health Department and to menace the safety of the public.

On August 17, 1910, the Finance Commission sent a communication to Your Honor recommending:

That the mayor consult physicians and sanitary engineers of high standing in their profession, who are familiar with modern scientific public health administration, for the purpose of obtaining names of persons eligible for the office of Health Commissioner, and that a competent person be appointed to that office.

The Commission respectfully renews the recommendation.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

PAYMENTS TO DISABLED EMPLOYEES.

WATER DEPARTMENT.

The following allowances, made by the commissioner, have been approved by the Mayor:

Martin Murray, Distribution Division, 3 days at \$2.25, \$6.75.

Thomas J. Denny, 2d, Distribution Division, 2 days at \$2.25, \$4.50.

Denis Delaney, Distribution Division, 25 days at \$2.25, \$56.25.

ABUTTING PROPERTY TO PAY FOR RESURFACING.

Covington, Ky.—An ordinance for resurfacing of streets and alleys, one-half the cost to be borne by abutting property owners and the other half at the cost of the city at large, has been passed by the council. Heretofore the city has borne the entire cost of resurfacing work.—*Municipal Journal*.

WORKMEN'S COMPENSATION ACT.

The Workmen's Compensation Act passed by the New York Legislature this year has emerged victorious from the first preliminary skirmish to determine its constitutionality. Inasmuch as it is destined to be a most important precedent for such laws, if it is upheld by the courts, the recent decision in the case of *Ives v. The South Buffalo Railway Company* is attracting considerable attention. The statute makes a change in the common law hitherto in force, which imposed upon the employee the entire responsibility for injuries arising out of the necessary risks or dangers of his employment. The act declares that workmen engaged in manual or mechanical labor in certain employments dangerous by reason of inherent necessary or substantially unavoidable risks to life and limb must be compensated for injuries received through no fault of their own and no fault of their employers. The law applies to railroads, both steam and electric, and the construction and maintenance of roadbeds. The defendant in the case held that the statute was unconstitutional because it deprived it of liberty and property without due process of the law and denied it the equal protection of the laws guaranteed by the fourteenth amendment of the federal constitution. It also attacked the validity of the law as violating the right of trial by jury guaranteed by the state constitution, and because it limited the amount recoverable for injuries resulting in death, in contravention of the state constitution. None of these contentions has been upheld by the court. The latter has ruled that the Legislature may alter or repeal the common law, it may create new offences and fasten responsibility for injuries upon persons against whom the common law gives no remedy. According to the decision, the Legislature may make those who employ workmen in dangerous callings insurers, to some extent, of the safety of these men. The objection to the statute on the score of limiting the amount recoverable in death cases is not decided, for the court rules that the matter is one that must be brought up by the plaintiff. The case is one that will unquestionably go before higher courts before it is finally settled, but it is very important as indicating the possibility that the workmen's compensation laws of Great Britain may be established in this country, after all, something that has hitherto not been regarded as likely.—*Engineering Record*.

TRAVEL IN GREAT CITIES.

In a recent letter commenting upon the relative populations of large cities as published by the Census Bureau, Mr. Rudolph Hering calls attention to the fact that these populations apply to the political boundaries of the city and do not necessarily apply to the actual populations which virtually make up the city as a business unit. Said Mr. Hering: "City rapid transit cares nothing for the artificial boundaries, but solely for the actual populations grouped around a large metropolitan business center. As giving a better idea of the real size of cities than the usual census figures I append those relating to actual population, and add the rides per annum credited to the population, including steam, electric and horse railways, omnibuses, carriages and ferries."

These figures refer to 1907. Mr. Hering states that since 1890 Greater New York has been growing the fastest of the seven cities; then follow in order Greater London, Greater Berlin, Chicago, Greater Boston, Greater Paris and Phila-

delphia; the word "greater" implying the consideration of the actual rather than of the political boundary of the city.

"As Greater Berlin is growing much faster than Greater Paris it soon will be, if it is not already, larger. As Greater Boston is growing faster than Philadelphia and has already almost the same population, it will overtake it before long. The figures also show that in Greater Boston the inhabitants ride more, and in Greater Paris less, than in any other large city."

City.	Population in 1907.		
	Population in Millions for	Rides in Millions in 1907.	Rides per Head of Population in 1907.
Greater London.....	7.2	2,254	348

UPLIFT WORK IN ERFURT.

Erfurt, Germany, which has a population of about 120,000, maintains a number of public bath houses along the river Gera, which is exceedingly free from pollution. The largest one is divided into free and pay compartments, the admission to the latter being 2½ cents with an additional charge of 1 cent for soap and towel. Competent instructors in swimming are present. Along the same river is a public park kept in excellent order by landscape gardeners and laborers. For public recreation the city owns and maintains a forest extending for a number of miles into the surrounding country, in which are summer houses, benches and tables at intervals which are free to all. There are also children's playgrounds. In general flowers must not be picked in the city parks, but in the forest park—the Steiger Wald—the public may gather flowers at will. There are also tracts inclosed and fitted up as playgrounds for athletic clubs, certain hours being reserved for each club, for which an annual fee of \$1.20 a year is charged.

During July and August the poor children of the city are taken to vacation camps, where each receives four weeks of outing free of cost for food or other essentials, the children being accompanied by school teachers or other competent adults. Part of the expense is met by the city and part by a charitable organization.

The city also owns a municipal opera and play house which it leases, one of the conditions being that there shall be given one suitable play or opera each week during the winter to which the price of admission shall not be more than 10 cents, with half price to children, the plays usually including productions of Shakespeare and Schiller and the like. Public authorities and private associations also arrange for lectures and concerts to which the prices of admission range from 2½ to 12 cents, and free concerts are given each Sunday by one of the military bands.—*Municipal Journal and Engineer.*

NEW REFUSE INCINERATOR.

Milwaukee has just completed a garbage and refuse incinerator at a cost of \$235,000. It was guaranteed to dispose of 300 tons of stuff every 24 hours without odor, and the tests showed that it would go 26 tons better than that.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 10, 1910.

Regular meeting of the City Council in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Hale.

On motion of Coun. BRAND the reading of the records of the last meeting was dispensed with.

REMOVAL OF CONSTABLES.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1910.

To the City Council:

You are hereby notified that I have this day removed Nathan E. Bates, Anglio M. Cresto, Timothy S. Cronin, Thomas T. Foley, James L. Hourihan, Joseph Leonard, Patrick Richardson, John J. Rogers and David Taylor from the office of Constable of the City of Boston for the reason that they have not filed the bond required by law.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

EXECUTIVE APPOINTMENTS.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1910.

To the City Council:

Subject to confirmation by your honorable body, I hereby make the following appointments, all for the term ending April 30, 1911:

Samuel A. Campbell (Briggs street, Salem, Mass.), Willis H. Cole (16 Homestead street, Ward 21), William R. McDonough (3236 Washington street, Ward 22) and William A. Staples (19 Conant street, Salem, Mass.) to be Weighers of Coal.

Daniel P. Walker (53 Dix street, Ward 20) to be an Inspector of Pressed or Bundled Hay and Straw.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Laid over under the law.

APPOINTMENT OF CONSTABLE.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1910.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint William A. Blossom (10 Laurel street, Ward 21) a constable of the City of Boston for the term ending April 30, 1911.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Laid over under the law.

REPORT ON BATH DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, October 4, 1910.

To the City Council:

I beg to transmit the accompanying report from the City Auditor, upon the manner of keeping the accounts and checking the receipts of cash in the Bath Department, called for by your honorable body, and to say that steps have been taken to correct the defects in the system to which attention has been called by the Auditor and the accountants employed by him.

Yours very truly,

JOHN F. FITZGERALD, Mayor.

(Annexed were the reports referred to.)

Placed on file.

MONUMENT TO CHRISTOPHER COLUMBUS.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1910.

To the City Council:

The Legislature of the Commonwealth, at its last session, recognized the fame of Christopher Columbus by appointing the twelfth of October as a state holiday in honor of the great discoverer. The city has done its share by contributing a liberal appropriation and arranging an elaborate celebration. It seems to me that Boston might go even further in paying honor to the Italian sailor. His fame is not merely local or national or even continental, but universal in its scope. It is peculiarly fitting, when the cosmopolitan character of our population has begun to broaden our historical sense, that some recognition should be given to a great historical figure who was not of British origin. A monument to Columbus on one of our public squares, if worthy of its subject, would be not only a tribute to the greatest of all discoverers but a decoration quite in keeping with the new movement for the beautification of the city.

I recommend the passage of the accompanying

order, appropriating twenty-five thousand dollars (\$25,000) for such a monument.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

In City Council, October 10, 1910.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893, the City Auditor be, and hereby is, authorized to transfer the sum of twenty-five thousand dollars (\$25,000) from the appropriation for Reserve Fund to an appropriation for a monument to Christopher Columbus, to be expended under the direction of the Art Commission.

Referred to the Committee on Finance.

LAND NO LONGER NEEDED.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1910.

To the City Council:

I beg to recommend the passage of a preamble and order accompanying a notification from the Board of Schoolhouse Commissioners, to the effect that a parcel of land containing 20,200 square feet, more or less, taken from the Massachusetts General Hospital, and a second parcel of land containing 1,356 square feet, more or less, taken from Benjamin Lancy are no longer required for public purposes.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Whereas, The Board of Street Commissioners, under authority conferred upon said board by acts of the Legislature of the Commonwealth of Massachusetts, did take for school purposes, by an instrument recorded with Suffolk Deeds on the twenty-eighth day of June, 1910, certain lands situate on Common and Warrenton streets in said Boston, including a parcel of land containing 20,200 square feet, more or less, supposed to belong to the Massachusetts General Hospital; and

Whereas, The Board of Schoolhouse Commissioners, having charge of said lands taken as aforesaid, has notified the City Council that in its opinion the above-mentioned parcel of land containing 20,200 square feet, more or less, taken from the Massachusetts General Hospital is no longer required for public purposes; it is hereby

Ordered, That the Mayor be and he is hereby authorized in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50 of the Revised Laws to release and convey to the said Massachusetts General Hospital said parcel of land containing 20,200 square feet, more or less, as particularly described in said instrument of taking, in consideration of the release by said Massachusetts General Hospital, and by all persons claiming under it, of all claims against the City of Boston for damages on account of said taking, and upon such other terms as the Mayor shall consider proper.

Whereas, The Board of Street Commissioners, under authority conferred upon said Board by acts of the Legislature of the Commonwealth of Massachusetts, did take for school purposes, by an instrument recorded with Suffolk Deeds on the twenty-eighth day of June, 1910, certain lands situate on Common and Warrenton streets in said Boston, including a parcel of land containing 1,356 square feet, more or less, supposed to belong to Benjamin Lancy; and

Whereas, The Board of Schoolhouse Commissioners, having charge of said lands taken as aforesaid, has notified the City Council that in its opinion the above-mentioned parcel of land containing 1,356 square feet, more or less, taken from Benjamin Lancy is no longer required for public purposes; it is hereby

Ordered, That the Mayor be and he is hereby authorized in the name and behalf of the city, and in accordance with the provisions of chapter 25, section 50 of the Revised Laws to release and convey to the said Benjamin Lancy said parcel of land containing 1,356 square feet, more or less, as particularly described in said instrument of taking, in consideration of the release by said Lancy, and by all persons claiming under him, of all claims against the City of Boston for damages on account of said taking, and upon such other terms as the Mayor shall consider proper.

Referred to Committee on Public Lands.

Later in the session Coun. BRAND said:

Mr. President, I move reconsideration of the reference of the matter to the Committee on Public Lands. My reason is that it seems necessary that the Council should take some action immediately, as Mr. Logue, the Chairman of the Schoolhouse Commission, came before the Council and explained that the city proposed to abandon the site selected by the High School of Commerce and that the Massachusetts General Hospital is willing to have the property returned to it without any cost to the city. He therefore urged reconsideration of the reference so that action may be taken.

The reference was reconsidered, and the orders were given their first reading and passage, yeas 7, nays 0.

Assigned for fourteen days for final action.

NOTIFICATION OF APPOINTMENTS.

Notification was received of the appointment by the Mayor of Philip J. Sondheim as trustee for children and Felix W. McGettrick as Penal Institutions Commissioner, and of the delivery of certified copies of same to the Civil Service Commission.

Placed on file.

ZOO AND AQUARIUM PLANS.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1910.

To the City Council:

I beg to transmit the accompanying preliminary report of the Board of Commissioners of the Department of Parks giving plans and estimates for a zoological garden in Franklin Park and an aquarium at Marine Park, together with drawings and plans prepared by the advisory architects to the board.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Park Department, October 5, 1910.

Hon. John F. Fitzgerald, Mayor,

City Hall, Boston:

Dear Sir,—The following order of the City Council approved by you has been transmitted to the Boston Park Commission.

City of Boston,

In City Council, May 2, 1910.

Ordered, That the sum of five thousand dollars (\$5,000) be appropriated from the income of the Parkman Fund, to be expended by the Park Commissioners, with the approval of his Honor the Mayor, for the purpose of obtaining plans and estimates for a zoological garden in Franklin Park and for incidental expenses connected therewith.

Passed, yeas 7, nays 0.

Approved by the Mayor May 4, 1910.

A true copy.

Attest: (Signed) W. J. DOYLE,
Assistant City Clerk.

Also we have received an order of similar tenor appropriating a similar sum to obtain plans and estimates for an aquarium at Marine Park.

In accordance with these orders the Boston Park Commission presents to you herewith a preliminary report and with it letters from Arthur A. Shurtleff, landscape architect, and William D. Austin, architect, describing in detail respectively projects for the zoological garden and for the aquarium. Also letter of advice from William T. Hornaday, director of the New York Zoological Garden.

Our studies for the zoological garden led us at first to certain conclusions which we will describe though they were later modified. We perhaps primarily looked at the subject as somewhat experimental, and again as the area available for the purpose was rather limited between the "Greeting" and Seaver street, and as we surely did not wish to infringe on the broad expanses of the park we were inclined to start with a limited program. We therefore planned for hardy animals only and such as could live out of doors all winter and without heated houses, except that a heated house was to be provided for migrating birds. As such a limited program could not embrace wide ranges of natural history we were inclined to present one branch in a scientific and thorough manner (perhaps the birds as they would require less area), and have the other exhibits less scientifically thorough and more in the nature of popular attractions. We also have been of the opinion that if for no other reason the fact that the garden formed part of Franklin Park rendered it desirable that the arrangement should be picturesque and attractive rather than simply have the look of a labeled collection. Mr. Shurtleff and Mr. Pettigrew tried therefore to arrange every yard or den with a background so that the animal would show as in a picture. In short, the system employed in the Paris Jardin d'Acclimation is used rather than that in the Jardin des Plantes.

At this point we sought the advice of Mr. Hornaday, the distinguished director of the Bronx Zoological Gardens. His views are given in detail in his letter attached hereto. Though he approved of one scheme as far as it had gone, he convinced us that none would be really satisfactory that did not provide for future growth through gifts or public interest, which he deemed inevitable. Besides he told us that a complete inclosure of the Zoological Garden was indispensable and all this meant that to get increased acreage the grounds should extend beyond the Greeting and that hence the Greeting as well as the zoological exhibits would be within the inclosure.

We have always valued the Greeting as an integral part of Mr. Olmsted's design for Franklin Park, in fact, as the culmination of the whole scheme of the city parks. We were puzzled as to its treatment if the Zoological Garden extended beyond it and inclosed it as Mr. Hornaday desired. We finally determined that by slightly changing its nature the Greeting might be made the backbone of the design of the Zoological Garden; that if it were made a promenade for pedestrians instead of for carriages it might without detriment be within the inclosure of the "Zoo"; and that this promenade with the Music Court and the Zoological Garden and the herbaceous garden that is already well established all opening upon it, the whole

would combine to make a more important and alluring culmination of the park system than has hitherto been thought of. Moreover in all essential features Mr. Olmsted's original design is adhered to.

The plans now presented embody this scheme. It is not necessary to carry the work at present any farther than any present funds we may be entrusted with will permit. Gradual extension will be possible on the well established lines as often as gifts or interest in the subject may render it possible or advisable. At present we should advise no permanent large building except the house for migrating birds and the bridge that will permit the inclosing of Long Crouch woods with the Sargent field without stopping the avenues that open upon Seaver street. Both of these have been designed by Mr. Austin and their cost is included in Mr. Shurtleff's estimate for the preliminary zoological garden. No other large buildings are included in the estimate, but sites for permanent heated houses are provided to be built as the future gives opportunity.

Mr. Shurtleff's and Mr. Pettigrew's estimate for the work thus described and which would result in a satisfactory and interesting zoo for the present is \$240,000, and the mall or Greeting would cost inside of \$200,000. As regards the latter we should at first expect to do such work as would permit the planting of the trees and the rest might follow slowly and it would be two or three years before the whole of this sum were expended. Any permanent heated building other than that for the birds would be a subject for future discussion.

In the study for the aquarium building Mr. Austin, our architect, has visited those at Detroit and New York, where are the best American examples, and has had the benefit of the kindly advice of the directors of those institutions, and such other authorities on these matters as we could reach have also been consulted.

The drawings explain themselves and show a building large enough we think for present purposes and capable of indefinite expansion. It will make a very attractive addition to Marine Park. The two large ponds in its immediate vicinity can be used for summer exhibition of various sea animals under the care of the aquarium staff. Mr. Austin's estimate leads us to think that we should expect the building to cost \$100,000.

On May 13, 1910, at your request we conferred with the Public Grounds and the Music Departments as to the possible disposition of the Parkman Fund income and in accordance with the opinions agreed to at that meeting asked you to place half of the income of the fund at the disposal of the Park Commission for them to expend upon the Zoological Garden, the Aquarium, the Music Court and Greeting, and certain loam in Franklin Park, and that it be left to our discretion as to the distribution of the sum between these objects, as one may advance more rapidly than another. We now again renew this request on the understanding that the money shall be spent on advancing the work described in this report. We would, however, point out that the more money we can be spared from the funds on hand the farther we can go with the work we have outlined in this report.

Yours truly,
ROBERT S. PEABODY.
JAMES M. PRIENDEGAST.
DANIEL H. COAKLEY.

[Copy.]

Arthur A. Shurtleff, Landscape Architect,
89 State Street, Boston, Mass.

September 29, 1910.

Boston Park Department,
Board of Park Commissioners,
Robert S. Peabody, Chairman,
Boston, Massachusetts.

Dear Sir,—In the plans for Franklin Park prepared by F. L. Olmsted in 1886 a parcel of about 80 acres of land was set apart near the borders of Seaver street to accommodate a zoological collection, a deer park, a Music Court, a Little Folks' Fair, and a concourse or alameda, called "The Greeting." Although these features were regarded as important adjuncts to the great "Country Park" which occupied the larger portion of the remaining 400 acres of Franklin Park, their construction was postponed for lack of funds and for want of an active public demand. In the lapse of thirty years the "Country Park" has been brought to a high degree of completion, but these popular adjuncts have remained almost wholly undeveloped. In other parts of the Boston Park System, however, a variety of popular recreative attractions of a similar kind have been created in late years, which tend to reduce the number of persons seeking the quiet scenery of Franklin Park. Time has proven in Boston and in other cities that extensive pastoral and wooded parks which make their appeal through the enjoyment of great landscapes, require secondary amusements of just that kind offered by a zoological garden, to enable them to hold their places in competition with seashore reservations, bathing beaches and the modern highly-developed playground. The disappointing attendance at Franklin Park shows clearly that the moment has arrived when the development of the secondary attractions of this plan must be accomplished, if Franklin Park is to hold its recreative pre-eminence in the park system.

The original plan for Franklin Park and the notes that accompanied it explain at length the need of maintaining heavy plantings of woodland

and under-cover to screen the quiet landscapes of the "Country Park" from the unrelated views of the proposed "Greeting," and zoological collection. The contour of the ground, fortunately, assists this barrier of trees (now well developed) by interposing also a number of hills, ridges and valleys. Fortunately these inequalities of contour contribute at the same time to the needs of the several features contemplated by the plans—the rocky ridge of the Long Crouch Woods and its extension furnish almost ideal conditions of soil, exposure and drainage for the zoological collection and for deer ranges; the hollow basin of Sargents Field, with slight excavation, can be made to accommodate the ponds of an herbaceous garden and of an aquatic flying cage for birds; the long contours of the flat-bottomed valley between Deer Hill and the ridge proposed for the Music Court, can be readily moulded to the formal outlines of the proposed "Greeting."

Following your request I have made a careful study of the original plans and notes for Franklin Park and I have examined the ground in the vicinity of the site of the proposed Zoo in detail with topographical maps. I have conferred at length with your chairman, with the Superintendent and with the Engineer of the Park Department, together with Mr. William T. Hornaday of the New York Zoological Park. I beg to submit the accompanying preliminary plan and estimates as an outcome of these studies and conferences.

The plan includes six main features: Long Crouch Woods, the Herbaceous Garden, Deer Hill, the Greeting, the Music Court and the Little Folks' Fair. These parts are all intimately connected with one another by ample paths, well shaded by existing woodlands, and they are unified by the great central mall or Greeting which would form the main avenue of approach from the car lines of Blue Hill avenue and Seaver street and from the main driveways of the park itself. No better location for a zoological garden with regard to existing lines of approach, both within and without the park, could be found or desired.

LONG CROUCH WOODS.

The rocky character and the southern aspect of this wooded ridge suits admirably for a collection of native animals requiring little shelter in the winter season. Among these animals might be included bear, lynx, raccoon, fox, badger, hedgehog, squirrels, otter and beaver.

Each inclosure is to be viewed only from the front by the public, the sides and rear being planted to form a background suitable to display the animals to the best advantage with the most characteristic environment and with the least possible exposure of cage-work. The floor of each inclosure is to be carefully built of concrete with a naturalistic surface ensuring cleanliness, with the least appearance of artificiality and with the minimum cost of upkeep.

This district would be approached by two or more gate entrances having turnstiles to record the number of persons entering and to form the headquarters for local policing. As indicated upon the plan one building will be required to shelter small mammals other than those which are injured to the severity of our winter. This building would not be needed until the Zoological Garden as a whole had attained a high state of development.

A bridge would be required to carry the crowds of people from the Long Crouch Woods section across the line of Old Trail Road to the vicinity of the Herbaceous Garden.

HERBACEOUS GARDEN.

This garden already started successfully, would be devoted partly to a collection of interesting and attractive herbaceous plants, flowering shrubbery and trees, and partly to a collection of aquatic birds. Certain of these birds would roam at will in the ponds and pools of the garden, but a large proportion of them would be kept in an ample flying cage, provided with independent pools and trees of its own.

A bird house should also be provided, to which all the less hardy birds could be withdrawn in the winter season. As the Zoological Garden gained in importance, this building would be used to accommodate rarer species, which would need its protection in summer as well as winter. The plans and perspectives of this building, indicate the building in its fully developed condition and show its relationship to the bridge and to the flying cage, as well as to the margins of the Greeting. Adjoining the Herbaceous Garden, upon a favorable ridge of land, a wistaria arbor would be arranged to form an agreeable point from which to view the garden. This arbor would be of considerable size and would separate the Herbaceous Garden from the lion house upon its southern side. While the arbor might be built early in the history of the garden, it is to be expected that the lion house would form an ultimate development, which could be added without disturbing either the Herbaceous Garden or any of its adjuncts.

DEER PARK.

The Deer Park occupies the eminence immediately east of the Herbaceous Garden. The highest point of ground would be occupied by an antelope and deer house, having radiating inclosures upon all sides, allowing their occupants to enjoy the sunlight and air in fine weather and to enter the building in inclement seasons. Inclosing the antelope house and its runs a semicircular path

would give approach to a series of unattached inclosures intended for deer, elk and bison, as shown clearly upon the plan. These inclosures would be comparatively large in size and of favorable depth, according to the requirements of the animal to be corralled. All these inclosures would be separated carefully from one another to afford proper backgrounds for the animals and to screen the cages and the animals themselves from the park boundaries.

THE GREETING.

The original plan prepared by Mr. Olmsted for the Greeting and shown upon the early plans for Franklin Park contemplate a series of parallel drives, rides and walks, having a total width of 300 feet and extending from the vicinity of the Blue Hill avenue entrance to the Playstead, a distance of, approximately, half a mile. It was intended to form a great concourse, allowing persons approaching the park on foot, by carriage and on horseback, to meet one another and to enjoy promenading before entering the park itself. During the years which have elapsed since the design of the park was made many radical changes have taken place in methods of transportation, and the necessity of such a concourse for the use of carriages and riders is less than it was, but long avenues of trees and a long stretch of greensward can never get out of fashion or be other than beautiful. The Zoo to be orderly and attractive needs a main avenue and if the Greeting were somewhat transformed in character to make it a great sylvan avenue intended wholly for persons on foot, it would make a most impressive and most useful concourse for the Zoo. Besides, the Zoo thus made orderly and imposing will form a noble culmination for the many winding roads of the park and Mr. Olmsted's design will be retained but adapted to the most modern conditions. This modification of the design would also reduce the cost of construction of the Greeting by the elimination of large surfaces of macadam, which would be replaced by extensive areas of greensward. Instead of the \$275,000 which is the estimate for what Mr. Olmsted designed it would cost in the proposed modified form about \$200,000, or less. In its transformed condition the Greeting would form a natural line of communication for foot passers between Columbia road and the playstead district and would form a magnificent frontage for zoological structures on either side. The plan contemplates buildings near the Columbia road entrance for administration purposes and for housing primates, elephants, reptiles, etc., as shown clearly on the plan. These buildings should not be of so monumental a character as to allow them to become conspicuous throughout the park. They should be comparatively low in height, nesting among the trees and only visible from the Greeting or its nearby approaches. The circles terminating the Greeting would be ornamented with fountains or other features to make them acceptable foci for such important vista points and points of congregation.

MUSIC COURT.

The Music Court shown on the original plans for Franklin Park is carefully retained, but is reduced somewhat in size and moves slightly toward the east, by which it is made to occupy a position immediately opposite the antelope house and its flanking buildings. The sloping surface upon which the Music Court would be built would contribute much to its good appearance.

LITTLE FOLKS' FAIR.

The Little Folks' Fair is to be devoted to childish entertainments, including swings, seesaws, marionettes, goat carriages, donkey courses and amusements to which it was to be originally devoted under the Olmsted plan. Its proximity to the Zoological Garden would also render it available for persons wishing to ride elephants and camels, as is customary in most zoological gardens.

THE REFECTORY.

The nearness of the Refectory to the Zoological Garden is especially fortunate. This building is already designed to accommodate a restaurant and has closely associated with it a shed for the accommodation of vehicles. Up to the present time the Refectory has not secured patronage enough to make it a success, but with the presence of the Zoological Garden so near at hand its success would undoubtedly be assured.

BOUNDARY FENCES.

All portions of the Zoological Garden should be inclosed with a fence to form a barrier against dogs likely to frighten or injure the animals. By the absolute exclusion of dogs in this manner it becomes possible to effect a considerable saving in the cost of fences around the individual inclosures. Many inclosures for wading birds, for instance, can be made only 2 or 3 feet in height, provided there is no danger of dogs jumping into them. The border fences are also essential to prevent cross cutting through the Zoo grounds and to make it possible to concentrate all entrances and exits at the regularly appointed turnstiles. It is becoming the universal practice to inclose all zoological gardens in order to effect these very desirable controls and if necessary collect tolls on certain days of the week.

DEVELOPMENT OF THE PLAN.

The plans show a complete zoological garden of large size. It is not expected that all this would be built now. Much of it might never be built—but provision is made for its possibility. It would seem best to begin work in the vicinity of Long Crouch Woods, the Herbaceous Garden and the Deer Park. These portions would form a self-contained unit independent of the execution of the entire scheme for their success. In addition to this work as much could be done towards the Greeting and Music Court as funds would permit.

ESTIMATES.

Estimates have been made of the cost of the first portion of the Zoological Garden project, including Long Crouch Woods, the Herbaceous Garden and Flying Cages, the Bird House, Arbor and the Deer Park. These figures amounting to \$241,000 are approximate, and furnish a basis upon which the general cost of the work may be fairly judged, and the cost of the Greeting should be reckoned as \$200,000.

Respectfully submitted,
ARTHUR A. SHURTLEFF.

APPROXIMATE ESTIMATE OF COST OF THE PROPOSED ZOOLOGICAL GARDEN, INCLUDING THE TRACT FROM SIGOURNEY STREET TO AND INCLUDING THE HERBACEOUS GARDEN, THE DEER PARK AND THE BIRD HOUSE.

Fences for Animal Inclosures.

1,000 lineal feet of first-class den cage for bear, lynx and beaver, etc., averaging 6 feet in height, equals 6,000 square feet, at \$1.50 per square foot erected.	\$9,000
3,000 lineal feet of second-class cages for raccoon, birds, foxes, etc., averaging 8 feet in height, equals 24,000 square feet, at \$1 per square foot erected.	24,000
3,500 lineal feet third-class cages (inclosures) for deer, goats, etc., averaging 8 feet in height, equals 28,000 square feet, at 50 cents per square foot erected.	14,000
3,000 lineal feet of guard rail, 3 feet in height (to separate the public from contact with the cages), at \$2 per lineal foot.	6,000

Boundary Fence.

10,000 lineal feet, 7 feet high, equals 70,000 square feet (approximately), at \$1 per foot erected.	70,000
--	--------

Gate Houses, Containing Turnstiles and Room for Attendant and Heater.

Six (6) at \$3,000 each.	18,000
--------------------------	--------

Shelters for Animals, of Wood or Stone, or in the Form of Caves, Excavated, or Built up in Rock.

Twenty-five (25) at an average of \$300 apiece.	7,000
---	-------

Granolithic Paths.

27,000 square feet at \$0.20.	5,400
-------------------------------	-------

Granolithic Surface for the Floors of Cages and Inclosures.

Approximately 70,000 square feet, at \$0.40 per square foot.	28,000
(The above floors are lifted from the ground on concrete piers to allow circulation of air beneath for the preservation of the trees now growing on the site of the Zoo.)	

Loam.

Beds for the planting of shrubbery and trees to form a background at the ends and sides of cages; involving some rock excavation.	7,000
Excavation, including ledge, say.	5,000
Loam at \$0.60 per cubic yard, say.	5,000

Shrubbery and Trees.

For backgrounds and screens, partly collected in the park system and partly purchased.	3,000
--	-------

Herbaceous Garden.

Arbor for herbaceous garden.	5,000
Garden.	12,000

Lighting.

For the entire Zoo for service use only.	3,600
--	-------

Sewer.

Main sewer to Sigourney street.	5,000
Secondary drains and sewers from the cages and from surface water, catch-basins.	5,000

Water.

Water pipe at \$1.50 per foot, laid.	2,200
Flying Cage.	12,000
Bird House and Terraces.	100,000

Total.....\$241,200

2969 Decatur Avenue, Bedford Park,
New York City, September 20, 1910.

The Board of Commissioners of the Department of Parks, City of Boston:

Gentlemen,—In response to your invitation I have carefully inspected your Franklin Park and

conferred with the members of your honorable Board, your Superintendent of Parks, your Architect of Buildings and your Landscape Architect. Concerning your plans for a zoological park I have the honor to submit the following report:

THE BOSTON ZOOLOGICAL PARK.

Plan and Scope.—With the assistance of the various officers interested, I have carefully examined the plan that has been suggested for a collection of hardy animals not requiring heated buildings, and for a collection of birds requiring only one heated building, to be located on a narrow strip of partly forested land, situated along the extreme northern side of Franklin Park. The total area of the proposed site is about forty acres.

I found that while the picturesque rocks, knolls and open spaces of this area will very well accommodate the hardy hoofed animals, the bears, wolves and foxes, wild goats and sheep, and the bird collections, there is room upon it for hardly more than two buildings for tropical animals; and this condition immediately brings us face to face with the all-important question—what will be the final development, say twenty-five years hence, of the zoological establishment you now propose to create? So far as your prospective enterprise is concerned, it is impossible to overestimate the importance of a correct answer to this question.

Thanks to the progress of general education and enlightenment, the time has quite gone by wherein it was necessary to present arguments to prove the educational desirability of such institutions as that which you now have in mind. To-day it is no more necessary to justify the existence of good, modern zoological parks than it is to defend the Atlantic Ocean or the Rocky Mountains. The few persons who oppose zoological parks that are established on the lines of modern humanity merely advertise the fact that they are at least half a century behind the times.

No people in America are more highly imbued with civic pride than the people of the City of Boston. Your existing parks and city institutions abundantly demonstrate the truthfulness of that assertion. If your city, the fifth in population and importance of all the cities on the American continent, creates a vivarium of any kind, will your people be satisfied with anything less than a modern, up-to-date zoological park that will adequately represent the City of Boston and adequately meet the wants of its people? Can your wealthy and progressive city afford to create a zoological garden or park far below the scale of her Museum of Arts, her Public Library or her Arboretum, and so small and incomplete that it would befit a city only one-fifth the size and importance of Boston?

The answers to these questions must come from you; but, at the same time, I regard them as obvious. It is my opinion that you will wish to create a zoological park in every way befitting the position, the wealth and intelligence of the City of Boston, and that nothing less will satisfy you or the great mass of people which your honorable Board represents.

It is my firm conviction that your original plan will not be adequate to meet the purpose you have in view, and that its scope needs to be greatly expanded. It does not provide for the exhibition of any tropical mammals or reptiles, and it does not provide for the future extensions that I firmly believe will, in any event, be forced upon you by circumstances.

It is neither necessary nor desirable that any city should create and maintain a zoological garden or park on a scale of size and cost far beyond its resources. The policy of wisdom is for each city to plan an establishment as large and as perfect as its own rank and resources will justify, without making it a noticeable burden upon the taxpayers. In the confident belief that it will ultimately be your decision to adopt this course, I recommend the development and final adoption of a plan that, when fully wrought out in the future, say ten years hence, will be as complete, as perfect and as dignified as any city of the size of Boston would be justified in creating and maintaining for her people.

Situation in Franklin Park.—I approached Franklin Park fully resolved in mind that my natural tendencies as a zoologist should not be permitted to outweigh my duty as a citizen toward a great and beautiful public park. In other words, I would be unwilling to mar a fine example of park development, even for the sake of securing a good site for a zoological garden or park.

It was, therefore, with great satisfaction that I found conditions which will render it not only possible but comparatively easy to develop in Franklin Park a very beautiful zoological establishment, without marring the unity and perfection of the park as a whole. By a remarkable combination of the work of Nature and Mr. Olmsted there exists in the extreme northern end of Franklin Park an area of about 80 acres which is so set off from the main areas of that great park (525 acres) that its use as a zoological park seems to be quite justified. Between this and the main area there rises a wooded ridge which forms a sort of natural boundary, and which will completely mask and hide any buildings for animals that may be erected in the open valley lying to the north of it, projected as "The Mall." A sunken road, for service only, which extends along the southern face of this ridge, would form an excellent southern boundary for the proposed zoological park.

I believe that it is possible to utilize about 80 acres as a site for the zoological park, and have the buildings and other improvements erected thereon so completely hidden from the remainder of Franklin Park that the park as a whole would not suffer any real injury or loss. The area referred to seems to be very little used, and the mall proposed by Mr. Olmsted is as yet wholly undeveloped.

Effect on Outside Interests.—The maintenance of a zoological park in the northern end of Franklin Park could easily be so managed that it could not by any possibility be objectionable to the residents of the district outside. The only wild animals whose cries could be plainly heard outside are wolves and sea lions. Of these the number exhibited could be kept at a point so small that they would constitute a negligible factor.

Thus far not one complaint of the noises of the animals in the New York Zoological Park ever has reached the director; and on the other hand property around that park has been doubled in value by its development. Many new dwellings and apartments have been erected to overlook our boundary fences. In Europe it is the regular thing for zoological gardens to be developed as near as possible to the centers of population of the cities they adorn; and I never have heard that such institutions are disliked by the people who live around them. In Antwerp the Zoological Garden is situated in the heart of the city, close beside the grand central railway station.

Accessibility.—The general accessibility of the north end of Franklin Park is a powerful argument in favor of the development of a zoological park at that point. A modern establishment will be so pleasing and attractive that it will attract throngs of people to that region, and undoubtedly would vastly increase the use and enjoyment of Franklin Park as a whole. The New York Zoological Park is now so attractive that many persons visit it once a week, or even more often, during the season of green foliage and mild weather. The total attendance in 1909, by turnstile records, was 1,614,953; and our annual increase in attendance is about 200,000. In summer uncounted thousands of visitors first view the animals and afterward go out into the other portions of Bronx Park, to enjoy the park as a whole. Previous to the development of our vivarium and the Botanical Gardens, Bronx Park was visited each year by about 30,000 persons.

Recommendations.—In conclusion, I have the honor to submit the following recommendations:

I think that the scope of your plan should be enlarged until it will provide, finally, a zoological park designed on the most modern lines, adequate in size to meet the needs of Boston, and sufficiently perfect and beautiful that it will be a permanent source of pride and pleasure to all your people, and especially to the men who are responsible for its development. In order to meet the conditions that time and the public will inexorably demand of you, and to provide adequately for the enormous increase in the population of Boston and its environs that is absolutely certain to be witnessed during the next twenty years, I strongly advise a great expansion of your plan. It is unnecessary for me to point out to you the desirability of preparing now a complete and perfect final plan of the ideal zoological park that will wish to gradually develop during the next ten years.

I recommend that in addition to the area you have in mind, the whole of the proposed mall or Greeting, as planned by Mr. Olmsted, and the entire wooded ridge south of it, down to the northern wall of the sunken road, be included in the proposed site for your zoological establishment. I also advise that the southern boundary line be carried across the northeasterly corner of the small meadow, and screened by planting, and that the western entrance be located on the street front, instead of some distance within the park grounds, at the top of the first slope. I think that all the ground in the northwestern corner is desirable as a part of the site, even though it never be occupied by animals.

The location of the bear dens, wolf and fox dens, squirrels, and other inclosures for rodents as proposed in your preliminary plan, is heartily approved. I would add to that region, where there are numerous outcroppings masses of conglomerate rock, suitable installations on rocks for the wild goats and wild sheep.

The proposed locations for the large flying cages and ponds for water fowl are approved, as being well chosen and very suitable. The proposed ranges for hardy deer, elk, bison, etc., on the northern half of the broad knoll in the northeastern corner of the site, is also fully endorsed, in the belief that the choice is a good one.

Your proposal for a bird house seems to me a very good one, and if carried into effect the building and its collection of birds would undoubtedly constitute a feature of great and permanent interest to visitors, as well as of convenience to the public. It is possible, however, that an expansion of your plan may lead you to choose to make this building a part of the important design that we have discussed for the development of the mall.

I recommend that in order to meet the demands that are almost certain to confront you, and that, too, in the near future, the following buildings be included in your general plan, for the reception of the animals that sooner or later will be forced upon you for exhibition: An antelope house, for tropical antelopes, gazelles and zebras; a lion house; a reptile house; an elephant house, to include the elephant, rhinoceros, hippopotamus and giraffe;

a monkey house; a small mammal house, for the many miscellaneous small quadrupeds that are inevitable, and that cannot be provided for elsewhere than in a heated building specially designed for them.

After prolonged conferences with Commissioner Peabody and your Landscape Architect, Mr. Shurtleff, it seems to me both possible and very desirable that the mall proposed by Mr. Olmsted should be developed as the great formal feature of the proposed Zoological Park, and the complement of the picturesque features already projected by you. Across the longitudinal axis of them all, and near its eastern terminus, I think you could well place the elephant house. Farther down, and near the center of the mall, could be placed, opposite each other, the lion house and the reptile house, and near the western end the monkey house and bird house could stand on opposite sides of the Mall, balancing each other. The bandstand proposed by Mr. Olmsted would not be interfered with, and some of the space on the mall, between the buildings, might well be devoted to flower beds.

An antelope house is strongly recommended for a position on the crest of the fine knoll in the northwestern corner of the Zoological Park grounds, opposite the corrals for members of the deer family. It should have yards about 60 feet in depth, radiating from both its sides. The only drawback to this situation is the underlying rock, which will render it difficult to blast out holes in which to plant the 15 or 20 shade trees that the animals would need in summer.

The small mammal house proposed should, in my opinion, be located somewhere on the Hill of Rocks in the northwestern section of the grounds. There will be immediate necessity for a heated building of some kind in that region, as an accessible retreat for visitors entering the park at the northwestern entrance in weather that is either rainy or extremely cold. I am convinced that a site suitable for a building without external yards can be found somewhere in the area indicated.

Conclusion.—It is my opinion that a zoological park developed on the scale indicated above would by no means be unduly large or costly for the City of Boston, either to develop or to maintain. While it would not be the largest institution of its kind, it would be so large, so perfect for its size and so beautiful that it would be highly satisfactory to the people of Boston, and I believe that it would be most willingly maintained by them. In my opinion, a small establishment, of hardy animals only, would be very inadequate to the needs of a modern city of the fifth rank, and would not be popular. On the other hand, judging by results in other American cities, the expanded plan that we have already discussed at length would soon become very popular.

Respectfully submitted,
(Signed) WILLIAM T. HORNBADAY.

[Copy.]

Boston, October 1, 1910.

Robert S. Peabody, Esq.,
Chairman of Department of Parks
of the City of Boston:

Dear Sir,—In compliance with your request, I beg to submit herewith a description of the suggested design for the proposed aquarium to be built in the Marine Park at South Boston. The general scheme is based upon that of the aquarium at Detroit, which appears to embody the latest ideas for a building for this purpose. But in size and design of both the interior and exterior the suggested plans differ materially from the Detroit prototype.

The Boston aquarium, for instance, as drawn, would be, for the present, about half the size of the other, but as funds become available the building can easily be enlarged and, in fact, it has been designed with that object in view. The exterior shows cement plaster applied to hollow terra cotta blocks, which would constitute the walls of the building. The roofs are assumed to be of wood construction covered with red ties. Some elaborateness in material and workmanship is suggested in the design for the front entrance, where the columns and arch, I hope, may be of white marble with carved decorations, as suggested, of mermaids, sirens, dolphins in the keystone, and other aquatic motives. But this is the only unnecessary expense introduced into the exterior design. In about every other respect it has been studied to the last degree of economy consistent with suitableness and the dignity of its purpose and the auspices under which it is to be built.

The proposed location, as indicated on the block plan, is on the brow of an existing embankment or slope of ground, so that the basement on the easterly long side will be entirely above grade. The building is shown parallel with Farragut avenue, with the westerly long side about one hundred feet back from the sidewalk. The entrance front on the south side faces the principal approach to the park from Farragut avenue and a wide walk is suggested connecting this approach with the south front. An exterior flight of stone steps is shown leading down from this walk to the lower level on the east side, whence paths will diverge to the two existing ponds which are proposed to be used as auxiliaries to the exhibits within the aquarium building.

The principal feature of the interior is, naturally, the exhibition hall on the main floor, where provision is made for tanks, each with plate glass fronts which, with the water behind the glass, will be entirely framed in by the walls of the hall.

The illumination for the public hall will principally be had as is the custom in aquariums, through the water in the tanks which will have skylights directly above them in the roofs over the working space which extends all around the building on the outside of and hidden from the public hall.

Because of the peculiar method of lighting above described, and the purpose of the building to exhibit fishes as nearly as possible as they would appear in their natural habitat, it seemed appropriate to design the interior of the exhibition hall to simulate, as far as practicable, caverns or grottoes under the sea. This effect has been attempted by the proposed use of real and rough stone in the walls and imitation stone for the arched ceilings combined with the skill of a clever scene painter who will blend the true and the false into a harmonious whole, and, it is believed, produce a result which will create something of the impression striven for and, as suggested in the interior view, presented.

At the end of the hall, in what might be called the apse, a waterfall is suggested with a pool beneath.

The balance of the main floor is devoted to the entrance hall, superintendent's office, retiring room for women, check room and toilet rooms. These are all arranged near the main entrance. In the basement, on the high side, there is a second entrance for the public, under the east transept, and two large exhibition tanks are shown, forming two sides of the public lobby or vestibules. A wide and easy circular staircase ascends from this lobby to the main exhibition hall at a point directly under the domed ceiling.

The rest of the basement is taken up with laboratories for the superintendent's staff, receiving, feed, storage, boiler and coal rooms, toilet rooms for the workmen, and the space required for filters, pumps and other machinery.

There is a second story, directly over the crossing in the plan, which will be used entirely for the installation of the large supply tanks, from which tanks fresh and salt water is taken by gravity to the various exhibition tanks. This second story is reached by stairs from the working space in the main floor. It appears that the following equipment, stated in a general way, will be required:

1st. A storage tank or cistern of perhaps 15,000 gallons capacity for salt water. This underground cistern may be built outside of the building, but in close proximity to it.

2d. A supply tank of perhaps 1,500 gallons capacity for fresh water, a similar tank for salt water, a third similar tank for warmed salt water and possibly a fourth tank for warmed fresh water. These four tanks to be located in the second story, as stated above.

3d. Twenty exhibition tanks at the outset. The majority of these tanks will each be about 5 feet high by 6 feet long by an average width of 4 feet 6 inches, but several will be 14 to 16 feet in length.

4th. Filter beds for the impure salt and warmed salt water which is drawn off regularly from the exhibition tanks; filters for the pure fresh water.

5th. Interception tanks under the basement floor for the reception of filtered salt water, previous to its return by gravity to the storage cistern.

6th. Pumps (in duplicate) for pumping to the supply tanks. These pumps to be run by motors.

7th. Boilers (in duplicate) for heating only and not for power.

8th. All the incidental supply piping, of heavy and expensive material, with the necessary valves, by-passes, etc.

Some of the above equipment would be adequate for twice the number of exhibition tanks at present contemplated, but, obviously, such equipment should be installed at the outset regardless of the future.

It might be stated here that the running feet of glass in the exhibition tanks is slightly in excess of one-half as much as in Detroit, but that the height of the tanks will exceed those in Detroit by 1 foot and the lengths by from 1 to 2 feet, the effort having been to produce as much of an effect of water (behind glass) as possible consistent with certain practical considerations.

In approximating the cost of this proposed building, the experience in Detroit has been useful. Without going into items, I believe we should allow in general for all equipment, based on the cost in the Detroit Aquarium, \$20,000, and for the building itself the sum of \$55,000, or \$75,000 in all. The Detroit Aquarium, with forty-four exhibition tanks, cost complete about \$115,000—six or seven years ago.

To-day in Boston it could not be duplicated at that price. If we had \$125,000 a building equal in capacity to that in Detroit could probably be built. A building of about half the capacity, but arranged for future enlargement, will obviously cost rather more than one-half of \$125,000, because many things must be provided for the smaller building which would be equally satisfactory in one of twice the size.

In conclusion, it should be said that the sketch plans have been inspected by an expert aquarist and pronounced practicable so far as they have been studied. The multitudinous engineering details which would develop in connection with the preparation of working drawings and specifications have not, of course, so far been more than briefly considered, but that a right place for everything

can be found when the time comes is the comforting assurance with which I close this report.

Yours very truly,
(Signed) WILLIAM D. AUSTIN.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Peter Connolly, to be paid wages for the time he was obliged to be idle on account of injuries received while at work for the city.

Francis N. Coghlan, for compensation for damage caused by an alleged defect in Hancock street.

Mrs. Ring, for compensation for damage to goods in cellar of home, 44 Haverhill street, by flooding.

John A. Gerrity, to be paid for injuries to a horse caused by a defect at 300 Centre street.

William Waters, to be paid his wages for the time he was obliged to be idle on account of injuries received at work for the city.

James Gallagher, to be paid wages for the time he was obliged to be idle on account of injuries he received while at work for the city.

John Holloran, to be paid wages for the time he was obliged to be idle on account of injuries received while at work for the city.

David Pyne, to be paid wages for the time he was obliged to be idle on account of injuries received while he was at work for the city.

James J. and Henry Pitman, for a hearing on their claim for injuries received.

Faneuil Hall.

John J. Gallagher, for use of Faneuil Hall November 3-6, inclusive, and October 8.

Executive Committee.

Mary H. Burgess, for a permit for children under fifteen years of age to appear at Roxbury Neighborhood House on the afternoon of October 12.

Rev. James H. O'Neil, for a permit for children under fifteen years of age to appear at Sacred Heart Parochial School Hall on October 20 and 21

USE OF EXPLOSIVES.

Notice was received from Isaac Cohen that building at 36 Dover street, Ward 9, had been used for keeping and sale of gasoline and such use is proposed to be continued for one year.

Placed on file.

MINORS' LICENSES.

The President submitted applications for minors' licenses of twenty-two newsboys and two vendors.

Licenses were granted on the usual conditions.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted by the Secretary of the Commonwealth was received.

Placed on file.

NOTICE OF HEARINGS.

Notice of hearing before the Railroad Commissioners, October 10, on petition of the Boston Elevated Railway Company for approval of plan showing proposed station, etc., at Green street, Jamaica Plain, was received.

Notice of hearing before the Railroad Commissioners, October 13, on petition of the West End Street Railway Company, for approval of 326th and 327th locations was received.

Notice of hearing before the Railroad Commissioners on October 18, on petition of Boston Elevated Railway Company, for approval of proposed changes in elevated structure in Main, Beacham and Alford streets and Sullivan square was received.

Notice of hearing before the Harbor and Land Commissioners, October 19, on petition of the City of Boston, for license to extend Eastern Avenue Wharf and rebuild pier was received.

Severally placed on file.

WEST END LOCATIONS.

Notice was received from the Board of Street Commissioners of the passage of the following orders:

(1) Ordered, That the time allowed the West End Street Railway Company in which to complete the work under its 292d location, in Hyde square, West Roxbury, granted under an order of the Board of Aldermen October 18, 1909, be and the same is hereby extended to October 18, 1911.

Passed. Approved by the Mayor October 1, 1910.

Placed on file.

(2) Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of

the City of Boston, said company shall have the right to construct, maintain and use an alteration of its existing locations as follows:

On Dartmouth street, from Huntington avenue to Columbus avenue, a relocation of the double tracks, as shown on plans, under the usual conditions.

Passed. Approved by the Mayor October 7, 1910.

Placed on file and ordered printed.

CONSTABLES' BONDS.

The City Treasurer, after duly approving of the same, submitted the constables' bonds of Huntington Smith and Francis J. Duffee.

Approved by the Council.

POLE LOCATIONS, ETC.

Copies of orders of the Street Commissioners granting locations for poles were received as follows: New England Telephone and Telegraph Company, to erect four poles on Nightingale street.

Same company, to erect two poles on P street, Ward 14.

Same company, to erect two poles on Sterling street, Ward 18.

Same company, to erect two poles on K street, Ward 14.

Same company, to attach wires to fourteen poles on Boardman street.

Same company, to erect three poles on Bellevue street, Ward 19.

Same company, to erect six poles on Vineland street, Ward 25.

Same company, extension of time to erect poles on Medway street.

Same company, to erect one pole on Park street, Ward 20.

Same company, to erect two poles on Decatur street, Ward 3.

Edison Electric Illuminating Company, to attach wires to one pole on Cambridge street, Ward 25.

Same company, to attach wires to two poles on Huntington avenue.

Same company, to attach wires to one pole on Blue Hill avenue.

Same company, to erect and to remove one pole on Hemenway street, Ward 10.

CONFIRMATION OF APPOINTMENTS.

Coun. COLLINS called up Nos. 1 and 2, under unfinished business, viz.:

1. Action on appointment submitted by the Mayor September 27 of Matthew J. Peters to be a constable of the City of Boston for the term ending April 30, 1911.

2. Action on appointments submitted by the Mayor September 27 of James Conroy and Ira W. Forsaith to be Weighers of Beef for the term ending April 30, 1911.

The question came on confirmation. Committee, Coun. Collins and Attridge. Whole number of ballots cast 8; yeas 8, nays 0, and the appointments were confirmed.

APPROPRIATION FOR CITY HOSPITAL.

On motion of Coun. COLLINS the Council, under unfinished business, took up the following:

3. Ordered, That the sum of sixty-seven thousand dollars (\$67,000) be appropriated, to be expended by the City Hospital Trustees for the purchase of an estate owned by the heirs of the late Robert Treat Paine and bounded by Massachusetts avenue and Northampton street, and for the acquisition of certain rights in a passageway between said estate and the City Hospital, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

The foregoing order was recommended for passage by the Mayor and was reported upon favorably by the Executive Committee. On September 19 the order was read once and passed, yeas 8, nays 0.

The order was given its second reading and final passage, yeas 8, nays 0.

EXCHANGE OF LAND.

On motion of Coun. COLLINS, under unfinished business, the Council took up the following:

4. Whereas, The Board of Park Commissioners of the City of Boston, by an instrument dated May 20, 1901, and recorded with Suffolk Deeds, Lib. 2759, page 240, did take for park purposes a certain parcel of land situate in the Roxbury district of Boston and known as Berners square; and

Whereas, Said Board of Park Commissioners, now having charge of said square, has notified the City Council that the northeasterly portion of said square, to wit, a parcel of land bounded southeasterly by Bellevue street one hundred thirty-six and 50-100 feet; southwesterly by the remaining portion of said square two hundred twenty feet; northwesterly by Plymouth street

one hundred thirty-six and 50-100 feet; north-easterly by Berners street two hundred twenty feet, and containing thirty thousand thirty square feet, more or less, is no longer required for public purposes; it is hereby

Ordered, That his Honor the Mayor be and he hereby is authorized, in the name and behalf of the city and in a manner satisfactory to the Law Department, to convey to the Winsor School the above-described parcel of land in exchange for a parcel of equal or greater area to be conveyed by said Winsor School to the city, to wit, all that parcel of land lying between Longwood avenue and the present southwesterly boundary of said square and bounded northwesterly by Plymouth street and southeasterly by Bellevue street, and upon such further terms as the Mayor shall consider proper.

The foregoing order was recommended for passage by the Mayor and was reported upon favorably by the Committee on Public Lands and by the Executive Committee. On September 19 the order was read once and passed, yeas 8, nays 0.

The order was given its second reading and final passage, yeas 8, nays 0.

STONY BROOK LAND TAKING.

On motion of Coun. COLLINS the Council took up, under unfinished business, the following:

5. Whereas, The Board of Aldermen of the City of Boston, by an order passed July 13, 1891, approved by the Mayor July 17, 1891, made a taking of a strip of land, fourteen (14) feet in width, from Emily E. Shepard and Henry A. Wood, between Birch street and Brandon street (now Belgrade avenue), West Roxbury, for the improvement of the Roslindale branch of Stony brook, said taking being shown on a plan marked "City of Boston, Stony Brook improvement, Roslindale Branches, Land Plan," dated June 8, 1891, signed by William Jackson, City Engineer, and deposited in his office, and said taking being recorded in the Suffolk Registry of Deeds July 27, 1891, Book 2009, page 197; and

Whereas, The Board of Street Commissioners of the City of Boston, by an order dated December 21, 1909, approved by the Mayor December 29, 1909, made a taking of two triangular parcels of land from said Emily E. Shepard and Henry A. Wood, adjoining the above-described strip, for the purpose of laying and maintaining sewerage works, said last named taking being shown on a plan marked "City of Boston, Plan No. 222, Sewerage Works, Belgrade Avenue, West Roxbury, October 25, 1909, William Jackson, City Engineer"; said last named taking and said plan being recorded in the Suffolk Registry of Deeds February 17, 1910, in Book 3429, page 335; and

Whereas, The Superintendent of Streets now having charge of said strip of land and said triangular parcels of land, has notified the City Council that said strip of land and said triangular parcels of land, as above described, are no longer required for public purposes;

Ordered, That his Honor the Mayor be and he is hereby authorized, in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50, of the Revised Laws of Massachusetts, to execute a deed conveying to said Emily E. Shepard and Henry A. Wood said fourteen-foot strip of land taken for the improvement of the Roslindale branch of Stony brook, and said two triangular parcels of land, all as shown on said plans as above, the consideration of said conveyance to be a release by said Emily E. Shepard and Henry A. Wood to the City of Boston of the right and easement to lay and maintain sewerage works in the following described land in West Roxbury belonging to them:

Beginning at a point on the northwesterly side of Birch street and distant southwesterly from Corinth street eighty and 46-100 (80.46) feet; thence running northwesterly by a line making an angle with said northwesterly line of Birch street eighty-eight (88) degrees, fifty-five (55) minutes, twenty-five (25) seconds, one hundred and three (103) feet; thence turning and running more northerly twenty-nine and 27-100 (29.27) feet to Belgrade avenue; thence running westerly on Belgrade avenue twelve (12) feet; thence running southerly thirty-two and 15-100 (32.15) feet; thence running southeasterly by a line parallel to and distant twelve (12) feet from the first line herein mentioned one hundred and five and 47-100 (105.47) feet to Birch street; thence running north-easterly on Birch street twelve (12) feet to the point of beginning; containing about sixteen hundred nineteen and 19-100 (1,619.19) feet; all as shown on a plan marked "City of Boston, Plan No. 228, Sewerage Works, Belgrade Avenue, West Roxbury, February 11, 1910, William Jackson, City Engineer"; reserving to said grantors, Emily E. Shepard and Henry A. Wood, their heirs and assigns, the right to use said land for any purposes except such as may injure or obstruct said works, and reserving to said grantors, their heirs and assigns, the right to place and maintain a structure or structures on said land, provided said City of Boston shall be afforded suitable access to said sewerage works therein whenever needed to repair, maintain or construct the same; said easement to be taken by the Board of Street Commissioners as above; and said Emily E. Shepard and Henry A. Wood shall, as further consideration for said deed from said City of Boston, release all damages on account of all said takings.

The foregoing order was recommended for passage by the Mayor and was reported upon favorably by the Committee on Public Lands and by the Executive Committee. On September 19 the order was read once and passed, yeas 8, nays 0.

The order was given its second reading and final passage, yeas 8, nays 0.

SALE OF LAND, MASSACHUSETTS AVENUE.

On motion of Coun. COLLINS the Council took up, under unfinished business, the following:

6. Ordered, That his Honor the Mayor be and he hereby is authorized, in the name and behalf of the city, in a manner satisfactory to the Law Department, to sell a parcel of land belonging to the City of Boston, bounded and described as follows: Northeast by Massachusetts avenue two and $\frac{2}{100}$ feet; southeast by Shirley street thirteen and $\frac{28}{100}$ feet; west by land supposed to belong to Lucius A. Brown six and $\frac{1}{100}$ feet; and northwest by the same eight and $\frac{18}{100}$ feet; containing twenty-nine square feet, more or less, all said measurements being approximate; said land to be sold at a valuation of not less than 50 per cent in excess of assessed valuation of adjoining land, the proceeds of said sale to be applied to the sinking fund for the liquidation of the city debt.

The foregoing order was reported upon favorably by the Committee on Public Lands and by the Executive Committee. On September 19 the order was read once and passed, yeas 8, nays 0.

The order was given its second reading and final passage, yeas 8, nays 0.

SIDEWALK, ALLSTON STREET.

Coun. BRAND offered an order—That the Superintendent of Streets construct granite edge-stone and granolithic sidewalks on the northerly side of Allston street, between Kenwood and Lyndhurst streets, Dorchester, Ward 20, under the provisions of chapter 437 of the Acts of 1893.

Passed.

FREE FERRIES, COLUMBUS DAY.

Coun. ATTRIDGE offered an order—That the City Auditor be hereby authorized to allow for payment to the Superintendent of Streets, on account of the Ferry Division, the sum of one dollar, and the said superintendent is hereby authorized to accept the same in lieu of tolls for the ferries on October 12, 1910, said sum to be charged to the appropriation for Mayor, public celebrations.

Referred to Executive Committee.

FLAGS ON COLUMBUS DAY.

Coun. BALLANTYNE offered an order—That the City Messenger be authorized to cause the flags to be displayed on the public grounds on Columbus Day, October 12, 1910, the expense thus incurred to be charged to the appropriation for City Council, incidental expenses.

Passed.

BILL OF REMINGTON TYPEWRITER COMPANY.

Coun. BALLANTYNE offered an order—That the bill of the Remington Typewriter Company, amounting to \$51 for supplying a typewriting machine to the Board of Aldermen on May 29, 1909, be approved and the expense of same charged to the appropriation for City Council, incidental expenses.

Referred to the Executive Committee. (Passed later in the session. See Executive Committee reports.)

CONNECTION OF SHAWMUT BRANCH AT MATTAPAN.

Coun. BRAND offered an order—That the New York, New Haven & Hartford Railroad Company be requested, through his Honor the Mayor, to connect the Shawmut branch now terminating at Mattapan with the Midland Division of said road at Mattapan.

Passed.

PAYMENT FOR FOWLS.

Coun. BUCKLEY, for the Committee on Claims, submitted a report on the petition of Charles E. Dickerman (referred September 19), recommending the passage of the following order:

Ordered, That there be allowed and paid to Charles E. Dickerman, 28 Park street, Dorchester, the sum of five and 75-100 dollars as compensation for the loss of twenty-three fowls killed by dogs August 21 and 25, 1910, said sum to be paid from the income received from dog licenses.

Report accepted; order passed.

RECESS.

On motion of Coun. COLLINS, the Council voted at 3.24 p. m. to take a recess subject to the call of the President.

The members reassembled in the Council Chamber and were called to order by President BALLANTYNE at 4.09 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on the petitions (referred to-day) of Mary H. Burgess for a permit for children under fifteen years of age to appear at Roxbury Neighborhood House on the afternoon of October 12, and of Rev. James H. O'Neil for a permit for children under fifteen years of age to appear at Sacred Heart Parochial School Hall on October 20 and 21—that leave be granted.

Reports accepted; permits granted on usual conditions.

(2) Report on the order (referred to-day) to approve bill of the Remington Typewriter Company of \$51—that the same ought to pass.

Report accepted; said order passed.

USE OF FANEUIL HALL.

In the absence of the chairman of the Committee on Faneuil Hall, President BALLANTYNE submitted the following:

Report on the petition of John J. Gallagher for the use of Faneuil Hall on Thursday, November 3, Friday, November 4, Saturday, November 5, Sunday, November 6, and Saturday, October 8, for political purposes—that leave be granted.

Report accepted and leave granted.

Coun. McDONALD—I think this is an important matter, and I move a reconsideration of our action upon it and recommend to the committee for investigation.

The Council voted to reconsider granting leave on the petition, and Coun. McDONALD moved its recommitment to the Committee on Faneuil Hall.

The petition was ordered recommitment to the Committee on Faneuil Hall.

President BALLANTYNE—The Chair would say at this time that Mr. Austin, the architect, who has been preparing plans for the Zoo and the Aquarium, is in the Chamber, if the members of the Council desire to have him give such information as may be wished at this time. Is it the desire of the members that he appear?

Coun. KENNY—I would suggest that he do it after we adjourn. Let us first adjourn.

THE NEXT MEETING.

Coun. BUCKLEY—Mr. President, I move that when the Council adjourns it be to meet on Monday, October 24, at three o'clock p. m.

Coun. Buckley's motion was carried.

GENERAL RECONSIDERATION.

On motion of Coun. BRAND the Council refused a general reconsideration of all action taken to-day.

Adjourned, on motion of Coun. BRAND, at 4.27 p. m., to meet on Monday, October 24, at 3 p. m.

WOMAN WARD SUPERINTENDENT BEGINS CLEANING.

Miss Anna E. Murphy, the newly appointed ward superintendent of the Twenty-ninth ward, of Chicago, Ill., one of the dirtiest wards in the city, completed her first day's work one day last week. She says that in time the ward will be the pride of Chicago in point of cleanliness. "We shall go through the alleys and backyards," she said, in telling of her plans, "and then we shall notify the residents, who are practically all foreigners, by means of notice printed in their own language, that uncleanness means sickness and death. I think they will then be willing enough to help keep their places clean." The Twenty-ninth ward extends from Thirty-ninth street to Fifty-fifth street, and from Halsted street to the city limits. The population of the ward is estimated at 40,000 to 50,000.—*Municipal Journal and Engineer.*

MONTHLY CONFERENCE.

Boston, October 3, 1910.

Monthly conference between the Mayor, City Council and heads of city departments, in the Mayor's hearing chamber, City Hall, at three o'clock p. m.

Mayor Fitzgerald presided, and in calling the meeting to order said:

The gentlemen will please come to order. The first business before the meeting is the reading and approval of the minutes of last meeting. The Clerk will read the minutes of last meeting.

The minutes of last meeting were read and approved.

The MAYOR—The next business is the reading of communications.

(There were no communications.)

The MAYOR—Reports of committees. I suppose the Mayor's office is the committee on the question of the parade, and the general expression of opinion from the department heads was against the matter of parade, and it has been given up. Are there any other reports of committees?

Superintendent ROURKE (of the Street Department)—The committee appointed on the question of uniform scale of wages, of which I am chairman, had two meetings, and I simply report progress. It is rather a more complicated proposition than appeared on the face of it.

The MAYOR—The gentlemen have heard the report of the superintendent on the question of the adjudication of the wages of the different employees employed by contractors, and he desires to report progress.

The report was accepted.

The MAYOR—There are two propositions which I would like to submit for consideration to-day. The first is the proposed retirement and pension system for city employees, chapter 619 of the Acts of 1910, its effect on city finances and city work and the proposed tour of inspection of city departments to take place Friday, November 11, at 2 p. m., in connection with the Mayor's conference during the civic advancement campaign. I am informed that the mayors of all the metropolitan cities are expected to be present, and as many New England mayors as can find it convenient are expected to be present, and at that time it is proposed to have an inspection of the city departments, and we want to have the work of the departments shown to the best possible advantage. With that end in view it is expected that the heads of the departments will so arrange matters between now and November 11 that the efficiency of the city departments can be seen to the best advantage. The retirement and pension system for city employees is a most important measure. For years the people who have understood the conditions affecting our city government have felt that we could not get the plant of the city in proper condition until suitable provision was made for the retirement of old and incapacitated city employees through the passage of a proper pension bill. Last year's Legislature, by chapter 619, passed what is considered a proper measure, and it seems to me now that the heads of the departments should make a study of the pension system with a view to the effect it will have upon city finances and city work, and report tentatively at least at the next meeting. The City Council has to vote upon the acceptance of the act, and then the people are to approve at the municipal election which will be held in January. All the present employees may become members of the retirement association, and future employees, excepting those who are fifty-five years of age upon entering the service, must become members. Members may retire at sixty years of age, must retire at seventy.

The Board of Retirement consists of the City Treasurer, one member of the retirement association, elected by the association, and a third person chosen by these two. The Board of Retirement determines the percentage of their wages to be paid by the various classes of employees. Each member is to deposit not less than one nor more than 5 per cent of his annual wages, except employees who receive over \$30 a week. They are considered to receive that salary and no more. The city deposits an amount equal to the deposit of the beneficiary. These accumulations are converted into an annuity upon the retirement voluntarily or involuntarily of the contributor. In the case of death or retirement from the city's service all payments are refunded with interest. The questions that may be considered are: First, the cost of this system in the various departments. Second, its effect on the service in removing old men who by their example tend to retard the efficiency of more active employees. Third, improvement in the service of the department by the substitution of younger and stronger men for the veterans who are retiring. Fourth, gain or loss to the city as a whole measured first in terms of outlay, and second in terms of efficiency. These matters of course cannot be discussed very intelligently at a meeting of this kind, because I presume that the men who are assembled here to-day have not given sufficient thought so that they could intelligently and effectively present the side of the case as indicated from the point of view that they have as the heads of their own particular departments. But I hope that the act will be studied intelligently and carefully, that an investigation of the conditions in the departments will be made by each head of the department, so that when we meet next month we can get an approximate idea as to the effect upon the city finances and the city work of the passage of this act. Is there any gentleman

present who cares to say anything about this matter at this time? We have copies of the act sent to each head of department, and also these subdivisions which I have read here, so that you will understand just what we want.

Mr. McSWEENEY—Mr. Chairman, I would like to make a suggestion that a member of the city government, I think, a head of a department at least under your jurisdiction—and I saw him attending one of these meetings—is perhaps the expert of experts in this matter in this state. I refer to Professor Baldwin. I think he is connected with the Statistics Department. He was the executive officer and secretary of the commission which as a state pension commission worked out this report. With your permission, Mr. Mayor, I would like to suggest that if Professor Baldwin would consent to serve with your own department heads, or with the financial department particularly, that it might be possible in the interim between now and the next month to get up an approximation of the financial cost of this retirement scheme for the city, and that it might be possible for a committee headed by such a man as Professor Baldwin to put to the various department heads the things that they could investigate, and an approximation of the amount it would cost them to put this retirement system in vogue, and then we would have it at the next meeting, or you would have it before you, sir, so that you would have accurate knowledge as to the financial problems involved in this proposition.

The MAYOR—The gentlemen have heard the motion of Mr. McSweeney. Is Professor Baldwin here?

Mr. McSWEENEY—No, I don't see him.

The MAYOR—Professor Baldwin is really the father of the act. He was, I think, was he not, a member of the old age pension commission appointed by the Governor?

Mr. McSWEENEY—No, he was secretary.

The MAYOR—He was secretary of a body appointed by the Governor to report on this.

Mr. McSWEENEY—Yes.

The MAYOR—Professor Baldwin was secretary appointed by the commission which was selected by the Governor to investigate the question of old age pensions. He has given a great deal of time and study to this proposition. I don't know that he would be willing to undertake this work, but I can see no harm in passing a vote asking that Mr. Baldwin be requested to get in touch with the heads of the departments with a view to finding out from them, with the information which he is able to give, just what the cost would be to each department.

Mr. McSWEENEY—Mr. Mayor, I would like to amplify. I think that Professor Baldwin would think that as a patriotic duty he ought to do it, and my thought was that the heads of the various financial departments ought to be on a committee with him to do this, or be selected by them. It would be a patriotic duty which I think they would be very glad to perform.

The MAYOR—What is your suggestion as to how many should constitute this committee, Mr. McSweeney?

Mr. McSWEENEY—A committee of three, the City Treasurer, the City Auditor and Professor Baldwin.

The MAYOR—It is moved and seconded that a committee of three, consisting of Professor Baldwin, chairman of the Statistics Department, who is likewise an expert on the old age pension system, and Mr. Slattery, the City Treasurer, and Mr. Mitchell, the City Auditor, be appointed a committee by this meeting to consider the effect of this measure on the city finances and city work, and consult with the different heads of departments, and report, if possible, to the next meeting.

Mr. SLATTERY—Mr. Chairman, isn't it a fact that every department is already reporting to that commission data on this matter, and so forth, so that Professor Baldwin would have that in his possession already?

The MAYOR—If he has of course it would make it much easier for the work to be reported. (The above motion carried unanimously.)

The MAYOR—Is there any other new business before the meeting? I wish to emphasize, if there is no other business before the meeting, the proposed tour of inspection of the city departments to take place Friday, November 11, at 2 p. m., being organized under the auspices of the 1915 movement, and I think it is going to be productive of good. It was only the other day that a book was published by an eminent author criticising Boston as the most expensive city in the world because of petty graft and useless employees. It is unfortunate, of course, that that kind of criticism can get out into the public prints at the present time, because it is not true. I think that every man here realizes that his department, though it is an expensive one to the city, is run on reasonable principles and with due regard to efficiency rather than to economy; that the City of Boston does a larger amount of humanitarian work than any other city in the country; that its educational system costs more, and that we have the finest view point of life and better regard for the decencies of life than most cities, and we are spending money with that point of view in mind all the time. I have traveled a great deal since I have been Mayor of Boston, both in my first administration and in the past six months, and every place I go I have never talked with a man who did not express himself as saying that Boston was the finest city in America, and that its equipment was of the best;

that we could learn little if anything. We got that story in New York, Montreal, Detroit, practically everywhere. And visitors who come from different parts of the world admit that Boston is the finest city. Of course there are a great many things that we can improve, and it is one of the objects of this meeting to find out where improvement can be made. I sincerely trust that the heads of departments will study their own departments, and also have in mind suggestions which can be made to other city departments, which come within the proper point of view, that can be properly brought before meetings of this kind, so that we will not only have the reputation of being the best city in America, but keep that position, as other cities are improving all the time; not be content with that until we reach the point where we can be looked upon as the best governed city in the world, a not impossible realization. I think things are getting better and better all the time, and I sincerely trust that all the heads of departments will work intelligently and effectively from now until this meeting occurs on November 11, so that when this tour of inspection is made by the mayors of other cities they will see for themselves the reason why Boston spends more money per capita perhaps than any other city in America. I was in Montreal three weeks ago, the Superintendent of Streets and myself, and we went by a great big hospital building which was pointed out as the pride of Montreal, but we found it was supported by public beneficence. Our hospital costs us \$600,000 a year. We found they were only removing 300 tons of garbage a day there, while Boston was taking care of 1,100 tons of garbage a day. While the population of Montreal is presumably five-sixths of ours, we were disposing of eleven-thirds as much as Montreal was, and the collections in the business districts were only made twice a week, while our collections are made every day. These things, apparent to us when we visit other cities, are not apparent to the public, and, therefore, when the mayors of other cities come here we want our departments to speak for themselves. And as I said, I trust that it is due to the citizens of Boston that we should do this, because when figures are down in black and white that Boston spends this immense amount of money, and it looks extraordinary to the mayor of Montreal and the city council, we want to be able to show what we do and just how much more we do than other cities even attempt to do. This meeting, as I said a moment ago, will occur on Friday, November 11, at 2 p. m. If there is no further business before the meeting the meeting stands adjourned.

Adjourned at 3.50 p. m.

FOREIGN TRADE OPPORTUNITIES.

American export trade will be much helped as soon as the facilities of the Bureau of Manufactures of the United States Department of Commerce and Labor for giving information regarding foreign trade opportunities are better appreciated. In addition to distributing circulars regarding opportunities for making foreign contracts, the Bureau frequently notifies directly parties known by it to have facilities and equipment to perform contracts of which the American agents abroad receive notice. The Bureau also often reports to our manufacturers complaints concerning the methods of filling orders, packing shipments and the like, which otherwise would never reach them. Numerous cases of dissatisfaction with the operation of American machines in foreign countries have in this way been privately brought to the attention of the makers, and in some cases the latter have sent experts to investigate the complaints, who have established the fact that ignorance or prejudice on the part of the foreign operators was responsible for the alleged defects. The Bureau receives a large number of specifications for the use of American bidders on materials or contracts. The practice has been to send these specifications to bidders who request them, in the order in which the requests are received. There is some talk of endeavoring to secure more sets for such distribution, but the experience of the *Engineering Record* is that such a course is not warranted by the results. While it is sometimes a great advantage to a prospective bidder to have a specification or plan sent to him, most practical needs are met by having these papers on file in an easily reached city. It will be ex-

tremely difficult for our foreign agents to secure numerous sets of plans and specifications, particularly of important contracts, and just as soon as American bidders on such work recognize that they can consult the documents at Washington they will make arrangements for inspecting them there. Finally, it may be pointed out that the Bureau's collection of several hundred thousand names of business houses in foreign countries handling imported merchandise and haying facilities for engaging in foreign trade will be published early next year, and under the terms of the last civil appropriation act will be sold to all desirous of obtaining a copy at not less than \$5 per volume. This list is now used to the full extent which its present form permits, and its publication has been repeatedly urged.—*Engineering Record*.

PROPOSED HARBOR IMPROVEMENT.

San Francisco, Cal.—The issue of \$1,000,000 bonds, for acquiring sixty-three blocks of land between Islais creek and the site of India basin, is being discussed. The site of the proposed Islais creek tidal basin is surrounded by marsh lands, which could be advantageously filled in connection with the dredging of the basin, and the present shore line is several blocks west of the land which it is proposed that the state shall condemn. For a distance of between one and two miles there is no elevation greater than 250 feet, and the surrounding blocks are generally level and well adapted for manufacturing and lumber yard sites.—*Municipal Journal and Engineer*.

WILL MARK STREETS WITH BRASS LETTERS.

Lexington, Ky.—The system of marking the streets with brass letters will be tried in Lexington at an early date. Mayor Skain has ordered a number of the brass letters which will be about an inch and a half high and will be imbedded in the sidewalk at the street corners. The system will be used only on limestone to begin with, but if they prove satisfactory they probably will be used on all the streets.—*Municipal Journal and Engineer*.

POISONOUS SPRAY.

One of the sights of Rochester is the Genesee Falls. A number of cases of typhoid occurred for which no explanation could be found other than that the patient had visited the falls; pieces of cloth were held in the spray and analyzed and were found to contain the bacteria of typhoid.

CITY OF BOSTON.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for constructing artificial stone sidewalks in Glenway street (westerly side), near Harvard street, Dorchester, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, October 21, 1910, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Artificial Stone Sidewalks in Glenway Street."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 13, 1910. (Oct. 15.)

READVERTISEMENT.

CITY OF BOSTON.

PROPOSALS FOR PAINTING METAL WORK, DOVER STREET BRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for painting the metal work of the four fixed spans of Dover Street Bridge over Fort Point channel, and giving bond therefor of a surety company, approved by the superintendent, in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Painting Dover Street Bridge," and left at the said office of the Superintendent of Streets before 12 m. on Friday, October 21, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages and the right to reject any or all proposals.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 14, 1910. (Oct. 15.)

CITY OF BOSTON.

PROPOSALS FOR COAL.

Contractors are invited to furnish proposals for a supply of whatever hard white ash, broken, egg and stove coal, and also whatever bituminous coal for steam purposes, that may be required for the public buildings, and for the several departments of the City of Boston not otherwise provided for, from November 1, 1910, to February 1, 1911. A certified check for \$1,000, payable to and to be the property of the City of Boston if the proposal is not carried out must be filed with the proposal. A satisfactory bond in the sum stated in the contract will also be required. The bidders must use the form of proposal to be obtained at the office of the Supply Department, 826 Tremont Building, fill out and sign the same, and leave it at the office of the Superintendent of Supplies before 12 o'clock m. of Monday, October 17, at which time and place said proposals will be publicly opened and read. The proposals and check should be inclosed in an envelope indorsed "Proposals for Coal." The undersigned reserves the right to reject any and all proposals and give preference to bidders paying the trade unions' rate of wages.

J. EDWARD MULLEN,
Superintendent of Supplies.
(Oct. 15.)

CITY OF BOSTON.

PROPOSALS FOR HEATING.

The trustees of the Consumptives' Hospital of Boston invite bids for "Heating of Domestic Administration Building and Corridor at the Consumptives' Hospital, River Street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the engineers, Hollis French & Allen Hubbard, Room 534, 85 Beach street, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m. Wednesday, October 19, 1910, with a certified check for \$250, payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trade unions' rate of wages. The proposals should be inclosed in an envelope, sealed and marked "Bid for Heating of Domestic Administration Building and Corridor at the Consumptives' Hospital."

EDWARD F. MCWENNEY,
Chairman Board of Trustees.
(Oct. 15.)

CITY OF BOSTON.

STREET DEPARTMENT.

Notice is hereby given that no permits to make excavations in the city streets for building sewers or laying pipes, wires, etc., will be issued from the office of the Superintendent of Streets after

NOVEMBER 15, 1910,

except under an emergency or in a case of extreme necessity. All persons or parties having any rights in the city streets are requested to forthwith apply for permits to make all necessary repairs to sewer or water connections, or any other pipes or structures needing attention, as all such applications will be refused after the above date.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 13, 1910. (Oct. 15.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR MILK.

The trustees will receive sealed proposals for a supply of milk for the Hospital Department between November 1, 1910, and May 1, 1911, provided that after February 1, 1911, sufficient appropriation is made therefor and the trustees so order, otherwise to terminate February 1, 1911. Proposals for the total supply or for part of the supply, but not less than 400 quarts a day, will be considered. The milk supply is to include delivery at the hospital proper, 818 Harrison avenue, the South Department, 745 Massachusetts avenue, the Haymarket Square Relief Station, the East Boston Relief Station, 14 Porter street, East Boston, and the Convalescent Home, 2150 Dorchester avenue, Dorchester. Each proposal must be accompanied by a properly certified check for one hundred dollars (\$100), and a bond will be required of an approved surety company not exceeding two thousand dollars (\$2,000), as fixed by the trustees, for the faithful performance of the contract. The quantity of milk desired for all departments will vary from 1,148 to 1,488 quarts per day, more or less, according to the requirements of the season and the number of patients. Each receptacle must be clean and particularly free from dents, and have the name of the contractor, the dairy from which the milk comes and "The Boston City Hospital" stamped or otherwise indelibly marked thereon, and be sealed when it leaves the dairy. The milk is to be transported in coolers with a capacity of from twenty to forty quarts. These coolers are to be used exclusively for the Boston City Hospital. The contractor will be required to furnish to the trustees a list of the dairies from which the milk supply for the hospital will be taken. The milk from each dairy must be properly identified. In each case the product and the premises will be subject to the approval of an inspector appointed by the trustees. The employees must also be subject to an examination by this inspector. The contract calls for pure dairy milk, neither skimmed, topped nor watered, and which, when subjected to analysis, shall be shown to have none of its natural constituents removed and nothing added thereto, or milk prepared according to the process of the Boston White Cross Milk Company, or such other process as may be satisfactory to the trustees and staff of the hospital. Said milk to be of the quality required by the laws of the Commonwealth. The bacterial count must not exceed 100,000 bacteria to the cubic centimeter. The animals in each dairy must be of record as having passed successfully the test with tuberculin at dates satisfactory to the trustees. If the dairies are situated outside of the Commonwealth, the right is reserved to have them inspected by an officer of the State Board of Health, as well as by the special inspector of the trustees. Milk must be delivered at the hospital before 12 o'clock noon on each day, and must not be more than twenty-four hours old. The bid of a proposer who does not receive an invoice of milk on Sunday will not be considered. Price to be per quart. The contractor is to be responsible for the cleanliness of the coolers. Proposals should be addressed "The Boston City Hospital, Proposals for Milk Supply," and left at the hospital not later than Wednesday, October 26, 1910, at 12 o'clock noon, at which time and place they will be publicly opened. A duplicate copy of the proposal must be filed with the City Auditor before 12 o'clock noon on the date given above for receiving proposals. The right is reserved to reject any and all proposals.

By order of the Trustees,

(Oct. 15.) JOHN H. MCCOLLUM,
Superintendent.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building manual training room, Warren School, Pearl and Summer streets, Charlestown, Boston, Mass., and giving bond of a surety company therefor in the sum of \$700. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Monday, October 24, 1910, at said office, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

(Oct. 15.) CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

CITY OF BOSTON.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for constructing artificial stone sidewalks in Ruthven street and Elm Hill avenue, at Mount Pleasant Home, Roxbury, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, October 21, 1910, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trade unions' rate of wages, and the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Artificial Stone Sidewalks in Ruthven Street and Elm Hill Avenue."

PROPOSALS FOR ONE-POUND BLOCKS FOR ARITHMETIC WORK.

The Boston School Committee invites proposals for furnishing and delivering to the various school buildings in accordance with orders 100,000 blocks, about one-third ruled, and the balance plain, uniform size, 8 1/2 by 11 inches, each block to weigh not less than one pound. Only proposals obtained at the office of the Auditor of the School Committee, 168 Tremont street, Room 53, signed by the bidder and left before 2.30 p. m. of Thursday, October 20, at said office will be received. The bid must be made in duplicate, one to be sent to the Auditor of the School Committee as above, and the other to be sent to the City Auditor, City Hall. The right to reject any or all bids is reserved.

WILLIAM J. PORTER,
Auditor.
(Oct. 15.)

BOSTON CITY HOSPITAL.

ITS SCOPE, NUMBER OF PATIENTS TREATED DURING 1909-10, COST OF MAINTENANCE, ETC.—RULES FOR ADMISSION, AND RULES GOVERNING VISITORS.—BRIEF DESCRIPTION OF THE NURSES' SCHOOL.

The Boston City Hospital has now been in operation forty-six years, during which time the number of house patients treated in the different departments has been 308,744 and the number of out-patients 1,048,456.

EXPENDITURES.

The entire expenditures for all departments of the hospital during the fiscal year, 1909-10, were \$601,985.79, \$100,018.47 being spent for improvement of the heating system at the main hospital, and \$501,967.32 for maintenance. Of the amount spent for maintenance, \$314,554.41 was expended upon the hospital proper; \$20,704.31 on account of the nine out-patient departments; \$109,561 on account of the South Department; \$31,509.75 on account of the Haymarket Square Relief Station; \$15,315.71 on account of the East Boston Relief Station; \$10,322.14 for the Convalescent Home. Of the total amount spent on the Pathological Laboratory, \$11,284.08, \$7,108.97 is included in the hospital proper expenditures, \$112.84 in the Out-Patient Department, \$3,949.43 in the South Department and \$112.84 in the Haymarket Square Relief Station expenditures. Of the total amount spent on the X-Ray Laboratory and Photographic Department, \$4,438.40, \$2,663.04 is charged to the hospital proper and \$1,775.36 to the Out-Patient Department. The total amount spent in determining the settlement of non-paying patients, \$757.24, is divided evenly between the hospital proper and the South Department.

The expenditures upon the hospital proper and the South Department, together, were for the care of 12,502 patients in the wards for 247,792 days, or 35,399 weeks' board, which makes an average weekly cost of \$12.11, or a daily cost of \$1.73 for patients of all classes. The net cost per patient per week to the city was \$8.39. The cost of uncooked food supplies for all persons, including patients, and the entire household at the hospital proper and South Department, was \$126,659.46. The average number of patients was 679; of officers and employees, including house and nursing staff, 534, or a total daily average of 1,213 persons. The number of weeks' board for all persons was 63,274, and the weekly cost per person for uncooked food supplies was \$2, or 28½ cents per day.

The annual cost of the main hospital and that of the South Department are kept separately, in order to know the comparative costs and for the proper financing of the heaviest expenditures of the Hospital Department. But practically, both divisions are for patients suffering with acute illnesses, and separated for purely hygienic rather than for financial reasons. Considered from this point of view, as a part of one whole, the cost is as follows:

The average weekly expenditure per patient in the hospital proper was \$15.54; the South Department was \$7.37; or an average of \$12.11 for each patient in the two departments. After deducting the income received on account of paying patients, the cost was reduced in the main hospital to \$12.18, at the South Depart-

ment to \$3.20; or an average weekly per capita for each patient of \$8.39, which accurately represents what each patient cost the city. No account is made in this computation of either the Out-Patient Departments, Convalescent Home or the Relief Stations.

The total expenditures in the Hospital Department have been \$601,985.79, but the net cost to the city for maintaining the hospital proper was only \$374,118.25.

The maximum number of patients in the hospital proper on any one day was 552, as against 513 in the previous year. The minimum number was 285, in comparison with 348 for the previous year. The daily average during the year was 393, and the average length of stay was 15½ days.

There have been treated in the various Out-Patient Departments 39,482 patients, at a cost of \$20,704.31.

During the year 9,379 patients were treated in the wards, 39,482 as out-patients, 357 at the Convalescent Home, 3,123 at the South Department; at the Haymarket Square Relief Station 746 were treated in the wards and 35,025 as out-patients, and at the East Boston Relief Station 224 were treated in the wards and 8,226 as out-patients,—a total of 96,562 who have received the benefits of the hospital in all departments.

During the year 12,205 persons applied for admission. Of this number 8,950 were admitted and 3,255 were rejected, the latter being 1,100 less than last year. The number rejected was 27 per cent of all persons applying. Of the number applying 814 either changed their minds or were admitted later; of these, 129 were received within three days after application and 12 admitted still later. There were 42 applicants rejected for want of vacant beds, but of these 9 were admitted later. There were 1,071 of these applicants who could be treated more properly in the various out-patient services without the additional cost of receiving them in the wards. Admission was denied to 635 for lack of information that they were suitable cases, but 242 were admitted later; and 192 were rejected as apparently incurable or unsuitable for treatment here.

HAYMARKET SQUARE RELIEF STATION.

This relief station has been in commission eight years. The number of patients treated during its first year was 20,150, and during the present year 35,771, an increase of 78 per cent, amply proving the judiciousness of providing public relief of this kind in that section of the city. It has accomplished a great deal of good work during the year.

EAST BOSTON RELIEF STATION.

The East Boston Relief Station has been in operation over fifteen months. For the year ending January 31, 1910, 8,450 ward and out-patients were treated. This station has accomplished much in the relief of human suffering, and many lives have been saved by it.

CONVALESCENT HOME.

The number of patients treated during the year was 357, who received 7,078 days'

treatment at an average weekly cost of \$9.80. Although there are thirty-six beds for patients and accommodations for an increase of this number, all have never been occupied at any one time during the year, the daily average number of patients being 19.4, and it is with difficulty that patients are persuaded to go to the home. The result is that on account of the small number of patients treated, while the expenses have practically been the same as those of the previous year, the average weekly cost has been considerably increased.

RULES FOR ADMISSION TO THE BOSTON CITY HOSPITAL, GOVERNMENT AND DISCHARGE OF PATIENTS; RULES FOR VISITORS.

Admission of Patients.

Applications for admission of patients may be made at the hospital on each day of the week, Sunday excepted, between 9 o'clock a. m. and 6 o'clock p. m.

Whenever able a patient shall apply in person for admission; when not able to apply in person a patient may be admitted on application made in his behalf, or upon visit at his residence by the admitting physician.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Patients may be admitted to the privileges of the hospital at such rates of board as the trustees may from time to time by vote determine, payment for such board being secured by the friends of the patients or by the authorities of the cities or towns to which the patients belong.

Whenever, in the opinion of the trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments, or articles not usually furnished at the hospital, are provided, such payment shall be made therefor as the trustees shall deem reasonable.

No person having acute venereal disease or alcoholism shall be admitted, except as a paying patient.

No person shall be admitted to the hospital whose case is judged to be incurable, unless there be urgent symptoms which are deemed capable of being relieved.

Government of Patients.

Patients shall implicitly observe all the rules of the hospital.

Patients shall be in their proper places in the wards during the visits of the physicians and surgeons, and always before 7.30 o'clock in the evening, unless specially excused by the superintendent.

Such free patients as are able shall assist in nursing and perform such other services as may be reasonably required of them.

No patient shall leave the hospital grounds without a pass from the superintendent, nor leave his ward without the consent of the nurse in charge.

No patient shall purchase, or cause to be purchased for him, any article of food whatsoever, or any other article, without the consent of the superintendent.

Profane and obscene language, loud talking and incivility are prohibited.

Patients may be visited by clergymen of their own selection, and any wish for the performance of a particular religious rite shall be granted when practicable.

Complaints, for whatever cause, may be made to the superintendent, and whenever requested shall be by him reported to the trustees.

Discharge of Patients.

Patients shall be discharged by the superintendent.

Patients discharged on the recommendation of the visiting physicians or surgeons shall be provided with a certificate stating their condition at the time of discharge, whether cured, relieved or not relieved, which certificate shall be signed by the superintendent.

Whenever a patient is removed from the hospital without the approval of the superintendent a written statement to that effect shall be required from any person assuming the responsibility of the removal.

Visitors.

No person shall visit any part of the premises except on business, or at such times as may be fixed for the reception of visitors, without the permission of the superintendent or of some one of the trustees.

Daily, from two to three o'clock in the afternoon, friends may be permitted to visit patients, though no patient shall receive more than two visitors at that hour; and from 6 to 6.30 o'clock on each week day friends may be permitted to visit patients, though no patient shall receive more than one visitor at that hour. In all cases, however, the trustees and superintendent may exercise discretionary powers as to excluding or admitting visitors.

When visitors are admitted outside of the regular visiting hours they shall not be permitted to remain more than half an hour, except a special permission to remain for further time is granted.

All visitors shall leave the hospital when the bell rings at the expiration of the visiting hour.

No visitor shall take any meal in the hospital, or pass the night therein, without permission of the superintendent or one of the trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to a patient shall be left at the entrance office.

RULES FOR GOVERNMENT OF THE SOUTH DEPARTMENT.

The department of the Boston City Hospital located on the westerly side of Massachusetts avenue is designated as the South Department of the Boston City Hospital. It receives patients who require treatment for diphtheria and scarlet fever, and for other infectious diseases as may be determined from time to time by the trustees.

RULES FOR GOVERNMENT OF THE HAYMARKET SQUARE RELIEF STATION.

The Boston City Hospital Relief Station is established not as a hospital but as a department of the Boston City Hospital for temporary relief, and the rules and methods prevailing now in the hospital, so far as applicable and not inconsistent with special rules, apply to the relief station.

The station affords temporary relief in all classes of accident and disease. It is open at all hours for patients requiring treatment or attention. Patients requiring ward treatment, whether received at the station or taken up in ambulances, shall, so far as consistent with their welfare, be forthwith transferred or carried to the hospital for extended treatment, but ward accommodations shall be afforded patients whose condition is such that they cannot properly be transferred. Patients may, however, if it is deemed

desirable, be transferred by the ambulances to other hospitals or to their homes. First treatment may be afforded at the station, although the applicants are not such as require ward treatment.

Ambulance Service.

The ambulance service of the station is under the direct control of the resident surgeon, and co-operates with that of the hospital, with which it forms one general system. Ambulances shall, in response to calls, be dispatched from the station or the hospital as the exigency may require.

Ambulances shall in general be sent from the station or the hospital at least upon a general alarm to all fires occurring in the city proper and in such further districts as may be determined upon.

An ambulance is held during the hours of the day in complete readiness to make immediate response to calls, and kept in condition to make prompt response to calls at any time of the night.

A house officer accompanies the ambulance, directs its course and has direction of the care and treatment of the patient until received at his destination.

Patients.

Alcoholic and insane patients shall not be received, unless there is surgical or medical complication making hospital treatment absolutely necessary.

No patient, after being admitted to the wards, shall leave the station until his discharge without a pass from the proper officer, nor shall he visit other parts of the station without permission.

The rules for the management of the East Boston Relief Station are similar to those of the Haymarket Square Relief Station.

RULES FOR GOVERNMENT OF THE CONVALESCENT HOME.

The department of the Boston City Hospital located on Dorchester avenue, in Dorchester, is known as the Convalescent Home, and receives such patients recovering from acute diseases as may be transferred to it from the main hospital for treatment during convalescence.

Visitors.

Friends may be permitted to visit patients on week days, between three and four o'clock in the afternoon. In all cases the trustees, superintendent and matron may exercise discretionary powers as to excluding or admitting visitors.

Visitors shall leave the home and grounds at the expiration of the visiting hour, and shall visit no part of the home or grounds other than the reception room, except by permission from the proper authority.

No person shall give any article of food or drink, to a patient unless by permission of the matron.

BOSTON CITY HOSPITAL TRAINING SCHOOL FOR NURSES.

The trustees of the Boston City Hospital, in 1878, established a training school for nurses, the fourth organized in the United States, in order to give to women desirous of becoming professional nurses a systematic course of training and practice.

The training school is controlled by the trustees of the hospital, like all other departments of the hospital service. The Superintendent of the Hospital has the general supervision of all matters relating to the school, its course of work and study, lectures and discipline. The Superintendent of Nurses has the immediate

charge of all the nursing in the hospital, of all persons employed in the wards, and also the instruction and management of the nurses in the training school. All female nurses in the hospital must be connected with the school.

The hospital in all its departments contains 1,061 beds for patients, as follows:

Main hospital.....	655
South Department for Infectious Diseases.....	340
Haymarket Square Relief Station.....	20
East Boston Relief Station.....	10
Convalescent Home.....	36
Total.....	1,061

The number and variety of cases in each department afford ample material for observation and instruction. The course requires three years, and includes general medical and surgical nursing, together with ophthalmic, aural and gynecological nursing, also the nursing of children, and infectious diseases and of emergency surgical work. There are no maternity wards connected with the hospital, but a course in maternity nursing has been provided at maternity hospitals elsewhere, without extra cost to the nurse.

The most desirable age for candidates is from twenty-three to thirty-five years. They must be of sound health and should send with their application a certificate from a physician certifying to the fact. They should also send a brief personal history, and give the names and addresses of three responsible persons, not of their own kin, preferably their last employer, if any, or business men of their acquaintance who know of their good character and capabilities. Upon the recommendation of the Superintendent of the Hospital and Superintendent of Nurses they will be received for three months on probation. The fitness of candidates for the training and work and the propriety of retaining or dismissing them will be determined by the authorities in charge of the school, under the direction of the trustees. An entrance examination is given to all candidates before or during the term of probation. The examination is in simple arithmetic, English composition and writing from dictation, etc., and is in no sense so severe as to prevent anyone who is capable of undertaking the work of a trained nurse from so doing. The Superintendent of Nurses will have a personal interview with candidates for the school on Tuesdays from ten to twelve o'clock.

At the end of the second month candidates, if considered satisfactory, are permitted to wear the cap and enter upon the regular course of training, but such candidates are not permitted to join the school formally until the end of the third month, when, if accepted, they sign an agreement to complete the prescribed course of three years and to conform to all rules. At the end of the first six months the record and work of each pupil are carefully scrutinized as to her fitness to make a good nurse, and the right is reserved by the authorities of the hospital to terminate then, or at any time, the connection of any pupil or nurse with the school for inefficiency, misconduct, generally unsatisfactory record or for any other reason which may be deemed sufficient.

The nurses in the training school (including probationers) reside at the three nurses' homes connected with the hospital. These houses are attractive and homelike and have the best of conditions necessary to good health and personal hygiene, while recreation and amusement

necessary to a wholesome life have been considered in the music room, library and reception rooms provided.

The Superintendent of Nurses has the immediate charge of the training school, under the authority of the Superintendent of the Hospital and of the trustees, and the nurses are subject to the rules of the hospital like any other service.

The instruction includes the general care of the sick, the making of beds, changing bed and body linen, managing of helpless patients in bed, etc., giving baths, keeping patients warm or cool, prevention or dressing of bed sores and proper management of the patient under various conditions with different diseases or injuries; the making and applying of bandages and rollers, preparation of splints, application and management of surgical apparatus, applying of fomentations and poultices, the dressing of burns, ulcers and wounds and other minor dressings, cupping, leeching and subsequent treatment, the administering of enemata and the use of the female catheter.

Nurses are taught how to act in the various emergencies occurring in hospital and private nursing as well as in the accidents of ordinary life. They are also given lessons in massage by a professional instructor. There is a systematic course of training in cookery for the sick, the serving of food and delicacies in the proper manner and the feeding of helpless patients or those who resist food.

Instruction is also given in the best practical methods of supplying fresh air, of warming and ventilating sick rooms in a proper manner, and the proper care of sick rooms for the best good and comfort of the patient; in keeping all utensils and appliances perfectly clean and disinfected; in making accurate observations of the pulse, temperature, respiration, expectorations, the secretions, state of the skin and eruptions; of mental condition as to delirium, stupor, shock, etc., of the condition as to sleep, appetite, effects of diet or of stimulants and medicines; the behavior of wounds and the after treatment in surgical operations and in the managing of convalescents. Nurses are taught the administering of medicines and the application of external remedies, how to take notes on cases, the making up of the nurses record and the reports to the attending doctor.

The three years' course of training includes a preparatory course of three months, under a special instructor, followed by a fixed course of instruction from manuals and text-books, mainly given by the Superintendent of Nurses, the assistant superintendents of nurses and graduate head nurses. Lectures and demonstrations, chiefly upon practical points, are given at stated times by the medical and surgical staff of the hospital. While the instruction by the manuals, text-books, lectures, demonstrations, quizzes and models is considerable, the main reliance is upon accurate daily drill in the wards, operating rooms and other departments of the hospital. Examinations, both oral and written, are held from time to time by the authorities of the school, and nurses will not be graduated unless they attain, on critical marking, at least 70 per cent.

The pupils are employed as assistant nurses in the wards, operating rooms, Out-Patient Departments of the hospital and the two relief stations. They are given eight months' training in medical wards, eight months in surgical wards, six months in contagious wards, four months in gynecological wards, four months in a maternity hospital and from

three to six months elective. No class recitations or lectures are given between July 1 and October 1, except to the probation class.

Probationers are not paid during their first two months, but for the remaining ten months of the first year they receive \$50, for the second year \$100 and for the third year \$150, to pay for the expenses of their uniform, personal clothing and other minor requirements. This sum is in nowise intended as wages, it being considered that their education during this time is a full equivalent for their services. When the term of three years is completed the nurses receive, if they pass all the examinations and are otherwise satisfactory, a diploma certifying to the regular course of training and practice, and are then permitted to wear the graduate's badge of the school.

The majority of graduates engage in private nursing, but some are invited to remain in the service of the hospital as head nurses, with opportunities of promotion here or in other hospitals. Graduate head nurses who prefer to remain in hospital work, or return after a term of private nursing, are given post-graduate instructions in ward management, hospital housekeeping and minor administration, fitting them to fill positions of trust in hospitals or other institutions.

The school year has no fixed date, but accepted candidates are, as a rule, received in classes beginning every three months. Those desiring to enter with less delay can sometimes anticipate a fixed date by placing themselves on the emergency list. When coming to the hospital they should bring with them the following articles: Three gingham or calico dresses, made plainly; eight large white aprons, made of bleached cotton, two yards wide, meeting in the back, with bibs, without straps, plain at the top and gathered slightly at the bottom, two pearl studs on the band, two inches wide, with hem at bottom, five inches in depth and two inches from the bottom of the dress; two bags for soiled clothes, one pair of scissors, a pin-ball and a plain napkin ring with nurse's name; a good supply of plain underclothing—every article to be distinctly marked with pen and indelible ink with the owner's name. Twenty-one pieces are allowed for the laundry each week.

Nurses must bring suitable garments for stormy weather, and they are required to wear boots that will be purchased, on prescription of our orthopedic surgeon, after coming to the hospital. If the teeth are out of order in any way, they must receive attention before coming for the probationary month. Nurses are required to wear the training school uniform after they join the school. Material for dresses will be sold at cost price; caps are furnished at a nominal price. Probationers should come prepared, on acceptance, to expend about \$20 for uniforms, books and other needful expenses.

Hours of duty for day nurses will vary from six to twelve hours, between the hours of 7 a. m. and 8 p. m.; for night nurses, from 8 p. m. to 7 a. m. No nurse is required to do both day and night duty on the same day, except in rare emergencies. Each nurse on day duty is allowed one hour after 1.30 o'clock p. m. for rest and recreation, one half-day after 1.30 p. m. each week and four hours on Sunday. Two weeks' vacation with pay is allowed each year, and one week

without pay, as leave of absence during the third year. If nurses are sick they are cared for in the hospital, but pay is stopped, except for illness or injury received in the line of duty. Pupils may be expected to have a percentage of any considerable time lost by illness or absence added to their three years, at the discretion of the management. Nurses on night duty are required to be in bed from 9 a. m. until 4 p. m. Nurses may be called upon for six months' regular night duty during the three years' training, besides "special cases" to a limited number.

Course of Instruction—Probationers' Course.

The first week the probation class meets in the practice room daily for practical instruction in the making of beds, including the use of bed rests, cradles, etc.

The care of rooms, sweeping and dusting. Care of set bowls, wall stands and utensils.

Care of linen rooms, the folding of linen.

The use of hot and cold applications, including the making of fomentations and poultices.

The care of rubber goods.

The making of surgical supplies, pads, sponges, tampons, etc.

The use of slings, binders and supports.

During this time the class is instructed in the use of antiseptics, disinfectants and deodorants, and the preparation of solutions.

Tables of weights and measures.

The use of abbreviations and symbols.

The principles of ventilation.

The temperature of the body. Heat production and radiation.

The use of the clinical thermometer and charts.

The giving of baths, care of the back, mouth, etc.

From the seventh (7th) to the tenth (10th) day allowed to go to the wards, make beds, sweep, dust and fold linen (hours from 7 to 10.30 a. m.).

The tenth (10th) day assigned to wards for regular duty, and during the remaining weeks of the probation course three hours each day will be devoted to class and practice room work, with one additional hour for recreation.

General review of course, 12 recitations.

Elective work in operating rooms, Out-Patient Departments, relief stations, contagious wards and Housekeeping Department.

An excellent reference library is open to nurses for more extended reading upon subjects under consideration.

CITY DOCK PROPOSED FOR SUPERIOR.

Superior, Wis.—The construction of a municipal dock has been taken up sincerely by the Commercial Club, and a committee, consisting of Mayor Crumpton, President Cook of the Club, the City Alliance and six business men, will see what sites are available and ascertain what can be done toward financing the scheme. Mayor Crumpton says if the city improves dock property it will be necessary to raise the tax rate on account of other pressing necessities, but it is urged that a city dock is an urgent need, as the railroads now dominate the water front and there is no place for independent boats to land, and a public dock, wisely planned, should be a paying investment. An engineer may be engaged to investigate the matter and submit recommendations. —*Municipal Journal and Engineer.*

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, OCTOBER 22, 1910.

No. 43

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 24, at 3 p. m.

Meeting of School Committee, Monday, November 7, at 5.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

HEARINGS.

A hearing will be held on the petition of Louis H. Hamlin for leave to occupy a wooden building for one cow at 148 Stratford street, Ward 23, on Thursday, October 27, 1910, at 10 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be held on the petition of DePaoli Mosaic Association, for leave to occupy a portion of wooden building for one horse, at 19 Damrell street, Ward 13, on Thursday, November 3, 1910, at 10 a. m., in the office of the Board of Health, 11 Old Court House.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called

to the closing time for the receipt of such proposals. This will be published weekly.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Advertises for proposals for a supply of milk for the hospital, out-patient department, and for patients in their homes, 400 quarts daily, more or less. Blank forms for proposals may be obtained at the office of the trustees, Room 926, Tremont Building. Bids to be filed at same office.

Bids close Tuesday, November 1, at 12 m.

COUNTY OF SUFFOLK, SHERIFF.

Advertises for proposals for wiring for incandescent lamps at the Suffolk County Jail. Copies of specifications may be obtained at the office of the Sheriff, Courthouse, Pemberton square. Bids to be filed at same office.

Bids close Monday, October 31, at 2 p. m.

HOSPITAL DEPARTMENT.

Advertises for proposals for a supply of milk for the hospital from November 1, 1910, to May 1, 1911. Bids to be filed at the office of the Superintendent of the Hospital, Harrison avenue.

Bids close Wednesday, October 26, at 12 m.

PARK DEPARTMENT.

Advertises for proposals for grading the speedway on Franklin Field. Blank forms for proposals may be obtained at the office of the engineer, Franklin Park. Bids to be filed at the office of the commission, Pine Bank, Jamaica Plain.

Bids close Monday, October 31, at 3 p. m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for building manual training room in the Warren School, Charlestown. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, October 24, at 12 m.

Advertises for proposals for erecting fire escape on Quincy School, Tyler street. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Friday, October 28, at 12 m.

STREET DEPARTMENT (Highway Division).

Advertises for proposals for replanking floor and draw pit at Summer Street Bridge. Blank forms for proposals may be obtained at the office of the Superintendent of Streets. Bids to be filed at same office.

Bids close Monday, October 31, at 12 m.

Issues notice that no permits to make excavations in the streets for building sewers, laying pipes, wires, etc., will be issued from the office of the Superintendent of Streets after November 15, 1910.

STREET DEPARTMENT (Sanitary Division).

Advertises for proposals for repairing Barney Dumping Scow No. 4. Bids to be filed at the office of the Superintendent of Streets.

Barry, repairer, 2 $\frac{1}{2}$ days at \$2.50, \$5.31; John Concannon, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; John Cronin, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.80; Thomas Carey, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.80; Jeremiah Fenton, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.80; Alexander Thompson, plumber, $\frac{1}{2}$ day at \$3, \$1.50; John Campbell, repairer, $\frac{1}{2}$ day at \$2.50, \$2.03; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; Michael Hines, laborer, $\frac{1}{2}$ day at \$2.25, \$0.84; James F. Black, repairer, 1 day at \$2.50, \$2.50; John Cummings, repairer, 1 $\frac{1}{2}$ days at \$2.75, \$4.98; James Lyons, 2d, laborer, 1 day at \$2.25, \$2.25; John McCarthy, 2d, repairer, 1 day at \$2.50, \$2.50.

Water Department (Income Division).

For the week ending Thursday, October 13, 1910:

P. J. Clougherty, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.73; R. J. Connorton, tester, 1 $\frac{1}{2}$ days at \$2.50, \$3.13; J. H. Cullen, plumber, $\frac{1}{2}$ day at \$3, \$1.78; C. Fitzgerald, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; E. H. Gilmore, tester, 1 day at \$2.50, \$2.50; O. J. Gilloon, plumber, 1 $\frac{7}{8}$ days at \$3, \$3.19; P. Ippolito, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; E. Mahoney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; J. J. Mahoney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.34; T. McAuliffe, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; F. McCarthy, laborer, $\frac{1}{2}$ day at \$2.50, \$1.88; M. Mulkern, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$2.60; Joseph Rice, tester, $\frac{1}{2}$ day at \$2.50, \$1.25; J. Roche, laborer, 1 $\frac{1}{8}$ days at \$2.25, \$2.39; D. J. Rull, Jr., plumber, $\frac{1}{2}$ day at \$3, \$1.13; P. A. Russell, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.80; J. J. Shea, laborer, $\frac{1}{8}$ day at \$2.25, \$0.42; Daniel Sullivan, laborer, 1 $\frac{1}{8}$ days at \$2.25, \$2.67; J. Sullivan, laborer, 1 $\frac{1}{8}$ days at \$2.25, \$2.39; T. J. Sullivan, plumber, $\frac{1}{8}$ day at \$3, \$0.56; J. E. Tierney, machinist, $\frac{1}{2}$ day at \$3, \$0.75; M. P. Welch, plumber, 1 $\frac{1}{8}$ days at \$2.75, \$3.27.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending October 20, 1910:

STREET DEPARTMENT (Highway Division).

On October 15 the Mayor approved a contract with the Boston Bridge Works for repairing the draw span of the Dover Street Bridge. Bids on this work, opened October 6, were as follows:

Boston Bridge Works, \$3,257.50; New England Structural Company, \$6,036.50.

On October 15 the Mayor approved a contract with James Doherty for building, with trap rock, a macadam roadway in Old Colony avenue, South Boston. Bids on this work, opened October 10, were as follows:

James Doherty, \$11,657.80; J. H. McCarthy, \$12,557.50; J. B. O'Rourke & Co., \$13,521.50; William J. Rafferty & Co., \$15,257.

On October 15 the Mayor approved a contract with James Doherty for building, with trap rock, a macadam roadway and artificial stone sidewalks in Morton street, Dorchester. Bids on this work, opened October 7, were as follows:

James Doherty, \$5,494.40; J. B. O'Rourke & Co., \$5,607; J. McCourt & Co., \$5,967.68.

On October 17 the Mayor approved a contract with George T. Rendle for painting the draw span of the Charlestown Bridge. Bids on this work, opened October 13, were as follows:

George T. Rendle, \$3,850; United States Sand Blast & Waterproofing Company, \$5,450; W. L. Waples Company, \$6,215.

SUPPLY DEPARTMENT.

On October 17 the Mayor approved a contract with Bott Brothers for furnishing seventy-three double lead and fifty-six single lead harnesses for use in the Fire Department. Bids on these goods, opened October 4, were as follows:

	Double Lead.	Single Lead.
Bott Brothers.....	\$34 75	\$18 25
Mark Cross Company.....	40 00	24 00
Ordway, Loring & Ricker. .	39 25	20 00
Sartwell, Heindol & Humphrey	43 00	22 00
James Forgies' Sons	39 75	20 75
Morgan & Bond.....	43 50	22 50
Boston Harness Company:		
O. K. Lion Brand.....	49 00	24 50
Standard Brand.....	47 00	23 50
William Piper	48 75	25 75
James R. Hill & Co.....	40 50	20 50

STREET DEPARTMENT (Sewer Division).

On October 19 the Mayor approved a contract with Luke D. Mullen for building sewerage works in Morton, Leslie and Wildwood streets, Dorchester. Bids on this work, opened October 11, were as follows:

Luke D. Mullen, \$5,168.35; Antony Cefalo, \$5,281.73; J. C. Coleman & Sons Company, \$5,296.93; Murphy & Dolan, \$5,360.58; James H. Ferguson, \$5,588.91;

James L. Bryne, \$5,630.25; George M. Bryne Company, \$5,669.75; J. B. O'Rourke & Co., \$5,678.23; Mark H. Lynch, \$5,930.75; Andrew M. Cusack, \$5,939.43; Commonwealth Construction Company, \$6,002.73; George Regan, \$6,139.68; McCarthy & Walsh, \$6,188.60; John McCourt & Co., \$6,418.10; De Pietro and Paeto, \$6,964.30; John Falvey, \$7,116.90.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

In view of the following letters, the Mayor has approved an addition, amounting to a sum not exceeding \$900, on contract with Coleman Brothers for soil work on Boston Common.

PUBLIC GROUNDS DEPARTMENT, DORCHESTER, October 10, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

Dear Sir,—In compliance with the inclosed copy of suggestion from Messrs. Olmsted Brothers, and in conformity with Item 11, page 5, and letter J, page 13 of the contract for soil work on Boston Common, now in progress, I hereby request your authority to order as an extra, the separate piling and subsequent mixture of certain grades of soil to be designated by Messrs. Olmsted Brothers, at a cost not exceeding \$900; it being understood that by this process several times the amount of said extra will be saved on top soil to be purchased and subsoil to be removed from the premises.

Respectfully submitted,
D. H. SULLIVAN,
Superintendent.

BROOKLINE, September 26, 1910.

MR. D. H. SULLIVAN,
Supt. Public Grounds Department:

Dear Sir,—We find by recent investigation that a considerable saving can be made in the cost of the soil renovation work now taking place on the Common by a slight departure from the specifications of the contract.

On some of the areas to be taken in hand the top soil is underlain by a clayey subsoil. This clayey subsoil if mixed with some of the lighter subsoil, also existing in certain other areas to be taken in hand, and manure, will make a substitute for a portion of the top soil it was proposed to have the contractor supply for the bottom of the 3-foot and 2-foot excavations respectively. In order to make this mixture there would be involved an additional handling of some of the materials which has not been provided for in the specifications of the contract, and for which, of course, the contractor would rightly demand added pay.

We estimate that the saving by using this mixture, after allowing for the extra cost of the double handling of excavated material, would be about 85 cents per square yard of surface treated, as far as the material would go. To enable us to make this saving there must be authority to order extra work involved in double handling the material selected for the mixture.

We recommend, therefore, that you obtain authority to order as an extra the separate piling and subsequent mixture of certain grades of soil to be designated by us, at a cost not exceeding \$900, on the understanding that by this process a saving will be effected in top soil purchased and subsoil removed from the premises several times the amount of the extra.

Very truly yours,
OLMSTED BROTHERS.

The Mayor has approved the following additions to and allowances on contracts:

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$271, on contract with J. E. Locatelli Company, Inc., for addition to Wyman Street School, on account of miscellaneous items, as per architect's orders of September 5 and 9. Original contract, \$14,271; total additions, \$296; contract as standing \$14,567.

A deduction, amounting to \$350, on contract with the Commonwealth Construction and Supply Company at Ira Allen School, on account of the omission of allowance in contract for iron fence. Original contract, \$2,323; total additions, \$250; total deductions, \$350; contract as standing, \$2,223.

An addition, amounting to \$60, on contract with John F. Griffin Company for the Peter Faneuil School, on account of cutting new windows in boys' and girls' toilets. Original contract, \$90,781; total additions, \$2,192.65; total deductions, \$1,272.60; contract as standing, \$91,701.05.

A deduction, amounting to \$282, on contract with William Crane for addition to Girls' High School, on account of omission of fireproofing girders of the roof, less \$18 added for building trench for heating pipes. Original contract, \$105,880; total additions, \$389; total deductions, \$9,457; contract as standing, \$96,812.

An addition, amounting to \$607, on contract with Whiton & Haynes Company for William Lloyd Garrison School, on account of miscellaneous items as per architect's orders of September 14 and 27. Original contract, \$55,600; total additions, \$607; total deductions, \$4,618; contract as standing, \$51,589.

Addition, amounting to \$26, on contract with E. C. Lewis, Inc., for English High and Latin School, on account of installing extra telephone in book room of Latin School. Original contract, \$2,645; total additions, \$26; contract as standing, \$2,671.

A deduction, amounting to \$45.78, on contract with Pierce & Cox for Abraham Lincoln School, on account of the revocation of order of July 9 for change in finish of water-closet seats. Original contract, \$14,865; total additions, \$45.78; total deduction, \$45.78; contract as standing, \$14,865.

A deduction, amounting to \$125, on contract with Whiton & Haynes Company for Abraham Lincoln School, on account of the omission of allowance in contract for bronze tablet. Original contract, \$229,800; total deductions, \$365; contract as standing, \$229,435.

A deduction, amounting to \$200, on contract with D. M. Biggs & Co. for addition to Blackinton School, on account of omission of binding gravel as called for in specifications. Original contract, \$1,850; total deductions, \$200; contract as standing, \$1,650.

An addition, amounting to \$170, on contract with McGahey & O'Connor for addition to Blackinton School, on account of labor and material for raising west wall and fence. Original contract, \$66,000; total additions, \$188.15; contract as standing, \$66,188.15.

An addition, amounting to \$223.60, on contract with William Crane for addition to Dorchester High School, on account of miscellaneous items as per architect's orders of September 8 and 14; and an addition, amounting to \$1,550, on same contract, on account of 31 days' bonus at \$50 per day for having contract completed ahead of schedule fixed. Original contract, \$125,875; total additions,

\$4,670.60; total deductions, \$19,684; contract as standing, \$110,861.60.

An addition, amounting to \$32, on contract with Huey Brothers Company, Inc., for addition to Dorchester High School, on account of changing return pipe from radiator in woodworking room. Original contract, \$12,827; total additions, \$106; contract as standing, \$12,933.

PETITIONS GRANTED.

The following petitions, granted by the Board of Street Commissioners, have been approved by the Mayor:

Signs.—H. Cooper, 12 Stillman street; Samuel Lamkin, 130 Chelsea street, Ward 2; Nathan Levin, 1967 Washington street; D. Monica, 24 Franklin street, Ward 25; Murray & Co., 264 State street; Jims Cannizzaro, 295 North street; S. Goldberg, 53 Spring street.

Illuminated Signs.—The New Richmond Hotel Company, 254 Tremont street; Modern Gas Light Company, 178 Washington street; Mattapan Motor Car Company, Blue Hill avenue; C. P. Flynn, 586 Dorchester avenue; T. J. Connolly, 23 Dundee street; Joseph H. Rosenberg, 22 Huntington avenue; Kellie & Co., 1140 Columbus avenue; Joseph Voca, 3 Garden Court street; A. Jacobbe, 114 Eliot street; William H. Richardson Company, 388 Washington street; H. G. Welch, Columbus avenue and Tremont street; J. Schneiderman, 28 Lowell street; A. Lipkin, 31 Green street; James De Leo, 198 Washington street; Dossis & Papas, 135 Chandler street; Knights of Progress, 122 Salem street; The Wechsler-Levy Company, 266 Devonshire street; John A. Crabtree, 627 Washington street; Joseph Rosengard *et al.*, 2201-2205 Washington street, Ward 18.

Marquise.—Massachusetts Bible Society, 41-43 Bromfield street, Ward 7.

Guy Post.—Whitcomb-Kavanagh Company, opposite 88-89 Beacon street, Ward 11.

Gasolene.—Boston Board of Health, 20 North Grove street; Nelson J. Molway, 20 Mt. Vernon avenue, Ward 25.

To Close Roadway.—Superintendent of Streets, Rockview street, during repairs.

Temporary Station in Streets.—Dr. P. F. Butler, during parade on Columbus Day.

Extensions of Time for Completing Work in Streets.—West End Street Railway Company, under the 292d location, to October 18, 1911; New England Telephone and Telegraph Company, to erect poles on Medway street, Dorchester, to November 15, 1910.

Pole Locations.—New England Telephone and Telegraph Company, one on Park street, east from Dorchester avenue; two on Decatur street, Ward 3.

STREET COMMISSIONERS.

The Mayor has approved the order of the Board of Street Commissioners that, in the making of the public improvement, consisting of the change of grade and construction of Berkley street as a highway, from Providence street to Columbus avenue, damages have been occasioned various estates as follows:

Trustees Boston Baptist Social Union, \$2,000; Laurence Minot *et al.*, trustees, nothing; George A. Gardner, \$500; Boston Academy of Notre Dame, \$1,500; Trustees Church street Methodist Episcopal Church, \$500; and the additional order that no person receives benefit to his estate by reason of this improvement.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE,
BOSTON, MASS., October 20, 1910.

To the Heads of Departments:

You are requested to call at this office as soon as possible for the purpose of receiving blank forms upon which detailed statements of the appropriations required for the fiscal year 1911-12 are to be entered. In filling out these forms the following instructions must be carefully followed:

1. All the appropriations in this budget are derived from the tax levy. The wages of employees who may be carried on loan accounts, or other expenditures from such accounts, must not be included in the estimates.

2. Separate returns should be made for the departmental divisions, where such exist, on the blanks marked for this purpose. In all such cases the central office should be regarded as one division; the other divisions will consist of the natural groups into which the work of the department is divided.

3. In the itemization of general expenses and construction (the latter again including only expenditures derived from the tax levy) on Form 7, the grouping in the auditor's report should be followed rather closely, except for minor items, which may properly be gathered together under the head, Miscellaneous.

4. Forms not applicable to a particular department should be returned with the record, "Not applicable to the Department."

5. Succinct and specific reasons for every material increase asked for must be given in the blank spaces provided for this purpose on the various forms, and heads of departments should be prepared to defend their estimates, not only before the City Council but at public hearings, which will be held on the budget for the next fiscal year.

6. All items must be kept as low as may be consistent with the proper standard of efficiency and a reasonable return for labor. Only known and actual needs should be considered in framing these estimates, since the temptation to find means of spending money once appropriated is one which some public officials are unable to resist.

7. Returns must be made without delay as soon as the necessary tabulations and forecasts of future requirements have been made.

8. The forms must be filled out in duplicate, and must not be rolled or folded. They must be returned in the envelopes provided for this purpose.

JOHN F. FITZGERALD,
Mayor.

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved the action of the Schoolhouse Commission requesting the Board of Street Commissioners to take for schoolhouse purposes a parcel of land situated on Paulding and Bainbridge streets and Walnut avenue, containing 40,965 square feet, more or less.

The Mayor has approved the finding of the Board of Street Commissioners that, in the matter of land-taking for schoolhouse purposes on Chestnut Hill avenue, Brighton, an additional sum be paid to the estate of William Warren as follows, 983 square feet, \$237.25.

The Mayor has approved the finding of the Board that, in the matter of taking made for schoolhouse purposes on Pearl street, Wesley street, Holden row and

Salem Hill court, damages have been occasioned as follows: Frank S. Mason, 10,723 square feet, \$12,132.

The Mayor has approved a vote of the Board of Street Commissioners, taken after consultation with the Law Department and on its advice, assessing damages occasioned to the estate of Fannie Levenson by a taking made for schoolhouse purposes on Webster street, East Boston, in the sum of \$19,000, without interest or costs.

PERMISSION TO SELL.

PENAL INSTITUTIONS DEPARTMENT.

The Mayor has granted to the Penal Institutions Commissioner authority to exchange two worn-out horses, valued at \$125, for a pair costing \$650, paying the difference, \$525, to Wheeler, McElveen & Co.

PUBLIC BUILDINGS DEPARTMENT.

The Mayor has granted to the Superintendent of Public Buildings authority to sell to A. A. Elston & Co. the lumber in the reviewing stand erected on the Common for Columbus Day, for the sum of \$100, the stand to be taken down and removed by them. Bids were as follows:

A. A. Elston & Co., \$100; Daniel Marr & Son, \$70; Thomas A. Elston & Co., \$55.

Similar authority was granted for the sale of the lumber in the convenience station to W. Kerr for the sum of \$20.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising: Build surface drains and catch-basins in Litchfield street, between Western avenue and Lincoln street, Brighton, at an estimated cost of \$6,904.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

L. K. ROURKE,
Superintendent of Streets."

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the superintendent have been approved by the Mayor:

Matthew J. Barrett, Sanitary Division, 10 days at \$2.25, \$22.50; John T. Kane, Sanitary Division, 11 days at \$2.25, \$24.75; Edward Rogan, Sanitary Division, 30 days at \$2.25, \$67.50.

SALE OF SCHOOL LANDS.

On October 14 the Mayor executed a deed conveying to Antonio Del Signore a parcel of land located at 64 North Margin street for the sum of \$8,100, that being the amount bid by Antonio Del Signore, the highest bidder; at the public auction of this property, held October 3, 1910.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.

1910.
Oct. 27. Alaska, the Land of Promise. Rev. W. M. Partridge. Three Lectures. Greece and Japan: a Racial Aesthetic Contrast. F. Melbourne Greene.
Nov. 3. Greek Art.
Nov. 10. Japanese Art.
Nov. 17. The Aesthetic Ideals of Greece and Japan.
Dec. 1. Carthage. George B. Dexter.
Dec. 8. Cortona, a Hill Town of Italy. Eben F. Comins.
Dec. 15. The Passion Play of Oberammergau. Rev. Thomas I. Gasson, S. J.
Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.
1911.
Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.
Jan. 12. * Photography in relation to Illustration. J. Horace McFarland.
Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.
Jan. 26. * The Paper and Binding of Books. Cedric Chivers.
Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.
Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.
Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.
Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.
March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.
March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.
March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.
March 23. Switzerland and the Rhine. Henry Warren Poor.
March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight o'clock.

1910.
Nov. 21. A Western Outdoor Trip. Mary E. Haskell.
Dec. 12. Norway and the North Cape. Frederick M. Brooks.
1911.
Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).
Feb. 12. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

* Under the auspices of the Society of Printers.

GARBAGE COLLECTION AND DISPOSAL IN MINNEAPOLIS, MINN.

Minneapolis has a system of garbage collection and handling that is entirely free from nuisance. The garbage wagons as they pass along the street do not give off the customary odor that one is accustomed to expect, and at the transfer station there is not the nuisance common to such.

Each householder provides two cans of a size specified by the rules of the department. In one of these is deposited all ash, glass and like incombustible matter. In the other the common kitchen garbage is placed after being carefully drained of all water and wrapped in paper. This rule of drainage and wrapping is rigidly enforced. To the method of handling the wet garbage above described may be attributed the cleanliness of the wagons and the sanitary conditions of the transfer and incinerating stations. The frozen garbage can and the half putrescent mass of garbage are entirely unknown in Minneapolis; and even in the summer time it is not necessary to collect more frequently than once each week.

The garbage is collected in two-ton,

steel, covered wagons, of which there are thirty in service on regular routes. These wagons carry the garbage to the transfer station, where the wagon boxes are lifted off the trucks and placed on flat cars, to be conveyed to the incinerator. The average haul of the wagons is slightly over three miles. All trouble, complaints, special service calls, etc., are handled by a clerk in charge of the transfer station; and a regular card system of complaints is in use, giving the complaint, the testimony of the driver, and, in fact, all data needed in connection with each complaint. Failure to comply with the rules of the department results in the non-collection of the garbage, and a reporting of the delinquent party to the transfer clerk. Then if the person whose garbage has been passed should phone to make a complaint, a reference to the card of complainant shows at once why the can has been passed. This system further serves as a check upon the driver, who must show good reason for neglecting to gather garbage about which complaint is made.

DISPOSAL.

After being taken to the plant on flat cars, the wagon boxes are lifted by a three-motor crane, which conveys them into the building and dumps them into the charging hoppers. The three-motor crane permits of the back of the box being elevated as the front is lowered so as to dump and entirely clean the box.

The incinerator is of the Decarie type, of 300 tons capacity, and developing about 1,500 degrees of heat. It is operated straight through the twenty-four hours, the work being handled by three shifts. Two incinerators with basket grates burn the material. The basket grates are a notable feature. They consist, as the name implies, of a basket formed of three-inch piping placed parallel and joining on to a six-inch header at the bottom in such a way as to form a basket, permitting free and ready access of air to the charge and giving a hot flame throughout the grate area. Between the two grates is placed a Wickes tubular boiler with a Dutch oven attachment for making use of the hot gases in producing steam. An induced draft from a fan located in the small shed at the side of the stack furnishes the air for burning and a system of by-pass pipes permit of the regulation and distribution of this draft. The power derived from the utilization of the heated gases from the incineration amounts to about 500 horse power and supplies the workhouse, the greenhouses, superintendent's house and the Hopewell tuberculosis hospital with light and power.

In 1901, when the incinerator was first constructed, it did not have the present efficient means of handling the garbage. At that time all the material was dumped into a large circular tank, from which it was carried on an interior conveyor to the charging hoppers. This tank is now used for shower baths for the employees, and the garbage is not left standing to create a nuisance. One factor that perhaps might be criticised is the practice of making the prisoners at the workhouse open some of the garbage each day and sort out vegetable refuse for feeding the animals at the workhouse farm. This is the only instance of handling the garbage by hand in the entire process.

At present the plant is taking care of 100 tons per twenty-four hours, using only one of the two furnaces. The process produces about 3 per cent of ash, and that in such form as to be readily handled. The fuel cost is about 6 cents per ton, and the entire cost of disposal, not counting

any income from the power utilized, is 35 cents per ton. After October first there is to be a charge of 3 cents per kilowatt for electricity and 8 mills per pound of steam used, charged against the workhouse, etc. This will reduce the cost of disposal to about 18 cents per ton.

To Dr. P. M. Hall, health commissioner of Minneapolis, is great credit due for the efficient and sanitary solution of the garbage question, and to his idea of draining and wrapping the garbage more than any other thing is due the absence of nuisance at all stages of the process.—*Municipal Engineering.*

RICHMOND'S LOSS ON IMPROVEMENT BONDS.

From a leakage in the improvement bond fund of the city, due to the failure to call in bonds when property owners had made full settlement in advance of their waiver period, and the consequent payment of interest for subsequent years by the city, it is stated there is an aggregate loss in excess of \$21,000.

Under the Barrett law, where property owners take ten years to pay for their assessments, bonds are issued which bear 5 per cent interest. It develops that in hundreds of cases property owners have tired of the installment plan, and within a period of one to five years have made full settlement. It also is revealed that the city, instead of calling the bonds issued against these particular assessments, has permitted them to run a full ten years, and the interest thereon has been paid out of the general fund of the city, instead of out of the pockets of the property owners.—*Municipal Engineering.*

CITY OF BOSTON.

PROPOSALS FOR GRADING.

Proposals, on blanks obtained after Tuesday, October 25, 1910, at the engineer's office, Franklin Park, for grading the speedway on Franklin Field, and giving bond of a surety company therefor in \$2,000, signed by bidder and left before 3 o'clock p. m. of October 31, 1910, at the office of the Park Commissioners, Pine Bank, Olmsted Park, Boston, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals or to accept any proposal they deem best for the city.

ROBERT S. PEABODY,
JAMES M. PRENDERGAST,
DANIEL H. COAKLEY,
Commissioners.

(Oct. 22.)

CITY OF BOSTON.

PROPOSALS FOR MILK.

The trustees of the Consumptives' Hospital of Boston invite bids for a supply of milk for the hospital, Out-Patient Department, and for patients in their homes until February, 1, 1911, and giving bond of a surety company in \$500. The quantity of milk will vary according to the number of patients, and will be about 400 quarts daily, more or less. The contract calls for pure dairy milk, neither skimmed, topped nor in any other way deprived of its natural proportion of cream. Only proposals made on form obtained at the office of the trustees, 926 Tremont Building, signed by the bidder and left at the office of the trustees, before 12 o'clock m., November 1, 1910, with a certified check for one hundred (100) dollars, payable to and to be the property of the city if the bid is not carried out, will at said hour and place be publicly opened and read. The proposal must be made in duplicate, duplicate, without check, to be deposited with the City Auditor, before the time specified for opening the bids. The trustees reserve the right to reject any and all proposals. The bids should be inclosed in an envelope, sealed and marked "Proposals for Milk Supply."

EDWARD F. MCSWEENEY,
Chairman.

(Oct. 22.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 11 o'clock Wednesday, October 26, for the hay, grain and straw needed in the different departments for November, 1910. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1, straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The oats must be No. 2, clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Wednesday, October 26, at 11 a. m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Oct. 22.)

CITY OF BOSTON.

PROPOSALS FOR CLEANING SEWERS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for cleaning sewers in the following streets, viz., Canal street, between Traverse and Causeway streets; Canal street, between Market and Sudbury streets; Traverse street, between Canal and Portland streets; Portland street, between Traverse street and Market street; Sudbury street, between Canal street and Portland street; Beverly street, between Causeway street and Washington Street North, city proper; Huntington avenue, between Calumet and Wait streets; Huntington avenue, between South Huntington avenue and the Brookline line, Roxbury, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, October 28, 1910, with a certified check for three hundred dollars (\$300), payable to and to be the property of the city if the proposal is not carried out, will, at said hour and place, be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Cleaning Sewers."

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, October 20, 1910. (Oct. 22.)

CITY OF BOSTON.

PROPOSALS FOR CLEANING SEWERS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for cleaning sewers in the following streets, viz., Tencan creek conduit, from outlet at Mill street through private land across Brook street, through private land across Preston court, through private land across Adams street, through private land across Bispham street, through private land across Dorchester avenue, through private land across Park street, Park street to Freeman street, north-easterly on Freeman street to manhole about 157 feet from Park street, Gibson street branch, between Park and Gibson streets, Dorchester, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, October 28, 1910, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will, at said hour and place, be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Cleaning Sewers."

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, October 20, 1910. (Oct. 22.)

COMMONWEALTH OF MASSACHUSETTS.

OFFICE OF THE BOARD OF HARBOUR AND LAND COMMISSIONERS.

STATE HOUSE, BOSTON, October 20, 1910.

Notice is hereby given that the City of Boston has made application to this Board for license to fill solid and place riprap on the westerly side of Freeport street in Tencan creek, south of Commercial Point Bridge, in Boston, as per plans filed with said application, and Wednesday, the twenty-sixth day of October, 1910, at 11 o'clock a. m., and this office have been assigned as the time and place for hearing all parties interested therein.

For the Board,

GEORGE E. SMITH,
Chairman.

(Oct. 22.)

CITY OF BOSTON.

TO FIRE ESCAPE CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting fire escape on Quincy School, Tyler street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, October 28, 1910, at said office, with a certified check for \$800, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(Oct. 22.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING DUMPING SCOW.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing Barney Dumping Scow No. 4, and giving bond therefor of a surety company approved by the superintendent in the sum of four hundred dollars (\$400), to secure the due performance of the contract and the full protection of the city. Each bid should be inclosed in an envelope, sealed, marked "Bid for Repairing Dumping Scow No. 4." The bidder must furnish his own proposal and leave same at the said office of the Superintendent of Streets before 12 m. of Friday, October 28, 1910, with a certified check for two hundred dollars (\$200), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, October 20, 1910. (Oct. 22.)

CITY OF BOSTON.

PROPOSALS FOR REPLANKING FLOOR OF DRAW PIT, SUMMER STREET BRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for replanking floor of draw pit and making other repairs at Summer Street Bridge over Fort Point channel, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Specifications and forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Summer Street Bridge," and left at the said office of the Superintendent of Streets before 12 m. of Monday, October 31, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, October 20, 1910. (Oct. 22.)

PROCEEDINGS OF SCHOOL COMMITTEE.

Oct. 17, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4:10 o'clock P.M.
Present: Messrs. Brock, Ellis, Lee, Scannell and Magenis.

CHAIRMAN PRO TEMPORE.

Pending the arrival of the Chairman, the Board was called to order by Mr. George E. Brock, the senior member.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

Mr. Ellis arrived, and assumed the Chair.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation, as reported by the Superintendent, and laid over at the last meeting. The appointments were approved.

EVENING HIGH SCHOOL IN DORCHESTER.

A communication was received from His Honor the Mayor, under date of Oct. 7, 1910, enclosing a communication from Mrs. Katharine L. Newell of Dorchester with reference to the establishment of an Evening High School in Dorchester, and stating that, inasmuch as Dorchester now has a population of one hundred and twenty-five thousand, in his opinion the establishment of such a school in that section would justify the expense of maintaining it.

Referred to the Superintendent for consideration and reply to the Mayor.

EVENING SCHOOL FOR DOMESTICS.

A communication was received from His Honor the Mayor, under date of Oct. 10, 1910, enclosing a communication with reference to the establishment of an evening school in the Back Bay for domestics.

Referred to the Superintendent for consideration and report.

USE OF SCHOOL-HOUSES FOR ELECTION PURPOSES.

A communication was received from the Board of Election Commissioners, under date of Oct. 11, 1910, stating that said Board has been unable to agree with the School Committee as to what that Board considers a reasonable price for the use of school basements for polling and registration places, and requesting that the School Committee agree in submitting the entire question to the Finance Commission for settlement.

Placed on file, and the request therein contained agreed to.

CONTINUATION SCHOOLS.

A communication was received from the Schoolhouse Commission, under date of Oct. 13, 1910, reporting that, acting upon the order passed at the meeting of Oct. 3, 1910 (see p. 153), with reference to accommodations for the Continuation Schools, they have hired premises in the building of the Young Men's Christian Union on Boylston street, which include one room known as Norcross Hall, and also class room No. 6 in said building, with the use of an adjoining room, No. 7, for keeping of garments. The rent is to begin Oct. 15, 1910, payable monthly at the rate of \$80 per month, which includes heat, light and janitor service.

Placed on file.

PREMISES HIRED FOR COOKING CLASS.

A communication was received from the Schoolhouse Commission, under date of Oct. 15, 1910, reporting that as premises 18 Chelsea street hired for a cooking class and for which the sum of \$20 per month has been paid, were not large enough, another room has been hired

and the total rental from Nov. 1, 1910, will be at the rate of \$25 per month. Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, were presented:—

To Retire From the Service.

Sherwin District—Grace M. Welch, assistant kindergarten.

Approved.

REVOCATION OF A MINOR'S LICENSE.

The Superintendent reported that he had revoked the license of a minor to sell newspapers, because of violation of the conditions under which said license was granted.

Approved.

RETIREMENT OF TEACHER ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teacher is hereby retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908 as amended by Chapter 617 of the Acts of 1910, the date of retirement and rate of pension to be as hereinafter specified:—

Emerson District—H. Elizabeth Cutter, age 69 yrs., length of service 42 yrs., Sept. 30, 1910, \$312.

Passed, a majority of the Board voting in the affirmative.

DESIGNATION OF TEACHERS ABOVE THE THIRD GRADE IN BOYS' SCHOOL.

A communication was received from the Superintendent, under date of Oct. 17, 1910, stating that, subject to the approval of the Board, he had assigned the following-named teacher to a class attended exclusively by boys in grades above the third, in the district herein stated, to take effect Oct. 1, 1910:—

Wendell Phillips District—Assistant, Gertrude M. Dimick.

Approved, and placed on file.

APPOINTMENT OF CLERICAL ASSISTANT, MECHANIC ARTS HIGH SCHOOL.

A communication was received from the Superintendent, under date of Oct. 17, 1910, stating that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Victorine E. Polly, clerical assistant in the Mechanic Arts High School vice Eunice W. Alden, temporary clerical assistant, to take effect Oct. 17, 1910.

Placed on file, and the appointment approved.

SALARY OF ASSISTANT IN MUSIC.

On motion of the Superintendent, it was ORDERED, That on and after Oct. 17, 1910, while Adalyn P. Henderson is assigned to work as assistant in music she be paid eight dollars (\$8) per month in addition to her regular salary.

EMPLOYMENT OF MARGUERITE L. LILLIS, CONTINUATION SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment in the Continuation School as an assistant, elementary course, beginning Oct. 24, 1910, of Marguerite L. Lillis, assistant in the Lewis District, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient, Miss Lillis to be paid eight dollars (\$8) per month in addition to her regular salary as an assistant in an elementary school.

On motion of the Superintendent, it was ORDERED, That while Marguerite L. Lillis, because of her service in the Continuation School, is absent from her regular position in the Lewis District, her place in that district may be filled by a temporary teacher.

EMPLOYMENT OF LAURA W. COOK, HIGH SCHOOL OF PRACTICAL ARTS.

On motion of the Superintendent, it was ORDERED, That the employment in the High School of Practical Arts, beginning Oct. 10, 1910, of Laura W. Cook, an assistant in the Wells District, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient, Miss Cook to be paid at the same rate as if she were teaching as an assistant in an elementary school.

INSTRUCTION IN DRESSMAKING AND COOKERY, QUINCY EVENING SCHOOL.

On motion of the Superintendent, it was ORDERED, That the principal of the Quincy Evening School is hereby authorized to conduct a class in dressmaking at 98 Tyler street, the use of said room to be given without expense to the city.

On motion of the Superintendent, it was ORDERED, That the principal of the Quincy Evening School is hereby authorized to accept the offer of Helena S. Dudley to provide girls attending the Quincy Evening School with instruction in cookery in the class room at 98 Tyler street on one evening each week during the evening school term 1910-11, said instruction to be given without expense to the city.

EXPENDITURE BY EVENING SCHOOL PRINCIPALS FOR POSTAGE.

On motion of the Superintendent, it was ORDERED, That the principal of the Central Evening High School is hereby authorized to incur expense for postage from Oct. 1 to Nov. 30, 1910, to an amount not to exceed ten (10) dollars; and that each of the principals of other evening schools is hereby authorized to incur expense for the same purpose between the foregoing dates not to exceed five (5) dollars, and that said principals be directed to present their bills for such expenditure to the Business Agent not later than Dec. 1, 1910.

APPROPRIATION FOR EXHIBITS FOR PREVENTION OF TUBERCULOSIS.

On motion of the Superintendent, it was ORDERED, That the Director of School Hygiene is hereby authorized to expend a sum not to exceed two hundred dollars (\$200) for the purpose of securing and circulating among the schools, exhibits with reference to the prevention of tuberculosis, prepared by the Board of Trustees of the State Hospital for Consumptives, and that the expense of the same be charged to the appropriation for supplies and incidentals.

TUITION IN EVENING SCHOOLS.

A communication was received from the Superintendent, under date of Oct. 17, 1910, enclosing a communication from Myron W. Richardson, principal of the Central Evening High School, requesting

a decision from the School Committee with reference to collecting tuition in the evening schools from self-supporting pupils under twenty-one years of age, who live in the city while their parents reside elsewhere.

Placed on file, and the Secretary directed to notify the principal of the Central Evening High School that, in the opinion of this Board, a pupil who has a bona fide residence in Boston may receive free tuition in the evening schools; provided, the principal of such a school is satisfied in each individual case that the pupil has such bona fide residence, and has not acquired it for the express purpose of attending the Boston evening schools.

USE OF VINE-STREET CHURCH FOR MILITARY DRILL.

On motion of the Superintendent, it was ORDERED, That the Schoolhouse Department is hereby requested to secure the use of the Vine-street Church for the purpose of giving instruction in military drill to the boys belonging in the Winthrop-street Annex of the English High School.

AMENDMENT TO REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:

Section 322. Insert after the comma in the twelfth line thereof the following: "or a first assistant, kindergarten," so that the section shall read:

Sect. 322. In case of the death or disability of the principal of a school or district, or of the head of a special department, it shall be the duty of the senior teacher highest in rank, who is present, in such school or department, to notify immediately the superintendent, who shall designate some person in the regular school service to take charge thereof until the position is otherwise filled in accordance with the rules and regulations. In such cases the superintendent may, in his discretion, appoint a temporary teacher in such school or department. In case of the death or disability of a master's assistant, a first assistant in charge, or a first assistant, kindergarten, the superintendent may, in his discretion, designate some person in the regular school service to perform the duties of the position thus made vacant until it is otherwise filled in accordance with the rules and regulations. The superintendent shall report his action to the Board at its next meeting.

Passed, under a suspension of the rules.

ADDITIONAL KINDERGARTEN MAIDS, LEWIS, LOWELL AND SHERWIN DISTRICTS.

A communication was received from the Superintendent, under date of Oct. 17, 1910, submitting communications from the masters of the Lewis, Lowell and Sherwin Districts requesting that they each be allowed one kindergarten maid in excess of the number permitted under the order of the Board of June 20, 1910 (see p. 117).

Referred to Mr. Lee for consideration and report.

EVENING CLASSES FOR ITALIAN WORKERS DESIRING TO LEARN ENGLISH.

A communication was received from the Superintendent, under date of Oct. 17, 1910, submitting a report on the communication referred to him at the meeting of Oct. 3, 1910 (see p. 146), with reference to the furnishing of additional opportunities for Italians to acquire the English language in evening schools, and stating that after conference between the Director of Evening and Continuation Schools and the President of the Hod Carriers and Building Laborers Union 209, it is understood that the desire of the Union is that more Italian interpreters be employed. Non-English classes have been carefully observed during recent years and experience has shown that the progress of these classes has been greater under trained teachers than under interpreters, and it is the opinion of the Superintendent that the instruction offered is effective, and that for the present enrollment no additional interpreters are required.

Placed on file, and the Secretary directed to transmit a copy thereof to the Hod Carriers and Building Laborers' Union 209 through His Honor the Mayor.

TELEPHONE SERVICE, TRADE SCHOOL FOR GIRLS

A communication was received from the Business Agent, under date of Oct. 8, 1910, recommending that the Auditor be instructed to contract with the New England Telephone and Telegraph Company for a one party measured business telephone service, nine hundred sixty (960) calls for the Trade School for Girls.

Placed on file, and on motion it was ORDERED, That the Auditor be instructed to contract with the New England Telephone and Telegraph Company for a one party measured business telephone service, nine hundred and sixty (960) calls, for the Trade School for Girls.

JANITORSHIP, FROTHINGHAM SCHOOL-HOUSE AND ANNEX.

A communication was received from the Schoolhouse Custodian, under date of Oct. 17, 1910, submitting a list of applicants for transfer to the janitorship of the Frothingham School-house and Annex, and recommending the transfer of James J. Bulman, janitor of the Cyrus Alger School-house, who stands at the head of the list, to the position, to take effect Oct. 23, 1910.

In connection with the foregoing a communication was received from Francis P. Linnehan, the second candidate on the list, under date of Oct. 17, 1910, relative to the marking given him by the master of the Adams District; also, a communication addressed to the Schoolhouse Custodian by the master of said district, under the same date, in explanation of the marking given.

Laid on the table. Subsequently the foregoing communications were taken from the table and placed on file, and the transfer of James J. Bulman, was approved, to take effect on the date stated.

JANITORSHIP, CLINCH SCHOOL-HOUSE AND PORTABLE NO. 25 AND SHURTLEFF PORTABLE NO. 72.

A communication was received from the Schoolhouse Custodian, under date of Oct. 17, 1910, submitting a list of applicants for transfer to the janitorship of the Clinch School-house and Portable No. 25, and the Shurtleff Portable No. 72, and recommending the transfer of Francis L. O'Connor, janitor of the Capen School, who stands at the head of the list, to the position, to take effect Oct. 23, 1910.

Placed on file, and the transfer of Francis L. O'Connor to said position approved, to take effect on the date stated.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Oct. 15, 1910, submitting a list of temporary appointments and reappointments of janitors, for periods of ten days or less, and amounts due for such services as follows:—

Benjamin Pope School-house and Portables Nos. 16, 36 and 63—Henry J. Mahoney, acting janitor; reappointed Oct. 8, 1910. Amount due for services rendered Oct. 4 to 8, inclusive, \$13.10.

Clinch School-house and Portable No. 25 and Shurtleff Portable No. 72—Henry J. Mahoney, appointed acting janitor Oct. 9, 1910. Amount due for services rendered Oct. 9 to 17, inclusive, \$19.95.

Frothingham and Annex School-houses—Michael Keefe, appointed acting janitor Oct. 2, and reappointed Oct. 12, 1910. Amount due for services rendered Oct. 2 to 17, inclusive, \$60.71.

Harvard Hill School-house—Charles Timmins, acting janitor; reappointed Oct. 8, 1910. Amount due for services rendered Oct. 4 to 17, inclusive, \$23.76.

Hutchings-street Portable No. 41—Henry T. Brennan, acting janitor; reappointed Oct. 8, 1910. Amount due for services rendered Oct. 4 to 17, inclusive, \$4.62.

Parkman School-house—Dennis J. Lenehan, acting janitor; reappointed Oct. 8, 1910. Amount due for services rendered Oct. 4 to 17, inclusive, \$25.54.

Placed on file, and the reappointments approved.

On motion, it was ORDERED, That for services rendered as the janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Hutchings-street Portable No. 41, from Oct. 4 to 17, 1910, inclusive, four and 62-100 dollars (\$106.21).

To Michael Keefe, Frothingham and Annex School-houses, from Oct. 2 to 17, 1910,

inclusive, sixty and 71-100 dollars (\$60.71).

To Dennis J. Lenehan, Parkman School-house, from Oct. 4 to 17, 1910, inclusive, twenty-three and 54-100 dollars (\$27.54).

To Henry J. Mahoney, Benjamin Pope School-house and Portables Nos. 16, 36 and 63, from Oct. 4 to 8, 1910, inclusive, thirteen and 10-100 dollars (\$13.10).

To Henry J. Mahoney, Clinch School-house and Portable No. 25 and Shurtleff Portable No. 72, from Oct. 9 to 17, 1910, inclusive, nineteen and 95-100 dollars (\$19.95).

To Charles Timmins, Harvard Hill School-house, from Oct. 4 to 17, 1910, inclusive, twenty-three and 76-100 dollars (\$23.76).

LOSS OF TOOLS, BRIGHTON HIGH SCHOOL.

A communication was received from the Assistant Director of Drawing and Manual Training, under date of Oct. 5, 1910, reporting the loss of tools from the manual training room in the Brighton High School during repairs last summer, enclosing statements from the instructor and a list of lost tools amounting to \$78.55, and recommending that the Schoolhouse Commission be requested to provide locks for the work racks which they supply, so that small tools may be under key during the long vacation, and to take such steps as may be possible to prevent misuse and loss of large tools.

Placed on file, and the recommendation adopted.

DESIGNATION OF TEACHERS ABOVE THE THIRD GRADE, BRIMMER SCHOOL.

A petition was received from the teachers of the Brimmer School, under date of Oct. 10, 1910, for a hearing at the next regular meeting on the question of increase in salary as presented in their petition of Oct. 3, 1910 (see p. 158).

Placed on file.

On motion, it was ORDERED, That Order No. 1 of the general schedule of salaries of teachers in the public schools for the year ending Aug. 31, 1911, as adopted June 20, 1910, be amended as follows:—

In the item establishing the compensation of assistants in elementary schools assigned to classes attended exclusively by boys in grades above the third insert the words "and above the third grade" to precede the word "Agassiz" in the list of districts in which such assignments are effective.

On motion, it was ORDERED, That the following-named teachers in the Brimmer School of the Abraham Lincoln District are hereby assigned to classes attended exclusively by boys in grades above the third to take effect Sept. 1, 1910, said assignments to terminate Aug. 31, 1911; or if the Abraham Lincoln School shall be opened for occupancy before that date, the assignments shall terminate on the last actual school day preceding the occupancy of said school: Assistants, Sarah E. Adams, Mary A. Carney, Grace F. Gardner, Mary E. W. Hagerty, Ellen G. Hayden, Grace W. Mitchell, Frances A. Putnam.

EVENING INSTRUCTION IN THE SYSTEM OF GOVERNMENT.

A petition was received from Francis A. Perry, under date of Oct. 6, 1910, that suitable halls be used in giving free non-partisan evening instruction to the public concerning the system of government under the Constitutions of the United States and Massachusetts, the advantages thereunder, and the beneficial results to accrue therefrom when properly and honestly administered. A report was also received from the Director of Evening and Continuation Schools, under date of Oct. 17, 1910, with reference to the character and extent of instruction in civil government now given in the evening high and elementary schools.

Placed on file, and the Secretary directed to transmit a copy of said report to Mr. Perry, and the Superintendent requested to suggest to the School and Home Association the desirability of this type of work being included among the activities of the various parents' associations.

SALARY OF JOSEPH BROWN.

On motion, it was ORDERED, That the compensation of Joseph Brown, janitor, Mason street Build-

ing, be established at the rate of ten dollars (\$10) per week, to take effect Oct. 1, 1910, and until otherwise ordered.

SALARY OF MARY A. S. LYNCH.

On motion, it was ORDERED, That Mary A. S. Lynch, assistant in the office of the Secretary, be placed upon the third year of the salary schedule for clerks and stenographers employed in the offices of the School Committee, viz., seven hundred and twenty dollars (\$720) per annum, to take effect Oct. 1, 1910.

ESSAY CONTEST, ANTI-CIGARET LEAGUE.

A communication was received from Elizabeth R. White, Secretary of the Massachusetts Anti-Cigaret League, stating that it has been suggested to have an Essay Contest in the schools on "The Effect of Tobacco Upon Student Life" for the High Schools, and "Why I joined the Anti-Cigaret League" for the elementary schools, and asking permission from the School Committee to carry on this contest.

Referred to the Superintendent for such action as he may deem expedient.

REQUEST FOR DISMISSAL FOR OUTSIDE INSTRUCTION.

A communication was received from Joseph A. Kandib requesting that his daughter, a pupil in the Minot School, be given permission to leave school at 3 o'clock on Wednesday afternoons for the purpose of continuing her study of music at the Conservatory of Music.

Referred to the Assistant Superintendent in charge of the Minot District with full powers.

RECESS.

The Board took a recess at 5.07 o'clock P.M.

The members of the Board reassembled in the School Committee Chamber and were called to order by the Chairman at 6.55 o'clock P.M.

ADJOURNMENT.

The Board adjourned at 7.00 o'clock P.M. Attest:—

THORNTON D. APOLLONIO,
Secretary.

LOSSES CAUSED BY SMOKE.

The new smoke law for Boston covers not only that city but a part of its harbor and the neighboring municipalities of Cambridge, Somerville, Everett, Chelsea and Brookline. This affects all users of smokestacks, who are given three years to complete the changes necessary to comply with the law.

The United States Geological Survey, in co-operation with the National Conservation Commission, has collected data from which it has been estimated that smoke causes at least \$500,000,000 damage or loss to our country each year, and that the inhabitants of all the American cities lose by this evil an amount equal to the total taxes they pay on real and personal property. Buildings are defaced, merchandise is destroyed, cleaning and house-keeping cost more, fuel is wasted by imperfect combustion, vegetation is injured and even human lives are lost through the existence of the entirely unnecessary smoke nuisance.

It is being proved daily that all grades of coal can be burned without smoke. Proper furnaces and equipment and competent, well-paid firemen are necessary to accomplish this economic gain. The public is being educated to see how the pocketbook is touched, and adequate legislation will follow. Then an awakened public conscience must see that these laws are discreetly and firmly enforced. There must be no political or personal prejudice or unworthy motive if this movement is to be successful.—*American City.*

MODERN CITY PLANNING.

In every cultured country there is a remarkable interest in the art of city building, a movement which was started in Germany, and where it is still stronger than elsewhere. It was therefore not surprising that, in 1903, when the first exhibition of city building was held, Dresden was chosen as its location, and a second one was held this summer in the German capital. In future years it is expected that other nations will follow this commendable practice. For centuries German cities have been powerful and influential in the commonwealth. Especially when, with the foundation of the empire after the Franco-Prussian war, industry and trade developed in an unprecedented manner and people flocked in large numbers to the cities, which grew with surprising rapidity. And unlike France and Great Britain, where Paris and London are much more the capitals and centers of business, art, science, politics, etc., this growth of prosperity and of the population is noticeable throughout the empire, and not alone in the industrial districts. We find very large communities in the North and South, in the West and East, some of them having risen to a population of about half a million. Hamburg, Munich, Dresden, Leipzig and Breslau can be compared only with the largest American cities. The rush from the open country was often so great and sudden that new problems were presented to municipalities. Now a particular science has developed during the last twelve years, that is the art of municipal architecture, which is now taught in all technical colleges.

The difficult problem is how we can accommodate the sudden increase in population within the old city limits and how land can be provided and utilized in a systematic and practical manner. Efforts were made to find such new territory, but to preserve the old appearance and characteristic of the various towns. Building plans must not be designed according to geometrical rules, but in accordance with the exigencies of traffic and artistic considerations. In the two exhibitions a large number of models, plans and maps were placed on view demonstrating how the cities strive to combine old systems with new ones and to deal with the artistic, technical, social, sanitary and economical side of city building, and with the problem of transportation.

The building up of our communities chiefly on the Continent in Europe is the result of a conception that a ring encircles a town. The development follows a scheme which we may call the concentric plan. In other words a town grows by placing around the borders new rings or belts. This method has been our model for centuries and has found a firm place in our minds. The ring of the fortress, the walls and ditches, the tax belt where the citizens coming from the country had to pay an inland tax, the circular street and railway, they all have put a stamp upon the way of enlarging a city.

This has a harmful effect upon the economical political and traffic development of a community. Its place must be taken by a radial system, we must have rays instead of rings. This applies especially to the free spots still to be built up. These are the grave problems for any big city and Germany took the lead in realizing such projects by providing for a competition, called the "Wettbewerb fuer Gross Berlin." The foremost artists, city engineers, architects and social reformers have done their best to produce maps, sketches and models for a future

Berlin. All these were placed on exhibition and were the center of attraction at the Berlin show. However, we are wrong if we think that these projects concern only the people of Berlin and German citizens alone, for the lessons taken from that prize contest are very valuable for every large community abroad. We were therefore not surprised that numerous requests came from other German and foreign towns who wanted the exhibits loaned for a show of their own. They had to be refused except three, Dusseldorf, Antwerp and London.

As we have seen before, a principal factor is the division of a large city into wedgelike portions, the main thoroughfares being straight, long and wide, emanating from the center as rays. These all shall have one or more kinds of railways. In nearly every town we observe that the largest returns come from such radial lines and that circular railways are operated with little or no profit. From the standpoint of a traffic expert as well as with respect to monumental structures, the entire city must form a unit with distinctive features in the case of Berlin, the capital.

All towns of the old world show an abundance of curved streets, which are a great hinderance to rapid transit. But even in the recently built outer districts or suburbs we constantly meet curved streets, for the reason that they produce a wonderful picturesque effect. Germany is especially rich with such quaint old crooked roads, the delight of the German citizen and of the cultured foreigner who comes every year to view our old historic spots. It is now the question how can we maintain the picturesque artistic character of the streets and yet comply with the requirements of sanitation and transportation. The practical Yankee, having no sense for beauty and art but rather for money, would say: "Pull down old sections and build the roads straight." This is indeed the simplest way, but the effect would be an ugly town, of which America has more than enough. The modern methods are best executed in Germany and I found excellent examples in the above expositions. The system of curved streets is now being replaced by that of straight thoroughfares, but to avoid a monotonous appearance, so common in the residential sections of London and American cities, the long row of houses must be interrupted by monumental buildings, statues, artistic lamp-posts, small parks and recreation grounds, and different treatment of the street crossings. Thus in viewing along such a modern road our eye does not get tired, for the scene changes constantly.

Another notable lesson can be learned from the German city builder in the matter of the width of thoroughfares. In Great Britain and most other countries they purchase ground just so much as at present is needed for traffic in the particular section. When the latter develops after five or ten years they are forced to widen a road and purchase ground which has risen enormously in value. Besides, numerous buildings have to be pulled down to make room for the sidewalk, involving enormous costs. In Germany the town administration buys property for a street of such a large width as would be required after 20 to 50 years. Consequently when these districts are built up in the course of years and traffic has developed, the street is wide enough for its accommodation. People would say it is a waste to purchase superfluous ground in advance, but this is not the case, for that portion at present not used for a

street or sidewalk is rented to the house owner to be used as front gardens. They are compelled to do this by law or they do not receive the concession to build their houses. Thus in most new sections of the German towns we see long alleys with pretty front gardens. When necessity arises all these or only a strip of them are removed and used for the new sidewalk the old one having been turned into the widened street.

Much attention is given to a belt of forests and meadows for excursions, picnics, etc. A notable example is the Austrian capital with its wonderful natural surroundings, as we had a chance to see by maps, drawings and an immense model in the Berlin exhibition. Yet in Germany the Vienna example will not be entirely adopted, as those forests and parks make a perfectly closed geometrical ring, forming a drawback to transportation and to the extension of the city. We intend to have these green areas located at intervals around the community: intersecting the latter like a wedge in order to facilitate traffic and general development of the city. Berlin owns considerable areas of forests and large playing fields close to the city borders. The love of the German citizens for nature, especially for the forest, is well known, and in nearly every province exist so-called forest-protection leagues with thousands of members, who arouse public interest to preserve their very precious forests. Much valuable work has been achieved by them and hundreds of acres of forest area has been saved. Railways and fine smooth country roads are laid through these surroundings, insuring good transportation and pleasant drives. Inside the towns the numerous parks and promenades receive full attention and compare well with the noted American parks, which in the Berlin show occupied a whole room. We were impressed by the pictures and sketches showing the playgrounds, swimming and rowing ponds, reading rooms, driveways and wading pools of the American system. The latter were adopted by the Berlin county council immediately after the close of the exhibition. We also had a chance to see the foremost universities of the United States with their beautiful surroundings, and we envied them for the immense space available to allow such a system of laying out the college buildings and campus park. In the old world space is scarce and the houses have to be built narrower and closer together with small areas for parks.

In the same way as the park system is most up-to-date in America, so the garden cities of Great Britain, which occupied a room in the last exposition, are most nearly ideal. Port Sunlight, Letchworth and others are too well known to need description. In the German empire the garden city idea has made its appearance in the last five years and Berlin can boast of having some wonderful suburbs of this kind. Dresden and the famous workmen colonies of the cannon king, Krupp in Essen, are other notable examples.

In the matter of transportation in all cultured countries very remarkable improvements have been made hand in hand with the development of traffic. Here Germany is again far in advance of any nation in the matter of safety and protection for passengers and employees. The signal system, guarding of road crossings, sanitary conditions of compartments, stations, workshops, old age and accident insurance are yet unsurpassed and stand most in contrast with the United States, where railways are operated only for money. Berlin owns a special railway

museum, recently opened, where everyone interested will find excellent material from which a lesson can be taken. From the various diagrams and statistics placed on view we noticed that underground local lines are only yielding a profit within the city limits. In the suburbs only street cars, elevated or level railways can be profitably worked.—*Municipal Engineering.*

THE ENGINEER AND INDUSTRIAL CONSOLIDATIONS.

Engineering considerations have played an important part in many recent industrial consolidations, particularly in connection with the reduction of duplicate equipment, the improvement of existing plants, the appraisal of properties and the determination of operating and production economies. In certain lines of industry continued experience in the preparation of technical advice has led to a broadening of the functions of the consulting engineer, so that large commercial and financial problems are coming more and more to be referred to organizations of civil, mechanical and electrical experts for investigation and report. In other words, there is to-day a decided tendency to demand from the consulting engineer in certain cases an investigation and finding which a year or two ago would probably have been referred to a banking house. Important electric railway and central station projects, the establishment of new chemical processes, and the centralization of industrial plants are sure to be treated in this way to a larger degree as time passes.

A recent report of this kind by Messrs. Lockwood, Greene & Co., of Boston, on a proposed consolidation of several textile mills, affords an interesting illustration of the widening scope of the latest industrial engineering inquiry. The investigation was made for a banking house, and it involved primarily a valuation of the actual physical property, including land, buildings, machinery, water powers, water rights, and a comprehensive study of proposed capitalization and business prospects. In the two latter items the task laid upon the engineers departed from the limitations of a mere technical appraisal, and carried the work into the immediate banking field. The problems in hand required a study of earnings, expenses and dividend requirements, an examination of the manufacturing, jobbing and merchandising facilities, a survey of the effect of centralizing purchasing, supervising and selling forces, study of localities in which production is to be maintained, and consideration of transportation facilities in the territory where the plants are placed. Finally, the report required giving some attention to the stability of the particular branch of the textile industry concerned and an appraisal of the personal equation of the promoters of the consolidation.

The significance of such work is of larger interest than its technical details, since the latter must inevitably be assembled for the private information of a client. It is noteworthy that less than one-tenth of the final report, prepared by Messrs. Lockwood, Greene & Co., in the present instance was devoted to purely engineering discussion. An important technical question bearing upon water rights was, however, involved. This was the valuation of a restricted water power at a canal outlet, and it was determined by comparing the actual power used and its yearly cost with the total annual cost of maintaining an equivalent steam plant, including coal, wages, repairs, officers' salaries, insurance, taxes, deprecia-

tion and interest. The cost of operating the steam plant, which was considerably below 500 horse power in capacity, was determined to be about \$50 per horse power per year of 300 days of twenty-four hours each. The cost of operating the water power plant on the same basis was about \$12 per horse power, year. The theoretical value of the water power was obtained by capitalizing at 7 per cent the difference between the total yearly expense of running the two powers, and from this result the commercial value of the water power actually available was determined by deducting various sums for the establishment and maintenance of auxiliary steam-plant capacity, for the interruption to the water power caused by ice and reduction in head on account of high water, for the disadvantages of being obliged to run nights in order to utilize the water, leading to more rapid wear and depreciation of the machinery, less ease of repair of equipment, increased strain on the management, production of poorer goods and utilization of less efficient labor, and for the existence of the water privilege instead of an actual title.

Consideration of land values, patent rights, the possibilities of inventions, the views of the executive personnel on plant modernization, the assignment of a portion of the earnings to the plant as working capital, and an examination of accounts and previous appraisal work were necessary in rounding out the foregoing report. Included in the valuation were itemized lists of machinery, with dates of building, present cost of equivalent equipment new, the cost of setting up, depreciation allowance, and approximate net value. In these details the usual practice was illustrated, with the exception that the subdivisions were carried somewhat farther than is commonly the case, giving better checks upon the estimated present value of individual machine units. The retention of an engineering firm for the investigation of these broader industrial and financial questions involved was a real departure from the usual conception of the functions of technical advisers, and every case of this kind indicates that the engineer is at last coming to his own in the matter of appreciated professional usefulness. It is perfectly well known in the different branches of engineering that the prospect for future service is absolutely unlimited, but it is still far from realized by the public in general. A case like the one mentioned reveals a heightened influence of the engineer among non-technical clients which means not a little for the future.—*Engineering Record.*

STREET ACCIDENTS IN ENGLAND.

Statistics that are of interest to all and that deserve the consideration of municipal authorities everywhere are reported by Consul General John L. Griffiths of London.

It is stated that in the United Kingdom during 1909 there were 28,023 street accidents, of which 1,151 were fatal. Of the total number 24,684 were in England, and more than one-half of these, 13,388, were in London. The number of fatal accidents in London was 303. The report states that an estimate of the population of London by decades for the next fifty years has recently been completed and that it gives the city a population of 16,250,000 in 1960. "If street accidents increase in the same ratio as population," it continues, "the casualties for the year closing the next half century would probably be greater than in a short, sharp war."—*Good Roads.*

CONGESTION COMMISSION AFLOAT.

The New York Commission on Congestion of Population recently made a trip around the water front of the city to study the possible development of factory sites. Accompanying the commission were city officials and others especially interested in the problem. The commission was able, through the courtesy of the dock department, to study at first hand the possible development of piers, bulkheads and factories along the water front. The relation between factories and congestion is apparent, and despite the fact that Manhattan is not primarily an economic site for manufacturing, factories have been increasing in Manhattan, as the following table shows:

	Number of Factories, 1906.	Number of Factories, 1909.
Manhattan and The Bronx....	20,193	22,631
Brooklyn.....	4,911	5,414
Queens.....	597	703
Richmond.....	161	204
Totals.....	25,862	28,952

It will be noted that in the three years 1906 to 1909 nearly four-fifths of the new factories started in the city were located in Manhattan and The Bronx and the overwhelming majority were in Manhattan, while only one-eighth were located in Brooklyn and one-thirtieth in Queens.

The commission was particularly impressed by the unrelated, irregular and uneconomic development of the water front of Manhattan, both on the Hudson and East rivers.

The Harlem river was visited nearly up to Macomb's Dam Park and vast stretches of undeveloped land, admirably suited for factories, challenged the commission's attention. Newtown creek, although equally adapted to factories and the employment of scores if not hundreds of thousands of workers is practically unimproved. The city improvements on the south side are progressing rapidly.

The commission expects to finish its investigation of the water front later by inspecting the Brooklyn and Staten Island water fronts.

TWO CITIES MAY JOIN IN BUILDING DOCKS.

Mayor Cullum of Duluth, Minn., made an earnest plea for a municipal dock system in addressing the Duluth and Superior Aldermen at the Lenox Hotel, where the officials of both cities attended the banquet following a ball game in the afternoon. Mayor Cullum stated that, in his opinion, the establishment of the docks will do more for the development of the cities at the Head of the Lakes than the steel plant. He said that neither of them could make a move without benefiting the other, and he urged that they pull together for mutual advancement. He did not go into the subject in detail, but remarked that he considers it so important to both that he could not let the occasion go by without a word. He claimed that with municipal docks in full operation upon the proper scale, Duluth and Superior would be in a position to influence freight rates from the Atlantic to the Pacific. The mayor's views met with the hearty approval of those present, and his suggestion that both cities work together in each other's interests brought forth numerous seconds by later speakers.—*Municipal Journal and Engineer.*

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, OCTOBER 29, 1910.

No. 44

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, October 31, at 3 p. m.

Meeting of School Committee, Monday, November 7, at 5.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

HEARING.

A hearing will be held on the petition of DePaoli Mosaic Association, for leave to occupy a portion of wooden building for one horse, at 19 Damrell street, Ward 13, on Thursday, November 3, 1910, at 10 a. m., in the office of the Board of Health, 11 Old Court House.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Stevens, chauffeur, 1 day at \$3, \$3; Daniel J. Heffernan, chauffeur, 1 day at \$2.25, \$2.25; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, $1\frac{1}{2}$ days at \$2.75, \$4.81; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; James Donovan, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Edward Noughton, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; John McCormick, 1st, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John Egan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; James Murphy, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John McNulty, laborer, 2 $\frac{1}{2}$ days at \$2.25, \$4.99; John Cummings, repairer, 1 day at \$2.75, \$2.75; James P. McKenney, teamster, $1\frac{1}{2}$ days at \$2.25, \$2.67; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Patrick Cassidy, watchman, 1 day at \$2.25, \$2.25; Daniel O'Brien, repairer, $\frac{7}{8}$ day at \$2.50, \$1.09; John Concannon, laborer, $\frac{1}{16}$ day at \$2.25, \$0.98; Patrick Canney, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; William A. O'Connor, inspector, $\frac{1}{2}$ day at \$2.75, \$1.03; Mathew Brennan, inspector, $\frac{1}{2}$ day at \$3, \$0.38; Michael C. Sullivan, plumber, $\frac{7}{8}$ day at \$2.50, \$1.09; Richard P. Collins, inspector, $\frac{7}{8}$ day at \$2.75, \$1.55; Patrick Heffernan, repairer, $\frac{1}{16}$ day at \$2.75, \$0.52; Michael McCarthy, 2d, laborer, $\frac{1}{16}$ day at \$2.25, \$0.42; Daniel Fallon, laborer, $\frac{1}{16}$ day at \$2.25, \$0.42; William Abbott, engine man, 1 day at \$3, \$3; James Doherty, 1st, foreman, $\frac{1}{2}$ day at \$3, \$0.38; George Ryan, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Patrick Fallon, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Patrick J. Kelly, inspector, $1\frac{1}{2}$ days at \$2.95, \$4.79; Michael Hogarty, repairer, $\frac{1}{2}$ day at \$2.50, \$1.56; Thomas McKenney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Thomas Bowen, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; Peter M. Brown, teamster, $\frac{1}{2}$ day at \$2.25, \$1.13; Michael F. Burke, teamster, $\frac{1}{2}$ day at \$2.50, \$1.88; Raffael Curcio, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; David Leo, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Thomas Magee, $\frac{5}{8}$ day at \$2.25, \$1.41; Jeremiah J. McLaughlin, teamster, $1\frac{1}{2}$ days at \$2.50, \$4.69; Matthew I. Nolan, teamster, $\frac{1}{2}$ day at \$2.50, \$1.88; Timothy Noonan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; James J. O'Brien, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; John J. O'Brien, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Edward A. Pyne, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Michael Ronan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; John C. Thompson, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; Thomas Williams, teamster, $\frac{1}{2}$ day at \$2.25, \$1.69; James McMahon, laborer, 1 day at \$2.25, \$2.25; James Lyons, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; John J. Barry, repairer, 2 $\frac{1}{2}$ days at \$2.50, \$5.55; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; John McCarthy, 2d, repairer, 1 day at \$2.50, \$2.50; Martin Burke, repairer, 1 day at \$2.50, \$2.50.

Water Department (Income Division).

For the week ending Thursday, October 20, 1910:

Michael Bowen, plumber, $\frac{1}{8}$ day at \$3, \$0.56; J. J. Callahan, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; P. J. Clougherty, laborer, $1\frac{1}{16}$ days at \$2.25, \$3.52; R. J. Connorton, tester, 1 day at \$2.50, \$2.50; J. H. Cullen, plumber, $\frac{1}{4}$ day at \$3, \$0.38; M. J. Dinneen, laborer, $\frac{1}{8}$ day at \$2.25, \$2.11; T. J. Dolan, plumber, $\frac{1}{8}$ day at \$3, \$2.81; C. Fitzgerald, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; E. H. Gilmore, tester, 1 day at \$2.50, \$2.50; O. J. Gilloon, plumber, $\frac{1}{8}$ day at \$3, \$2.06; P. Ippolito, laborer, $\frac{1}{4}$ day at \$2.25, \$1.69; E. Mahoney, laborer, $\frac{1}{8}$ day at \$2.25, \$1.41; J. J. Mahoney, laborer, $\frac{1}{4}$ day at \$2.25, \$0.28; T. McAuliffe, laborer, $1\frac{1}{16}$ days at \$2.25, \$2.39; D. J. McCallion, laborer, $\frac{1}{8}$ day at \$2.50, \$2.28; F. McCarthy, laborer, 1 day at \$2.50, \$2.50; P. J. McCarthy, plumber, $1\frac{3}{8}$ days at \$2.75, \$3.01; M. M. McGrath, laborer, $1\frac{3}{8}$ days at \$2.25, \$2.60; M. Mulkern, laborer, $\frac{1}{8}$ day at \$2.25, \$2.11; J. H. O'Brien, laborer, $1\frac{3}{8}$ days at \$2.25, \$2.46; Joseph Rice, tester, $1\frac{1}{2}$ days at \$2.50, \$3.75; J. J. Roche, laborer, $\frac{1}{16}$ day at \$2.25, \$1.58; D. J. Rull, Jr., plumber, $\frac{1}{2}$ day at \$3, \$0.38; P. A. Russell, laborer, $1\frac{1}{16}$ days at \$2.25, \$3.23; J. J. Shea, laborer, 1 day at \$2.25, \$2.25; Daniel Sullivan, laborer, $1\frac{1}{16}$ days at \$2.25, \$2.95; J. Sullivan, laborer, $1\frac{1}{16}$ days at \$2.25, \$3.52; T. J. Sullivan, plumber, 1 day at \$3, \$3; M. P. Welch, plumber, $1\frac{1}{16}$ days at \$2.75, \$3.61.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending October 27, 1910:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

On October 27 the Mayor approved a contract with the J. E. Locatelli Company, Inc., for building the Domestic Administration Building, as under item No. 1 of the proposal. Bids on this work, opened October 19, were as follows:

J. E. Locatelli Company, Inc., \$60,387; John F. Griffen & Co., \$61,817; Charles F. Brown, \$66,716; Woodbury & Leighton Company, \$69,412.

On October 27 the Mayor approved a contract with Edwin C. Lewis, Inc., for electrical work in the Domestic Administration Building. Bids on this work, opened October 19, were as follows:

Edwin C. Lewis, Inc., \$8,239; Alfred J. Hixon, \$8,731; Lord Electric Company, \$8,820; Barnes-Pope Electric Company, \$9,380.

On October 27 the Mayor approved a contract with J. J. Hurley & Co. for installing heating system in the Domestic Administration Building. Bids on this work, opened October 19, were as follows:

J. J. Hurley & Co., \$5,046; Pierce & Cox, \$5,233; James P. Dwyer, \$5,300; Albert B. Franklin, \$5,391; Brian & Brown, \$6,012.

On October 27 the Mayor approved a contract with Pierce & Cox for installing plumbing system in the Domestic Administration Building. Bids on this work, opened October 19, were as follows:

Pierce & Cox, \$4,632; Wells & Newton, \$4,951; John O'Connell, Inc., \$5,150; Robert F. Brown, \$5,519.

PARK DEPARTMENT.

On October 24 the Mayor approved a contract with William L. Dolan for laying brick pavement in Prince Street Playground. Bids on this work, opened October 4, were as follows:

William L. Dolan, \$2,975; James H. McCarthy, \$2,990; Fred S. & A. D. Gore Corporation, \$3,100; Smith, Alden & Co., \$3,143; Commonwealth Construction and Supply Company, \$3,250; A. Piotti, \$3,529; John F. O'Connell, \$3,900; John McCourt & Co., \$3,940.

STREET DEPARTMENT (Highway Division).

On October 21 the Mayor approved a contract with the Commonwealth Construction Company for building a concrete wall at Blackwood street. Bids on this work, opened October 17, were as follows:

Commonwealth Construction Company, \$1,150; Coughlan & Sheils Company, \$1,349; John F. O'Connell, \$1,400; Luke

D. Mullen, \$1,475; J. H. Ferguson, \$1,479; D. M. Biggs & Co., \$2,500.

On October 27 the Mayor approved a contract with Bernard R. Coullahan for painting the fixed spans of the Dover Street Bridge. Bids on this work, opened October 21, were as follows:

Bernard R. Coullahan, \$1,400; W. L. Waples Company, \$1,750; George T. Rendle, \$1,950; United States Sand Blast and Waterproofing Company, \$2,500.

STREET DEPARTMENT (Sewer Division).

On October 27 the Mayor approved a contract with the Power Equipment Company for furnishing and erecting two steam turbine driven centrifugal pumps. Bids on these pumps, opened September 1, were as follows:

Power Equipment Company, \$36,063; The Terry Steam Turbine Company, \$41,980; General Electric Company, \$46,394.

SUPPLY DEPARTMENT.

On October 21 the Mayor approved a contract with the Metropolitan Coal Company for furnishing coal for public buildings and for various departments not otherwise provided for. Bids on these goods, opened October 17, were as follows:

	3,000 Tons Broken.	1,600 Tons Egg.	800 Tons Stove.	900 Tons Bituminous.	300 Tons Screenings.
Metropolitan Coal Company.....	\$5 20	\$5 70	\$5 70	\$3 98	\$2 25
Batchelder Brothers.....	5 50	6 25	6 25	4 25	2 50

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Addition, amounting to \$40.80, on contract with C. F. Brown for Women's Cottage Building, on account of miscellaneous additions and deductions resulting in net addition as above.

Original contract, \$8,040; total additions, \$1,667.80; total deductions, \$55; contract as standing, \$9,652.80.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances, made by the superintendent, have been approved by the Mayor:

Michael Greene, Sanitary Division, 30 days at \$2.25, \$67.50.

WATER DEPARTMENT.

The following allowances, made by the commissioner, have been approved by the Mayor:

Jeremiah Sullivan, Distribution Division, 23 days at \$2.25, \$51.75; John Geary, Distribution Division, 25 days at \$2.50, \$62.50; Michael Galvin, Distribution Division, 26 days at \$2.25, \$58.50.

APPROVAL OF LEASE.

The Mayor has approved a lease of offices in Huntington Chambers numbered 610 to 613, both inclusive, for use of the milk inspection division of the Health Department, for three months ending January 31, 1911, at a yearly rental of \$1,800. It is provided that this lease may be further extended at same rental until October 31, 1913.

PETITIONS GRANTED.

The following petitions, granted by the Board of Street Commissioners, have been approved by the Mayor:

Signs.—Thomas Crowther & Co., 170 Oliver street; Samuel S. Levy, 6 Avery street; Noah Bubelatsky, 57 Lowell street; Samuel Tacnear, 12 Ashland street, Ward 8; Gaetano De Leva & Co., 347 Hanover street; Jims Cannizzaro, 295 North street; Lewis Cohen, 141 Charles street; J. Block, 130 Prince street; Simon Gold, 52 Howard street; H. D. Harrington, 48 Hartford street, Ward 7; Harris Poznar, 24 Guild row; H. Shulman (two), 1056 Washington street; Alfred Charles Garsia, 30 Pinckney street; John A. Corcoran, 363A Dudley street; Cuoco Euplio, 99 Washington Street North; Louis Berkowitz, 11-13 Avon street; Joe Lassof, 56 Pearl street, Ward 7; P. J. Kinnier, 197 Webster street, Ward 2; Martin A. DeOrio, 126 Salem street; The Globe Metal Work Company, 11 Dundee street.

Illuminated Signs.—Jacob Dreyfus & Sons, 68-70 Summer street; S. Heleotis, 22 Dock square; A. Saskoris, 2109 Washington street; Annibale Polcari, 2 Garden Court street; Nesmith Shoe Company, 37 Otis street; J. S. Cutting & Co., 10 City Hall avenue; Goodwin Brothers, 320 Meridian street; Blake Motor Company, 2176 Washington street; John Ambrose, 47 Cottage street, Ward 2; Louis A. Curtis, 660 Washington street; Marget Brothers, 7-9 Elm street; S. Wood, 576 Tremont street; Michael J. Gallagher, 25 Roxbury street; James L. Halloran, 241 Dorchester street; F. A. Pearson, 9 Cornhill; F. A. Pearson, 44 Brattle street; Martin P. F. Curley, 113 Dudley street, Ward 21; Joseph J. Halifax, 848 Washington street; Maurice O. Graves, 64 Melcher street, Ward 13; Martin A. DeOrio, 126 Salem street; Regal Shoe Company, corner Tremont and Court streets; Petts-Vogel Company, 343 Washington street; Frank Malfa, 7 Dundee street; Ward 22 Republican Committee,

91 Boylston street; Edward C. R. Bagley, 270-272 Meridian street; Abraham M. Mogulsky, 6 Cooper street; S. J. McLean, 74 Boylston street; M. Yatter, 4 Hayward place; A. Levy, 266 Devonshire street; Joseph Gangemi, 317 Washington street, Ward 25; Weiss & Park, 650 Blue Hill avenue; Richard Murray, 40 Charles street, Ward 11; Ward 6 Republican Club (two), 149 Salem street, Ward 6.

Gasolene.—Vinal Motor Renting Company, 112 Worcester street; Orville R. Chadwell, 793 Centre street; C. F. Haven, 32 Eliot street, Ward 7; T. J. Coolidge, 93 Back street, Ward 11; James Walker, 112 Corey road; A. W. Cox, 601 Commercial street; James A. Houston, 74 Maple street, Ward 21; Lamb & Co., 500 East First street, Ward 14; John B. Doherty, 22 Esmond street.

To Close Roadway.—Maynard street, Ward 23, during repairs; Superintendent of Streets, Quint avenue, during repairs.

Areas.—James A. Lowell, 203-207 Essex street; 10-14 East street.

Street Railway Location.—West End Street Railway Company, Dartmouth street, Columbus avenue to Huntington avenue.

Pole Locations.—New England Telephone and Telegraph Company, erect two on P street, Ward 14; two on K street, Ward 14; two on Sterling street, Ward 18; five on Nightingale street, Ward 24. Edison Electric Illuminating Company, to erect and remove one pole on Hemenway street, Ward 10; New England Telephone and Telegraph Company, to remove two on Dorchester avenue, Ward 20; New England Telephone and Telegraph Company, to remove one on Sunderland street, Ward 21; Charlestown Gas and Electric Company, to erect one on Polk street, Ward 3; New England Telephone and Telegraph Company, to erect and remove one on Centre street, Ward 23; Edison Electric Illuminating Company, to erect and remove one on Centre street, Ward 23; Edison Electric Illuminating Company, to transfer two poles to the Western Union Telegraph Company on Washington street, Ward 23; New England Telephone and Telegraph Company, to transfer one pole to the Edison Electric Illuminating Company on Belfort street, Ward 20; Edison Electric Illuminating Company, to remove one on Waltham street.

Sidewalk Covers.—Trustees John T. Bradlee, corner State street and Chatham row.

Guy Ropes to Trees.—Daniel Marr & Son, Beacon street, opposite Brimmer street.

Permit to Plant Trees.—F. A. Lasky, 15 Primrose street, Ward 23.

Bulkhead Opening.—Giuseppina De Feo, 6 Bartlett place.

Guy Wire to Tree.—New England Telephone and Telegraph Company, opposite 15 Atlantic street, Ward 15.

Marquise.—The New Richwood Hotel, 254-258 Tremont street, Ward 7.

CLAIMS.

On October 27 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

John A. Rooney, \$536.14, on account of damages due to breach of contract in the construction of a sewer on Florence street, West Roxbury, December 27, 1905.

James B. Fitzpatrick, \$25, on account of personal injuries caused by defect in sidewalk at 980 Tremont street, January 15, 1909.

Sarah McLaughlin, \$50, on account of personal injuries caused by defect in sidewalk at 620 East Eighth street, South Boston, January 10, 1910.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.

1910.

- Nov. 3. Greek Art.
 Nov. 10. Japanese Art.
 Nov. 17. The Aesthetic Ideals of Greece and Japan.
 Dec. 1. Carthage. George B. Dexter.
 Dec. 8. Cortona, a Hill Town of Italy. Eben F. Comins.
 Dec. 15. The Passion Play of Oberammergau. Rev. Thomas I. Gasson, S. J.
 Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.
 1911.
 Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.
 Jan. 12. *Photography in relation to Illustration. J. Horace McFarland.
 Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.
 Jan. 26. *The Paper and Binding of Books. Cedric Chivers.
 Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.
 Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.
 Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.
 Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.
 March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.
 March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.
 March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.
 March 23. Switzerland and the Rhine. Henry Warren Poor.
 March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

* Under the auspices of the Society of Printers.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight o'clock.

1910.

- Nov. 21. A Western Outdoor Trip. Mary E. Haskell.
 Dec. 12. Norway and the North Cape. Frederick M. Brooks.
 1911.
 Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).
 Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
 March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
 April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

EDISON HOUSES.

There is to be a cement products display at Madison Square Garden, New York, in the middle of December, and a feature of the show will be molds and a concrete house built by the Edison plan. A set of steel molds, six in number, will cost \$25,000, but can be used for the construction of an indefinite number of houses. It will take about four days to set up the molds for a house. The concrete will require fourteen days to harden. With a set of molds a hundred and forty-four houses can be built in a year. The cost would be about \$1,200 for a house 25 feet by 30 feet. The molds are so constructed as to admit of a good deal of variation of exterior appearance. Already the American Sheet and Tin Plate Company has built 200 workmen's cottages at Gary, using such molds.

HOW WIDE SHOULD A STREET BE?

In an article by the editor of the *Municipal Engineering Magazine* (February, 1910) he says: "The general consensus of opinion is that roadways should be narrowed to correspond with the traffic over them. The business streets and those with street railway tracks may need 40 to 48 foot driveways, and main lines of travel into the residence district or out to main country roads without street car tracks need 30 to 40 foot driveways. The average residence street has no use for a paved roadway more than 24 to 40 feet wide.

"The breadth of view which is claimed as one of the beauties of wide streets is not interfered with by narrowing the roadway, while the near view of grass, flowers, shrubs and trees is much more acceptable than the bare basement.

"The narrow streets are also far more sanitary. All dirt and slush dries up on the pavement and blows about as dust into houses, vehicles and persons passing, but there are none on the grass plots. The narrow pavements are much easier and cheaper to clean and to keep sprinkled, if this treatment is followed, and they are farther from the houses, so that the unsanitary conditions are less pronounced as well as more easily removed.

"Trees grow better on the wider grass plots and their number may perhaps be materially increased. Their shade as well as the less area of sun reflecting on hard pavements diminish the temperature, thus adding greatly to comfort.

"Then the pavement of the roadway costs less in proportion to its area, and a reduction of a third in width means a reduction of a third in costs.

"The uselessness of a wide pavement, the waste of money in building it, the beauty of the area not paved, which can be obtained for the cost of maintaining the pavement, are unanswerable arguments."

In the *Municipal Journal and Engineer* (October, 1909) is the following regarding Coronado City, Cal.:

"In this city the roadways are in general 48 feet between curbs, but it is proposed to make them 32 feet wide, the present 16-foot sidewalk being increased to 24, a considerable portion of which will be improved by grass plots and trees."

Reference is made to several instances of narrow streets in other cities, as follows: "Prairie avenue, Cottage avenue and several millionaire residence streets in Chicago are 30-foot streets. Kansas City's residence portion has miles of similar narrower and parked streets, making an impressive effect as cool, shady avenues. Sacramento, Woodland, Chico and even San Diego have adopted this sensible plan for residence streets."

It is understood that in this quotation the word "street" refers to the roadway only, or the distance between curbs.

"A resident of Sacramento states that he spent some time with a tape on the streets of Seattle and found most of the roadways of the residential streets to be only 24 feet wide, some of the newer streets being only 20 feet. One street in the best residential section was 26 feet between curbs and had 6-foot stretches of parking through the center of this space, leaving only 10-foot roadways on either side. These streets are paved with asphalt."

New York City has adopted a rule for the width of streets, fixing 30 feet as a minimum width where there is a single track street car line and 40 feet for a double tracked street. In streets from 60 to 66½ feet in width between property

lines the width between curbs is fixed at one-half the total width.

Pasadena regulates the width of roadway in proportion to the length of the street, 65-foot streets to 1,500 feet in length being fixed at 30 feet, from 1,500 to 3,000 in length the width is 32 feet and from 3,000 to 5,000 in length the width is increased to 34 feet.

The citizens on some of the streets in Visalia, if the same are paved, will ask that the board of trustees fix by ordinance a sidewalk width of 15 feet, leaving 36 feet between curbing, or 10 feet less than at present.—*Pacific Municipalities*.

INDUSTRIAL COMPENSATION AT CHENEY SILK MILLS.

Cheney Brothers, silk manufacturers of Manchester, Conn., who have for some years maintained a noncontributory pension system for long service as well as a mutual tuberculosis benefit association, have this summer improved and extended their benefit association to cover sickness and accident, annuities and death benefits. Though the firm bears the full expense of work-accident and death payments, only members of the general association who pay 2 per cent of their wages toward sickness and death from disease payments and annuities payable after a certain age and term of service are eligible to compensation for industrial accident. The compensation is therefore tied up with a contributory system, and in so far is inferior to the Harvester and Steel Corporation plans, which apply to all employees on a really noncontributory basis. The system in the Cheney mills is a pure compensatory scheme, throwing the burden of the accident on the industry, except in cases of culpable negligence on the part of the workmen. The amount of the benefits stands midway between the other two plans, the death benefit being three years' wages and moderate funeral expenses; total incapacity, for which payment begins after three days, half pay for a maximum of six years; partial incapacity, half the difference between pay received before and after the accident—the payment, that is, is based not on the nature of the injury but on the amount to which it handicaps the worker. All payments are increased 1 per cent for each year's service beyond five years, and 5 per cent for each child under sixteen, but no increase can exceed 25 per cent. All medical and surgical expenses are paid.

The total contributions of employees, increased by a 25 per cent contribution from the firm, are used for the sickness and annuity fund. Only the proportion of the employee's contribution which would be used on his annuity is recoverable if he leaves the firm. In case of death the annuity contribution, with 4 per cent interest, is paid to the dependants of the deceased; in case of the marriage of a woman employee the same amount is paid to her as dowry. The sickness benefit is one-half pay for fifty-two weeks and one-quarter for a further period of the same length. In cases of confinement the firm requires a woman belonging to the benefit association to stay away fourteen weeks at least, eight of which are to be before her baby is born.

In consequence of the fact that all work-accident payments, all running expenses and all risks are paid by the firm, Cheney Brothers reserve the right to appoint the treasurer and a majority of the board of trustees.—*The Survey*.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR SUPPLYING A MOTOR COMBINATION CHEMICAL ENGINE AND HOSE WAGON.

Proposals for supplying a motor combination chemical engine and hose wagon for the City of Boston will be opened on Monday, November 14, 1910, at 12 o'clock noon, at the office of the Fire Commissioner on Bristol street. Apparatus to be equipped with one 35-gallon chemical tank, 350 feet chemical hose, two extension ladders and necessary tools, and arranged to carry from 800 to 1,000 feet 2½-inch hose. Bids should be marked "Proposal for furnishing Motor Combination Chemical Engine and Hose Wagon," and made in duplicate, one forwarded to the City Auditor at City Hall previous to the time mentioned for opening bids, the other to this office. The right is reserved to reject any and all bids. A bond will be required before contract is let.

CHARLES D. DALY,
Fire Commissioner.

(Oct. 29.)

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building concrete wall, fence, etc., at the Prescott School, Elm street, Charlestown, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, November 4, 1910, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(Oct. 29.)

CITY OF BOSTON.

PROPOSALS FOR FLOUR.

The Penal Institutions Commissioner invites proposals to supply the House of Correction, Deer Island, with 300 barrels, more or less, of hard wheat flour, and to furnish a bond in a surety company of \$500, if required by the commissioner. Said flour to be delivered on or before November 30, 1910, on board the steamer "Monitor" at Eastern Avenue Wharf, Boston, Mass. Specifications and sample of the grade as the standard may be obtained at office of the Penal Institutions Commissioner, 32 Tremont street. Proposals will be received until November 3, 1910, at 12 m., when the same will be publicly opened. The commissioner reserves the right to reject any or all bids. A duplicate of bid must be filed with City Auditor at or before same time.

FRED S. GORE,
Commissioner.

(Oct. 29.)

CITY OF BOSTON.

PROPOSALS FOR FILLING, SLOPE PAVING AND FENCE, FREEPORT STREET.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for filling, slope paving and fence in Freeport street (westerly side) at Commercial Point Bridge, Dorchester, and giving bond therefor of a surety company approved by the superintendent, to secure the due performance of the contract and the full protection of the city. Specifications and forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Filling, Etc., Freeport Street," and left at the said office of the Superintendent of Streets before 12 m. of Friday, November 4, 1910, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 27, 1910. (Oct. 29.)

CITY OF BOSTON.

PROPOSALS FOR DRAWING AND MANUAL TRAINING SUPPLIES.

The Boston School Committee invites proposals for furnishing and delivering to the supply room, Mason street, materials for the above studies, same to be marked for the various school buildings. Proposals may be obtained at the office of the Auditor of the School Committee, Room 53, 168 Tremont street, and bids covering the proposal must be received by the undersigned on or before Thursday, November 10, at 11 o'clock a. m. The bid must be made in duplicate, one to be sent to the Auditor of the School Committee as above, and the other sent direct to the City Auditor, City Hall. The right to reject any or all bids is reserved.

WILLIAM J. PORTER,
Auditor.

(Oct. 29.)

CITY OF BOSTON.

TO MASON CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building concrete wall, fence, etc., at the George Putnam School, Columbus avenue, Roxbury, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Wednesday, November 2, 1910, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

(Oct. 29.)

CITY OF BOSTON.

PROPOSALS FOR FLOUR.

The Boston Infirmary Department invites proposals for furnishing flour to the Boston Almshouse and Hospital, Long Island, and the Almshouse, Charlestown, and giving bond of a surety company for \$500. Only proposals obtained at the office of the department, 28 Court square, Room 3, signed by bidder and left before 12 m. of Thursday, November 3, 1910, at said office, with certified check for \$50, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. The department reserves the right to reject any and all bids. The bids should be inclosed in a sealed envelope and marked "Proposals for Flour for the Boston Infirmary Department." A duplicate copy of the proposals must be filed at the City Auditor's office (without check) at the same time proposals are left at the Boston Infirmary Department.

EDWARD M. GALLAGHER,
Chairman.

(Oct. 29.)

CITY OF BOSTON.

PROPOSALS FOR ASPHALT PAVEMENT AND REGULATING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for asphalt pavement and regulating Massachusetts avenue, (southerly roadway) between Columbus avenue and Washington street, city proper, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office, before 12 o'clock m. of Tuesday, November 1, 1910, with a certified check for \$300, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best, and no proposals will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Asphaltting Massachusetts Avenue."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 27, 1910. (Oct. 29.)

CITY OF BOSTON.

PROPOSALS FOR THE REMOVAL OF SNOW AND ICE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for the removal of snow and ice in the six snow districts as shown in the form of contract and specification on file in the office of the superintendent. The contractor will furnish the necessary teams, horses, harnesses, men, etc., and submit a price for each cubic yard of snow and ice actually removed from the streets and dumped at the places designated by the superintendent. The contract is to be made from November 15, 1910, until January 31, 1911, with the privilege on the part of the city of extending until May 1, 1911, providing sufficient appropriation is made by the city government. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Thursday, November 10, 1910, with a certified check for \$200 for each district, or \$1,200 for all the districts, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The successful bidder must furnish a bond of a surety company approved by the superintendent. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best. The proposal should be inclosed in an envelope, sealed, and marked "Proposal for Removing Snow."

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, October 27, 1910. (Oct. 29-Nov. 5.)

CITY OF BOSTON.

STREET DEPARTMENT.

Notice is hereby given that no permits to make excavations in the city streets for building sewers or laying pipes, wires, etc., will be issued from the office of the Superintendent of Streets after

NOVEMBER 15, 1910,

except under an emergency or in a case of extreme necessity. All persons or parties having any rights in the city streets are requested to forthwith apply for permits to make all necessary repairs to sewer or water connections, or any other pipes or structures needing attention, as all such applications will be refused after the above date.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 13, 1910. (Oct. 29-Nov. 5.)

CITY OF BOSTON.

STATE ELECTION.

City Clerk's Office, October 26, 1910.

In accordance with the provisions of Chapter 560 of the Acts of 1907, and any amendments thereof, or additions thereto, notice is hereby given that meetings of the citizens of this city, qualified to vote for State officers, will be held in the several polling places designated for the purpose by the Board of Election Commissioners on

TUESDAY, THE EIGHTH DAY OF NOVEMBER NEXT.

and all such citizens will on said date, in the several precincts in which they are entitled to vote, give in their votes for Governor, Lieutenant Governor, Secretary of the Commonwealth, Treasurer and Receiver General, Auditor of Accounts, Attorney General, Representatives in Congress, District Attorney, Sheriff, Councillors, Senators and Representatives in the General Court, as follows: One representative in Ward 7, three in Wards 4 and 5 (said Wards constituting one district), three each in Wards 20 and 24, and two in each of the remaining Wards.

The polls at said meetings will be opened at six o'clock A. M., and closed at four o'clock P. M.

Attest: JOHN T. PRIEST,
(Oct. 29-Nov. 5.) City Clerk.

WASTE IN UNREDEEMED CEMENT SACKS.

During the months of March and April the Universal Portland Cement Company used about 3,000,000 cloth sacks in excess of the number returned by customers for credit. For these sacks the company pays at the rate of 10 cents each, which means that their customers have \$300,000 coming to them from this source. Another interesting feature of the matter is that while the company carries a tremendous reserve stock of empty sacks the largest stock could not be expected to stand a drain at the rate of 1,500,000 a month for any considerable length of time.—Municipal Engineering.

PROCEEDINGS OF CITY COUNCIL.

Friday, October 21, 1910.

Special meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Curley.

The Clerk read the call for the meeting as follows:

City of Boston,

Office of the Mayor, October 18, 1910.

To the Members of the City Council:

You are hereby requested to assemble in the City Council Chamber on Friday, October 21, at three o'clock p. m., to take action on a petition of the Boston Elevated Railway that your honorable body approve its becoming a common carrier of newspapers, baggage, express matter and freight upon the car lines operated by it in this city.

According to the terms of chapter 402 of the Acts of 1907, under which this petition is filed, if your honorable body fails to act upon it within sixty days from date of filing, the petitioner may appeal to the Railroad Commissioners, who shall render the final decision. The date of the filing of the petition was August 24, and the interval of sixty days will expire on October 23.

I assume that on so important a question, affecting the whole relation of the railway company to the public, the City Council will wish to go on record, and it is for this purpose that I have issued this call.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

RECESS TAKEN.

The Council voted at 3.08 p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 3.52 p. m.

EXECUTIVE COMMITTEE.

Coun. HALE, for the Executive Committee submitted a report on petition of the Boston Elevated Railway Company, lessee (referred September 12), for permission to operate as a common carrier of newspapers, baggage, express matter and freight on tracks of West End and Old Colony Street Railway Companies in City of Boston—dismissing the petition without prejudice, viz.:

The petition of the Boston Elevated Railway Company is for the right to use at any hour of the day or night all of its tracks in the City of Boston for the purpose of carrying freight and express matter. The petition raises the question which, in the opinion of the City Council, is one of the most important that has been submitted to the City Council of the City of Boston for decision. It is not necessary for the purposes of this report to discuss in detail the many dangers to which the granting of this petition would expose our citizens, but it is proper to call the attention of the public to the fact that such dangers do exist and cannot lightly be disposed of. If such petition is granted the city government should be certain that the passenger service is not to be impaired. The Council believes that the city's interests would be better served by an improvement of the passenger system at the present time than by granting the railroad's broad petition for the carriage of freight through the public streets at any hour of the day or night. The improvement of passenger service is a problem of exceeding difficulty for any city; the difficulty is an extraordinary one in the case of Boston because of the physical conditions existing. Most of the travel between Boston's outlying cities and towns runs north and south, and much of it must pass under, over or on the streets running north and south lying between the water front and the Charles River Basin. These streets are already taxed almost to the limit of their surface capacity and it would seem that the improvement of the passenger service can be brought about, not by the addition of more trolley cars on the surface, but by the construction of additional subways and tunnels beneath the surface.

This reasoning is made clearer when the relation of the steam railroads to the metropolitan district passenger traffic is taken into consideration. It is well known that the steam railroads cannot successfully compete with the trolley lines for the passenger traffic of the metropolitan district. The principal reasons are relatively low cost of operation by trolley in short distance passenger service as compared with the steam railroad cost and the large terminal charges which the steam railroads have to pay, but which the trolley lines are not required to meet. It is sufficient to point out the fact that the proportion of the entire number of passengers carried in the metropolitan district has been increasing in the case of trolley lines far more than in the case of steam railroads. In the last ten years the increase in the number of passengers carried by trolley lines in the state is at least double the increase in the number of passengers carried by the steam railroads in the state; and the increase in the metropolitan district must have been considerably more than twice as great in the case of trolley lines than in the case of steam railroads. It is apparent, therefore, that this com-

munity must depend largely upon the street railways for improvements in the passenger service.

The difficulties which the street railways will have to meet in the near future in providing for the increased passenger traffic are enormous. The difficulty which exists on account of the physical limitations in the City of Boston will be multiplied as the population increases. The population in the metropolitan district increased in the fifteen years from 1890 to 1905 over 40 per cent and there is no doubt that in the fifteen-year period ending in 1920 the increase will have been more than 40 per cent. It is fair to assume that the population of the metropolitan district by 1935, twenty-five years from the present time, will be at least three millions. In other words, in twenty-five years the difficulties in passenger service in this district will be twice as great as they are now unless improvements are made on a scale of great magnitude, including the construction of additional tunnels and subways. In the execution of these improvements the surface capacity of the streets running north and south between the water front and the Charles River Basin will be taxed to their extreme limit in order to meet the needs of passenger service. It is difficult, therefore, to conceive that the city as a whole would receive benefits resulting from the granting of trolley freight privileges on such streets that would be commensurate with the loss caused by the disturbance to passenger traffic.

If the petitioners have a plan which shows that such difficulties can be met the City Council ought to have at least the benefit of the submission and explanation of such plan. No such plan has, in fact, been submitted. The Council has not received any explanation of the proposed methods of the street railway company handling freight which would clear the doubts herein expressed. If this petition were granted on the presentation of the case already made by the street railway company no member of the Council would be able to give an intelligent explanation of his affirmative vote. The only course which is left for the City Council, therefore, is to reject the petition and to request the petitioners to file a new petition accompanied by plans and schedules showing the means of handling the freight traffic and furnishing the running time and routes of freight cars. With such a plan before it, supplemented by explanation of transportation experts, the Council would be in a position to make an intelligent adjudication of the matter. It is not possible to make such an adjudication under present conditions.

The Council insists, however, that the street railway company should file a new petition and not take the case before the Railroad Commissioners, as the law gives them the right to do and which they could do in this case because the Council's failure to act is wholly due to the company's failure to give the Council sufficient information to guide it in making a decision. The City of Boston, through its representatives in the City Council, is entitled to the privilege of hearing the case fully upon its merits and making an adjudication thereon. The Council, therefore, urges that the street railway company give the city this opportunity.

The City Council does not take this position because of any antagonism to the petitioners, or because they do not realize that under proper conditions and restrictions the granting of the privilege of carrying freight may not be of great value to the community. It is only because the presentation of the case of the petitioners has failed to give the Council sufficient information upon which to act intelligently in the interests of the City of Boston that it is obliged to dismiss the petition. The petition is dismissed without prejudice and with the recommendation that a new petition accompanied by plans and schedules be filed as soon as the same can be prepared.

Report accepted and petitioner given leave to withdraw without prejudice, yeas 8, nays 0.

Adjourned at 4.54 p. m., on motion of Coun. BRAND.

Mr. Royall Parsons of Washington, D. C., was a guest of President Ballantyne.

Monday, October 24, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Hale.

The Council voted on motion of Coun. ATTRIDGE to dispense with the reading of the records of the last two meetings.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, viz.:

Thirty-five traverse jurors were drawn for the Superior Civil Court, October Sitting, to appear November 14, for the First to Seventh Sessions respectively, viz.:

First Session: Carl V. P. E. Hammerich, Ward 22; J. Dean Swift, Ward 24; W. Clifton Jones, Ward 8; Albert A. Golden, Ward 6; Michael H. Smith, Ward 15; Walter G. Merriam, Ward 16; Fred S. Webster, Ward 20; Florence A. Lawler, Ward 24; John A. Amrhein, Ward 19; Henry N. Richards, Ward 11; Herbert L. Hammond, Ward 23; Emanuel A. Shaw, Ward 24; Frank Hall, Ward

15; Gustaf F. Elofson, Ward 18; John P. Godard, Ward 9; Louis Goldstein, Ward 18; Frank E. Bennett, Ward 20; Anton E. Rlander, Ward 24; Charles P. King, Ward 11; William S. Jones, Ward 21; Ralph Beven, Ward 15; Thomas Stuart, Ward 19; Andrew H. Gamble, Ward 5; Charles S. Woodward, Ward 17; Ellery Franks, Ward 22; Henry M. Choate, Ward 10; Edward R. B. Rankin, Ward 11; Joseph H. Burke, Ward 24; Lawrence G. O. Nicholl, Ward 25; Norman N. Lochhead, Ward 10; Joseph Gross, Ward 18; Charles W. Morse, Ward 20; George J. Regan, Ward 20; Robert A. Pohl, Ward 22; Harry M. Peyser, Ward 9

Second Session: Dennis J. Mahoney, Ward 21; William F. O'Brien, Ward 19; Alva E. Burk, Ward 1; William R. Gortley, Ward 14; Wilson N. Palmer, Ward 10; William E. Evans, Ward 23; John J. Mahoney, Ward 17; John Graham, Ward 15; William Wilson, Ward 20; Augustine J. Haley, Ward 14; Peter P. Mooney, Ward 15; Joseph Gardella, Ward 24; Thomas F. Mooney, Ward 10; William H. Somersall, Ward 19; Henry A. Gee, Ward 5; T. Edward Sheehan, Ward 20; John E. Murray, Ward 13; John W. Armstrong, Ward 14; Selden C. Cassaboorn, Ward 24; Thomas Allen, Ward 11; Charles A. Smith, Ward 12; George W. Merrill, Ward 10; John N. McDonald, Ward 24; Frank B. Mitchell, Ward 10; Thomas E. Ranehan, Ward 17; William F. Green, Ward 15; Joseph Girardin, Ward 16; Frederick F. Lambert, Ward 8; James P. Donovan, Ward 10; Joseph L. Crowley, Ward 20; Michael F. Cruise, Ward 16; Peter A. Metzler, Ward 22; John F. Coleman, Ward 20; Joseph Caro, Ward 1; Elisha J. Nunan, Ward 16.

Third Session: Daniel J. Roche, Ward 15; Bernard McGowan, Ward 17; Peter G. Henderson, Ward 20; Clifton D. Black, Ward 22; Dennis H. Donovan, Ward 19; Carlton W. Baxter, Ward 16; William C. Safford, Ward 11; Thomas A. Carter, Ward 18; Edwin F. Barnard, Ward 15; David F. Crowley, Ward 22; John H. Lyons, Ward 16; William Kirby, Ward 7; Alfred Stetefeld, Ward 24; Frank M. Tupper, Ward 11; Joseph Utley, Ward 18; Patrick H. Rafferty, Ward 14; Joseph H. Kelley, Ward 19; Nicholas J. Furlong, Ward 3; H. Warren Wheeler, Ward 11; Henry Molloy, Ward 2; Edward R. Pierce, Ward 7; Morris Weinburg, Ward 13; William B. Holder, Ward 1; Chester H. Whitten, Ward 20; George H. Lang, Ward 20; John D. Batefeld, Ward 16; Homer R. Colman, Ward 21; Peter J. O'Connor, Ward 13; Frank E. Woodworth, Ward 20; John F. Dixon, Ward 24; Thomas J. Downey, Ward 18; William J. Lynch, Ward 1; William V. Forsaith, Ward 19; Charles W. Watt, Ward 7; John Higgins, Ward 24.

Fourth Session: John Gates, Ward 23; Jakob Berninger, Ward 2; Frederick W. Brown, Ward 22; John J. Hines, Ward 23; John C. Crowley, Ward 19; Henry Thomas Dudley, Ward 15; John A. Cronin, Ward 10; Harry C. Daggett, Ward 11; Chester E. Kendrick, Ward 23; Andrew Zbrocky, Ward 16; Jeremiah A. Fitzgerald, Ward 24; William C. Adams, Ward 25; Paul Hennessey, Ward 17; George W. Thompson, Ward 24; Robert McCullagh, Ward 21; John Schaadt, Ward 24; Seymour Freedman, Ward 10; John E. Kelley, Ward 23; John J. Goslin, Ward 17; John A. Pezzetti, Ward 22; William C. Taylor, Ward 16; John McFadden, Ward 3; Fred M. Kimball, Ward 23; Daniel Linehan, Ward 15; Barnet Gordon, Ward 8; Thomas E. Murphy, Ward 19; Walter G. Crowther, Ward 20; John S. Redhough, Ward 20; Albert F. Campbell, Ward 14; Peter L. Besse, Ward 22; Marshall G. Clarke, Ward 8; Mark Lowder, Ward 22; Stephen T. Slatery, Ward 20; Allan C. McNair, Ward 1; Fred L. Torrey, Ward 10.

Fifth Session: William Hayes, Ward 20; Timothy F. Doyle, Ward 23; Samuel J. Morton, Ward 2; Winfield S. Reid, Ward 23; Joseph W. Collins, Ward 14; Lester A. Magoun, Ward 23; Frank L. Locklin, Ward 24; Adam Willhauck, Ward 19; Fred G. Osborn, Ward 12; Frederic C. Tisdale, Ward 24; Raphael Gordon, Ward 18; Timothy D. Leonard, Ward 9; Joseph Picardi, Ward 6; Ferdinand Peterson, Ward 14; Robert E. Dyer, Ward 13; Walter S. Tooker, Ward 25; Walter F. Raymond, Ward 17; Patrick Clancy, Ward 24; Alfred D. Gore, Ward 24; Giuseppe Moretti, Ward 6; George McKeever, Ward 13; Sydney C. Newcomb, Ward 9; Harry Eggleston, Ward 16; James A. Boyd, Ward 20; Silas T. Hatch, Ward 24; Gideon L. Rumney, Ward 1; Michael J. Brennan, Ward 3; David B. Howsberger, Ward 16; John F. Leonard, Ward 17; John H. Hildreth, Ward 10; Morris Goldstein, Ward 8; Stephen A. Pope, Ward 24; Timothy Collins, Ward 20; Edward Nagle, Ward 4; Silas S. Westcott, Ward 21.

Sixth Session: Charles Barker, Ward 8; Matthew F. Sheehan, Ward 20; Alexander Martikie, Ward 24; George E. Dudley, Ward 24; Frank Nason, Ward 2; John H. Broderick, Ward 23; Matthew F. Collins, Ward 15; Edward F. Kennelly, Ward 21; Lawrence H. Priest, Ward 12; William O. Randall, Ward 19; Nathaniel F. Ayer, Ward 11; John J. Coffee, Ward 14; Thomas Hurley, Ward 13; George Hirschel Moulton, Ward 8; Daniel Lynch, Ward 9; John W. Publicover, Ward 21; William A. Boyle, Ward 13; William H. Boutillier, Ward 15; John Johnson, Ward 12; Joseph F. Willett, Ward 20; Isaac C. Judkins, Ward 20; John T. Lane, Ward 1; Timothy Shaughnessy, Ward 25; George L. Partridge, Ward 11; John F. Noone, Ward 5; Thomas E. F. Kemp, Ward 25; John P. Keltie, Ward 23; Thomas J. Kearney, Ward 14; Frank S. Jarvis, Ward 19; Edgar E. Gillette, Ward 23; John A. Bent, Ward 20; Watson W. Kilcup, Ward 24; Edward R. Browne, Ward 18; Joseph P. Jordan, Ward 4.

Seventh Session. Thomas Lehane, Ward 7; William P. Bryant, Ward 3; Richard Zapf, Ward 23; Francis A. Welch, Ward 8; Sherman S. Barrows, Ward 20; Eli Heffron, Ward 5; Waldo E. Sprague, Ward 21; Harold V. True, Ward 25; Edward J. Whelan, Ward 2; Arvid M. Anderson, Ward 22; George M. Anderson, Ward 21; Thomas C. Lynch, Ward 17; John P. Lanergan, Ward 17; John M. Manning, Jr., Ward 23; Henry Roberts, Ward 24; John Murphy, Ward 23; Francis L. Clarke, Ward 2; George H. Corbett, Ward 10; Charles F. Adams, Ward 22; Clifton W. Nelson, Ward 22; Charles M. Chase, Ward 8; Robert J. Culbert, Ward 12; Joseph W. Loveland, Ward 1; Henry M. Sondheim, Ward 21; Charles H. Johnson, Ward 11; Daniel S. McKay, Ward 25; Ezra W. Spinney, Ward 12; Daniel G. McFarland, Ward 22; James H. Lynch, Ward 20; James H. Dolan, Ward 23; Thomas J. O'Brien, Ward 21; Charles W. Campbell, Ward 20; Robert F. Arnold, Ward 16; Charles H. Smith, Ward 24; William G. Bell, Ward 21.

Forty-one traverse jurors were drawn for the Superior Criminal Court, to appear November 9, viz.:

Luther A. Wixon, Ward 25; Thomas J. Lane, Ward 15; Charles R. McCool, Ward 9; John Bowman, Ward 15; William Pomroy Jenkins, Ward 12; Adelbert Nye, Ward 17; Simon Robinson, Ward 19; John J. Hurley, Ward 13; Frank T. Coffin, Ward 12; William D. Carr, Ward 24; Almond W. Davis, Ward 10; Arthur W. Bond, Ward 24; Charles L. Evans, Ward 19; Edward J. Fay, Ward 24; Fred W. Stalder, Ward 20; Patrick Reilly, Ward 22; Herman Seuffert, Ward 23; Daniel J. Sullivan, Ward 9; Philip J. Long, Ward 22; James B. Fitzgerald, Ward 10; George B. Grant, Ward 24; Harry T. Drummond, Ward 17; David A. Mahoney, Ward 17; Joseph J. Hunt, Ward 14; Charles A. Sawyer, Ward 1; Christopher J. Crowley, Ward 14; Perley K. Griffin, Ward 24; Charles W. Martin, Ward 25; Rufus L. Sewall, Ward 11; Patrick J. Coogan, Ward 14; Peter F. Egan, Ward 23; Frederick H. Hayward, Ward 15; George J. Speers, Ward 23; Fred C. Macintosh, Ward 10; Herman W. Kreppel, Ward 22; John Young, Jr., Ward 22; Thomas J. Higgins, Ward 10; James T. Sullivan, Ward 25; Ernest F. Rich, Ward 24; Frederick P. Broadley, Ward 23; David J. Collins, Ward 20.

Fourteen petit jurors were drawn for the United States Circuit Court, to appear November 9, viz.:

John E. Campbell, Ward 9; John T. Middleton, Ward 20; Michael H. Good, Ward 18; Norman J. McPherson, Ward 23; James Burke, Ward 8; Leon C. Mason, Ward 24; John H. McKinley, Ward 23; Frank J. Hartleb, Ward 16; Alexander D. McKay, Ward 23; D. Frank Hackett, Ward 20; John P. Hunt, Ward 20; Joseph A. Peters, Ward 11; Albert A. Blodgett, Ward 17; Charles M. Carlton, Ward 6.

APPOINTMENTS BY THE MAYOR.

The Mayor submitted the following appointments, subject to confirmation by the Council, viz.:

- (1) Joseph E. Allen (29 Howard street, Ward 6), a Constable of the City of Boston for the term ending April 30, 1911.
- (2) Ira W. Forsaith (16 Hawthorne street, Watertown) and James Conroy (50 Wexford street, Ward 25), Inspectors of Pressed or Bundled Hay and Straw for the term ending April 30, 1911.
- (3) Nathan E. Bates (236 Saratoga street, Ward 1), a Constable of the City of Boston for the term ending April 30, 1911.

Laid over under the law.

CONSOLIDATION OF DEPARTMENTS.

The following was received:

City of Boston,

Office of the Mayor, October 17, 1910.

To the City Council:

It is my belief that the city departments or divisions of departments which have charge of public recreation, in the broadest sense of the word, might be consolidated with a considerable saving in expense and a still greater increase in efficiency. These departments and divisions, with their appropriations for maintenance for 1910, are as follows:

Park Department.....	\$390,400
Public Grounds Department.....	148,200
Bath Department.....	176,100
Mayor's Office, Public Celebrations.....	41,001
Music Department.....	19,000
Total.....	\$774,701

To this sum might be added the cost of the care and equipment of the playgrounds and children's corners which are temporarily under the charge of the School Committee. With this addition the total appropriations for this purpose in the year 1910 would amount to about \$800,000. No account is taken in this summary of the expenditures for the metropolitan park system or of capital charges.

The Park and Public Grounds Departments do work so similar that the distinction between them seems to be merely a nominal one. The Bath and Park Departments also perform similar functions,

in part, the former having charge of the public baths and gymnasiums, while the latter conducts both baths and outdoor gymnasiums in several of the playgrounds under its control. The summer concerts of the Music Department are chiefly given in parks where the permanent music stands are located, and the appropriation for public celebrations is used for athletic games and music as well as for entertainments of a miscellaneous character.

While each of these departments has done good work under the conditions imposed upon it, there is no doubt that substantial improvements could be made. Certain items of expenditure could probably be curtailed, but more particularly the work could be laid out on a broader plan so that a final balance would be maintained between the needs of the different sections of the city and the claims of the different branches of the service. Though actual friction may seldom arise, there is a lack of correlation when activities which from their nature should be parts of a single harmonious system are carried on separately, each branch working out its own results without comparison or consultation with the others.

Rational recreation for congested city populations is now recognized as a form of social hygiene, a powerful preventive of disorder and disease and a wise investment for any municipality. The subject should be looked at as a whole and a due proportion observed among the various recreative functions performed by the city. This, in my judgment, may best be accomplished by bringing all these functions together under a single department.

Under section 5, chapter 486, of the Acts of 1909, the Mayor and the City Council are empowered to "reorganize, consolidate or abolish departments, in whole or in part; transfer the duties, powers and appropriations of one department to another, in whole or in part, and establish new departments."

I respectfully submit this proposition to you and invite your earnest consideration to the promise which it yields of increased efficiency and economy in one of the most important departments of the city service.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Referred to the Executive Committee.

RELEASE OF LAND.

The following was received:

City of Boston,

Office of the Mayor, October 15, 1910.

To the City Council:

I beg to recommend the passage of a preamble and order accompanying a notification from the Board of Schoolhouse Commissioners, to the effect that a parcel of land containing 279 square feet, taken from Jonathan H. Mann *et al.*, is no longer required for public purposes.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Boston, October 13, 1910.

To the Honorable the City Council:

Gentlemen,—The Board of Schoolhouse Commissioners of the City of Boston, having charge of the parcel of land on Common and Warrenton streets in said Boston, which was taken for school purposes by an order and statement of the Board of Street Commissioners of said city, recorded with Suffolk Deeds on the twenty-eighth day of June, 1910, in Lib. 3464, page 282, hereby notifies you that in its opinion a portion of said premises, to wit, a parcel of land containing 279 square feet, more or less, taken as aforesaid from Jonathan H. Mann *et al.*, is no longer required for public purposes.

CHARLES LOGUE,

JOHN H. KENNEDY,

SCHOOLHOUSE COMMISSIONERS.

Whereas, The Board of Street Commissioners, under authority conferred upon said Board by acts of the Legislature of the Commonwealth of Massachusetts, did take for school purposes, by an instrument recorded with Suffolk Deeds on the twenty-eighth day of June, 1910, certain lands situate on Common and Warrenton streets in said Boston, including a parcel of land containing 279 square feet, more or less, supposed to belong to Jonathan H. Mann *et al.*; and

Whereas, The Board of Schoolhouse Commissioners, having charge of said lands taken as aforesaid, has notified the City Council that in its opinion the above-mentioned parcel of land containing 279 square feet, more or less, taken from Jonathan H. Mann *et al.*, is no longer required for public purposes; it is hereby

Ordered, That the Mayor be and he is hereby authorized in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50, of the Revised Laws, to release and convey to the persons who were the owners thereof at the time of said taking said parcel of land containing 279 square feet, more or less, as particularly described in said instrument of taking, in consideration of the release by said Jonathan H. Mann *et al.*, and by all persons claiming under them, of all claims against the City of Boston for damages on account of said taking, and upon such other terms as the Mayor shall consider proper.

Referred to the Committee on Public Lands.

PARK DEPARTMENT TRANSFERS.

The following was received:

City of Boston,

Office of the Mayor, October 20, 1910.

To the City Council:

I transmit herewith a letter of the chairman of the Board of Park Commissioners, recommending three transfers of appropriations or balances of appropriations, two of which I approve and have incorporated in the accompanying orders, which I hereby recommend for passage.

The transfers approved are those of a balance of sixteen hundred sixty-seven dollars and twenty-eight cents (\$1,667.28) from the appropriation for Marine Park, pier head, completion of, to the appropriation for playgrounds, Ward 13; and the appropriation of five thousand dollars (\$5,000) for recreation ground, M. N., East Eighth and East Ninth streets and Columbia road, to an appropriation for Strandway, grading of, fences, etc.

I have disapproved of the transfer suggested by the Park Commissioners of five hundred dollars (\$500) for an appropriation for Wood Island Park, flag staff, to an appropriation for Wood Island Park, bandstand, and have requested them to erect the flag staff.

I trust that your honorable body will see fit to accept the suggestions of the Park Commissioners as set forth in their letter appended hereto, and will pass the orders as recommended by me.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Board of Commissioners of the
Department of Parks,

October 18, 1910.

Hon. John F. Fitzgerald, Mayor,

City Hall, Boston:

Dear Sir,—The Boston Park Commission acknowledge receipt of a note from your secretary of October 8, 1910, asking whether there are any balances or items in the auditor's bulletin list which could be transferred for other purposes than those contemplated when the loans were authorized.

There is an unexpended balance of \$1,667.28 remaining from the appropriation made for a building at the end of the pier at Marine Park. We should very much like to do something to make the end of the pier at Marine Park in better condition; but this sum is too small to do anything effective at that place. We therefore recommend that this sum be transferred to the account of the playgrounds at West Third and West Fifth streets, South Boston, for construction and equipment of these new playgrounds.

At Wood Island Park we have an appropriation of \$500 for a bandstand and another of \$500 for a flag pole. We recommend that the appropriation for the flagpole be transferred to the sum assured for the bandstand, making a sum of \$1,000, for which a suitable bandstand could probably be erected at Wood Island Park.

At South Boston we have an appropriation of \$5,000 for leasing a piece of ground on M and N streets, also ground on Eighth and Ninth. The Board has repeatedly decided that it is not desirable to lease the ground in question and they recommend that the appropriation be transferred to the account of the Strandway Playground, where there is an area of roughly filled ground that should be graded and where there should be fences and loam borders for tree planting. Besides other equipments are greatly needed.

Yours truly,

ROBERT S. PEABODY,
Chairman.

Ordered, That the City Auditor be, and hereby is, authorized to transfer the sum of \$1,667.28, being the balance taken from the appropriation for Marine Park, pier head, completion of, to an appropriation for playgrounds, Ward 13.

Ordered, That the City Auditor be, and hereby is, authorized to transfer the appropriation for recreation ground, M. N., East Eighth and East Ninth streets and Columbia road, amounting to \$5,000, to an appropriation for Strandway, grading of, fences, etc., to be expended under the direction of the Board of Park Commissioners.

Referred to the Executive Committee.

PERMITS FOR FANEUIL HALL.

The following was received:

City of Boston,

Office of the Mayor, October 20, 1910.

To the City Council:

I beg to transmit for your information the accompanying copy of a letter from the Corporation Counsel concerning the authority to issue permits for the use of Faneuil Hall.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,

Law Department, October 17, 1910.

Hon. John F. Fitzgerald, Mayor,

City Hall, Boston:

Dear Sir,—Your inquiry concerning the authority to issue permits for the use of Faneuil Hall was received.

In my opinion permits should be granted by the Superintendent of Public Buildings. The present ordinance concerning the permits for the use of Faneuil Hall was passed in 1894 prior to the statute amendments of 1895 and of subse-

quent years which took away from the Board of Aldermen all executive business. The statute at present in force, being section 8 of chapter 486 of the Acts of 1909, provides that neither the City Council nor any member or committee thereof shall take part in the care, custody and management of the public works, buildings or other property of the city, nor in the conduct of the executive or administrative business of the city or county.

The Superintendent of Public Buildings having the care, custody and management of Faneuil Hall, a building belonging to the city, it is not within the power of the City Council under the present charter to take any part in the management of the building or to say to whom it shall be let.

Yours respectfully,
THOMAS M. BABSON,
Corporation Counsel.

Placed on file.

Coun. ATTRIDGE—I think that that communication at this time would raise the question as to whether the Committee on Faneuil Hall which now exists as a committee of this Council is a valid and proper one, and I think that it would be best for the Council to take up that matter in the Committee on Executive Session. And if there is no objection I move a reconsideration of the action.

The PRESIDENT—If there is no objection the action will be rescinded and the matter referred to the Executive Committee.

There being no objection the matter was referred to the Executive Committee.

REIMBURSEMENT OF FIREMEN.

The following was received:

City of Boston,
Office of the Mayor, October 20, 1910.

To the City Council:

I beg to inclose a request of the Fire Commissioner that the City Council authorize him to reimburse certain employees of the department who suffered personal losses at the fire of August 9 from fire box 58. An opinion of the Corporation Counsel is appended, together with a copy of an order of the Common Council, dated May 7, 1896, which furnishes a precedent on which any action taken by your body might be based; a communication from the Fire Commissioner giving a list of the losses sustained by members of the Fire Department at the so-called Roxbury fire, and a statement of the articles lost by members of the department at the fire of August 9, 1910. With the last-named schedule are some figures that may serve as a basis for an estimate of the amount which it would be necessary to set aside for the reimbursement of the employees affected.

The amount involved is evidently a moderate one, and in view of the precedents cited and the circumstances of the case I beg to recommend the passage of the accompanying order.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the Fire Commissioner be, and hereby is, authorized to reimburse the members of the Fire Department for the losses sustained by them at the repair shop fire on August 9, 1910, according to the schedule prepared by him and filed with a communication of his Honor Mayor Fitzgerald to the City Council at its meeting of October 24, said sum to be charged to the appropriation for the Fire Department.

City of Boston,
Fire Department, October 17, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—I have the honor to inclose statement of losses of firemen in the fire of August 9 and to request that the City Council authorize me to reimburse these members.

I inclose herewith a copy of an opinion from Corporation Counsel Babson. I understand that similar action was taken after the "Roxbury Fire," a copy of which order authorizing the payment to members reimbursing them for losses sustained I inclose for your information.

Respectfully,
CHARLES D. DALY,
Commissioner.

Clothing and Apparel of Members Lost or Stolen
at Albany Street Fire, August 9, 1910.

John E. Corea, Engine 12, 1 undercoat,	\$11.50; 1 cap, \$1.75.....	\$13 25
George S. Gormley, Engine 14, 1 undercoat,		8 00
John J. Collins, Ladder 4, 1 pair rubber boots.....		2 00
John Hogan, Ladder 4, 1 cap.....		75
J. F. O'Hare, Ladder 4, 1 rubber coat.....		2 00
F. C. Shannon, Engine 43, 1 cap.....		1 50
		<u>\$27 50</u>

Boston Fire Department,
Repair Shop, September 16, 1910.

To the Fire Commissioner:

Sir,—I respectfully report the following articles as lost by me at Fire Department repair shop fire of August 9, 1910, and for which I desire reimbursement:

1 uniform coat.....	\$22 50
1 uniform vest.....	4 50
1 uniform pants.....	5 00
1 uniform pair buckskin gloves.....	1 50
1 rubber coat.....	4 00
1 pair anti-flat foot shoes.....	9 00
	<u>\$46 50</u>

Said shoes being necessary for injuries received in Fire Department, caused by being knocked from ladder while performing fire duty, and charged to Firemen's Relief Fund, with approval of Fire Commissioners Wells and Parker.

Respectfully submitted,
JOHN J. KELLY,
Repair Shop.

Boston Fire Department,
Repair Shop, October 3, 1910.

To the Fire Commissioner:

Sir,—I respectfully report the loss of the following articles in the repair shop fire of August 9, 1910:

1 uniform coat (new).....	\$25 00
1 uniform.....	22 00
2 blue flannel shirts at \$2.....	4 00
1 uniform vest.....	3 50
1 uniform black shirt.....	1 25
1 pair buck gloves.....	1 50
1 pair rubber boots.....	3 50
2 pair shoes.....	10 00
5 suits underwear.....	5 00
6 pairs socks.....	1 50
1 pair uniform trousers.....	5 00
	<u>\$82 25</u>

Respectfully submitted,
V. B. BUCKLEY,
Engineer.

Boston Fire Department,
Repair Shop, September 16, 1910.

To the Fire Commissioner:

Sir,—I respectfully report the following articles lost by me at the repair shop fire, August 9, 1910:

1 uniform coat.....	\$12 50
1 rain coat.....	4 00
1 glazier's diamond.....	3 00
	<u>\$19 50</u>

The above articles were kept in my closet in the repair shop.

Respectfully submitted,
D. J. FITZGERALD,
Master Painter.

City of Boston, Law Department,
73 Tremont Street, October 7, 1910.
Charles D. Daly,
Fire Commissioner,

Bristol Street, Boston:
Dear Sir,—Yours of the 6th instant in which you request my advice as to the proper method of reimbursing members of your department for clothing and property lost, stolen or burnt in repair shop fire of August 9, 1910, was received.

There is no legal liability on the part of the city to reimburse firemen for property lost, stolen or burnt in a fire any more than there is to reimburse any citizen whose property was lost or burnt in a fire. Before any of these claims are paid it would be necessary to obtain an order of the City Council authorizing you to reimburse members of the Fire Department for the loss of clothing and other personal property lost or burnt in the fire at the repair shop on August 9, 1910. As such a reimbursement would be somewhat of a dangerous precedent if the order is passed great care should be exercised, seeing that the parties were not given new things for loss.

Yours truly,
THOMAS M. BABSON,
Corporation Counsel.

City of Boston,
In Common Council, May 7, 1896.

Ordered, That the Fire Commissioner be hereby authorized to reimburse the members of the Fire Department for the losses sustained by them at the Roxbury fire, May 15, 1894, according to the schedule reported by the Fire Commissioners to the City Council January 28, 1895, not exceeding the sum of \$2,300; said sum to be charged to the appropriation for Fire Department.

Passed. Sent up for concurrence. In Board of Aldermen, May 11, concurred. The foregoing order was presented to the Mayor May 12, 1896, and was not returned by him within ten days thereafter.

A true copy.
Attest: JOHN T. PRIEST,
Assistant City Clerk.

Office of the Fire Commissioner,
Boston, September 9, 1896.

Andrew J. Bailey, Esq.,
Corporation Counsel, Boston:

Dear Sir,—Inclosed please find order from the City Council relating to payment to firemen for losses sustained at the Roxbury fire in 1894. Will you please direct me as to my authority to pay those members who since the losses referred to have, for various reasons, left the department?

Yours truly,
H. S. RUSSELL,
Commissioner.

In my opinion persons who were members of the Fire Department on May 15, 1894, and whose personal effects were lost by the burning of Fire Department house on that day are entitled to reimbursement under the law and order.

A. J. BAILEY,
Corporation Counsel.
Referred to the Executive Committee.

REPLACING OF REPAIR SHOP.

The following was received:

City of Boston,
Office of the Mayor, October 24, 1910.
To the City Council:
Supplementing my communication of September 12, which was accompanied by a provisional estimate of the cost of replacing the repair shop of the Fire Department, burnt in the fire of August 9, I beg to recommend the passage of the accompanying loan order appropriating ninety-six thousand dollars (\$96,000) for this purpose. A letter of the Fire Commissioner on this subject is appended for your information.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Ordered, That the sum of ninety-six thousand dollars (\$96,000) be appropriated, to be expended under the direction of the Fire Commissioner for Fire Department repair shop, and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

City of Boston,
Fire Department, October 21, 1910.

Hon. John F. Fitzgerald, Mayor:
Sir,—I have the honor to request that the City Council be asked to take action at once authorizing a loan to cover the estimated cost of the new repair and construction shop. The architects have completed their estimate, and have found that a first class four-story fireproof building will cost at the outside figure \$95,000.

The plans for the new building include an additional story and an extension of the boiler room. The floors, which are to be of concrete, are figured for a live load of 250 pounds. The elevator has been figured to lift a load of 9 tons. The outside figure for the entire building is at the rate of 19½ cents per cubic foot which, for a building of this character, is considered reasonable.

The architect's estimate is as follows:

Building.....	\$54,650
Elevator.....	10,000
Steel frame.....	18,000
Heating.....	2,500
Electric lighting and fixtures.....	2,000
Sprinklers.....	2,500
	<u>\$89,650</u>
Architect's commission.....	5,379
Total.....	<u>\$95,029</u>

I request that whatever action is necessary for authorizing this loan be taken as soon as possible.
Yours respectfully,

CHARLES D. DALY,
Commissioner.
Referred to Committee on Finance.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Albert S. Nason, to be allowed a larger annuity than that previously granted him.

Bernard E. Grant, for a hearing on his claim for loss of a horse while in the employ of the Street Department.

James E. Southern, to be paid for personal injuries received while in the employ of the city.

Dennis Glynn, to be paid for the loss of his eye while employed by the city.

Edward Rogan, to be compensated for time lost on account of an accident which occurred while he was employed in the Street Department.

Peter Poulos, for compensation for damage to his property at 10 Howard street by a defective standpipe.

Miss M. Masse, for compensation for damage to her clothes by being splashed with mud while walking on Charles street.

Katie Daley, for compensation for injuries caused by a fall at 131 London street, East Boston.

Lorenzo Bevilacqua *et al.*, to be paid for the loss of a horse and harness by a defective manhole in Belgrade avenue.

Lipofsky & Spiegel, for a hearing on their claim to damages to estate 21 Allen street.

Public Lands.

Charles Lawton, for a release of the city's interest in land at 28 Austin street, Milton.

Executive Committee.

Petitions for sidewalks were received, as follows:

(Gravel with Granite Edgestone.)

Walter H. Turner, 209-211 Boylston street, Ward 22.

(Brick.)

William E. Wight, 260-261 Quincy street, Ward 16.
Annie M. Schneider *et al.*, 43, 47, 49, 49½, 51 Yeoman street, Ward 17.
Joseph Goldinger, 40-46 Pope street, Ward 1.

(Artificial Stone with Granite Edgestone.)

John Booth, 198-200 Leyden street, Ward 1.
John A. Webster, 19-33 Gladstone street, Ward 1.
Henry M. Williams *et al.*, trustees, 79, 85, 87, 89 Portland street, Ward 6.
David Gallis, 28-30 Staniford street, Ward 8.

F. T. Fuller, corner of Lincoln street and Dorchester avenue, Ward 20.
Hales W. Suter, 773-785 South street, Ward 23.
Joseph Lyons, 298-300 South street, Ward 23.

F. P. Jaques, 30 Carruth street, Ward 24.
Mrs. M. J. Frost, 223 Neponset avenue, Ward 24.
Michael F. Carroll, 171 King street, Ward 24.
Frank Manloe, 52-54 Edson street, Ward 24.
Mrs. J. E. Dodge, 100 Richmond street, Ward 24.
G. O. Goudey, 976 Blue Hill avenue, Ward 24.
Louis Burrows, 1062-1068 Blue Hill avenue, Ward 24.

Joseph I. Stewart, 1111 Blue Hill avenue, Ward 24.

Joseph Rubenstein, Chestnut Hill avenue, Ward 25.

Arthur G. Jones, 25-29 Linden street and 20 Farrington avenue, Ward 25.

John Beck, 201 Pleasant street, Ward 10.
W. W. C. Spencer, 547-549 Columbus avenue, Ward 12.

Joseph Grank, 47-49 Glenway street, Ward 20.
Hooper & Waters, 652-660 Centre street, Ward 22.
George V. Wattendorf, 9 Edison green, Ward 16.
F. A. Corbett, 8-20 Eastman street, Ward 16.

Remonstrance of Ellen Hart *et al.* against the laying of edgestone in front of their estates on Edge Hill street.

Daniel D. Lee, to be paid for ducks killed by dogs.

Boston Social Union, for a hearing relative to the suppression of unnecessary noise.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received.
Placed on file.

CONSTABLE'S BOND.

The City Treasurer, after having approved of the constable's bond of Thomas A. Matthews, submitted the same to the City Council.
Approved by the City Council.

NOTICE OF HEARINGS.

Notice of hearings on October 26 were received from the Harbor and Land Commissioners, viz.:

On petition of City of Boston to fill solid on westerly side of Freeport street in Teanean creek.

On petition of City of Boston for license to dump snow and ice into tide water.

Notices were received from the Railroad Commissioners of hearings on October 18, viz.:

West End Street Railway Company, petition for approval of order extending time on 292d location.

West End Street Railway Company, on petition for approval of 328th location.
Placed on file.

POLE LOCATIONS.

Copy of order was received from Street Commissioners giving permission to Charlestown Gas and Electric Company to erect one pole on Polk street, Ward 3.
Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received from the following-named parties certifying that certain buildings have been used for the storage of explosives according to law, and stating that they propose to use for same purpose for the ensuing year, viz.:

Iver Johnson Sporting Goods Company, 155-157 Washington street, Ward 6.

Perrin, Seamans & Co., 57 Oliver street, Ward 7.
Taxi-Service Company, corner Newbury street and Massachusetts avenue, Ward 11.

A. Shuman, 90 Commonwealth avenue, Ward 11.
John M. E. Morrill, 156 Centre street, Ward 20.

W. A. Rumpf, 18 Mill street, Ward 24.
Placed on file.

MILITIA ENROLLMENT.

Notice was received by the City Clerk from the Assessing Department, under section 8 of chapter 604 of the Acts of 1908, that the number of persons in the City of Boston liable to enrollment in the militia is found to be 117,379.

Placed on file.

MINORS' LICENSES.

The President submitted reports on petitions for minors' licenses for thirty-two newsboys, one boot-black and seven vendors, and asked the approval of the Council on the same.

The several petitions were approved by the Council on the usual conditions.

COUNTY ACCOUNTS.

Coun. ATTRIDGE, for the Committee on County Accounts, submitted a report on the pay roll lists (referred today) of the Registry of Deeds—that said list be approved and payment made to the amount of \$3,375.34.

Report accepted; payments approved by the Council.

REPORTS OF COMMITTEES.

The PRESIDENT—The Chair will call the attention of the Committee on Ordinances to the fact that there are a number of matters in the hands of that committee that ought to be attended to at once. What is the pleasure of the Council? They must be reported on within three weeks or given further time.

Coun. BUCKLEY—I move they be given further time.

Coun. ATTRIDGE—Mr. Chairman, I think that that motion is somewhat indefinite. The Council at this time cannot tell how long a time further time is. If the time was what I consider a reasonable time I would be willing to favor it but I cannot favor a motion which simply states that further time be allowed the committee.

Coun. BUCKLEY—I will amend that motion by making it one week, if that is not too long.

The PRESIDENT—If there is no objection to the amendment Coun. Buckley's motion comes in its amended form, giving the Committee on Ordinances one week further time to report, and it is so voted.

NOTIFICATION OF STATE ELECTION.

Coun. COLLINS offered an order—That the City Clerk be and is hereby directed to give notice, by advertising the same as required by law, that meetings of the citizens of this city qualified to vote for state officers will be held at the several polling places designated for the purpose by the Board of Election Commissioners, on Tuesday, the eighth day of November next, for the election of Governor, Lieutenant-Governor, Secretary of the Commonwealth, Treasurer and Receiver General, Auditor of Accounts, Attorney General, Representatives in Congress, District Attorney, Sheriff, Councilors, Senators and Representatives in the General Court as follows: one Representative in Ward 7, three in Wards 4 and 5 (said wards constituting one district), three each in Wards 20 and 24, and two each in the remaining wards.

The polls at said meetings will be opened at six o'clock a. m., and closed at four o'clock p. m.
Passed.

CLOSING OF STREET.

Coun. COLLINS offered an order—That the Police Commissioner be authorized to close to travel by vehicles, except fire, police, hospital and mail wagons, North Harvard street, Ward 25, between Stadium street and the Cambridge line, on Saturday, November 5 and 12, during such hours as in his opinion said closing may be necessary for the safety and convenience of the public.
Passed.

CONFIRMATION OF APPOINTMENTS.

President BALLANTYNE called up Nos. 1 and 2, unfinished business, viz.:

Action on appointments submitted by the Mayor October 10, viz.:

1. William A. Blossom to be a Constable of the City of Boston for the term ending April 30, 1911.

2. Samuel A. Campbell, Willis H. Cole, William R. McDonough and William A. Staples to be Weighers of Coal, and Daniel P. Walker to be an Inspector of Pressed or Bundled Hay and Straw.
The question came on confirmation. Committee —Coun. Kenny and Buckley. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

RELEASE OF LAND.

President BALLANTYNE called up No. 3, unfinished business, viz.:

3. Whereas, The Board of Street Commissioners, under authority conferred upon said Board by acts of the Legislature of the Commonwealth of Massachusetts, did take for school purposes, by an instrument recorded with Suffolk Deeds on the twenty-eighth day of June, 1910, certain lands situate on Common and Warrenton streets in said Boston, including a parcel of land containing 1,356 square feet, more or less, supposed to belong to Benjamin Lancy; and

Whereas, The Board of Schoolhouse Commissioners, having charge of said lands taken as aforesaid, has notified the City Council that in its opinion the above-mentioned parcel of land containing 1,356 square feet, more or less, taken from Benjamin Lancy, is no longer required for public purposes; it is hereby

Ordered, that the Mayor be, and he is hereby, authorized in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50, of the Revised Laws, to release and convey to the said Benjamin Lancy said parcel of land containing 1,356 square feet, more or less, as particularly described in said instrument of taking, in consideration of the release by said Lancy, and by all persons claiming under him, of all claims against the City of Boston for damages on account of said taking, and upon such other terms as the Mayor shall consider proper.

Whereas, The Board of Street Commissioners, under authority conferred upon said Board by acts of the Legislature of the Commonwealth of Massachusetts, did take for school purposes, by an instrument recorded with Suffolk Deeds on the twenty-eighth day of June, 1910, certain lands situate on Common and Warrenton streets in said Boston, including a parcel of land containing 20,200 square feet, more or less, supposed to belong to the Massachusetts General Hospital; and

Whereas, The Board of Schoolhouse Commissioners, having charge of said lands taken as aforesaid, has notified the City Council that in its opinion the above-mentioned parcel of land containing 20,200 square feet, more or less, taken from the Massachusetts General Hospital, is no longer required for public purposes; it is hereby

Ordered, That the Mayor be, and he is hereby, authorized in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50, of the Revised Laws, to release and convey to the said Massachusetts General Hospital said parcel of land containing 20,200 square feet, more or less, as particularly described in said instrument of taking, in consideration of the release by said Massachusetts General Hospital, and by all persons claiming under it, of all claims against the City of Boston for damages on account of said taking, and upon such other terms as the Mayor shall consider proper.

On October 10 the foregoing orders were read once and passed, yeas 7, nays 0.

The orders were passed a second and final time, yeas 7, nays 0.

PAYMENT OF MONTHLY PAY ROLLS.

Coun. BRAND offered an order—That the salaries of all city and county employees on monthly pay rolls be allowed and paid on or before November 23, in anticipation of the December draft, and on or before December 23, in anticipation of the January draft; and the heads of departments are hereby requested to submit their pay rolls to the City Auditor in season to have this order carried into effect.

Passed.

CONSTRUCTION OF FLINT STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to construct Flint street with sidewalks thereon from Norfolk street to Forest Avenue Station, under the provisions of chapter 137 of the Acts of 1893.

Passed.

SIDEWALKS, EAST BOSTON.

Coun. BUCKLEY offered an order—That the Superintendent of Streets make a sidewalk along Saratoga, Moore and Bennington streets, Ward 1, at the property of the Star of the Sea Roman Catholic Church, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestone, under the provisions of chapter 437 of the Acts of 1893.

Passed.

CLAIMS.

Coun. BUCKLEY, for the Committee on Claims, submitted the following:

(1) Report on petition of the Johnson Educator

Company for compensation for damage to property etc., caused by break in water main on Tremont street January 3, 1910—recommending the passage of the following:

Ordered, That there be allowed and paid to the Johnson Educator Company the sum of \$2,000 in compensation for damage to stock of goods, loss of business, etc., caused by the bursting of a water main in Tremont street January 3, 1910, the business being located at 215 Tremont street, said sum to be charged to the appropriation for Water Department.

(Recommended by the Water Commissioner.)
Report accepted; and order assigned to the next meeting, on motion of Coun. KENNY.

(2) Report on petition of George W. Brown (referred June 13) to be compensated for expenses incurred by him while a driver of the prison van—recommending the passage of the following:

(Coun. BUCKLEY dissents.)

(Acting as County Commissioners.)

Ordered, That there be allowed and paid to George W. Brown the sum of \$175 for expenses incurred by him in settlement of a claim against him as driver of the prison van, said sum to be charged to the appropriation for County of Suffolk, Jail.

The question came on accepting the report.

Coun. KENNY moved assignment of the matter to the next meeting.

Coun. COLLINS—Mr. President, I move you, sir, that that report be recommitted to the Committee on Claims. My reason for making that motion is that at the last meeting of the committee there was scarcely a quorum there. I believe a subject of this kind should receive the consideration of all the members. Accordingly I move that the report be recommitted.

Coun. BUCKLEY—Mr. Chairman, I beg the gentleman's pardon; there were three out of five members present at that committee meeting. There was a quorum.

Coun. COLLINS—If the gentleman will excuse me, I said there was just a quorum.

Coun. KENNY withdrew his motion to assign, and the matter was recommitted to the Committee on Claims.

Coun. COLLINS—Mr. President, since a hearing has been advertised for four o'clock and a number of people are waiting for it, it seems to me we ought to keep the engagement with the public by adjourning now. Accordingly, if there is no other pressing business before us, I move that we do now adjourn.

President BALLANTYNE—Coun. Collins moves that the Council take a recess subject to the call of the Chair.

The motion to take a recess was declared carried, and Coun. CURLEY doubted the vote, and the motion to take a recess was declared lost.

Coun. COLLINS—Mr. President my motion was to adjourn.

The motion to adjourn was declared lost, and Coun. BUCKLEY, for the Committee on Soldiers' Relief, offered a report. Coun. COLLINS doubted the vote on adjournment.

President BALLANTYNE—The doubting of the vote is too late, other business having intervened.

SOLDIERS' RELIEF.

Coun. BUCKLEY, for the Committee on Soldiers' Relief, submitted a report, recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of October.

Report accepted; order passed.

CLEANING OF RIVER BED.

Coun. CURLEY offered an order—That the Board of Health in the City of Boston be requested to confer with the State Board of Health as to the advisability of cleaning up the bed of Neponset river and report to the City Council any findings on the matter.

Passed.

ACCEPTANCE OF MASCOT STREET.

Coun. CURLEY offered an order—That the Board of Street Commissioners be requested to accept and lay out Mascot street as a public way.

Passed.

RECESS TAKEN.

Coun. COLLINS—Mr. President, since through this Council the public has an idea that there is to be a hearing before the Council at four o'clock and it is now half past four, I move you now, sir, that we take a recess subject to the call of the Chair.

The motion was carried, and at 4.30 p. m. the Council voted to take a recess subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President BALLANTYNE at 5.11 p. m.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on message of Mayor and order (referred to-day) to reimburse employees of Fire Department for losses at Albany street fire—recommending reference to the Committee on Claims.

Report accepted; said reference ordered.

(2) Reports on petitions (severally referred to-day) for sidewalks at various locations—recommending the passage of orders that the Superintendent of Streets make sidewalks along the following-named streets in front of the herein-after specified estates, said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built as herein-after stated, the owner to furnish said material viz.:

Gravel With Granite Edgestone.

Walter H. Turner, 209-211 Boylston street, Ward 22.

Brick.

William E. Wight, 260-261 Quincy street, Ward 16.

Annie M. Schneider et al., 43, 47, 49, 49½, 51 Yeoman street, Ward 17.

Joseph Goldinger, 40-46 Pope street, Ward 1.

Artificial Stone With Granite Edgestone.

John Booth, 198-200 Leyden street, Ward 1.

John A. Webster, 19-33 Gladstone street, Ward 1.

Henry M. Williams et al., trustees, 79, 85, 87, 89 Portland street, Ward 6.

David Gallis, 28-30 Staniford street, Ward 8.

Davis & Sherman, 132-136 Hemenway street, Ward 10.

A. I. Rudnick, 97-103 Hemenway street, Ward 10.

Young Men's Christian Association, southwest corner Berkeley and Boylston streets, Ward 11.

Boston Wharf Company, 334-340 Summer street, Ward 13.

Boston Wharf Company, 343-345 Summer street, Ward 13.

Francis G. Powell, 402 Columbia road, Ward 16.

M. Molliver, 34-38 Cunningham street and 180-182 Howard avenue, Ward 16.

F. A. Corbett, 35 Eastman street, Ward 16.

Mary A. Mitchell, 15 Hewlett street, Ward 16.

Agostin Pagoni, 45 Batchelder street, Ward 17.

Mrs. J. Moran, southwest corner Glenarm street and Powellton road, Ward 20.

G. O. Goudey, 385 Park street, Ward 20.

Brooker & Glazer, 104-106 Elmo street, Ward 20.

Brooker & Glazer, 111-163 Elmo street, Ward 20.

J. F. Flaherty, 271 Talbot avenue, Ward 20.

John Burbon, 19 Merrill street, Ward 20.

John A. Kelly, 194 Hamilton street, Ward 20.

John S. Davidson, 8 Charles street, Ward 20.

C. A. Powell, 119 Washington street, corner Columbia road, Ward 20.

F. T. Fuller, corner Lincoln street and Dorchester avenue, Ward 20.

Hales W. Suter, 773-785 South street, Ward 23.

Joseph Lyons, 298-300 South street, Ward 23.

F. P. Jaques, 30 Carruth street, Ward 24.

Mrs. M. J. Frost, 223 Neponset avenue, Ward 24.

Michael F. Carroll, 171 King street, Ward 24.

Frank Manloe, 52-54 Edison street, Ward 24.

Mrs. J. E. Dodge, 100 Richmond street, Ward 24.

G. O. Goudey, 976 Blue Hill avenue, Ward 24.

Louis Burrows, 1062-1068 Blue Hill avenue, Ward 24.

Joseph I. Stewart, 1111 Blue Hill avenue, Ward 24.

Joseph Rubenstein, Chestnut Hill avenue, Ward 25.

Arthur G. Jones, 25-29 Linden street and 20 Farrington avenue, Ward 25.

John Beck, 201 Pleasant street, Ward 10.

W. W. C. Spencer, 547-549 Columbus avenue, Ward 12.

Joseph Grank, 47-49 Glenway street, Ward 20.

Hooper & Waters, 652-660 Centre street, Ward 22.

George V. Wattendorf, 9 Edison green, Ward 16.

F. A. Corbett, 8-20 Eastman street, Ward 16.

Reports severally accepted; orders passed.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all matters acted upon at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.13, p. m., on motion of Coun. KENNY, to meet on Monday, October 31, at three o'clock p. m.

MAYOR TO REGULATE PRICE OF COMMODITIES.

Mayor Portillo of Juarez, Mexico, is framing a new code of laws for that municipality which will work a decided change in the government of the city and the cost of living. The new code will regulate the price of all commodities, having in view the protection of the people from extortion and the tourists from being swindled. Under the laws of Mexico municipalities have this power.—*Municipal Journal and Engineer.*

INVENTION OF ELECTRIC MOTOR.

Thomas Davenport was a village blacksmith in a little Vermont town, Forestdale, of which probably not a hundred readers of this journal ever heard before. He was born in 1802, obtained a rudimentary education, worked hard, suffered much, and died a very poor man in 1851. Yet he accomplished some great things, just missed making one of the greatest inventions of the last century, and was forgotten until recently, all because he was some fifty years ahead of the time when his inventions would be useful. He invented the electric motor and received a patent for it in which the basic claim "was the production of rotary motion by repeated changes of magnetic poles." He invented the commutator, and had he discovered the reversibility of the motor and thus turned it into a dynamo no man can say how much the history of power conversion and transmission would have been changed. He did the utmost a man could do with an electric motor without a source of cheap current. He ran presses with it on which he printed for a time the first electrical journal published in the world. Before there was a single steam railroad in Vermont he built a model of an electric road, using the track as a return circuit. But without a source of cheap current the motor was a hopeless commercial proposition, as Doctor Jacobi also found out about the same time, and so Davenport's work, while astounding, was unavailing. Only recently has the significance of what he did been generally appreciated. On September 28 several electrical associations dedicated a monument to his memory in Forestdale, which has been deeded to the Vermont Historical Society, and a record of his achievements has been compiled by Mr. T. C. Martin so as to make permanently available what definite information we have of this pioneer inventor. "Struggling against adversity, dying in poverty, and long obscured by forgetfulness, this modest, simple son of Vermont stands forth as conspicuous as one of her granite mountains among the immortals who, for the benefit of their fellowmen, have tamed and utilized the lightnings of the Almighty."—*Engineering Record.*

MUNICIPAL BONDS AS BASIS FOR EMERGENCY CURRENCY.

Secretary MacVeagh, in response to requests from many bankers, has made a further interpretation of the emergency currency law. This decision relates particularly to bonds of counties which national banks might wish to use as a basis for issues of emergency currency during financial stringency, but is applicable to the bonds of states, towns, counties or territories which come within the terms of the act. The law provides that city bonds may be used for issues of notes when the funded indebtedness of the municipality which issued them does not exceed by 10 per cent the value of its taxable property last fixed for assessment purposes. The secretary holds that the net funded debt of a city is the sum of its entire bonded debt less bonds not sold or which have been rebought as for a sinking fund. He also holds that the assessed value upon which taxes are levied is the value referred to in the law, except in cases where a state provides for an assessment at one value and taxation at a lesser rate. In the latter instance the Treasury will take the higher rate as the basis. Water bonds of a city or the bonds of a self-sustaining municipal enterprise are acceptable to the Treasury.—*Municipal Journal and Engineer.*

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, NOVEMBER 5, 1910.

No. 45

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, November 14, at 3 p. m.

Meeting of School Committee, Monday, November 7, at 5.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Walter I. Brown, inspector, 1½ days at \$3.50, \$5.25; H. A. Sherman, instrumentman, 1½ days at \$3.50, \$5.25; George Sloan, rodman, 1½ days at \$2.50, \$3.75; W. J. Drummond, Inspector, 1 day at \$5, \$5; J. A. Mitchell, inspector, 1 day at \$3, \$3; J. W. O'Neil, inspector, 1 day at \$3.50, \$3.50; J. H. O'Toole, inspector, ½ day at \$3.50, \$1.75; Frank Johnson, yardman, 1 day at \$2.50, \$2.50; Thomas McDonald, yardman, 1 day at \$2.75, \$2.75; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; Nathan F. O'Neil, teamster, 1 day at \$2.50, \$2.50; Timothy Reardon, laborer, 1½ days at \$2.50, \$3.13; James Carlen, stationary engineer, 8 hours at \$0.50 per hour, \$4; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Thomas Flaherty, bracer, ½ day at \$2.50, \$1.25; Thomas, Hughes laborer, 3 days at \$2.50, \$7.50; James King, bracer, ½ day at \$2.50, \$1.25; John J. McKenna, inspector, ½ day at \$3.50, \$1.75; James Mulhern, bracer, ½ day at \$2.75, \$0.69; William O'Connell, stationary engineer, 8 hours at \$0.50 per hour, \$4; John Ring, stationary engineer, 8 hours at \$0.50 per hour, \$4; James Braydon, subforeman, ½ day at \$3, \$1.50; Joseph P. Driscoll, laborer, ¾ day at \$2.50, \$1.88; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; Humphrey J. Moynihan, subforeman, 1½ days at \$3.50, \$6.13; Michael H. Dolan, carpenter, ½ day at \$3.50, \$0.87; John Farley, oiler, ½ day at \$3.25, \$0.81; James H. McNeil, oiler, ½ day at \$2.50, \$0.63; John T. Shea, mason, 3 hours at \$0.70 per hour, \$2.10; Patrick Thornton, laborer, ½ day at \$2.50, \$0.62; Patrick Gorman, laborer, ½ day at \$2.50, \$0.62; Charles R. Palmer, engineer, ½ day at \$4.66, \$1.17, and 58 laborers, 53½ days at \$2.25, \$120.39.

Water Department (Distribution Division).

For the week ending Thursday, October 27, 1910:

John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1½ days at \$2.75, \$4.81; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; Thomas Bowen, teamster, ¾ day at \$2.25, \$1.69; Peter M. Brown, teamster ¾ day at \$2.25, \$1.41; Raffaele Curcio, teamster, ¾ day at \$2.25, \$1.69; David Leo, teamster, ¾ day at \$2.25, \$1.69; Thomas Magee, teamster,

$\frac{3}{4}$ day at \$2.25, \$1.69; Jeremiah J. McLaughlin, teamster, $\frac{3}{4}$ day at \$2.50, \$1.88; Timothy Noonan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Mathew I. Nolan, teamster, $1\frac{1}{8}$ days at \$2.50, \$3.94; Michael F. Burke, teamster, $\frac{3}{4}$ day at \$2.50, \$1.88; James J. O'Brien, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John J. O'Brien, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Michael Ronan, teamster, $1\frac{1}{8}$ days at \$2.25, \$2.53; John C. Thompson, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Thomas Williams, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward A. Pyne, teamster, $1\frac{1}{8}$ days at \$2.25, \$3.94; John Egan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; James Murphy, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; James P. McKenney, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward M. Houghton, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John McCormick, 1st, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John Austin, watchman, 1 day at \$2.50, \$2.50; Robert A. Barry, watchman, 1 day at \$2.25, \$2.25; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Patrick Cassidy, 1st, watchman, 1 day at \$2.25, \$2.25; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 1 day at \$2.75, \$2.75; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John McNulty, laborer, $1\frac{1}{8}$ days at \$2.25, \$3.23; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; Humphrey Sullivan, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; Eugene T. Shea, watchman, 1 day at \$2.25, \$2.25; Thomas A. Gorman, foreman, $1\frac{1}{8}$ days at \$2.75, \$4.81; Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Daniel J. Heffernan, emergency man, 1 day at \$2.25, \$2.25; Timothy J. Kelleher, chauffeur, 1 day at \$2.75, \$2.75; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Robert McLaughlin, emergency man, 1 day at \$2.25, \$2.25; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; Bernard Flanagan, plumber, $\frac{1}{8}$ day at \$3, \$0.94; Timothy Murray, laborer, $\frac{1}{8}$ day at \$2.25, \$0.42; George O'Donnell, laborer, $\frac{1}{8}$ day at \$2.25, \$0.28; Patrick Heffernan, repairer, $\frac{1}{8}$ day at \$2.75, \$0.69; Michael McCarthy, 2d, laborer, $\frac{1}{8}$ day at \$2.25, \$0.56; Daniel Fallon, laborer, $\frac{1}{8}$ day at \$2.25, \$0.56; Patrick Farry, laborer, $\frac{1}{8}$ day at \$2.25, \$1.13; Michael Hines, laborer, $\frac{1}{8}$ day at \$2.25, \$0.56; Lawrence Hillary, repairer, 1 day at \$2.50, \$2.50; John J. Gallagher, pipe layer, 1 day at \$2.50, \$2.50; Peter Halligan, laborer, $\frac{1}{8}$ day at \$2.25, \$1.27; John Connolly, laborer, $\frac{1}{8}$ day at \$2.25, \$0.28; John W. Murphy, laborer, $\frac{1}{8}$ day at \$2.25, \$0.28; Joseph T.

Ryan, plumber, $\frac{1}{8}$ day at \$3, \$1.50; John J. Welch, plumber's helper, $\frac{1}{8}$ day at \$2.25, \$0.28; William Abbott, engineer, 1 day at \$3, \$3; Patrick F. Mullen, inspector, $1\frac{1}{8}$ days at \$2.75, \$3.95; William A. O'Connor, inspector, $1\frac{1}{8}$ days at \$2.75, \$3.09; Michael Hogarty, repairer, $\frac{1}{8}$ day at \$2.50, \$1.25; Edward Doherty, laborer, $\frac{1}{8}$ day at \$2.25, \$1.13; Hugh Cauley, pipe layer, $\frac{1}{8}$ day at \$2.50, \$0.31; Jeremiah Quirk, laborer, $\frac{1}{8}$ day at \$2.25, \$0.98; John J. Barry, repairer, $\frac{1}{8}$ day at \$2.50, \$0.47; Edward P. Fogarty, stenographer, 20 hours at \$1,100 per year, \$12.50.

Water Department (Income Division).

For the week ending Thursday, October 27, 1910:

Michael Bowen, plumber, $\frac{1}{8}$ day at \$3, \$0.56; P. J. Clougherty, laborer, $2\frac{1}{8}$ days at \$2.25, \$5.27; R. J. Connorton, tester, 1 day at \$2.50, \$2.50; J. H. Cullen, plumber, $\frac{3}{4}$ day at \$3, \$1.13; M. J. Dinneen, laborer, $\frac{1}{8}$ day at \$2.25, \$1.69; T. J. Dolan, plumber, $\frac{1}{8}$ day at \$3, \$2.25; M. H. Fenton, plumber, $\frac{1}{8}$ day at \$3, \$0.75; P. F. Gateley, plumber, $\frac{1}{8}$ day at \$2.75, \$2.06; O. J. Gilloon, plumber, $1\frac{1}{8}$ days at \$3, \$2.53; M. M. Kenney, laborer, $\frac{1}{8}$ day at \$2.25, \$1.69; E. Mahoney, laborer, $1\frac{1}{8}$ days at \$2.25, \$3.73; J. J. Mahoney, laborer, $\frac{1}{8}$ day at \$2.25, \$0.84; Thomas McAuliffe, laborer, $1\frac{1}{8}$ days at \$2.25, \$2.46; D. J. McCallion, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; F. McCarthy, laborer, $\frac{1}{8}$ day at \$2.50, \$1.88; P. J. McCarthy, plumber, $\frac{1}{8}$ day at \$2.75, \$1.72; M. Mulkern, laborer, $\frac{1}{8}$ day at \$2.25, \$1.97; J. H. O'Brien, laborer, $\frac{1}{8}$ day at \$2.25, \$1.41; T. J. Ratchford, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; Joseph Rice, tester, $\frac{1}{8}$ day at \$2.50, \$1.88; J. J. Roche, laborer, $1\frac{1}{8}$ day at \$2.25, \$3.15; P. A. Russell, laborer, $3\frac{1}{8}$ days at \$2.25, \$7.59; J. J. Shea, laborer, $\frac{1}{8}$ day at \$2.25, \$1.69; Daniel Sullivan, laborer, $1\frac{1}{8}$ days at \$2.25, \$3.30; D. J. Sullivan, plumber, $1\frac{1}{8}$ days at \$3, \$3.38; J. Sullivan, laborer, $1\frac{1}{8}$ days at \$2.25, \$3.02; T. J. Sullivan, plumber, $\frac{1}{8}$ day at \$3, \$2.25; J. E. Tierney, machinist, $1\frac{1}{8}$ days at \$3, \$5.81; M. P. Welch, plumber, $\frac{1}{8}$ day at \$2.75, \$0.95; W. F. Whalen, plumber, $\frac{1}{8}$ day at \$3, \$0.56.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending November 3, 1910:

HOSPITAL DEPARTMENT.

On October 29 the Mayor approved a contract with David Whiting & Sons for a supply of milk for use at the City Hospital, 400 quarts per day, from November 1, 1910, to May 1, 1911. Bids on these goods, opened October 26, were as follows:

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

BATH DEPARTMENT.

Addition, amounting to \$77, on contract with Mack & Moore for East Boston Gymnasium, on account of electric outlets.

Addition, as per letter attached, amounting to \$1,916.75, on contract with Mack & Moore for East Boston Gymnasium. Original contract, \$64,650; total additions, \$7,726.25; total deductions, \$1,198; contract as standing, \$71,178.55.

BATH DEPARTMENT,

BOSTON, October 20, 1910.

HON. JOHN F. FITZGERALD,

Mayor of the City of Boston:

DEAR SIR,—Inclosed please find figures for the proposed addition to the Paris Street Gymnasium, East Boston. The changes involved consist of the addition of seven new showers and the relocations of fixtures in the lavatories. The previous figures submitted by the builders exceed the approved sum almost five hundred dollars. This to the trustees appeared excessive, and as a consequence of the efforts of Mr. Manus J. Fish, it was reduced to the amount set forth, which amount meets his approval.

Very truly yours,

RICHARD M. WALSH,
Chairman Bath Trustees.

PARK DEPARTMENT.

Deduction, amounting to \$22, on contract with Hapgood, Frost & Co. for shelter building on Strandway, on account of the substitution of hard pine for cypress in plates and ties.

Deduction, amounting to \$22, on contract with Hapgood, Frost & Co. for shelter building on Savin Hill Beach, on account of the substitution of hard pine for cypress in plates and ties.

Addition, amounting to \$50, on contract with the Holmes Building Company for Billings Field sanitary, on account of miscellaneous additions and deductions.

SCHOOLHOUSE DEPARTMENT.

A deduction, amounting to \$15, on contract with William Crane for addition to Girls' High School, on account of wall seats and hook strips in gymnasium. Original contract, \$105,880; total additions, \$389; total deductions, \$9,472; contract as standing, \$96,797.

An addition, amounting to \$105, on contract with William Crane for addition to Dorchester High School, on account of furnishing and installing twenty-one door checks. Original contract \$125,875; total additions, \$4,775.60; total deductions, \$19,684; contract as standing, \$110,966.60.

A deduction, amounting to \$350, on contract with the John F. Griffin Company for Peter Faneuil School, on account of omission for allowance in contract for shrubbery and trees. Original contract, \$90,781; total additions, \$2,192.65; total

deductions, \$1,622.60; contract as standing, \$91,351.05.

An addition, amounting to \$368, on contract with Whiton & Haynes Company for Abraham Lincoln School, on account of excavating, shoring, furnishing new brown-stone cap, fixing gutter and lining brick gable wall on Melrose street. Original contract, \$229,800; total additions, \$368; total deductions, \$365; contract as standing, \$229,803.

Addition, amounting to \$150, on contract with John J. Lane at Bennett Schoolyard, on account of capping, fencing and repairing brick wall. Original contract, \$1,540; total additions, \$150; contract as standing, \$1,690.

Addition, amounting to \$82.90, on contract with McGahey & O'Connor for addition to Blackinton School, on account of building 8-inch wall in coal bin, furnishing iron hand grasps, sheathing janitor's room and installing Hubbell receptacle for stereopticon. Original contract, \$66,000; total additions, \$271.05; contract as standing, \$66,271.05.

Addition, amounting to \$700, on contract with Whiton & Haynes for Abraham Lincoln School, on account of rebuilding wall of Skinner School and rebuilding retaining wall. Original contract, \$229,800; total additions, \$1,068; total deductions, \$365; contract as standing, \$230,503.

Addition, amounting to \$337, on contract with John F. Griffin Company for James Otis School, on account of building additional concrete piers, putting iron fence and gates and patch paving in yard. Original contract, \$1,296; total additions, \$337; contract as standing, \$1,633.

Deduction, amounting to \$18, on contract with John F. Griffin Company for Peter Faneuil School, on account of omission of sod border. Original contract, \$90,781; total additions, \$2,192.65; total deductions, \$1,640.60; contract as standing, \$91,333.05.

Addition, amounting to \$135, on contract with Whiton & Haynes Company for William Lloyd Garrison School, on account of changing finish of all interior doors. Original contract, \$55,600; total additions, \$742; total deductions, \$4,618; contract as standing, \$51,724.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the superintendent have been approved by the Mayor:

Charles Maguire, Highway Division, 30 days at \$2.25, \$67.50; William Silva, Sanitary Division, 30 days at \$2.25, \$67.50; John F. McKeon, Bridge Division, 30 days at \$15.30 per week, \$65.74.

WATER DEPARTMENT.

The following allowances made by the commissioner have been approved by the Mayor:

Robert J. Doyle, Distribution Division, 15 days at \$3, \$45; Patrick Douglas, 2d, Distribution Division, 7 days at \$2.50, \$17.50; Moses McCue, Distribution Division, 4 days at \$2.25, \$9.

STREET COMMISSIONERS.

On October 28 the Mayor approved a settlement with Julia F. Brown in amount of \$50 for land taken and damages occasioned to estate on Larkin street, caused by laying out and extending Hampden place.

PETITIONS GRANTED.

The following petitions, granted by the Board of Street Commissioners, have been approved by the Mayor:

Signs.—Samuel Shufro, 236 Harrison avenue; Harry Cohen, 356 Blue Hill avenue; Max Ragosin, 177 Chambers street; Antonio Rossi, 655 Main street; J. L. Damon, Jr., 240 Boylston street; Hahn Brothers, 13 Fleet street; Louis Petrucelli, 1900A Washington street; George Ferrara, 359 Meridian street; S. Rosenfield, 201 Warren street; E. M. Tasker, 346 Commercial street; Samuel Hoffman, 393 Meridian street; Antonio Romano, 48 Nashua street; Joseph Pearlman, 28 Myrtle street.

Illuminated Signs.—Toney Paolicelli, 718 Centre street; Joseph M. Killion, 7 Meridian street; M. H. Zartarian, 202 Friend street; Angelo Boutsivalis, 327 Warren street; Eagle Tailoring Company, 15 Avon street; Morris Bushman, 90 Boylston street, Ward 22; Thomas V. Fallon, 40 School street; J. H. Hunne-mann, 2169 Washington street; C. H. Hetu, 280 Devonshire street; Tatlas & Pasco, 254 Washington street; New England Jewelry and Clothing Company, 1532 Dorchester avenue; Staniford Pool Parlor, 93 Staniford street; Richmond Favour, Jr., 2121 Washington street; Thomas M. Guiney, 17 Court square, Ward 6; Frank Malfa, 1 Irvington street; Simon Gold, 52 Howard street; Harris Poznar, 24 Guild row; S. T. Balsamo, 693 Atlantic avenue; S. A. Robinson, 161 Eliot street; W. H. Chamberlain, 73 Green street; Ginter Grocery Company, 163 Summer street; T. H. Ball, 6 Pemberton square; S. Buscemil & Son, 28 North street; Peter D. Loomes, 370 Commercial street; James J. McCarthy, Boylston street, Ward 22; Barney Hoffman, 45 Cross street; John A. Keliher, 270 Bennington street, Ward 1.

Gasolene.—Edward W. Samson, corner Wayne and Maple streets, Roxbury; Charles R. Currier, 49 Eliot street, Ward 22; Culhane & Cashman, 360 Cambridge street, Ward 25; Dorchester Auto Express Company, 11 Charles street; J. H. Corney, corner M and Emerson streets, South Boston; Massachusetts Institute of Technology, 26 Trinity place.

Moving Building.—H. S. Angus & Son, 217 Ashmont street to 116 Florida street; Soley & Blair, Cable street to 56 Brook-side avenue.

Pole Locations.—Edison Electric Illuminating Company (one), St. Ann street, Ward 23; New England Telephone and Telegraph Company, erect and remove one, Allston street; New England Telephone and Telegraph Company, erect and remove two, Heath street.

Street Railway Locations.—West End Street Railway Company, Summer street, Ward 7, alterations; West End Street Railway Company, Huntington avenue, cross connections; West End Street Railway Company, Cambridge and Charles streets and bridge.

Marquise.—Armour & Co., 107-111 Clinton street, Ward 6; Arthur Lyman et al., 378 Washington street.

Removal of Poles.—American Telephone and Telegraph Company, from Dorchester avenue, Auckland street, Bay street, Spring street, Crescent avenue, Buttonwood street, Preble street, Dorchester street, West Ninth street, D street, C street, Granite street and Mt. Washington avenue.

Awning.—Boston Opera Company, to project 8 feet over sidewalk in front of entrance to Opera House, Opera place, Ward 10.

Coal Hole Opening.—Marks I. Cohen, 46 Endicott street.

Close Street to Travel.—Morton street, between Canterbury and Harvard streets, repairs; Meridian Street Bridge, for completion of improvements on draw.

To Plant Trees.—Rev. Mortimer E. Twomey, Broadway, South Boston; E. Heidenreich, 73 Cedar street, Roxbury; F. A. Yorke, 19 Bentham road, Dorchester; Joseph H. Crocker, 26 Conway street, Roslindale.

CLAIMS.

On November 1 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

Boston American Company, \$184.80, on account of damages caused by leak in water pipe at building in Summer street, April, 1910.

Margaret Coleman, \$75, for personal injuries caused by defect in sidewalk on Faxon street, November 26, 1908.

Moses A. Coulter, \$51.50, for compensation for loss of time and doctor's bills on account of injuries received while in the performance of his duties as an employee of the Park Department.

Peter J. Mullen, \$21, for injuries received while in the employ of the city on November 4, 1909, caused by being struck with tree.

John P. O'Connell, \$28, for personal injuries, received while in the employ of the city, caused by the falling of the limb of a tree at 58 Magnolia street, August 18, 1910.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising: Resurface Blue Hill avenue, between Grove Hall and Seaver street, at an estimated cost of \$3,000.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor methods as any work now necessary.

L. K. ROURKE,
Superintendent of Streets."

Similar authority has been granted to build a sanitary sewer of concrete and earthen pipe and a surface drain of concrete and earthen pipe in Dartmouth street, between Boylston street and Huntington avenue.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

L. K. ROURKE,
Superintendent of Streets."

PERMISSION TO SELL.

FIRE DEPARTMENT.

The Mayor has granted to the commissioner permission to sell one damaged radial drill for one hundred twenty-five dollars (\$125), in exchange, to Hill, Clarke & Co.; also one old broken tire machine for one hundred twenty-five dollars (\$125) cash to Patrick Lally & Co.

NOTICE FROM COLLECTING DEPARTMENT.

INFORMATION FOR TAX-PAYERS AND OTHERS.

The business of this department is to collect all sums due the city for taxes, assessments for sewers, streets, betterments, gypsy moth suppression, water, rents, work done, or material sold, etc. The Collector desires to extend every convenience practicable for the transaction of business with the department.

The several amounts due the city are

charged to the City Collector, and he has no authority to make any discount or other change in the amount of the bills committed to him for collection. All corrections, or abatements must be made by the department from which the bill or demand originated.

Certain fees, denominated costs, are fixed by law for summons, demands, and expenses connected with the sale of real estate for nonpayment of taxes. All taxes are laid as of April 1st of the year assessed, and become due and payable October 1st of the same year. Interest at 6 per cent per annum is charged on all taxes and assessments unpaid after November 1st following, until paid.

Annual water rates commence January 1st, and must be paid on or before March 1st. Quarterly meter rates are due the first days of January, April, July and October. The water is liable to be shut off if rates are not paid within ten days after their due dates.

Receipted bills will be given for all payments made in money or by certified check; uncertified checks are only accepted at the office, subject to collection.

Remittances may be made by mail, and receipted bills will be returned, if a pre-paid envelope or postage is inclosed; otherwise the receipt can be obtained by calling at this office.

Make all checks payable to the City of Boston.

Municipal Liens on Property.

A certificate is furnished under chapter 378, Acts of 1907, giving full information relating to taxes and other assessments which constitute liens on real estate; application blanks are furnished upon request. The legal fee for each certificate is \$1. This is the easiest, and cheapest method of obtaining this information, and is extensively used by conveyancers, mortgagees and others.

No information in relation to liens or delinquent taxes is communicated by telephone.

Errors or Abatements.

If an error is discovered in a tax, or if an abatement of part or all is desired, personal application should be made to the Assessing Department, Room 18, City Hall.

For errors in assessments for sewers, street betterments, etc., see Street Commissioners, Room 38, City Hall.

For errors in the assessments for the suppression of the gypsy moth, see the Public Grounds Department, East Cottage street, near Columbia road, Dorchester.

For errors in water bills, see Water Department, Room 36, City Hall.

BOWDOIN S. PARKER,
City Collector of Boston.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.
1910.

Nov. 10. Japanese Art.
Nov. 17. The Aesthetic Ideals of Greece and Japan.
Dec. 1. Carthage. George B. Dexter.

- April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

GLASGOW'S TOWN PLANNING RECORD.

The Corporation of Glasgow have always been regarded by municipal authorities in England as pioneers in the endeavor to ameliorate the conditions of life in urban localities. As early as 1846 the Corporation laid aside the sum of \$150,000 to be applied in purchasing unhealthy dwellings within the more congested areas of the city and demolishing those places which had become centres of zymotic disease.

Later on the impulse of the advanced sanitary opinion caused the Town Council of Glasgow to bring forward the great measure of city improvements which dealt in what may be described as a heroic manner with the older parts of the city of Glasgow, and received the sanction of Parliament in 1866.

This important measure, devised by the late Mr. John Carrick, which became the model on which was based similar legislation in reconstituting all the great centres of population in England, including the Metropolis, enabled the Corporation to clear eighty acres of unhealthy dwellings, to widen sixteen old streets, to form twenty-nine new streets, and to provide open spaces in different areas of the city, which together absorbed about 100,000 square yards of ground formerly densely occupied by squalid habitations.

Later, in 1872 and 1877, other special statutes for the improvement of the streets of Glasgow enabled the Corporation to make very ample provision for the future requirements of the city. Under the terms of these separate Acts of Parliament no less than \$10,000,000 has been expended by the Corporation of Glasgow.

Second only in importance to the improvement schemes the operations conducted under the authority of the Glas-

gow Parks and Galleries Acts have exercised potent influence on the external aspect of the city. For generations prior to 1846, Glasgow Green, with an area of 136 acres, was the only open space available for the recreation of the inhabitants. Since that time, no fewer than forty-eight parks and open spaces within and beyond the city with a gross acreage of 1,115 acres have been acquired for the most part by purchase at a cost of upwards of \$3,250,000.

This large acreage contrasts remarkably with the restricted municipal area of Glasgow itself, which is only 12,975 acres. In the environment of these parks wide areas of land have been laid out for residential purposes on the most advanced modern principles. One of the most recent purchases for the enlargement of park space is shown on the plan now submitted, which shows how the residential land is laid off for residential purposes on a very liberal scale.

It will be observed that the lands of Bellahouston and Moss park shown on the plan prepared by myself in October, 1908, before the passing of the Housing and Town Planning Act, are intersected by a leading thoroughfare 115 feet in width, which in view of future requirements, provides a direct and improved communication between the suburban district of Pollokshields and what is known as the Halfway district at Paisley Road, which is the great thoroughfare that connects the city of Glasgow with its principal industrial suburb.

It will be noticed that the land is laid out very spaciouly with wide streets, and that a large proportion is devoted to recreation and decorative purposes. In laying out these lands \$115,000 has already been expended.

THE CHICAGO BUILDING ORDINANCE.

The proposed building ordinance which has been debated so long in Chicago will come up for discussion again on October 29. It is one of those measures that ought to be enacted without hesitation. At the present time the city has an antiquated building code which has less influence on the structural work done there than the regulations of the fire underwriters. The building department is organized on a system which makes efficiency impracticable. The proposed ordinance is the outcome of investigation by some of the leading architects and engineers of the city, working in co-operation with several members of the City Council. These men investigated every possible method of meeting the local requirements. The experience of other cities was examined in detail, and any opportunities for improving on the requirements in force elsewhere were eagerly sought. The investigation showed that the most important thing to do was to provide a building department having executive ability and technical knowledge, for the best set of regulations in the hands of an incompetent department would be of little public service. Accordingly the proposed ordinance completely reorganizes the building department. The commissioner at its head must be either an architect or a civil, structural or architectural engineer of at least ten years' experience, and the deputy commissioner must have similar qualifications, except that he may be appointed after nine years of experience. Competent engineers to pass upon engineering questions, and competent architects to pass on plans, experienced building inspectors, elevator inspectors and fire-escape inspectors are provided, and their duties so clearly

defined that there will be little chance for them to shirk the responsibilities of their offices. The intent of the framers of the ordinance is to provide an organization exactly suited for the work of insuring at the lowest cost that the \$90,000,000 spent annually in Chicago for construction is so expended that the health and safety of people using the buildings is not threatened. A building code has also been provided, based on the best things which experience in Chicago and elsewhere has suggested. The ordinance has received the hearty support of numerous professional and trade organizations in the city, it has been discussed publicly many times, and up to date no valid reason for further delay in enacting it has been advanced.—*Engineering Record.*

PROFITS FROM PLEASURE.

It is interesting at the close of the summer season to compare some of the principal English seaside resorts in the matter of municipal catering. Taken all round, the season just closed has been an exceptionally prosperous one, and the turn over at several of the leading pleasure resorts has been something enormous, judging from the figures which have come to hand.

The following rents were taken by the Yarmouth Corporation Singers' ring, \$3,000; scenic railway, \$3,250; revolving tower, \$1,000; minstrel arena, \$1,450; beach stalls and structures, \$7,000; newspaper kiosks, \$260; bathing machines, \$425; Gorleston tolls, \$840; pickling plots (for drying herrings), \$10,000; market, \$7,100; ground rents, \$60,000.

Eastbourne also enjoyed a prosperous season. Hastings has taken \$7,500 in chair receipts, out of which the municipal band is paid. At Southend the cliff entertainments brought in nearly \$30,000, as compared with \$27,500 last year. The pier earned \$25,000. Bournemouth earned \$4,500 from beach bungalows, \$3,000 from refreshment rooms, \$3,015 from golf links, \$1,870 from beach licenses, \$945 from piers, and \$5,000 from chairs. At Brighton \$4,200 was taken for the chairs, the municipal golf links produced \$2,500, and the races about \$5,000.

The figures for Margate are not yet complete, but the income is in excess of the \$50,000 of 1909. At Ramsgate the chairs brought in \$3,750, the takings from the new bathing ground trebled, and from pitches on the sands \$2,750 was realized.

CIVIC LOYALTY.

As the result of a six days' campaign under military form of organization the Buffalo Chamber of Commerce and Manufacturers' Club has a fund of \$100,000 which is to be applied over a period of two years to develop the city on a basis of commonsense civic loyalty. The story of the raising of the fund is an interesting one. It was a systematic, thorough, brisk undertaking, carried through by 210 workers called the "Army of Development." There are now three bureaus under the management of the Chamber of Commerce and Manufacturers' Club, which are to deal respectively with publicity, new industries and conventions. Commercial development is not the only goal in view; this new movement fosters the kind of civic loyalty that is based on an intelligent appreciation of the city's advantages and possibilities. There are several regular committees working toward internal betterment, and the whole plan is broad, sincere and commendable.—*American City.*

PROCEEDINGS OF CITY COUNCIL.

Monday, October 31, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Hale.

The Council voted on motion of Coun. BRAND to dispense with the reading of the records of the last meeting.

REMOVAL OF EVERETT STATUE.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1910.
To the City Council:

I beg to recommend the passage of the accompanying order, based upon a request of the chairman of the Art Commission as set forth in his letter of October 27 appended hereto, that an additional sum of three hundred dollars (\$300) be provided for the removal of the Edward Everett statue from the Public Garden to Edward Everett square, Dorchester.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston, Art Commission,
64 Pemberton Square, October 27, 1910.
Hon. John F. Fitzgerald, Mayor,
City Hall, Boston:

Sir,—In order that the removal of the Edward Everett statue to Edward Everett square may be accomplished, may I ask that your Honor recommend for this purpose to the City Council an appropriation of \$300 in addition to the \$500 already appropriated.

The facts in the matter are as follows: Mr. Jackson, the late City Engineer, wrote to Mr. Estabrook of this commission on June 23, 1910: "In compliance with your request of May 28, an estimate has been made of the cost of removing the Edward Everett statue from the Public Garden to Edward Everett square, Dorchester, and I find the cost of putting in a concrete foundation as shown in red on the accompanying blueprint and setting the statue thereon to be about \$500." On June 24, 1910, this commission unanimously voted to move the statue to the site indicated. This vote was approved by your Honor, and on July 6, 1910, the City Council ordered that \$500, to be charged to the Reserve Fund, be appropriated for this transfer of the statue. The City Engineer's Department being asked to draw up specifications and secure bids for the necessary work, Mr. McInnis, acting City Engineer, wrote the secretary of this commission, October 4, 1910, "the estimate of \$500 made by the department last June for removing the statue did not cover the cost of the changes in the electric light ducts, manhole and pole now found to be necessary, and which it is now believed will be between \$200 and \$300. Mr. Maginnis of this commission, as chairman of a subcommittee on this subject, reported further on October 24, 1910, "that Mr. McInnis, acting City Engineer, stated "that the work of transferring the Edward Everett statue cannot be carried on until an extra appropriation of \$300 is made."

While the site chosen is still the site indicated in Mr. Jackson's original blueprint, there seems to be no doubt that this extra appropriation is necessary if the statue is to be transferred.

As the transfer is in accordance not only with a long matured plan of this commission but with every sentiment of appropriateness, I trust that the necessary appropriation may be recommended by your Honor and voted by the Council.

Yours respectfully,

THOMAS ALLEN, Chairman.

Ordered, That an additional sum of three hundred dollars (\$300) be appropriated, to be expended by the Art Commission for the transfer of the statue of Edward Everett now located on the Public Garden to Edward Everett square, Dorchester, and that the same be charged to the Reserve Fund.

Referred to the Committee on Finance.

ELECTION RETURNS.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1910.
To the City Council:

I beg to call your attention to the accompanying letter of the chairman of the Board of Election Commissioners, relating to the omission of the customary provisions made in previous years for receiving the returns of the election in City Hall on the night of the state election. An itemized schedule, giving the cost of receiving these returns at the state elections of 1906, 1907, 1908 and 1909, is appended hereto.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Board of Election Commissioners,
Old Court House, Boston, October 25, 1910.
Hon. John F. Fitzgerald, Mayor:

Dear Sir,—We desire to call your attention to the fact that the customary provisions for receiving the returns of the election in City Hall on the

night of the state election have not as yet been made by the city government.

A similar letter has been sent to the City Clerk.

Respectfully,

BOARD OF ELECTION COMMISSIONERS.

JOHN M. MINTON, Chairman.

Referred to the Executive Committee.

CONSTRUCTION OF FLINT STREET—
VETO.

The following was received:

City of Boston,
Office of the Mayor, October 31, 1910.
To the City Council:

I return herewith, without my approval, order of your honorable body authorizing the Superintendent of Streets to construct Flint street, with sidewalks thereon, from Norfolk street to Forest Avenue Station, for the reason that the officials of the Street Department do not recommend the construction of this street at this time.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston,
Street Department, Highway Division,
October 28, 1910.

Mr. Louis K. Rourke,
Superintendent of Streets:

Sir,—I return herewith order of the City Council authorizing the construction of Flint street, Dorchester, and also inclose estimate of the cost. Flint street leads from Norfolk street, south of Morton street, and is a dead end at the New England Railroad. A school yard abuts on one side, and one house on the other side, the rest of the abutting property being vacant land.

I would not recommend the construction of this street this fall, but would suggest its being included in the work for next spring.

Yours respectfully,

JAMES H. SULLIVAN,

Deputy Superintendent.

October 29, 1910.

Respectfully referred to the Honorable the Mayor.

L. K. ROURKE,
Superintendent of Streets.

(Estimate of cost, \$4,000.)

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council the Mayor submitted the following appointments, viz.:

(1) Edward S. Van Steenberg (775 Columbia road, Ward 20), a Constable of the City of Boston for the term ending April 30, 1911.

Mr. Van Steenberg is connected with the Massachusetts Society for the Prevention of Cruelty to Animals and is to serve as a constable without bonds.

(2) Daniel P. Walker (53 Dix street, Ward 20), Superintendent of the South Hay Scales for the term ending April 30, 1911.

(3) Charles Rabinovitch (17 Haskins street, Ward 18) and Isaac Sacks (21 Haskins street, Ward 18), Weighers of Coal for the term ending April 30, 1911.

Severally laid over under the law.

FURNISHING OF REGISTRY OF DEEDS.

The following was received:

City of Boston,
Office of the Mayor, October 31, 1910.
To the City Council:

I beg to refer the inclosed communication from the Register of Deeds, relating to additional metal fireproof furnishings required for the Suffolk Registry of Deeds, and the necessity of an appropriation to cover the expense of purchasing the same.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Registry of Deeds.

Boston, October 25, 1910.

Hon. John F. Fitzgerald, City Hall:

Dear Mr. Mayor,—In order to complete the layout of the new record hall for the Suffolk Registry of Deeds in accordance with the plans prepared by the Courthouse Commissioners, and approved by the Commissioner of Public Records, the following metal fireproof furnishings are required, to wit:

Two index tables for current indexes.
Eight tables, 2 feet by 3 feet 11½ inches, for classified indexes.
Six writing tables for the public, 7 feet by 4 feet.
One plan table, 11 feet 8 inches by 5 feet.
One plan case.
Six tables, 12 feet 3 inches by 4 feet 5½ inches, for conveyancers.

One section of record book shelves.
Two small sections of record book shelves for main alcoves.

All the above are shown and properly marked on the original plans of the Courthouse Commissioners, of which the Public Buildings Department have copies.

On the basis of the figures furnished by the successful bidder for the work already ordered for the record hall, I estimate that an appropriation of \$5,000 would cover all the new work required. It is necessary that this work should be ordered at the earliest opportunity as we are now using wooden tables, and the Commissioner of Public Records is desirous of having them replaced by fireproof fittings at once.

Respectfully yours,

WILLIAM T. A. FITZGERALD, Register.

Referred to the Executive Committee.

APPROPRIATION FOR ENTERTAINMENT.

The following was received:

City of Boston,
Office of the Mayor, October 31, 1910.
To the City Council:

I beg to recommend the passage of the appended order, transferring an additional sum of two hundred and sixty-two and fifty one-hundredths dollars (\$262.50) from the Reserve Fund to the appropriation for Mayor, office expenses, etc., to pay for the transportation of the members of the Forty-third Regiment of Infantry, Duke of Cornwall's Own Rifles of Ottawa, Ontario, to and from Nantasket on September 4.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893, the City Auditor be, and hereby is, authorized to transfer the sum of two hundred and sixty-two and fifty one-hundredths dollars (\$262.50) from the appropriation for Reserve Fund to the appropriation for Mayor, office expenses, etc.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Charles F. Curtis, to be paid for the loss of hens killed by dogs.

William A. Miller, for compensation for damage to property at corner Tremont and Prentiss streets by a fire engine.

Marion Cowhig, for compensation for sickness caused by the spraying of trees at 14 Dawson street, Dorchester.

Howard O'Shanky, to be paid for damage to his stock at 10 Howard street by flooding by water.

Fred G. Trask, to be paid wages for time lost on account of injuries received while on the police force of the City of Boston.

Executive.

Petitions for children under fifteen years of age to appear at various places of amusement, viz.:

Mrs. Alice L. Glover for children to appear at Sailors' Haven Hall, evening of November 3.

Alfreda H. Perkins, for children to appear at Faneuil Hall, evening of October 28.

Julian Seriaek, for Albina Sullivan to appear at Boston College Hall, November 23 and 24.
Julian Seriaek, for children to appear at Boston College Hall on November 14 and 15.

SALE OF UNCLAIMED BAGGAGE.

A petition was received from the Boston & Maine Railroad, asking leave to sell unclaimed baggage.

Referred to a special committee appointed by the president as follows:

Coun. Ballantyne, Brand and McDonald.

OFFSHOOTS OF "OLD ELM."

A communication was received from the New England Botanical Club relative to the supposed offshoots of "Old Elm" on Boston Common.

Coun. BRAND—Mr. President, in connection with that I have a communication from the state forester and several others who are interested in a tablet that they wish to erect down there which I would like to submit to the City Clerk to accompany that communication.

The petition and accompanying papers were referred to the Superintendent of Public Grounds.

PUBLICITY OF CITY BUSINESS.

The following was received:

July 12, 1910.

Walter Ballantyne, Esq.,
President Boston City Council,
City Hall, Boston:

Dear Sir,—At the meeting of the delegates representing the sixteen citizens' and improvement associations affiliated in the United Improvement Association, held on June 1 last, the following resolution was adopted:

"Whereas, Publicity is the greatest safeguard of a representative government; be it

"Resolved, That the United Improvement Association respectfully protests against the practice of the Boston City Council of holding secret sessions and ask that the practice be discontinued."

Very truly yours,

M. L. BERKOWITZ,
Executive Secretary.

Referred to the Executive Committee.

Coun. CURLEY—Mr. President, I move as a substitute motion that it be indefinitely postponed.

The motion was declared out of order.

Coun. CURLEY—Mr. President, I move a reconsideration.

The motion to reconsider was declared carried.
The vote was doubted, and on a roll call reconsideration was refused, yeas, Coun. Attridge, Brand, Buckley, Curley, 4; nays, Coun. Ballantyne, Collins, Kenney, McDonald, 4, and the letter stood referred to the Executive Committee.

MINORS' LICENSES.

President BALLANTYNE submitted reports on petitions for minors' licenses for fifteen newsboys and three vendors, recommending that the same be granted.

The Council voted to grant licenses on the usual conditions.

ALTERATION OF LOCATIONS.

Copies of orders were received from the Street Commissioners granting the West End Street Railway Company permission to alter locations, as follows:

Three hundred and twenty-ninth location, Cambridge and Charles streets and Cambridge Bridge.

Three hundred and thirtieth location, Huntington avenue.

Three hundred and thirty-first location, Summer street.

Placed on file.

REMOVAL OF POLES, ETC.

Copies of orders for pole locations and removal of poles were received from the Street Commissioners, as follows:

Western Union Telegraph Company, to acquire two poles of Edison Company on Washington street, Ward 23.

Edison Electric Illuminating Company, to remove pole on Waltham street, Ward 9.

The same company, to erect and to remove one pole on Centre street, Ward 23, at Manthorne road.

The same company, to acquire one pole of New England Telephone and Telegraph Company on Belfort street, Ward 20.

New England Telephone and Telegraph Company, to remove one pole on Sunderland street, Ward 21.

The same company, to erect and to remove one pole on Centre street, Ward 23, opposite Elgin street.

The same company, to remove two poles on Dorchester avenue, Ward 20.
Severally placed on file.

STORAGE OF EXPLOSIVES.

Notices were received from the following-named parties certifying that certain buildings have been used for the storage of explosives according to law and stating that they propose to use for same purpose for the ensuing year, viz.:

Bright & Howes, 80-84 Braintree street, Ward 25.

Frank H. Thorp, 200 Mt. Vernon street, West Roxbury.

Thomas J. Morrissey, 667 Bennington street, Ward 1.

Severally placed on file.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received.

Placed on file.

CONFIRMATION OF APPOINTMENTS.

The Council proceeded to take up Nos. 1 and 3, unfinished business, viz.:

Action on appointments submitted by the Mayor October 24, viz.:

1. Joseph E. Allen, to be a Constable of the City of Boston for the term ending April 30, 1911.

3. Ira W. Forsaith and James Conroy, to be Inspectors of Pressed or Bundled Hay and Straw for the term ending April 30, 1911.

The question came on confirmation. Committee—Coun. Buckley and Collins. Whole number of ballots cast 7, yeas 7, and the several appointments were confirmed.

PAYMENT OF CLAIM.

Coun. BUCKLEY called up No. 4, special assignment, viz.:

4. Ordered, That there be allowed and paid to the Johnson Educator Company the sum of \$2,000 in compensation for damage to stock of goods, loss of business, etc., caused by the bursting of a water main in Tremont street January 3, 1910, the business being located at 215 Tremont street, said sum to be charged to the appropriation for Water Department.

The order was passed.

EMPLOYMENT OF ASSISTANT MESSENGER.

Coun. CURLEY offered an order—That Frederick J. Glenn be and he is hereby employed as an assistant in the City Messenger's office, and that he receive compensation at the rate of \$900 per annum, the same to be charged to the appropriation for City Council, incidental expenses.

Referred to the Executive Committee.

ORDINANCES.

Coun. CURLEY, for the Committee on Ordinances, submitted the following:

(1) Report on message of Mayor and communication from Corporation Counsel (referred July 18) relative to passageway under Cambridge Bridge—recommending the passage of the following amendment to ordinance:

City of Boston.

In the Year Nineteen Hundred and Ten.

An Ordinance

To Amend Chapter 28 of the Revised Ordinances of 1898 in Section 1, as follows:

Be it ordained by the City Council of Boston, as follows:

Section 1. The Park Department shall be under the charge of the Board of Park Commissioners, consisting of three commissioners, who shall construct, improve, equip, govern and regulate the Charlesbank, including the passageway under Cambridge Bridge, etc.

The report was accepted and the ordinance was assigned to the next meeting, on motion of Coun. KENNY.

(2) Report on proposed ordinance (referred May 23) regulating the wearing of hat pins—that the same be indefinitely postponed.

Report accepted; said ordinance rejected.

(3) Report on proposed ordinance (referred June 27) relative to the sale of articles by junk collectors—that the ordinance ought to pass.

The report was accepted and the ordinance was declared passed.

Coun. KENNY—Mr. President, in the previous matter which you submitted to the Council you separated the report from the recommendation. You did not do it this time, if I may make the suggestion.

President BALLANTYNE—I don't think there is anything in the rules that calls for it.

Coun. KENNY—I think the order should lie over.

President BALLANTYNE—Coun. Kenny moves a reconsideration.

The motion to reconsider was carried.

Coun. CURLEY—Mr. Chairman, I suppose there must be something of a suspicious nature about everything I present, as it is usually asked to lay it over a week. There was an order with regard to the length of hat pins, and I move a reconsideration.

Pres. BALLANTYNE—Councilor Curley, there is a matter before the house. Those in favor of accepting the report of the Committee on Ordinances relative to junk collectors will say aye; opposed, no. It is a vote. The question comes now on the passage of the ordinance.

Coun. KENNY—I did not aim or direct any consideration at my friend across the chamber. I think any report coming into this body for the first time, where members have not been present and know nothing about it, should lie over, so that they may have an opportunity to look into it. For that reason I move to assign the ordinance for one week.

Pres. BALLANTYNE—The question comes on the motion for a special assignment for one week.

The motion to assign was carried.

Coun. CURLEY—I move at this time reconsideration of the vote whereby the order with relation to the length of hat pins was indefinitely postponed. If reconsideration prevails I shall move that that be assigned for one week.

Pres. BALLANTYNE—The question comes on the motion to reconsider the vote taken with reference to the order relative to hat pins.

Pres. BALLANTYNE—The question comes on reconsideration.

The motion was declared lost.

The vote was doubted, a roll call was taken and reconsideration was refused.

(4) Report on proposed ordinance (referred May 23) relative to noncombustible paint for the interior of theaters, etc.—that no further action is necessary.

Report accepted.

(5) Report on message of Mayor and draft of ordinance (referred April 25) relative to shade trees—recommending the passage of the ordinance as recommended by the Corporation Counsel.

Coun. CURLEY—Mr. President, I feel that this is really the only important report the Committee on Ordinances have made to-day, and it is one that the public generally will be interested in, and it is one upon which opinion will be divided. And I would at this time move that that report be printed and be placed on the calendar at the next meeting, so that the members may have an opportunity to digest it, because it affects the matter of shade trees on the public highways of Boston for all time possibly, and it is a very, very important proposition.

The matter was assigned to the next meeting.

(6) Report on proposed ordinance (referred February 7) concerning the Clerk of Committees Department—that no further action is necessary.

Report accepted.

(7) Report on proposed ordinance (referred April 4) concerning the City Messenger Department—that no further action is necessary.

Report accepted.

RECESS TAKEN.

The Council voted, at 4.05 p. m., on motion of Coun. KENNY, to take a recess subject to the call of the President.

The members reassembled in the Council Chamber and were called to order by the President at 4.25 p. m.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (severally referred to-day) for permits for children under fifteen years of age to appear at various places of amusement—that permits be granted, viz.:

Alfreda H. Perkins, for children to appear at Faneuil Hall, evening of October 28.

Mrs. Alice L. Glover, for children to appear at Sailors' Haven Hall, evening of November 3.

Julian Seriaek, for Albina Sullivan to appear at Boston College Hall, November 23 and 24.

Julian Seriaek, for children to appear at Boston College Hall on November 14 and 15.

Reports severally accepted; permits granted on usual conditions.

(2) Report on communication from the United Improvement Association (referred to-day) relative to the publicity of City Council meetings—that the Clerk of Committees be instructed to notify the Public Improvement Association that all the doings of the City Council are public, and that the Press are not requested to withhold any news connected with the meetings.

Report accepted; said recommendation adopted.

(3) Report on communication of Mayor and chairman of Board of Election Commissioners (referred to-day) relative to the reception of election returns of the state election—recommending the passage of the following:

Ordered, That the City Messenger be directed to make the usual arrangements for receiving election returns and announcing the same in the Mayor's hearing room, the expense of the same to be

charged to the appropriation for City Council, incidental expenses.

Report accepted; order passed.

FINANCE.

Coun. KENNY, for the Committee on Finance, submitted the following:

(1) Report on message of Mayor and order (referred October 24) for loan of \$96,000 for repair shop for Fire Department—recommending the passage of an order in the following new draft:

Ordered, That the sum of ninety thousand dollars (\$90,000) be appropriated, to be expended under the direction of the Fire Commissioner for "Fire Department, Repair Shop," and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

The report was accepted, and the question came on the first reading and passage of the order.

Coun. KENNY—Mr. President, in submitting that report I would like to say on behalf of the Committee on Finance that a meeting was called for the consideration of this matter and held on Friday last at Bristol street; that we were in consultation with the Fire Commissioner, the fire chief and the architect, Mr. Rice; that during the course of our conference Mr. Rice suggested that, while he would be glad to have the entire amount which the Mayor had mentioned in his recommendation, he hoped to be able to construct this building within \$10,000 of that sum. The committee does not feel like taking the responsibility of tying the Fire Department down to a point where it might possibly be handicapped or embarrassed in going forward with this work, but we thought, if we made an allowance of \$5,000 additional, splitting the difference and making the sum \$90,000, that would be sufficient for the purpose. Therefore the committee voted to recommend the passage of the order in that form.

The order was given its first reading and passage, yeas 8, nays 0, and will take its second reading in fourteen days.

(2) Report on message of Mayor, letter and order (referred to-day), that \$300 additional be appropriated for relocation of Edward Everett statue—recommending reference to the Executive Committee.

Report accepted, and the Council refused reference to the Executive Committee. The order was passed, yeas 8, nays 0.

RETIREMENT SYSTEM FOR EMPLOYEES.

Coun. CURLEY called up past assignment, No. 5, viz.:

5. Whereas, The Legislature of the Commonwealth of Massachusetts has passed an act authorizing the cities and towns of the Commonwealth to establish a retirement system for their employees; and

Whereas, It is the opinion of the Boston City Council that such a retirement system would be of benefit to the city and to the employees; therefore be it

Ordered, That the provisions of chapter 619 of the Acts of 1910 be accepted by the Boston City Council in behalf of the City of Boston.

The question came on the passage of the preambles and order.

The preambles and order were assigned for two weeks.

GENERAL RECONSIDERATION.

On motion of Coun. BRAND the Council refused a general reconsideration of all action taken to-day.

Adjourned, on motion of Coun. KENNY, at 4.43 p. m., to meet, subject to the call of the President, at a date not later than Monday, November 14, at 3 p. m.

CHECKING WATER WASTE.

In an address in the auditorium of the Budget Exhibit at New York, Dr. Edward W. Bemis, Deputy Water Commissioner, said that in the nine months of this year up to October 1, only \$50,000 had been expended by the Bureau of Water Waste. The waste of 3,915,000 gallons of water a day in streets and houses had been checked. "The daily amount of water" he added, "sells for \$190,000 a year, and even at half price is worth \$85,000. Prior to this year practically nothing had been done for a long time in New York to check the waste of water."—*Municipal Journal and Engineer*.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

OFFICE OF CLERK OF COMMITTEES, CITY HALL.

The Committee on Ordinances will hold a public hearing on the proposed ordinance creating a Department of Public Works in the City of Boston in the hearing room, second floor, City Hall, on Friday, November 11, at 2 o'clock p. m.

Per order of the chairman.

(Nov. 5.) JOHN F. DEVER,
Clerk of Committees.

CITY OF BOSTON.

STREET DEPARTMENT.

Notice is hereby given that no permits to make excavations in the city streets for building sewers or laying pipes, wires, etc., will be issued from the office of the Superintendent of Streets after

NOVEMBER 15, 1910,

except under an emergency or in a case of extreme necessity. All persons or parties having any rights in the city streets are requested to forthwith apply for permits to make all necessary repairs to sewer or water connections, or any other pipes or structures needing attention, as all such applications will be refused after the above date.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 13, 1910. (Nov. 5.)

CITY OF BOSTON.

STATE ELECTION.

City Clerk's Office, October 26, 1910.

In accordance with the provisions of Chapter 560 of the Acts of 1907, and any amendments thereof, or additions thereto, notice is hereby given that meetings of the citizens of this city, qualified to vote for State officers, will be held in the several polling places designated for the purpose by the Board of Election Commissioners on

TUESDAY, THE EIGHTH DAY OF NOVEMBER NEXT.

and all such citizens will on said date, in the several precincts in which they are entitled to vote, give in their votes for Governor, Lieutenant Governor, Secretary of the Commonwealth, Treasurer and Receiver General, Auditor of Accounts, Attorney General, Representatives in Congress, District Attorney, Sheriff, Councilors, Senators and Representatives in the General Court, as follows: One representative in Ward 7, three in Wards 4 and 5 (said Wards constituting one district), three each in Wards 20 and 24, and two in each of the remaining Wards.

The polls at said meetings will be opened at six o'clock A. M., and closed at four o'clock P. M.

Attest: JOHN T. PRIEST,
City Clerk.
(Nov. 5.)

CITY OF BOSTON.

PROPOSALS FOR THE REMOVAL OF SNOW AND ICE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for the removal of snow and ice in the six snow districts as shown in the form of contract and specification on file in the office of the superintendent. The contractor will furnish the necessary teams, horses, harnesses, men, etc., and submit a price for each cubic yard of snow and ice actually removed from the streets and dumped at the places designated by the superintendent. The contract is to be made from November 15, 1910, until January 31, 1911, with the privilege on the part of the city of extending until May 1, 1911, providing sufficient appropriation is made by the city government. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Thursday, November 10, 1910, with a certified check for \$200 for each district, or \$1,200 for all the districts, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The successful bidder must furnish a bond of a surety company approved by the superintendent. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best. The proposal should be inclosed in an envelope, sealed, and marked "Proposal for Removing Snow."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, October 27, 1910. (Nov. 5.)

CITY OF BOSTON.

PROPOSALS FOR SPRUCE LUMBER.

The Supply Department, Room 826, Tremont Building, invites proposals for furnishing 85,000 feet, more or less, of spruce lumber, board measure, for sewer construction on Dartmouth street, between Boylston street and Huntington avenue. The bidder must leave his proposal and a certified check for \$500 which is to become the property of the City of Boston if the bidder fails to carry out his proposal. Bids will be publicly opened and read Monday, November 7, at 11 o'clock. A bid in duplicate must be filed, without the check, with the City Auditor prior to 11 o'clock Monday, November 7. The successful bidder must furnish a bond by a surety company authorized to do business in Massachusetts for one-fourth of the amount of contract. The superintendent reserves the right to reject any or all bids.

J. EDWARD MULLEN,
Superintendent of Supplies.
(Nov. 5.)

CITY OF BOSTON.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for constructing artificial stone sidewalks in Rochdale street, between Cobden and Fenner streets, Roxbury, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Thursday, November 10, 1910, with a certified check for one hundred dollars (\$100), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Artificial Stone Sidewalks in Rochdale Street."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, November 3, 1910. (Nov. 5.)

CITY OF BOSTON.

PROPOSALS FOR SALT.

The Water Commissioner of the City of Boston invites proposals for furnishing thirty-six hundred twelve (3,612) sacks of coarse mined salt, suitable for use on hydrants and gates, to be delivered as follows: Three hundred twelve sacks to the several engine houses and other houses of the Fire Department in the South Boston district; one hundred thirty sacks to those in the East Boston district; one hundred forty-five sacks to those in the Charlestown district; eight hundred sacks to those in the city proper; two hundred sixty-five sacks to those at the South End; the balance, nineteen hundred sixty sacks, to be delivered at the Water Department yard, 710 Albany street; all deliveries are to be made at once. The number of sacks to be delivered at each house to be designated upon acceptance of proposal. Only proposals signed by the bidder and left at the Water Commissioner's office, Room 58, City Hall, before 12 o'clock noon, Thursday, November 10, 1910, with a certified check for one hundred (100) dollars, will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor before the time above specified; the party whose proposal is accepted will be required to furnish a bond of an approved surety company doing business in Massachusetts in the sum of five hundred (500) dollars as security for the fulfillment of the contract; the commissioner reserves the right to reject any or all proposals should he deem it to be for the interest of the city so to do.

WILLIAM E. HANNAN,
Water Commissioner.
(Nov. 5.)

COLLEGE OF MUNICIPAL INTERESTS.

As a form of extension of the State University, Milwaukee is to have in its City Hall an Institute of Municipal and Social Service. It is to be opened soon with befitting ceremonies by Mayor Brand Whitlock of Toledo and possibly also Mayor Gaynor of New York.

CITIES OF THE FUTURE.*

If we wish to seek a remedy for the present state of things we must approach the problem in all its bearings, and ascertain what would be the best plan to adopt to build a new city, or at any rate a new quarter, constructed in accordance with a general scheme.

All the evil arises from the old traditional idea that "the bottom of the road must be on a level with the ground in its original condition." But there is nothing to justify such an erroneous view. As a matter of fact, if we started from the opposite idea that "the pavement and carriage-way must be artificially constructed at a sufficient height to allow underneath a space sufficient to contain all the installations needed for the service of the road," the difficulty would disappear altogether. This, of course, implies an additional floor underground for the neighboring houses, inasmuch as the ground floor would thus be raised to the level of the street.

In the first place the pavement and the carriage-way would be constructed once for all like a bridge roadway, and ought never to require any manipulations beyond those necessitated by the upkeep and repairs. The paving in wood or in any other elastic material would cover a cement-armored monolithic platform. Such platform, constructed at a height of five meters above the ground proper, would rest laterally upon two masonry walls, parallel with the front walls of the frontage buildings, from which they would be separated by a small space. Between the lateral walls the platform would be supported by several lines of pillars, with spaces between them of about four or five meters.

SUBWAYS FOR PIPES.

Immediately below the bridge roadway would be suspended the whole system of pipes required for various purposes, viz., vacuum cleaning, supply of compressed air, river water, sterilized pure water, petrol and liquid air; conveyance of letters; supply of pure air, etc.; and then all the systems of electric cables (telegraph, telephone, light, energy, high-frequency currents, etc.).

Underneath said systems, which would all be easily accessible and controllable, a space of 25 meters in height would be left, absolutely open up to the old ground level. Four railway lines would then be laid, one meter apart, upon which would run trains of small trucks to remove all rubbish and refuse, as and when required, to convey all heavy and cumbersome materials, and to clear the rubbish from building or repairing yards.

The two central lines would serve for long distance transports, whilst the two lateral lines would be used for light trains; they would be connected by turning platforms with the private lines leading into each house. Each opening through which the trucks would enter the cellars would be closed by two independent doors or iron gratings in such manner that any communication between the house and the street would be impossible without the simultaneous permission of both the owner's agent and the representative of the administrative authorities.

This underground street would be permanently lit by incandescent lamps and glass plates on a level with the pavement. The natural ventilation promoted by electric fans would be produced by high chimneys located at given intervals through the party walls between the houses.

Each frontage would, at the base line, be separated from the next by a regulation recess of two meters by one, at the end of which would be located the ventilation flue. This arrangement would greatly improve the architectural aspect of the frontages, which would thus be sharply divided from one another.

Below the natural level of the street would be laid, as it is now, the sewer, but its dimensions could be reduced, inasmuch as it would be exclusively used for the evacuation of the water, and sewers with natural declivity could perhaps be replaced by watertight large mains to receive the waste water, which would either be forced out or sucked up independently of the level of the ground.

Finally, in the center of the street a large fireproof main would be laid underneath for taking up the smoke, assuming that the old-fashioned method of heating with wood or coal were still in use in a few houses, although it is to be hoped that smoke-producing chimneys will than be prohibited and replaced by oxygen stoves, permitting complete combustion.

However, such a main pipe could be retained for the aspiration of gases emitted by kitchen stoves.

TWO STREETS IN ONE.

To sum up, this arrangement amounts to unfolding the modern street into two streets: one above in the open air, solely intended for the traffic of light vehicular and pedestrian traffic, and the other located below, on a level with the ground and underneath the former, which would take up all the pipe systems, remove the house refuse, and transport heavy materials and goods.

By generalising such a plan we are led to conceive a city possessed of streets with a very heavy traffic which would have three or four superimposed platforms, according to the requirements. The first platform would be for the pedestrians and vehicles, the second for the tramways, the third for the various mains and channels requisite for the removal of refuse, and the fourth for the transport of goods, etc. We should thus have a many-storied street, as we have a many-storied house, and the general problem of traffic, however heavy, would be solved. It is probable, however, that streets unfolded as I have just described would suffice, at least for a very long time, under the present conditions of urban life.

In a new town the adoption of such a plan would be easy. At the end of the system of roads first constructed and in order to establish a direct communication with the natural level of the country gradients with an incline of 5 per cent would be constructed, supported by iron frames capable of being taken to pieces and removed further when the expansion of the town rendered it necessary.

As to the earth excavated from the foundations for the houses and other works, instead of being conveyed at a great expense outside the town and congesting the surrounding country with rubbish heaps, they would be utilized to raise the ground in such parts of the town where underground streets would not be required, to lay out parks, gardens, or other public grounds which might be desired afterwards. In fact, it is this question of equivalence of utilizable excavations and filling which would determine the gradient above the ground-level to be adopted for the artificial roadway.

The application of such a system to old towns would be more difficult. The question, then, would be the removal of large masses of earth for the purpose of digging

hollow streets, for there could be no question whatever of removing our art treasures or of interfering with our historic monuments and the time-honored aspect of our ancient cities. Yet this is not impossible in itself. It is merely a question of money, and the amount can be calculated. Based upon a gross estimate, including the removal of earth up to five meters in depth, the construction of the platform and of the sewers of the lower street, the cost works out at \$28 per meter super (exclusive of the various mains and electric cables, which would have to be borne by the lessee companies).

The area of the public roads in Paris (roadways and pavements) being about 1,500 hectares, the total expense would come to two milliards and 100 millions of francs (\$1,200,000,000). On the assumption that the execution of the work were spread over a period of 100 years, the annual cost would amount to 21,000,000 francs (\$4,200,000), which would not be out of the way for an annual budget of 350,000,000 francs (\$70,000,000). All the central nucleus of Paris, *i. e.*, one-third of its total surface, could be transformed in 35 years at a cost of 700,000,000 francs (\$140,000,000).

However it may be, the point to be remembered in this *expose* is that every new road opened in the old town should, in prevision of the future, be constructed on the principle of a double roadway.

A SOUTH AMERICAN METROPOLIS.

The fact that centralization of population in large cities is not confined to the United States is strikingly illustrated by Argentina, South America. While about 5 per cent of the population of the United States live within twenty miles of New York City, 20 per cent of the population of Argentina live within that distance of Buenos Ayres, and nearly 30 per cent of that country's population live in cities of more than 50,000 inhabitants. This city is said to be surpassed in population by only three cities of our own country, and to be growing at the rate of 60,000 a year, with an annual construction of 12,000 to 14,000 buildings, many of them large modern office buildings of a structural steel type, both type and material being taken largely from this country. Modern apartment houses and "sky-scrapers" are becoming numerous and steam heat common. Fortunately the rise of this capital has been so recent and the planning so wise that wide streets, parkways and local parks, municipal centers and other dreams of many United States' cities are realized in Buenos Ayres, and an example is here furnished to our own cities more instructive in many respects than any offered by European cities, with the restrictions which century-old structures, ideas and customs impose upon them.—*Municipal Journal and Engineer*.

SEWERAGE AND SANITATION.

Owing to the reported greater prevalence recently of typhoid fever in New York State, Governor Horace White has asked State Health Commissioner Eugene H. Porter to report to him upon the actual facts. Many of the victims of the disease, as usual, it is reported, are returned summer vacationists, and it is the supposition that they contracted the fever at summer resorts where the sanitary arrangements and water supply were not all that they should be. It is intended to follow up Dr. Porter's investigation with steps to prevent the further spread of the disease at threatened points.—*Municipal Journal and Engineer*.

* Address by E. Henard, Architect of the City of Paris, at the Town Planning Conference in London.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, NOVEMBER 12, 1910.

No. 46

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, November 14, at 3 p. m.

Meeting of School Committee, Monday, November 21, at 5.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PROPOSALS ADVERTISED.

Dwyer, watchman, 1 day at \$2.25, \$2.25; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 1 day at \$2.75, \$2.75; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John McNulty, laborer, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William Kilty, yardman, 1 day at \$2.25, \$2.25; Humphrey Sullivan, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Dennis McGowan, watchman, 1 day at \$2.25, \$2.25; Martin Connolly, laborer, 1 day at \$2.50, \$2.50; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; Eugene T. Shea, watchman, 1 day at \$2.25, \$2.25; Thomas A. Gorman, foreman, 1 $\frac{1}{4}$ days at \$2.75, \$4.81; Michael Galvin, watchman, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Hugh Cauley, pipe layer, 1 day at \$2.50, \$2.50; Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Daniel J. Heffernan, chauffeur, 1 day at \$2.25, \$2.25; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Timothy J. Kelleher, chauffeur, 1 day at \$2.75, \$2.75; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1 $\frac{1}{4}$ days at \$2.75, \$4.81; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 $\frac{1}{4}$ days at \$2.25, \$2.81; Peter Welch, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Thomas W. Lavery, stableman, 1 day at \$2.25, \$2.25; Patrick Farry, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; Thomas Bowen, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Peter N. Brown, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Raffaele Curcio, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; David Leo, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Thomas Magee, teamster, 1 $\frac{3}{4}$ days at \$2.25, \$2.67; Jeremiah J. McLaughlin, teamster, $\frac{3}{4}$ day at \$2.50, \$2.34; Timothy Noonan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Mathew I. Nolan, teamster, $\frac{3}{4}$ day at \$2.50, \$1.88; Michael F. Burke, teamster, $\frac{1}{2}$ day at \$2.50, \$1.25; James J. O'Brien, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John J. O'Brien, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Michael

Ronan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John C. Thompson, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Thomas Williams, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward A. Pyne, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John Egan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.13; James Murphy, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; James P. McKenney, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward M. Houghton, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John McCormick, 1st, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, 2 $\frac{1}{4}$ days at \$2.25, \$5.06; William Abbott, engineer, 1 day at \$3, \$3; Mathew Brennan, inspector, 2 $\frac{1}{4}$ days at \$3, \$6.56; Robert Doyle, plumber, $\frac{3}{4}$ day at \$3, \$1.13; Timothy Murphy, plumber's helper, $\frac{3}{4}$ day at \$2.25, \$0.84; Joseph T. Ryan, plumber, 1 $\frac{1}{2}$ days at \$3, \$4.78; John J. Welch, plumber's helper, $\frac{3}{4}$ day at \$2.25, \$2.04; Charles Driscoll, plumber, $\frac{1}{4}$ day at \$2.75, \$0.34; Michael C. Sullivan, plumber, $\frac{7}{16}$ day at \$2.50, \$1.09; Patrick Lawless, plumber's helper, $\frac{7}{16}$ day at \$2.25, \$1.27; John Campbell, repairer, 1 $\frac{5}{16}$ days at \$2.50, \$3.28; Robert McLaughlin, fireman, 1 day at \$2.83 $\frac{1}{2}$, \$2.83 $\frac{1}{2}$; Cornelius Hegarty, repairer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; Patrick Lonergan, repairer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; Bernard Flanagan, plumber, 1 $\frac{1}{2}$ days at \$3, \$4.50; Michael McLaughlin, repairer, $\frac{1}{4}$ day at \$2.50, \$0.63; William Collins, repairer, $\frac{1}{4}$ day at \$2.50, \$0.63; Dennis Delaney, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; John W. Murphy, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; John Connolly, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Charles Harkins, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Patrick Heffernan, repairer, $\frac{3}{4}$ day at \$2.75, \$2.06; Daniel Fallon, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; Michael McCarthy, 2d, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; William T. Lenehan, foreman, $\frac{3}{4}$ day at \$4.38, \$3.29; William A. O'Connor, inspector, $\frac{9}{16}$ day at \$2.75, \$1.55; Isaac Saperstein, repairer, $\frac{1}{4}$ day at \$2.50, \$0.63; Michael Mulloy, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; William Lonergan, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Martin Dunlap, plumber's helper, $\frac{3}{4}$ day at \$2.25, \$2.04.

Water Department (Income Division).

For the week ending Thursday, November 3, 1910:

M. Bowen, plumber, $\frac{1}{8}$ day at \$3, \$0.38; P. J. Clougherty, laborer, 3 $\frac{1}{2}$ days at \$2.25, \$7.80; R. J. Connorton, tester, $\frac{1}{4}$ day at \$2.50, \$1.88; J. H. Cullen, plumber, $\frac{7}{16}$ day at \$3, \$0.47; M. J. Dinneen, laborer, $\frac{7}{16}$ day at \$2.25, \$0.98; T. J. Dolan, plumber, $\frac{7}{16}$ day at \$3, \$1.31; M. H. Fenton, plumber, $\frac{1}{4}$ day at \$3, \$0.38; C. Fitzgerald, laborer, $\frac{3}{8}$ day at \$2.25, \$0.84; P. F. Gateley, plumber, $\frac{3}{8}$ day at \$2.75, \$2.49; O. J. Gilloon, plumber, 1 $\frac{1}{2}$ days at \$3, \$5.34; P. Ippolito, laborer, 3 $\frac{1}{4}$ days at \$2.25, \$7.31; M. M. Kenney, laborer, $\frac{3}{8}$ day at \$2.25, \$2.04; E. Mahoney, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.59; J. J. Mahoney, laborer, $\frac{3}{8}$ day at \$2.25, \$0.84; T. McAuliffe, laborer, $\frac{7}{8}$ day at \$2.25, \$1.97; D. J. McCallion, laborer, 1 $\frac{1}{16}$ days at \$2.50, \$2.66; Frank McCarthy, laborer, 1 day at \$2.50, \$2.50; P. J. McCarthy, plumber, $\frac{7}{8}$ day at \$2.75, \$2.41; M. Mulkern, laborer, 1 $\frac{1}{16}$ days at \$2.25, \$2.32; J. H. O'Brien, laborer, 1 $\frac{1}{16}$ days at \$2.25, \$2.39; T. J. Ratchford, laborer, $\frac{1}{4}$ day at \$2.50, \$0.31; Joseph Rice, tester, 1 $\frac{1}{4}$ days at \$2.50, \$3.13; J. J. Roche, laborer, 1 $\frac{3}{8}$ days at \$2.25, \$4.01; J. J. Shea, laborer, 1 $\frac{3}{8}$ day at \$2.25, \$1.83; Daniel Sullivan, laborer, 1 $\frac{3}{8}$ days at \$2.25, \$2.60; D. J. Sullivan, engineer, $\frac{1}{2}$ day at \$3, \$1.78; J. Sullivan, laborer, 1 $\frac{1}{2}$ days at \$2.25, \$3.02; T. J. Sullivan, plumber, $\frac{1}{8}$ day at \$3, \$2.44; J. E. Tierney, machinist, $\frac{1}{4}$ day at \$3, \$1.50; M. P. Welch, plumber, 1 $\frac{1}{2}$ days at \$2.75, \$3.78.

On November 4 the Mayor approved a contract with John F. O'Connell for filling at Orient Heights. Bids on this work, opened October 14, were as follows:

	Per Cubic Yard.
John F. O'Connell.	\$0 49
Charles J. Jacobs Company.	48
Cerulli & Greco.	52 $\frac{1}{2}$
Bianco & Statute.	87
Frank Williams & Co.	92

The bid of Charles J. Jacobs was for but 1,200 to 1,800 yards. Bid of Cerulli & Greco, although filed at City Auditor's

office, arrived too late for filing at Park Department.

On November 8 the Mayor approved a contract with the John H. Winslow Contracting Company for grading speedway at Franklin Field. Bids on this work, opened October 31, were as follows:

John McCourt & Co., \$13,290; F. Williams & Co., \$9,578; F. S. & A. D. Gore Corporation, \$8,630; John H. Winslow Construction Company, \$7,059; James F. Murphy, \$10,985; Antony Cefalo, \$9,195; Hugh Nawn Contracting Company, \$10,495; James Driscoll & Son, \$8,380; D. M. Biggs & Co., \$13,871; Mark H. Lynch, \$9,095; J. C. Coleman & Sons Company, \$8,945.

On November 8 the Mayor approved a contract with John H. McCarthy for laying brick and concrete walks at the

Charlesbank Playground. Bids on this work, opened October 14, were as follows:

	Item 1, Brick Paving, per Square Yard.	Item 2, Concrete Paving, per Square Yard.
John F. O'Connell.....	\$0 90	\$1 55
John H. McCarthy.....	1 35	1 44
John McComb & Co.....	1 24	1 52
*F. Williams & Co.....	1 05	1 62
A. Piotti.....	1 25	1 62
William L. Dolan.....	1 00	1 80
Commonwealth Construc- tion & Supply Co.....	1 19	2 16

* No check accompanied bid of F. Williams & Co.

SCHOOLHOUSE DEPARTMENT.

On November 4 the Mayor approved a contract with the C. S. Cunningham & Sons Construction Company for erecting and completing elementary school building in the Edward Everett District. Bids on this work, opened October 19, were as follows:

C. S. Cunningham & Sons Construction Company, \$23,320; McGahey & O'Connor, \$25,087; Daniel L. Shepard, \$26,000; William Crane, \$27,004; J. E. Locatelli Company, \$27,086; Whiton & Haynes, \$29,100; L. D. Cadario, \$30,212.

On November 8 the Mayor approved a contract with the Commonwealth Construction & Supply Company for building concrete wall, fence, etc., at the Prescott School, Charlestown. Bids on this work, opened November 4, were as follows:

Commonwealth Construction & Supply Company, \$1,595; John McCourt & Co., \$1,640; Fred E. Bowes, \$1,678; James J. Brock, \$1,809.15; D. M. Biggs & Co., \$1,990; W. A. Snow Iron Works Company, \$2,987.

On November 8 the Mayor approved a contract with the Commonwealth Construction & Supply Company for building concrete wall, fence, etc., at the George Putnam School. Bids on this work, opened November 2, were as follows:

Commonwealth Construction & Supply Company, \$925; John McCourt & Co., \$947; J. F. Griffin & Co., \$1,061; J. E. Costello, \$1,313; D. M. Biggs & Co., \$1,590; Fred E. Bowes, \$1,670; W. A. Snow Iron Works Company, \$2,750.

STREET DEPARTMENT (Highway Division).

On November 7 the Mayor approved a contract with Warren Brothers Company for paving with asphalt and regulating Massachusetts avenue between Columbus avenue and Washington street. Bids on this work, opened November 1, were as follows:

F. S. & A. D. Gore Corporation, \$7,662.50; Warren Brothers Company, \$8,498.50; Jones & Meehan, \$8,815; Barber Asphalt Paving Company, \$9,336.30.

The proposal of F. S. & A. D. Gore Corporation did not include the border—merely proposing to remove old wearing surface and replace same.

On November 8 the Mayor approved a contract with James Doherty for filling, slope paving and fence on Freeport street, Dorchester. Bids on this work, opened November 4, were as follows:

James Doherty, \$1,431.74; W. J.

Rafferty & Co., \$1,449.50; J. H. Winsloe, \$1,465.55; J. McCourt, \$1,745.80; D. M. Biggs, \$1,836.34; Commonwealth Construction Company, \$3,299.

STREET DEPARTMENT (Sewer Division).

On November 8 the Mayor approved a contract with J. H. Ferguson for cleaning Tenean creek conduit. Bids on this work, opened October 28, were as follows:

J. H. Ferguson, \$4,212.45; James L. Pierce & Co., \$5,369.93; Peter W. Hill, \$6,641; Commonwealth Construction & Supply Company, \$6,793.05; Richard A. Nagle, \$6,944.85; J. C. Coleman & Sons Company, \$7,020.75.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

SCHOOLHOUSE DEPARTMENT.

Addition, amounting to \$100, on contract with James P. Dwyer for addition to Girls' High School, on account of changes in main supply pipe and engine supply pipe. Original contract, \$6,688; total additions, \$100; contract as standing, \$6,788.

Addition, amounting to \$87, on contract with Pierce & Cox on William Lloyd Garrison School, on account of installing four bubbling fountains in play room. Original contract, \$3,980; total additions, \$97.78; total deductions, \$350; contract as standing, \$3,727.78.

Addition, amounting to \$32.05, on contract with the M. B. Foster Electric Company at Samuel Adams School, on account of installing two additional combination outlets. Original contract, \$5,483; total additions, \$32.05; contract as standing, \$5,515.05.

Addition, amounting to \$140, on contract with the M. B. Foster Electric Company at William Lloyd Garrison School, on account of bonus for completing work ahead of specified time. Fourteen days at \$10; original contract, \$3,550; total additions, \$140; contract as standing, \$3,690.

LAND RECONVEYED TO THE MASSACHUSETTS GENERAL HOSPITAL.

On June 28, 1910, the Board of Street Commissioners took, with a view to providing a site for the proposed High School of Commerce, a parcel of land owned by the Massachusetts General Hospital, and situated on Common and Warrenton streets, and containing 20,200 square feet, more or less.

It was later decided not to locate the new building on this site, and the Schoolhouse Commission formally notified the City Council to that effect. The Massachusetts General Hospital having agreed to accept the return of this parcel, without cost to the city, except legal fees, the Mayor, acting under the authorization of the City Council, has executed a quitclaim deed transferring this parcel of land to the Massachusetts General Hospital.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENTS.

The following appointment has been made, subject to confirmation by the Board of Civil Service Commissioners:

November 10, Louis A. Ginsburg to be a Trustee for Children.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising: Build a surface drain in Bradford avenue, between South and Centre streets; 267 linear feet 15-inch pipe surface drain; 283 linear feet 12-inch pipe surface drain; 515 linear feet 10-inch pipe surface drain, at an estimated cost of \$2,159. Build a surface drain in Knoll street, between Selwyn and Walter streets, West Roxbury; 43 linear feet 15-inch pipe surface drain; 587 linear feet 10-inch pipe surface drain, at an estimated cost of \$1,436.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"Public necessity and convenience require that this work be done after November 15, for which your authority is requested.

L. K. ROURKE,
Superintendent of Streets."

CLAIMS.

On November 5 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

Luella D. Clancy, \$50, for personal injuries caused by a defect in sidewalk at 32 Tyler street, March 24, 1908.

Patrick Kane, \$7.50 and costs, for personal injuries caused by a sewer overflow at 24 Whitney street, August 1, 1907.

Fannie McClinch, \$25, for personal injuries caused by the overflow of a water main at 94 Normandy street, November 18, 1907.

James McGovern, \$625, for breach of contract in construction of a sewer in Adams street, December 27, 1905.

Mary A. McGrath, \$25, for damages to real estate caused by change of grade at D street.

George J. Regan, \$391.50, for damages for breach of contract in construction of sewerage works in Harold street, December 27, 1905.

Michael Walsh, \$800, for damages to real estate caused by change of grade at 100 D street.

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved a vote of the Schoolhouse Commission requesting the Board of Street Commissioners to take for schoolhouse purposes a certain parcel of land situated on Homes avenue, Redford and Harlan streets, containing about 26,000 square feet, in the Washington Allston District, Allston; and a similar request to take, in addition to a lot already taken for an elementary school, in the Phillips Brooks District, a certain parcel of land containing 1,088 square feet situated on Dacia street.

PERMISSION TO SELL.

The Mayor has granted to the Water Commissioner authority to sell a lot of old cast-iron junk located at 710 Albany street, to an amount not exceeding \$500.

The Mayor has granted to the Fire Commissioner permission to sell old horses to an amount not exceeding five hundred dollars, the same to be in part payment for new horses.

LOCATION OF PRIVATE WAYS.

On November 10 the Mayor approved the locations, directions, widths and grades for the private ways at West Roxbury, known as Granada avenue and Rawson road, as shown on plan approved in writing by the Board of Street Commissioners and on file in the office of the City Engineer.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.

1910.

- Nov. 17. The Aesthetic Ideals of Greece and Japan.
 Dec. 1. Carthage. George B. Dexter.
 Dec. 8. Cortona, a Hill Town of Italy. Eben F. Comins.
 Dec. 15. The Passion Play of Oberammergau. Rev. Thomas I. Gasson, S. J.
 Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.
 1911.
 Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.
 Jan. 12. *Photography in relation to Illustration. J. Horace McFarland.
 Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.
 Jan. 26. *The Paper and Binding of Books. Cedric Chivers.
 Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.
 Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.
 Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.
 Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.
 March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.
 March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.
 March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.
 March 23. Switzerland and the Rhine. Henry Warren Poor.
 March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

* Under the auspices of the Society of Printers.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight o'clock.

1910.

- Nov. 21. A Western Outdoor Trip. Mary E. Haskell.
 Dec. 12. Norway and the North Cape. Frederick M. Brooks.
 1911.
 Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).
 Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
 March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
 April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

STREET COMMISSIONERS.

The Mayor has approved an order of the Board of Street Commissioners that by the making of the public improvement consisting of the laying out and construction of Addison street, East Boston, as a highway from Saratoga street to Pope street, various estates have sustained damages as follows:

Thomas Pounder, grade damages.	\$75 00
Annie L. McMahon, grade damages.	50 00
Annie M. Kelley, T. T., Catherine M. O'Brien, equity, grade damages.	100 00
Arthur M. and Louis F. Foote, grade damages.	50 00
Edward M. Cox Heirs.	50 00
Redmond Condon, grade damages.	25 00
Anna, wife of William Barker, grade damages.	100 00
John Skehan.	75 00
Norah Sloane, grade damages.	50 00
Alfred Hemenway, grade damages.	50 00
Bridget Sheehan, grade damages.	25 00
	<u>\$650 00</u>

The Mayor has approved a similar order of the Board, that the following estates have been benefited, in amounts

as given below, by reason of the above improvement:

Lots.	Amounts.
1 Maverick Mills.	4,750 53
2 East Boston Company.	75 00
3 Vincenzo Bonzagni.	300 00
4 Bridget Sheehan.	262 50
5 Willard Welsh.	300 00
6 East Boston Company.	300 00
7 East Boston Company.	300 00
8 Alfred Hemenway.	300 00
9 Thomas Dawson.	150 00
10 Norah Sloane.	150 00
11 John Skehan.	150 00
12 Anna, wife of William Barker.	150 00
13 Redmond Condon.	150 00
14 Edward Cox Heirs.	150 00
15 Arthur M. and Louis F. Foote.	300 00
16 Annie Kelley, T. T., Catherine M. O'Brien, equity.	150 00
17 Aurelia A. Scigliano.	150 00
18 Annie L. McMahon.	300 00
19 Thomas Pounder.	189 00
20 East Boston Company.	47 04
	<u>\$8,624 07</u>

Estimated cost of construction is as follows:

Sewer construction.	\$8,645 67
Street construction.	20,200 00
Total.	<u>\$28,845 67</u>

The following votes of the Board of Street Commissioners, taken after consultation with the Law Department and on its advice, have been approved by the Mayor: Agreeing to the repayment of the sum of \$90 in the matter of Eubert M. Laws, who petitioned to recover back \$845.72 paid for assessment levied for Columbia road improvement against his estates numbered 33, 34, 35, 36 and part of lot 37; agreeing to the repayment of the sum of \$100 in the matter of Charles W. Trask, who petitioned to recover back \$455.76 paid for assessment levied for the Columbia road improvement to his estate numbered 52; agreeing in the matter of certain persons seeking an abatement of the assessment against their respective estate for the Columbia road improvement, on the following amounts, without interest:

Lot 506. Ellen M. Cook.	\$745 83
Lots 68, 69, 70, 77. William Burke et al.,	
Lot 71. Charles Halpert.	1,074 89
Lot 72. Solomon Bacharach.	

The Mayor has also approved the vote of the Board of Street Commissioners, awarding the sum of \$200 to Frank A. Duffy for damages occasioned to his estate by reason of the laying out of Rexford street, Dorchester.

NEW YORK MUNICIPAL FERRIES.

The New York Municipal Ferries have lately been subject to a great deal of criticism on account of a deficit in their operation. The extent of that deficit has been debated somewhat in the daily papers, and there seems to be some confusion as to the extent to which interest charges, allowances for sinking funds and the like have been considered in making up the statements of the cost of the service now rendered. In a city where a horse has only recently been bought for public use out of the proceeds of the sale of corporate stock, it is not surprising that some criticism is leveled at the book-keeping of even such a successful business man as Commissioner Tomkins of the Department of Docks and Ferries. The purpose of this note is not to enter into a controversy over his accounts, but rather to point out the futility of attempting to judge the work of his department like a strictly business enterprise. Most of the ferries plying between the different boroughs of New York have gradually become bankrupt; it is possible that the ferry between Manhattan and South Brooklyn and that between Manhattan

and Staten Island could be operated by private parties so as to yield a profit, but the service would undoubtedly be very poor. The municipal ferries are not intended, however, to take the place of business enterprises. They should be regarded rather as the equivalents of the great bridges connecting Manhattan and the Long Island shore. When the ferry is put on the same basis as the bridge, its management inevitably assumes a totally different character. It then becomes an instrument for knitting together two or three boroughs, a means of transportation furnished by the city at the lowest practicable rate consistent with good service in order that the portions of the city bound together by it may derive the greatest mutual advantage from each other. Any city maintaining a municipal ferry will be most successfully served by it, in the long run, if it will endeavor to give the best service at the lowest cost, for by so doing the value of property in some parts of the city will be so raised that greater returns in the form of taxes will be obtained. These considerations are exactly those which govern the construction of great bridges and expensive tunnels, and they alone should govern the discussion of municipal ferry service.—*Engineering Record*.

PAVEMENTS AND ILLUMINATION.

Pavements and illumination were recently associated in a novel way by Mr. Preston S. Millar, who claimed in a paper read before the Illuminating Engineering Society that the character of street surfaces has an important effect on street lighting. This is a novel source of complication to the already involved problem of paving. The municipal engineer is expected to train his ear so well that the delicate shades of noise from granite and gneiss blocks can be detected and estimated quantitatively. He is expected to know just how much more easily a horse will slip on blue gum blocks as compared with those of long-leaf pine. He is assumed to know the effect on public health which will follow the paving of Main street with sheet asphalt and Front street with brick. He is also expected, *ex officio*, to be able to purchase a \$3 pavement for \$1.25, with a ten-year maintenance guaranty thrown in by the contractor. All these things the city engineer has learned to expect among his official duties, but a protest is inevitable when it comes to selecting pavements on the basis of their properties for absorbing and reflecting light. A noisy pavement is a nuisance in some localities, a slippery pavement is dangerous on some grades, a smooth pavement offers special advantages in the way of cleanliness; these considerations are based primarily on the direct service due from pavements and must be given due weight. But it is unreasonable to select pavements with a view to improving the quality of street lighting, much as the electric companies would rejoice in this practice. By all means let us learn all we can about the absorption and radiation of light from street surfaces, but let it be distinctly understood that the information is to be used in improving the quality of the illuminating service and not in adding another condition to those now prescribed for pavements.—*Engineering Record*.

MUNICIPAL LODGING HOUSE.

Minneapolis is to have a municipal lodging house that will take care of fifty men. That is something that is badly needed in Los Angeles.

FUEL ECONOMY.

Fuel economy has been considerably improved in a number of stations recently by methods outlined at the meeting of the American Street and Interurban Railway Association at Atlantic City this week. A saving of 8 per cent was made at Austin, Tex., by using fine shanking grates, and one of 5 per cent at Baltimore by improving boiler conditions. As a rule, however, the gains have been due to better boiler room management. The Muncie & Portland Traction Company has had very satisfactory results from using better coal, cleaning the boilers every fortnight, keeping the tubes free from scale, placing heavier coverings on the tops of the boilers, and seeing that all cracks in the walls are thoroughly closed as soon as detected. The Louisville Railroad Company has made gains by increasing the temperature of the feed water, increasing the vacuum and bettering the firing methods with the aid of recording gauges. The Little Rock Railway & Electric Company has been successful in increasing its fuel economy by using better coal, bought on specification, and by keeping the boilers clean. These comments are in line with the advice given in this journal for many years. The boiler room is the best place for saving coal. If the boilers are kept clean and the stokers are taught to do their work properly, fair economy is possible with any plant fit for steady service. Constant supervision is necessary to maintain this, however, and it will be greatly helped by a moderate bonus. Coal handling is a hard and dry job, which a little profit-sharing makes much more interesting to the man with the shovel.—*Engineering Record.*

MALDEN ECONOMICAL IN WATER CONSUMPTION.

The monthly report of the Metropolitan Water Board still shows Malden at the head of the cities in the entire district. The following figures show the per capita consumption in September, 1909 and 1910:

	1909.	1910.
Boston.....	140	129
Somerville.....	79	79
Malden.....	46	45
Chelsea.....	79	77
Everett.....	75	72
Quincy.....	100	96
Medford.....	77	56
Melrose.....	63	65
Revere.....	89	89
Watertown.....	54	70
Arlington.....	83	88
Milton.....	43	34
Winthrop.....	90	69
Stoneham.....	91	85
Belmont.....	58	64
Lexington.....	75	74
Nahant.....	66	65
Swampscott.....	57	57
Entire district.....	117	109

—*Municipal Journal and Engineer.*

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting and completing elementary school, upper grades, Sherwin Street (George T. Angell School), Hunne-man Street, Roxbury, Boston, Mass., and giving bond of a surety company therefor in the sum of \$20,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Monday, November 21, 1910, at said office, with a certified check for \$2,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LORRE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.

Nov. 12.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR STREET LIGHTING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for lighting such streets, parks and alleys as may from time to time be designated by the city for a period of ten years from January 31, 1911, and giving bond therefor of a surety company approved by the superintendent in the sum of fifty thousand dollars (\$50,000) for work to be done under Items A, B and C, and twenty-five thousand dollars (\$25,000) under Items D and E, to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at said office of the Superintendent of Streets. Bids are to be based on furnishing approximately ten thousand lamps distributed in such separate districts as may be determined by the city, as follows:

A. For furnishing, maintaining and operating approximately ten thousand incandescent electric lamps in addition to the incandescent lamps now maintained under the existing electric lighting contract, or for the extension of the existing electric lighting contract for a period of ten years from January 31, 1911.

B. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners.

C. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

D. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners.

E. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

Items A, B and C to also include the maintenance and operation of approximately two hundred and ten fire-alarm signal lamps. The city will furnish the lamp posts. Bidders are to state a price for furnishing, maintaining and operating each lamp per annum, and price per lamp and automatic device complete and installed. Under Items D and E the city will furnish the gas by purchase from the gas company and provide for maintenance.

Samples of the equipment to be furnished under the bid must be submitted with the same. Each bid should be inclosed in an envelope, sealed, and marked "Bid for Street Lighting," and left at the said office of the Superintendent of Streets, before 12 m. on Saturday, December 24, 1910, with a certified check for five thousand dollars (\$5,000) under Items A, B and C, and one thousand dollars (\$1,000) under Items D and E, payable to and to become the property of the city if the bid, after acceptance, is not carried out. The bids will then and there be publicly opened and read. Bids must be in duplicate, the duplicate without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bid. The undersigned reserves the right to reject any or all proposals, and to award the contract as he may deem in the best interests of the city.

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, November 10, 1910.
(Nov. 12-19-26-Dec. 3.)

CITY OF BOSTON.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for constructing artificial stone sidewalks in Moore street, easterly side, between Saratoga and Bennington streets; Saratoga street, southerly side, from Moore street about 200 feet easterly; Bennington street, northerly side, from Moore street about 200 feet easterly, East Boston, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Wednesday, November 16, 1910, with a certified check for two hundred dollars (\$200), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Artificial Stone Sidewalks in Moore, Saratoga and Bennington Streets."

LOUIS K. ROURKE,
Superintendent of Streets.

Boston, November 10, 1910.
(Nov. 12.)

CITY OF BOSTON.

PROPOSALS FOR FILLING AND MACADAM ROADWAY.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for furnishing, filling and constructing a macadam roadway in Addison street, between Saratoga and Pope streets, East Boston, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Monday, November 21, 1910, with a certified check for one thousand dollars (\$1,000), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Macadam Roadway, etc., in Addison Street."

L. K. ROURKE,
Superintendent of Streets.
Boston, November 10, 1910.
(Nov. 12.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SURFACE DRAINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe drains in Emmons road, between Linnet street and Board of Survey street No. 665, and in Howitt road, between Bellevue and La Grange streets, West Roxbury, and giving bond therefor of a surety company approved by the superintendent in the sum of fifteen hundred dollars (\$1,500), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Surface Drains in Emmons Road, etc.," and left at the said office of the Superintendent of Streets before 12 m. on Monday, November 21, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, November 10, 1910.
(Nov. 12.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe sewer in Edgewater drive, between Tokio street and Tesla street, Dorchester, and giving bond therefor of a surety company approved by the superintendent in the sum of three hundred dollars (\$300), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewer in Edgewater Drive," and left at the said office of the Superintendent of Streets before 12 m. on Monday, November 21, 1910, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, November 10, 1910.
(Nov. 12.)

LARGE PAVING CONTRACT.

In an addition that is being laid out near Seattle there are eighteen miles of streets to be paved with asphalt, all in one contract. Five months are allowed to complete the work. It is proceeding at the rate of four blocks a day.

RAPID TRANSIT AND COMMERCIAL DEVELOPMENT.

Among the larger questions which the transportation engineer is obliged to consider in connection with the inauguration of new rapid transit facilities the effect of high-speed service upon commercial development is of no little interest. The creation of a new line of fast cars to a district without previous modern service presupposes a resulting expansion of the area reached, and this is the usual experience, no matter whether the territory served is business or residential in character. It is no less important, however, in engineering studies of proposed urban rapid transit lines to examine their relation to existing commercial districts and to estimate the possibilities in the way of deflection and introduction of travel from and into a given area. While it is true that the larger transportation needs of a whole community rather than those of a limited section must in the long run dictate the location of subway and other avenues of fast travel, the problem of new facilities cannot be properly solved without taking some account of the probable effects of redistribution upon important streets and districts which have become more or less congested under the old facilities.

Boston furnishes an interesting example at the present time of the sensitiveness of business interests to rapid transit facilities. In most cities a high-speed line once established remains a permanent asset of the community, but in Boston an unusual situation was created by the installation of train service in the Tremont street subway in 1901, and its withdrawal to the new Washington street tunnel seven years later. Single-car service was restored to the subway at once, but with the departure of the elevated trains trunk-line service from outlying southern and northern suburbs to the heart of the city was transferred to Washington street. The running time through the old subway was affected but little, but the deflection of the main streams of travel to a thoroughfare scarcely one-fourth of a mile distant resulted in a marked decrease in the patronage of many mercantile houses located near the principal stations. Thus, in one instance an establishment had, by expending \$3,000 a year in advertising, increased its gross income from \$17,000 to \$100,000. When the subway trains were withdrawn the income fell off one-third and was only built up by increasing the advertising expenditure to \$10,000 per year. In another instance a firm cleared \$8,000 in the year before the trains were withdrawn. A year and a half later the house failed. Prominent department stores felt the effects of the change, and appealed to the Legislature to restore the train service, although such a course was utterly out of the question on account of the superior advantages of the new tunnel as a rapid transit trunk line.

The effect of new lines upon commercial development in Boston is now being widely discussed in connection with the building of two new subways from the Park street district to the western suburban areas centering upon Cambridge and the outer Back Bay. Each of these subways has been authorized by the Legislature, and the line to Cambridge is rapidly approaching completion. The other line, known as the Riverbank subway, has just had its westerly terminus fixed by the Boston Transit Commission, and will be constructed with the least possible delay unless at the coming session of the Legislature influential property interests succeed in having the route altered. The

peculiarity of the situation is that the Cambridge subway will traverse Beacon Hill and the West End district of Boston without providing for any local stops until Kendall square, Cambridge, is reached; and the Riverbank subway, while designed for station stops on the northern fringe of the Back Bay, is destined to carry traffic past one of the greatest retail thoroughfares of the city without affording convenient access to its mercantile establishments. This combination of affairs has led the public utilities committee and directors of the Boston Chamber of Commerce to recommend planning future subways according to a single comprehensive scheme which shall embrace the entire business center. It is pointed out that the Railroad Commission of Massachusetts and the Boston Transit Commission have from time to time been directed by the Legislature to investigate specific rapid transit projects, nearly a dozen of these being under examination at the present time; but that no single and comprehensive analysis of the line of general future development needed has been requested of late.

The relation of the work of the railroad engineer to the urban real estate man is certain to receive more consideration in view of recent Boston experiences, although it remains to be proved that the plans for rapid transit improvement now legally under way, which involve in the next six years an expenditure of some \$30,000,000, are not sufficiently comprehensive for the metropolitan district as a whole. The needs of the larger community are at present being thoroughly aired in connection with the revival of plans for greater centralization of municipal functions and community interests, tending to further the plan of uniting the suburban cities and towns with Boston proper. The situation plainly shows that the rapid transit problem is one of larger scope than the provision of train or car service for districts assumed to be immobile as to population and commercial resources. In dealing with such questions the engineer passes out of the field of purely technical studies to the larger area of urban economic development.—*Engineering Record.*

IT PAID TEXAS TO ADVERTISE.

One of the sensations of the federal census is the record growth of the two important Texas cities of Fort Worth and San Antonio, together with the positive slump shown by Galveston, the "Sea Wall City."

Fort Worth registers the astounding increase of 174.7 per cent in the last ten years, her population being given as 73,312, an increase of 46,644 over the enumeration of 1900.

San Antonio shows an increase of 81.2, with a population of 96,614, or an increase of 43,293 for the ten years preceding.

The lesson of this lightning progress in population, which will be doubtless sustained in the rural districts, is simply—Advertising!

Advertising both by Texas itself and by railroads and other influences in behalf of Texas.

More than any other southern state Texas has adopted and made its own the western method of perpetual boasting. The towns and cities and villages of that state have never lost an opportunity to spread the virtues of the commonwealth to the four quarters of the globe, giving the glad hand to every stranger and making the pathway of new enterprises smooth.

The railroads have led the van in this movement. In eastern and other southern newspapers they have chanted Texas' inducements from one year's end to another. They have flooded southern, eastern and western territory with the most seductive brand of literature.

Texas and the railroads have spent hundreds of thousands of dollars in intelligent publicity and reaped millions upon millions of dollars in development.

Out of all these conditions the lessons for Georgia and other southern states protrude plain as daylight.

If they expect to reap a harvest from advantages fully the equal of and, in the case of Georgia, superior to those of Texas, they also must—

Advertise!

Georgia has done that in single instances through the energetic activities of the Atlanta Chamber of Commerce and other commercial bodies, acting as units.

Other developmental plans are now being projected by the Greater Georgia Association.

Meanwhile it is incumbent upon the railroads of the eastern portion of the southern states to follow the pace of the railroads that penetrate the Texas territory.

They cannot expect to build up the waste places in their territory, to swell dividends or to provide surpluses for maintenance and extensions unless they spend money for publicity purposes.

There is no negative argument on either of these propositions.

They have been conclusively demonstrated in the case of Texas and before Texas in the case of the western states.—*Atlanta Constitution.*

CHICAGO TO DOUBLE NUMBER OF STREET LIGHTS.

Chicago is to be the best lighted city in the world, according to the trustees of the Sanitary District Drainage Board, who last week closed a contract with the city for providing street lights for the entire city, taking over the transmission lines owned and operated by the city. These lines taken are to be paid for within seven years at a rate of interest given on its bonds. The city now operates 12,000 arc lights. This number will be increased to 22,600 as soon as the council designates where the 10,000 new lights are to be placed. "This means an increase in street lights of nearly 100 per cent," said President McCormick, "and is equal to a doubling of the present police force, as each light is as good as a policeman in offering protection at night. The contract will take up much of our surplus energy and will give us greater territory. We will go ahead with installing the extra 10,000 lights as soon as the city notifies us where they are to be placed."—*Municipal Journal and Engineer.*

AUTOMOBILE ACCIDENTS.

At a hearing before the Washington (D. C.) commissioners on a proposed regulation requiring lights on all vehicles, the question was raised as to the comparative frequency of accidents due to automobiles and to horse-drawn vehicles. Commissioner Cuno H. Rudolph, chairman of the board, replied by presenting the following figures for nine months ending March 31: Automobiles—Accidents resulting in death, 6; in serious injury, 32; in slight injury, 139; in property loss alone, 157; in no injury or loss, 37; total, 371. Vehicles drawn by animals—Accidents resulting in death, 3; in serious injury, 61; in slight injury, 332; in property loss alone, 256; in no injury or loss, 83; total, 735.

OFFICIAL DIRECTORY.

MAYOR'S OFFICE.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, NOVEMBER 19, 1910.

No. 47

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, November 21, at 3 p. m.

Meeting of School Committee, Tuesday, November 22, at 4.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

This Board will give public hearings on Tuesday, December 6, next, on the following petitions:

Gasolene, etc.—G. E. & H. J. Habich Company, 117 Massachusetts avenue; William H. Taft, 58 Murdock street, Ward 25; Ansco Company, 46 Cornhill.

Bay Window.—Peter F. Kelly, 109 Bunker Hill street.

Pole Locations.—Fire Commissioner, 5 poles on Colberg avenue, Ward 23.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

SCHOOL COMMITTEE.

Advertises for proposals for military equipment, including belts and scabbards,

rifles and bayonets. Samples may be seen at the office of the Auditor of the School Committee, Mason street. Bids to be filed at that office.

Bids close Monday, November 28, 1910.

Advertises for proposals for furnishing drawing and manual training supplies. Blank forms for proposals may be obtained at the office of the Auditor, Room 63, 168 Tremont street. Bids to be filed at same office.

Bids close Thursday, December 1, at 11 a. m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for erecting and completing elementary school, Sherwin District. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, November 21, at 12 m.

Advertises for proposals for installing plumbing system in the George T. Angell School, Roxbury. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, November 28, at 12 m.

Advertises for proposals for installing heating system in the George T. Angell School, Roxbury. Blank forms for proposals may be obtained at the office of the commission, 120 Boylston street. Bids to be filed at same office.

Bids close Monday, November 28, at 12 m.

Advertises for proposals for selling land to the city for an elementary school in the Washington-Allston District, Brighton. Proposals to be filed at the office of the commissioners, 120 Boylston street.

Bids close Monday, December 5, at 12 m.

STREET DEPARTMENT (Highway Division).

Advertises for proposals for furnishing, filling and constructing a macadam roadway in Addison street, between Saratoga and Pope streets, East Boston. Blank forms for proposals may be obtained at the office of the Superintendent of Streets. Bids to be filed at same office.

Bids close Monday, November 21, at 12 m.

Advertises for proposals for the removal of snow and ice in snow district No. 3, for a period from November 25, 1910, to January 31, 1911, with the provision for an extension to May 1, 1911. Blank forms for proposals may be obtained at the office of the Superintendent of Streets, City Hall. Bids to be filed at same office.

Bids close Wednesday, November 23, at 12 m.

STREET DEPARTMENT (Lamp Division).

Advertises for proposals for furnishing, maintaining and operating approximately 10,000 gas or electric lamps, for a period of 10 years from January 31, 1911. Bids to be filed at the office of the Superintendent of Streets, City Hall.

Bids close Saturday, December 24, at 12 m.

STREET DEPARTMENT (Sewer Division).

Advertises for proposals for pipe sewer in Edgewater Drive, between Tokio and Tesla streets, Dorchester. Blank forms for proposals may be obtained at the office of the Superintendent of Streets. Bids to be filed at same office.

Bids close Monday, November 21, at 12 m.

Advertises for proposals for surface drains in Emmons road and in Howell road, West Roxbury. Blank forms for proposals may be obtained at the office of the Superintendent of Streets. Bids to be filed at same office.

Bids close Monday, November 21, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending November 17, 1910:

AUDITING DEPARTMENT.

Designation of Julien C. Haynes to act as Auditor at such times as the City Auditor may be absent during the four weeks beginning Monday, November 14, 1910.

BUILDING DEPARTMENT.

Transfer of Michael J. Carroll from the Street Department to the position of inspector in the Building Department with salary at \$1,600 per year.

CHILDREN'S INSTITUTIONS DEPARTMENT.

Increases in wages to Mary Rich, Florence B. Pfeiffer, Mary Moran and Susie A. Russell, assistant matrons at the Parental School, from \$20 to \$25 per month in each case.

Increase in wages to Janet Machon, hospital matron at the Parental School, from \$20 to \$25 per month.

Increase in wages to Addie Leighton, dormitory matron at the Parental School, from \$20 to \$25 per month.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Appointment of Miss Mary Geary as laundress at hospital at a salary of \$20 a month.

Appointment of Miss Margaret McLennan as laundress at \$20 a month.

ENGINEERING DEPARTMENT.

Designation of Frank A. McInnes to perform the duties of Acting City Engineer in the absence of the Acting City Engineer, during the four weeks commencing November 16, 1910.

FIRE DEPARTMENT.

Appointment of George L. Fickett to the position of superintendent of fire alarms with salary at \$2,500 per year.

HEALTH DEPARTMENT.

Promotion of Margaret Kane to the position of stenographer and clerk with salary at rate of \$15 per week as formerly drawn by her.

Appointment of James E. Cotter, Michael E. Conway and George H. Brophy as inspectors of dairies at salaries of \$1,200 per year in each case.

Appointment of Gertrude L. Davis as stenographer and clerk in the laboratory, with salary at \$10 per week.

Transfer of Charles P. Harrington from the position of sanitary inspector to the position of clerk with salary at \$1,000 per year.

HOSPITAL DEPARTMENT.*To Fill Vacancies.*

Permanent.—James Connolly, steam-fitter's helper, \$15 per month; Josephine Hives, wardmaid, \$12 per month; Mary Donovan, wardmaid, \$12 per month; Agnes Gilday, pantry girl, \$14 per month; Charles P. Jacobson, house porter, \$25 per month; Kate Dolan, scrubber, \$5 per week; Katherine F. Cahalan, head nurse, \$35 per month.

Temporary.—Dr. Archibald McK. Fraser, supply resident surgeon, \$75 per month.

LIBRARY DEPARTMENT.

Regularly Employed.—Emil L. Hoffman, as cylinder pressman, Printing Department, at \$21.60 per week.

Promoted.—Clement T. Hayes, special libraries, with increase in pay from \$7 to \$8.50 per week, October 28.

Increases in Pay.—John A. Lawrence, carpenter, \$21 to \$22 per week, November 4; Olive V. Greenlaw, Issue Department, \$6.25 to \$7 per week, November 4; Hyman Cohen, West End Branch, \$6 to \$7 per week, November 5; E. Carolyn Merrill, Catalogue Department, \$14 to \$15 per week, November 5; Sylvester A. Morand, periodical room, \$4 to \$4.75 per week, November 27.

PENAL INSTITUTIONS DEPARTMENT.

Appointment of Miss Katherine Quigley to the position of matron on the steamer "Monitor," with salary at \$40 per month.

Promotion of Joseph D. Sullivan to the position of day officer with salary at \$600 per year.

Appointment of James J. O'Brien to the position of night watchman with salary at \$480 per year.

POLICE DEPARTMENT.

Retirement of patrolman Clarence M. Dunbar, of Division 12, with pension at rate of \$600 per year.

STREET DEPARTMENT (Ferry Division).

Increase of the wages of James E. Doyle, a joiner in the Ferry Division of this department, from \$4 to \$4.50 per day.

STREET DEPARTMENT (Sanitary Division).

Increase in wages of James J. Sullivan, carriage trimmer and harnessmaker, from \$3 to \$3.50 per day.

TREASURY DEPARTMENT.

Designation of Benjamin S. Turner to serve as Acting City Treasurer at such times as the City Treasurer may be absent during the four weeks commencing November 15, 1910.

WATER DEPARTMENT.

Appointment of Daniel J. Kinnally as a waste water inspector with salary at the rate of \$1,100 per annum.

Increase in the salary of Edward Fogarty, stenographer, from \$1,100 to \$1,300 per annum.

Appointment of Charles V. McNulty, to the position of waste water inspector with salary at the rate of \$1,100 per annum.

OVERTIME ALLOWED.*Bath Department.*

For the week ending Thursday, November 10, 1910:

Mary L. MacCool, clerk, 9 hours, \$3.60; Mary N. Harrigan, stenographer, 9 hours, \$2.61; John T. Burke, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13; Ellen Collins, charwoman, 2 days at \$0.50, \$1; Mary Powers, char-

woman, 2 days at \$0.50, \$1; Thomas H. Casey, janitor, 1 day at \$2.25, \$2.25; William J. Healy, janitor, 1 day at \$2.75, \$2.75; Hugh J. Conway, janitor, $\frac{1}{2}$ day at \$2.25, \$1.13.

Election Department.

For the month ending Tuesday, November 15, 1910:

Matthew F. Foley, assistant, $3\frac{1}{2}$ days at \$4, \$14; Thomas J. McMackin, assistant, $5\frac{1}{2}$ days at \$4, \$22; Frederic Eaton, assistant, 4 days at \$4, \$16; George W. Stevens, assistant registrar, 3 days at \$4, \$12; Winsor S. Smith, assistant registrar, 2 days at \$4, \$8.

Health Department.

For the week ending Thursday, November 10, 1910:

Edward Kelly, $\frac{1}{2}$ day at \$3, \$1.50; Patrick H. Cannon, $1\frac{1}{2}$ days at \$3, \$4.50; John J. Graham, $1\frac{1}{2}$ days at \$3, \$4.50.

Park Department.

For the week ending Thursday, November 10, 1910:

William H. Allen, foreman, $1\frac{1}{2}$ days at \$3.25, \$5.69; George W. H. Timson, timekeeper, 1 day at \$2.50, \$2.50; Bernard J. Conley, machinist, $\frac{3}{4}$ day at \$3, \$2.25; Robert Hindle, machinist, $\frac{3}{4}$ day at \$3, \$2.25; Edward T. Bean, gardener, 1 day at \$2.50, \$2.50; James H. Kelley, janitor, 1 day at \$2.50, \$2.50; Thomas Dillon, driver and chauffeur, 1 day at \$3, \$3; John J. Regan, boy, $\frac{1}{4}$ week at \$9, \$2.06; Henry H. Adolph, boy, 1 day at \$1, \$1; Mary A. McLaughlin, matron substitute, $\frac{1}{2}$ week at \$10, \$1.43; Charles A. Hogan, clerk, $1\frac{1}{2}$ days at \$2.50, \$3.13; Patrick McKenzie, powderman and gardener, 1 day at \$3.25, \$3.25; James D. Edgeworth, subforeman, 1 day at \$3.75, \$3.75; Michael A. Martin, laborer and watchman, 1 day at \$2.50, \$2.50; Michael McNulty, subforeman, $1\frac{1}{2}$ days at \$3.25, \$4.47; Julius Weidner, subforeman, 1 day at \$3.25, \$3.25; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; John J. Tatten, Jr., fireman, $\frac{1}{2}$ day at \$2.50, \$1.88; Margaret Mulhern, matron, 1 day at \$1.50, \$1.50; John Younie, watchman, 1 day at \$2.50, \$2.50; John P. Kelly, subforeman, 1 day at \$3.25, \$3.25; Charles Walters, gardener, 1 day at \$3, \$3; Lizzie V. Wallace, matron, 1 day at \$1.50, \$1.50, and 50 laborers, $47\frac{1}{2}$ days at \$2.25, \$106.36.

Registry Department.

John H. L. Noyes, clerk, 5 days at \$3, \$15.

Street Department (Highway Division).

For the week ending Thursday, November 10, 1910:

Andrew T. Roach, weigher, 1 day at \$2.50, \$2.50; John T. Sweeney, subforeman, 1 day at \$3.50, \$3.50; William L. Carty, inspector, 1 day at \$3, \$3; James F. Whoolley, inspector, 2 days at \$2.50, \$5; Francis P. Aieta, clerk, 1 day at \$2.50, \$2.50; Martin J. Burke, inspector, $\frac{1}{2}$ day at \$3, \$1.50; John W. Halpin, inspector, $1\frac{1}{2}$ days at \$3.50, \$5.25; Patrick Manning, paver, 1 day at \$3, \$3; Edward J. Sullivan, engineer, $\frac{1}{2}$ day at \$3.50, \$1.75; James J. Sullivan, messenger, 1 day at \$3, \$3; John A. Murphy, inspector, 1 day at \$3, \$3; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Patrick H. Connolly, inspector, 2 days at \$3, \$6; Edmund J. Fitzgerald, inspector, $\frac{1}{2}$ day at \$3, \$0.75; James D. Gorman, inspector, 1 day at \$3, \$3; Frank J. Hasson, inspector, 1 day at \$3, \$3; George W. Jepson, inspector, $1\frac{1}{2}$ days at \$3, \$3.75; William J. Lynch, inspector,

1½ days at \$3, \$5.25; John J. Hayes, inspector, 1½ days at \$3, \$3.75; James A. Keveney, inspector, 1 day at \$3, \$3; Fred A. Breen, inspector, 1½ days at \$3, \$4.50; Timothy Fitzmaurice, inspector, 1½ days at \$3.50, \$5.25; William J. Sullivan, first assistant drawtender, 1 day at \$2.46, \$2.46; 2 assistant drawtenders, 4 days at \$2.19, \$8.76, and 76 laborers, \$175.78.

Street Department (Sanitary Division).

For the week ending Thursday, November 10, 1910:

J. E. Crowley, wharfinger, 1 day at \$3, \$3; E. J. Hardy, scowman, 1½ days at \$2.50, \$3.75; Michael Sullivan, boatman, 1½ days at \$2.50, \$3.75; Henry Hart, dumper, 1 day at \$2.50, \$2.50; Daniel Collins, mate, ¾ day at \$3, \$1.13; John Pomeroy, engineer, ¾ day at \$3.50, 3.06; James Kelly, fireman, 1 day at \$2.83½, \$2.83½; James Reilly, fireman, 1½ days at \$2.83½, \$4.96, and 87 laborers, \$85.79; J. J. Shea, driver, 1 day at \$2.50, \$2.50; William V. Quinn, inspector, 1 day at \$3.50, \$3.50; J. P. Kelley, inspector, 1 day at \$3, \$3; James Cassell, driver, 1 day at \$2.50, \$2.50; Peter King, driver, 1 day at \$2.50, \$2.50; Patrick Horton, driver, 1 day at \$2.50, \$2.50; Michael McClellan, stableman 1 day at \$2.50, \$2.50; Thomas Rice, driver, 1 day at \$2.50, \$2.50; Patrick Sweeney, driver, 1 day at \$2.50, \$2.50; H. J. Barry, driver, 1 day at \$2.50, \$2.50; P. F. McCormick, driver, 1 day at \$2.50, \$2.50; Charles P. Hobbs, stableman, 1 day at \$2.50, \$2.50; H. J. McCarron, watchman, 1 day at \$2.50, \$2.50; C. J. Scanlan, inspector, 1½ days at \$3.50, \$3.75; Richard Welch, inspector, ¾ day at \$3, \$2.25; D. J. Griffin, inspector, 1 day at \$3.50, \$3.50; Joseph A. Brown, driver, 1½ days at \$2.50, \$3.75, and 59 laborers, \$161.51.

Street Department (Sewer Division).

For the week ending Thursday, November 10, 1910:

Walter I. Brown, inspector, 1½ days at \$3.50, \$5.25; H. A. Sherman, instrumentman, 1½ days at \$3.50, \$5.25; John M. Hurley, house inspector, ¾ day at \$3.50, \$1.31; T. F. Finneran, instrumentman, 1 ¾ days at \$3.50, \$4.90; W. J. Drummond, inspector, 1 day at \$5, \$5; J. A. Mitchell, inspector, 1 day at \$3, \$3; J. W. O'Neil, inspector, 1 day at \$3.50, \$3.50; Frank Johnson, yardman, 1 day at \$2.50, \$2.50; Dennis Burke, bracer, 1 day at \$2.50, \$2.50; Patrick J. Barrett, bracer, ¾ day at \$2.50, \$1.25; John H. Riley, stonecutter, ¼ day at \$3, \$0.75; Thomas McDonald, yardman, 2½ days at \$2.75, \$6.88; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; Nathan F. O'Neil, teamster, 1½ days at \$2.50, \$3.75; Timothy Reardon, laborer, ½ day at \$2.50, \$1.25; John L. Stoddard, inspector, ½ day at \$3.50, \$1.75; John J. McKenna, inspector, 1 day at \$3.50, \$3.50; Edward Doherty, bracer, 1 day at \$2.50, \$2.50; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Thomas Flaherty, bracer, 1 day at \$2.50, \$2.50; Bernard Gibbons, bracer, 1 day at \$2.50, \$2.50; Thomas Glennon, inspector, 1 day at \$3.50, \$3.50; Thomas Hughes, sewer cleaner, 1 day at \$2.75, \$2.75; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; Humphrey J. Moynihan, inspector, 1 day at \$3.50, \$3.50; John Farley, oiler, ½ day at \$3.25, \$1.62; Daniel Leary, machinist, ¼ day at \$3.52, \$0.88; James H. McNeil, machinist helper, ¼ day at \$2.50, \$0.62; Daniel Murnane, laborer, ¼ day at \$2.50, \$0.62; George B. Sherry, machinist, ¼ day at \$3.52, \$0.88; John McCarthy, engineer, ¾ day at \$4.66, \$1.75; Charles R. Palmer, engineer, ¾ day at \$4.66, \$1.75, and 65 laborers, 62½ days at \$2.25, \$140.07.

Water Department (Distribution Division).

For the week ending Thursday, November 10, 1910:

John Austin, watchman, 1 day at \$2.50, \$2.50; Robert A. Barry, watchman, 1 day at \$2.25, \$2.25; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Patrick Cassidy, 1st, watchman, 1 day at \$2.25, \$2.25; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 2½ days at \$2.75, \$7.56; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; Michael Galvin, watchman, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Arthur Christie, pipe-layer, 1 day at \$2.50, \$2.50; Patrick Joyce, pipe layer, 1 day at \$2.25, \$2.25; Eugene T. Shea, pipelayer, 1 day at \$2.25, \$2.25; Daniel P. King, laborer, 1 day at \$2.25, \$2.25; Humphrey D. Sullivan, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Thomas A. Gorman, foreman, 1½ days at \$2.75, \$4.81; John McNulty, laborer, 1 day at \$2.25, \$2.25; Patrick Coleman, laborer, 1 day at \$2.25, \$2.25; Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Daniel J. Heffernan, chauffeur, 1 day at \$2.25, \$2.25; Timothy J. Kelleher chauffeur, 1 day at \$2.75, \$2.75; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Robert McLaughlin, fireman, 1 day at \$2.83, \$2.83; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; Thomas Bowen, teamster, ¾ day at \$2.25, \$1.69; Peter M. Brown, teamster, ¾ day at \$2.25, \$1.69; Michael F. Burke, teamster, ¾ day at \$2.50, \$1.56; Raffaele Curcio, teamster, ¾ day at \$2.25, \$1.69; David Leo, teamster, ¾ day at \$2.25, \$1.69; Thomas Magee, teamster ¾ day at \$2.25, \$1.13; Jeremiah J. McLaughlin, teamster, ¾ day at \$2.50, \$1.88; Mathew I. Nolan, teamster, ¾ day at \$2.50, \$1.56; Timothy Noonan, teamster, ¾ day at \$2.25, \$1.69; James J. O'Brien, teamster, ¾ day at \$2.25, \$1.69; John J. O'Brien, teamster, 1½ days at \$2.25, \$4.01; Michael Ronan, teamster, ¾ day at \$2.25, \$1.69; John C. Thompson, teamster, ¾ day at \$2.25, \$1.69; Thomas Williams, teamster, ¾ day at \$2.25, \$1.69; Edward Pyne, teamster, ¾ day at \$2.25, \$1.69; James Murphy, teamster, ¾ day at \$2.25, \$1.69; James P. McKenney, teamster, ¾ day at \$2.25, \$1.69; Edward M. Houghton, teamster, ¾ day at \$2.25, \$1.69; John McCormick, 1st, teamster, ¾ day at \$2.25, \$1.69; Edward P. Sullivan, teamster, ¾ day at \$2.25, \$1.69; Patrick Farry, teamster, ¾ day at \$2.25, \$1.69; Patrick Coleman, teamster, ¾ day at \$2.25, \$1.69; John Cahill, stableman, 1 day at \$2.25,

\$2.25; James J. Connors, stableman, 1½ days at \$2.75, \$4.81; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; William Collins, repairer, ¼ day at \$2.50, \$0.63; Dennis Regan, foreman, 1½ days at \$3.50, \$6.13; John McLaughlin, laborer, 1½ days at \$2.25, \$3.94; John Cronin, laborer, 1½ days at \$2.25, \$3.94; Charles Hines, plumber, 1½ days at \$3, \$3.38; Timothy Scully, 2d, laborer, ¾ day at \$2.25, \$1.69; Hugh Green, machinist, ¼ day at \$3, \$0.56; Charles J. McLaughlin, machinist, ¼ day at \$2.50, \$0.47; Richard P. Collins, inspector, ¼ day at \$2.75, \$0.86; Mathew Brennan, inspector, 1½ days at \$3, \$5.06; Joseph T. Ryan, plumber, ¼ day at \$3, \$0.75; John J. Welch, plumber's helper, ¼ day at \$2.25, \$1.13; Michael McLaughlin, repairer, ¾ day at \$2.50, \$0.94; John W. Murphy, laborer, ¼ day at \$2.25, \$0.56; John Connolly, laborer, ¼ day at \$2.25, \$0.56; Dennis Delaney, laborer, ¼ day at \$2.25, \$0.56; Charles Harkins, laborer, ¼ day at \$2.25, \$0.56.

Water Department (Income Division).

For the week ending Thursday, November 10, 1910:

M. Bowen, plumber, 1½ days at \$3, \$1.59; P. J. Clougherty, laborer, 2½ days at \$2.25, \$5.27; R. J. Connorton, tester, 1 day at \$2.50, \$2.50; J. H. Cullen, plumber, ¾ day at \$3, \$0.66; M. J. Dinneen, laborer, ¾ day at \$2.25, \$1.69; T. J. Dolan, plumber, ¾ day at \$3, \$2.25; P. F. Gateley, plumber, 1½ day at \$2.75, \$0.95; E. H. Gilmore, tester, 1 day at \$2.50, \$2.50; O. J. Gilloon, plumber, ¾ day at \$3, \$2.72; P. Ippolito, laborer, 1½ days at \$2.25, \$3.80; M. M. Kenney, laborer, 1½ day at \$2.25, \$0.77; F. B. Lang, tester, 1½ day, at \$2.50, \$0.86; E. Mahoney, laborer, 1½ day at \$2.25, \$2.18; J. J. Mahoney, laborer, ¾ day at \$2.25, \$1.97; T. McAuliffe, laborer ¾ day at \$2.25, \$1.69; D. J. McCallion, laborer, 1 day at \$2.50, \$2.50; F. McCarthy, laborer, ¾ day at \$2.50, \$1.88; P. J. McCarthy, plumber, ¾ day at \$2.75, \$1.20; M. Mulken, laborer, 1½ day at \$2.25, \$2.11; Joseph Rice, tester, 1 day at \$2.50, \$2.50; J. J. Roche, laborer, ¾ day at \$2.25, \$2.04; J. J. Shea, laborer, ½ day at \$2.25, \$1.13; Daniel Sullivan, laborer, 1½ days at \$2.25, \$3.30; J. Sullivan, laborer, ¾ day at \$2.25, \$1.69; T. J. Sullivan, plumber, ¾ day at \$3, \$1.50; J. E. Tierney, machinist, ¼ day at \$3, \$0.75; M. P. Welch, plumber, 1½ days at \$2.75, \$4.04.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending November 17, 1910:

INFIRMARY DEPARTMENT.

On November 12 the Mayor approved a contract with Potter & Wrightington for furnishing flour for the various divisions of the department. Bids on these goods, opened November 3, were as follows:

Washburn-Crosby Company, \$4.84; Potter & Wrightington, \$4.92; Haskell & Adams Company, \$5.15.

The Washburn-Crosby Company failed

to conform to the requirement of the advertisement that a certified check be deposited with the proposal.

PARK DEPARTMENT.

On November 12 the Mayor approved the lease of the head house to C. A. Bova, for the term of five years at an annual rental of \$2,500. Bids on this lease, received October 20, were rejected by the Park Department, and an offer from C. A. Bova accepted. The bids were as follows:

	Three Year Term.	Five Year Term.
Joseph E. Gregory.....	\$1,500	\$1,800
Salim N. Ayoub.....	2,100	2,500
Charles A. Bova.....	1,900	2,300
Candeloro De Luca.....		1,800
Joseph A. Haelgo, J. J. Maloof and J. Schayeh.....		1,800
Frank C. Healy.....	800	

PENAL INSTITUTIONS DEPARTMENT.

On November 12 the Mayor approved a contract with the Washburn-Crosby Company for supplying 300 barrels, more

or less, of flour. Bids on these goods, opened November 3, were as follows:

Washburn-Crosby Company, \$4.83; Potter & Wrightington, \$4.92; William S. Hills Company, \$4.93.

STREET DEPARTMENT (Highway Division).

On November 12 the Mayor approved a contract with Jeremiah Sullivan for the construction of artificial stone sidewalks in Rochdale street, Roxbury. Bids on this work, opened November 10, were as follows:

Jeremiah J. Sullivan, \$459; Adams Pond Company, \$510; Warren Brothers' Company, \$510.

SUPPLY DEPARTMENT.

On November 17 the Mayor approved a contract with the Curtis & Pope Lumber Company for furnishing 85,000 feet, more or less, of spruce lumber for sewer construction on Dartmouth street, at \$26.40 per thousand feet. Curtis & Pope were the only bidders.

WATER DEPARTMENT.

On November 17 the Mayor approved a contract with the Eastern Salt Company for furnishing 3,612 sacks of coarse mined salt for use on hydrants and gates, at 65 cents per sack of 140 pounds each. They were the only bidders.

SCHOOL COMMITTEE.

Contracts for furnishing drawing and manual training supplies have been awarded as follows:

Milton Bradley & Co., to furnish 1,632 pairs scissors, 4½ inches, and 274 compass attachments.

Favor, Ruhl & Co., to furnish 990 wooden triangles, 7 inches.

J. L. Hammett Company, to furnish 4,517 boxes water color paints; 5,565 water cups; 10,969 water color brushes; 2,517 pairs scissors, 6 inches; 184 conductor's punches; 58 eyelet punches; and 1,157 paste brushes, 1 inch.

Bids on these goods, opened November 10, were as follows:

	Milton Bradley Company.	Favor, Ruhl & Co.	J. L. Ham- mett Com- pany.	Kenney Bros. & Welkins.
4,517 water color boxes.....	\$564 62		\$342 04	\$587 21

J. C. Coleman & Sons Company.....	37	55	60	60	39
A. DeStefano.....				36	
Charles J. Jacobs Company.....	38	56	32	40	48

WITHOUT ADVERTISING.

SCHOOLHOUSE DEPARTMENT.

The Mayor, in view of the representations contained in the following letter, has approved a contract with John W. Graham & Son for whitening and tinting ceilings of hall and class rooms and wardrobes, and painting and graining woodwork entire in the Prescott School, Charlestown, at a cost not to exceed \$1,500.

CITY OF BOSTON,
SCHOOLHOUSE DEPARTMENT,
October 11, 1910.

HON. JOHN F. FITZGERALD,

DEAR SIR,—In explanation of the inclosed request to award a contract to John W. Graham & Son for painting the interior of the Prescott School, Charlestown, without inviting proposals therefor by advertising, I would say that the interior of this building was more or less altered during the summer vacation and school opened before we had an opportunity to paint. It was then thought that we could paint a room at a time, but it so upset the school session that the master finally appealed to us to work the men overtime, with the idea of getting them out of the building as soon as possible. To this end school closed last Thursday night, and men were put in Friday, Saturday and Sunday with the idea of completing the work. The cause of the work being in excess of one thousand (1,000) dollars is owing to the fact that we will be obliged to pay the workmen overtime for extra service.

Very respectfully yours,

CHARLES LOGUE,

Chairman.

In view of the representation contained in the following communication the Mayor has approved a contract, awarded without advertising to the F. B. Webb Manufacturing Company, for 500 drinking fountains to be installed in various school-houses throughout the city, the estimated cost being \$3,000.

CITY OF BOSTON,
SCHOOLHOUSE DEPARTMENT,
November 10, 1910.

HON. JOHN F. FITZGERALD,

Mayor of Boston:

DEAR SIR,—We have been experimenting with four different types of drinking fountains for the purpose of installing them in schools, the cost running from \$7.50 to \$10 each, besides the expense of installation.

The F. W. Webb Manufacturing Company have designed one which has the approval of our sanitary engineer, and which they are willing to sell us at \$6 each, if they are given an order for five hundred (500) of them.

We respectfully ask your Honor's permission to award this contract without advertising.

Very truly yours,

CHARLES LOGUE,

Chairman.

In view of the representations contained in the following communications, the Mayor has approved a contract, made without advertising, with D. F. Burke, for an addition to the boiler house plant at the Prescott School, Charlestown, to cost \$23,500.

CITY OF BOSTON,
SCHOOLHOUSE DEPARTMENT,
November 10, 1910.

HON. JOHN F. FITZGERALD,

Mayor of Boston:

DEAR SIR.—On assuming office, I found that plans had been made for a boiler house plant at the Prescott School in Charlestown, and that arrangements

had been made also to erect a new building. On looking into the matter, the Board did not feel that a new building was necessary, but that some arrangement could be made to give a couple of extra rooms, with a hall, which would satisfy the present needs. In this, the School Committee and the Superintendent concurred, and the Board then decided to add two more stories to the boiler house, one floor to be occupied as a hall and the other as class rooms, and a room for the principal, which was also much needed. The boiler house contract had been let, and work on it was going ahead, when we ordered the architect to make plans for the additional two stories.

This necessitated various changes in the original advertised contract with D. F. Burke for the boiler house in the way of considerable additional excavation and concrete foundations, miscellaneous masonry in connection with the brick and stone work of the building, concrete flooring, paving, waterproofing, etc., in all totaling an addition in the sum of \$6,072.20.

The plans for the new addition have been finished, and the Board is now ready to let the work, but wish to point out to your Honor the difficulty of advertising this contract, as they feel that contractors will not be inclined to bid on it, or if they do bid, may bid high, as there is a disinclination among contractors to figure work where another contractor is already at work.

In view of the above, the Board felt that they could do better by treating with the present contractor, and have had figures from him which we have had checked and find to be fair to both the city and the contractor. I send you herewith a copy of letter from the architects of the building, Messrs. Brainerd & Leeds, in connection with this matter.

For the reasons stated above, the Board now ask your Honor to approve the addition to the original contract with D. F. Burke and to give us your permission to award the new contract to the same contractor, in the sum of twenty-three thousand five hundred (23,500) dollars, without advertising.

Very truly yours,

CHARLES LOGUE,
Chairman.

[COPY.]

10th November, 1910.

RE PRESCOTT ANNEX.

CHARLES LOGUE, ESQ.,
Chairman Schoolhouse Commission,
120 Boylston street, Boston:

DEAR SIR,—In regard to the contract for the Prescott Annex, we consider it for the interest of the city that, if possible, contract be placed in the same hands as that for Prescott boiler house beneath it, this to avoid the possibility of gaps and extras arising between the two contracts. The price of \$23,500 quoted by Mr. Burke, we consider as just and reasonable, and recommend that the contract be given to him at this price.

We are,

Very truly yours,

BRAINERD & LEEDS.

SUPPLY DEPARTMENT.

In view of the representations contained in the following communication, the Mayor has approved an extension of a contract with the Rockport Granite Company for 55,000 additional granite paving blocks. The total cost resulting from this extension, being \$3,685.

CITY OF BOSTON,
SUPPLY DEPARTMENT,
November 14, 1910.

To the Mayor of Boston:

Authority is respectfully requested by this department to award an extension of a contract, without requesting proposals therefor by advertisement, to the Rockport Granite Company of Rockport, Mass., the total amount of said extension being \$3,685.

The original contract was placed in June, 1909, with the above named company at a price of \$67 per thousand for a special cut paving block. Part of this original contract was diverted to repair work, leaving the said contract short about 55,000 blocks.

The original contractors have agreed to furnish us with these extra 55,000 paving blocks at the original contract price. This is about \$8 per thousand less than we could buy them for now in the open market.

Respectfully,

J. EDWARD MULLEN,
Superintendent of Supplies.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

PENAL INSTITUTIONS DEPARTMENT.

A deduction estimated as amounting to \$538 on contract with Rendle & Stoddard for the reconstruction of Eastern avenue wharf, on account of omitting to rebuild the inshore end of the wharf for about forty feet.

Additions estimated as amounting to \$1,440 on above contract, on account of removing old lumber at inshore end of wharf, shoring up building, removing old piles in the south pier, building extension to the wharf 80 feet long, chain head of southerly pier, sawing off tops of old pier, two chocks on piles for hawsers, holes for rods in concrete box, and relocating three fender piles. Original contract, \$8,457; estimated deduction, \$538; estimated additions, \$1,440.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$6,072.20, on contract with D. F. Burns for isolated boiler plant at Prescott School, on account of miscellaneous changes in the plans and specifications owing to the fact that the original construction under this contract was changed in order to admit an addition to the building; this addition consists of an assembly hall, class rooms and principal's office. Original contract, \$13,467; total additions, \$6,072.20; contract as standing, \$19,539.20.

An addition, amounting to \$125, on contract with Pierce & Cox for Lafayette School, on account of hanging drains from tops of basement floor beams. Original contract, \$3,330; total additions, \$135.06; total deductions, \$10.06; contract as standing, \$3,455.

Addition, amounting to \$265, on contract with J. E. Locatelli Company, Inc., for addition to Wyman School, on account of connecting present conductor on school building with sewer branch outside of manhole in school yard. Original contract, \$14,271; total additions, \$561; contract as standing, \$14,832.

Addition, amounting to \$196, on contract with A. Varnerin Company, Inc., for Samuel Adams School, on account of erecting and painting 310 lineal feet of fence.

Original contract, \$89,446; total additions, \$654.50; contract as standing, \$90,100.50.

Deduction, amounting to \$200, on contract with Whiton & Haynes Company for William Lloyd Garrison School, on account of omission of allowance in contract for shrubbery and planting. Original contract, \$55,600; total additions, \$742; total deductions, \$4,818; contract as standing, \$51,524.

Addition, amounting to \$48.25, on contract with Pierce & Cox for addition to Girl's High School, on account of piecing out angle-iron frames supporting bowls in basement, and furnishing new caps and end pieces. Original contract, \$2,993; total additions, \$48.25; contract as standing, \$3,041.25.

Deduction, amounting to \$78, on contract with William Crane for addition to Girl's High School, on account of miscellaneous items. Original contract, \$105,880; total additions, \$389; total deductions, \$9,550; contract as standing, \$96,719.

Deduction, amounting to \$1,288, on contract with the C. S. Cunningham Sons Construction Company for Edward Everett District School, on account of savings by reason of changes in the plans and specifications. Original contract, \$23,320; total deductions, \$1,288; contract as standing, \$22,032.

Addition, amounting to \$275, on contract with Pierce & Cox for isolated boiler plant at Prescott School, on account of additional patching of plastering of walls and ceilings, and for laying granolithic floor in basement. Original contract, \$12,073; total additions, \$322; contract as standing, \$12,395.

Addition, amounting to \$89.70, on contract with D. A. Horgan for Gaston School, on account of miscellaneous items. Original contract, \$7,984; total additions, \$89.70; contract as standing, \$8,073.70.

Addition, amounting to \$52, on contract with D. A. Horgan for Day Industrial School, on account of miscellaneous items. Original contract, \$7,344; total additions, \$52; contract as standing, \$7,396.

Addition, amounting to \$110, on account with A. Varnerin Company, Inc., for Samuel Adams School on account of changes in urinal tank. Original contract, \$89,446; total addition, \$458.50; contract as standing, \$89,904.50.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising:

Build surface drains and catch-basins in Addison street, between Chelsea creek and Saratoga street, East Boston, 375 linear feet 24-inch pipe surface drain, 310 linear feet 20-inch pipe surface drain, 345 linear feet 18-inch pipe surface drain, 170 linear feet 15-inch pipe surface drain, 230 linear feet 10-inch pipe surface drain, 13 catch-basins, 190 linear feet 10-inch pipe catch-basin connection, at estimated cost of \$6,734.

Build sanitary sewer, surface drains and house drains in Ball street, between Shawmut avenue and Washington street, Roxbury (the existing sewer to be abandoned and discontinued): 483 linear feet 12-inch pipe sanitary sewer, 28 linear feet 18-inch pipe surface drain, 232 linear feet 15-inch pipe surface drain, 196 linear feet 12-inch pipe surface drain, 160 linear feet 6-inch pipe house drain, at an estimated cost of \$2,858.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"Public necessity and convenience require that this work be done after November 15, for which your authority is requested.

Respectfully,
L. K. ROURKE,
"Superintendent of Streets."

Similar authority has been granted to deck and sheathe and renew sidewalk on downstream draw of Summer Street Bridge, at an estimated cost of \$1,600.

"This is maintenance work, and can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

L. K. ROURKE,
"Superintendent of Streets."

STREET COMMISSIONERS.

The Mayor has approved orders of the Board of Street Commissioners, determining that no such person sustains damages in his estate by reason of the laying out and construction of Hazleton street (formerly Tileston avenue), Dorchester, as a highway from Blue Hill avenue; and assessing benefits because of this improvement, as follows:

Lots.	Owner.	Amounts.
1	John Twombly	\$222 00
2	John Twombly	200 00
3	John Twombly	200 00
4	John Twombly	200 00
5	Esther J. Topham, Heirs or Devises,	198 00
6	George S. Clatur	200 00
7	Mary R. Stearns	200 00
8	Eva S. Morris	200 00
9	Walter Curley	192 30
11	Francis Peabody, jr., et al, trustees,	300 00
12	Rachel E. Roulston	95 55
16	Mary R. Stearns	266 75
17	Mabel J. Homer	200 00
18	Delia A. Casey	200 00
19	Mary Mitsch	200 00
20	Mary Mitsch	200 00
21	Alfred J. Couture	200 00
22	Arthur Lowenberg	76 63

\$3,551 23

Estimated cost of construction of this street is as follows:

Sewer construction	\$227 50
Street construction	5,700 00
Total	\$5,927 50

The Mayor has approved orders of the Board of Street Commissioners determining that no person sustains damages or derives special benefit by the making of the public improvement consisting of the laying out of an extension of Revere street, from Charles street to the Charles River Embankment.

CONTRACT FOR SIDEWALKS.

On November 12 the Mayor granted to the Superintendent of Streets authority to award contracts, without advertising, for the construction of artificial stone sidewalks in the public streets of Boston, to The Thomas Starrett Company, the estimated amount for labor and materials to be furnished by the contractor, being over \$2,000.

"The contractors who lay artificial stone sidewalks furnish a surety company guarantee bond for maintaining the work for a period of five (5) years to the satisfaction of the Superintendent of Streets. The amount paid by the city toward the cost of constructing these sidewalks is a fixed one (6 cents per square foot), equal to one-half the cost of a brick sidewalk, which the city assumes as its share of the cost of a new sidewalk. The list submitted for your approval includes all reputable companies known by this department who desire such a contract with the city.

L. K. ROURKE,
"Superintendent of Streets."

CLAIMS.

On November 12 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

Eliza Burns, \$75, on account of damage to property caused by the backing up of sewage at 507 East Sixth street, South Boston, July 25, 1910.

D. E. Coleman & Co., \$266, on account of breach of contract in construction of sewerage works in Malcolm and Central streets, December 27, 1905.

Robert Eager, \$299.72, on account of breach of contract in constructing sewerage works in Walnut avenue, December 27, 1905.

Charles Fern, \$150, for personal injuries caused by defective place in street, corner of Blue Hill avenue and Seaver street, March 5, 1910.

Edward Graham, \$400, for breach of contract in construction of sewerage works in Stanwood street, December 27, 1905.

John Keane, \$275, for damage to property in rear of 418 Dorchester avenue, caused by negligence of employees of Sewer Department.

George J. Regan, \$349.75, on account of breach of contract in construction of sewerage works in Fremont place, December 27, 1905.

W. B. Hunt Company, \$350, for damage to stock of goods caused by water entering the premises at 707 Washington street, from a broken main in Tremont street, January 3, 1910.

John Kenney, \$100, for personal injuries caused by defect in paving opposite 240 A street, South Boston, April 11, 1907.

Christopher McHale, \$200, for death of horse caused by defective condition of Kingston street, August 15, 1910.

John McCarron, \$300, for injury to horse caused by ruts in road on Morton street, Dorchester, August 15, 1910.

William A. Mosman, \$2,225, for breach of contract in work let to him in 1900 and 1901.

John Shea & Co., \$100, for damage to stock of goods at 56-62 Eliot street caused by break in water main on Tremont street, January 3, 1910.

STREET OPENINGS AFTER NOVEMBER 15.

The Superintendent of Streets has certified that public necessity and convenience require that the construction of streets in the following locations be done after November 15, 1910, and the Mayor has given authority requested.

CITY PROPER.

Alley 807.
Atlantic avenue, at Central street.
Dartmouth street, between Boylston street and Huntington avenue, and Huntington avenue, at Dartmouth street.

BRIGHTON.

Litchfield street, between Western avenue and Lincoln street.
Princeton avenue, east of Quint avenue.
Quint avenue, between Princeton and Brighton avenues.
Wallingford road, between Chestnut Hill and Commonwealth avenues.

DORCHESTER.

Brenton street, between Glenway and Greenwood streets.
Canterbury branch of Stony brook, crossing Morton street.
Clarkwood street, from Blue Hill avenue to Norfolk street.
Edgewater Drive, between Tokio and Tesla streets.
Geneva avenue, between Bowdoin street and Blue Hill avenue.
Greenwood street, between Harvard and Elmo streets.
Land of the City of Boston (Tileston School lot), from Norfolk street about 280 feet easterly.
Leslie street, from Norton street about 130 feet southwest.
Morton street, from Blue Hill avenue about 580 feet easterly.
Morton street, from Blue Hill avenue to Norfolk street.
New way, from Walnut street at Neponset avenue about 215 feet northeast.
Norfolk street, between Blue Hill avenue and Fremont street.
Rockdale street, from Randolph road, 448 feet northeast.
Rosewood street, from 465 feet northeast from Randolph road.
Taylor street, at the Neponset Station, New York, New Haven & Hartford Railroad.
Tenean creek, in private land between Westville and Speedwell streets, crossing Draper road and Homes avenue.
Westcott street, from West Park street to Talbot avenue.

West Park street, from Bernard street to New England Railroad.
Wildwood street, between Morton and Woolson streets.

EAST BOSTON.

Addison street, between Chelsea creek and Saratoga street.

ROXBURY.

Bucknam street, from Lawn street to Fisher avenue.
Juniper street, at Juniper terrace.
Leon street.
Leon street, from Ruggles to Greenleaf streets.
Madison street, between Shawmut avenue and Washington street.
Rochdale street, from Cobden to Fenner streets.
Shawmut avenue, between Hammond and Sterling streets.
Tremont street, between Cunard and Davenport streets.
Tremont street, between Hammond and Kendall streets.

SOUTH BOSTON.

Damrell street, from Dorchester avenue to Old Colony avenue.
Old Colony avenue, from Dorchester street to Hyde street.
Ralston street, from Dorchester avenue to Boston street.

WEST ROXBURY.

Ardale street, between Centre and Walter streets.
Hyde Park avenue, from about 300 feet north of Ashland street to the Hyde Park line.
Location of the New York, New Haven & Hartford Railroad, from a point northwest of Aldrich street to a point 150 feet west of Anawan avenue.
Maynard street, between Poplar street and Metropolitan avenue.
Private land, between Washington street and Stony brook, about 400 feet north of the Arborway.
Selwyn street, between Mozart street and the easterly branch of Selwyn street.
Stony brook, section 6, in private land between a point about 141 feet south of Lotus place and the north line of Morton street, crossing the Arborway.
Stony brook, section 7, crossing Morton street, in private land between Morton street and the junction of Washington and Tower streets, in Forest Hills square and in Hyde Park avenue, from Tower street about 75 feet south.
Washington street, west side, between the Arborway and Burnett street.

APPROVAL OF LEASE.

The Mayor has approved an extension of the lease of property on Central Wharf, occupied by the Fire Department as a fireboat landing and station, from the Central Wharf and Wet Dock Corporation, for a period ending January 31, 1911, the yearly rental being \$4,000. Provision is made for a further extension of the lease for one year, ending January 31, 1912.

RECONVEYANCE OF PROPERTY.

The Mayor, acting under authorization of the City Council, has executed a quit-claim deed conveying to Emily E. Shepard and Henry A. Wood two parcels of land situated on Belgrade avenue, West Roxbury. These parcels were originally taken by the city, December 21, 1909, for the purpose of laying and maintaining sewerage works. As they are no longer required for purposes of public improvement they have been reconveyed to the former owners.

CONDEMNATION OF UNSAFE BUILDING.

The building, 108 West Fifth street, South Boston, has been condemned by the Building Commissioner because of its unsafe condition.

TRANSFER.

The Mayor has approved the transfer of \$4,000 from the Reserve Fund to the Assessing Department.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.

1910.

- Dec. 1. Carthage. George B. Dexter.

PLAYGROUND FACILITIES IN CHICAGO.

The public playgrounds in Chicago include 2 golf links, 24 football gridirons, 148 tennis courts, 32 baseball diamonds and 17 skating ponds.

CITY OF BOSTON.

TO PLUMBING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing plumbing system in Elementary School, Sherwin-Hyde District (George T. Angell School), Hunneman street, Roxbury, Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Monday, November 28, 1910, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
 JOHN F. KENNEDY,
 CHARLES B. PERKINS,
Commissioners.

(Nov. 19.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR STREET LIGHTING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for lighting such streets, parks and alleys as may from time to time be designated by the city for a period of ten years from January 31, 1911, and giving bond therefor of a surety company approved by the superintendent in the sum of fifty thousand dollars (\$50,000) for work to be done under Items A, B and C, and twenty-five thousand dollars (\$25,000) under Items D and E, to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at said office of the Superintendent of Streets. Bids are to be based on furnishing approximately ten thousand lamps distributed in such separate districts as may be determined by the city, as follows:

A. For furnishing, maintaining and operating approximately ten thousand incandescent electric lamps in addition to the incandescent lamps now maintained under the existing electric lighting contract, or for the extension of the existing electric lighting contract for a period of ten years from January 31, 1911.

B. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners.

C. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

D. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners.

E. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

Items A, B and C to also include the maintenance and operation of approximately two hundred and ten fire-alarm signal lamps. The city will furnish the lamp posts. Bidders are to state a price for furnishing, maintaining and operating each lamp per annum, and price per lamp and automatic device complete and installed. Under Items D and E the city will furnish the gas by purchase from the gas company and provide for maintenance.

Samples of the equipment to be furnished under the bid must be submitted with the same. Each bid should be inclosed in an envelope, sealed, and marked "Bid for Street Lighting," and left at the said office of the Superintendent of Streets, before 12 m. on Saturday, December 24, 1910, with a certified check for five thousand dollars (\$5,000) under Items A, B and C, and one thousand dollars (\$1,000) under Items D and E, payable to and to become the property of the city if the bid, after acceptance, is not carried out. The bids will then and there be publicly opened and read. Bids must be in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bid. The undersigned reserves the right to reject any or all proposals, and to award the contract as he may deem in the best interests of the city.

LOUIS K. ROURKE,
Superintendent of Streets.
 Boston, November 10, 1910.
 (Nov. 19-26-Dec. 3.)

CITY OF BOSTON.

PROPOSAL FOR LAND.

The Schoolhouse Commissioners of the City of Boston will receive sealed proposals for selling to the city land for an Elementary Schoolhouse in the Washington-Allston District, Brighton, Boston, Mass., within an area bounded as follows: Beginning at a point on the corner of Chestnut Hill avenue and Commonwealth avenue, thence running southerly on said Chestnut Hill avenue to Beacon street, thence easterly along Beacon street, to the line dividing the City of Boston from the town of Brookline, thence following said line in an easterly direction to Warren street, thence turning and running northwesterly along said Warren street to Commonwealth avenue, thence turning and running southwesterly along said Commonwealth avenue to the point of beginning, and to contain 30,000 square feet, more or less. All proposals must be submitted on or before Monday, December 5, 1910, at 12 o'clock noon, at the office of the commissioners, 120 Boylston street, Boston. Said proposals will at that time be publicly opened and read, and thereafter a public hearing will be given by the commissioners at said office on Monday, December 12, 1910, at 12 o'clock m., at which hearing the proposals and suitability of the land offered therein will be considered. The commissioners reserve the right to reject any or all proposals.

CHARLES LOGUE,
 JOHN F. KENNEDY,
 CHARLES BRUN PERKINS,
Commissioners.

READVERTISEMENT.

CITY OF BOSTON.

PROPOSALS FOR THE REMOVAL OF SNOW AND ICE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for the removal of snow and ice in snow district No. 3, as shown in the form of contract and specification on file in the office of the superintendent. The contractor will furnish the necessary teams, horses, harnesses, men, etc., and submit a price for each cubic yard of snow and ice actually removed from the streets and dumped at the places designated by the superintendent. The contract is to be made from November 25, 1910, until January 31, 1911, with the privilege on the part of the city of extending until May 1, 1911, providing sufficient appropriation is made by the city government. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Wednesday, November 23, 1910, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. Proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The successful bidder must furnish a bond of a surety company approved by the superintendent. The undersigned reserves the right to reject any and all proposals or to award the contract as he deems best. The proposal should be inclosed in an envelope, sealed, and marked "Proposal for Removing Snow."

LOUIS K. ROURKE,
Superintendent of Streets.
 Boston, November 17, 1910.
 (Nov. 19.)

CITY OF BOSTON.

TO HEATING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing heating and ventilating system in the Elementary School, Sherwin-Hyde District (George T. Angell School), Hunneman street, Roxbury, Boston, Mass., and giving bond of a surety company therefor in the sum of \$3,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Monday, November 28, 1910, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
 JOHN F. KENNEDY,
 CHARLES B. PERKINS,
Commissioners.
 (Nov. 19.)

CITY OF BOSTON.

PROPOSALS FOR DRAWING AND MANUAL TRAINING SUPPLIES.

The Boston School Committee invites proposals for furnishing and delivering to the Supply Room, Mason street, materials for the above studies, same to be marked for the various school buildings. Proposals may be obtained at the office of the Auditor of the School Committee, Room 53, 168 Tremont street, and bids covering proposal must be received by the undersigned on or before Thursday, December 1, 1910, at 11 o'clock a. m. The bid must be made in duplicate, one to be sent to the Auditor of the School Committee as above, and the other sent direct to City Auditor, City Hall. The right to reject any or all bids is reserved.

WILLIAM J. PORTER,
Auditor.
 (Nov. 19.)

CITY OF BOSTON.

BIDS FOR MILITARY EQUIPMENT.

The Boston School Committee requires the following: 470 belts and scabbards; 420 rifles, "Little Enfield" model, each rifle to weigh not more than 31 pounds, and with a barrel not over 28 inches in length, price to include bayonet. Samples may be seen at the office of the Auditor of the School Committee, Mason street, to whom bids should be sent not later than November 28, 1910. A duplicate bid must be filed with the City Auditor, City Hall. The right is reserved to reject any or all bids.

WILLIAM J. PORTER,
Auditor.
 (Nov. 19.)

PROCEEDINGS OF SCHOOL COMMITTEE.

Nov. 7, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4.08 o'clock P. M.
Present: Messrs. Brock, Ellis, Lee, Magenis and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation, as reported by the Superintendent, and laid over at the last meeting.

The appointments were approved.

EVENING SCHOOL INSTRUCTION IN LAWS RELATING TO NATURALIZATION.

A communication was received from His Honor the Mayor, under date of Oct. 21, 1910, stating that it has been brought to his attention that in some of the classes for foreigners conducted in evening schools, simple instruction in the laws relating to naturalization and the duties of American citizenship has been given in previous years; that there is splendid opportunity for development of this work so creditably begun; and suggesting that the course in civil government in both the evening elementary and evening high schools be broadened so as to include specific instruction in the laws relating to naturalization, and that this feature be emphasized in the announcements made of the curriculum of these schools.

Referred to the Superintendent for consideration and reply to His Honor the Mayor.

COMPLETION OF WILLIAM LLOYD GARRISON SCHOOL-HOUSE.

A communication was received from the Board of Schoolhouse Commissioners, under date of Oct. 25, 1910, stating that the William Lloyd Garrison School-house, located on Hutchings street, Roxbury, is practically complete under the terms and conditions of the contract and is ready for occupancy.

Placed on file.

INSTALLATION OF PIPE ORGANS IN HIGH SCHOOLS.

A communication was received from the Board of Schoolhouse Commissioners, under date of Oct. 24, 1910, submitting for consideration letters from His Honor, the Mayor, Director of Music, and the Superintendent of School Buildings in New York, with reference to the equipment of high schools with pipe organs to form the background of the stages in assembly halls.

Referred to the Board of Schoolhouse Commissioners with a request for an estimate of the cost of equipping high school-houses with pipe organs.

RENTAL, SCHOOL ACCOMMODATIONS, EAST BOSTON.

A communication was received from the Board of Schoolhouse Commissioners, under date of Oct. 29, 1910, stating that owing to the large expenditure of the school owner to increase the accommodations for pupils in the basement of the Italian Catholic Church, Leyden street, East Boston, that Board deems it fair to increase the rental of said premises from \$80. to \$100. per month, said increase to take effect Nov. 1, 1910.

Placed on file.

TUITION OF NON-RESIDENT PUPILS, EVENING INDUSTRIAL SCHOOL.

A communication was received from the State Board of Education, under date of Oct. 17, 1910, stating that at a regular meeting of that Board, held on Oct. 14, 1910, the following vote was passed:—

VOTED: That an annual fee of \$2.00 be fixed for non-resident pupils in the Boston Evening Industrial School.

Placed on file.

APPOINTMENT RESCINDED, TEMPORARY INSTRUCTOR, GIRLS' LATIN SCHOOL.

On motion, it was ORDERED, That the appointment of Rebecca D. Moore as temporary assistant instructor, Girls' Latin School, to take effect Sept. 14, 1910, is hereby rescinded.

Thomas Gardner District—Edna C. Farrington, assistant, Oct. 5, 1910, one-half day; Bertha E. Davis, assistant, Oct. 17, 1910, one-half day; Grace A. Kelleher, assistant, Sept. 30, 1910, one-half day; Ruby A. Johnson, assistant, Oct. 20, 1910, one-half day; Elsie L. Travis, assistant, Oct. 25, 1910, one-half day.

Warren District—Rose M. Cole, assistant, Oct. 27, 1910, without pay; Sarah J. Taff, assistant, Oct. 27 and 28, 1910; Dora Weisman, assistant kindergarten, from Oct. 3 to 6 and from Oct. 12 to 14, 1910.

Washington District—Idabel F. Butler, assistant, from Oct. 7 to 31, 1910; Alice H. O'Connell, assistant, Oct. 5, 1910, one-half day; Anna M. Mullins, first assistant kindergarten, Oct. 5, 1910; Minnie D. Penzanski, assistant, Oct. 4, 5 and 13, 1910; M. Gertrude Rebholz, assistant, Oct. 5, 1910.

Wells District—Helen M. Graves, assistant, Oct. 20, 1910, one-half day; Dora L. Lourie, assistant, Oct. 4 to 5, 1910; Lena H. Romberg, assistant, Oct. 4 to 5, 1910.

Wendell Phillips District—Marie E. McCue, assistant, Oct. 31, 1910; Laura J. Wescott, assistant, from Oct. 25, 1910, to Feb. 25, 1911.

William E. Russell District—Mary G. Ellis, assistant, Oct. 28 and Oct. 31, 1910, two half-days.

Manual Training—Celia B. Hallstrom, instructor, Oct. 31, 1910.

Hygiene—Edith W. Sheehan, assistant nurse, from Oct. 6 to 8, 1910.

Sewing—Katherine M. Mahoney, teacher, Sept. 14, 15 and 16, 1910; Elizabeth Rogers, teacher, from Sept. 23 to 24, 1910.

Cookery—Robert M. Cummins, teacher, Oct. 3, 1910, one-half day.

On motion of the Superintendent it was ORDERED, That the following leave of absence, granted at the meeting of Oct. 3, 1910, is hereby rescinded:

Cheverus District—Harriet G. Jones, assistant, from Sept. 27, 1910, to Jan. 27, 1911, without pay.

On the report of the Superintendent, the following leave of absence was cancelled from the date stated, at the request of the teacher:—

Dillaway District—Ellen A. Scollin, assistant, Oct. 17, 1910.

DESIGNATION OF A TEACHER.

A communication was received from the Superintendent, under date of Nov. 7, 1910, reporting the following designation of a teacher to serve in the position indicated, until such time as it shall be filled otherwise in accordance with the rules and regulations:—

Chapman District—Adelaide M. Clarke, assistant kindergarten, as acting first assistant, kindergarten, (vice Helen M. Paine, absent on leave), to take effect October 18, 1910.

CHANGE OF DATE, TRANSFER OF HELEN E. BRADY.

On motion of the Superintendent, it was ORDERED, That the date on which the transfer of Helen E. Brady from the John

A. Andrew to the Prescott District takes effect is hereby changed from Oct. 10, 1910, to Nov. 1, 1910.

MINORS' LICENSES.

A communication was received from the Superintendent, under date of Nov. 7, 1910, reporting that, subject to the approval of the Board, he had granted minors' licenses as follows:

To sell newspapers.....	121
To act as pedlers.....	2
To black boots.....	3

Issue of licenses authorized accordingly.

The Superintendent reported that he had revoked the licenses of two minors to sell newspapers, for violation of the conditions under which said licenses were granted. Approved.

DESIGNATION OF TEACHERS ABOVE THE THIRD GRADE IN BOYS' SCHOOLS.

A communication was received from the Superintendent, under date of Nov. 7, 1910, stating that, subject to the approval of the Board, he had assigned the following-named teachers to classes attended exclusively by boys in grades above the third, in the districts herein stated, in effect Sept. 1 to 13, 1910, both inclusive:

Agassiz District—Assistant, Mary A. Cooke.

Wendell Phillips District—Assistant, Agnes G. Tarpey.

Approved, and placed on file.

RETIREMENT OF A TEACHER ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teacher be retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908 as amended by Chapter 617 of the Acts of 1910, the date of retirement and rate of pension to be as hereinafter specified:—

Horace Mann School—Sarah A. J. Monro, age 53 yrs., length of service 30 yrs., Nov. 14, 1910, \$428.

Passed, a majority of the Board voting in the affirmative.

SALARIES OF ASSISTANTS IN SUPERINTENDENT'S OFFICE.

On motion of the Superintendent, it was ORDERED, That Helena W. McMahon, assistant in the office of the Superintendent, be placed upon the fifth year of the schedule of salaries for clerks and stenographers employed in the offices of the School Committee, viz., eight hundred and forty dollars (\$840) per annum, to take effect Nov. 1, 1910.

On motion of the Superintendent, it was ORDERED, That the salary of Blanche G. Wing, assistant in the office of the Superintendent, be established at nine hundred dollars (\$900) per annum, to take effect Nov. 1, 1910.

On motion of the Superintendent, it was ORDERED, That Florence W. Turkington, assistant in the office of the Superintendent, be placed upon the fifth year of the schedule of salaries for clerks and stenographers employed in the offices of the School Committee, viz., eight hundred and forty dollars (\$840) per annum, to take effect Nov. 1, 1910.

On motion of the Superintendent, it was ORDERED, That Barbara K. Newman, assistant in the office of the Superintendent, be placed upon the second year of the schedule of salaries for clerks and stenographers employed in the offices of the School Committee, viz., six hundred and sixty dollars (\$660) per annum, to take effect Nov. 1, 1910.

SALARY, FREDERICK A. GUINDON.

On motion of the Superintendent, it was ORDERED, That, while Frederick A. Guindon serves as acting sub-master in the Oliver Wendell Holmes District, he be paid eight dollars (\$8.00) per month in addition of his regular salary as assistant.

ESTABLISHMENT OF BRANCH OF WELLS EVENING SCHOOL.

On motion of the Superintendent, it was ORDERED, That for the season of 1910-11, a branch of the Wells Evening School be established in the school-house located at 33 Chambers Street.

ADDITIONAL COURSES, CENTRAL EVENING INDUSTRIAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That, with the approval of the State Board of Education, the following additional courses are hereby authorized for the Central Evening Industrial School:

Course in pattern-making.
Course for janitors.
Course in forging.

EXPENDITURE FOR COSTUME MODELS, EVENING INDUSTRIAL SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to incur an expense of two hundred dollars (\$200) for the service, during the term of 1910-11, of costume models in the Evening Industrial Schools.

EMPLOYMENT OF FLORENCE O. BEAN, ASSISTANT IN MANUAL TRAINING.

On motion of the Superintendent, it was ORDERED, That Florence O. Bean, assistant instructor in manual training, is hereby authorized to act as assistant in manual training, to take effect Nov. 7, 1910, and until the position is otherwise filled in accordance with the regulations, Miss Bean to retain her present rank, and be paid \$8.00 per month in addition to her regular salary during the term of said service.

EMPLOYMENT OF ELIZABETH M. P. BARTLETT, WEST ROXBURY HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment in the West Roxbury High School, beginning Nov. 1, 1910, of Elizabeth M. P. Bartlett, an assistant in the Gaston District, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient, Miss Bartlett to be paid at the same rate as if she were teaching as an assistant in an elementary school.

On motion of the Superintendent, it was ORDERED, That, while Elizabeth M. P. Bartlett, because of her service in the West Roxbury High School, is absent from her regular position in the Gaston District, her place in that district may be filled by a temporary teacher.

COOKERY CLASS FOR MOTHERS, DILLAWAY SCHOOL.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to conduct a series of six lessons in cookery in the Dillaway School, for the purpose of instructing mothers in regard to the preparation of foods especially suited to anaemic children, at an expense not to exceed twenty-five dollars (\$25); said expense to be charged to the account of salaries of instructors.

INSTRUCTION IN FOLK DANCING. QUINCY EVENING SCHOOL.

On motion of the Superintendent, it was ORDERED, That the principal of the Quincy Evening School is hereby authorized to allow pupils in her school to attend a course of lessons in folk dancing for girls, to be held under her direction at 98 Tyler street; said lessons to be given without expense to the city one (1) evening per week during the evening school term of 1910-11.

EVENING SCHOOL FOR DOMESTICS.

A communication was received from the Superintendent, under date of Nov. 7, 1910, with reference to the establishment of an Evening School for Domestic, referred to him at the last meeting (see p. 159), submitting a report from the Director of Evening and Continuation Schools, stating that the number of

pupils employed in domestic service who seek evening school instruction is not large enough to make it practicable to establish classes to be held later in the evening, or to establish new schools in other districts.

Placed on file.

FINANCIAL SITUATION IN NURSING DIVISION.

A communication was received from the Superintendent, under date of Nov. 7, 1910, submitting a report made by the Director of School Hygiene, with reference to the financial situation in the nursing division of the department of school hygiene.

Referred to the Business Agent for consideration in connection with the preparation of the budget for the ensuing financial year.

AMENDMENT TO ELIGIBLE LIST.

A communication was received from the Board of Superintendents, under date of Oct. 21, 1910, reporting the following amendments to School Document No. 7, 1910, List of Candidates Eligible for Appointment as Teachers:—

Page 11. High School Certificates (English): 786—Mabel E. Adams. Name temporarily removed by request.

Page 26. Kindergarten Certificates (Examined Candidates): 804—Evelyn C. Chase. Name temporarily removed by request.

Placed on file.

AUTHORIZED TEXT BOOKS.

A communication was received from the Board of Superintendents, under date of Oct. 24, 1910, reporting that Latin Composition, Part I., and Latin Composition, Part II., by Benjamin L. D'Ooge, published by Ginn & Co., are now authorized for use as text books in the high and Latin schools, and recommending the adoption of Latin Composition, Part III., as a text book in the high and Latin schools, as it is required by one of the high schools for immediate use.

Placed on file.

The following order was offered:—
ORDERED, That Latin Composition, Part III., by Benjamin L. D'Ooge, published by Ginn & Co., is hereby authorized for use as a text book in the high and Latin Schools.

Laid over.

PALMER METHOD OF BUSINESS WRITING.

A communication was received from the Board of Superintendents, under date of Oct. 24, 1910, recommending that The Palmer Method of Business Writing, by A. N. Palmer, published by A. N. Palmer & Co., now authorized for use in the elementary schools, grades IV. to VIII., be also authorized for use in the first year classes in the high schools; also that The Palmer Method Writing Cards by A. N. Palmer, be authorized for use as texts in the elementary schools, Grades I. and II.

Placed on file.

The following order was offered:—
ORDERED, That The Palmer Method of Business Writing by A. N. Palmer, published by A. N. Palmer & Co., now authorized for use as a text book in the elementary schools, Grades IV. to VIII., is hereby authorized for use as a text book in Grade III. of the elementary schools.

Laid over.

The following order was offered:—
ORDERED, That The Palmer Method of Business Writing by A. N. Palmer, published by A. N. Palmer & Co., is hereby authorized for use as a text-book for first year classes in the high schools.

Laid over.

The following order was offered:—
ORDERED, That the Palmer Method Writing Cards by A. N. Palmer, published by A. N. Palmer & Co., are hereby authorized for use as texts in the elementary schools, Grades I. and II.

Laid over.

COURSE OF STUDY IN PENMANSHIP.

A communication was received from the Board of Superintendents, under date of Nov. 4, 1910, recommending the adoption

of a Course of Study in Penmanship to accompany the Provisional Course of Study for the Elementary Schools (School Document No. 8, 1909).

Placed on file, and the accompanying course of study adopted.

AMENDMENT TO REGULATIONS.

A communication was received from the Board of Superintendents, under date of Oct. 24, 1910, recommending that the rules be amended with respect to certain certificate requirements.

Placed on file, and the following order in accordance with the foregoing recommendation was offered:—

ORDERED, That the rules be amended as follows:—

Section 138, paragraph XVII. Strike out the closing sentence of the paragraph describing the requirements for the certificate and substitute in place thereof the following:—

These certificates shall expire on the thirtieth day of June following the date of issue,—so that the paragraph will read as follows:—

The requirements for this certificate are: Evidence of three years' successful experience in the practical pursuit of the industry the candidate is to teach. These certificates shall expire on the thirtieth day of June following the date of issue.

Paragraph XVIII. Strike out the definition of certificate requirements and substitute in place thereof the following:—

The requirements for this certificate are: A diploma from a high school approved by the Board of Superintendents, or evidence of an equivalent academic education; and a thorough knowledge of the English language and of such other language or languages as the candidate is to interpret.

Candidates for this certificate shall be at least twenty years of age, and shall have been residents of the United States for at least three years.

These certificates shall expire on the thirtieth day of June following the date of issue.

Paragraph XXIV. Insert in the ninth line of the paragraph describing the issue of licenses, to immediately follow the word "classes," the following:—

The Board of Superintendents may issue licenses to serve as aids in the day industrial schools to persons who satisfactorily complete the course of study in said schools,—so that the paragraph will read as follows:—

Licenses.

The Board of Superintendents may issue licenses to teach industrial or related subjects in day industrial schools to persons who present satisfactory evidence of possessing good character and health, and who, upon investigation, shall be found to have had three years' satisfactory experience in the practical pursuit of the industry the candidate is to teach, or one year's successful experience in teaching such subject to classes. The Board of Superintendents may issue licenses to serve as aids in the day industrial schools to persons who satisfactorily complete the course of study in said schools. Said licenses shall expire on the thirtieth day of June following the first anniversary of the date of issue, and shall not be extended or renewed.

Passed, under a suspension of the rules.

HIGH SCHOOL INSTRUCTION IN CLERICAL SUBJECTS.

A communication was received from the Board of Superintendents, under date of Oct. 31, 1910, in response to the order passed by the Board at its meeting of June 6, 1910, (see p. 110), requesting the Board of Superintendents and the High School Head-Masters' Association to report with reference to the desirability of providing intensive study of clerical subjects for pupils who have completed two or more years of high school work, reporting as follows:—

The Board of Superintendents is of the opinion that it is inadvisable to establish classes in high schools for intensive study of clerical subjects; it believes, however, in the establishment of a separate school for that purpose and regrets that the financial situation is not such as to warrant the establishment of such a school at the present time.

The accompanying report on the subject by the Committee of Head Masters stated that the present equipment of the high schools will not permit of any marked extension of their commercial work; that, therefore, intensive clerical courses could only be given by forming afternoon classes; that practically all the commercial pupils in the present second and third year

classes of the high schools prefer to continue their present course next year, either because of its higher educational value, or because it leads to a diploma.

Placed on file, and the Secretary directed to transmit a copy thereof to each member of the Board.

INTRODUCTION OF SUBJECT OF THRIFT INTO COURSE OF STUDY.

A communication was received from the Board of Superintendents, under date of Oct. 31, 1910, in response to the order passed by the Board at its meeting of June 6, 1910 (see p. 109), requesting a report with regard to the introduction of the subject of thrift in the course of study for various schools, as provided in Chapter 24 of the Acts of 1910, and recommending that the course of study for the Latin, high and elementary schools be amended accordingly.

Placed on file, and on motion it was ORDERED, That the course of study for the Latin schools (School Document No. 15, 1891) be amended as follows:—

Page 6. Add the following as a separate paragraph under "Moral Training":—

Further by statute it is required that teachers give proper instruction to their pupils in the subject of thrift.

On motion it was ORDERED, That the course of study for the high schools (School Document No. 4, 1906) be amended as follows:—

Page 8. Add the following as a separate paragraph under "Moral Training":—

Further by statute it is required that teachers give proper instruction to their pupils in the subject of thrift.

On motion it was ORDERED, That the provisional course of study for the elementary schools (School Document No. 8, 1909) be amended as follows:—

Page 7. Insert the following under "Moral Training" as Note 3:—

Note 3. Further by statute it is required that teachers give proper instruction to their pupils in the subject of thrift.

Renumber Note 3 as Note 4.

COMBINING SMALL CLASSES IN ONE CENTRAL HIGH SCHOOL.

A communication was received from the Board of Superintendents, under date of Oct. 29, 1910, in response to the order passed by the Board at its meeting of June 6, 1910 (see p. 110), requesting the Board of Superintendents and the High School Head-Masters' Association to report with reference to the feasibility of providing in one central school for the combining of small elective classes in various high schools, reporting that the board is of the opinion that it is impracticable to bring together at some central place sections or classes which number less than the regulations allow, and recommends, as a partial remedy in the case of small sections, the union of two sections under one teacher; also that each high school be held strictly to the number of teachers authorized under the regulations. The report of the Committee of Head-Masters appointed to consider this matter was also submitted.

Placed on file.

SALARY OF PRINCIPAL OF SUMMER HIGH SCHOOL.

A communication was received from the Business Agent, under date of Oct. 21, 1910, with reference to the compensation of William F. Rice, principal of the Summer High School, for his services during the first week the school was in session.

Placed on file.

APPROPRIATIONS AND EXPENDITURES TO NOV. 1, 1910.

A communication was received from the Business Agent, under date of Nov. 1, 1910, submitting a statement showing the appropriations, expenditures and balances for the first ten months of the current financial year, the total expenditures, and the expenditures for the corresponding ten months of the financial year 1909-10, with the increases and decreases in the several items.

Placed on file.

A further communication was received from the Business Agent, under date of

Nov. 7, 1910, supplementary to and explanatory of the foregoing statement.
Placed on file.

APPROPRIATIONS AND EXPENDITURES, SUPPLIES AND INCIDENTALS.

A communication was received from the Business Agent, under date of Oct. 29, 1910, submitting a statement of the appropriations, expenditures and balances for each of the items of the appropriation for supplies and incidentals up to and including the Nov. 1, 1910.
Placed on file.

SALARY DUE GEORGE A. KING.

On motion, it was
ORDERED, That the salary due George A. King, late janitor of the Frothingham School, be paid to his daughter, Mabel Z. Leighton.

SALARY DUE GEORGE F. BARKER.

On motion, it was
ORDERED, That the salary due George F. Barker, late substitute janitor, be paid to his widow, Elizabeth E. Barker.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for such services, as follows:

Capen School-house—Daniel T. Kelly, temporarily transferred Oct. 23, 1910—transfer extended Nov. 2, 1910. Amount due for services rendered Oct. 23 to Nov. 7, 1910, inclusive, \$30.45.

Clinch School-house and Portables Nos. 25 and 72—Henry J. Mahoney, acting janitor, reappointed Oct. 19, 1910. Amount due for services rendered Oct. 18 to 22, 1910, inclusive, \$11.09.

Common-street School-house—Michael Keefe, acting janitor, appointed Oct. 23 and reappointed Nov. 2, 1910. Amount due for services rendered Oct. 23 to Nov. 7, 1910, inclusive, \$20.98.

Frothingham and Annex School-houses—Michael Keefe, acting janitor, reappointed Oct. 22, 1910. Amount due for services rendered Oct. 18 to 22, 1910, inclusive, \$18.97.

Harvard Hill School-house—Charles Timmins, acting janitor, appointed Oct. 18, 1910, reappointed Oct. 28 and Nov. 7, 1910. Amount due for services rendered Oct. 18 to Nov. 7, 1910, inclusive, \$35.64.

Hutchings-street Portable No. 41—Henry T. Brennan, acting janitor, reappointed Oct. 18, 28 and Nov. 7, 1910. Amount due for services rendered Oct. 18 to Nov. 7, 1910, inclusive, \$4.94.

Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses, and Portables Nos. 42, 102 and 105—Ira M. Jacobs, acting janitor, appointed Nov. 2, 1910. Amount due for services rendered Nov. 2 to 7, 1910, inclusive, \$28.26.

Parkman School-house—Dennis J. Lenehan, acting janitor, appointed Oct. 18, 1910, reappointed Oct. 28 and Nov. 7, 1910. Amount due for services rendered Oct. 18 to Nov. 7, 1910, inclusive, \$38.31.

William Lloyd Garrison School-house—Henry T. Brennan, acting janitor, appointed Oct. 24, 1910, reappointed Nov. 3, 1910. Amount due for services rendered Oct. 24 to Nov. 7, 1910, inclusive, \$40.22.

Placed on file, and the reappointments approved.

On motion it was
ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Hutchings-street Portable No. 41, from Oct. 18 to Nov. 7, 1910, inclusive, four and 94-100 dollars (\$4.94).

To Henry T. Brennan, William Lloyd Garrison School-house, from Oct. 24 to Nov. 7, 1910, inclusive, forty and 22-100 dollars (\$40.22).

To Ira M. Jacobs, Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses, and Portables Nos. 42, 102, and 105, from Nov. 2 to Nov. 7, 1910, inclusive, twenty-eight and 26-100 dollars (\$28.26).

To Michael Keefe, Frothingham and Annex School-houses, from Oct. 18 to Oct. 22, 1910, inclusive, eighteen and 97-100 dollars (\$18.97).

To Michael Keefe, Common-street School-

house, from Oct. 23 to Nov. 7, 1910, inclusive, twenty and 98-100 dollars (\$20.98).

To Daniel T. Kelly, Capen School-house, from Oct. 23 to Nov. 7, 1910, inclusive, thirty and 45-100 dollars (\$30.45).

To Dennis J. Lenehan, Parkman School-house, from Oct. 18 to Nov. 7, 1910, inclusive, thirty-eight and 31-100 dollars (\$38.31).

To Henry T. Mahoney, Clinch School-house and Portables Nos. 25 and 72, from Oct. 18 to Oct. 22, 1910, inclusive, eleven and 9-100 dollars (\$11.09).

To Charles Timmins, Harvard Hill School-house, from Oct. 18 to Nov. 7, 1910, inclusive, thirty-five and 64-100 dollars (\$35.64).

LEAVE OF ABSENCE TO JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, recommending that as Oliver E. Wood, janitor of the Cudworth School-house and Portables Nos. 14, 68 and 110, is in poor physical condition, he be granted one year's leave of absence on half-pay, in view of his long service in the public schools.

Placed on file, and leave of absence granted Oliver E. Wood for one year to take effect Nov. 11, 1910, on one-half of his net compensation, the amount thereof to be determined by the Secretary and the Schoolhouse Custodian.

JANITORSHIP, BENJAMIN POPE SCHOOL-HOUSE AND PORTABLES NOS. 16, 36 AND 63.

On motion it was
ORDERED, That the transfer of Andrew T. Dale to the Benjamin Pope School-house (see p. 157) include Portables Nos. 16, 36 and 63.

JANITORSHIP, PARKMAN SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, stating that Dennis J. Lenehan, janitor of the Hutchings-street Portables Nos. 41, 102, 103 and 105, is the only applicant for transfer to the Janitorship of the Parkman School-house, and recommending that he be transferred to said position to take effect Nov. 8, 1910.

Placed on file, and the transfer of Dennis J. Lenehan to said position approved to take effect on the date stated.

JANITORSHIP, CYRUS ALGER SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, submitting a list of applicants for transfer to the Janitorship of the Cyrus Alger School-house, and recommending that Simeon Robinson, janitor of the Mt. Vernon-street School-house and Portable No. 106, who stands at the head of the list, be transferred to said position to take effect Nov. 13, 1910.

Placed on file, and the transfer of Simeon Robinson to said position approved to take effect on the date stated.

JANITORSHIP, CAPEN SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, showing that Daniel T. Kelly, janitor of the Common-street School-house, is the only applicant for transfer to the Janitorship of the Capen School-house, and recommending that he be transferred to said position to take effect Nov. 8, 1910.

Placed on file, and the transfer of Daniel T. Kelly to said position approved to take effect on the date stated.

JANITORSHIP, WILLIAM LLOYD GARRISON SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, submitting a list of applicants for transfer to the William Lloyd Garrison School-house, and recommending that Frank P. Bartlett, janitor of the Lewis School-house and Annex, and Portables Nos. 19, 21, 22, 38, 39 and 69, who stands at the head of the list, be transferred to said position to take effect Nov. 13, 1910.

Placed on file, and the transfer of Frank P. Bartlett to said position approved to take effect on the date stated.

CERTIFICATION OF AREAS OF WILLIAM LLOYD GARRISON SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, transmitting a certification of the areas of the William Lloyd Garrison School-house, to take effect Oct. 24, 1910, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certification to take effect on the date stated.

RECERTIFICATION OF AREAS OF WYMAN SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, transmitting a recertification of the areas of the Wyman School-house, to take effect Oct. 19, 1910, upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such recertification to take effect on the date stated.

SUSPENSION OF JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, reporting that on Nov. 4, 1910, he suspended Samuel T. McClellan, janitor of the Nathaniel Hawthorne, Howard-avenue and Howard-avenue Annex School-houses, and Portables Nos. 42, 102 and 105, for a period of ten days, because of neglect of duty, and recommending that because of such neglect he be indefinitely suspended.

Placed on file, the action of the Schoolhouse Custodian approved, and the matter referred to Messrs. Brock and Magenis for consideration and report relative to further disposition of the matter.

SALARY OF JANITOR ROXBURY EVENING INDUSTRIAL SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, stating that changes in the heating apparatus of the Old Dearborn School-house, occupied by the Roxbury Branch of the Evening Industrial School, necessitate the attendance of an extra fireman, and recommending that seventy cents (\$.70) for each evening this school is in session be paid to the janitor in addition to the salary already established, to take effect Nov. 7, 1910.

Placed on file.

On motion, it was
ORDERED, That the janitor in charge of the Roxbury Branch of the Evening Industrial School be allowed and paid the sum of seventy cents (\$.70) in addition to his regular compensation for each evening the school is in session to take effect Nov. 7, 1910, said sum to include the services of an additional fireman.

TEMPERATURE OF CLASS-ROOMS.

A communication was received from the Schoolhouse Custodian, under date of Nov. 7, 1910, recommending that, because of recent changes in the rule regarding temperature of school-houses and the difference of opinion as to the proper height at which thermometers should be placed in class-rooms in order to ascertain the temperature of the room, the Director of School Hygiene be requested to report the correct height and position at which thermometers should be located in order to maintain the proper temperature of class-rooms in accordance with the rules on heating and ventilating school buildings.

Placed on file, and the recommendation adopted.

APPROVAL OF PAY ROLLS AND BILLS.

On motion it was
ORDERED, That the pay rolls and bills, both regular and special, for the month of November, 1910, prepared and certified to by the Business Agent, be approved on behalf of this Board by Dr. Scannell, or in the event of his absence by Mr. Magenis.

APPROPRIATION FOR RENTED SCHOOL ACCOMMODATIONS.

The following order was offered:—
ORDERED, That from the amount included in the annual appropriation order for the financial current year under the item "Supplies and Incidentals" there be

transferred to the item "Rents for Hired School Accommodations," the sum of \$2,500.

Passed by the following vote:—

Yeas—Messrs. Brock, Ellis, Lee, Magenis and Scannell.

DEFERRING THE PRINTING OF THE MINUTES.

On motion, it was ORDERED, In view of the general elections to be held on Tuesday, Nov. 8, 1910, and the consequent pressure on newspaper space the following day, the printing of the proceedings of this meeting in the Boston Daily Advertiser be deferred one day and appear on Thursday, Nov. 10, 1910.

APPOINTMENT OF JUDGES, NEWS-BOYS' TRIAL BOARD.

On motion, it was ORDERED, That Mitchell Freman is hereby appointed chief judge and Alexander I. Peckham judge of the Newsboys' Trial Board, each for the term of one year beginning the second Saturday in November, 1910.

RECESS.

The Board took a recess at 5.50 o'clock P. M.

The members of the Board reassembled in the School Committee chamber and were called to order by the Chairman at 6.35 o'clock P. M.

PER CAPITA COST OF SUPPLIES FOR NORMAL, LATIN, HIGH AND ELEMENTARY SCHOOLS.

A communication was received from the Board of Apportionment, under date of Nov. 7, 1910, in response to an order passed by the School Committee on June 20, 1910, (see p. 119) requesting the Board of Apportionment to advise the School Committee what in its opinion is a fair per capita money allowance for supplies for the Normal, Latin, high and elementary schools, and submitting the following recommendations:—

1. That of the appropriation for the support of the public schools, a sum be set apart for the purchase of supplies, which sum shall be at a fixed rate for each pupil in the schools; this per capita rate to provide for all expenditures under the following items:—

- (a) Text Books.
- (b) Supplementary Books.
- (c) Reference Books.
- (d) Music Sheets.
- (e) Globes.
- (f) Maps.
- (g) Charts.
- (h) Manual Training Supplies in High Schools.
- (i) Drawing Supplies in Normal and High Schools.
- (j) Science Laboratories: Apparatus and Supplies. Laboratory Assistance; Perishable Supplies.
- (k) Educational Supplies and Equipment for: High School Commercial Classes, except new or exchanged typewriters. Kindergarten Classes. Sewing Classes. Special Classes. Disciplinary Classes.
- (l) Printing and Stock.
- (m) Stationery.
- (n) Postage.
- (o) All other educational supplies and incidentals not included under specific appropriations elsewhere.

2. That the per capita allowance per pupil for supplies be based on the average number of pupils belonging during the month of November of each year.

3. That for the year 1911-12, the per capita allowance for supplies be as follows:—

Normal School.....	\$6.00
Latin and High Schools.....	4.60
Elementary Schools.....	1.50
Kindergartens.....	.75

4. That requisitions for supplies shall be subject to the approval of the Assistant Superintendent in charge of the particular school, and that such requisitions be sent to the Assistant Superintendent in charge but once each month, i.e., on the fifteenth day of the month.

5. That the plan of a per capita allowance for supplies take effect on Nov. 15, 1910.

6. That in both high and elementary schools pupils pay the cost of the materials used in making articles other than those termed the regular models required to be taught.

7. That for the present, a special appropriation be made for the purchase of supplies and incidentals for the Trade School for Girls, for the Pre-Apprentice School in Printing and Book-binding, and for the Evening Schools, and that

special appropriations be also made for the following items:—

- (a) Musical Instruments, New.
 - (b) Musical Instruments, Repaired.
 - (c) Piano Covers.
 - (d) Piano Tuning.
 - (e) Moving Planos.
 - (f) Manual Training Supplies, Elementary Schools.
 - (g) Drawing Supplies, Elementary Schools.
 - (h) Educational Supplies and Equipment for: Cooking Classes. Typewriters for High Schools; new or exchanged.
 - General Educational Purposes.
 - (i) Advertising.
 - (j) Records, Proceedings.
 - (k) Account Books.
 - (l) Office Equipment.
 - (m) Office Supplies.
 - (n) Janitors' Supplies.
 - (o) Delivery of Supplies.
 - (p) Car Tickets for: Horace Mann School. As Authorized by Board.
 - (q) Tuition, Wards of City.
 - (r) Tuition, Town of Brookline.
 - (s) Miscellaneous Appropriation for: School Census. Diplomas. Removing Ashes. Surety Bonds. School Committee Contingent Fund. Superintendent Contingent Fund. Assistance at Teachers' Examinations. School Exhibit. Telephone and Telegraph. Bath Expenses. Badges, Licensed Minors. Sundries.
- Laid on the table.

SCHOOL SAVINGS SYSTEMS.

Mr. Brock, who was appointed a special committee at the meeting of Feb. 21, 1910, (see p. 30) to investigate and report in regard to savings systems in the public schools, submitted a report thereon.

Laid on the table.

UNEXPENDED BALANCE OF PENSION FUND.

On motion it was ORDERED, That of the \$66,194.65 appropriated March 16, 1910, for the payment of pensions to teachers under the provisions of chapter 589 of the acts of 1908, as amended by chapter 617 of the acts of 1910, the sum of \$35,000 be paid to the treasurer of the permanent pension fund for investment by the Board of Trustees of said fund, in accordance with the provisions of said acts, said amount, in the opinion of the School Committee, not being needed for the purpose of paying pensions to teachers during the financial year ending January 31, 1911.

COMMITTEE OF PRINCIPALS TO STUDY SUBJECT OF STREET ACCIDENTS.

On motion it was ORDERED, That the Superintendent be requested to appoint a committee of principals to study the subject of street accidents to children, especially those connected with the operation of electric cars, and, after conference with the proper officials of the Boston Elevated Railway Co., to recommend practicable measures tending to reduce the number of such accidents.

PAYROLLS FOR JANITORS.

On motion it was ORDERED, That the Business Agent is hereby authorized to prepare and forward the payrolls for janitors for the week ending Nov. 26, 1910, in time so that janitors may be paid before Thanksgiving Day.

VENTILATION OF SCHOOL ROOMS.

On motion it was ORDERED, That the Schoolhouse Commission be requested, so far as feasible, to provide that all rooms in new school buildings shall, on one side at least, open wholly from floor to ceiling to the outer air, in order that during warm weather, at least, the pupils may have as much fresh air as possible.

OPEN AIR PLAY SPACE, NEW BUILDINGS.

On motion it was ORDERED, That the School Committee earnestly renews its request to the Board of Schoolhouse Commissioners

that except where a public park or playground makes equivalent provision there be provided with every new school building open air play space of at least 30 sq. ft. for each pupil where the same can be done without inordinate expense, and that under all circumstances such space be at least 20 sq. ft. per pupil.

TEMPERATURE AND VENTILATION OF CLASS-ROOMS.

On motion it was ORDERED, That the attention of the principals in all the schools is hereby called to the following recent orders in regard to ventilation:—

1. Amendments to Section 231, given in the proceedings, Feb. 21, 1910 (see p. 20), substantially as follows:—

1. That teachers keep watch of the temperature and ventilation of the rooms.

2. That in every school there shall be a period of physical exercise in each session simultaneously in every room in addition to the regular recess, and that during such period the windows of each room shall be opened sufficiently to thoroughly air out the room.

3. That all rooms shall be thoroughly aired out after each session and after evening school.

4. That the School Committee does not desire to save coal at the expense of insufficient ventilation.

11. Proceedings, April 4, 1910 (see p. 59).

Providing in substance that when so doing will not drive the thermometer below 67 F., the windows on at least one side of every room shall be kept wide open.

BOUNDARY LINES, COMINS AND MARTIN DISTRICTS.

A communication was received from William H. Martin, master of the Comins District, under date of Nov. 7, 1910, with reference to certain pupils residing in the Martin District being permitted to attend the Comins School in accordance with a custom of many years, and requesting a readjustment of boundary lines accordingly.

Placed on file, and the Secretary directed to inform Mr. Martin that the question which he raises is clearly determined by the present boundary lines of the Comins and Martin Districts.

OBJECTION TO HOLDING SCHOOL SESSIONS ON STORMY DAYS.

A communication was received from Frank W. Thayer, under date of Nov. 4, 1910, objecting to the failure to suspend the sessions of the public schools on Friday, Nov. 4, 1910, because of stormy condition of the weather.

Placed on file.

CENTENARY OF CHARLES SUMNER.

A communication was received from Clifford H. Plummer, President of the New England Suffrage League, under date of Oct. 22, 1910, asking for the use of the hall of the Bowdoin School on the morning of Jan. 6, 1911, for exercises in connection with the Centenary of Charles Sumner, and that the School Committee recognize the celebration by ordering exercises in every class-room or school on that day.

Placed on file, and the Secretary directed to reply thereto to the effect that as Friday, Jan. 6, 1911, is a regular school-day, it does not seem expedient to occupy the hall of the Bowdoin School-house during the forenoon of that day for other purposes. The attention of the principals of the various schools, however, will be called to the centenary in order that appropriate exercises may be held in the schools under their charge.

EMPLOYMENT OF MATRON, BIGELOW EVENING SCHOOL.

An application was received from Mary J. Slattery, under date of Oct. 24, 1910, for reappointment to the position of matron of the Bigelow Evening Elementary School, for the current term.

Placed on file, and it was ORDERED, That Mary J. Slattery be paid at the rate of \$1.50 for each evening of actual service rendered by her as matron of the Bigelow Evening School during the current term, and her services in that capacity be discontinued to take effect Friday, Nov. 11, 1910.

PAYMENT OF JANITOR FEE AT MEETINGS OF PARENTS' ASSOCIATIONS.

A communication was received from Mrs. Fannie Fern Andrews, Secretary of the Boston Home and School Association, under date of Nov. 3, 1910, transmitting a copy of a vote taken by the Executive Board of that association on Oct. 13, 1910, with reference to the requirement of a \$5 janitor fee for evening meetings of parents' associations, and stating that enforcement of the rule will force most of the parents' associations to disband, or limit the number of meetings to perhaps one a year. Accompanying the foregoing were communications from various parents' associations expressing objections to the rule, and stating the adverse effect its enforcement will have upon the continuance of these associations.

Communications of the same nature were also received from the Francis Parkman Parents' Association and from the Committee on the Extended Use of School Buildings in the Educational Department of the Women's Municipal League; the latter committee suggesting that when school buildings are used regularly throughout the winter by persons having as their aim the training of young people to fit their social, industrial and civic environment, janitors of the buildings used be paid according to the schedule now in effect for janitors of evening schools.

Referred for consideration and recommendation to a committee consisting of the Secretary, the Business Agent and the Schoolhouse Custodian.

ADJOURNMENT.

The Board adjourned at 7.15 o'clock P.M.
Attest:—

THORNTON D. APOLLONIO,
Secretary.

Nov. 14, 1910.

A special meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4.42 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee and Magenis.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation, as reported by the Superintendent, and laid over at the last meeting, with the following changes recommended by the Superintendent, that the appointments of Frances S. Parker, assistant (fourth year), Robert G. Shaw District, and Maude L. Plummer, assistant (fourth year), Thomas Gardner District, take effect Oct. 3, 1910, instead of Nov. 28, 1910.

The appointments were approved, with the aforesaid changes.

SITE FOR THE NEW HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

The Chairman stated that the meeting had been called especially in order that the School Committee and the members of the Board of Schoolhouse Commissioners, who were also present, might be informed as to the opinion of the business men with regard to the selection of a site for the proposed High School of Commerce.

The following members of the Advisory Committee of that school were present: Messrs. Lucius Tuttle, Carl Dreyfus, Bernard J. Rothwell, John C. Cobb, Wallace L. Pierce, Edward F. McSweeney, A. Lincoln Filene, Fred L. Howard, T. B. Fitzpatrick, Frank A. Day and Daniel D. Morss, also Messrs. W. A. Hawkins, N. C. Fowler, Jr., P. A. O'Connell, and William H. Brainerd.

The following resolutions adopted by the advisory committee of business men on the High School of Commerce were received:—

WHEREAS, The business men's advisory board of the Boston High School of Com-

merce deploras the unavoidable delay in deciding location and commencing construction of the new school building for which legislative authority was granted more than 18 months ago, and

WHEREAS, Continued delay is a most serious handicap to the proper development of this highly important system of education and deprives hundreds of boys of the opportunity of securing the advantages to which they are entitled, and

WHEREAS, This committee and the business community which it represents unanimously believe that in the interest of its pupils the High School of Commerce should be located in close proximity to the wholesale and retail business centre; be it

RESOLVED, That this committee favors site in the immediate vicinity of Park Square, and urgently requests the authorities having final jurisdiction to secure the site without further delay and begin construction at earliest possible moment.
Placed on file.

The Chairman called upon Mr. Lucius Tuttle, Chairman of the Advisory Committee, who stated that a further expression of the views of the committee would be presented by Mr. Bernard J. Rothwell, President of the Chamber of Commerce, who thereupon read the following statement:—

The question of a proper location for the new High School of Commerce Building has been so thoroughly discussed and the essentials have been so fully explained that further argument would seem to be unnecessary.

His Honor, the Mayor, has publicly charged the Business Men's Advisory Committee with completely ignoring the possibility of saving \$200,000 of the tax payers' money.

His Honor's views as to economy are worthy of respectful consideration, especially by business men who are themselves considerable tax payers. They have not been ignored. On the contrary, the Committee most carefully considered the Back Bay Fens proposition only to arrive at the conclusion that, aside from the evident unfitness of the location, its acceptance would not result in the apparent saving of money which His Honor anticipates, but would compel the expenditure of a considerably larger amount than would be necessary to locate this building upon a down-town site.

His Honor also referred to the fact that the Warrenton Street site previously recommended by the Board involved a construction cost largely in excess of the appropriation, but this is something the Advisory Board was not responsible for, as it had the assurance of the former Chairman of the Schoolhouse Commission that the building on that site could be completed within the appropriation. Possibly final plans did not correspond with original intention.

Getting land for nothing, under obligation of expending thereon six hundred thousand dollars, is no proof whatever of genuine economy and, in itself, would not warrant acceptance. It might prove to be something in the nature of a White Elephant.

While the Back Bay Fens is undoubtedly an excellent location for some school, it is manifestly an entirely unfit location for a High School of Commerce. This statement is indisputable, either from the standpoint of suitability, accessibility or economy.

Contrary to His Honor's calculation, the initial outlay in providing for this school would be distinctly to the advantage of a down-town site, but this, in itself, would by no means be a conclusive factor in solving the problem.

First, as to suitability; if it were determined to erect two schools—one of Naval design and the other of Agriculture—no level-headed official would locate the Naval School in the middle of Franklin Park or the School of Agriculture at City Point.

In other words, the fitness of the surroundings to the work at hand is the first and absolutely fundamental consideration. If a location fails to meet this requirement, then every other consideration may at once be dismissed.

The Back Bay Fens is so unfit for this particular school that the great majority of the business men who have studied the problem carefully, intelligently, and with the sole purpose of making the school a success, believe it would be far better not to build the school at all—to let it go limping along—turning away, for lack of proper accommodation, hundreds of boys

every year—than to place it in a location which, for all time, will handicap its proper development and eventually rob it of its distinctive character.

This is not the opinion of one man, or of any one group of men—it is the belief of practically all who have seriously and understandingly considered the problem.

1st: It is the belief of the School Committee.

2nd: It is the belief of the Superintendent of Schools.

3rd: It is the belief of the former Headmaster, who bases his opinion on first-hand observation of High Schools of Commerce in numerous great European centres, as well as on his four years' experience in the Boston High School of Commerce.

4th: It is the belief of the present Headmaster, who has had three years' experience in this School and who has given the problem close study both here and abroad.

5th: It is the belief of the Executive Committee of the Business Men's Advisory Board, the Chairman of this Committee also being Chairman of the State Board of Education, and a widely recognized authority on educational matters.

6th: It is the belief of the Advisory Board itself.

7th: It is the belief of the Committee on Education of the Boston Chamber of Commerce.

8th: It is the belief of the Board of Directors of the Boston Chamber of Commerce, a moment's glance at the personnel of which will disclose the qualification of its membership.

9th: It is the belief of the Retail Trade Board—a group of between four hundred and five hundred prominent retail merchants, acting independently and upon its own initiative.

Not one of all these has a single object in view other than the best interests of the boys who are to attend this School—the permanent success of the School itself, and the interests of the City of Boston which, obviously, must eventually be the loser through the construction of a misfit.

Against this consensus of opinion, the Mayor stands, practically alone, in advocacy of the Back Bay Fens.

The only argument of fitness which he has advanced has been that of playground accommodation, which in this particular School is of minor importance, as boys entering commercial pursuits at the close of the Grammar School course, as many do, have much longer hours of employment and have little time for outdoor sports.

From the standpoint of accessibility of the Back Bay Fens site, both to the pupils and to the business men, upon whose active interest and constant cooperation the success of this particular school is dependent, it would be difficult to select a more unsatisfactory location.

Living, as most of these pupils do, in Charlestown, East Boston, the North and West Ends, South Boston and Dorchester, the trip to a school located in the Fens would involve one, and in some cases two transfers—in some cases transfers out of doors. In some cases there would be an eight cent fare in each direction if additional transportation delay is to be avoided.

It will mean, for the average pupil, at least twenty minutes, and for more nearly half an hour longer in transit, and in connection with part-time work, which is the coming feature of this type of education, it will make a similar serious inroad upon the limited time of the pupil which is available for either class-work or business employment.

A down-town site, on the other hand, will make walking possible for three-fourths of the pupils, which would, in itself, be a great physical advantage to all of them, as well as a necessary economic consideration for many.

So far as the convenience of the business men is concerned, the proposed location in the Back Bay Fens would be so inaccessible as to effectively prevent their visiting the school with any frequency or regularity. As is well known, their visits to the school are not for the purpose of curiosity, but to make helpful suggestions based upon their own experience, to impart special instruction, and to aid in the planning and provision of part-time and vacation employment for the pupils.

It is upon this cooperation by the business forces of the City that the success of this type of school fundamentally depends. So clearly has this been recognized elsewhere that in such great European centers as Paris, Antwerp, Brussels, Berlin, Leipsig, Munich, Cologne, Frankfurt, Venice, Genoa, Milan, Naples and elsewhere, the High School of Com-

merce is, without exception, located in the very heart of the business center, sometimes in close proximity to the Bourse, which is equivalent to our Chamber of Commerce.

In Chicago the great business school conducted by the Northwestern University, in conjunction with the Chicago Association of Commerce, is located in the very heart of Chicago's wholesale business center.

Aside from the absolute necessity of surrounding a High School of Commerce with a commercial atmosphere, there are strong economic considerations.

In considering the economic side of this problem the Mayor has, no doubt, inadvertently ignored the fact that, if this school is located in the Back Bay Fens, a down-town site must be secured for the erection of an administration building, for it is not seriously proposed to remove the administrative offices of the public schools to the Back Bay Fens. This fact in itself betrays the remoteness of that site. In fact, it is definitely stated, that in the event of the High School of Commerce being located in the Back Bay Fens, the administrative offices both of the School Committee and of the Schoolhouse Commission will be excluded, and provision made for them elsewhere.

The act under which the High School of Commerce building is to be erected specifically provides for the inclusion of the administrative offices of the department. It is beyond doubt that the provision, elsewhere, of a building for these offices would involve much more than the saving which the free gift of the land would appear to permit.

Furthermore, the cost of foundations for a building erected in a swamp would be somewhat uncertain, but it certainly would exceed the cost of foundations upon any down-town site that has been suggested.

Again, a due sense of fitness to surroundings would require a more ornate type of elevation—and that on four sides—than on a down-town site where one, at least, and probably two sides could be severely plain.

It therefore seems evident that the selection of the Back Bay Fens site far from permitting a saving of the tax payer's money would, in fact, involve a much larger, an unnecessary and an unwise expenditure of it.

But a still more important consideration is that if the High School of Commerce is located in the Back Bay Fens, then what is equivalent to commercial laboratories must be provided. In the case of the Commercial High School at Brooklyn, N. Y., which was located away from the business centre, nearly \$1,000,000 was required for its construction and commercial equipment.

The addition to the Mechanic Arts High School, involving \$550,000 was largely made in order to provide mechanical laboratories, the construction of which could have been avoided, and is now being avoided elsewhere, through the advanced educational method of having the pupils do laboratory work in factories, a plan which is being successfully carried out at Fitchburg, Providence and elsewhere.

If the High School of Commerce is located down-town, in close proximity to the wholesale and retail business centers, then it will have immediately at hand its laboratories—actual working establishments into which its pupils will go day after day—and the City will be saved the expense of providing what at best would be an imitation.

Every element bearing upon this new educational problem has been carefully investigated and considered by the business men of Boston. It is not a matter which they have recently taken up, or a conclusion at which they have quickly arrived. From the very inauguration of this school nearly five years ago, it has been their judgment that the school should be placed as closely as possible to the business establishments wherein its pupils are to receive a portion of their instruction and in which they are to find employment upon graduation.

I repeat again with all possible emphasis that their position is based simply and solely upon the ultimate good of all concerned, and that this ultimate good demands that the school shall be located down-town.

Of the down-town locations so far mentioned the Park Square Gasometer lot appears, everything considered, to be the most satisfactory.

It or an equally suitable location should be secured without further delay and the

work of construction pushed forward with all possible speed.

Mr. John C. Cobb, Vice-President of the Chamber of Commerce, and Messrs. A. Lincoln Filene, T. B. Fitzpatrick, Edward F. McSweeney, Wallace L. Pierce, Nathaniel C. Fowler, Jr., P. A. O'Connell and Lucius Tuttle successively addressed the Committee in support of the arguments in favor of a down-town site for this school.

The Chairman briefly addressed the gentlemen present, thanking them for expressing their views and for their interest in the matter, and declared the hearing closed.

PETITION FOR INCREASE IN SALARY OF ELEMENTARY SCHOOL TEACHERS.

A petition was received bearing the signatures of 1226 teachers in the elementary schools for an adequate increase in salary to take effect the beginning of the coming fiscal year, and submitting the following reasons in support of the petition:—

1. The great increase in the cost of living.
2. The increased requirements of the new Course of Study, which necessitate an added expenditure of time and of energy in preparation for their fulfillment.
3. The public acknowledgment of His Honor the Mayor, the members of your Board and the Superintendent of Schools that the elementary assistants are at present underpaid.

Laid on the table.

ADJOURNMENT.

The Board adjourned at 5.47 o'clock P. M. to meet on Tuesday, Nov. 22, 1910, at 4.30 o'clock P. M.

Attest:
THOENTON D. APOLLONIO,
Secretary.

WHAT SAN FRANCISCO MERCHANTS ARE DOING FOR THEIR CITY.

The Merchants Association of San Francisco has been giving object lessons on the value of certain improvements by presenting some of them to the city. Among these is a device to control the crowds which line the streets during the frequent parades. Metal sockets just outside the sidewalk curb are covered by caps flush with the sidewalk pavement. When a procession is to be held the caps are removed, wooden posts are inserted in the sockets by the police department and wires are stretched along the posts. With this aid a small number of policemen can restrain the crowds with little difficulty, and the city has extended the system over the principal streets. The association constructed an isle of safety at one of the principal transfer points of the street railway, and the city then built four more at other points. A public convenience station, built at a cost of \$5,000, was presented to the city by the association, and proved so successful that a prominent citizen gave another, costing \$14,000, and the city made an appropriation for a third.

These are only a few of the ways in which this loyal organization has shown good sense and energy. It has also improved the street cleaning, sprinkling and paving, the lighting and transportation, has freed the city from disfiguring overhead wires and advertising, has protected the free public flower markets on the sidewalks that are so attractive a part of the city scene, and has brought about the new city charter.—*The American City.*

MUNICIPAL HARBOR IMPROVEMENTS.

A number of the cities on the great lakes are undertaking the construction of municipal docks to get away from the clench of the lake transportation interests which own most of the dock facilities and thus hold a monopoly.

PROCEEDINGS OF CITY COUNCIL.

Monday, November 14, 1910.

Meeting of the City Council, held in the Council Chamber, City Hall, at 3 o'clock p. m., in accordance with the call issued by the President, President BALLANTYNE presiding. Absent—Coun. Hale.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, viz.:

Ten additional traverse jurors, Superior Civil Court, second session, to appear November 21, October sitting, viz.:

Daniel P. Kelly, Ward 22; Joseph M. Everett, Ward 10; Daniel L. Cushing, Ward 24; George C. Chapman, Ward 22; John W. Tilt, Ward 19; William Fitzgerald, Ward 10; John R. Shea, Ward 18; Harry C. Graff, Ward 20; W. E. Spencer Deming, Ward 23; Henry W. Jukes, Ward 21.

Twelve additional traverse jurors, Superior Civil Court, third session, to appear November 21, viz.:

Patrick B. Collins, Ward 16; Jacob Hanapolsky, Ward 8; John Jacobs, Ward 10; Michael J. Stone, Ward 19; Charles J. Nichols, Ward 23; Edwin A. Harris, Ward 20; John A. McKim, Ward 23; John C. Hoyt, Ward 6; Frank B. Washburn, Ward 11; John A. B. Gebhardt, Ward 19; John Quinn, Ward 2; James D. Tate, Ward 23.

MEETING TO HONOR MRS. HOWE.

The following was received:

City of Boston,
Office of the Mayor, November 14, 1910.
To the City Council:

Permit me to lay before your honorable body the appended letter from a committee of the Executive Board of the New England Women's Club relating to a Civic Memorial Meeting in honor of the late Mrs. Julia Ward Howe. In view of Mrs. Howe's exalted character, remarkable service and warm attachment to the city, which was her home for so many years, I recommend that your honorable body designate a committee to arrange such a meeting as is suggested, preferably in Faneuil Hall, and will be most happy to lend my personal co-operation in any arrangements which may be made.

Respectfully,
JOHN F. FITZGERALD, Mayor.

112 Newbury Street, November 10, 1910.
To His Honor John F. Fitzgerald,
Mayor of the City of Boston:

Dear Sir,—The Executive Board of the New England Women's Club respectfully suggest to the city authorities the appropriateness of a Civic Memorial Meeting in honor of Mrs. Julia Ward Howe. As a woman, she seems the embodiment of all that was best in the Boston of the previous generation; as a patriot and friend of mankind, she has endeared herself to the representatives of so many nationalities, residing in our midst, that no one of them can act alone. It seems fitting to gather together all her manifold interests on one occasion.

If desired, the New England Women's Club will be glad to furnish a list of the various societies that should have a share in such a memorial.

Yours respectfully,

MAY ALDEN WARD,
MARY H. LADD,
Committee.

This plan meets with the cordial approval of Mrs. Howe's family.
M. A. W.
Referred to the Executive Committee.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments, viz.:

(1) Albert F. Lyons (36 Waldemar avenue, Winthrop), George E. Wellington (440 Washington avenue, Chelsea), Ernest E. Nelson (235 Summer street, Malden), George C. Davis (1068 Saratoga street, Ward 1), Mary B. Kirley (33 Ashfield street, Ward 23), James McCarthy (223 Blue Hill avenue, Ward 21), John Driscoll (10 Fellows street, Ward 17), John H. Winsloe (237 Columbia road, Ward 20), Stella Rooney (10 Downer street, Ward 20), Elliot E. Copeland (118 Thornton street, Ward 22) and J. Irving Shultz (161 Medford street, Ward 3), to be Weighers of Coal for the term ending April 30, 1911.

(2) Stella Rooney (10 Downer street, Ward 20) and John H. Winsloe (237 Columbia road, Ward 20), to be Measurers of Wood and Bark for the term ending April 30, 1911.

(3) Elliot E. Copeland (118 Thornton street, Ward 22), a Measurer of Grain for the term ending April 30, 1911.

(4) Howard L. Farwell (44 Harvest street, Ward 16), a Measurer of Wood and Bark for the term ending April 30, 1911.

(5) Alpheus R. Henderson (159 Melrose street, Melrose Highlands), an Inspector of Pressed or Bundled Hay and Straw for the term ending April 30, 1911.

(6) John E. Gillen (17 Mt. Vernon avenue, Ward 25), a Weigher of Boilers and Heavy Machinery for the term ending April 30, 1911.

(7) George A. Hagerty (135 Paul Gore street, Ward 22), a Constable of the City of Boston for the term ending April 30, 1911.

Severally laid over under the law.

TEMPORARY BRIDGE, MYSTIC RIVER.

The following was received:

City of Boston,
Office of the Mayor, November 14, 1910.
To the City Council:

In transmitting the appended letter from the Superintendent of Streets, requesting that an effort be made to secure an appropriation for the construction of a temporary bridge to Chelsea across the north channel of the Mystic river, I beg to remind you that my message to your honorable body, under date of August first, contained a full recital of the reasons which in my opinion rendered necessary an immediate appropriation for this purpose. The action of your honorable body in rejecting the appropriation for two hundred and fifty thousand dollars (\$250,000), recommended by me at the special meeting called September 28, was said to be based on your desire for further investigation and examination. As six weeks have elapsed since this date, I presume that you are now prepared to act upon the question and respectfully recommend the passage of the order in its original form as appended hereto.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Street Department, City Hall,
Boston, November 14, 1910.

To the Honorable the Mayor:

Regarding the proposed Chelsea North temporary bridge, I would respectfully remind you that the War Department has ordered the city to widen the draw channel of the existing bridge by June 30, 1911. The authorization of this work has been so long delayed that it will now be hardly possible to have the temporary bridge completed by that date. I would suggest that an effort be made to secure an appropriation for this work as soon as possible, and then that the necessary extension of time for the completion of the work be asked for from the War Department.

Respectfully,
L. K. ROUKE,
Superintendent of Streets.

Ordered, That the sum of two hundred fifty thousand dollars (\$250,000) be appropriated, to be expended by the City Engineer for the construction of a temporary bridge across the north channel of the Mystic River between the cities of Boston and Chelsea, said bridge to be built in conjunction with the City of Chelsea under the statutes governing said joint construction, and to serve in place of the present structure, known as "Chelsea Bridge North"; and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

SALE OF OLD JUNK, ETC.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1910.
To the City Council:

I transmit herewith two communications from the Fire Commissioner, requesting permission to sell old material and to have the proceeds of the sale credited to the appropriation for the Fire Department. The accompanying orders have my hearty approval.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Headquarters, Fire Department,
Bristol Street, November 3, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—I have the honor to request authority from the City Council to sell old junk, castings, etc., to the J. H. McCafferty Company for the sum of \$1,207.50, and have the proceeds thereof transferred to the funds of this department.

The above material consists of composition, brass, copper, chips, etc., destroyed in the repair shop fire of August 9, 1910.

Respectfully,
CHARLES D. DALY,
Fire Commissioner.

Boston, November 3, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—I have the honor to request authority from the City Council to sell two tons of old metal composition to the highest bidder and have the proceeds thereof transferred to the funds of this department.

Respectfully,
CHARLES D. DALY,
Commissioner.

Ordered, That the Fire Commissioner be, and hereby is, authorized to sell old junk, castings, etc., to the J. H. McCafferty Company for the sum of \$1,207.50, and that the proceeds of this sale be credited to the appropriation for the Fire Department.

Ordered, That the Fire Commissioner be, and hereby is, authorized to sell at public or private sale to the highest bidder two tons of old metal composition, and that the proceeds of this sale be credited to the appropriation for the Fire Department.

Referred to the Executive Committee on motion of Coun. BRAND.

SEA WALL, EASTERN AVENUE WHARF.

The following was received:

City of Boston,
Office of the Mayor, November 7, 1910.
To the City Council:

I transmit herewith, in order that it may be placed in the files of the City Clerk, an instrument from the United States War Department granting permission to the city to construct and maintain a sea wall and to fill solid in Boston Harbor at Eastern Avenue Wharf.

Respectfully,
JOHN F. FITZGERALD, Mayor.

War Department,
Washington, November 2, 1910.

Sir,—Referring to your application of 24th ultimo, I transmit herewith for retention an instrument granting permission to the City of Boston to construct and maintain a sea wall and fill solid in Boston Harbor at Eastern Avenue Wharf, Boston, Mass., in conformity with license No. 3514 from the Board of Harbor and Land Commissioners of the Commonwealth of Massachusetts, subject to the conditions set forth in said War Department instrument and as shown on plans attached thereto.

Very respectfully,
ROBERT SHAW OLIVER,
Acting Secretary of War.
Hon. John F. Fitzgerald, Mayor, Boston, Mass.
(Annexed was the instrument and plans referred to.)
Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

William McGlynn, for compensation for injuries received while in the employ of the city.

Harry P. A. Clausen, for damage done to a single team of his by a Fire Department wagon.

R. Nazzaro, for compensation for damages at 54 Maverick street by stopping up of sewer.

Mrs. John P. Callahan, compensation for injuries and death of her son by being struck by tool chest of Water Department.

Franciscan Sisters, for compensation for damage to property 7 Sheafe street by a defect in the water supply.

Mrs. James H. O'Brien, to be paid for damage to estate 30 Belvidere street, Ward 10, by a defective hydrant or catch-basin.

Hunter & Ross, for compensation for damage to horse by falling into a manhole on Ferdinand street.

Page & Phinney, for damage to automobile on Chelsea Bridge.

Executive Committee.

Petitions for permits for children under fifteen years of age to appear at various places of amusement, viz.:

Joseph Fitzgerald, for children to appear at Lyceum Hall on December 28.

Mrs. W. D. Cottan, for children to appear at M. E. Bethel Church on the evening of November 24.

Lotta A. Clark, for children to appear at the Arena Hall on the evenings of November 9, 10, 11 and 12.

May Josephine Bleakie, for children to appear at the Arena Hall on the evenings of November 10, 11, 12.

Mrs. Emily Kelly *et al.*, for children to appear at Pilgrim Hall on the evening of December 9.

Junk Dealers Association of Boston, for hearing on ordinance concerning junk dealers now pending before the City Council.

Marks Barg, that Normandy street, between Devon street and Stanwood street, be graded and repaired.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received.
Placed on file.

NOTICES OF HEARINGS.

Notice was received from the Harbor and Land Commissioners of hearing on November 16 on petition of Edison Electric Illuminating Company of Boston for license to build bulkheads and dredge in Boston Harbor.

Notice was received from the Board of Railroad Commissioners of hearing on petition of West End Street Railway Company for approval of 332d location on November 16.

Notice was received from the Board of Railroad

Commissioners of hearing on petition of Boston Elevated Railway Company for maintaining road of Boston, Hartford & Erie Railroad Company on Neponset avenue on November 16.

Notice was received from the Board of Railroad Commissioners of hearing on petition of West End Street Railway Company for approval of 329th, 330th and 331st locations on November 9.

Placed on file.

ERECTION, ETC., OF POLES.

Copies of orders were received from the Street Commissioners as follows:

Order granting permission to the New England Telephone and Telegraph Company of Massachusetts to erect and to remove two poles on Heath street, Ward 19.

Order granting permission to the New England Telephone and Telegraph Company of Massachusetts to erect and to remove one pole on Allston street, Ward 20.

Order granting permission to the Edison Electric Illuminating Company of Boston to erect one pole on St. Ann street, Ward 23.

Order granting permission to the American Telephone and Telegraph Company to remove poles from Dorchester avenue and other streets.

Placed on file.

RAILROAD LOCATIONS.

A copy of order was received from the Street Commissioners granting permission to the West End Street Railway Company to lay tracks on Dorchester avenue and Park street (332d location).
Placed on file and ordered to be printed.

STORAGE OF GASOLENE.

Notices were received of the keeping of gasoline at the following-named locations and of intention to use said premises for the same purpose for the ensuing year, viz.:

Simpson Brothers Corporation, 69-71 Proctor street and 83 Magazine street.

Robert M. Molineux, 9 Wabon street, Ward 21.
Placed on file.

HELP IN CITY MESSENGER'S OFFICE.

A communication was received from the City Messenger requesting additional help in his office.
Referred to the Executive Committee.

NOTICE OF APPOINTMENT.

Notification was received of the appointment of Louis A. Ginsberg as trustee for children and of the delivery of certified copy of same to the Civil Service Commission.

Placed on file.

EXPENDITURE OF PARKMAN FUND.

A communication was received from the United Improvement Association relative to the expenditure of the Parkman Fund.

Referred to the Committee on Parkman Fund.

SOLDIERS' RELIEF.

Coun. BUCKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of November.

Report accepted; order passed.

CLAIMS.

Coun. BUCKLEY, for the Committee on Claims, submitted the following:

(1) Report on petition of Charles F. Curtis (referred October 31) to be paid for the loss of fowls killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to Charles F. Curtis the sum of \$27.75 in compensation for the loss of fowls killed by dogs October 20, 1910; said sum to be paid from the income from dog licenses.

Report accepted; order passed.

(2) Report on petition of Daniel D. Lee (referred October 24), to be paid for loss of fowls killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to Daniel D. Lee the sum of \$4 in compensation for the loss of fowls killed by dogs October 11, 1910; said sum to be paid from the income from dog licenses.

Report accepted; order passed.

(3) Report on the report of the Committee on Claims (recommitted October 24), recommending the passage of an order that there be allowed and paid to George W. Brown the sum of \$175 for expenses incurred by him in settlement of claim

against him as driver of the prison van—that the order ought to pass.

The report was accepted, and the order was assigned to the next meeting on motion of Coun. KENNY.

MINORS' LICENSES.

President BALLANTYNE submitted petitions of 11 newsboys and 1 vendor for minors' licenses, and asked the approval of the Council on the same. The licenses were granted on the usual conditions.

APPROPRIATION FOR REPAIR SHOP.

Coun. KENNY called up No. 5, special assignment, viz.:

5. Ordered, That the sum of ninety thousand dollars (\$90,000) be appropriated to be expended under the direction of the Fire Commissioner for "Fire Department, Repair Shop," and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

On October 31 the foregoing order was read once and passed, yeas 8, nays 0.

The order was read and passed, yeas 8, nays 0.

SALE OF JUNK.

Coun. ATTRIDGE called up No. 7, special assignment, viz.:

7. An ordinance concerning junk dealers, etc. Be it ordained by the City Council of Boston, as follows:

Section 44 of chapter 45 of the Revised Ordinances of 1898 is hereby amended by striking out the words "one week" in the third line of said section, and inserting in place thereof the words "thirty days," so that said section as amended will read as follows:

Sect. 44. No such shopkeeper shall permit to be sold any article purchased or received by him until at least a period of thirty days from the date of its purchase or receipt has elapsed.

Coun. ATTRIDGE—Mr. President, I move that this be referred to the Executive Committee with instructions to give a hearing to representatives of the Junk Dealers Association of Boston two weeks from to-day, November 28. We have to-day received a communication from that association asking for the privilege to be heard in regard to this proposed ordinance, and I think, in justice to these men, as business men of the city, that they should be granted the right to present their views on this ordinance.

Coun. COLLINS—Mr. President, I would like to give them a public hearing, if they are to have a hearing, and have it at a time that will not conflict with our meeting.

Pres. BALLANTYNE—I understand that a public hearing has not been suggested, but that the officers of the Junk Dealers Association merely wish to appear before the committee.

Coun. COLLINS—I think it unfair to have a hearing unless both sides are present, and consequently it should be a public hearing. I make that motion as an amendment.

The question came on the adoption of Coun. Collins' amendment.

Coun. Collins' amendment, that the matter be referred to the Executive Committee, with instructions to give a public hearing, was carried.

REGULATION OF CHARLESBANK.

Coun. BRAND called up No. 6, special assignment, viz.:

6. An ordinance to amend chapter 28 of the Revised Ordinances of 1898 in section 1, as follows: Be it ordained by the City Council of Boston as follows:

Section 1. The Park Department shall be under the charge of the Board of Park Commissioners, consisting of three commissioners, who shall construct, improve, equip, govern and regulate the Charlesbank, including the passageway under Cambridge Bridge, etc.

The ordinance was passed, yeas 8, nays 0.

METHOD OF SETTLEMENT CLERKS.

Coun. CURLEY offered an order—That his Honor the Mayor be requested to investigate the method of procedure pursued by settlement clerks in the Overseers of the Poor Department.

Coun. CURLEY—Mr. President, this order is introduced with a view to establishing fair conditions with relation to the settlements of those persons who are unfortunate enough to come in contact with the settlement clerks in the employ of the Overseers of the Poor Department. The following communication was sent to me by a Mrs. Toland, of 54 Myrtle street, Boston:

The Boston City Hospital,
Boston, November 4, 1910.

Mrs. M. J. Toland,
54 Myrtle street, Boston:

Dear Madam,—I trust that you will be able to make a substantial payment on account of your nephew, Charles Harrington, admitted to this

hospital October 1, 1910, to-morrow, or Monday at the latest, as otherwise the immigration officials are likely to deport him.

Yours very truly,
W. E. BUTLER,
Settlement Clerk.

The order was passed.

SALE OF CHAIR.

President BALLANTYNE offered an order—That the Superintendent of Public Buildings, through his Honor the Mayor, be directed to sell to the Roxbury Historical Society one chair now in storage in the custody of the clerk of the Roxbury Court, said chair being one of the chairs used by the last board of aldermen of the city of Roxbury.

Passed.

PAYMENT TO MRS. SCHLEHUBER.

Coun. BRAND offered an order—That an annuity be paid to the widow of Frederick Schlehuber, formerly a member of the Police Department, who was killed in the discharge of his duty; the amount of said annuity, not exceeding \$300, to be determined by the Police Commissioner, to be paid from the appropriation for pensions, Police Department, in accordance with chapter 178, Acts of 1887.

The order was referred by the President to the Executive Committee.

Coun. BRAND—Mr. Chairman, I move a reconsideration of the reference.

Reference was reconsidered and the question came on the passage of the order.

Coun. KENNY—Mr. President, I shall ask that the matter be assigned until after the recess.

The order was declared assigned until after the recess. Coun. BRAND doubted the vote and asked for the yeas and nays.

The order was assigned, yeas 6, nays 2, Coun. Brand and Curley voting nay.

Later in the session the order was taken up, on motion of Coun. KENNY, who said:

Mr. President, I desire to say that I cheerfully indorse the position taken by Coun. Brand, and that I shall be very glad to unite with him in voting in favor of the order.

The order was passed.

RENT OF PLAYGROUND.

Coun. BRAND offered an order—That the Superintendent of Public Grounds be authorized to pay to the estate of Woodman Jones the sum of two hundred dollars for rent of land for playground on River street, Mattapan, for the year 1908, said amount to be charged to the appropriation for Public Grounds Department.

The order was assigned to the next meeting of the Council.

BATH HOUSE, FREEPORT STREET.

Coun. BRAND offered an order—That the Bath Department, through his Honor the Mayor, make an estimate of the cost of establishing a permanent bath house on Freeport street, at a point somewhere between the Boston Elevated Railway Company's power house and the ship yard on Union street, and submit same to this Council.

The order was read a second time, and the question came on its passage.

The order was passed.

SUBWAY, BAY STREET.

Coun. BRAND offered an order—That the Superintendent of Streets, through his Honor the Mayor, make an estimate of the cost of constructing a subway under the New York, New Haven & Hartford Railroad Company's tracks at the end of Bay street, making a public passageway through to Savin Hill Beach.

The question came on the passage of the order.

The order was passed.

SIDEWALKS, COLUMBIA ROAD.

Coun. COLLINS offered an order—That the Superintendent of Streets make sidewalks along the Eastman street side from Nos. 664 and 666 Columbia road, Ward 16; said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Passed.

LAYING OUT OF HIGHLAND AVENUE.

Coun. CURLEY offered an order—That the sum of forty thousand dollars (\$40,000) be appropriated, to be expended under the direction of the Street Commissioners for the taking, laying out and construction of Highland avenue, Ward 24, from Minot street to the tracks of the New York, New Haven & Hartford Railroad, in accordance

with the plan now on file, and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

The order was declared by the President referred to the Committee on Finance.

Coun. CURLEY—Mr. President, I am going to move reconsideration of that reference, and if it prevails I shall ask assignment for one week.

The Council voted to refuse reconsideration of reference to the Committee on Finance. Coun. Curley doubted the vote and asked for the yeas and nays. Reconsideration was refused, yeas 2, nays 5.

Yeas—Coun. Buckley, Curley—2.

Nays—Coun. Attridge, Ballantyne, Brand, Collins, Kenny—5.

REMOVAL OF EDGESTONES, DORCHESTER.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to remove the edgestones at the entrance to Holden street, off Humphreys street, Ward 20, Dorchester, to permit of free access to the street.

Passed.

SEWER, EAST COTTAGE STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to accept the sewer on East Cottage street, from Edward Everett square to Humphreys street, Ward 20, Dorchester.

Passed.

GAS LAMP, MILDRED STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to place a gas lamp on Mildred street, off Norfolk street, Ward 24, Dorchester.

Passed.

SIGN, MILDRED STREET.

Coun. BRAND offered an order—That the Superintendent of Streets place a sign on Mildred street, corner of Norfolk street, Ward 24, Dorchester.

Passed.

SIDEWALK, FLINT STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to construct a sidewalk on both sides of Flint street, from Norfolk street to Forest Avenue Station, under the provisions of chapter 137 of the Acts of 1893.

Passed.

BUILDING ON NORFOLK STREET.

Coun. BRAND offered an order—That in view of the loan order now pending before the City Council for the widening of Norfolk street, that the Building Commissioner be requested to refuse to grant any permits for the erection of any buildings out to the present street line, and to revoke any permits granted for the erection of such buildings, pending the passage of the loan order for the widening of said street.

The question came on passing the order.

The order was declared passed. Coun. KENNY doubted the vote and asked for the yeas and nays.

The order was rejected, yeas 2, nays 6; Coun. Brand and Curley voting yeas.

Coun. BRAND—Mr. President, I move a reconsideration, and if it is granted I shall ask that the matter be assigned to the next meeting so as to give the members of the Council an opportunity to inform themselves on the matter. I think they have voted under a misapprehension.

Reconsideration prevailed, and the order was assigned for one week.

RECESS TAKEN.

The Council voted at 4.45 o'clock p. m., on motion of Coun. ATTRIDGE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 5.53 p. m.

CONFIRMATION OF APPOINTMENTS.

The Council proceeded to take up Nos. 1, 2 and 3, unfinished business, viz.:

Action on appointments submitted by the Mayor on October 31, viz.:

1. Daniel P. Walker, to be Superintendent of the South Hay Scales for the term ending April 30, 1911 (in place of Maurice J. McCarthy who is no longer employed by the city).

2. Edward S. Van Steenberghe, to be a Constable of the City of Boston for the term ending

April 30, 1911 (to serve without bonds and in connection with the Massachusetts Society for the Prevention of Cruelty to Animals).

3. Charles Rabinovitch and Isaac Sacks, to be Weighers of Coal for the term ending April 30, 1911.

The question came on confirmation. Committee Coun. Curley and Brand.

Whole number of ballots cast 5, yeas 5, and the several appointments were confirmed.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on message of Mayor and letter (referred to-day) relative to memorial meeting in honor of the late Mrs. Julia Ward Howe, recommending that a committee be appointed to attend to the same.

Report accepted; said recommendation adopted. The President appointed as said committee Councilors Kenny, Attridge and Brand.

(2) Reports on petitions (severally referred to-day), for permits for children under 15 years of age to appear at various places of amusement, that permits be granted, viz:

Joseph Fitzgerald, for children to appear at Lyceum Hall on December 28.

Mrs. W. D. Cottan, for children to appear at M. E. Bethel Church on the evening of November 24.

Lotta A. Clark, for children to appear at the Arena Hall on the evenings of November 9, 10, 11 and 12.

May Josephine Bleakie, for children to appear at the Arena Hall on the evenings of November 10, 11, 12.

Mrs. Emily Kelly *et al.*, for children to appear at Pilgrim Hall on the evening of December 9.

Reports severally accepted; permits granted on the usual conditions.

(3) Report on message of Mayor, communications from Fire Commissioner and orders (referred to-day), relative to sale of metal composition and old junk, etc., that the order for the sale of old metal composition ought to pass, and recommending the passage of the order for the sale of old junk, castings, etc., in the following new draft:

Ordered, that the Fire Commissioner be, and hereby is, authorized to sell old junk, castings, etc., at public or private sale to the highest bidder, and that the proceeds of this sale be credited to the appropriation for the Fire Department.

Report accepted; orders passed, one in original form and the other in new draft as above.

(4) Report on message of Mayor and order (referred September 12), to transfer \$100 from Reserve Fund to appropriation for Mayor, office expenses, etc., for prize at Aviation Meet—that the order ought not to pass.

The question came on accepting the report.

Coun. CURLEY—Mr. President, I will move as an amendment to the report of the committee that the order be adopted.

The report was accepted, and the question came on the passage of the order.

Coun. COLLINS—Mr. President, I ask that the matter be assigned to one week from to-day in order that each member may look into the proposition.

Coun. CURLEY—I withdraw my motion. I think that suggestion is perfectly proper.

The order was assigned for one week.

ORDINANCES.

Coun. CURLEY, for the Committee on Ordinances, submitted a report on the message of Mayor and ordinance (referred September 19), creating a department of public works—that the same be rejected without prejudice.

Coun. ATTRIDGE submitted a minority report on the message of the Mayor and ordinance (referred September 19), creating a department of public works—recommending the passage of the ordinance in the following new draft:

ORDINANCE ESTABLISHING A DEPARTMENT OF PUBLIC WORKS.

City of Boston.

In the Year Nineteen Hundred and Ten.
An Ordinance Establishing a Department of Public Works and Abolishing the Engineering Department, the Street Department and the Water Department.

Be it ordained by the City Council of Boston, as follows:

Section 1. The department of public works which is hereby established shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession; who shall construct all streets and sewers; shall have discretionary power as to the grades, materials and other particulars of construction of streets, sidewalks and sewers; shall have charge of and keep clean and in good condition and repair the streets, all sewer systems under the control of the city and the catch-basins in the streets connected with the sewers; shall keep the streets properly watered; shall remove from yards and areas, when so placed as to be easily removed, all ashes accumulated from the burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal, and all noxious and refuse

substances; shall, on the fifteenth day of each month, send to the city auditor detailed bills of all material, tools and machinery furnished by either of the divisions of said department to any other such division or for any special work.

Sect. 2. Said commissioner shall have the care and management of the ferries owned by the city, shall purchase or build all boats, and make the necessary repairs and alterations on the slips, drops, buildings and boats used for ferry purposes; and shall cause all moneys received by him or his subordinates from tolls and other sources to be paid to the city collector on the day following the day of the receipt thereof, but may retain in the possession of the clerk to the deputy commissioner in charge of the division a sum not exceeding one thousand dollars for making change and for other purposes.

Sect. 3. Said commissioner shall have charge of all lamps established by the city council and maintained at the expense of the city, of all lamps set up in parks, parkways or public grounds and of all lamp-posts, posts or fixtures connected with such lamps, and shall set up and affix lamps in the streets shall have the care and custody of all city property hitherto in the possession of the street department or that shall hereafter be acquired for the purpose of street lighting, and shall maintain and keep the same in good repair.

Sect. 4. Said commissioner shall have the care and management of all bridges which are used as highways, and are in whole or in part under the charge of the city, and of so much of Harvard bridge and Prison Point bridge as are under the charge and control of the city; shall be the commissioner to act with another commissioner for the city of Cambridge, and as such commissioner shall have and exercise all the powers in relation to West Boston bridge and Craigie bridge conferred by chapter three hundred and two of the Acts of the year 1870: shall keep the railings and wearing surface in good order and shall remove all dirt, snow and ice from the sidewalks; shall keep all said bridges, or those parts thereof under his care, and the abutments, guards, draws and wharves thereof clean and in good condition and repair; shall appoint drawtenders for the draws in bridges of which he has the care, and see that they properly perform their duties and may remove them for such cause as he shall deem sufficient and shall assign in his order of removal. Each drawtender so appointed shall take charge by night and by day of the draw of which he is drawtender; shall require from the person in charge of a vessel applying to pass through the draw a true statement of the name, extreme width and draught of the vessel; shall determine the order in which vessels may pass through the draw, and may direct the placing of warping-lines, anchors and cables, and the use of any warping apparatus provided by the city; shall cause the draw to be opened for the passage of vessels in accordance with the regulations of the War Department approved May twelfth, 1910; shall cause the draw to be closed with all possible expedition after a vessel has passed through, not permitting more than one vessel to pass through at one opening of the draw, except that, when the draw is open and the bridge is free from persons desiring to cross, he may, in his discretion, permit other vessels to pass through before causing the draw to be closed; he shall perform such additional duties as said commissioner may require.

Sect. 5. Said commissioner shall place and maintain in one or more suitable, conspicuous places, to be selected by him, on each street of the city, the name of the street and of the ward in which the street is situated, as shown by the records; shall require the number of each building on a street which he shall designate as the street number therefor to be affixed to or inscribed on the building by the owner, and may determine the form, size and material of any such number and the place and mode of affixing or inscribing it.

Sect. 6. Said commissioner shall keep a book in which he shall record the date of every order for constructing a sewer, the name of the contractor or builder constructing it, the date of commencing and the date of completing the work, and the cost of the sewer. He shall make and deliver to the city collector all bills for assessments as they become due.

Sect. 7. Said commissioner shall keep a plan for every existing and every new sewer, showing its depth, breadth, mode of construction and general direction, and shall, from time to time, ascertain and insert on said plans all entries made into the sewers.

Sect. 8. Said commissioner shall, when about to build a new sewer or repair an old sewer, notify all abutters on that part of the line of said sewer when he proposes to do work, and afford them facilities for entering the sewer; and shall, when about to construct a new street, at least four weeks before beginning work, and, when about to make a new surface of any street, at least two weeks before beginning work, notify all departments and persons authorized to place any structure in such street, and require and see that all departments and persons having any work to be done in the streets so designated shall do all such work before the surface of such street is again prepared for and opened to public travel; and, after the completion of the work then done on such street, shall not, for the space of one year thereafter, permit any department or person to disturb the surface of such street or way within the area of such previous disturbance, except in case of obvious necessity, a record of which shall be made in a book to be kept for that purpose.

Sect. 9. Said commissioner may issue permits to persons having authority in the premises to open, occupy, obstruct and use portions of the streets, and should the portion of the street which has been so opened or used require repaving or resurfacing within a period of two years from the time it has been so used, the commissioner shall notify the person applying for the permit under authority of which the portion was so used to make such repairs as in the opinion of said commissioner are necessary, and in case of the failure of the said person to make such repairs within one week from the date of the said notification then the commissioner shall have the right to make such necessary repairs, and the expense of the same shall be paid by such person; all amounts received by the city collector for work done or materials furnished under notification of the commissioner as above authorized shall be placed to the credit and used as a part of the appropriation for the public works department. Every permit issued as aforesaid shall specify the time, place, size and use of such opening, occupation or obstruction, and the time within which the street must be put in good condition, and shall be on a condition the terms of which shall be those stated in chapter three, section twenty-one, of the Revised Ordinances of 1898, and in addition that the person applying for the permit shall place and maintain from the beginning of twilight, through the whole of every night, over or near the place so occupied, opened, obstructed or used, and over or near any dirt, gravel or other material placed in or near such place, a light or lights sufficient to protect travelers from injury; shall place and maintain a safe and convenient way for the use of foot travelers and for vehicles around or over such place; shall protect such trees as shall be designated by the superintendent of public grounds in such manner as he shall specify; shall provide suitable sanitary accommodations for his employees; shall, if he does not, within the time prescribed by said commissioner, put the street into good condition satisfactory to said commissioner, pay whatever sum the said commissioner shall expend for putting it into such condition; and shall deliver up the permit to an officer of the police force of said city on or before the expiration of the time fixed in the permit for completing the work, such permit to be returned by said officer to the public works department; said commissioner may, in addition to said specifications, specify in the permit, or after the issuing thereof, in writing, the kind of rail or fence to inclose the place, and the kind of way over or around such place, and the manner of constructing the same. If such a permit is issued to a public service corporation said commissioner shall detail an inspector to supervise said opening, occupation and use; said inspector shall see that the back-filling is properly done and the surface repaved or resurfaced to the satisfaction of the commissioner, and a bill shall be deposited monthly with the city collector against the corporations whose work has been inspected for the wages or salaries of said inspectors; all moneys received by the city collector for such inspection as above authorized shall be placed to the credit and used as a part of the appropriation for the public works department.

Sect. 10. Said commissioner may issue such a permit to competent mechanics for the purpose of entering particular drains into public drains and sewers, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall make connection of the said drain with the said sewer only in the manner shown on the back of said permit, and only in the presence of an inspector of the sewer division; shall have on the ground, when the inspector arrives to see the connection made, any slant, bend or curve to be used in making the connection; shall not cover up any work until inspected by one of said inspectors; shall not lay the drain in the same trench with a water pipe; shall not connect any exhaust from a steam engine, any blow-off from a steam boiler, or any other pipe for delivering steam or hot water, with the drain or sewer; shall when he receives any pipe from the public works department in exchange for other pipe, return such other pipe to the yard of the public works department within twenty-four hours after receiving such exchange. Said commissioner shall in each drain permit specify the size, material and mode of construction of the particular drain, and the direction and grade for laying it, but before issuing the permit for entering the drain into a particular public sewer from land upon which a sewer assessment has not been paid he shall be paid for the city an assessment of two cents per square foot for all land in the estate from which the entry is made within one hundred feet of the street or strip of land in which the sewer or particular drain is laid.

Sect. 11. Said commissioner may issue such a permit to a responsible person for the purpose of raising and lowering goods and merchandise into and from buildings, on a condition the terms of which shall be those stated in chapter three, section twenty-one, of the Revised Ordinances of 1898, and in addition, that the person applying for the permit shall maintain, during the whole time the work is in progress, good and sufficient barriers across the sidewalk, from the wall of the building to or from which the goods or merchandise are so raised, out to the curbstone or edge of the sidewalk, on each side of said goods or merchandise, sufficient to protect travellers from injury or danger; and that he will not encumber the sidewalk for more than fifteen minutes at a time for such work.

Sect. 12. Said commissioner shall issue such a permit to any person authorized by the street commissioners to place a coal hole, vault or coal slide under a street, or a cover thereon, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall make the underground structure of suitable construction satisfactory to the commissioner, shall pay such fee as may be described by ordinance, and shall make the opening of a coal hole or coal slide circular, and not more than eighteen inches in diameter, and furnish a cover therefor of iron, made with a rough upper surface, and with three or more iron rods or legs at least two feet in length, fitting closely to the side of the opening, and projecting downwards from the underside of the cover, and so constructed that while the cover can be lifted perpendicularly, it cannot be tipped or easily removed from the opening.

Sect. 13. Said commissioner shall, when authorized thereto by the street commissioners, issue such a permit to a building mover actually engaged in the business, for the purpose of moving a building through the streets, on a condition the terms of which shall be those stated in section nine of this ordinance; provided, that an application for such permit, describing the locations from and to which, and the route over which, the building is to be moved, the length, width and height of the building, and the principal material of its exterior and roof, and accompanied by the written consent of the building commissioner to the placing of the building on the lot proposed, shall be first made to said commissioner who shall make an examination of the premises, and report thereon to the street commissioners for their action. Whenever it appears that the moving of a building will encumber the tracks of any railroad corporation, a public hearing shall be given by the street commissioners upon the subject before such permit is authorized.

Sect. 14. Said commissioner shall, when, authorized thereto, by an order of the street commissioners, issue such a permit to a responsible person, for the purpose of laying, maintaining and using wires, railway tracks or rails in the streets, or wires, pipes or conduits under the surface thereof, on a condition the terms of which shall be those stated in section nine of this ordinance, and in addition that the person applying for the permit shall, whenever requested so to do by the mayor, furnish in his conduits for wires accommodations free of charge for all wires belonging to, or to be used by, the city; shall remove the conduits and wires whenever directed, and not until directed, so to do by an order of the street commissioners, approved by the mayor, and shall not disturb or interfere with any wires, pipes, or sewers lawfully laid in such street or connected therewith.

Sect. 15. Said commissioner shall, when authorized thereto by an order of the street commissioners, issue such a permit to a responsible person for the purpose of placing and maintaining in the streets poles for the support of wires, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall keep said poles well painted and in good condition, to the satisfaction of the commissioner; shall place the wires on said poles not less than twenty-five feet from the ground; shall keep the name of the person owning the pole distinctly painted on the crossbars used and occupied by him on the pole, and also on the pole at a point not less than six feet nor more than eight feet from the ground; shall allow the departments of the city the exclusive use of the upper crossbar and top of each pole, free of all charge, for the purpose of placing wires thereon shall not suffer or permit any other person to place or keep wires on said poles, or upon the fixtures thereto affixed, without permission being first obtained in writing from the street commissioners; shall not remove any pole erected under this order until, and shall remove any pole when, directed by the street commissioners so to do; and that on the violation of any term of these conditions the said commissioner shall remove the poles at the expense of the person owning them.

Sect. 16. Said commissioner, before he delivers any such permit to any person for the applicant therefor, shall have received from such person a certificate that a copy of the permit, entered in a book kept for the purpose, is a correct copy of the permit he receives, and the applicant, unless an employee of the city applying for a permit for public work, shall have given a bond, in the case of permits under sections nine, ten, eleven and twelve of this ordinance, of one thousand dollars, under section thirteen of this ordinance of three thousand dollars, and under sections fourteen and fifteen of this ordinance, of twenty thousand dollars, each bond, with one or more sureties satisfactory to said commissioner, conditioned to the faithful observance of the conditions and specifications of each and every permit thereafter issued on his application by the commissioner; and said commissioner may at any time require a new bond, which shall be considered a strengthening bond, unless the sureties on the former bond or bonds are expressly released from their liability by vote of the city council. No bond shall be required of any person to open a public street for the purpose of planting a tree therein if said person has been duly authorized by the proper municipal authorities to plant trees in said highways.

Sect. 17. Said commissioner shall not issue any such permit to a person who has within twelve

months previous to his application violated or failed to observe the conditions or specifications of any such permit; but the issuing of such permits and the opening, occupation, obstruction and the use of portions of streets, and the making and maintaining of coal holes, vaults and other permanent excavations under the surface of streets, and their covers, shall be subject to any permission, control, regulation, restriction or revocation which the street commissioners may make.

Sect. 18. Every owner of an estate hereafter maintaining any cellar, vault, coal hole or other excavation under the part of the street adjacent to, or which is a part of, his estate, shall do so only on condition that such maintenance shall be considered as an agreement on his part to hold the city harmless from any claims for damage to himself or the occupants of said estate resulting from gas, sewage or water leaking into such excavation or upon such estate; and every such owner, and every person maintaining a post, pole or other structure in a street, or a wire, pipe, conduit or other structure under a street, shall do so only on the condition that such maintenance shall be considered as an agreement on his part with the city to keep the same and the covers thereof in good repair and condition at all times during his ownership, and to indemnify and save harmless the city against any and all damages, costs, expenses or compensation which it may sustain or be required to pay, by reason of such excavation or structure being under or in the street, or being out of repair during his ownership, or by reason of any cover of the same being out of repair or unfastened during his ownership.

Sect. 19. Said commissioner shall require every person who maintains an entrance on a level with, or below, or a flight of steps descending immediately from, or near, the line of the street, and which is not otherwise safely guarded to the satisfaction of said commissioner, to enclose such entrance or steps with a permanent iron railing on each side, at least three feet high from the top of the sidewalk or pavement, and to provide the same with a gate opening inwardly, or two iron chains across the entrance way, one near the top and the other half way from the ground to the top of the railing, and to keep said gates or chains closed during the night, unless the entrance or steps are sufficiently lighted to prevent accident.

Sect. 20. Said commissioner shall keep a record of the notices of defects in streets sent to him, with the name of the person giving the notice and the time when given, and he shall without delay cause the locality of the alleged defect to be examined, and, if the defect is of such a character as to endanger the safety of public travel, shall do whatever may be necessary to protect the public from injury by the defect, and cause it to be immediately repaired.

Sect. 21. Said commissioner shall in his annual report, include a statement of the repairs and expenditures on each street and on each bridge under his charge; of the number of times each draw of a bridge has been opened for the passage of vessels; of the number of vessels laden with cargo that have passed through each draw; of the condition of each ferryboat, slip, drop, tank and building used for ferry purposes, and of the repairs and expenditures on each; and of the number of persons and teams of different classes that have passed over each ferry during the year.

Sect. 22. The commissioner shall have the care and control of all property acquired or held by the city for the purposes of its water supply; shall maintain the same in good order and condition; shall use and operate the same, and furnish all supplies required therefor; shall take all measures necessary to protect and preserve the purity of the water; shall purchase, lay, maintain and test all meters, pipes and other fixtures and appliances necessary for supplying water for the inhabitants of the city, including the placing of drinking fountains and supplying the same with cold water; shall, as often at least as once in each year, cause the premises of every person who takes water to be visited, and the water fixtures therein to be examined by a skilled inspector; shall shut the water off from, and let it on to, any particular service when notified by the city collector that the water rate therefor has not, or has, been paid, and at such other times as he deems it necessary; shall exercise a constant supervision over the use of water, and, with the approval of the mayor, shall, from time to time, determine and establish the rates for the use of water.

Sect. 23. Said commissioner shall make contracts, issue bills for the use of water, and send the bills to the city collector; shall make abatements of charges for water where improperly assessed; shall provide that all bills for water by annual rates shall be due in advance on the first day of January of each year, and be paid within sixty days thereafter; that all bills for fractional parts of a year, or for specific supplies, shall be due when the water is let on or delivered, and be paid within ten days thereafter; that all bills for water furnished and measured by meter shall never be less than eight (8) dollars per year, shall be due on the first day of January, April, July and October, and shall be paid within ten days thereafter; shall, if the water is paid for by annual rates and two or more dwelling houses are valued together for the assessment of taxes, make separate valuations of each; and shall, when a portion only of an estate is chargeable for the water, make a separate valuation of such portion, and on such valuations the amounts to be paid, if based on values, shall be assessed.

Sect. 24. Said commissioner shall designate one

of his subordinates to be the head of the water income division, who shall receive all moneys deposited on account of main, service, fire, elevator, motor and other pipes and the laying thereof, and for repair work; who shall give a receipt in behalf of the city therefor; and who shall pay, from the moneys so received, the amount found by him to be due the person paying any such money, as excess over the amount due the city, and, on or before the fifth day of every month, pay over the moneys in his possession due the city, and account for all moneys so received by him since the last accounting, as provided in chapter three, section eighteen, of the Revised Ordinances of 1898.

Sect. 25. Said commissioner shall, from time to time, as he deems necessary, apply, remove and test water meters and maintain the same in good condition; shall record, in a book kept for the purpose, a statement of the style, size, number of each meter, date when purchased, location, date when set, reading at such date, date when taken out, the reason therefor, the reading at such date, a detailed statement of test and percentage of error shown, and the reading and date when reset; also a description of all defects and repairs of such meters.

Sect. 26. Said commissioner, whenever the water has been shut off from any premises because the bill for water has not been paid, and there is a change in the occupancy of said premises, may let the water on again without waiting for the payment of the amount due from any former occupant. In case of contracts for specific supplies he shall shut the water off as soon as the contract has been carried out; the foregoing provisions shall apply when two or more parties take water from the same service pipe, although one or more may have paid the amount due from him or them.

Sect. 27. Said commissioner shall keep suitable books, in which shall be entered the names of all persons who take water, the kind of building in which it is taken, the name of the street, and the number thereon, the nature of the use, the number of taps, and the rate assessed.

Sect. 28. Said commissioner shall, in his annual report, include a statement of the number of water takers and the purposes for which the water is taken, the number and kind of meters applied during the previous municipal year, the number and kind of meters in use, the number of cases where the water has been shut off, and the number and amount of abatements which have been made during the preceding municipal year.

Sect. 29. Said commissioner shall cause the following regulations to be printed on every bill for water, which shall constitute a part of the contract with every taker of water furnished by the city.

Regulations.

1. Every water taker shall pay the rates for water furnished on his application within the time and at the place specified in the bills therefor; shall, at his own expense, keep the service pipes within his premises, including any area or vault beneath the sidewalk, in good order and repair and protected from frost; shall not allow the water to leak away or run to waste; shall not — unless he pays the rates established therefor, or takes water by meter rates — use water from a hose; shall not use water from a hose in any case, except during such days and hours and in such manner as the commissioner of public works may from time to time specify; shall not make any change in the pipes or water fixtures under the street or within his premises, unless such change is approved by the said commissioner; shall not conceal the purpose for which the water is used; shall allow the said commissioner and persons authorized by him to enter the premises supplied with water, examine the fixtures, and ascertain the quantity of water used, the manner of use, and whether there is unnecessary waste; and shall indemnify the city for all damages it may sustain or be required to pay in consequence of any injury resulting from any violation of these regulations by the water taker.

2. Every water taker must stop the use of water for any purpose when required to do so by the commissioner of public works and must guard against collapse of a boiler and other injuries liable to result from want of water, as the water is liable to be shut off at any time without notice.

3. No water taker shall, except in accordance with a written permit from the commissioner of public works, or in case of fire in the neighborhood, allow water to be taken from his premises or use water for any purpose other than those for which he pays, or open any hydrant attached to the water pipes of the city.

4. No water taker shall demand or be entitled to any abatement of his water rates for any year on account of the premises being vacated, unless they are vacated before the first day of January, and notice thereof is given to the commissioner of public works before the first day of February of such year; nor shall any water taker demand or be entitled to any abatement of rates, compensation, or damage on account of the shutting off, or the stopping of the use, of water for any cause.

5. The commissioner of public works shall equip with water meters all new services installed, and shall also, in accordance with the provisions of chapter five hundred twenty-four of the Acts of 1907, as amended by chapter one hundred seventy-seven of the Acts of 1909, annually equip with water meters at least five per cent of the water services which were unmetered on December thirty-first, 1907; shall, if a water taker refuses to allow a water meter to be placed on his premises,

cause the water to be shut off from the same; may, without notice, cause the water to be shut off from any premises, or require the use of water for any purpose designated by him to be stopped; and may if any water taker, whether supplied through an independent service pipe or a service pipe used in common with another, violates any of these regulations, cause the water to be shut off from all premises supplied by such pipe until satisfied that the regulations will be observed and all amounts due for water have been paid to the city collector, together with such further sum, not exceeding ten dollars, as said collector may require.

Sect. 30. Said commissioner shall have full charge of all engineering work of every nature and description upon and connected with all public works, unless otherwise provided for by statute, and of the laying out and construction of all public improvements except the laying out, locating anew, altering, widening and discontinuing of highways; and shall make such surveys, plans, estimates, statements, descriptions and specifications as are required or requested for the carrying out of any public work by any official or board in charge of any department of the city in the discharge of the duties of such department, or by the mayor, city council or any committee thereof.

Sect. 31. Said commissioner shall by himself or by his duly authorized agents inspect and measure all public work done under his direction by any department by contract or otherwise, and the city auditor, in case any bill or estimate for such work is presented to said city auditor for allowance, may require from said commissioner a certificate of such bill or estimate stating if the materials have been furnished or the work done in accordance with proper engineering standards, or in accordance with the terms of the contract for said work.

Sect. 32. Said commissioner shall have authority to order any public work, whether done by a department or under contract or otherwise, to be discontinued, reconstructed or removed, whenever in his opinion said work fails in any manner to comply with or fulfill the terms, conditions, specifications and requirements of any such contract or agreement, or fails in his opinion to conform with proper engineering standards.

Sect. 33. Any expense incurred by said commissioner in carrying out any of the provisions of this ordinance except as provided for by the appropriation for the department of public works shall be charged to the several appropriations under which the works are authorized or paid for, upon requisition of the said commissioner.

New Sections.

Sect. 34. Section five of chapter three of the Revised Ordinances of 1898 is hereby amended by striking out the following words: "the city engineer, six thousand dollars; the water commissioner, five thousand dollars; the superintendent of streets, seven thousand five hundred dollars," and by inserting the words, "the commissioner of public works, nine thousand dollars, he to receive no other fees or emoluments."

Sect. 35. The commissioner may create such divisions of the department as he may find necessary for the proper conduct of the department. Each division of the department created or changed by said commissioner with the exception of the water income division shall be in charge of a civil engineer of recognized standing in his profession and an expert in the duties which may devolve upon him, such division engineer to be appointed without regard to party affiliations or residence at the time of appointment, each head of a division to devote his whole time to the work and to receive an annual salary of not more than five thousand dollars with no other fees or emoluments.

Sect. 36. In appointing an engineer to take charge of a division of the department the commissioner shall certify that he is a civil engineer of recognized standing in the profession, that in the commissioner's opinion he is an expert in the work which would devolve upon him, that he is a person specially fitted by education, training or experience to perform the duties which may devolve upon him, and that the appointment is made solely in the interest of the city,—this certificate to be filed with the city clerk and open to public inspection.

Sect. 37. All materials and supplies for the department of public works shall be purchased by the Supply Department on requisition of the commissioner.

Sect. 38. Chapters sixteen and forty-two of the Revised Ordinances of 1898, chapter three of the Ordinances of 1908, chapter seven of the Ordinances of 1910 and all ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed.

Sect. 39. This ordinance shall take effect on February first, 1911.

Coun. ATTRIDGE moved the adoption of the minority report and recommendations.

Coun. BRAND—Mr. President, I think that every member of the Council is impressed with the importance of this proposed ordinance, consolidating departments. Personally I think it is a step in the right direction, but I don't think that the ordinance in its present form should be adopted. We have been considering for the last two, four or five weeks the ordinance which I have here in printed form, and in going over the various sections we find that it is very imperfect, so much so that within the last few days it has been necessary to correct a great many inaccuracies, make substitutions in some cases and strike out in other cases. It seems to me a most unwise thing to undertake to pass

such an important ordinance as this without giving it further consideration. I would call your attention, Mr. President, to the piece of patchwork which I hold in my hand. If any sane man would like to go on record as passing an ordinance in that form, I should like to have him rise and be counted. The longer we consider it the more imperfections we discover, and it is so far from being what it should be that a majority of the Committee on Ordinances decided that it would be better to report back "Ought not to pass without prejudice" rather than place such an ordinance on our books in the City of Boston. In making this report the committee feels that the matter may well be considered again by the Corporation Council, by this Council and the Superintendent of Streets, amendments and corrections being made where necessary, and submitted in a new draft for our consideration. Therefore, I hope the minority report offered by Coun. Attridge will not be adopted. I believe it is a good thing to consolidate the Water Department and the Street Department but I am not prepared to say that it is a proper thing to substitute engineers as heads of the different divisions. I am not prepared to say that a commissioner of public works who is an engineer is not sufficient. If he is a high class engineer, as I believe the one proposed is, I believe he is capable of attending to the engineering duties and directing the work of this great city. Again, I think we ought to go a step farther in creating this important department. I believe that the Street Commissioners should be incorporated in this ordinance, after we receive permission from the Legislature to do so, but that is a matter we will have to take up a little later. There is ample time for us to consider a new draft of the ordinance between now and next February. For one, I feel like making this explanation to the Council as a member on the Committee on Ordinances and I certainly hope no hasty action will be taken.

Coun. BUCKLEY—Mr. President, I present an ordinance which I should like to have printed, and I move that a special meeting of the City Council be called for Wednesday afternoon at three o'clock to consider the matter.

(Coun. Buckley's amendment to the ordinance as submitted to the Council and referred to the Committee on Ordinances, September 19, provided that, instead of one commissioner of public works there should be a board of three members, one of whom should be a civil engineer of recognized standing in his profession; that in all cases where the ordinance provided that the commissioner should have charge of certain work, it should read instead that the Board should have such charge; that instead of the commissioner acting with another commissioner for the city of Cambridge in regard to the bridges to Cambridge, the Board should designate one of its members to so act; and that the chairman of the said Board should have a salary of \$7,500, and the associate commissioners \$6,000 each.)

Coun. KENNY—Mr. President, I move that the amendment offered by the councilor from Charlestown lie on the table.

The motion to lay Coun. Buckley's substitute on the table was declared lost. Coun. KENNY doubted the vote and asked for the yeas and nays. Coun. Buckley's substitute was laid on the table, yeas 4, nays 3.

Yeas—Coun. Attridge, Ballantyne, Collins, Kenny—4.

Nays—Coun. Brand, Buckley, Curley—3.

Coun. BUCKLEY—Mr. President, I move a reconsideration of the vote just taken whereby my amendment was laid on the table.

Reconsideration of the vote to lay Coun. Buckley's substitute on the table was declared lost. Coun. BUCKLEY doubted the vote and asked for the yeas and nays.

Reconsideration was refused, yeas 3, nays 5: Yeas—Coun. Brand, Buckley, Curley—3.

Nays—Coun. Attridge, Ballantyne, Collins, Kenny, McDonald—5.

The amended ordinance, as submitted by Coun. Attridge for the minority of the committee was declared adopted. Coun. CURLEY doubted the vote and asked for the yeas and nays.

The amended ordinance was adopted, yeas 5, nays 3.

Yeas—Coun. Attridge, Ballantyne, Collins, Kenny, McDonald—5.

Nays—Coun. Brand, Buckley, Curley—3.

Later in the session Coun. BRAND said:

Mr. President, I want to move reconsideration of the passage of the order submitted by the minority of the Committee on Ordinances, whereby you voted to establish a commission of public works.

Coun. KENNY—Mr. Chairman, I move that the motion of the gentleman from Dorchester lie on the table.

Coun. KENNY's motion was declared carried.

Coun. BRAND—Mr. President, I doubt the vote. I would say—

Coun. KENNY—Mr. President, I rise to a point of order, that pending verification of the vote no further remarks are in order.

Pres. BALLANTYNE—The point of order is well taken.

Coun. KENNY's motion to lay on the table Coun. Brand's motion was carried, yeas 5, nays 1:

Yeas—Coun. Attridge, Ballantyne, Collins, Kenny, McDonald—5.

Nays—Coun. Brand—1.

Coun. BRAND—Mr. President, I move a reconsideration of the vote just taken, and on that motion I would simply like to say this—

Pres. BALLANTYNE—The Chair will rule that the councilor is out of order.

Coun. BRAND—Mr. President, I move a reconsideration of the vote just taken, whereby my motion was tabled.

Pres. BALLANTYNE—The question is on reconsideration.

Coun. Brand's motion to reconsider was lost.

GENERAL RECONSIDERATION.

On motion of Coun. COLLINS, the Council refused a general reconsideration of all action taken to-day.

The Council voted, on motion of Coun. COLLINS, to meet on Monday, November 21, at 3 p. m., unless sooner called together by the Chair.

Adjourned, on motion of Coun. COLLINS, at 6.36 p. m.

EXCESS CONDEMNATION.

One of the big questions just ahead of us in the development of cities is the matter of excess condemnation. It is an issue that presently will show in politics, in law making and in law interpretation. First comes the moral question: Is it right that cities should be given the power to condemn land in excess of actual use in cases where this land will be increased in value by a proposed municipal improvement; then the question of law making—can we secure legislation of that sort; and third the matter of law interpretation—have we not already that power through a broader interpretation of the law of eminent domain? When American cities get through with the struggle for good government, when they have succeeded in putting the political house in order, they will look about for other worlds to conquer, and one of these is civic beauty. To open and widen narrow streets into stately boulevards, to create parks where slums now fester, to reclaim water fronts for pleasure grounds, to reduce congestion and let in light and air on the homes of the people—all these things cost money, more money than will come by any current process of taxation. English and German cities do these things without cost, by the simple process of excess condemnation. As widening and beautifying a street creates new values, the city condemns enough of the land that is affected by the change to pay, when it is resold, for the expense of the improvement. This is the only process by which the slum districts of a city can be cleaned up. They can be bettered, slowly and in a limited degree, by ordinary legislation; but they can be permanently made over only by condemnation, rebuilding and resale.

BONDS FAIL TO SELL.

New Orleans is planning a general sanitary overhauling which calls for a new sewerage and drainage system to be built at a cost of \$7,000,000. The city offered bonds to that amount, but got no takers. There was a good deal of feeling shown against the local banks which seemed to take very little interest in the matter. Now it is proposed to issue short time debentures at a higher rate of interest.

Asphalt is not used in the paving of Rome in the sense in which it is understood in the United States, according to Consul Chapman Coleman. A thin layer of an asphalt mixture is sometimes applied to the surface of macadam roads to keep down the dust. Most of the streets are paved with stone, either in the form of blocks or cobbles. Compressed asphalt plates are much used for paving stables, driveways into buildings, courtyards, etc.—Good Roads.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, NOVEMBER 26, 1910.

No. 48

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

Sullivan, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; Patrick Farry, teamster, $\frac{3}{4}$ day at \$2.25, \$1.69; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, $1\frac{1}{2}$ days at \$2.75, \$4.81; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, $1\frac{1}{2}$ days at \$2.25, \$3.09; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; John McLaughlin, laborer, $1\frac{1}{2}$ days at \$2.25, \$1.83; Patrick Lonergan, pipe-layer, $\frac{3}{2}$ days at \$2.50, \$0.70; Joseph T. Ryan, plumber, $1\frac{1}{2}$ days at \$3, \$3.75; John J. Welch, plumber's helper, $1\frac{1}{2}$ days at \$2.25, \$3.66; Richard P. Collins, inspector, $1\frac{1}{2}$ days at \$2.75, \$5.16; Michael C. Sullivan, plumber, $\frac{1}{2}$ day at \$2.50, \$1.25; Martin Dunlap, plumber's helper, $\frac{1}{2}$ day at \$2.25, \$1.13; Jeremiah P. Scanlon, plumber's helper, 1 day at \$2.75, \$2.75; Hugh Campbell, repairer, 1 day at \$2.50, \$2.50; Michael F. Daly, 2d,

* One day omitted week of November 10, 1910.

laborer, 1 day at \$2.25, \$2.25; Patrick C. Waters, laborer, 1 day at \$2.25, \$2.25; Isaac Saperstein, repairer, $\frac{3}{4}$ day at \$2.50, \$2.27; Michael Mulloy, laborer, $\frac{3}{4}$ day at \$2.25, \$2.04; William Lonergan, laborer, $\frac{1}{2}$ day at \$2.25, \$2.04; Alessandro Iula, laborer, $\frac{3}{4}$ day at \$2.25, \$2.04; James F. Black, pipelayer, 1 day at \$2.50, \$2.50; John D. Porter, pipelayer, $\frac{1}{2}$ day at \$2.50, \$3.59; Charles Quigley, laborer, 1 day at \$2.25, \$2.25; Robert J. Doyle, plumber, $\frac{1}{2}$ day at \$3, \$2.25; Timothy F. Murphy, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Patrick J. Kelly, inspector, $3\frac{1}{2}$ days at \$2.95, \$9.40; John Sullivan, 1st, machinist, $\frac{1}{2}$ day at \$2.75, \$1.20; Martin Toomey, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Patrick Fallon, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Michael Durand, foreman, $\frac{1}{2}$ day at \$3, \$1.31; Martin Burke, pipelayer, $\frac{1}{2}$ day at \$2.50, \$1.09; John J. Gallagher, pipelayer, $\frac{1}{2}$ day at \$2.50, \$1.09; John J. Barry, repairer, $\frac{3}{4}$ day at \$2.50, \$0.94; Daniel O'Brien, pipelayer, $\frac{1}{2}$ day at \$2.50, \$0.63; John Concannon, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Patrick Sheedy, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Mathew Brennan, inspector, $1\frac{1}{2}$ days at \$3, \$4.50; John McNulty, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.66; John Cummings, repairer, $1\frac{1}{2}$ days at \$2.75, \$4.98.

Water Department (Income Division).

For the week ending Thursday, November 17, 1910:

J. J. Callahan, laborer, $\frac{1}{2}$ day at \$2.50, \$2.34; P. J. Clougherty, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.98; R. J. Connorton, tester, 1 day at \$2.50, \$2.50; J. H. Cullen, plumber, $\frac{1}{2}$ day at \$3, \$1.50; M. J. Dinneen, laborer, $\frac{1}{2}$ day at \$2.25, \$1.27; T. J. Dolan, plumber, $\frac{1}{2}$ day at \$3, \$1.69; P. F. Gately, plumber, $2\frac{1}{2}$ days at \$2.75, \$5.59; E. H. Gilmore, tester, $\frac{1}{2}$ day at \$2.50, \$0.63; O. J. Gilloon, plumber, $1\frac{1}{2}$ days at \$3, \$4.31; P. Ippolito, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; M. M. Kenney, laborer, $2\frac{1}{2}$ days at \$2.25, \$4.57; F. B. Lang, tester, $1\frac{1}{2}$ days at \$2.50, \$2.97; Edmund Mahoney, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.77; J. J. Mahoney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas McAuliffe, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; F. McCarthy, laborer, 1 day at \$2.50, \$2.50; M. M. McGrath, laborer, 1 day at \$2.25, \$2.25; M. Mulkern, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; J. H. O'Brien, laborer, $1\frac{1}{2}$ days at \$2.25, \$1.55; Joseph Rice, tester, 1 day at \$2.50, \$2.50; J. J. Roche, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.23; D. J. Rull, Jr., plumber, $\frac{1}{2}$ day at \$3, \$2.81; P. A. Russell, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.88; J. J. Shea, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; D. Sullivan, laborer, $1\frac{1}{2}$ days at \$2.25, \$4.08; J. Sullivan, laborer, 1 day at \$2.25, \$2.25; T. J. Sullivan, plumber, $1\frac{1}{2}$ days at \$3, \$3.38; J. E. Tierney, machinist, $\frac{1}{2}$ day at \$3, \$1.50; M. P. Welch, plumber, $1\frac{1}{2}$ days at \$2.75, \$4.98; Dennis Lynch, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending November 24, 1910:

STREET DEPARTMENT (Sewer Division).

On November 23 the Mayor approved a contract with Antony Cefalo for constructing pipe drains in Emmons road and Howitt road, West Roxbury. Bids on this work, opened November 21, were as follows:

Mark H. Lynch, \$3,585.40; West Rox-

bury Trap Rock Company, \$3,186.70; J. B. O'Rourke & Co., \$3,783.60; Dan DePetro, \$3,018.65; Charles J. Jacobs & Co., \$3,285.30; Murphy & Dolan, \$3,168.89; T. H. Connolly, \$3,431.15; John McCourt & Co., \$4,149.30; Antony Cefalo, \$2,817.15.

Estimated quantities: 5 cubic yards earth excavation, below grade; 5 cubic yards earth excavation, above grade; 60 cubic yards rock; 5 cubic yards gravel; 3 M. feet lumber; 500 M. feet lumber; 350 linear feet 6-inch pipe; 250 linear feet 20-inch D. T. pipe; 531 linear feet 18-inch D. T. pipe; 223 linear feet 15-inch pipe; 220 linear feet 12-inch pipe; 380 linear feet 10-inch pipe; 46 linear feet 6-inch pipe; 6 linear feet relaying existing drains; 10 linear feet relaying outside of trench; 2 cubic yards concrete; 6 manholes built; 2 special manholes built; 1 invert rebuilt. Discount of 63 per cent on \$1,135 worth of pipe. Discount of 60 per cent on \$1,775 worth of pipe. Engineer's estimate, \$3,583.70.

A contract has been awarded to R. Cartullo for the construction of a sewer in Edgewater drive, from Tokio street to Tesla street, Dorchester. Bids on this work, opened November 21, were as follows:

Joseph B. O'Rourke & Co., \$761.85; Charles J. Jacobs Company, \$628.48; R. Cartullo, \$551.15; John McCourt & Co., \$946.60; Antony Cefalo, \$613.22.

Estimate of quantities:

Ten cubic yards earth excavation, below grade; 5 cubic yards earth excavation, above grade; 5 cubic yards rock excavation; 10 cubic yards gravel; 3 M. feet B. M. spruce lumber for sheeting; 2 M. feet B. M. spruce lumber for platforms; 200 linear feet 6-inch pipe underdrain; 200 linear feet 12-inch pipe sewer; 15 cubic yards concrete; one manhole; one invert and walls rebuilt; discount of 65 per cent on \$291 worth of pipe.

Engineer's estimate, \$773.37.

WITHOUT ADVERTISING.

HOSPITAL DEPARTMENT.

The Mayor has approved a contract, made without advertising, with the New England Telephone and Telegraph Company for telephone cables, connections and boxes needed for changes in wiring at City Hospital. The cost to be \$1,275 as an outside price, with the understanding that if the work can be done for less the hospital shall receive the benefit.

This contract takes the place of a deduction made on contract with the M. B. Foster Electric Company. Bids were received from the M. B. Foster Electric Company and the New England Telephone and Telegraph Company, that of the M. B. Foster Company being \$1,575 and the New England Telephone and Telegraph Company, \$1,275.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved the following contracts for carpentry, painting, masonry, heating and plumbing at the elementary schoolhouse, Warren District; work to be performed by the day and bills to be rendered for stock and labor:

William Mahoney, moving old ell, building new partitions, new steps, new fence, building fire escape in rear, cutting for and installing new frames and sashes, repairing blinds, shingling roof, cutting for plumbers, etc. Cost not to exceed \$1,600.

John D. Henchey, painting. Cost not to exceed \$1,500.

James J. Brock, taking down chimneys,

excavating for and installing new drains, building manholes, building boiler pit, grading yard, etc. Cost not to exceed \$800.

James P. Dwyer, altering heating and ventilating system. Cost not to exceed \$850.

Fred F. Ryan, altering plumbing system. Cost not to exceed \$600.

"The building is an old one, and unless considerable time were spent in drawing plans and specifications satisfactory estimates by advertising could not be obtained. In a building of this sort, when the tearing out process and alteration work commences, it is almost impossible to decide just where to stop, and by pursuing the above method the Board considers that the city's interests can be more fully protected.

CHARLES LOGUE,
Chairman."

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

HOSPITAL DEPARTMENT.

A deduction, amounting to \$1,300, on contract with the M. B. Foster Electric Company for changes in electric wiring at City Hospital, on account of omission of telephone cables, boxes and connections. Original contract, \$9,967; total deductions, \$1,300; contract as standing, \$8,667.

SCHOOLHOUSE DEPARTMENT.

A deduction, amounting to \$25, on contract with the Godfrey Specialty Company for the addition to Dorchester High School, on account of omission of program machine. Original contract, \$5,889.17; total additions, \$161.08; total deductions, \$1,287.57; contract as standing, \$4,762.68.

PETITIONS GRANTED.

The following petitions, granted by the Board of Street Commissioners, have been approved by the Mayor:

Signs.—H. R. Ovenden, 198 Clarendon street; Jennie H. Summer, 1932 Centre street; J. Harvey Young, Trustee, 9-11 Paul street; E. J. Morse, 108 Topliff street; Myer Harris, 170 Hanover street; H. L. Smith, 447 Blue Hill avenue; Mike Barasi, 239 Dover street; Frank A. Casertane, 1814 Washington street; Matthew Sheehan Company, 17 Beach street; Harry Berman, 104 Leverett street; Barney Dinkin, 134 Pembroke street; Adolph Zaino, 348 Hanover street; Adis-Adie Company, 615 Washington street; Samuel Taefnear, 11 Ashland street, Ward 8.

Illuminated Signs.—H. Bloomberg, 52 Cross street; Morris Levy, 1395 Washington street; Edwin C. Lewis, Inc., 121 Federal street; Trustees Eliot Street Trust, 129 Eliot street; P. Caruso, 121 Richmond street; Louis Goldzweig, 11 Chambers street; Boston Safe Deposit and Trust Company, 100 Franklin street; George H. Payne, 9 Cambridge street; Grand Rapids Show Case Company, 51 Bedford street; J. C. McCarthy, 39 West street; Boston West End Mission, 290 Cambridge street; W. B. Hunt Company, corner Washington and Eliot streets; M. Bennett, 33 Exchange street; Benjamin A. Levy, 331B Centre street; Steve Poulos, 10 Howard street; Lazarus Liondos, 32 Oak street; Arthur E. Dorr, 2 North street; Walker-Rintels Company, 16 Park square; Nes-

mith Shoe Company, 23 West street; A. B. Wright *et al.*, 598 Tremont street; M. Moeki, 15 City Hall avenue; Thomas J. Mulrey, 1516 Washington street; J. F. Lewis (4), 365 Washington street; Taylor Motor Sales Company, 157 Massachusetts avenue; John Messias, 77 Dover street.

Marquises.—State Street Exchange at 26 Congress street, Ward 6, also at 20 Exchange place, same ward.

Gasolene.—John P. Shea, 338 Newbury street; Mary Roughan, 60 Pond street; Albert E. Lazaro, 29 Ferdinand street; National Sportsman, Inc., 75 Federal street; John Manning, 634 Huntington avenue.

Conduits.—Massachusetts Homœopathic Hospital, Stoughton street, Ward 12.

Patent Sidewalk Cover.—Frederick S. Goodwin, 76 Devonshire street.

Pole Locations.—New England Telephone and Telegraph Company, erect and remove one, Crawford street; erect and remove one, Bennington street; transfer one pole on Forest Hills street and one on Ruggles street, Ward 18, to the Edison Electric Illuminating Company; to erect and remove three on Dunboy street, Ward 25; to erect three on Faulkner street, Ward 20; to erect twelve on Talbot avenue, Ward 24; to erect seven on Bernard street, Ward 24; to erect nine on Poplar street, Ward 23; to erect two on Bayard street, Ward 25; to erect two on Howard avenue, Ward 16; to erect three on Harold street, Ward 21; to erect one on Fort avenue, Ward 19; to attach its wires to poles of the Edison Company to one, on Massachusetts avenue, Ward 16; to three, on Arlington street, Ward 25; to two, on Lamson street, East Boston; to five, on Harvard street, Ward 24, and to two poles of the Charlestown Gas and Electric Company on Polk street; Edison Electric Illuminating Company, to attach to five poles of the New England Telephone and Telegraph Company on Geneva avenue, and to two poles of said telephone company on Pearl street, Dorchester.

Street Railway Locations.—West End Street Railway Company, alterations on Massachusetts avenue; alterations on Mystic avenue, Charlestown; alterations on Causeway street; alterations on Meridian street, East Boston; alterations on Centre street, from Eliot square to Columbus avenue; alterations on Dorchester avenue, from south of Lincoln street to south of Park street.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising.

Build, with the department force, 440 linear feet 10-inch pipe sanitary sewer in Perham street, between Lasell and Glenham streets, West Roxbury, at an estimated cost of \$1,248; build, with the department force, a sanitary sewer of 12-inch earthen pipe in Northern avenue, between Atlantic avenue and Northern Avenue Bridge, city proper, at an estimated cost of \$1,053.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"Public necessity and convenience require that this work be done after November 15, for which your authority is requested.

L. K. ROURKE,
Superintendent of Streets."

FREE MUNICIPAL CONCERTS.

SEASON OF 1910-11.

The thirteenth annual series of chamber concerts given under the direction of the Music Trustees of the City of Boston will open in Faneuil Hall on Friday evening, November 25, at 8 p. m.

The Municipal Orchestra, consisting of ten skilled musicians, each of recognized standing in the musical profession, will be under the direction of Mr. William Howard of this city. Professor Louis C. Elson, the distinguished authority on music, whose little descriptive talks have been an important feature of the concerts in past seasons, will be heard again this year.

It is the aim of the trustees to give to these concerts an educational value apart from the mere pleasure afforded in the opportunity of hearing high class musical productions appropriately rendered by musicians of ability. During the progress of the concert, at convenient points between numbers, Professor Elson will address the audience, outlining briefly the history and development of the particular school of music of which the selection to be rendered is a type, calling attention to peculiarities or distinguishing characteristics in the composition, and in a general way assisting the audience to more clearly appreciate the beauties of the various numbers on the program, and to a better understanding of the message which the composer intended to convey.

The list of vocalists to appear during the coming season will include the names of many artists of note.

Concerts will be given in various halls throughout the city, as follows:

Dorchester High School, Roxbury High School, West Roxbury High School, Brighton High School, South Boston High School, Girls' Latin School, Knights of Honor Hall, Lowell School, Charlestown High School, Chapman School, East Boston, Cheverus School, East Boston, Franklin Union, Ford Hall, Faneuil Hall.

Announcements will be made well in advance. Tickets may be obtained at the office of the Music Trustees, 43 Tremont street, Room 905. They will also be mailed upon receipt of postage. The first three concerts to be given are scheduled as follows:

November 25, Faneuil Hall; November 28, Chapman School, East Boston; November 29, Franklin Union.

All information relative to these concerts may be obtained by communicating with the Secretary, Walter L. Finigan, Room 905, Carney Building.

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved a vote of the Board of Schoolhouse Commissioners, revising request made upon the Board of Street Commissioners for a land-taking in the Lyman District, East Boston, approved September 28. The area given at that time, 38,600 square feet, was based on data at the office of the Schoolhouse Commission, and did not correspond with the property lines on the ground. The area under revised vote is 40,032 square feet.

LOCATION OF PRIVATE WAY.

On November 18 the Mayor approved the location, direction, width and grade of the private way at Dorchester known as Hesston terrace, as shown on a plan approved by the Board of Street Commissioners and on file at the office of the City Engineer.

STREET COMMISSIONERS.

The Mayor has approved the votes of the Board of Street Commissioners that in the matters of Albert K. Copeland and Mary E. Copeland, separate petitioners for damages to estates on account of the improvement of Hyde Park avenue, they assess the petitioner's damages at \$50 each, the city assuming the assessment to be levied against their estates because of the improvement. These votes have been taken after consultation with the Law Department and on its advice.

The Mayor has approved orders of the Board of Street Commissioners determining that no person sustains damages or receives special benefit to his estate by reason of the public improvement consisting of the widening and construction of Grove street, at the corner of Washington street, West Roxbury, as a highway.

Estimated cost of construction: sewer construction, \$150; street construction, \$400; total, \$550.

CLAIMS.

On November 22 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

John A. Gerrity, \$25, for injury to horse caused by hole in street opposite 300 Centre street, Jamaica Plain, July 18, 1910.

Michael J. Hughes, \$248.24, on account of personal injuries and time lost while in the employ of the Sewer Division, at the pumping station, November 23, 1909.

Catherine J. Jacobs, \$625, for personal injuries caused by a defect in sidewalk on Ashford street, near Linden street, Allston, March 20, 1906.

James J. and Henry Pitman, \$150, for personal injuries received while riding tandem bicycle, and caused by a hole in the street opposite 151 Kingston street, August 18, 1910.

Edward Rogan, \$292.50, on account of accident while in the discharge of his duties as a laborer in the Street Department, March 12, 1910.

Daniel Bailey, \$24.89, for damage to property, schooner "Daniel Bailey," caused by defect in draw at Warren Bridge, June 7, 1910.

Alois Zilg, \$30.20, for damage to property caused by filling in of sewer connection by city employees at 38 Hancock street, April, 1910.

STREET OPENINGS AFTER NOVEMBER 15.

The Superintendent of Streets has certified that public necessity and convenience demand that the construction of streets in the following locations be done after November 15, 1910, and the Mayor has granted authority requested.

Emmons road, between Linnet street and Board of Survey street No. 665.

Howitt road, between Bellevue and La Grange streets.

Lorette street, between Centre and Hillcrest streets, West Roxbury.

Malvern road, formerly Edna street, between Metropolitan avenue and Ethel street, West Roxbury.

Seaver street, northeast side, from existing sewer about 200 feet northwesterly from Elm Hill avenue to Elm Hill avenue, Roxbury.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the superintendent have been approved by the Mayor:

Thomas Lee, Highway Division, 12 days at \$2.25, \$27; Thomas Bride, Sanitary Division, 7½ days at \$2.25, \$16.88.

PUBLIC HEARINGS.

A hearing will be had on the petition of Mary A. Keenan for the use of a proposed wooden building for three cows at 257 Market street, Brighton, on December 8, 1910, at 10 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be had on the petition of Roland Litchfield for the use of a brick building for six horses at 805 Southamp-ton street, Ward 17, on December 8, 1910, at 10 a. m., in the office of the Board of Health, 11 Old Court House.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight o'clock.

1910.

- Dec. 1. Carthage. George B. Dexter.
- Dec. 8. Cortona, a Hill Town of Italy. Eben F. Comins.
- Dec. 15. The Passion Play of Oberammergau. Rev. Thomas I. Gasson, S. J.
- Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.
- 1911.
- Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.
- Jan. 12. *Photography in relation to Illustration. J. Horace McFarland.
- Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.
- Jan. 26. *The Paper and Binding of Books. Cedric Chivers.
- Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.
- Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.
- Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.
- Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.
- March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.
- March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.
- March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.
- March 23. Switzerland and the Rhine. Henry Warren Poor.
- March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

* Under the auspices of the Society of Printers.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight o'clock.

1910.

- Dec. 12. Norway and the North Cape. Frederick M. Brooks.
- 1911.
- Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).
- Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
- March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
- April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

In Berlin, according to Consul General A. M. Thackara, 45 per cent of the paving is asphalt and 53 per cent stone. The other 2 per cent is mostly wood block, although there are some examples of cement, macadam, etc. The total importation of asphalt into Germany in 1909 was 98,379 metric tons. Of this 61,828 tons came from Italy, 17,316 tons from British America, 10,538 tons from Switzerland and 3,754 tons from the United States.—*Good Roads.*

FINANCE COMMISSION.

BOSTON, November 19, 1910.

HON. JOHN F. FITZGERALD, Mayor:

SIR,—On the 28th of September, 1910, your Honor addressed to the Finance Commission a letter in which attention was called to the cost of bridges connecting Boston with other cities and towns, to the fact that their value is estimated at about six and a half million dollars, and also to the fact that alterations must be made in the same in the near future at a cost estimated approximately at seven million dollars. The letter further states that these bridges "are in no sense local structures," that "justice, therefore, would seem to require that the other cities and towns should contribute something to the cost of the accommodations provided for them," and that "this principle" (of contribution) "is recognized in the apportionment of metropolitan expenditures for parks, sewers and the water supply, the unity of the district served receiving recognition through the establishment of special boards for administration and apportionment of expenditures." The Finance Commission has considered your Honor's request "to consider whether a petition and bill might not be framed and submitted to the Legislature at its next session, on this subject, so that some system of equitable apportionment, varying to meet the needs of individual cases, may be adopted," and the commission submits herewith a report upon the subject.

The burden of constructing and maintaining bridges is distributed inequitably, as some municipalities pay the whole cost of certain bridges while other municipalities pay little or nothing. The City of Boston seems to have suffered more in this respect than any other municipality in the state, for unlike other cities and towns which are relieved of a portion of their burdens by other cities and towns in the same county Boston has received no contributions from other municipalities toward the cost of the numerous bridges within its limits. With the exception of some contributions made by railroad and street railway corporations, Boston has paid not only the entire cost of constructing and maintaining the bridges within its limits, but also the entire cost of constructing and maintaining the Chelsea Bridge, between Charlestown and Everett, the Chelsea Street and Meridian Street Bridges, between Chelsea and East Boston, and practically the whole expense of constructing and maintaining the Chelsea Bridge, between Charlestown and Chelsea.

The comparatively slight cost of the construction and maintenance of the bridges connecting Boston with Dedham, Milton, Brookline and Watertown is shared in nearly equal portions by the municipalities so connected, each paying for the part of the bridge within its limits. Quincy and Boston pay the expense of the parts of the Neponset Bridge lying within their respective limits, and it is probable that this results in a nearly equal division of the cost, but this is not certain, as the cost to Quincy cannot be ascertained. The large expense of the construction of the bridges between Boston and Cambridge has likewise been borne in nearly equal portions by the two cities, and the cost of maintenance has been divided equally. Other municipalities which receive great benefits from these bridges have paid nothing towards the cost of their construction or maintenance.

The commission believes that Boston has no ground for complaint on account of its expenditures for bridges under the

existing arrangements between itself and Quincy, Milton, Dedham, Brookline, Watertown and Cambridge. But Boston is unjustly compelled to bear the entire cost of the Winthrop, Chelsea Street, Meridian Street and Malden Bridges, and practically the entire cost of the Chelsea Bridge; and, therefore, it should be provided as soon as possible that the city be relieved of a part of this expense. Some means should also be provided for reimbursing the city for a part of the cost of repairs and maintenance of the water bridges within the city limits. The communities which receive benefits from the use of these bridges should pay a share of the cost proportional to the benefits received.

Larger proportions of the cost of construction, reconstruction and repair of bridges should be paid by railroad and street railway corporations than has been customary, as the weight of the cars has been greatly increased in recent years, thereby causing a large increase in the expense of construction and repairs.

These conclusions have been reached after a consideration of the geographical situation of the city, its numerous bridges over navigable waters, and of the political, social, industrial and commercial relations of its people with those of other municipalities in the metropolitan district. It has been confirmed by the trend of recent thought upon the subject of the apportionment of the cost of bridges as shown in the legislation of this state for the last twenty-five years.

I.

INTERIOR BRIDGES.

The legislation in the period from 1885 to 1910, inclusive, which relates to bridges wholly within the limits of a city or town (hereinafter referred to as interior bridges), shows that of twenty-nine acts only ten placed the entire cost of an interior bridge upon a single municipality. There were thirteen acts in which provision was made for relieving a municipality of a part of the cost of an interior bridge by giving county commissioners authority to assess a portion of the cost upon the county or the municipalities therein, or to assess the whole cost upon the county or upon the municipalities therein which receive special benefits from the bridge, or which definitely fixed in the act the proportions or amounts which the county, the municipalities therein, or any street railway having a location on the bridge should pay. Of the other six acts three provided for construction of bridges by the Massachusetts Highway Commission, one provided for reimbursement by a county to a city of the amounts, not exceeding one-half and one-fourth respectively, expended for the rebuilding of two bridges, another provided that the Commonwealth should pay a city forty per cent of the cost of a certain bridge if it were built before a certain date, and the other provided for substantial contributions by a railroad and a street railway corporation. Only three of these twenty-nine acts relate to bridges within the City of Boston. In one of them Boston was to bear the entire expense, in another the expense was to be borne by the city, a railroad and a street railway corporation, and in the third the Commonwealth was to pay forty per cent if the bridge was finished by a certain date. To summarize: In ten of the twenty-nine interior bridge acts the entire cost was to be borne by the municipality within whose limits the bridge was situated; while in nineteen cases, or about two-thirds of the whole number,

provision was made in some form for relieving the municipality of a portion of the entire cost.

This legislation taken as a whole seems to have established firmly the principle of contribution towards the cost of interior bridges by a county or the cities or towns therein; it also appears that the principle of contribution by street railways is recognized.

II.

INTERURBAN BRIDGES.

The legislation for the same period shows a great variety of provisions for the apportionment of the cost of the construction of bridges between cities and towns, hereinafter referred to as interurban bridges. Of thirty-seven interurban bridge acts only one placed the entire cost of construction upon a single municipality, namely, Boston. This was the case of the Malden Bridge, so called, between Everett and Charlestown which, though strictly within the limits of the City of Boston, as Boston owns a small area on the Everett side of the bridge, is for all practical purposes an interurban bridge maintained largely for the benefit of the people residing in the cities and towns on the north side of the Mystic river.

In six acts it was provided that the cost should be borne equally by the two municipalities connected by the bridge.

In fifteen acts various provisions were made for relieving the two municipalities connected by the bridge of a part of the cost. In some the entire cost was placed in the first instance upon a county, which under the established practice assesses the cost on municipalities situated therein. Some fixed the proportion of the entire cost to be paid by the county in the first instance, or the share of the county and the two municipalities connected by the bridge. In others county commissioners were authorized to assess the cost on the county alone, or on the county and one or both of the two municipalities connected by the bridge, or upon the county and the municipalities therein, or on the municipalities alone, according to special benefits received, or on the county and the municipalities therein, according to proportions fixed in the act.

In eight acts provision was made for relieving the two municipalities connected by the bridge of a portion of the entire cost by authorizing the Supreme Judicial Court, or the Superior Court, to apportion the cost, exclusive of such amounts as were to be paid by the state or railroad or street railway corporations, among the counties and the cities and towns therein, usually in proportion to the special benefits received.

In some of the seven acts remaining to be considered one or the other of the two municipalities connected by the bridge was to be relieved of a large part of the cost by special provisions fixing the contributions of railroad and street railway corporations; in one case the Railroad Commissioners were authorized to determine the proportions which the railroad corporations and the cities and towns should pay in the case of a railroad and highway bridge; and in the other acts the bridges were to be constructed by the Metropolitan Park Commission, the cost either to be assessed in the usual way, or the act itself fixing the proportions which the Metropolitan Park District, certain municipalities and counties and a street railway were to pay.

This legislation shows that the principle of contribution towards the cost of interurban bridges by counties and cities

and towns therein benefited by the bridges has been firmly established; it shows likewise that the principle of contribution by railroad and street railways which use such bridges is recognized.

The commission recommends:

1. That the Mayor petition for legislation authorizing the Supreme Judicial Court, or the Superior Court, to appoint commissioners to apportion among the cities and towns which receive special benefits from the bridges hereinafter named, in proportion to such benefits, the cost of reconstruction, repairs and maintenance; and also to assess upon any street railway having a location upon any of said bridges an equitable share of the cost of reconstruction and repairs.

(a.) The Meridian Street Bridge, between East Boston and Chelsea.

(b.) The Chelsea Bridge, between Charlestown and Chelsea.

(c.) The Chelsea Street Bridge, between East Boston and Chelsea.

As the city of Chelsea has paid the City of Boston \$25,000 in consideration of the latter maintaining at its sole expense the northeasterly draw and draw piers of this bridge and such portions of the bridge as are included within the piers, Chelsea should be exempted from the operation of the proposed act, except as to the portion of the bridge on the Chelsea side of the northeasterly draw thereof.

(d.) The Winthrop Bridge, over Belle Isle Inlet, between Winthrop and East Boston.

(e.) The Malden Bridge, between Charlestown and Everett.

2. That said commissioners assess an equitable portion of the cost of reconstruction and repairs of the bridges connecting Boston with Cambridge, Watertown, Milton, Dedham and Quincy upon any street railways having locations on such bridges.

3. That another commission, appointed in the same way, apportion between the cities and towns in Suffolk County and such other cities and towns as receive special benefits the expenses hereafter incurred on account of the reconstruction, repair and maintenance of such of the water bridges within the limits of the City of Boston as constitute parts of highways leading from Boston to other cities and towns; and to assess upon railroad and street railway corporations having locations thereon an equitable portion of the expenses hereafter incurred on account of the reconstruction and repair of such bridges.

4. That the legislative act provide that the amount which shall be assessed upon any railroad or street railway corporation as its share of the cost of reconstruction or repair of any bridge which is widened or strengthened to accommodate its cars, shall include the cost of widening or strengthening the bridge for such use.

5. That the share of the Boston Elevated Railway Company be fixed by agreement between the company and the City of Boston, if the latter is advised by its corporation counsel that the company would be exempt from the operation of the legislation herein recommended by virtue of section 10 of chapter 500 of the Acts of 1897.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

NEW YORK'S NEW CITY HALL.

Work is beginning on the new municipal building of the city of New York. It will be twenty-five stories high and will cost about \$11,000,000.

PROCEEDINGS OF CITY COUNCIL.

Monday, November 21, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p.m. President BALLANTYNE presiding. Absent—Coun. Attridge and Hale.

The Council voted, on motion of Coun. CURLEY, to dispense with the reading of the records of the last two meetings.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, as follows:

Four grand jurors, United States District Court, to appear December 6, 1910, viz.:

Axel Johnson, Ward 23; Cornelius Ryan, Ward 3; Herbert F. Randell, Ward 1; Louis O. Meyers, Ward 1.

Forty-one traverse jurors, Superior Criminal Court, to appear December 7, viz.:

James F. Titus, Ward 15; George A. Carson, Ward 14; Joseph Klaus, Ward 13; Charles J. Fox, Ward 17; Martin F. Kelly, Ward 12; James R. McLaughlin, Ward 23; William H. Norton, Ward 2; Philip J. Attridge, Ward 24; Daniel McLaughlin, Ward 6; Edwin R. Spinney, Ward 15; Reuben F. Hone, Ward 17; John H. O'Connor, Ward 17; Elemer H. Morse, Ward 22; Robert McKenzie, Ward 13; Richard J. Conboy, Ward 24; Richard King, Ward 20; Henry Hazen, Ward 24; Herbert L. Kelley, Ward 16; Oliver Clark, Ward 2; Ralph A. Ostburg, Ward 20; Frank McMullen, Ward 22; Louis Leverone, Ward 6; Harry H. Bennett, Ward 11; Joseph M. Lyons, Ward 22; Edward F. Carey, Ward 16; John H. Power, Ward 15; William S. Kenny, Ward 2; Mellen E. Hersey, Ward 22; Burton O. Wetmore, Ward 20; William Tuck, Ward 19; Charles L. Hallett, Ward 24; Martin Kane, Ward 15; Henry H. Stroth, Ward 21; Stephen Prunty, Ward 18; Charles H. Stanton, Ward 12; Ernest Schwender, Ward 23; Sylvander S. Holt, Ward 25; Henry E. Foster, Ward 8; Joseph B. Daly, Ward 24; William Buckley, Ward 3; John A. Ryan, Ward 6.

APPOINTMENTS BY THE MAYOR.

The following appointments were submitted by the Mayor, subject to approval by the City Council, viz.:

(1) Francis H. Hughes (93 Tudor street, Ward 13), Henry J. O'Reilly (40 Norfolk avenue, Ward 17), Joseph F. Quinton (278 Dudley street, Ward 17) and George W. Wells (8 Mills street, Ward 21), Weighers of Coal for the term ending April 30, 1911.

(2) John A. McWilliams (23 Cortes street, Ward 10), a Constable of the City of Boston for the term ending April 30, 1911.

Severally laid over under the law.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Estate of John T. O'Lalor, to be paid expense incurred in defending a suit against him on account of his acts as a police officer.

Samuel Albert, for compensation for injuries received on Auburn street.

Charles Tehan, for compensation for injuries caused by a defective manhole cover in Randolph street, December 24, 1908.

Fred W. Hassom, for a hearing on his claim on account of an accident.

Executive Committee.

Mrs. E. Maude Dougan, for a permit for children under fifteen years of age to appear at Chipman Hall on the evening of November 29.

Petitions for sidewalks as follows:

(Gravel with Granite Edgestone.)

John Gilbride, 53 Vale street, Ward 22.

(Brick.)

J. Eugene Favart, 458 East Third street, Ward 14.
L. J. Curley, 46 Dennis street, Ward 17.
William W. Doherty, 82 Burrell street, Ward 17.
Annie L. Killion, 180-182 Heath street, Ward 19.
Martin Rutledge, 186 Heath street, Ward 19.
Joseph Engel, 1180-1186 Blue Hill avenue, Ward 24.

(Artificial Stone with Granite Edgestone.)

A. C. Forest, 210 Leyden street, Ward 1.
John Beck, 195-209 Pleasant street, Ward 7.
Boston Arena Company, 238 St. Botolph street, Ward 10.
W. H. Andrews, Trustee, 38 Westland avenue, Ward 10.
J. Sumner Draper, 811-813 Boylston street, Ward 11.
James T. Wetherald, 915-921 Boylston street, Ward 11.
Arthur W. Cole, 291-293 Northampton street, Ward 12.

G. V. Wattendorf, 42-44 Edison green, Ward 16.
C. F. Whitehead, 80 Hancock street, Ward 20.
Annie I. Golden, 132-136 Elmo street, Ward 20.
C. M. Mowatt, 28 Tremlett street, Ward 20.
P. G. Henderson, Train street, corner Assabet street, Ward 24.

CLERK HIRE.

The Register of Deeds, in accordance with the provisions of section 33, chapter 22, of the Revised Laws, submitted a list certifying that certain persons had been employed in his office and that work had been performed to the amount of \$3,520.08.

Referred to the Committee on County Accounts. (See action approving same, later.)

CONSTABLE'S BOND.

The City Treasurer, after having duly approved of the same, submitted the constable's bond of Joseph E. Allen for the approval of the Council. Approved by the Council.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted by the Secretary of the Commonwealth was received. Placed on file.

NOTICE OF GRANT.

Notice was received from the Board of Railroad Commissioners authorizing the West End Street Railway Company to maintain a crossing on Neponset avenue over the tracks of the New York, New Haven & Hartford Railroad Company. Placed on file.

SALE OF LAND.

Coun. BRAND presented a letter from A. M. Johnson, stating that he had been offered \$4,000 for the two lots of land belonging to the City of Boston situated at the corner of Gibson street and Dorchester avenue.

Referred to the Committee on Public Lands.

CONFIRMATION OF APPOINTMENTS.

Coun. BRAND called up Nos. 1 to 6, inclusive, unfinished business, viz.:
Action on appointments submitted by the Mayor November 14, viz.:

1. George A. Hagerty, to be a Constable of the City of Boston for the term ending April 30, 1911.
2. John E. Gillen, to be a Weigher of Boilers and Heavy Machinery for the term ending April 30, 1911.
3. Alpheus R. Henderson, to be an Inspector of Pressed or Bundled Hay and Straw for the term ending April 30, 1911.
4. Howard L. Farwell, to be a Measurer of Wood and Bark for the term ending April 30, 1911.
5. Albert F. Lyons, George E. Wellington, Ernest E. Nelson, George C. Davis, Mary B. Kirley, James McCarthy, John Driscoll, John H. Winsloe, Stella Rooney, Elliot E. Copeland, J. Irving Shultz, to be Weighers of Coal for the term ending April 30, 1911; Stella Rooney and John H. Winsloe, to be Measurers of Wood and Bark for the term ending April 30, 1911; Elliot E. Copeland, to be a Measurer of Grain for the term ending April 30, 1911.
6. Action on the appointment submitted by the Mayor October 24 of Nathan E. Bates to be a Constable of the City of Boston for the term ending April 30, 1911.

The question came on confirmation. Committee, Coun. Brand and Kenny. Whole number of ballots cast 6, yeas 6, and the several appointments were confirmed.

EXPENSES OF DAIRY INSPECTORS.

Coun. COLLINS offered an order—That there be allowed and paid to the secretary of the Board of Health the sum of \$1,000, the same being to enable him to advance to the dairy inspectors of the Health Department the amounts necessary to defray the traveling and other incidental expenses in connection with their official duties; these payments to be accounted for by vouchers filed with the City Auditor and to be charged to the appropriation for Health Department.

Coun. COLLINS—Mr. President, as will be seen by a reading of this order it does not contemplate any additional appropriation for the Health Department; but, as you all know, within the last few weeks there has been established a sub-branch of the Health Department, known as the Dairy Branch, and these inspectors are supposed to visit various parts of the country. It seems manifestly unfair to expect any member of the Board of Health to advance the money; furthermore, it seems unjust to ask the men to pay the money out of their own pockets. It would seem fair that

they should be paid every week, but I understand that that would entail much confusion in the auditor's office. The auditor and the Health Commissioners met, and this order is the result. The order was passed.

DINNER HOURS FOR FIREMEN.

President BALLANTYNE offered an order—That the Fire Commissioner be instructed, through his Honor the Mayor, to grant the members of the Fire Department two hours each for dinner on Thanksgiving and Christmas days, in accordance with the custom which has obtained for a long time in the department. Passed.

LIGHTS, DORCHESTER DISTRICT.

Coun. COLLINS offered an order—That the Superintendent of Streets be requested to locate and maintain electric lights at the following places: One at corner Edgewater drive and River street; one on Edgewater drive at or near stable of Mr. Bowman; one or more lights on Liverside way, off Fremont street, all said locations being in Dorchester. Passed.

SIDEWALK, LONGWOOD AVENUE.

Coun. COLLINS offered an order—That the Superintendent of Streets make a sidewalk along Nos. 225, 245, 249, 253 Longwood avenue, and on the southerly side of said avenue at the Harvard Medical School, Ward 19, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of brick with granite edgestone, under the provisions of chapter 437 of the Acts of 1893. Passed.

REGISTRY OF DEEDS PAY ROLL.

Coun. KENNY—Mr. President, I have here the monthly pay roll of the Register of Deeds, in which the register states that it is for the four weeks ending November 19, and that there is no change in the number of employees or in the salaries as covered by the preceding month. There is not a majority of the Committee on County Accounts here. In view of the fact that it is the pay roll and that we are not to meet for another week, I would like, on behalf of the committee, to offer a report recommending the passage of the order.

Report accepted; pay roll approved and ordered paid.

SALE OF UNCLAIMED BAGGAGE.

President BALLANTYNE, for the special Committee on Unclaimed Baggage, submitted a report on petition of Boston & Maine Railroad (referred October 31) for the sale of unclaimed baggage—recommending the passage of the following:

Ordered, That the Boston & Maine Railroad be hereby authorized to sell, at public auction, on or before January 1, 1911, and after publication of the time and place of sale, according to law, the articles left and remaining unclaimed in the passenger station of said company in the City of Boston.

Report accepted; order passed.

ARBITRATION DECISION.

A copy of the decision of the State Board of Conciliation and Arbitration in the matter of the joint application for arbitration between the Upholsterers' International Union of North America, Local 53, and the Furniture and Interior Decorators' Association of Boston, was received and placed on file.

MINORS' LICENSES.

President BALLANTYNE submitted reports on petitions of five newsboys and one bootblack for minors' licenses, recommending the approval of the same by the Council.

Reports accepted; licenses granted on the usual conditions.

CLAIMS.

Coun. BUCKLEY, for the Committee on Claims, submitted the following:

(1) Report on message of Mayor and order (referred October 24) to reimburse employees for losses at Albany street fire—that the order ought to pass.

Report accepted; order passed.

(2) Report on petition of Elias J. Stewart (referred September 12) for a hearing on his claim on account of injuries received while he was a member of the Fire Department, recommending reference of the same to his Honor the Mayor.

Report accepted; said reference ordered.

TRANSFER TO MAYOR'S OFFICE.

Coun. KENNY called up No. 8, special assignment, viz.:

8. Report of the Executive Committee, ought not to pass on the following:

Ordered, That in accordance with the provisions of chapter 261 of the Acts of 1893, the City Auditor be, and hereby is, authorized to transfer the sum of one hundred dollars (\$100) from the appropriation for Reserve Fund to the appropriation for Mayor, office expenses, etc.

The question came on the passage of the order. The order was passed, yeas 7, nays 0.

PAYMENT TO GEORGE W. BROWN.

The Council proceeded to take up No. 7, special assignment, viz.:

7. Report of the Committee on Claims, ought to pass on the following:

Ordered, That there be allowed and paid to George W. Brown the sum of \$175, for expense incurred by him in settlement of a claim against him as driver of the prison van, said sum to be charged to the appropriation for County of Suffolk.

Report accepted; order passed.

PAYMENT TO MECHANICS.

Coun. CURLEY offered an order—That in accordance with recommendation of former Mayor Hibbard the union scale of wages be paid mechanics employed by the city.

Passed.

RENT FOR PLAYGROUNDS.

Coun. BRAND called up No. 10, special assignment, viz.:

10. Ordered, That the Superintendent of Public Grounds be authorized to pay to the estate of Woodman-Jones the sum of two hundred dollars for rent of land for playground on River street, Mattapan, for the year 1909, said amount to be charged to the appropriation for Public Grounds Department.

Passed.

MAIL DELIVERY.

Coun. CURLEY offered the following:
Resolved, That in the opinion of the Boston City Council the best interests of Boston residents will be served by a restoration of the system of four deliveries of mail daily; be it further

Resolved, That copies of this resolution be forwarded the Postmaster General and the Boston postmaster.

The resolutions were adopted.

PERMIT GRANTED.

Coun. BALLANTYNE, for the Executive Committee, submitted a report on petition of Mrs. E. Maude Dougan (referred to-day) for permit for children under fifteen years of age to appear at Chipman Hall on the evening of November 29—that a permit be granted.

Report accepted; permit granted on the usual conditions.

Adjourned at 3.53 p. m., on motion of Coun. KENNY, to meet on Monday, November 28, at three o'clock p. m., unless sooner called together by the President.

NOTTINGHAM CLEANS HOUSE.

The city of Nottingham, England, has been forcibly attacking its slums. Within the space of a year thirty-one houses were ordered closed to habitation, and 261 were built over, for the most part at the owner's expense. That is one of the things a city government is for—to see to it that the people have decent places to live; but in this country we are mostly afraid it will hurt business!

MUNICIPAL LINKS.

Many English cities have established municipal golf links for use by the public. Glasgow, Hull and Edinburgh each have ten sets of municipal links. The game of golf is popularly regarded as an exclusive privilege of the rich who can afford to belong to country clubs—but it is an actual fact that people of small means can play if they get a chance.

PIPE SUBWAYS IN CITIES.

Last summer Mr. Nelson P. Lewis, chief engineer of the Board of Estimate and Apportionment of New York City, was authorized to visit some European cities to secure information concerning pipe subways, the methods adopted for the control of various underground structures, and what steps were taken to avoid constant mutilation of pavements for laying and maintaining such structures where there are no subways for their accommodation.

The problem of placing conduits in subways Mr. Lewis found to be much simplified in most European cities by the fact that water, gas, electric lighting, telegraph and telephone services, and even street railways, are quite generally owned and operated by the municipalities or the state. While no direct rental is, therefore, received for the occupation of the subways, attempts of the city authorities to place pipes and conduits in them are not resisted by corporations. The economic questions involved in building pipe subways under such conditions are, therefore, the avoidance of the cost of opening and restoring pavements at the city's expense, the increased life of the pavements through the absence of such mutilation, and the great public convenience resulting from the absence of such openings.

London is a conspicuous exception to the general practice of municipal ownership and operation, as nearly all of the public utilities, except a part of the water supply and some of the tramway lines, are under the control of private corporations. London, therefore, is the only city having pipe subways which derives a direct money return in the way of rentals, but even here the rental charged to "water and gas companies having power to break up the streets" seems quite inadequate to Mr. Lewis and is far less than the schedule of rentals charged for companies which are not recognized as possessing such rights.

Only four cities in Great Britain, London, Nottingham, St. Helen's and Glasgow, have attempted the construction of pipe subways, and the last city has but one short block. In every instance except the short block in Glasgow these subways have been built as a part of the construction of a new street, so that the cost was reduced to a minimum. There were no old pipes to be cared for during construction or to be moved to the new position provided for them, while the roof of the subway itself in some cases furnished part of the pavement foundation. Owing to the power of excess condemnation possessed generally by European cities, a large part of the cost of the new street construction, including the pipe subways, has been returned to the city treasury through the sale of the property fronting upon the street, while in some cases there have also been built sidewalk vaults, which are rented to the abutting owner or leaseholder.

The cost of building subways in London varied from about \$17 to \$40 a linear foot, in Nottingham it was \$17 a foot, in St. Helen's \$12, and in Glasgow about \$18. The engineers of the Public Service Commission of New York, First District, have estimated the cost of building pipe galleries in connection with rapid transit railway construction at \$300,000 to \$800,000 a mile, depending upon their position with respect to the railroad subway, this being equivalent to from about \$56 to about \$150 per linear foot of street.

London County Council Subways.—The pipe subways in London are partly under the control of the London County Council

and partly under that of the corporation of the city of London. Those of the London County Council occupy sixteen separate streets, in three of which there are double subways, or one on each side.

The schedule of charges paid for occupation of the county subways appears to be entirely arbitrary, Mr. Lewis reports, and is not always in proportion to the length of the different subways. The annual charge for those under 3 inches in diameter is \$5 for the subway in Garrick street 300 feet long, as well as for that in the Victoria embankment, which is 6,690 feet in length. For pipes 3 inches to 6 inches in diameter the charge is \$10 for the Garrick Street Subway and \$25 for the Victoria Embankment Subway, so that although the latter is 22.3 times as long as the former the charge for its use is but two and a half times as much. As the sizes of the pipes increase this discrepancy in great measure disappears. The rates above given are the "annual charges for water and gas companies having power to break up streets." A sharp distinction is drawn between companies having this power and other "companies, bodies or persons," for which latter the charge for occupying the entire subway appears to bear some relation to its length and is also at a higher rate. For this class of pipes the annual charge for those under 3 inches in diameter for the Garrick Street Subway is \$10 and for that under the Victoria Embankment \$150, while for pipes between 12 inches and 18 inches in diameter the annual charge for Garrick street is \$25, and for the Victoria embankment \$420.

The subways under control of the corporation of the city of London occupy fifteen different streets, in one of which there are subways on both sides.

These subways contain 10,194 feet of water mains, 12,639 feet of gas mains, 5,049 feet of hydraulic power pipes, and 9,339 feet of pneumatic tubes, the details of these pipes being given in Mr. Lewis's report. In addition there are 34,416 feet of electric conduits, varying from small single cables to boxes 6 inches by 36 inches, and including 168 feet of conduit in trenches beneath the bottom of the subways.

The schedule of charges for the occupation of the subways under the control of the corporation of the city of London is identical with that fixed by the London County Council for "water and gas companies having power to break up the streets," there being no schedule provided for other "companies, bodies or persons." In both cases it is specified that the word "pipe" does not include junction boxes, valves or other appurtenances, for which an additional annual charge is made of \$2.50 per cubic foot or part of a foot occupied beyond the limits of the pipe.

Mr. Lewis found that some of the subways are so crowded with pipes and other structures that there is no room for any more. In most of them, however, especially in those under the new Aldwych and Kingsway, there is ample room for additional pipes. In the last-named street the London County Council, in connection with the building of the subways, constructed vaults under the sidewalks in front of the property purchased in connection with the creation of the new streets, and as this property is sold or leased the lease of the vault spaces goes with the property, bringing quite a substantial revenue to the city. The air in all of the subways examined was excellent and no odor of gas could be detected. The authorities do not hesitate to include gas mains and electrical conductors in the subways with other pipes, and on one

portion of Kingsway Mr. Lewis noticed a line of electrical conductors carrying 11,000 volts immediately over and a few inches from a large gas main.

The total length of pipe subways now in use in London is 8.345 miles, although their construction was begun about 1861. It is only when a new street is created or an old street is widened or straightened that any attempt is made to build pipe subways, and the expense of constructing them in existing streets simply for the accommodation of underground structures is considered so great as to be out of proportion to the benefits to be derived.

Nottingham Pipe Galleries.—Nottingham, a manufacturing town of about 250,000 population, was the first city to follow London in providing pipe subways, this having been done in 1861 and 1862. The total length of streets provided with this construction is very limited, not exceeding in the aggregate more than about half a mile. The latest work of this kind was undertaken in connection with the condemnation by the city of an unsanitary area and the construction through it of a new street. The city, which owned the abutting property, built a series of vaults under the sidewalks, with passageways about three feet wide connecting the pipe subway with these vaults, one passageway serving two vaults, so that connection could readily be established between the building sites and any of the structures included in the subways.

The city admits gas and electrical conductors as well as other pipes and mains, while the sewer is also placed beneath the center of the subway, which is 10 feet in width and 8 feet 6 inches in height. The air in this latest subway is especially good, and ventilators, with open gratings are placed about forty-eight feet apart, through which enough light is admitted to permit a fairly satisfactory inspection without artificial light, although provision is made for electric lighting.

Pipe Subways in Glasgow.—The first and only subway here was finished in 1904 or 1905. Its total length is 345 feet, and it is 6½ feet wide and 7 feet in height. Seventy-three cross-connections, consisting of 12-inch fire-clay pipe were laid from the subway to the curb line, and the cost complete, including connections for the service pipes and electric lighting, was somewhat less than \$18 a linear foot. The increased cost of 50 per cent over that of a subway of practically the same size in St. Helen's was, doubtless, due to the fact that it was not built in connection with a street reconstruction, Mr. Lewis believes. The subway contained in 1905 two 8-inch gas mains, one 9-inch water main, one 3-inch hydraulic power main, two 3-inch electrical conductors. So far as Mr. Lewis could learn there is no present intention of constructing additional subways in Glasgow.

While no other cities in Great Britain appear to have attempted to build pipe subways the subject has been considered by several of them, and three typical progressive cities were visited by Mr. Lewis in order that the condition of their streets might be observed and information secured as to their methods of administration.

Liverpool Underground Structures.—While no construction of this kind has been undertaken in Liverpool, reference is made to this city by Mr. Lewis for the reason that it has, perhaps, the best and most perfectly maintained stone pavements in the world. Inasmuch as the chief argument for the construction of pipe subways is to avoid the frequent mutilation and damage of pavements through

surface openings, it is interesting to note the street surface conditions in this city, where no attempt has been made to deal with the problem of subway construction.

Liverpool owns and operates its public utilities, except the gas works and the telegraph and telephone lines. Mr. John A. Brodie, city engineer, stated that he always felt pipe subways would be desirable, and some years ago, in connection with the building of a large sewer, he suggested to the different departments having control of pipes that one be constructed. The electrical department objected, as did also the postal department; the water department expressed an aversion to placing its mains in such a subway, and the gas company also objected on the ground that the inclusion of gas mains would involve danger which they were unwilling to assume.

The admirable condition of the stone pavements of this city must, therefore, be attributed to efficient administration, to the care with which subsurface structures are laid, to the avoidance of every unnecessary opening, to the prompt and skillful restoration of the pavements when such openings are necessary and, in Mr. Lewis' judgment, largely to the fact that the paving blocks are small in size, uniform in shape, and cut with special care. Mr. Brodie said that every possible effort is made before the paving of a street to see that the underground structures are in thoroughly good condition, with the understanding that there must be good evidence of an emergency before an opening will be permitted after the pavement has been laid.

While reference has been especially made to stone pavements, for the reason that it is usually more difficult to properly restore such pavements, what has been said would apply also to asphalt and macadam with a bituminous binder, which is now being frequently laid over old pavements of cobblestone, or boulders as they are there called, the surface being disturbed as little as possible, except for the readjustment of the curb and gutter.

Manchester Underground Structures.—The city of Manchester owns and operates its water supply, gas works, electric lighting plant and tramway system, although the post office department owns the telegraph and trunk telephone lines, while the local telephone service is at present in the hands of a private corporation. Here, again, there is evidence of a co-operation between the departments or branches of the city government controlling underground structures, so that disturbances of the street surface are reduced to a minimum. Notices are given to all departments before a street is paved, and openings are made only when absolutely necessary, while the surface is immediately restored by the department having control of the streets. No definite locations in the streets are assigned to pipes of various kinds, but the tendency is to place as many of them as possible under the sidewalks, instead of the roadway. So far as Mr. Lewis could learn there has been no serious consideration given to the building of pipe subways. The general condition of the street pavements, the almost complete absence of any openings or evidence of damage by reason of such openings give to the streets of Manchester an appearance far more orderly and attractive than is the case in most American cities.

Sheffield Underground Structures.—Sheffield is a manufacturing city with a population of about 465,000, which owns and operates all of its public utilities except the gas works. Some twenty years ago

plans had been made for a pipe subway, but the expense was considered too great and the plans were not carried out, since which time little consideration has been given to the subject. The traffic in the streets is very heavy, but the pavements are generally in excellent condition, with little evidence of damage through openings to gain access to underground pipes and conduits.

Milan Subway.—The only city in Western Europe which has built a subway for the express accommodation of pipes and subways is Milan, where, in the Via Dante, such a subway has been built, for a short distance. "The Via Dante was constructed as the direct approach from the heart of the city to the curved front of the symmetrical new park," according to Dr. Albert Shaw. "It is paved with wooden blocks on a concrete foundation, is lighted with electricity and is traversed by an electric street railway. But it is more notable for its underground construction than for its beautifully executed surface; for, apart from the main sewers, there are subways on either side of the street six feet high by four or five feet wide. These subways adjoin the front foundation walls and make it easy to inspect and repair the drain pipes which connect the houses with the sewers. Within these subways are placed the water pipes, gas pipes, electric wires, etc., and passages extend from them to the main sewers. It is considered in Milan that no street elsewhere in Europe so completely embodies the best principles of construction—below the surface if not above—as the new Via Dante."

At the time this city was visited, on August 15, by Mr. Lewis one side of the Via Dante was open for a considerable portion of the length occupied by the subway for the purpose of laying a new gas main, but he was unable to find out whether this main was placed in the ground for lack of room in the subway or owing to doubt as to the safety of placing a gas main therein. It is quite apparent that these subways in Milan were not originally built of sufficient size to permit of the convenient handling and inspection of pipes, and it is the smallest structure of its kind found in any of the cities visited.

Paris Subways.—One of the advantages claimed for the large sewers of Paris is that they can accommodate various pipes and wires which are ordinarily placed beneath the roadway, thereby avoiding the disturbance of the pavement. Mr. Lewis was informed that it was originally the practice to place gas mains in the sewers, but owing to several explosions, attended by serious and fatal results, it was decided forty or more years ago not to do this longer. These pipes, together with electric light and power conductors, are now placed under the sidewalks, and one of the engineers in charge of sewers said that they still consider the former practice dangerous, and never permit gas pipes to be placed in the sewers, which, besides providing for drainage, accommodate the telephone and telegraph wires and the water mains for the dual service, that is, the drinking water and the Seine water, which latter is used for flushing and street cleansing purposes, pneumatic tubes and hydraulic power pipes. Open pavements, with the attendant dirt and dust, are found in all parts of the city to such an extent that the condition of the Paris streets is the subject of constant comment in the English and continental newspapers. Admirable street conditions cannot, therefore, be attributed to the existence of pipe subways. Paris has the most extensive system of such underground galleries to be found in the world, and the condition

of its streets to-day leaves much to be desired. London has a very limited system, while its street conditions are vastly better, and there is little, if any, difference in the condition of the few streets having subways and those which have not, while, as hereafter noted, there are other cities which never had a pipe subway and where pavements are almost perfect.

Berlin Underground Structures.—In marked contrast to the condition of the streets to be found in Paris are those which exist in Berlin. This city has no pipe subways, nor, so far as Mr. Lewis could learn, has it any fixed rules governing the location of pipes in the streets, except that they are placed under the sidewalks wherever possible. Yet in cleanliness, in the perfection of the street surface, in almost entire absence of openings of any kind, in orderly arrangement and in decorative treatment, Berlin is in a class by itself and is unequaled by any other great city which was visited. These conditions can, in Mr. Lewis' judgment, only be explained by efficient administration and the fullest co-operation between the different branches of the city government charged with the care of and responsibility for the street surface and the structures above and under the surface.

The pavements are largely of asphalt and of the European rock asphalt, which is by nature more slippery than that commonly used in this country. To look at its smooth and almost glassy surface one would think that it would be difficult for horses to keep their footing, but owing to its absolute cleanliness there appears, at least in the summer season, to be little difficulty in this respect. In several streets in Charlottenburg, which immediately adjoins and is practically the same city as Berlin, surface railroad tracks are placed in parking spaces, in which not only is the grass maintained in excellent condition, but the edges of these spaces are bordered with flowering plants, giving the street an exceedingly attractive appearance. These streets are built up with apartment houses, the lower floors of which are occupied as shops, so that the contention that the introduction of parking would ruin a street for business purposes does not appear to be borne out by existing conditions in Berlin. The admirable manner in which the grass is maintained between and immediately alongside of the railroad tracks would surprise those who have concluded from the unsatisfactory results obtained from this treatment in New York that this is impossible.

Brussels, Cologne, Dresden and Munich.—The conditions in all of these cities are so similar that it is scarcely necessary to describe them in detail. All are conspicuous for their cleanliness and the excellent condition in which their streets are maintained. Openings in the pavements or the signs of such openings are rarely found, but none of them has deemed it necessary to build pipe galleries for the accommodation of their underground structures. The public utilities are, as a rule, owned and operated by the cities, and there is a co-operation between the different branches of the city government and an efficiency of administration which has given most satisfactory results.

Zurich Underground Structures.—This is the largest city in Switzerland, though its population is only about 190,000. It owns and operates all of its public utilities except the telephone and telegraph, which belong to the state. While the streets are very clean and the pavements in excellent condition, there are no special regulations governing the location of pipes or con-

duits. The necessary house connections are not put in until required, nor are there any special restrictions upon the opening of paved streets in order to repair underground structures except that traffic shall not be disturbed any more than is absolutely necessary. Repairs and connecting work are usually done by the city, and the expense of connections is charged against the property to be served by them.

There are some other policies of this Swiss city which Mr. Lewis considers worthy of note, such as its practice of assessing upon property benefited one-half of the increased value given that property by the acquisition and improvement of streets, and the administration of its water-front, in which the principal aim is not to produce a substantial revenue but to stimulate commerce through the reduction of charges.

Conclusions.—Mr. Lewis draws the following conclusions from his investigations:

1. No city has what might be called a "system" of subways for pipes and conduits, unless the sewers of Paris might be so called.

2. No city appears to have considered the systematic building of pipe subways in existing streets, for the reason that the expense is considered prohibitive.

3. With one unimportant exception, no city has attempted to build such subways unless in connection with the creation of new or the widening of existing streets.

4. In London, where the first pipe subway was built in 1861, only $8\frac{1}{2}$ miles have been constructed in 49 years, and the total length in all Great Britain, outside of London, is about one mile.

5. With the exception of London, the cities having subways own and operate the public utilities, so that no direct revenue is derived from them in the way of rental.

6. Where gas pipes have been placed in subways there is no evidence of leakage, and the municipal authorities regard this practice as safe. One fire has recently occurred in a subway, but there was no explosion, and it was not attended by serious damage.

7. The subways having been built in new streets, all of the pipes were new, and consequently there has been less danger of leakage than if old pipes had been placed in them.

8. In a number of cases where subways have been built it is positively stated that the pavement has not been disturbed since it was laid, and in the case of one stone pavement that no repairs whatever have been required in 25 years.

9. The cities most conspicuous for cleanliness and admirable pavements are not those which have pipe subways, and it is evident that these conditions are simply due to efficient administration and the co-operation of the different branches of the city government.—*Engineering Record.*

RESULT OF FILTERING WATER.

The direct and immediate effect of filtering the water supply on the quantity of typhoid in a city has been demonstrated once more in the case of Cincinnati, which put in a filtration system two years ago. The figures formerly ran: 1905, 746 cases of typhoid, 155 deaths; 1906, 1,940 cases, 239 deaths; 1907, 1,252 cases, 152 deaths. The figures have run as follows since the water was filtered: 1908, 235 cases, 67 deaths; 1909, 218 cases, 45 deaths. The average reduction of cases is 83 per cent, and deaths 70 per cent.

BOULEVARDS AND PROPERTY VALUES.

The extensive system of boulevards in Kansas City was all done under the assessment plan, and the results in the increase in value of abutting property are very gratifying. The general district of assessment adjoins the boulevard for a block or more in each direction, but most of the expense falls on the abutting property. The boulevards are made out of 50 or 60 foot streets widened to 100 feet, and in some cases 110, and additional width is allowed where a street railway was to use part of the space. There are wide parkways with trees and grass and flowers, in uniform plan, and maintenance cost is divided between the city and the property owners. The increase in value of frontage through boulevard construction is thus given by R. F. Weirick, a landscape architect: On Benton Boulevard, land worth \$15 to \$20 a foot before the improvement increased to \$45 to \$60, and the cost of construction was \$8.53 per foot. On Linwood, \$50 a foot before changed to \$80 to \$100, the cost being \$7.99. On Harrison, property worth \$8 to \$15 a foot advanced to \$70, cost being \$6.17. On Gladstone, property valued at \$40 to \$45 per foot rose to \$85 to 100, on a cost of improvement of \$8.88.

COMMISSION ON CONGESTION OF POPULATION.

Last April Mayor Gaynor appointed the New York City Commission on Congestion of Population, the members of which have since been subdivided into committees on parks, streets and highways, transit, housing conditions, factories, taxation, legislation, public health, immigration, administration of laws and ordinances, labor and wages, charities, public squares and buildings, crime and delinquency. A number of public hearings have already been held by the commission and by the committees. The nineteen members are men of ability and serve without pay. At this writing no action has been taken upon the request of the commission for an appropriation by the city of \$15,000 for the expenses of its investigations.—*American City.*

INCREASE IN BOND ISSUES.

In the year 1909 over \$320,000,000 of municipal bonds were issued in the United States, which is almost double that of the three preceding years combined.

CITY OF BOSTON.

BIDS FOR SALE OF ONE OLD WORTHINGTON PUMP.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for the sale of one of the two old Worthington pumps, the property of the city, now being dismantled and removed, at the Pumping Station, Calf Pasture. These pumps, including condenser, valves and all appurtenances have a capacity of 25,000,000 gallons per diem. The pump not sold will be offered for sale when dismantled, which will be probably April 1, 1911. The successful bidder will be required to give bond of a surety company approved by the superintendent in the sum of five hundred dollars (\$500) to secure the due performance of the contract and the full protection of the city. Each bid should be inclosed in an envelope, sealed, marked "Bid for Old Worthington Pump at Pumping Station, Calf Pasture," and left at the said office of the Superintendent of Streets, before 12 m. on Monday, December 5, 1910, with a certified check for two hundred dollars (\$200), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor, previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROUERKE,
Superintendent of Streets.
Boston, November 23, 1910. (Nov. 26.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe sewers and drains in Dyer and Uford streets, Dorchester, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewer in Dyer and Uford Streets," and left at the said office of the Superintendent of Streets before 12 m. on Monday, December 5, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROUERKE,
Superintendent of Streets.
Boston, November 23, 1910. (Nov. 26.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe sewer in Mallon road, between Rosseter street and Bowdoin avenue, Dorchester, and giving bond therefor of a surety company approved by the superintendent in the sum of six hundred dollars (\$600), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Pipe Sewer in Mallon Road," and left at the said office of the Superintendent of Streets before 12 m. on Tuesday, December 6, 1910, with a certified check for two hundred dollars (\$200), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

Superintendent of Streets.
Boston, November 23, 1910. (Nov. 26.)

CITY OF BOSTON.

PROPOSALS FOR FIRE HOSE.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 10 o'clock Wednesday morning, November 30, for 2,500 feet 2½-inch rubber hose, 1,000 feet 3½-inch cotton hose, to be delivered at headquarters, Bristol street. Specifications for 2,500 feet of 2½-inch rubber hose coupled with Boston standard couplings. Hose to be 50 feet long, 2½-inch bore, four-ply with cap ends, seamless lining. Hose not to elongate over 21 inches or to expand ½ inch. Specifications for 1,000 feet 3½-inch cotton hose with Boston standard couplings. Hose to be 50 feet long, 3½-inch bore. To be two or three ply fabric, with first-class rubber tubing, not to elongate over 26 inches or to expand over ½ inch. All hose to stand department test of 320 pounds to the square inch, and the makers of the hose must give guarantee for three years. A bid in duplicate must be filed with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Wednesday, November 30, at 10 a. m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.
(Nov. 26.)

CITY OF BOSTON.

PROPOSALS FOR FLOUR.

The Penal Institutions Commissioner invites proposals to supply the House of Correction, Deer Island, with 300 barrels, more or less, of hard wheat flour, and to furnish a bond in a surety company of \$500, if required by the commissioner. Said flour to be delivered on or before December 26, 1910, on board the steamer "Monitor" at Eastern Avenue Wharf, Boston, Mass. Specifications and sample of the grade as the standard may be obtained at office of the Penal Institutions Commissioner, 32 Tremont street. Proposals will be received until December 1, 1910, at 12 m., when the same will be publicly opened. The commissioner reserves the right to reject any or all bids. A duplicate of bid must be filed with City Auditor at or before same time.

FRED S. GORE,
Commissioner.
(Nov. 26.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR STREET LIGHTING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for lighting such streets, parks and alleys as may from time to time be designated by the city for a period of ten years from January 31, 1911, and giving bond therefor of a surety company approved by the superintendent in the sum of fifty thousand dollars (\$50,000) for work to be done under Items A, B and C, and twenty-five thousand dollars (\$25,000) under Items D and E, to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at said office of the Superintendent of Streets. Bids are to be based on furnishing approximately ten thousand lamps distributed in such separate districts as may be determined by the city, as follows:

A. For furnishing, maintaining and operating approximately ten thousand incandescent electric lamps in addition to the incandescent lamps now maintained under the existing electric lighting contract, or for the extension of the existing electric lighting contract for a period of ten years from January 31, 1911.

B. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners.

C. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

D. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners.

E. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

Items A, B and C to also include the maintenance and operation of approximately two hundred and ten fire-alarm signal lamps. The city will furnish the lamp posts. Bidders are to state a price for furnishing, maintaining and operating each lamp per annum, and price per lamp and automatic device complete and installed. Under Items D and E the city will furnish the gas by purchase from the gas company and provide for maintenance.

Samples of the equipment to be furnished under the bid must be submitted with the same. Each bid should be inclosed in an envelope, sealed, and marked "Bid for Street Lighting," and left at the said office of the Superintendent of Streets, before 12 m. on Saturday, December 24, 1910, with a certified check for five thousand dollars (\$5,000) under Items A, B and C, and one thousand dollars (\$1,000) under Items D and E, payable to and to become the property of the city if the bid, after acceptance, is not carried out. The bids will then and there be publicly opened and read. Bids must be in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bid. The undersigned reserves the right to reject any or all proposals, and to award the contract as he may deem in the best interests of the city.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 11 o'clock Wednesday, November 30, for the hay, grain and straw needed in the different departments for December, 1910. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 Dougherty oats, to test 40 to 42 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Wednesday, November 30, 1910, at 11 a. m. The superintendent reserves the right to reject or accept bids.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, DECEMBER 3, 1910.

No. 49

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, December 5, at 2 p. m.
Meeting of School Committee, Monday, December 5, at 5.30 p. m.
Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Thompson, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; Thomas Williams, teamster, $\frac{2}{3}$ day at \$2.25, \$1.62; Edward A. Pyne, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; James Murphy, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; James P. McKenney, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; Edward M. Houghton, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; John McCormack, 1st, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; Edward P. Sullivan, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; Patrick Farry, teamster, $\frac{1}{2}$ day at \$2.25, \$1.41; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, $\frac{1}{2}$ days at \$2.75, \$4.47; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Alexander Thompson, plumber, $\frac{1}{2}$ day at \$3, \$0.75; John J. Barry, repairer, $\frac{1}{2}$ day at \$2.50, \$0.63; John Welch, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Richard P. Collins, inspector, $\frac{1}{2}$ days at \$2.75, \$3.44; John Sullivan, 1st, machinist, $\frac{1}{2}$ day at \$2.75, \$0.34; Joseph T. Ryan, plumber, $\frac{1}{2}$ days at \$3, \$4.50; John J. Welch, plumber's helper, $\frac{1}{2}$ days at \$2.25, \$3.38; Bernard Flanagan, plumber, $\frac{1}{2}$ day at \$3, \$1.69; William A. O'Connor, inspector, $\frac{1}{2}$ day at \$2.75, \$2.06; Martin Burke, pipe layer, 1 day at \$2.50, \$2.50; Florence Driscoll, laborer, 1 day at \$2.25, \$2.25; Jeremiah P. Scanlon, inspector, $\frac{1}{2}$ day at \$2.75, \$1.38.

Water Department (Income Division).

For the week ending Thursday, November 24, 1910:

J. J. Callahan, laborer, $\frac{1}{2}$ days at \$2.50, \$3.44; P. J. Clougherty, laborer, $\frac{1}{2}$ days

at \$2.25, \$3.80; R. J. Connorton, tester, $\frac{1}{2}$ day at \$2.50, \$1.25; J. H. Cullen, plumber, $1\frac{3}{8}$ days at \$3, \$3.56; M. J. Dinneen, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; Thomas J. Dolan, plumber, $\frac{3}{4}$ day at \$3, \$2.25; P. F. Gately, plumber, $1\frac{7}{8}$ days at \$2.25, \$3.95; E. H. Gilmore, tester, $\frac{1}{4}$ day at \$2.50, \$0.63; O. J. Gilloon, plumber, $\frac{1}{2}$ day at \$3, \$1.50; T. H. Green, laborer, 1 day at \$2.75, \$2.75; M. M. Kenney, laborer, $1\frac{7}{8}$ days at \$2.25, \$3.23; F. B. Lang, tester, $\frac{1}{4}$ day at \$2.50, \$0.63; B. Magee, carpenter, $\frac{1}{4}$ day at \$3.50, \$0.88; Thomas Magee, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; E. Mahoney, laborer, $2\frac{7}{8}$ days at \$2.25, \$4.99; J. J. Mahoney, laborer, $1\frac{3}{8}$ days at \$2.25, \$2.67; Thomas McAuliffe, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; F. McCarthy, laborer, $\frac{1}{2}$ day at \$2.50, \$1.25; M. M. McGrath, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; M. Mulkern, laborer, $\frac{3}{4}$ day at \$2.25, \$1.76; J. H. O'Brien, laborer, $\frac{3}{4}$ day at \$2.25, \$0.84; Joseph Rice, tester, 1 day at \$2.50, \$2.50; J. J. Roche, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; D. J. Rull, Jr., plumber, $1\frac{1}{8}$ days at \$3, \$4.13; J. J. Shea, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Daniel Sullivan, laborer, $1\frac{3}{8}$ days at \$2.25, \$2.46; J. Sullivan, laborer, $1\frac{1}{8}$ days at \$2.25, \$2.53; T. J. Sullivan, plumber, $\frac{3}{4}$ day at \$3, \$2.25; J. E. Tierney, machinist, 1 day at \$3, \$3; M. P. Welch, plumber, $1\frac{3}{8}$ days at \$2.75, \$3.01.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending December 1, 1910:

STREET DEPARTMENT (Highway Division).

On November 26 the Mayor approved a contract with James Doherty for building, with trap rock, a macadam roadway in Addison street, East Boston. Bids on this work, opened November 21, were as follows:

William J. Rafferty & Co., \$15,274; James Doherty, \$14,049.50; John McCourt & Co., \$14,061; J. F. O'Connell, \$18,118.50; J. H. McCarthy, \$14,451.

Estimated quantities:

Preparing site: 1,100 cubic yards excavation; 3,900 cubic yards filling; 2,800 linear feet straight edgestone furnished and set; 50 linear feet circular edgestone furnished and set; 1,020 square yards granite block paving hauled and laid; 50 square yards flagging furnished and laid; 4,400 square yards macadam; 2,400 square yards brick sidewalks. Engineer's estimate, \$17,100.

STREET DEPARTMENT (Sanitary Division).

On November 28 the Mayor approved a contract with Mark H. Lynch for the removal of snow and ice in snow district No. 3. Bids on this work, opened November 23, were as follows:

	Per Cubic Yard.
Mark H. Lynch	\$0 32
Charles J. Jacobs Company	44
Coleman Brothers	45
John Kelly	45

WITHOUT ADVERTISING.

SUPPLY DEPARTMENT.

On November 26 the Mayor approved a contract with J. H. MacAlman, made

without advertising, for the purchase of one Columbia car, with cape top and wind shield, for the Building Department.

The price to be \$2,900 less \$250 allowance for White Steamer taken in part payment.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$20, on contract with the John F. Griffin Company for the James Otis School, on account of building iron support in concrete at center span of each portion of fence. Original contract, \$1,296; total additions, \$357; contract as standing, \$1,653.

Addition, amounting to \$110, on contract with McGahey & O'Connor for addition to Blackinton School, on account of installing double tank over center of urinal. Original contract, \$66,000; total additions, \$381.05; contract as standing, \$66,381.05.

Addition, amounting to \$35, on contract with Thomas H. Hanlon for Warren School, on account of covering pipe in ceiling and laying tar paper over screeds in manual training room. Original contract, \$1,363; total additions, \$35; contract as standing, \$1,398.

Addition, amounting to \$157.50, on contract with James P. Dwyer for addition to Girls' High School, on account of miscellaneous items. Original contract, \$9,250; total additions, \$257.50; contract as standing, \$9,507.50.

Addition, amounting to \$98, on contract with William Crane for addition to Girls' High School, on account of building trench and furnishing and installing lintels over register openings. Original contract, \$105,880; total additions, \$487; total deductions, \$9,550; contract as standing, \$96,817.

Deduction, amounting to \$25, on contract with Mack & Moore for Lafayette School, on account of plumbing trenches in building. Original contract, \$51,399; total deductions, \$25; contract as standing, \$51,374.

STREET DEPARTMENT (Highway Division).

An addition, amounting to \$1,000, on contract with the Barber Asphalt Company, for repaving with asphalt the asphalt pavement in any street in Boston upon which the maintenance guarantee has expired.

"The original contract was limited to \$15,000, and on August 11 an extension was granted of \$3,000.

"The department finds there is an additional area which is necessary to have repaired without delay, thereby necessitating a further extension of \$1,000.

L. K. ROURKE,
Superintendent of Streets."

STREET DEPARTMENT (Sewer Division).

An addition, amounting to \$1,150, on contract with the Power Equipment Company, on account of furnishing, delivering and erecting two steam turbine centrifugal pumps to admit of vertical suction and delivery.

CITY OF BOSTON,
STREET DEPARTMENT, SEWER DIVISION,
BOSTON, MASS., November 22, 1910.
MR. L. K. ROURKE,

Superintendent of Streets:

DEAR SIR,—In making the layout for the new pumps to be installed at the Pump-

ing Station, to determine the layout for the connecting piping to be installed by the city, a much better layout for the pumps has been devised than the one submitted by the contractor. The new layout will bring the steam ends of the pumps together, which the other did not; it will greatly facilitate the handling of the pumps and auxiliaries when in operation, will increase their efficiency by the elimination of considerable friction and will enable us to completely install and have in operation one of the pumps before starting to dismantle the other. This change will necessitate the making by the contractor of a new style of pump casing, at an extra cost of about \$1,100, but it will enable the city to make a saving of about \$1,500 in the piping installation. I would advise this extra under the contract, as it will be greatly to the benefit of the city in many ways.

Respectfully,

E. S. DORR,
Chief Engineer.

Approved.

L. K. ROURKE.

PETITIONS GRANTED.

The following petitions, granted by the Board of Street Commissioners, have been approved by the Mayor:

Signs.—A. G. Winsor, Copley Hall, Clarendon street; Arter Gordon, 62 Hanover street; Henry W. Savage, 28 Kneeland street; Louis Gold, 155 Blue Hill avenue; Morris Silverburg, 191 Massachusetts avenue.

Illuminated Signs.—Abraham Ynkelewitz, 1945 Washington street; George H. Richmond, 1311 Tremont street; H. Callaghan, 1140 Columbus avenue; Jaynes Drug Company, 129 Summer street; R. S. Hoffman & Co., 12 Central street; Addie I. Hutchinson, 559 Dudley street; Thomas J. Flynn & Co., 62-64 Essex street; Peters & Arthur, 2196 Washington street; J. M. Callahan, 25 Traverse street; Grabowsky Power Wagon Company, 205-209 Pleasant street; Plimpton-Hervey Company, 21 Washington street.

Gasolene, etc.—Hugh Nawn Contracting Company, 97 Paul Gore street; Mannings, Incorporated, 113 Brighton avenue.

Guy Post.—Bernard W. Marcus, 25 Peterborough street.

Bulkhead Opening.—Estate of John McNamara, 95 Tremont street, Ward 3.

To Plant Trees.—W. E. McGonigle, 115 Radcliffe street.

APPROVAL OF SCHOOLHOUSE PLANS.

The Mayor has approved the following plans for schoolhouse construction: Building, plumbing, electrical, heating and ventilating plans prepared by the Schoolhouse Department, Architectural Division, for the lower elementary school, Edward Everett District, Dorchester; building and plumbing plans for Prescott School boiler house annex, prepared by Brainerd & Leeds, architects.

APPOINTMENT OF ARCHITECT.

The Mayor has approved the appointment of William H. Besarick as architect to prepare plans and specifications for underground vault in front of City Hall building, for the storage of records, etc., of the Collecting Department. The fee for services, which includes supervision, to be 6 per cent on total cost.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the superintendent have been approved by the Mayor:

Highway Division.

Joseph B. Goodnow, 30 days at \$2.25, \$67.50.

Sanitary Division.

Thomas Ambrose, 30 days at \$2.25, \$67.50; Matthew J. Barrett, 3 days at \$2.25, \$6.75; Arthur W. Blankenberg, 3 days at \$2.25, \$6.75; Joseph H. Boyle, 7 days at \$3.16 $\frac{2}{3}$, \$22.17; Thomas Butler, 10 days at \$3, \$30; Michael J. Cahill, 25 $\frac{1}{2}$ days at \$2.25, \$57.38; Guissippi Capozzi, 12 days at \$2.25, \$27; Elmer E. Caverly, 6 $\frac{1}{2}$ days at \$2.25, \$14.63; Michael F. Dolaher, 14 days at \$2.25, \$31.50; John Halloran, 30 days at \$2.25, \$67.50; Edward J. Mellen, 6 days at \$2.25, \$13.50; Patrick J. O'Toole, 21 days at \$2.25, \$47.25.

WATER DEPARTMENT.

The following allowance made by the commissioner has been approved by the Mayor:

George A. Murphy, 37 days at \$2.25, \$83.25.

PUBLIC LIBRARY EXAMINING COMMITTEE, 1910-11.

The trustees of the Public Library have, as required by the city ordinance, appointed an examining committee for this year, and joined the president of the Library Board with it as chairman. The names of those persons who have been appointed and who have accepted as members of the committee are as follows:

Mr. Jeffrey R. Brackett, 41 Marlborough street.
Mr. G. L. Bruné, 105 Mt. Vernon street.
Mr. George W. Chadwick, 360 Marlborough street.
Mr. Henry V. Cunningham, 215 Humboldt avenue, Roxbury.
Mrs. Wirt Dexter, 393 Commonwealth avenue.
Mr. George C. Dickson, 677 Massachusetts avenue.
Rev. William J. Dixon, 13 Thomas park, South Boston.
Mr. Thomas M. Donnelly, 37 Chambers street.
Miss Rose E. Fitzgerald, 39 Welles avenue, Dorchester.
Mr. James A. Gallivan, 353 West Fourth street, South Boston.
Miss Heloise E. Hersey, 78 Mt. Vernon street.
Mr. Samuel H. Hudson, 423 Marlborough street.
Mrs. Francis Hurtubis, Jr., 407 Marlborough street.
Mr. Stanton H. King, 25 Monument square, Charlestown.
Mr. Frank Leveroni, 32 Hull street.
Mr. Joseph B. Maccabe, 198 Trenton street, East Boston.
Mr. Alexander L. MacDonald, 251 Columbus avenue.
Mr. Max Mitchell, 64 Wallingford road, Brighton.
Mr. Thomas A. Mullen, 11 Orkney road, Brighton.
Miss Alice F. Murray, 60 Hartford street, Dorchester.
Miss Elizabeth M. Needham, 1 Penryth street, Jamaica Plain.
Mrs. Ellor Carlisle Ripley, 1247 Commonwealth avenue, Brighton.
Mr. George H. Sargent, 39 Lindsey street, Dorchester.
Rev. Samuel Snelling, 25 Stratford street, West Roxbury.
Rev. James A. Supple, 1 St. Cecilia street.
Rev. William H. Van Allen, 28 Brimmer street.
Mr. Thomas M. Watson, 47 Bainbridge street, Roxbury.
Mr. George N. Whipple, 459 Beacon street.

APPROVAL OF STREET EXTENSION.

The Mayor has approved the lines and grades of Wadsworth street extension, between the present end of street and a point 164 feet easterly, and of Sawyer terrace, between Wadsworth street extension and Ashford street, Brighton, so far as it relates to work to be done by the Sewer Division of the Street Department.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising:

Build, with the department force, a surface drain of 20-inch, 18-inch, 15-inch and 12-inch earthen pipe in Homes avenue, between a point about 350 feet west of Hamilton street and Hamilton street, Dorchester district, the estimated amount being \$1,310.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"Public necessity and convenience require that this work be done after November 15, for which your authority is requested.

JAMES H. SULLIVAN,
Acting Superintendent of Streets."

PERMISSION TO SELL.

The Mayor has granted to the trustees of the Infirmary Department authority to sell hogs to the amount of \$500.

CONTRACT FOR SIDEWALKS.

In the issue of November 19, in award for contract for sidewalks, the name of the contractor should have read Thompson-Starrett Company, instead of Thomas Starrett as printed.

FREE MUNICIPAL CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of December:

DECEMBER 6, WEST ROXBURY HIGH SCHOOL, ELM STREET, JAMAICA PLAIN.
Miss Emily G. Hayden, soprano, Mr. William Howard, violinist.

PROGRAM.

Overture. "Fra Diavolo." *Auber.*

Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

REFORMING TRINITY TENEMENTS.

In the past eight years the Tenement House Department of the New York City government has let the light into 64,000 dark rooms. One-fourth of the population of the city now lives in tenements properly constructed under the new laws with a reasonable amount of light and air. Miss Emily Wayland Dinwiddie, who has been one of the chief moving spirits in this development, has lately been employed by Trinity Church to take charge of its tenements. It will be remembered that for a long time the Trinity tenements were a byword in New York City for filth, squalor and dilapidation. Worst of all, that corporation was found arrayed with the evil influences at Albany that fought against reform legislation for the slums. There were, it is true, tenements that were worse than Trinity's, and in many cases of dilapidated and unsanitary buildings the church was only indirectly responsible as the ground had been leased. However, when public attention was called to the state of things, Trinity, after bluffing for a time and declaring that it would not be coerced by muckrakers, accomplished a clean-up, and now has placed Miss Dinwiddie in charge as a promise of ultimate complete reform.

PROCEEDINGS OF SCHOOL COMMITTEE.

Nov. 22, 1910.

A regular deferred meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4:52 o'clock P.M.

Present: Messrs. Brock, Ellis, Lee, Magenis and Scannell.

CHAIRMAN PRO TEMPORE.

Pending the arrival of the Chairman, the Board was called to order by Mr. George E. Brock, the senior member, who continued to preside until Mr. Ellis arrived.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

DEATH.

The Superintendent reported the death of the following named teacher who had been retired on pension:—

Public Latin School—Selah Howell, master, Nov. 7, 1910.
Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:—

(To Retire From the Service.)

Mechanic Arts High School—David H. Fulton, instructor, Oct. 31, 1910.

Sewing—Helen L. Burton, teacher, Dec. 31, 1910.

Accepted.

RETIREMENT.

The following retirement of a teacher, to take effect Oct. 5, 1910, because of marriage, was reported by the Superintendent:—

Lyman District—Grace M. Plummer, assistant.

Placed on file.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SPECIAL ASSISTANTS.

Agassiz District—Delia M. Coneys, Nov. 1, 1910, two days.

Cheverus District—Mary E. Sheehan, Nov. 14, 1910.

Elliot District—Margaret A. M. Collins, Nov. 28, 1910.

John A. Andrew District—Cecilia V. Mara, Nov. 7, 1910; Jessie N. Roberts, Nov. 1, 1910.

Lewis District—Margaret M. Keefe, Nov. 14, 1910.

Roger Wolcott District—Grace E. Russell, kindergarten, Nov. 14, to 18, 1910, inclusive.

Approved.

ON PROBATION.

(From the Eligible List.)

Adams District—Anna M. Doyle, assistant, Dec. 6, 1910.

Cheverus District—Elizabeth A. Burns, assistant, Dec. 6, 1910; Mary E. Hallinan, assistant (second year), Dec. 6, 1910.

Dearborn District—Elizabeth B. Faden, assistant, Dec. 6, 1910.

Dillaway District—Helen G. Murphy, assistant, Dec. 6, 1910.

Elliot District—Mae D. Benzaquin, assistant, Dec. 6, 1910; Mary A. Hayes, assistant (third year), Dec. 6, 1910.

Hugh O'Brien District—Helen M. Bulle, assistant, Dec. 6, 1910.

John A. Andrew District—Augusta A. Jackson, assistant (fourth year), Dec. 19, 1910.

Lyman District—Gertrude E. Johnson, assistant, Dec. 6, 1910; William H. Ryan, assistant, Dec. 6, 1910.

Mather District—Annie H. Chadwick, assistant (fourth year), Dec. 6, 1910; Emily W. Collins, assistant, Dec. 6, 1910.

Phillips Brooks District—Mary E. Doherty, assistant, Dec. 6, 1910; Caroline L. McAloon, assistant, Dec. 6, 1910.

Roger Wolcott District—Mary L. Walsh, assistant, kindergarten, Dec. 6, 1910.

Wendell Phillips District—Marie M. Knowles, assistant, Dec. 6, 1910.

Manual Training—Mabel F. Alden, assistant instructor, Dec. 6, 1910; Andrew J. Leahy, assistant instructor, Nov. 28, 1910.

Sewing—Evelyn F. Lally, teacher, Jan. 1, 1911.

Laid over.

(Under a License.)

Trade School for Girls—Mary A. McBride, helper, Nov. 16, 1910; A. Veronica Tracy, helper, Oct. 18, 1910; Catherine Kelliher, aid, Nov. 1, 1910; Mary E. Legg, aid, Oct. 17, 1910.

Laid over.

EVENING SCHOOLS.

Term of 1910-11.

Bowdoin Evening School—Marion A. Fields, assistant, Nov. 14, 1910; Anna E. Spillane, assistant, Nov. 21, 1910.

Franklin Evening School—Mary G. Murray, assistant, Oct. 3 and 4, 1910 (two evenings).

Quincy Evening School—Shibley D. Malouf, interpreter, Nov. 14, 1910.

Wells Evening School—Albert A. Shapira, interpreter, Nov. 15, 1910.

Approved.

TRANSFERS.

Gaston District—Elizabeth G. Burke, assistant, to the same position in the Lewis District, Nov. 21, 1910.

William E. Russell District—Nellie B. Vinal, assistant, to the same position in the Oliver Wendell Holmes District, Nov. 8, 1910.

Approved.

ATTENDANTS IN KINDERGARTENS.

Chapman District (Tappan Kindergarten)—Alice F. Hughes, Nov. 17, 1910.

Lewis District—(Sarah J. Baker Kindergarten), Mary Cook, Nov. 14, 1910; W. L. P. Boardman Kindergarten), Lillian Cohen, Sept. 14, 1910.

Lowell District—(Lucretia Crocker Kindergarten), Louise Janssen, Sept. 14, 1910; (Wyman Kindergarten), Ida B. James, Sept. 14, to Oct. 14, 1910.

Sherwin District—(Ruggles-street Kindergarten), May R. Vachon, Sept. 14, 1910.

Placed on file.

Mr. Lee, to whom was referred at the meeting of Oct. 17, 1910 (see p. 162), various communications in regard to the employment of additional kindergarten maids in certain districts, made an oral report thereon recommending that such maids be allowed in the Lewis and Sherwin Districts, which was accepted.

CONFIRMATIONS.

The following confirmations were submitted by the Superintendent:—

Abraham Lincoln District—Mary E. Nugent, assistant.

Bennett District—E. May Hastings, first assistant in charge.

Dudley District—Eileen V. Driscoll, Alice L. McCormick, assistants.

Dwight District—Harriet E. Sargent, master's assistant.

Franklin District—Marguerite F. Lally, assistant.

Rice District—Julia M. Fitzpatrick, assistant.

Roger Wolcott District—Katherine E. Peard, assistant, kindergarten.

Approved.

LEAVE OF ABSENCE.

On the report of the Superintendent, leave of absence for study and travel, under the provisions of section 317 of the regulations, was granted the following named teacher for the term specified:—

Martin District—Lucy Kummer, first assistant, kindergarten, from Nov. 28, 1910, to June 1, 1911.

TRADE SCHOOL FOR GIRLS.

On motion of the Superintendent, it was ORDERED, That the appointments of the following-named teachers in the Trade School for Girls for the school term 1910-11, approved by the School Committee on June 6, 1910, take effect Sept. 1, 1910:

First Assistant—Mary H. Brown.
Vocational Assistant—Cornelia B. Rodman.

Trade Assistants—Mary J. Orr, Grace Ripley, Marie Thayer, Mabel Kinsey, Lura M. Paine.

Helpers—Mary E. Cadigan, Sarah A. Collins, Mary E. Connor, Mary V. Cunningham, Luna K. French, Marie F. Libourel, Ella Maker, Rebecca Anslow, Blanche Whiting.

ADDITIONAL SUB-MASTER, DEARBORN DISTRICT.

The Superintendent offered the following:—

ORDERED, That an additional sub-master be allowed for the remainder of the school year in the Dearborn District, to take effect Jan. 2, 1911.

Passed, under a suspension of the rules.

ADDITIONAL SUB-MASTER, WASHINGTON DISTRICT.

The Superintendent offered the following:—

ORDERED, That an additional sub-master be allowed for the remainder of the school year in the Washington District, to take effect Jan. 2, 1911.

Passed under a suspension of the rules.

COMMITTEE OF PRINCIPALS TO STUDY SUBJECT OF STREET ACCIDENTS TO CHILDREN.

A communication was received from the Superintendent, under date of Nov. 22, 1910, stating that in compliance with the order passed at the meeting of Nov. 7, 1910 (see p. 175), he had appointed the following committee of principals to study the subject of street accidents to children:—

Frank L. Keith, Chairman,
William E. Perry,
James H. Leary,
W. Lawrence Murphy,
Charles F. Merrick,
W. Lester Bates,
Frederick W. Swan.

Placed on file.

ASSUMPTION OF FINANCIAL RESPONSIBILITY FOR SCHOOL ATHLETICS BY SCHOOL COMMITTEE.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby directed to consider and report with reference to the desirability of having the School Committee assume the entire financial responsibility of school athletics, with the view of enabling a larger number of pupils to participate therein, and to provide opportunity for a larger number of pupils to view athletic contests without expense.

PAYMENT OF NEWSBOY JUDGES AND CLERK OF THE NEWSBOYS' TRIAL BOARD.

On motion of the Superintendent, it was ORDERED, That each of the three newsboy judges and the clerk of the Newsboys' Trial Board be paid fifty cents (50c.) a session for each session of the Board at which they are in attendance.

ADDITIONAL KINDERGARTEN, ROGER WOLCOTT DISTRICT.

A communication was received from the Superintendent, under date of Nov. 22, 1910, reporting with reference to the petition referred to him at the meeting of Oct. 3, 1910 (see p. 158), as to the desirability of establishing an additional kindergarten in the Roger Wolcott District in the vicinity of Walk Hill and Wellington Hill streets, stating that at his request the Assistant Superintendent in charge, and the principal of the district, had investigated the situation and he concurs in their recommendation that it is at present inexpedient to establish an additional kindergarten in the Roger Wolcott District.

Placed on file, and the recommendation adopted.

AMENDMENT TO REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Section 201. Strike out the section and substitute the following in place thereof:—

Sect. 201. The school year shall begin on the first day of September in each calendar year, and close on August 31 of the following calendar year.

Laid over under the rules.

NEWSBOYS' TRIAL BOARD, RESULT OF ELECTION OF JUDGES.

A communication was received from the Superintendent, under date of Nov. 22, 1910, reporting the results of the recent election held in the schools of judges of the Newsboys' Trial Board, from which it appears that the following-named newsboys have been duly elected:—

Harry Hornstein
Louis Gray
Jacob Rosen

Placed on file.

ANNUAL REPORT OF THE SUPERINTENDENT.

The Annual Report of the Superintendent of the Public Schools of the City of Boston for the school year 1909-10, being School Document No. 10-1910, was presented.

Placed on file.

INCREASED EMPHASIS, HIGH SCHOOL WORK.

A communication was received from the Board of Superintendents, under date of Nov. 10, 1910, in response to the order passed by the School Committee at its meeting of June 6, 1910, requesting the Board of Superintendents and the Head Masters' Association to report with reference to increasing the work done by high school pupils and restricting the social activities in the high schools within reasonable and proper bounds. The Board submitted various recommendations with reference to limitation of admissions to high schools; elimination from high schools of pupils who are unable or unwilling to do the work required; making instruction more practical, more real, more vital; making of sections of more uniform size; increasing the length of the school day for high school pupils, provided the number of instruction periods for teachers shall not be increased; increasing the number of points required for a diploma; omission of school dances in the evening; increasing the scholarship eligibility requirements on athletic teams.

Accompanying the communication was a report on the same subjects from the Head Masters' Association.

Laid on the table, and the Secretary directed to transmit copies thereof to the members of the Board.

ELIGIBLE LIST.

A communication was received from the Board of Superintendents, under date of Nov. 10, 1910, submitting a list of candidates rated on the results of the examination held on Friday and Saturday, Oct. 28 and 29, 1910, for the certificate of qualification XI. Special: Woodworking in Elementary Schools, stating that these names do not constitute a separate eligible list; and each name should, therefore, be inserted in the previously published list (School Document No. 7, 1910), pp. 27 and 28:—

Woodworking Certificates.

Rating.	Name.	Certificate expires.
509-	Mabel F. Alden.....	June 30, 1916
762-	Mercy W. Sanborn.....	June 30, 1916
735-	Jennie G. Cook.....	June 30, 1916
713-	Grace M. Sawyer.....	June 30, 1912
708-	Andrew J. Leahy.....	June 30, 1916

Placed on file.

PAYMENT TO JANITORS, MUNICIPAL MUSIC DEPARTMENT CONCERTS.

A communication was received from the Secretary, under date of Nov. 17, 1910, recommending that he be relieved from the duty of collecting the amounts due janitors for services rendered by them in connection with concerts to be given by the Municipal Music Department in school buildings, and that the former arrangement for the direct payment to janitors for such services by the Music Department, be continued.

Placed on file, and the recommendation adopted.

TUITION OF NON-RESIDENT PUPILS, CONTINUATION SCHOOL.

A communication was received from the Business Agent, under date of Nov. 12,

1910, recommending rates of tuition to be established for non-resident pupils attending the Continuation School.

Placed on file, and in accordance with the foregoing recommendation, it was ORDERED, That tuition for non-resident pupils in the Continuation School be fixed at the following rates:—

Preparatory course (30 sessions), \$1.50.
Advanced course (30 sessions), \$5.00.

No reduction to be made on account of but partial attendance at any course.

WARD ROOM SCHOOL, MEETING HOUSE HILL.

A communication was received from the Business Agent, under date of Nov. 22, 1910, recommending the discontinuance of occupancy for school purposes of the ward room building at Meeting House Hill for which the Superintendent of Public Buildings proposes to charge rental at the rate of \$50 per month.

Placed on file, and in accordance with the foregoing recommendation, it was

ORDERED, That the Board of School-house Commissioners be notified that on and after Jan. 1, 1911, the Ward Room at Meeting House Hill will not be needed for school purposes.

FINANCE COMMISSION TO RECOMMEND RENTAL RATES.

A communication was received from the Business Agent, under date of Nov. 22, 1910, recommending that the Finance Commission be requested to determine rates for rentals to be paid by and to the School Committee and other city departments.

Placed on file, and on motion, it was ORDERED, That the Finance Commission be requested to recommend rates for rents for use of all buildings controlled by the School Committee and used by city departments, or controlled by city departments and used by the School Committee.

AMENDMENT TO RULES FOR JANITORS, ENGINEERS AND MATRONS.

A communication was received from the Schoolhouse Custodian, under date of Nov. 21, 1910, recommending that the Rules for Janitors, Engineers and Matrons be amended with reference to the desirability of burning all waste paper.

Placed on file, and on motion, it was ORDERED, That Rule 12 of the Rules for Janitors, Engineers and Matrons be amended by striking out said rule and substituting in place thereof the following:—

Rule 12 Waste paper shall not be allowed to accumulate, but must be burned daily.

JANITORSHIP, LEWIS SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Nov. 21, 1910, submitting a list of applicants for transfer to the janitorship of the Lewis School-house, Annex and Portables Nos. 19, 21, 22, 38, 39 and 69, and recommending the transfer of the second applicant on the list on the ground that the best interests of the department will be served by not transferring janitors oftener than every six months, especially those holding positions paying a fair rate of compensation, to take effect Nov. 27, 1910.

Placed on file, and the transfer of Andrew J. Dole, janitor of the Benjamin Pope School-house and Portables Nos. 16, 36 and 63, who stands at the head of the list, to said position, approved to take effect on the date stated.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian under date of Nov. 22, 1910, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for such services, as follows:—

Capen School-house—Daniel T. Kelly, acting janitor. Amount due for services rendered Nov. 8 to 12, 1910, inclusive, \$9.51.
Common-street School-house—Michael Keefe—reappointed Nov. 12 and 22, 1910. Amount due for services rendered Nov. 8 to 22, 1910, inclusive, \$19.67.

Cyrus Alger School-house—Henry J. Mahoney—appointed Oct. 23—reappointed Nov. 2 and 12, 1910. Amount due for services rendered Oct. 23 to Nov. 12, 1910, inclusive, \$44.37.

Harvard Hill School-house—Charles Timmins—reappointed Nov. 17, 1910. Amount due for services rendered Nov. 8 to 22, 1910, inclusive, \$25.46.

Hutchings-street Portable No. 41—Henry T. Brennan—reappointed Nov. 17, 1910. Amount due for services rendered Nov. 8 to 22, 1910, inclusive, \$2.96.

Mt. Vernon-street School-house and Portable No. 106—Charles Devney, acting janitor—appointed Nov. 13, 1910. Amount due for services rendered Nov. 13 to 22, 1910, inclusive, \$20.59.

Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses and Portables Nos. 42, 102 and 105—Ira M. Jacobs, acting janitor, reappointed Nov. 12 and 22, 1910. Amount due for services rendered Nov. 8 to 22, 1910, inclusive, \$70.65.

William Lloyd Garrison School-house—Henry T. Brennan, reappointed Nov. 13, 1910. Amount due for services rendered Nov. 8 to 22, 1910, inclusive, \$40.22.

Placed on file, and the reappointments approved.

On motion, it was ORDERED, That for services rendered as acting janitors of various school-houses, payments be made, as follows:—

To Henry T. Brennan, Hutchings-street Portable No. 41, from Nov. 8 to 22, 1910, inclusive, two and 96-100 dollars (\$2.96).

To Henry T. Brennan, William Lloyd Garrison School-house, from Nov. 8 to 22, 1910, inclusive, forty and 22-100 dollars (\$40.22).

To Charles Devney, Mt. Vernon-street School-house and Portable No. 106, from Nov. 13 to 22, 1910, inclusive, twenty and 59-100 dollars (\$20.59).

To Ira M. Jacobs, Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses and Portables Nos. 42, 102 and 105, from Nov. 8 to 22, 1910, inclusive, seventy and 65-100 dollars (\$70.65).

To Michael Keefe, Common-street School-house, from Nov. 8 to 22, 1910, inclusive, nineteen and 67-100 dollars (\$19.67).

To Daniel T. Kelly, Capen School-house, from Nov. 8 to 22, 1910, inclusive, nine and 51-100 dollars (\$9.51).

To Henry J. Mahoney, Cyrus Alger School-house, from Oct. 23 to Nov. 12, 1910, inclusive, forty-four and 37-100 dollars (\$44.37).

To Charles Timmins, Harvard Hill School-house, from Nov. 8 to 22, 1910, inclusive, twenty-five and 46-100 dollars (\$25.46).

APPROVAL OF PAY ROLLS AND BILLS.

On motion, it was ORDERED, That the pay rolls and bills, both regular and special, for the month of December, 1910, prepared and certified to by the Business Agent, be approved on behalf of this Board by Mr. Magenis, or in the event of his absence by Mr. Brock.

RELATION OF SCHOOL NURSES TO OTHER NURSES AND SOCIAL WORKERS.

A report was received from the Advisory Committee on School Hygiene, under date of Nov. 12, 1910, on the order passed June 27, 1910 (see p. 129), with reference to the Relation of School Nurses to other Nurses and Social Workers, stating that the relation should be close and co-operative, and can be best secured by having the school nurses and the various nursing, sociological and charity workers meet regularly for conference, at which meetings a free interchange of problems and solutions bearing upon the care of school children should be presented and discussed.

Laid on the table, and the Secretary directed to transmit a copy thereof to each member of the Board.

REVISED SCHEDULE OF RATING FOR JANITORS.

A communication was received from William M. Kendrick, Secretary of the Janitors' Association, under date of Nov. 21, 1910, submitting a proposed revision of the present schedule for rating janitors, and requesting a hearing thereon.

Laid over, and the Secretary directed to notify the Janitors' Association that the desired hearing will be granted at the next meeting of the Board.

SUSPENSION OF A JANITOR.

A communication was received from Messrs. Brock and Magen, under date of Nov. 12, 1910, to whom was referred at the meeting held on Nov. 7, 1910 (p. 173), the matter of the suspension of Samuel T. McClellan, janitor of the Nathaniel Hawthorne and other school-houses, recommending that this matter be referred to the Trial Board established June 6, 1910 (see p. 112), and that said board be instructed to consider and report upon the specific instances of neglect of duty on the part of said janitor alleged by the Schoolhouse Custodian, and also with regard to his general character, behavior and efficiency as a school janitor.

Placed on file, and the recommendation adopted.

PAYMENT TO JOSEPH DE MARCO AND EDWARD BERGE-SOLER.

On motion, it was ORDERED, That there be paid to Joseph De Marco and Edward Berge-Soler each the sum of \$10 for services rendered in the examination of candidates for the position of truant officer conversant with Italian in December, 1909, and January, 1910.

PETITION FOR INCREASE IN SALARY OF FIRST ASSISTANTS IN CHARGE.

A petition was received from a committee representing the first assistants in charge of elementary schools for increase in salary, and stating the considerations upon which the application is based.

Laid over.

EMPLOYMENT OF MATRON, BIGELOW EVENING SCHOOL.

A communication was received from Mary J. Slattery, under date of Nov. 17, 1910, requesting a reconsideration of the decision of the Board (see p. 176), whereby her services as matron of the Bigelow Evening School were terminated.

Placed on file.

BOSTON NEWSBOYS' UNION REPRESENTED ON THE NEWSBOYS' TRIAL BOARD.

A communication was received from the Boston Newsboys' Union, under date of Nov. 14, 1910, setting forth what the Union had accomplished since its organization for the newsboys of Boston, and urging that it should have proper representation on the Newsboys' Trial Board.

Placed on file.

ADVANCEMENT OF PUPILS ACCORDING TO QUALIFICATIONS.

A communication was received from the Mount Hope Citizens' Association, under date of Nov. 10, 1910, transmitting a vote of said Association with reference to the advancement of pupils in the public schools according to their respective qualifications and not by fixed rule.

Referred to the Board of Superintendents for consideration and report.

USE OF GROUNDS IN REAR OF SOUTH BOSTON HIGH SCHOOL.

A communication was received from the South Boston Citizens' Association, under date of Nov. 19, 1910, protesting against the use of the grounds in the rear of the South Boston High School as a public playground, and requesting a hearing on the matter.

Laid over, and the Secretary directed to arrange for the desired hearing at the next meeting of the Board.

COMPLAINT OF FRANK M. ZOTTOLI.

The Secretary submitted sundry communications from Frank M. Zottoli objecting to the admission of his son to the

Cushman School through the basement entrance, and demanding a statement in writing from the School Committee, in accordance with the provisions of section 7 of chapter 44 of the Revised Laws, of the reason for the exclusion of his son. Accompanying the communications were copies of the correspondence relating to the matter and the investigation made thereof.

The communications were placed on file and the Secretary directed to notify Mr. Zottoli that his son has not been refused admission to the Cushman School; that his complaint and allegations have been carefully investigated and found to be unwarranted; and that he be notified not to interfere further with the conduct of the school by the properly constituted authorities thereof.

COMPLAINT AGAINST A TRUANT OFFICER.

A communication was received from Mrs. Esther Hirshon, under date of Nov. 15, 1910, complaining of the manner in which she had been treated by a truant officer, and requesting an investigation of the matter. Accompanying this communication were reports from the master of the Lyman District and the chief truant officer setting forth the result of the investigation which had been made, from which it appears that further action is unnecessary.

Placed on file.

PARENTS' MEETINGS, SUSPENSION OF CHARGE FOR JANITOR SERVICE.

On motion, it was ORDERED, That the Secretary is hereby authorized to issue permits for evening meetings of parents' associations to be held in school buildings without charge for janitor service, until the Board shall arrive at a further decision with regard to the amount to be charged for such service, and the manner of payment therefor.

AUTHORIZED TEXT BOOKS.

The order offered at the meeting of Nov. 7, 1910 (see p. 170), that Latin Composition, Part III, be adopted as a text book in the high and Latin schools, was taken up and passed.

PALMER METHOD OF BUSINESS WRITING.

The orders offered at the meeting of Nov. 7, 1910 (see p. 171), that The Palmer Method of Business Writing be authorized for use as a text book in Grade III of the elementary schools and for first year classes in the high schools, and that The Palmer Method Writing Cards be authorized for use as texts in the elementary schools, Grades I and II, were taken up and passed.

PER CAPITA COST OF SUPPLIES FOR NORMAL, LATIN, HIGH AND ELEMENTARY SCHOOLS.

The report of the Board of Apportionment received at the meeting of Nov. 7, 1910 (see p. 175), with reference to the per capita cost of supplies for Normal, Latin, High and Elementary Schools, was taken from the table and adopted.

RECESS.

The Board took a recess at 6.04 o'clock P.M.

The members of the Board reassembled in the School Committee Chamber and were called to order by the Chairman, Mr. Ellis, at 7 o'clock P.M.

LEAVE OF ABSENCE TO AUDITOR.

A communication was received from William J. Porter, Auditor, under date of Nov. 22, 1910, requesting a leave of absence for six months from Jan. 1, 1911.

Placed on file, and leave of absence granted accordingly.

PENSIONS GRANTED TO RETIRED TEACHERS.

The following order was offered:—
ORDERED, That the following-named persons are hereby granted pensions at the rate of one hundred eighty dollars (\$180)

per annum for each person, to take effect Sept. 12, 1910, in accordance with the provisions of Section 4 of Chapter 617 of the Acts of 1910:—

Charlotte Adams, Elvira L. Austin, Margaret A. Bartlett, Harriette A. Bettis, Eliza F. Blacker, Roxanna N. Blanchard, Phebe C. Bradford, Frances L. Bredeen, Lucy L. Burgess, Harriet E. Caryl, Mary F. Child, Annie L. Clapp, Emma F. Coffey, Adeline F. Cutter, Mary D. Day, Kate L. Dodge, S. Louise Durant, Mary H. Faxon, George M. Fellows, Eliza E. Foster, Susan Frizzell, Helen A. Gardner, E. Bradford Gay, Esther W. Mansfield Gilman, Octavia C. Heard, Mary Heaton, Lizzie M. Hersey, Helen M. Hitchings, Sarah H. Hosmer, Harriet S. Howes, Annie P. James, Charles F. Kimball, Henry H. Kimball, Maria D. Kimball, Susan A. W. Loring, Cordelia Lothrop, George R. Marble, Ada L. McKean, Amelia McKenzie, Mary A. Montague, Ellen E. Morse, L. Theresa Moses, Mary F. Neale, Mary Nichols, Abner J. Nutter, Amelia H. Pitman, Emily M. Porter, Adelaide A. Rea, Philena W. Rounseville, Ruth E. Rowe, Olive Ruggles, Almira B. Russell, Mary C. Sawyer, Elizabeth Swords, Mary P. E. Tewksbury, Emily Weeks, Sarah R. Wentworth, Josephine G. Whipple, Charlotte P. Williams, and Benjamin Wormelle.

Passed, a majority of the Board voting in the affirmative.

SALARY OF ELLEN T. RYAN.

On motion, it was ORDERED, That the salary of Ellen T. Ryan, assistant in the office of the Secretary, be established at nine hundred dollars (\$900) per annum, to take effect Nov. 1, 1910, and until otherwise ordered.

VOCATIONAL GUIDANCE.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to assign Louis P. Nash, sub-master in the Washington Allston District, on half-time during the remainder of the present school year to investigate and report practical plans for the establishment of vocational guidance of pupils in the public schools.

On motion of the Superintendent, it was ORDERED, That during the time that Louis P. Nash is assigned to other than his regular work, the appointment of an additional special assistant in the Washington Allston District is hereby authorized.

On motion of the Superintendent, it was ORDERED, That the employment of a clerical assistant for the remainder of the current school year is hereby authorized to render assistance to the Vocational Committee, and to the Committee on Plans for Elementary School Buildings, at a salary of \$50 per month.

BOSTON TEACHERS' CLUB.

The following communication was received from Miss Mary E. Perkins, President of the Boston Teachers' Club, under date of Nov. 16, 1910, addressed to the Chairman:—

At her urgent request I have reluctantly consented to excuse Miss Mary I. Adams from the Chairmanship of our School Board Conference Committee. Miss Anna C. Murdock, assistant in the Prince School, will succeed Miss Adams, and the membership of the committee will otherwise remain as before.

When the School Board passed the rule relating to transfers of teachers the last of the various matters which had been brought to its attention by our committee was satisfactorily arranged.

We are greatly indebted to you for the consideration shown us and if there should be a future occasion for consultation we know we may count upon the same generous treatment.

Placed on file, and the Secretary directed to make appropriate reply expressing the appreciative acknowledgments of the Board.

ADJOURNMENT.

The Board adjourned at 7.13 o'clock P.M.
Attest:—

THORNTON D. APOLLONIO,

Secretary.

PROCEEDINGS OF CITY COUNCIL.

Monday, November 28, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Buckley, Curley, Hale and McDonald.

The Council voted, on motion of Coun. BRAND, to dispense with the reading of the records of the last meeting.

APPOINTMENTS BY THE MAYOR.

The Mayor submitted the following appointments, subject to the approval of the City Council: Mary E. Daley (38 Dix street, Ward 24), Michael F. Daley (44 Rochester street, Ward 9), Joseph A. Kirchgassner (11A Carter street, Newtonville), Robert McKenzie (1 James street, Ward 12) and Harold D. Page (89 Jefferson avenue, Everett), Weighers of Coal for the term ending April 30, 1911.

Patrick R. Dunn (539 Fourth street, Ward 15), a Measurer of Grain for the term ending April 30, 1911.

Harold D. Page (89 Jefferson avenue, Everett), a Measurer of Wood and Bark, Measurer of Grain, Weigher of Boilers and Heavy Machinery and Weigher of Beef for the term ending April 30, 1911. Laid over under the law.

FEES FOR COAL HOLES, ETC.

The following was received:

City of Boston,

Office of the Mayor, November 26, 1910.

To the City Council:

Under section 28 of chapter 486 of the Acts of 1909 "the Mayor and City Council shall have authority to fix by ordinance the terms upon which permits for . . . the construction or use of coal holes, vaults, bay windows and marquees in, under or over the public ways shall be issued." This authority has not as yet been exercised, although applications for each class of permits have been filed with the Street Commissioners. At the meeting of your honorable body, held May 9, an ordinance fixing the schedule of charges for these permits was reported by the Committee on Ordinances, and at the meeting of July 6 another ordinance, differing in important respects from the first, was introduced by Coun. Hale. Owing, perhaps, to the opposition developed at a hearing given by your Executive Committee on May 23 no action has been taken on either of these proposed measures. In my opinion the adoption of a reasonable schedule of fees is urgently required for the convenience of the public. The problem of devising such a schedule is much less difficult than others which have been solved with conspicuous success by your honorable body.

I trust you will soon be able to agree upon a measure which shall be fair to property owners, while insuring a suitable return to the city for the special privileges received by them.

Respectfully,

JOHN F. FITZGERALD, Mayor.

The communication was declared referred to the Executive Committee.

Coun. BRAND—I think if that were referred to the Committee on Ordinances they would take action on it more hastily.

President BALLANTYNE—If the Chair is not mistaken the ordinance has been reported on by the Committee on Ordinances and is now in the hands of the Executive Committee.

Coun. BRAND—The matter had been referred back, as I understand it, to the Committee on Ordinances. I move reconsideration of the reference to the Executive Committee.

Reconsideration was refused, and the matter stood referred to the Executive Committee.

SALE OF MATERIAL.

The following was received:

City of Boston,

Office of the Mayor, November 26, 1910.

To the City Council:

I transmit herewith a communication from the Superintendent of Streets, requesting authority to sell certain paving material located at the lot on Chelsea street, East Boston. The accompanying order has my hearty approval.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Street Department, City Hall,
Boston, November 23, 1910.

To the Honorable the Mayor:

Authority is respectfully requested from the city government to sell of exchange about 20,000 old paving blocks (second-hand), located at the lot on Chelsea street, East Boston, formerly used as a paving yard, and recently sold. The estimated value of these blocks is \$650. These blocks are not available for present use in this department, and the city will be liable for wharfage if they remain in their present location. The value of these blocks

to the department is not sufficient to justify the expense of hauling them to some other location and of storing them indefinitely for possible future use.

Respectfully,

L. K. ROURKE,
Superintendent of Streets.

Ordered, That the Superintendent of Streets be, and hereby is, authorized to sell at public or private sale to the highest bidder or to exchange about 20,000 old paving blocks, located at the lot on Chelsea street, East Boston, the estimated value of these blocks being \$650.

Passed.

CURFEW BELL, DORCHESTER.

The following was received:

City of Boston,

Office of the Mayor, November 21, 1910.

To the City Council:

I beg to transmit the very interesting suggestion in regard to the ringing of the bell at Engine House 21 as a curfew bell for children of the old Dorchester district, contained in the appended letter from Mrs. John A. Fowle.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Boston, November 14, 1910.

Hon. John F. Fitzgerald,

Mayor of Boston:

Dear Sir,—What means could I use to ask for a curfew bell to be rung for old Dorchester? What I would like is a "touch" from our engine house at nine o'clock. We have a fine bell on No. 21—never used. Could it be disconnected and made useful, at least a trial for the winter? I am sure it would help our police and be very gratifying to all interested.

Most respectfully,

Mrs. JOHN A. FOWLE.

Referred to the Executive Committee.

TRANSFER FROM HOSPITAL DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, November 21, 1910.

To the City Council:

I beg to recommend the passage of the accompanying order authorizing the City Auditor to transfer a sum not exceeding \$1,000 from the appropriation for Hospital Buildings, Improvements, to the appropriation for Estate, Massachusetts avenue and Northampton street.

A letter from the president of the Board of Hospital Trustees, appended hereto, explains the reason for this transfer.

Respectfully,

JOHN F. FITZGERALD, Mayor.

The Boston City Hospital,

Boston, November 18, 1910.

Hon. John F. Fitzgerald,

Mayor of Boston:

My dear Sir,—In compliance with your request, as expressed in your letter of November 17, it was to-day voted by the Board of Trustees of the Boston City Hospital to ask you to recommend to the City Council that they authorize the City Auditor to transfer a sufficient sum, not exceeding \$1,000, from the appropriation for Hospital Buildings, Improvements, to the appropriation for Estate, Massachusetts avenue and Harrison avenue, known as the Paine estate, in order to cover extra expenses incurred in the transfer of the latter property to the City of Boston.

Also for guidance in the matter I inclose the form of order received from Mr. Charles F. Day, the City Conveyancer.

Very sincerely yours,

A. SHUMAN,
President, Board of Trustees.

Ordered, That the City Auditor be and hereby is authorized to transfer a sum not exceeding \$1,000 from the appropriation for Hospital Buildings, Improvements, to the appropriation for Estate, Massachusetts avenue and Northampton street.

Referred to the Executive Committee.

SALE OF PUMP.

The following was received:

City of Boston,

Office of the Mayor, November 28, 1910.

To the City Council:

Complying with the request of the Superintendent of Streets, contained in the accompanying letter, I have prepared and hereby recommend for passage an order authorizing him to sell one old Worthington pump, of which the estimated value is one thousand dollars (\$1,000).

Respectfully,

JOHN F. FITZGERALD, Mayor.

Street Department, City Hall,
Boston, Mass., November 26, 1910.

To the Mayor of Boston:

I respectfully request that an order be presented to the City Council for permission to sell one old Worthington pump, the property of the Sewer Division of this department, at the pumping station, Calf Pasture. Estimated value, \$1,000.

The department has now no further use for this pump, having purchased and being about to install a new pump with a greater capacity.

Respectfully,

L. K. ROURKE,
Superintendent of Streets.

Ordered, That the Superintendent of Streets be, and hereby is, authorized to sell at public or private sale to the highest bidder one old Worthington pump, now the property of the Sewer Division.

Passed.

BUILDING PERMITS.

The following was received:

City of Boston,

Office of the Mayor, November 28, 1910.

To the City Council:

I beg to request your honorable body to investigate the conditions revealed by the accompanying correspondence, consisting of two letters addressed by the Fire Commissioner to the Board of Appeal and to myself. The fact that the Building Commissioner has refused a permit to rebuild to the owner of the property in question seems to prove that in his opinion its existence is a menace not only to the valuable buildings of the Fire Department but to other property in that vicinity. Should the recommendations of the Fire Commissioner be accepted an appropriation would have to be made of the amount specified in his letter.

The results of your investigation will determine whether, under all the circumstances, the purchase of this property and the erection upon it of a building adapted to the uses of the Fire Department might not be the best solution of a somewhat vexatious problem.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Fire Department,

Boston, November 28, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—Following my recommendation that steps be taken to purchase the property adjacent to this department, at the corner of Dover and Albany streets, I beg to state that I now hold an option on this property for \$38,000, said option holding for one week with the privilege of renewal for an additional three weeks, provided the city government takes some favorable action.

This department has rented for some years the so-called fire alarm building adjacent to these headquarters for \$1,800. This building is used for the storage of our fire-alarm material, cable, boxes, horses, teams, etc. The department has also rented for several years a portion of the Beebe property on Dover street for the sum of \$1,550. This building has been used for the storage of reserve apparatus, and since the repair shop fire it has been used as a temporary repair shop.

It would concentrate the administration of this department, furnishing more adequate quarters for its various divisions and, in the long run, unquestionably save money, if the city purchased the Dover and Albany street land and erected a suitable building thereon.

Very respectfully,

CHARLES D. DALY, Commissioner.

Boston, November 21, 1910.

Board of Appeal, City Hall:

Gentlemen,—I have been informed that application will be made to your Board for permission to restore the wooden building on the corner of Albany and Dover streets. This building was seriously damaged by fire on August 9, is immediately adjacent to our repair shop, and this department thinks it very undesirable to re-erect a wooden building in such close proximity to our property.

It often happens that the repair shop holds large amounts of supplies, equipment and apparatus. It results that the fire hazard is a very serious matter for the department and the community.

Very respectfully,

CHARLES D. DALY, Commissioner.
Referred to the Committee on Finance.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named:

Claims.

Frederick W. Stock, to be paid for damage to his automobile by a city team.

Maria McDonald, to be paid for goods carried off from 147 Magnolia street by the ash man.

Katherine I. Kelley, for compensation for injuries caused by an alleged defect in Washington street, near Avon.

Police.

A communication was received from Alexander McGregor, treasurer of the Houghton & Dutton Company, protesting against fakirs displaying their wares for sale on Tremont street, from Park to Beacon streets, during the holiday season.

Executive.

Petitions for permits for children under 15 years of age to appear as follows: Myra E. Fiske *et al.*, for children to appear at Copley Hall, December 1; A. T. Smith, permit for children to appear at Dudley School, December 2.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted by the Secretary of the Commonwealth was received. Placed on file.

NOTICES OF HEARINGS.

Notice of hearing was received from the Harbor and Land Commissioners, on petition of New York Central & Hudson River Railroad Company, on November 30, for license to widen bridge at Cottage Farm.

Notices were received from the Railroad Commissioners of hearings as follows:

On November 23, on petition of West End Street Railway Company for approval of 333d location.

On November 29, on petition of West End Street Railway Company, for approval of 334th, 335th, 336th and 337th locations.

On December 12, on petition of Boston Elevated Railway Company, on question of locating stations in Riverbank Subway.

Placed on file.

TRACK LOCATIONS, ETC.

Copies of orders of the Street Commissioners were received as follows:

West End Street Railway Company, granting alteration of location on Centre street, from Eliot square to Columbus avenue, 337th location.

West End Street Railway Company, granting alteration of location on Meridian street, from Central square to Chelsea line, 336th location.

West End Street Railway Company, granting alteration of location on Mystic avenue, Charlestown, 335th location.

West End Street Railway Company, granting alteration of location on Causeway street, between Canal and Portland streets, 334th location.

West End Street Railway Company, granting alteration of location on Massachusetts avenue, from Boylston street to Huntington avenue, 333d location.

Edison Electric Illuminating Company, granting permission to acquire pole on Forest Hills street, near Morton street.

New England Telephone and Telegraph Company, granting permission to erect and to remove one pole on Crawford street, Ward 21.

New England Telephone and Telegraph Company, granting permission to erect and to remove one pole on Bennington street, Ward 1.

Placed on file.

SIDEWALK SCHEDULE.

Communication was received from the Superintendent of Streets, concerning the cost of constructing brick sidewalks with granite edgestones in front of estates on Round Hill street, with the following order:

That the persons named in the within schedule be and they hereby are charged and assessed with one-half the sums set to their respective names as their proportional parts of the cost of constructing brick sidewalks with granite edgestones in front of their estates, on said street, and the same is ordered to be certified and notice given to the parties aforesaid, under the provisions of chapter 437 of the Acts of 1893, said amount being \$1,237.06.

The order was passed.

MINORS' LICENSES.

The President submitted petitions for minors' licenses for eight newsboys and one vendor, and asked the approval of the Council on the same.

Licenses were granted on the usual conditions.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (severally referred November 21) recommending the passage of orders that the Superintendent of Streets make sidewalks as hereinafter specified, said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built as hereinafter specified, the owner to furnish said material.

Gravel with Granite Edgestone.

John Gilbride, 53 Vale street, Ward 22.

Brick.

J. Eugene Favart, 458 East Third street, Ward 14.
L. J. Curley, 46 Dennis street, Ward 17.
William W. Doherty, 82 Burrell street, Ward 17.
Annie L. Killion, 180-182 Heath street, Ward 19.
Martin Rutledge, 186 Heath street, Ward 19.
Joseph Engel, 1180-1186 Blue Hill avenue, Ward 24.

Artificial Stone with Granite Edgestone.

A. C. Forest, 210 Leyden street, Ward 1.
John Beck, 195-209 Pleasant street, Ward 7.
Boston Arena Company, 238 St. Botolph street, Ward 10.
W. H. Andrews, trustee, 38 Westland avenue, Ward 10.
J. Sumner Draper, 811-813 Boylston street, Ward 11.
James T. Wetherald, 915-921 Boylston street, Ward 11.
Arthur W. Cole, 291-293 Northampton street, Ward 12.
G. V. Wattendorf, 42-44 Edison green, Ward 16.
C. F. Whitehead, 80 Hancock street, Ward 20.
Annie I. Golden, 132-136 Elmo street, Ward 20.
C. M. Mowatt, 28 Tremlett street, Ward 20.
P. G. Henderson, Train street, corner Assabet street, Ward 24.

Reports accepted; orders severally passed.

(2) Reports on petitions (severally referred to-day) for permits for children under fifteen years of age to appear at various places of amusements—that permits be granted, viz.:

Myra E. Fiske *et al.*, for permit for children to appear at Copley Hall on December 1.

A. T. Smith, for permit for children to appear at Dudley School on evening of December 2.

Reports accepted; permits granted on the usual conditions.

RESOLUTION CONCERNING MRS. BUCKLEY.

President BALLANTYNE submitted the following:

Whereas, The members of the City Council have learned with unfeigned regret of the death of the mother of Coun. Timothy J. Buckley;

Resolved, That the sympathy of the members of the City Council is hereby extended to the family of the deceased.

Adopted by a unanimous rising vote.

Coun. BRAND—If there is no further business to come before the Board at this time, I move, as a further mark of respect to Coun. Buckley, that the Council do now adjourn, subject to the call of the Chair.

Adjourned at 3.49 p. m., subject to the call of the Chair.

POST-GRADUATE INDUSTRIAL EDUCATION.

The provision of facilities for the practical training of technical graduates in public utility organizations is constantly growing in favor among progressive administrators. It is well that this is so, for the problems of management are to-day so complex, the intricacies of traction, lighting and power systems are so great technically, and the cost of mistakes in executive judgment so far-reaching, that means must be devised to give the graduate as wide an acquaintance as possible with the routine tasks which maintain the service and a first-hand appreciation of the dependence of the entire organization upon the economical use of labor and materials. However broad may be the training of the technical institution from which the future engineer or executive steps forth into the world of business, it is next to impossible to acquire during the undergraduate years that familiarity with the rough, raw materials of production and the influence of personality upon labor costs and accomplishments that differentiates commercial life from the secluded comfort of the laboratory. In many of the great arts upon which civilization leans to-day it is no longer possible for a man to "grow up with the industry." The development of electric traction, for example, has progressed so far that only the exceptional personality can hope to begin at the bottom and attain the higher executive positions. Other things being equal, the man of broad education along technical lines is needed to administer the great properties. He must start

technically where older men trained in the school of experience stop, and the lack of practical training in the field must be supplied on the intensive principle.

In a typical course of training of this character the technical graduate secures a position with the company through the regular channels of employment, and after passing the regular examinations as to physical and mental fitness, without disclosure of his ultimate purpose, he is set at work on the cars, becoming a regular conductor and then a motorman on a distant division. One or two of the higher officers of the company, acquainted with the aims of the course, follow the graduate industrial student's progress through some three years of temporary service in the various departments, including car house and shop work, line and track maintenance, emergency service, overhead and underground construction, power house operation, including testing, wiring, inspection, oiling, switch board service and stoking. The course provides for service in the clerical and stock departments, and brings the employee taking it into personal contact with the difficulties and time required to string feeders, solder cables, handle heavy bus-bar and switch board connections, work with tools on relatively inaccessible equipment parts from awkward positions, and to clean out boiler tubes, replace burned parts, maintain pumps and motors. Other practical tasks included are the preparation of pay rolls, testing of coal, water and draft, rewiring cars, connecting controller equipment with motors and rheostats, work in the purchasing bureau, preparation of time tables, handling of correspondence, installation of compressed air equipment, maintenance of trolley wire and snow-plow service.

At the conclusion of the course the student employee may not be an expert manipulator or workman in any of the branches covered, but dexterity is not the object of the training. If the best use has been made of the time, and there is little chance of anyone's spending three years in such post-graduate school of hard knocks without turning every week to excellent account, the man completing the rounds of departments should possess as good a preparation for future executive work of larger or smaller range as can be imparted by seven years of theoretical and practical training. By some such means will have to be recruited many of the industrial officers of the future.—*Engineering Record.*

CONDEMNING WATER SYSTEM.

The report of the master in chancery of the value of the water system of Des Moines, which is now in private hands but which the people are disposed to take over, fixes it at \$1,854,825. This is a million more than the company offered to sell for thirteen years ago, but it is probable the people will vote to take it at that figure, which the earnings entirely justify.

TALKED TOO MUCH.

A squad of inspectors of police was sent out in New York the other day with orders to keep time on the conversation of officers with citizens. In a short time ten were rounded up who talked from five to eighteen minutes at a stretch. The trial commissioner decided that they were too affable, and fined each a day's pay as an example to the rest of the force to divide up their conversational favors a little better.

CITY OF BOSTON.

PROPOSALS FOR PIPE SURFACE DRAINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe surface drains in Litchfield street, between Western avenue and Lincoln street, Brighton, and giving bond therefor of a surety company, approved by the superintendent, in the sum of twelve hundred dollars (\$1,200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked, "Bid for Sewerage Works in Litchfield Street," and left at the said office of the Superintendent of Streets before 12 m. on Friday, December 9, 1910, with a certified check for five hundred dollars (\$500), payable to, and to become the property of, the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 1, 1910. (Dec. 3.)

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed proposals for dredging dock, building wharf, extending wharf to harbor line, and preparing berth at 521 Commercial street, according to plans and specifications prepared by the City Engineer, which can be obtained at this office, will be publicly opened and read at 12 o'clock noon December 12, 1910, at the office of the Fire Commissioner, Bristol street, Boston. Proposals must be sealed and marked, "Proposal for Dredging Dock and, etc.," and made in duplicate, one forwarded to the City Auditor at City Hall previous to the opening of the bids, the other containing a certified check for \$500 to this office. The successful bidder will be required to furnish a bond for \$2,000 of an approved surety company doing business in Massachusetts. The Fire Commissioner reserves the right to reject any and all bids, or to award the contract as he deems best.

CHARLES D. DALY,
Fire Commissioner.
(Dec. 3.)

COMMONWEALTH OF MASSACHUSETTS.

DREDGING BERTH AND DRIVING PILES.

Board of Harbor and Land Commissioners, State House, Boston, November 29, 1910.
Notice is hereby given that the City of Boston has made application to this Board for license to dredge a berth and drive piles east of the fireboat wharf in Boston Harbor, at East Boston, as per plans filed with said application; and Wednesday, the 7th day of December, 1910, at 11 o'clock a. m., and this office, have been assigned as the time and place for hearing all parties interested therein. For the Board,

GEORGE E. SMITH,
Chairman.
(Dec. 3.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING NEPONSET BRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing Neponset Bridge over Neponset river, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Neponset Bridge," and left at the said office of the Superintendent of Streets before 12 m. on Monday, December 12, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 1, 1910. (Dec. 3.)

ROSES AND RAILWAYS.

The New York, New Haven & Hartford Railroad is putting out 1,500 crimson rambler roses along its right of way, experimentally, to see the effect in beauty and in holding the earth along the sloping banks of the roadway.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSAL FOR REPAIRING SLUDGE DUMPING SCOW.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairs and renewals to sludge dumping scow, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Repairing Sludge Scow" and left at the said office of the Superintendent of Streets before 12 m. of Thursday, December 8, 1910, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 1, 1910. (Dec. 3.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING STABLES.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing stables, sanitary yard, North Grove street, city proper, and giving bond therefor of a surety company, approved by the superintendent, in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Repairing Stables, North Grove Street," and left at the said office of the Superintendent of Streets before 12 m. on Friday, December 9, 1910, with a certified check for one hundred dollars (\$100), payable to, and to become the property of, the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 1, 1910. (Dec. 3.)

CITY OF BOSTON.

PROPOSAL FOR BUILDING A REPAIR SHOP FOR THE FIRE DEPARTMENT.

Proposals for building a repair shop, corner of Albany and Bristol streets, according to plans and specification which can be obtained at this office, will be publicly opened and read at 12 o'clock noon December 14, 1910, at the office of the fire commissioner, Bristol street. Proposals must be sealed and marked "Proposal for Constructing a Repair Shop for the Fire Department" and made in duplicate, one forwarded to the City Auditor at City Hall previous to the opening of the bids, the other containing a certified check for \$2,000 to this office. The successful bidder will be required to furnish a bond for \$40,000 of an approved surety company doing business in Massachusetts. The Fire Commissioner reserves the right to reject any and all bids or to award the contract as he deems best.

CHARLES D. DALY,
Fire Commissioner.
(Dec. 3.)

COMMONWEALTH OF MASSACHUSETTS.

EXTENSION OF NORTH END PAVING WHARF.

Board of Harbor and Land Commissioners, State House, Boston, November 29, 1910.
Notice is hereby given that the City of Boston has made application to this Board for license to extend the North End paving wharf in Boston Harbor, in Boston, as per plans filed with said application; and Wednesday, the 7th day of December, 1910, at 11 o'clock a. m., and this office, have been assigned as the time and place for hearing all parties interested therein. For the Board,

GEORGE E. SMITH,
Chairman.
(Dec. 3.)

CITY OF BOSTON.

PROPOSALS FOR STREET LIGHTING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for lighting such streets, parks and alleys as may from time to time be designated by the city for a period of ten years from January 31, 1911, and giving bond therefor of a surety company approved by the superintendent in the sum of fifty thousand dollars (\$50,000) for work to be done under Items A, B and C, and twenty-five thousand dollars (\$25,000) under Items D and E, to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at said office of the Superintendent of Streets. Bids are to be based on furnishing approximately ten thousand lamps distributed in such separate districts as may be determined by the city, as follows:

A. For furnishing, maintaining and operating approximately ten thousand incandescent electric lamps in addition to the incandescent lamps now maintained under the existing electric lighting contract, or for the extension of the existing electric lighting contract for a period of ten years from January 31, 1911.

B. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners.

C. For furnishing, maintaining and operating approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

D. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners.

E. To furnish and install approximately ten thousand gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices.

Items A, B and C to also include the maintenance and operation of approximately two hundred and ten fire-alarm signal lamps. The city will furnish the lamp posts. Bidders are to state a price for furnishing, maintaining and operating each lamp per annum, and price per lamp and automatic device complete and installed. Under Items D and E the city will furnish the gas by purchase from the gas company and provide for maintenance.

Samples of the equipment to be furnished under the bid must be submitted with the same. Each bid should be inclosed in an envelope, sealed, and marked "Bid for Street Lighting," and left at the said office of the Superintendent of Streets, before 12 m. on Saturday, December 24, 1910, with a certified check for five thousand dollars (\$5,000) under Items A, B and C, and one thousand dollars (\$1,000) under Items D and E, payable to, and to become the property of the city if the bid, after acceptance, is not carried out. The bids will then and there be publicly opened and read. Bids must be in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bid. The undersigned reserves the right to reject any or all proposals, and to award the contract as he may deem in the best interests of the city.

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, November 10, 1910. (D .. 3.)

CITY OF BOSTON.

PROPOSAL FOR PIPE SEWERS AND DRAINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for pipe sewers and drains in Willow street, between Railroad and Centre streets, and in Centre street, between Maple and Beech streets, West Roxbury, and giving bond therefor of a surety company approved by the Superintendent in the sum of twelve hundred dollars (\$1,200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Sewer in Willow and Centre Streets," and left at the said office of the Superintendent of Streets before 12 m. on Friday, December 9, 1910, with a certified check for five hundred dollars (\$500), payable to, and to become the property of, the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, DECEMBER 10, 1910.

No. 50

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to

the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, December 12, at 3 p. m.

Meeting of School Committee, Monday, December 19, at 5.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

J. Cusick, draughtsman, 1 day at \$3, \$3; W. J. Watkins, draughtsman, $\frac{1}{2}$ day at \$4, \$2; Walter I. Brown, inspector $1\frac{1}{2}$ days at \$3.50, \$5.25; John J. Lane, rodman, $1\frac{1}{2}$ days at \$2.50, \$3.75; H. A. Sherman, instrumentman, $1\frac{1}{2}$ days at \$3.50, \$5.25; S. J. Coleman, inspector, $\frac{1}{2}$ day at \$5, \$2.50; John Connor, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; J. E. Coyne, inspector, $\frac{1}{2}$ day at \$5, \$2.50; M. J. Dagle, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; W. J. Drummond, inspector, $1\frac{1}{2}$ days at \$5, \$7.50; J. J. Hughes, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; W. H. Marnell, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; W. A. Moore, inspector, $\frac{1}{2}$ day at \$5, \$2.50; W. J. Mulhall, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; C. S. Rand, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; F. L. Logan, rodman, $\frac{1}{2}$ day at \$2.25, \$1.13; T. F. Spillane, rodman, $\frac{1}{2}$ day at \$2.50, \$1.25; M. J. Tehan, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; T. F. Finneran, instrumentman, $\frac{1}{2}$ day at \$3.50, \$1.75; R. F. Ritchie, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Stephen Connolly, pipe layer, 1 day at \$2.50, \$2.50; Robert Noonan, laborer, 1 day at \$2.50, \$2.50; Frank Johnson, yardman, 1 day at \$2.50, \$2.50; Michael Foley, bracer, 1 day at \$2.50, \$2.50; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; Nathan F. O'Neil, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; Thomas McLaughlin, bracer, $\frac{1}{2}$ day at \$2.50, \$1.25; Michael Duffee, engineer, $1\frac{1}{2}$ days at \$3, \$4.50; Timothy Reardon, laborer, 2 days at \$2.50, \$5; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Thomas Hughes, sewer cleaner, $\frac{1}{2}$ day at \$2.75, \$1.38; Peter Ducie,

watchman, 1 day at \$2.50, \$2.50; 44 laborers, $43\frac{1}{2}$ days at \$2.25, \$97.32; 3 laborers, $2\frac{1}{2}$ days at \$2.25, \$5.62; 1 laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; 1 laborer, 1 day at \$2.25, \$2.25.

Water Department (Distribution Division).

For the week ending Thursday, December 1, 1910:

William Abbott, engineer, 1 day at \$3, \$3; Robert McLaughlin, fireman, 1 day at \$2.83, \$2.83; John Austin, watchman, 1 day at \$2.50, \$2.50; Robert A. Barry, watchman, 1 day at \$2.25, \$2.25; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Thomas A. Gorman, foreman, 1 day at \$2.75, \$2.75; Patrick Cassidy, 1st, watchman, 1 day at \$2.25, \$2.25; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; Lawrence Hillary, repairer, 1 day at \$2.50, \$2.50; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; John McNulty, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.09; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 1 day at \$2.75, \$2.75; Michael Galvin, watchman, 1 day at \$2.25, \$2.25; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; Eugene T. Shea, watchman, 1 day at \$2.25, \$2.25; Humphrey D. Sullivan, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Morgan Donahue, emergency man, $1\frac{1}{2}$ days at \$2.25, \$2.53; Thomas Douglas, emergency man, $1\frac{1}{2}$ days at \$3, \$3.38; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Michael F. White, emergency man, 1 day at \$2.25, \$2.25; Daniel J. Heffernan, emergency man, 1 day at \$2.25, \$2.25; Timothy J. Kelleher, chauffeur, $1\frac{1}{2}$ days at \$2.75, \$3.09; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John J. Barry, repairer, $\frac{3}{4}$ day at \$2.50, \$0.94; Peter Halligan, laborer, $\frac{3}{4}$ day at \$2.25, \$1.41; Bernard E. Flanagan, plumber, $\frac{1}{2}$ day at \$3, \$2.06; George O'Donnell, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick Farry, teamster, $1\frac{1}{2}$ days at \$2.25, \$2.81; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1 day at \$2.75, \$2.75; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Mathew Brennan, inspector, $1\frac{1}{2}$ days at \$3, \$4.69; Robert J. Doyle, plumber, $\frac{1}{2}$ day at \$3, \$0.38; Timothy F. Murphy, plumber's helper, $\frac{1}{2}$ day at \$2.25, \$0.28; Richard P. Collins, inspector, $1\frac{1}{2}$ days at \$2.75, \$3.09; Hugh Campbell, repairer, $\frac{1}{2}$ day at \$2.50, \$0.78; Isaac

Saperstein, repairer, $\frac{1}{2}$ day at \$2.50, \$0.31; Michael F. Daly, 2d, laborer, $\frac{1}{8}$ day at \$2.25, \$0.70; William Lonergan, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Michael Mulloy, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Patrick C. Waters, laborer, $\frac{1}{8}$ day at \$2.25, \$0.70; Michael Hogarty, repairer, $\frac{1}{8}$ day at \$2.50, \$1.09; Francis Cadigan, laborer, $\frac{1}{8}$ day at \$2.25, \$0.98; William A. O'Connor, inspector, $\frac{1}{8}$ day at \$2.75, \$1.55; John McCormick, 2d, laborer, 1 day at \$2.25, \$2.25.

Water Department (Income Division).

For the week ending Thursday, December 1, 1910:

J. J. Callahan, laborer, $1\frac{1}{2}$ days at \$2.50, \$2.81; P. J. Clougherty, laborer, $1\frac{1}{8}$ days at \$2.25, \$3.52; R. J. Connorton, tester, $\frac{1}{2}$ day at \$2.50, \$1.88; M. J. Dinneen, laborer, 1 day at \$2.25, \$2.25; T. J. Dolan, plumber, 1 day at \$3, \$3; E. H. Gilmore, tester, $1\frac{1}{2}$ days at \$2.50, \$3.13; O. J. Gilloon, plumber, $1\frac{1}{2}$ days at \$3, \$5.06; E. Mahoney, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Thomas McAuliffe, laborer, $\frac{1}{2}$ day at \$2.25, \$1.62; F. McCarthy, laborer, $1\frac{1}{2}$ days at \$2.50, \$3.13; M. Mulkern, laborer, 1 day at \$2.25, \$2.25; J. H. O'Brien, laborer, $\frac{1}{2}$ day at \$2.25, \$2.11; Joseph Rice, tester, 1 day at \$2.50, \$2.50; D. J. Rull, Jr., plumber, $1\frac{1}{2}$ days at \$3, \$3.38; P. A. Russell, laborer, $1\frac{1}{2}$ days at \$2.25, \$4.71; J. J. Shea, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; Daniel Sullivan, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; J. Sullivan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.62; T. J. Sullivan, plumber, $\frac{1}{2}$ day at \$3, \$2.63; J. E. Tierney, machinist, $\frac{1}{2}$ day at \$3, \$0.75; M. P. Welch, plumber, $1\frac{1}{2}$ days at \$2.75, \$3.09.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending December 8, 1910:

PENAL INSTITUTIONS DEPARTMENT.

On December 7, the Mayor approved a contract with Potter and Wrightington for furnishing 300 barrels of flour. Bids on these goods, opened December 1, were as follows:

Potter & Wrightington, \$4.72; James H. Knowles, \$4.74; J. C. Talbot, \$4.95; Washburn-Crosby Company, \$4.83; Johnson & Bryden, \$5.05.

SCHOOL COMMITTEE.

Contracts for furnishing military equipment have been awarded as follows:

William Read & Sons, 500 sets, consisting of belts and bayonet scabbard, at \$1.23 per set. Francis Bannerman, 300 guns and bayonets at \$2 each, complete. Bids on these goods, opened November 28, were as below:

	William Read & Sons.	Francis Bannerman.
470 belts and scabbards. . .	\$1 23	
420 "Little Enfield" rifles, . . .	4 00	
420 Cadet "Quaker" guns,		\$2.00

Contracts for drawing and manual training supplies have been awarded as follows:

Favor, Ruhl & Co., 381 dozen tubes and 782 pint jars of paste, \$215; 134 boxes of fasteners, 23 R, $\frac{1}{2}$ inch, \$10.72;

138 dozen boxes of stars, \$62.10. Milton Bradley Company, 366 dozen sketching crayons, \$91.50; 2,013 boxes of Manual Arts crayons, \$1,690.92; 22 dozen balls of gray twine, \$18.48; 16,494 sheets of newsboard, \$82.47; 50 dozen pieces white tape, \$10; 235 papers of needles, \$10.58. J. L. Hammett Company, 10,275 sheets screening, C, green, \$62.59; 11,802 sheets cover paper, green, \$128; 2,703 sheets of lining, No. 136, \$25.33; 1,357 yards of Vellum de Luxe No. 23, \$189.98; 1,357 packages of No. 9 envelopes, \$29.75; 235 skeins of thread, \$11.25; 134 reams Trimont Mills, \$36.85; 21 dozen pieces colored tape, \$15. Kenney Brothers & Wolkins, 138 boxes stars, \$62.10.

Bids on these goods, opened December 1, were as follows:

MILTON BRADLEY COMPANY.

Drawing Supplies.

Three hundred and sixty-six dozen sketching crayons, Dixon No. 341, \$183; or 366 dozen sketching crayons, Milton Bradley Company (sample), \$91.50; 2,013 dozen boxes Manual Arts crayons (sample), \$1,690.92.

Manual Training Supplies.

Twenty-two dozen balls gray twine, $\frac{1}{2}$ pound, \$18.48; 138 dozen boxes $\frac{1}{2}$ -inch gummed white stars (100), \$63.45; 381 dozen tubes paste, 6 inches; 782 jars of paste (pint); 16,494 pieces newsboard, No. 60, 13 by 19, \$82.47; 10,275 sheets screening (320 pounds, 24 by 36), \$229.60; 11,802 sheets cover paper (Milton Bradley Company, green tinted, 18 by 24), \$118.02; 2,703 sheets lining paper, No. 136, 20 by 25, sample, \$25.50; 1,357 yards Vellum de Luxe, No. 23, 38 inches, \$190; 1,357 packages 9-inch envelopes, manila No. 9, \$30.50; 50 dozen pieces white cotton tape, $\frac{1}{2}$ inch (4 yards), \$10; 235 skeins linen thread, \$11.95; 235 papers tapestry needles, round point, \$10.58; 134 boxes brass fasteners, No. 23 R, \$13.75; 134 reams Trimont Mills; 21 dozen pieces colored tape, $\frac{1}{2}$ inch, 12 yards to piece, \$18.

FAVOR, RUHL & CO.

Three hundred and eighty-one dozen tubes paste, 6 inches, Day's, 782 jars paste, pints, Day's, \$215 for the lot; 134 boxes brass paper fasteners, No. 23 R, $\frac{1}{2}$ inch, \$10.72 for the lot.

KENNEY BROTHERS & WOLKINS.

Drawing Supplies.

Three hundred and sixty-six dozen sketching crayons, Dixon's No. 341, \$183; Dixon's No. 300 or No. 312, \$91.50; 2,013 dozen boxes colored crayons, 8 pieces, hydraulic pressed, Crayograph No. 19, \$1,567; Durel No. 208, \$1,525; Standard No. 79, \$1,400.

Manual Training Supplies.

One hundred and thirty-eight dozen boxes $\frac{1}{2}$ inches gummed white stars (100 in box), \$62.10; 381 dozen tubes paste, 6 inches, Day's, \$101; 782 jars paste, pints, Day's, \$146.76; 16,494 pieces newsboard, No. 60, 13 by 19 inches, \$85; 10,275 sheets screenings, 320 pounds, 24 by 36 inches, \$63; 11,802 sheets cover paper, green, either of two samples, \$102.40; 2,703 sheets lining paper, No. 136, 20 by 25 inches, samples 1, 2 and 3, \$35; sample 4, \$40; 1,357 packages 9-inch manila envelopes, No. 9, \$31; 134 boxes No. 23 R brass fasteners, $\frac{1}{2}$ inch, \$14.07; 134 reams $8\frac{1}{2}$ by 11-inch white paper, Violet Mills, \$38.86.

J. L. HAMMETT COMPANY.

Three hundred and sixty-six dozen sketching crayons, Dixon's No. 341, at

\$6 gross, \$183; Dixon's No. 312, at \$3 gross, \$91.50; Dixon's No. 300, at \$3 gross, \$91.50; 2,013 dozen boxes colored crayons, 8 pieces, hydraulic pressed, Dixon's No. 1723, at \$0.06 box, \$1,449.36; Dixon's No. 1531, at \$0.12 box, \$2,898.72; Crayograph, \$1,570.14; Standard No. 218, \$700; 22 dozen balls gray twine, $\frac{1}{2}$ pound, \$18.97; 138 dozen boxes $\frac{1}{2}$ -inch white gummed stars, \$63.30; 381 dozen tubes paste, Davis (6 inches long), 782 jars, pint, paste, \$246; 16,494 sheets newsboard, No. 60, 13 by 19 inches, \$75; 10,275 sheets screenings, 24 by 36 inches, sample C, \$62.59; sample C, green, \$62.59; sample R, \$52.96; sample H, \$57.77; sample M, \$55.38; 11,802 sheets cover paper, green, 20 by 25 inches, Colonial, \$128; 2,703 sheets lining paper, No. 136, sample, 20 by 25 inches, \$25.33; 135 yards Vellum de Luxe No. 23, 38 inches wide, \$189.98; 1,357 packages No. 9 envelopes, manila, \$29.75; 50 dozen pieces white cotton tape, $\frac{1}{2}$ inch, four yards to piece, \$10.75; 235 skeins linen thread, sample, any color, \$11.25; 235 papers tapestry needles, round point, No. 17 or No. 18, \$11; 134 boxes brass paper fasteners, No. 23 R, $\frac{1}{2}$ inch, \$13.40; 134 reams Trimont Mills, $8\frac{1}{2}$ by 11 inches, \$36.85; 21 dozen pieces colored tape, $\frac{1}{2}$ inch, twelve yards to piece, colored to match vellum, \$15.

STREET DEPARTMENT (Sewer Division).

On December 6 the Mayor approved a contract with Antony Cefalo for building a concrete surface drain in Western avenue, Brighton. Bids on this work, opened December 2, were as follows:

Antony Cefalo, \$11,942.71; Murphy & Dolan, \$12,286.91; Thomas H. Connolly, \$13,371.20; Mark H. Lynch, \$13,781.56; Luke D. Mullen, \$16,622.80; J. B. O'Rourke & Co., \$17,658.60; John McCourt & Co., \$18,367.30; Charles J. Jacobs Company, \$22,439.18; Henry G. Porter, \$22,451.47.

Estimated quantities:

Two hundred and sixty-six linear feet excavation for 4-foot circular conduit; 10 cubic yards earth excavation below grade; 50 cubic yards earth excavation above grade; 100 cubic yards rock excavation; 10 cubic yards gravel; 25 M. feet B. M. spruce lumber for sheeting; 1 M. feet B. M. spruce lumber for plat-forms; 2,500 linear feet 6-inch pipe under-drain; 1,000 linear feet 8-inch pipe under-drain; 180 cubic yards concrete; 3,563 linear feet 10-inch pipe sewer; 10 linear feet 12-inch pipe sewer; 279 linear feet 15-inch pipe sewer; 706 linear feet 18-inch pipe sewer, D. S.; 282 linear feet 20-inch pipe sewer, D. S.; 10 linear feet 30-inch pipe sewer, D. S.; 40 linear feet 10-inch pipe catch-basin drain; 190 linear feet 6-inch pipe chimneys; 266 linear feet existing sewer removed; 250 linear feet existing house drain relaid; 30 linear feet existing catch-basin drain relaid; 20 linear feet existing drain in main trench relaid; 21 slants to be placed; 24 linear feet 30-inch cast-iron pipe placed; 27 standard manholes; 2 6-feet circular or 4 feet by 5 feet manholes; 1 special manhole; 2 connections; discount of 70 per cent on \$5,250 worth of pipe; discount of 60 per cent on \$2,100 worth of pipe. Engineer's estimate \$13,380.55.

On December 7 the Mayor approved a contract with Luke D. Mullen for building pipe sewers and drains in Lorette street, West Roxbury. Bids on this work, opened December 1, were as follows:

Luke D. Mullen, \$1,219.50; Dan De Petro, \$1,306.65; J. B. O'Rourke & Co., \$1,359.50; Antony Cefalo, \$1,755.81; West Roxbury Trap Rock Company,

\$1,776.25; Charles J. Jacobs & Co., \$2,088.50; Murphy & Dolan, \$2,155.15; John McCourt & Co., \$2,809.25.

Estimated quantities:

Five cubic yards earth below grade; 5 cubic yards earth outside trenches; 25 cubic yards rock excavation; 5 cubic yards gravel; 5 M feet, B. M., spruce sheeting; 500 feet B. M. spruce platform; 500 linear feet 6-inch pipe underdrain; 510 linear feet 10-inch pipe sewer; 20 linear feet 6-inch pipe chimneys; 10 linear feet existing drain, relaid; 5 cubic yards concrete; 2 manholes built on sewer; Discount of 69 per cent on \$675 worth of pipe. Engineer's estimate \$1,551.50.

On December 7 the Mayor approved a contract with Murphy & Dolan for building pipe sewer and drains in Clifton street, West Roxbury. Bids on this work, opened December 2, were as follows:

Murphy & Dolan, \$1,219.43; Daniel DePietro, \$1,223.80; A. Cefalo, \$1,277.13; Charles J. Jacobs Company, \$1,287.60; R. Cartullo, \$1,288.85; DeChristofou, \$1,324.55; Luke D. Mullen, \$1,417.90; John McCourt & Co., \$1,497.20; William J. Rafferty & Co., \$1,678.05; J. B. O'Rourke & Co., \$1,836.80.

Estimated quantities:

Five cubic yards earth excavation below grade; 10 cubic yards earth excavation above grade; 400 cubic yards rock excavation; 5 cubic yards gravel; 3,000 feet board measure spruce lumber for sheeting; 50 linear feet 6-inch pipe underdrain; 400 linear feet 8-inch sewer; 400 linear feet 10-inch pipe surface drain; 18 linear feet 6-inch pipe chimneys; 10 linear feet existing drain relaid; 1 yard to be placed; 1 cubic yard concrete; 2 manholes on pipe sewer; 3 manholes on surface drain; 1 invert rebuilt; discount of 72 per cent on \$645 worth of pipe. Engineer's estimate, \$1,278.03.

SUPPLY DEPARTMENT.

On December 6 the Mayor approved a contract with Hosmer, Robinson & Co., for furnishing No. 1 hay and straw required by various city departments in the city proper district. Bids on these goods, opened November 30, were as follows:

	No. 1 Hay.	Straw.
Hosmer, Robinson & Co.	\$20 00	\$14 50
W. P. Whittemore Company. .	20 75	15 00

On December 6 the Mayor approved a contract with John J. White for furnishing oats, shorts and corn required by various city departments in the South Boston district. Bids on these goods, opened November 30, were as follows:

	No. 1 Oats.	Shorts.	Corn.
John J. White.	\$0 42	\$26 50	\$0 62
W. P. Whittemore Company.	42	26 00	65

On December 6 the Mayor approved a contract with the Scott & Paine Company for furnishing No. 1 hay and straw required by various city departments in the South Boston, East Boston, Charlestown and Brighton districts. Bids on these goods, opened November 30, were as follows:

	No. 1 Hay.	Straw.
SOUTH BOSTON.		
Hosmer, Robinson & Co.	\$20 00	\$14 50
W. P. Whittemore Company. .	20 75	15 00
Scott & Paine Company.	19 50	13 00
EAST BOSTON.

Gasolene.—Abraham Kurinsky, 51 Charlotte street, Dorchester.

APPROVAL OF LEASE.

The Mayor has approved a lease of the premises at 13 Burroughs place, occupied by the Out-Patient Department of the Consumptives' Hospital, and owned by the Robert Treat Paine Association, for the term of three months, from November 23, at a rental of \$85 per month. Provision is made for the extension of this lease for a further seven months.

CLAIMS.

On December 7 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

John Coakley *et al.*, \$200, for death of one horse and injury to one horse caused by loose cover to water shut-off, 443 Harrison avenue, November 29, 1909.

Thomas F. Daly, \$200, for personal injuries caused by defect in sidewalk, 51 North Anderson street, July 20, 1908.

Cornelius Driscoll, \$50 and costs for personal injuries and damage to property caused by defect in street, Dorchester avenue, near First street, October 25, 1907.

Mary A. McCarthy, \$300, for personal injuries caused by defect in sidewalk at northerly side of Bowen street, near corner of D street.

Luke Mitchell, \$50, for damages to property, 36 Geneva avenue, caused by break in water main, November 18, 1907.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the superintendent have been approved by the Mayor:

Ferry Division.

Daniel McLaughlin, 22 days at \$2.83½, \$62.33; John H. Nolan, 10 days at \$2.83½, \$28.33.

Sanitary Division.

Henry J. Hart, 30 days at \$2.50, \$75; John T. Hughes, 6½ days at \$2.25, \$14.63; Patrick J. Kane, 10 days at \$2.25, \$22.50; John J. Kilduff, 14 days at \$2.25, \$31.50; Charles W. McCance, 30 days at \$2.25, \$67.50; James McCarthy, 4 days at \$2.25, \$9; Lawrence McCarthy, 7 days at \$2.25, \$15.75; Edward McColgan, 7 days at \$2.25, \$15.75; Frank L. McCann, 11 days at \$2.25, \$24.75; Patrick L. Moynihan, 4½ days at \$2.25, \$10.13; Michael J. Murphy, 12 days at \$2.25, \$27.

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved a finding of the Board of Street Commissioners fixing damages occasioned by the taking of land for schoolhouse purposes on Danube and Dacia streets, Dorchester, as follows: Louis Meynell, 1,024 square feet, \$307.20.

The Mayor has approved a vote of the Board of Schoolhouse Commissioners requesting the Board of Street Commissioners to take for schoolhouse purposes a parcel of land in the Bennett District, Brighton, situated on Turner street, and containing 40,000 square feet, more or less, at a price not to exceed \$0.18½ per foot.

BOSTON PUBLIC LIBRARY.

NEW VALUABLE ADDITIONS TO THE ALLEN A. BROWN LIBRARY OF MUSIC.

By Gift.—Collection of musical portrait prints, selected by Gustav Kobbé, presented to the Allen A. Brown collection by Mr. Charles H. Ditson.

The collection consists of eighty-five portraits of musicians, from Palestrina to Wagner, and especially covering Mozart, Beethoven, Liszt and Wagner.

By Purchase.—Thirty-two volumes. The original manuscript collection of all the Prize Catches, Canons and Gleees, and those submitted to the committee of "The Noblemen and Gentlemen's Catch Club," from 1763 to 1794, in score, formerly the property of the club, with an index to each volume.

STREET COMMISSIONERS.

The Mayor has approved the following votes of the Board of Street Commissioners, taken after consultation with the Law Department, and on its advice, assessing damages to the estate of Charles L. Pierce occasioned by the laying out of Greenwood street, in the sum of \$900, the city to assume the betterment which may be levied to the remainder of the petitioner's lot; and assessing damages to the estate of Catherine O'Brien, occasioned by the widening and relocation of Hyde Park avenue, in the sum of \$1,294.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work, with the department force, without advertising:

Deck and sheathe Summer Street Bridge, down-stream side, at an estimated cost of \$1,400.

"This is maintenance work and can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

JAMES H. SULLIVAN,
Acting Superintendent of Streets."

APPOINTMENT OF ARCHITECT.

The Mayor has approved the appointment of Mr. S. L. Olmstead, landscape architect of the Park Department, to prepare plans, etc., for the proposed changes contemplated at the L Street Bath House.

APPOINTMENTS AND CONFIRMATIONS.

CONFIRMATION.

The following appointment was confirmed on the date given: December 7, Louis A. Ginsburg to be a trustee for children.

PERMISSION TO SELL.

The Mayor has granted to the Water Commissioner authority to sell a lot of old cast-iron junk at our Yard, No. 710 Albany street, to an amount not exceeding five hundred (500) dollars.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight O'Clock.

1910.

Dec. 15. The Passion Play of Oberammergau. Rev. Thomas I. Gasson, S. J.

Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.

1911.
Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.

Jan. 12. *Photography in relation to Illustration. J. Horace McFarland.

Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.

Jan. 26. *The Paper and Binding of Books. Cedric Chivers.

Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.

Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.

Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.

Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.

March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.

March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.

March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.

March 23. Switzerland and the Rhine. Henry Warren Poor.

March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

* Under the auspices of the Society of Printers.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight O'Clock.

1910.

Dec. 12. Norway and the North Cape. Frederick M. Brooks.

1911.

Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).

Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").

March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).

April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

FREE MUNICIPAL CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of December:

December 12, Girls' Latin School.

December 16, South Boston High School.

December 20, Lowell School, Roxbury.

December 22, Charlestown High School.

December 27, Faneuil Hall.

December 29, Knights of Honor Hall, Roslindale.

December 30, Ford Hall.

An important feature of these concerts are lectures by Professor Louis C. Elson, who explains and interprets the program rendered.

Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

GARBAGE DISPOSAL IN HAMBURG.

Garbage and house refuse collected from the northern and northwestern sections of the city of Hamburg are carted to points outside of the city and spread over cultivated land, where they are plowed under as a fertilizer. The material collected from the central, eastern and southern portions of the city, including the harbor front, is incinerated in a plant which has been operating fourteen years and is said to have given satisfaction throughout that period. The refuse is conveyed to the plant in four-wheeled, water-tight iron carts having a capacity of about 4 cubic meters each. The bodies of these carts, when they reach the plant, are lifted from the wheels by electric traveling cranes and the contents discharged directly into the furnaces. There are thirty-six incinerator units, which burn continuously, except when one or more are taken out of service for cleaning. Coal is not used except in starting the fires in the cold furnaces. At present one motor wagon is used for collecting, but the remainder of the hauling is done by horses. It is proposed to gradually introduce electric motor cars for the entire service, the batteries being charged by electricity created by the heat of the incinerating plant. In addition to furnishing current for the motor cars used in collection, the incinerator furnishes power to drive all the electrical machinery in the establishment

which operates the cranes, the clinker breakers and light plant.

The cinders from the burning of the refuse are removed in small iron carts to a cooling apparatus, where they are sprinkled with water, and thence to crushers, where they are crushed and screened into three sizes. An electro magnet is used for removing from the cinders any small pieces of iron which may be therein, the larger pieces having been removed by hand before the refuse is placed in the furnace. The scrap iron is sold at public auction and the cinders are disposed of at about 24.5 cents per long ton. It is stated that there is considerable demand for these cinders, the finer ones being used for the top dressing of walks and the medium and coarser sizes being used for the top and foundation courses, respectively, of roadways. They are also used in the making of concrete, the finer screenings being used as a substitute for coarse sand and the coarser particles in the place of broken stone. It is also used where ordinary coal cinders are employed, and it has the advantage over these for some purposes, that it contains no sulphur, which sometimes causes a destruction or impairing of metal when in contact with it. A new incinerator is in course of construction and will be very similar to the old Horsfall furnace above referred to, except for modifications suggested by fourteen years' experience.—*Municipal Journal and Engineer.*

MUNICIPAL FURNISHED HOUSES.

A movement is developing in the Manchester City Council, Manchester, Eng., for meeting more effectively the needs of poor people in obtaining house accommodation in the more crowded parts of the city. It has been the subject of much inquiry, and has not yet got beyond this stage, but there is no idea of allowing it to stop where it is.

The corporation, through the Sanitary Committee, has, as is well known, built blocks of dwelling-houses in various parts of the city. These houses, or the rooms in them, are let to families, but experience shows that many people cannot make use of this municipal provision because they have not the money wherewith to buy furniture. In these circumstances they resort to houses that are divided into "furnished apartments." The cost is great, and there are other drawbacks.

It has occurred to some members of the Sanitary Committee that the Corporation might try an experiment on its own account, and provide furnished rooms for the use of working people who cannot afford to take a house in the ordinary way. It is probable that eventually the Corporation will erect and furnish houses of the kind suggested, but most likely it will begin with some of the rooms now vacant in its own model dwellings. The experiment will probably begin shortly.

LIGHT AND AIR.

At the International Town Planning Conference held in London last month, John Burns, who is president of the English Local Government Board, said that 50 per cent of pauperism and much of lunacy and crime were due to sickness, and that in turn was due to bad housing, to the lack of light and air. In the last thirty years, he said, 550,000 houses had been built in London and 1,500 miles of street had been created, but only twenty-five new open squares had been laid out.

FINANCE COMMISSION.

BOSTON, December 5, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—The Mayor on October 14, 1910, sent a message to the City Council recommending the passage of an ordinance providing for the consolidation of the Park, Public Grounds, Music and Bath Departments, and later forwarded a copy of the same to the Finance Commission.

In a report dated February 29, 1908, nearly three years ago, the former Finance Commission recommended the consolidation of the Park and Public Grounds Departments as "the present division of authority between these two departments is illogical, confusing and expensive," and "the similarity of purpose and duties points inevitably to the necessity for their control by one head." (Finance Commission Report, Vol. 1, page 214.)

On November 17, 1908, more than two years ago, the former commission recommended the abolition of the Music Department, stating that "the summer concerts in the open air should be placed in charge of the Park Department in the same way as the state concerts are provided by the Metropolitan Park Commission. If musical direction is desired, it can be furnished by unpaid advisers to the Park Department, and the expense of a separate office force saved. The winter concerts should be given, if at all, by the School Department, under the direction of its paid musical director." (Finance Commission Report, Vol. 1, page 490.)

The present commission believes that the merger of the Park, Public Grounds and Music Departments should have been effected at the time the former commission made its recommendations; and that the city has suffered considerable loss by the failure to accomplish the consolidation. The commission also believes that the Bath Department should be included in the consolidation, thus preventing recurrence of the friction which has occurred at times between the Bath and Park Departments.

Placing control of the four departments in one governing body would simplify the administration of duties, concentrate responsibility and make possible large economies through the reduction of the force. Under separate control the four departments spend much more than is necessary for the work that is accomplished.

It is essential that no mistake be made in the form of government for the new department. Some advantages would be secured by placing it under the control of a single executive, but the disadvantages seem to outweigh the advantages. For example, if a single executive were given the existing powers of the Park Commission to take land by eminent domain, to award damages, and to assess betterments, it might lead to dangerous consequences. A single executive should not have such large powers. Precedent and reasons of policy are both opposed to it; and the fact that the action of the executive would be subject to the Mayor's approval would not remove the objection. The danger could be avoided by taking away the Park Commissioners' power to take land by eminent domain thereby rendering it necessary to request the Street Commissioners to make the taking. The Finance Commission believes, however, that it would be better to transfer the powers and duties of the other three departments to the Park Department, the powers to be administered by three unpaid commis-

sioners appointed by the Mayor, and to leave the Park Department its present powers with respect to land takings. This form of government has proved successful on the whole in the case of the Park Commission for the last thirty-five years, and the Finance Commission believes that the larger powers of the new department may safely be entrusted to the present Board of Park Commissioners or to those who, appointed and approved under the charter amendments, shall succeed them in office.

The Park Commissioners should have the assistance of a general superintendent, an assistant superintendent who should have immediate charge of the parks, public grounds and playgrounds, and another assistant superintendent who should have immediate charge of the baths. A musical director should be specially engaged to frame the program of concerts, and to observe and report upon the manner in which concerts are given.

The Finance Commission has consulted the Chairman of the Park Commission as to the necessity of having a Board of more than three members, and has received from him a letter, dated November 28, 1910, a copy of which is hereto annexed, in which he states that: "The Board believes that a commission of three members could transact its business more quickly and efficiently than a Board of five, and that a commission like theirs could, without any very serious addition to their burdens, direct an expenditure of twice the amount we now spend, and that we understand would be approximately the expenditure of the four departments." The letter further states that: "The city indoor baths and gymnasias seem at first thought to be more intimately connected with sanitary work than with ours," and it is apparent that the Park Commissioners are not anxious to assume control of the indoor baths and gymnasias. The Finance Commission believes, however, that the Park Commission, through competent assistants, could perform this work as well as any other city department; and that many advantages would accrue under a system which places the entire control of indoor and outdoor bathing establishments and gymnasias under the jurisdiction of one Board.

The Finance Commission recommends:

That an ordinance be passed transferring the powers and duties of the Public Grounds, Bath and Music Departments to the Park Department.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

CITY OF BOSTON,

PARK DEPARTMENT,

Jamaica Plain, November 28, 1910.

To the Finance Commission, 410 Tremont Building, Boston:

DEAR SIRS,—You have asked the opinion of the Park Department as to the proposed merging of the Public Grounds, Music, Bath and Park Departments into one recreation department.

We, being an unpaid commission, think that we should not express an opinion as to whether paid or unpaid commissions can be relied on best for the service of this city.

We can, however, say that we think a

commission of three members can transact such business as we have had to do more quickly and efficiently than if we were a Board of five members.

We also think that a commission like ours could, without any very serious addition to their burdens, direct an expenditure of twice the amount we now spend and that we understand would be approximately the expenditure of the four departments.

As to the gain by uniting the four departments specified, we are unwilling to express a fixed opinion at such short notice. It seems tolerably clear, however, that the Public Grounds Department and the Park Department could be administered by one body with economy in the administrative force. Our present Board would welcome now the control of the shore baths, which now occupy Park lands, and the work on which is intimately connected with the park work. The city indoor baths and gymnasias seem at first thought to be more intimately connected with sanitary work than with ours, and we are not much informed as to the duties of the Music Department. The Park Department has not looked with any anxiety on the proposed additions to its duties of the management of a zoological garden, and were other duties added to those they now perform it would seem to involve mainly the employment of efficient directors of the different departments.

Yours very truly,

ROBERT S. PEABODY,
Chairman.

INCOME TAX IN ENGLAND.

In eight years the number of income taxpayers in the United Kingdom has risen from 925,000 to 1,045,000; the amount of taxable income from £763,000,000 to £944,000,000 and the average taxable income from £820 to £930. Evidently Britain is not yet entirely poverty stricken.—*Brantford Expositor*.

CITY OF BOSTON.

PUBLIC HEARING.

Office of Clerk of Committees, City Hall.

The Executive Committee will give a public hearing on Friday, December 16, fourth floor, City Hall at 2.30 o'clock p. m., on the proposed ordinance relative to sale of articles by junk dealers.

Per order of the Committee,

JOHN F. DEVER,
Clerk of Committees.

CITY OF BOSTON.

PROPOSALS FOR GALVANIZED WIRE RAILING.

The Board of Trustees of the Cemetery Department invite bids for galvanized wire railing at Mount Hope Cemetery, and giving bond of a surety company in \$1,000. Only bids made on forms obtained at their office, 76 City Hall, and signed by the bidder and there left before 2 p. m., Monday, December 19, 1910, with a certified check for \$500, payable to and to be the property of the city if the bid is not carried out, will then and there be publicly opened and read. Duplicate bids, without check, must also be delivered to the City Auditor before the time specified for opening of bids. The trustees reserve the right to reject any or all bids. The bid should be inclosed in an envelope, sealed and marked "Bid for Railing at Mount Hope Cemetery."

CHARLES E. PHIPPS,
JACOB R. MORSE,
ALBERT W. HERSEY,
FREDERICK E. ATTEAUX,
JOHN J. MADDEN,
Cemetery Trustees.

(Dec. 10-17.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

MONTHLY CONFERENCE.

Boston, December 5, 1910.

Monthly conference between the Mayor, City Council and heads of city departments, in the Mayor's hearing chamber, City Hall, at three o'clock p. m.

Mayor Fitzgerald presided, and in calling the meeting to order said:

Gentlemen, you will please come to order. The first business is the reading of the minutes of the last meeting. (The records of the last conference meeting, of October 3, 1910, were read by Mr. Doyle, assistant City Clerk.) If there is no objection to the records as read by the secretary, they will stand approved. (No objection.) Are there any communications to be read? Any reports of committees? Unfinished business?

Superintendent ROURKE: Your Honor, the committee for the standardizing of wages of men employed by various heads of departments have met and decided that we had better leave the matter as it stands at present, leaving each head of a department to work out his own salvation in that respect. There are various clauses, for example, in our Street Department contracts, particularly where a contractor is called upon to do extra work. We allow him cost and 15 per cent. That is a very important clause, and there are heads of departments who do work on another basis. For instance, they will send for mechanics and employ them by the day; and in many cases contractors will not send a man out to work by the day for cost and 15 per cent. The result of the whole thing is that we have decided to leave it as it is.

Mr. Rourke's report was accepted.

Prof. F. SPENCER BALDWIN, for the Old Age Pension Committee, submitted their report which can be found on page 907.

Mayor FITZGERALD: Gentlemen, you have heard the report rendered by Mr. Baldwin. What is your pleasure? The customary way to handle matters of this kind is to have them presented to the City Council and printed as public documents. There is so much matter of importance in this report, so much that needs thorough study, that it seems to me that would be a proper disposition to make of it.

It was moved by Coun. BRAND, and seconded, that the report be printed as a public document and submitted to the City Council.

Coun. BRAND—Mr. Mayor, I would ask Professor Baldwin if he contemplates the limit of age at which a man may enter the employ of the city.

Professor BALDWIN—The only restriction in regard to the age at which a man may enter the employ of the city might in practice develop out of the provision that an employee fifty-five years of age and over shall not participate in the pension system. The reason for that obviously is that such an employee could not give the fifteen year period of service requisite for retirement prior to compulsory retirement at seventy; and the practical effect of that would be, I should suppose, to discourage the employment of men of fifty-five years of age and over. They would be debarred in that way from the retirement system because of that provision.

Coun. BRAND—Another question: Would you suggest compulsory retirement at a certain age, rather than making it a matter of choice?

Professor BALDWIN—That is provided for in the bill, at seventy years of age. Practically all retirement systems embody that provision. That was embodied by the commission without any question.

Coun. BRAND—You have said, I understand, that they would be retired at seventy.

Professor BALDWIN—That is the age for compulsory retirement, seventy. They may retire at sixty, if they have served the fifteen years and have met the conditions.

Coun. BRAND—I would ask Professor Baldwin if he heard Mr. Emerson on this subject when he appeared before the committee at the State House? There was a committee appointed as you remember, perhaps, to hear different organizations and persons interested in this old age pension. I think it was a year ago last spring, and Mr. Emerson, who was then Superintendent of Streets, presented quite an exhaustive statement in regard to conditions here in the city. He showed at that time that in his department alone, the Street Department, the City of Boston was paying \$205,000 per year for which it received no return whatever, owing to extreme old age and inefficiency in the department; and Water Commissioner Hannan, when he spoke on the subject, said that the conditions were even worse in his department. For that reason I should like to ask if you have consulted or communicated with Mr. Emerson at all on this subject and have been benefited at all by his research?

Professor BALDWIN—Yes. I might say that I was serving at that time as secretary of the commission before which the meeting was held at which Mr. Emerson appeared. I heard Mr. Emerson and Mr. Hannan, and had some later conferences with Mr. Emerson.

Coun. BRAND—Is your estimate submitted to-day based on some of his figures?

Professor BALDWIN—Not directly, no. I have not made any use of his figures in that estimate submitted by the committee to-day.

Mayor FITZGERALD—Is there any other member of the Council present who wishes, or are there any of the heads of departments who wish, to ask Professor Baldwin any questions?

Election Commissioner MINTON—Mr. Mayor, I wonder if the committee had in mind certain facts in connection with this matter. The act provides that it must be accepted by the City Council and then adopted by the people, and that the Insurance Commissioner shall issue a certificate on certain days. It provides that every employee may become a member of the association, but that those who do not wish to join may signify their intention in writing to the Election Commissioners within sixty days. It then provides that within thirty days an election shall be held to elect a second member on the commission that is to take up the matter. It seems as though those provisions ought to have been reversed—that the election of this second member can hardly be done by members of an association when that association has not been established. In other words, there is no qualified voting list from which to elect the second member of this association. I wonder if the committee had that in mind?

Professor BALDWIN—That matter was taken under consideration by the committee. There appears to be a real inconsistency in the act at that point. Either the time for qualification or disqualification under the act must be shortened, or the time within which the meeting for organization must be held must be lengthened. It will be necessary to amend the act in that respect. That is an inconsistency which escaped the attention of the commission which sat for months on this measure, the Committee on Legal Affairs and the Committee on Ways and Means, at the State House. It is one of those mistakes which frequently crop up in matters of this kind.

Mayor FITZGERALD—Will you call it to the attention of Mr. Babson so that a suitable amendment can be drafted?

Professor BALDWIN—I will.

Coun. COLLINS—Mr. Mayor, I would ask, through you, whether or not there is any precedent for this act? That is to say, is there any American city about the size of Boston, or of similar size, where the practical working out of this act has been tried? If not in this country, I would ask whether or not it has been tried in Germany? If so, to what extent and with what success?

Professor BALDWIN—There is no precedent so far as the practice of American cities is concerned. The pension systems of American cities have dealt with only certain classes of employees, such as firemen, policemen and teachers. Such pension systems as we already have in Boston. Every European city of any size, however, has a pension system for the general employees. Details vary very widely. Some of them are supported in whole by the contributions of the employees, others in part by the contributions of the employees, and no general synopsis could be given. You will find in the report of the State Commission on Old Age Pensions a synopsis of the workings of such pension systems, generally. The results of these pension systems, I have been able to find partly by correspondence and partly by observation on the ground, have been wholly satisfactory. That also applies to pension systems of railroad and general industrial corporations; that is, no such system once adopted has ever been reduced in scope or abandoned. I think that is all I can say in answer to that question.

Coun. COLLINS—I would like to ask specifically in regard to this type of statute, whether or not a statute substantially like this is in operation either here or abroad.

Professor BALDWIN—No. This plan is new in this respect; it provides for the accumulation of a fund by the employees' contributions, out of which annuities shall be paid on a strictly actuarial basis. That is a new feature. Those amounts are then to be supplemented by bonuses of an equivalent amount paid out of the city treasury. There are in existence pensions which are borne on a co-operative basis, partly by employees and partly by the municipality, but there is no system based on actuarial computation, as this is here.

Coun. KENNY—May I inquire, Professor, if this act has yet been accepted by any city or town in the state?

Professor BALDWIN—I don't know. I think not. Mayor Ashley, of New Bedford, stated at a recent conference that that city probably would accept the act. They have it under consideration and the committee has reported. I know of one town that will, without doubt, accept the act later; but, so far as I know, no city or town has yet accepted it.

Coun. COLLINS—I would like to ask the professor one more question, Mr. Mayor, and that is this: whether or not he has in mind any perfecting amendments which he thinks desirable to offer to the next legislature on this act, in preference to having the city accept it this year. That is to say, whether or not he has in mind any amendments to this present statute which he thinks would be desirable, and whether he would accordingly suggest postponement of action until some further date.

Professor BALDWIN—No. The only amendment is the one of minor detail which has already been mentioned. That is the only amendment which has been brought to my attention, the only amendment that I think it would be necessary to make.

Coun. KENNY—I suppose, after all, Mr. Mayor, that this is a matter that must be taken up by the City Council and threshed out, because under the statute we must accept it before it may be submitted to the people. It must not necessarily

be submitted this year; it may be submitted any time subsequent to our acceptance or adoption of it. I would like to say just this, that this pension act really does not reach the point of retiring the superannuated employees, so called, and I supposed that the object of a pension act was to do that. Under the language of the act any employee who is affected, or who may be affected by it, can simply notify the Election Commissioners within two months after the act has become operative, and he is exempt from becoming a participant under the act. It is quite reasonable to suppose that a great many men who are reaching the point where they will perhaps be termed superannuated will decline to accept the provisions of this act, and the statute, therefore, so far as it may affect those men, has not accomplished anything at all. As I say, that is a matter that I presume must be threshed out before the City Council, and I presume we will have the report and the professor before us.

Mayor FITZGERALD—Of course Mr. Kenny will realize that, in the case of any man who is becoming superannuated and in a condition where he cannot do good work, if he would not accept the provisions of this act the Superintendent of Streets, the Water Commissioner, or the head of any department, would not feel the same pangs of conscience in separating such a man from the service that he might now feel with no pension act or means of relief possible. Mr. Rourke has wrestled with the problem of inefficient service in his department, and it is a problem which has faced the Water Department. Every one of us knows that there are some hundreds of men in the employ of the City of Boston who do not give adequate service, yet nobody feels like discharging them, because it means leaving them without any income and helpless. If these men, however, should refuse to take advantage of this act, their future would then, of course, be in their own hands. I believe this matter was first broached when I was mayor before. I went before the Legislature and they deferred legislation until the next year. The next year I appeared again and action was deferred again. Mayor Hibbard went to the Legislature in 1908 in regard to the matter and an act was passed that year calling for the appointment of a commission to investigate the subject. They went into the matter very closely and very intelligently, I think, for two years. Men like Professor Baldwin and like Mr. Hale, who unfortunately is ill at the present time, spent a great many days and nights on this matter, and the act represents the sum and substance of their labors. It seems to me that, unless there are more powerful reasons against it than have appeared at the present time, the present City Council and city government, of which I am a member, should accept this act.

Coun. KENNY—Of course, it is not a matter for discussion here this afternoon, but it seems to me this act should not be accepted by the City Council as at present drawn, and I think we might well address ourselves to the proposition of looking forward to going to the Legislature again and asking for some amendments. Personally, as one member of the City Council, I have made up my mind not to vote for it. As I have already said, it is very easy to say we get rid of the superannuated employees, but we don't do it. We never have, and I don't see that this will accomplish the result. We are told that the result may be this, that an employee will be brought up and you will say to him, "Here, you have not taken advantage of this pension act; now you are going to be discharged." I don't think that is likely to result as a consequence of his not having accepted membership in the association to which he would be entitled under this act. There are several phases of this act which really should be amended if you are going to have a pension act which will work satisfactorily—one of which was pointed out by the Election Commissioner a moment ago. A man sixty years of age, who has given the city fifteen years of service, may be retired under this act. Gentlemen who are sitting here this afternoon, drawing salaries of a substantial amount, are also entitled to pensions under this act. I think that is clearly wrong. I don't think any man who has received a large salary, which has allowed him to put by or save a comfortable amount for the days when he has lost his earning power, should be allowed to come under the provisions of this act and receive its benefits. Therefore I hope, as one member of the council, that the Legislature will be called upon to amend this act before it is accepted.

Mayor FITZGERALD—You are aware, are you not, that the officeholders are not pensioned on the basis of their present salaries?

Coun. KENNY—I understand that any man who is not an elective officer of the city may take advantage of this legislation.

Mayor FITZGERALD—To what amount?

Coun. KENNY—Up to the salary basis of \$30 a week.

Mayor FITZGERALD—That would be about \$1,500 a year.

Coun. KENNY—Yes.

Coun. BRAND—Mr. Mayor, I think Coun. Kenny is a little wrong in his theory of this proposed pension system. As a matter of fact we must accept the act first, and I understand that such matters of detail as have been submitted by Professor Baldwin are subject to the limitations that may be placed upon them by the City Council and your Honor. I think it is perfectly proper, as you suggest, your Honor, that we accept the act first and

then work out the plan, either on the line that has been outlined by Professor Baldwin, or in some amended form.

Mayor FITZGERALD—What is the maximum amount, Professor Baldwin, that officials of the city can receive?

Professor BALDWIN—It depends, of course, on the period of service. On the basis of the highest assessment, the maximum rate of 5 per cent, for a person serving thirty-five years at an average salary of \$1,500,—and that is pretty close to the maximum under the operation of this act,—I think the total would be under \$800 per year, including the annuity and the pension.

Mayor FITZGERALD—That is, an official who, for instance, had received \$4,000 per year in the city's service, and who had been in the service for twenty years or more, could not receive more than \$800 a year pension?

Professor BALDWIN—No, approximately that. Of course, if he had received a salary of \$4,000 a year for forty years, the amount might be somewhat larger, but it would still be under \$1,000, I think.

Mayor FITZGERALD—How much might it amount to?

Professor BALDWIN—It might amount to \$1,000; but, as I say, \$800, I think, represents the maximum amount likely to be paid, taking the salaries paid in Boston and the 5 per cent rate referred to in the act.

Mayor FITZGERALD—So if a man receives \$4,000 a year for forty years, he could not receive over \$1,000 a year under the act, and he would probably have to wait until he was seventy years old to get that?

Professor BALDWIN—That is approximately so. Then, of course, only half of that is contributed by the city.

Mayor FITZGERALD—I want to say, for the benefit of the City Councilors, that they were all invited to appear at these hearings that were held at the State House. A great deal of time was spent upon the matter last spring and a great deal of work was put into the perfecting of the act. While that, of course, does not take away from anybody the right to act at this time, I would suggest that that was the time for members of the City Council to go to the Legislature and submit whatever views they had. The City Council and all officials of the city have had information in regard to the matter. It has been up for consideration four years, and this act has now been passed. It would be too bad now, when it has arrived at the present stage, to refuse to permit the act to come properly before the people.

Coun. KENNY—Of course, between the present time and election day there is hardly time to properly set before the people the merits, or otherwise, of the act. The merits of the act should be set forth before the people before they pass upon it. The City Council, even if it refuses to act upon the matter at the present time, may do so next year. It does not necessarily follow that this would end it.

Mayor FITZGERALD—It puts the matter over for a whole year.

Coun. KENNY—Yes.

Mayor FITZGERALD—And there has been nothing to prevent the City Council from acting upon the matter during nearly the whole year and giving the people all the enlightenment they wish.

Coun. KENNY—Well, there is no obligation resting on the Council to act on this, Mr. Mayor.

Mayor FITZGERALD—I think there was a moral obligation on them, Mr. Councilor, to act upon this matter just as soon as it came before them. I think there was certainly such a moral obligation on the Council. The Legislature did not state specifically that this must be acted upon by the Council, but I think if there had been in the mind of the last Legislature any doubt that the Council of this year would refuse to act, it would have provided that action must be taken on the matter.

Coun. KENNY—We are not obliged to act upon a matter that we don't believe in. We are not required to act upon matters without proper discussion and reflection, and I do say positively that the City Council should not be called upon to act on and accept a proposition in which it does not believe.

Mayor FITZGERALD—The City Council may, of course, refuse to permit the people to vote on the proposition; but the City Council, by refusing to act upon the matter, simply denies to the people an opportunity to pass by referendum on a matter which it was intended by the Legislature that they should have a right to pass upon by referendum. That is the responsibility of the City Council, of course.

Coun. KENNY—Well, the Legislature have practically said, "Let the City Council thresh this out and decide whether it is a good thing to submit to the people. If it is, let them put it up to the people." Now, if the City Council does not wish to so decide, it is not obliged to do so, and I have not, as one member, decided that it is a good thing.

Mayor FITZGERALD—My point is that the objections that you have raised are not well taken. When you say that there is not sufficient time elapsing between the time the City Council will act on the matter and the time it will be decided by vote of the people, I say that the City Council has had nearly the whole year to thresh this thing out, to air its views before the people of Boston. The intention of the Legislature was that this matter should be acted upon this coming January,—providing, of course, the City Council passed it; and in view of the fact that the members of the City

Council were officially notified of what was being done in the matter, that Mr. Hale, one of the members of the Council, took an active part in the framing of this act, that it is a matter which the City Council has discussed for the last two or three years, and that it is, after all, a matter that is to be submitted to the vote of the people, by referendum, action should be taken without unnecessary delay. Of course, nobody would urge that the City Council pass something clearly not in the interests of the city; but, as I say, this, after all, is to be submitted to referendum, and the vote of the people is to finally decide it.

Coun. KENNY—If the City Council is in doubt about the advisability or expediency of passing this act, isn't it better to defer action for a while and not turn it down definitely at this time,—not kill it, but let the matter lie over? It may well be that when I come to look into it later I will approve of it, but if I have to act now, I will vote to kill it. I would do so, personally.

Mayor FITZGERALD—I can myself see no substantial reason that has been advanced here this afternoon that would justify the City Council in refusing to permit the people to vote on this question this year.

Coun. BRAND—Your Honor, I would like to say that this order has been on our calendar every week for the past three months, and it is only out of deference to Coun. Hale, who has been absent by reason of illness, that we have not acted upon it. We have let it remain on the calendar, thinking from week to week that he would return. But I think the matter should be taken up.

Mayor FITZGERALD—Mr. KENNY's opinion is that the people ought to be saved from themselves, that they haven't the intelligence to say whether it is a good thing or not.

Coun. KENNY—Mr. Mayor, I cannot allow that statement to go unchallenged. I said nothing of the kind.

Mayor FITZGERALD—That is my interpretation of it nevertheless.

Supt. HANNAN—Mr. Mayor, at the present time the heads of departments are making up the estimates for next year. I would like to ask Coun. KENNY if he will vote for a sufficiently large appropriation for the street and water departments to carry the same number of superannuated men that we have at the present time?

Coun. KENNY—I will cross that bridge when I come to it, Mr. Mayor.

Mayor FITZGERALD—The question comes on Coun. Brand's motion that this be printed as a city document.

The motion was carried.

Mayor FITZGERALD—The Chair will state that after this is printed as a city document he will take the liberty of calling a special meeting of the heads of departments, with the members of the City Council to discuss this matter further, after we have had an opportunity to read the report of Professor Baldwin.

There being no further business before the conference, it was adjourned at 4.30 p. m.

KANSAS CITY'S BOULEVARDS ALSO INCREASE PROPERTY VALUES.

The extensive system of boulevards in Kansas City was all done under the assessment plan and the results in the increase in value of abutting property are very gratifying. The general district of assessment adjoins the boulevard for a block or more in each direction, but most of the expense falls on the abutting property. The boulevards are made out of fifty or sixty-foot streets widened to 100 feet, and in some cases 110, and additional width is allowed where a street railway was to use part of the space. There are wide parkways with trees and grass and flowers, in uniform plan, and maintenance cost is divided between the city and the property owners. The increase in value of frontage through boulevard construction is thus given by R. F. Weirick, a landscape architect: On Benton boulevard, land worth \$15 to \$20 a foot before the improvement increased to \$45 to \$60, and the cost of construction was \$8.53 per foot. On Linwood, \$50 a foot before changed to \$80 to \$100, the cost being \$7.99. On Harrison, property worth \$8 to \$15 a foot advanced to \$70, cost being \$6.17. On Gladstone, property valued at \$40 to \$45 per foot rose to \$85 to \$100, on a cost of improvement of \$8.88.—*Pacific Outlook*.

FLUSHING MACHINES AND PAVEMENT.

St. Louis has decided to abandon the practice of street washing by water under strong pressure, because it tears the binder out of the paving and gradually causes its disintegration.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 5, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Curley and Hale.

The Council voted, on motion of Coun. BRAND, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Jurors were drawn in accordance with chapter 514, Acts of 1894, viz.:

Eight petit jurors, United States District Court, to appear December 20, viz.:

James Roe, Ward 1; John P. Mannix, Ward 25; James DeVoy, Ward 15; Henry Grossman, Ward 20; James B. Forsythe, Ward 11; Peter F. Assmus, Ward 17; Patrick H. Comer, Ward 19; Frederick W. Coulman, Ward 22.

Six petit jurors, Supreme Judicial Court, to appear December 13, viz.:

William B. Merrill, Ward 20; John Hammell, Ward 19; Louis Daniels, Ward 8; James Slattery, Ward 20; John J. Farracy, Ward 25; Michael A. O'Neil, Ward 14.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments:

(1) Frederic J. Lundy, 2 Union Park street, Ward 9, a Constable of the City of Boston for the term ending April 20, 1911.

(2) Patrick R. Dunn, 539 East Fourth street, Ward 15, an Inspector of Pressed or Bundled Hay and Straw for the term ending April 30, 1911.

Severally laid over under the law.

HOURS FOR CHILDREN.

The following was received:

City of Boston,

Office of the Mayor, December 5, 1910.

To the City Council:

I beg to transmit the accompanying communication from a committee of the Boston Home and School Association, requesting the establishment of an ordinance which will prohibit children under fourteen years of age from frequenting the business district of the city as defined in the Police Manual after nine o'clock in the evening.

Various letters accompanying the petition of the committee are forwarded for your information.

The entire correspondence has been laid before the Police Commissioner, in whose province the subject would seem particularly to lie, and I shall be pleased to forward his report and recommendations, should he feel disposed to make any, to your honorable body as soon as they have been received.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Boston Home and School Association,

Boston, December 3, 1910.

To His Honor the Mayor and the Members of the Boston City Council, City Hall, Boston, Mass.:

Gentlemen,—The Boston Home and School Association, which is composed of twenty-seven parents' associations, representing practically every section of the city, unanimously passed a resolution at its annual meeting in June, 1910, petitioning the Mayor and City Council to establish an ordinance which will prohibit all children under fourteen years of age from frequenting the business district of the city as defined in the Police Manual after nine o'clock in the evening.

The following committee was appointed to investigate conditions and report to the Mayor and the City Council: Philip Davis, Supervisor of Licensed Minors, School Committee Building, Mason street, chairman; Mrs. Fannie Fern Andrews, Secretary Boston Home and School Association; Alvin E. Dodd, Director of North Bennet Street Industrial School.

This committee, which has been investigating this matter, begs to submit their report. The committee deems it advisable to try this experiment for six months in order to ascertain the value of such an ordinance.

Yours very truly,

PHILIP DAVIS, Chairman.

ALVIN E. DODD.

FANNIE FERN ANDREWS.

Referred to the Committee on Ordinances.

POLL TAX COLLECTIONS.

The following was received:

City of Boston,

Office of the Mayor, December 5, 1910.

To the City Council:

I beg to transmit an important communication from the City Collector, with a copy of the order which he believes should be passed by your honorable body.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Collecting Department, December 1, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—Herewith I inclose a draft of an order for the abatement of the outlawed and uncollectible poll taxes from January 31, 1899, to January 31, 1906, with a statement annexed of the amounts uncollected for each of the several years included in the order.

All of the poll taxes prior to January 31, 1899, have already been abated, but for some reason unknown the later poll taxes, although more than six years outstanding, have not been abated. The draft of the order proposed is the same as heretofore used, and is in the form approved by the Corporation Council.

None of the poll taxes for 1899-1900, 1900-1901 and 1901-1902 have been collected during the present year, and only \$26 in all for the other four years included in the order, to wit, for 1902-1903, \$2; 1903-1904, \$4; 1904-1905, \$18, and 1905-1906, \$2.

The benefit of having these uncollectible polls discharged from the books is for several reasons advisable; first, because it represents a misleading statement of the assets of the city; second, because the expense of collecting and carrying open accounts for so many years is not warranted by the amount received; third, it is generally believed by accountants, as well as by those familiar with the practice of this department, that a majority of the old poll taxes paid are liquidated through the agency of other towns and cities with the object of relieving said places from pauper settlements and fastening the same upon the City of Boston—thus it is believed that the city actually loses through pauper settlements a much larger sum than can possibly be collected from these old outstanding taxes.

I trust that you will find it expedient to recommend the passage of this order and will place the same before the City Council. From a careful investigation of this subject I believe it will be for the interest of the city generally, and for the Collecting Department particularly.

Note.—The total amount of outstanding taxes, a large percentage of which are uncollectible, owing to death, poverty, insolvency, emigration and other causes, dating from 1895 to January 31, 1910, was \$6,374,901.56.

Statement of Outstanding Poll Taxes,
December 1, 1910.

For 1899-1900.....	\$229,972 00
For 1900-01.....	233,425 00
For 1901-02.....	245,399 00
For 1902-03.....	246,054 00
For 1903-04.....	252,478 00
For 1904-05.....	264,452 00
For 1905-06.....	203,100 00

Making a total of..... \$1,674,880 00

It will be seen from the foregoing that the bulk of these assessments have been outstanding and uncollected for more than six years, and it is believed all are practically uncollectible and worthless as assets of the city.

Respectfully submitted,

BOWDOIN S. PARKER,

City Collector.

Ordered, That the City Collector be hereby authorized and directed to cancel the balances standing upon the books of his department for money due on account of the poll taxes for the years from January 31, 1899, and ending January 31, 1906, inclusive, which on December 1, 1910, amounted to \$1,674,880, specified in his account thereof, herewith transmitted to the City Council, and the collector and the sureties on his bonds are hereby relieved from all liability for the collection of such taxes.

Referred to the Executive Committee.

PARKMAN FUND INCOME.

The following was received:

City of Boston,

Office of the Mayor, December 5, 1910.

To the City Council:

I beg to inclose for your information a statement of the actual income of the Parkman Fund on October 31, 1910, and the probable income on December 31, 1910. I believe this information will be valuable and indeed necessary for you in your consideration of the most profitable expenditure of the income for this year, and would respectfully urge that action be taken looking to this expenditure before the close of the calendar year, as otherwise the unexpended balance would be added to the principal.

Respectfully,

JOHN F. FITZGERALD, Mayor.

GEORGE F. PARKMAN FUND, STATEMENT OF INCOME.

1910.	Dr.		Cr.	
May.	To transfer to Franklin Park Zoological Garden	\$5,000 00	Balance, February 1, 1910	\$7,704 22
May.	To transfer to Marine Park Aquarium	5,000 00	By cash received to November 1, 1910	190,195 84
June.	To transfer to Boston Common and Public Garden Irrigation System	50,000 00		
July.	To transfer to Charlesgate Improvement	20,000 00

October 31, 1910, Balance of income..... \$117,900 06

Estimate of income to December 31, 1910.

October 31, cash on hand	\$117,900 06
November 1, received interests on bank deposits	435 28
November 1, received interests on investments	1,003 88
December 1, interest on deposits (estimated)	400 00
December 1, interest on investments (estimated)	5,565 00

Estimated income December 31, 1910..... \$125,304 22

Referred to the Committee on Parkman Fund.

AMENDMENTS TO PUBLIC WORKS ORDINANCE.

The following was received:

City of Boston,

Office of the Mayor, December 2, 1910.

To the City Council:

I beg to recommend for passage by your honorable body the accompanying ordinance, which amends the ordinance establishing a Department of Public Works. The changes in section 15 of the latter ordinance are recommended by the Wire Commissioner and approved by the Superintendent of Streets and would seem, therefore, to be in the public interest. The amendments to section 4 of the original ordinance are merely perfecting amendments, which tend to greater clearness by the insertion of references omitted in the draft of the measure as passed by your honorable body.

Respectfully,

JOHN F. FITZGERALD, Mayor.

An Ordinance

To Amend the Ordinance Establishing a Department of Public Works.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section four of said ordinance is hereby amended by striking out in the tenth and eleventh lines thereof the words "and the Craigie bridge conferred by chapter three hundred and two of the Acts of the year 1870," and inserting the following: Cambridge bridge and other bridges conferred by chapter three hundred and

two of the Acts of the year 1870, chapter one hundred and fifty-five of the Acts of the year 1882, chapter four hundred and sixty-seven of the Acts of the year 1898, and other acts and ordinances relating to the so-called Boston and Cambridge Bridge Commission,—so that said section as amended shall read as follows: Section 4. Said commissioner shall have the care and management of all bridges which are used as highways and are in whole or in part under the charge of the city, and of so much of Harvard bridge and Prison Point bridge as are under the charge and control of the city; shall be the commissioner to act with another commissioner for the city of Cambridge and as such commissioner shall have and exercise all the powers in relation to West Boston bridge, Cambridge bridge and other bridges conferred by chapter three hundred and ten of the Acts of the year 1870, chapter one hundred and fifty-five of the Acts of the year 1882, chapter four hundred and sixty-seven of the Acts of the year 1898 and other acts and ordinances relating to the so-called Boston and Cambridge Bridge Commission; shall keep the railings and wearing surface in good order and shall remove all dirt, snow and ice from the sidewalks; shall keep all said bridges, or those parts thereof under his care, and the abutments, guards, draws and wharves thereof clean and in good condition and repair; shall appoint drawtenders for the draws in bridges of which he has the care, and see that they properly perform their duties and may remove them for such cause as he shall deem sufficient and shall assign in his order of removal. Each drawtender so appointed shall take charge by night and by day of the draw of

which he is drawtender; shall require from the person in charge of a vessel applying to pass through the draw a true statement of the name, extreme width and draught of the vessel; shall determine the order in which vessels may pass through the draw, and may direct the placing of warping-lines, anchors and cables, and the use of any warping apparatus provided by the city; shall cause the draw to be opened for the passage of vessels in accordance with the regulations of the War Department approved May twelfth, 1910; shall cause the draw to be closed with all possible expedition after a vessel has passed through, not permitting more than one vessel to pass through at one opening of the draw, except that, when the draw is open and the bridge is free from persons desiring to cross, he may, in his discretion, permit other vessels to pass through before causing the draw to be closed; he shall perform such additional duties as said commissioner may require.

Section 2. Section fifteen of said ordinance is hereby amended by striking out the word "twenty-five" in the eleventh line thereof and substituting therefor the word "twenty-one" and by striking out in the eighteenth line thereof the words "upper crossbar and top of each pole" and inserting in place thereof the words "lowest crossbar of each pole" so that said section as amended shall read as follows: Section 15. Said commissioner shall, when authorized thereto by an order of the street commissioners, issue such a permit to a responsible person for the purpose of placing and maintaining in the streets poles for the support of wires, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall keep said poles well painted and in good condition, to the satisfaction of the commissioner; shall place the wires on said poles not less than twenty-one feet from the ground; shall keep the name of the person owning the pole distinctly painted on the crossbars used and occupied by him on the pole, and also on the pole at a point not less than six feet nor more than eight feet from the ground; shall allow the departments of the city the exclusive use of the lowest crossbar of each pole, free of all charge, for the purpose of placing wires thereon; shall not suffer or permit any other persons to place or keep wires on said poles, or upon the fixtures thereto affixed, without permission being first obtained in writing from the street commissioners; shall not remove any pole erected under this order until, and shall remove any pole when, directed by the street commissioners so to do; and that on the violation of any term of these conditions the said commissioner shall remove the poles at the expense of the person owning them.

Coun. BRAND—Mr. President, while the Clerk did not read the ordinance—only referred to it—I presume it is in relation to the placing of wires 21 feet instead of 25 feet from the ground, and placing a crossbar on the telegraph and electric light poles below rather than above, for the use of the city's wires. Am I right?

President BALLANTYNE—Yes.

Coun. BRAND—That being the case, I raise the point of order that, in the first place, the ordinance passed here in this Council two weeks ago was illegal, for the reason that this Council has no jurisdiction whatever, as provided by the new charter, over the placing of these wires. The ordinance which the Mayor submits to-day is illegal and is out of order, as we have nothing whatever to do with the matter. I will read an extract from a letter of the Corporation Council:

"As to the Wire Department: The letter of the Commissioner of Wires and the sending of it by the Mayor to the City Council seems to have been written and done in ignorance of the change made in the city charter by section 28 of the charter amendments of 1909. That section, as far as this subject goes, transfers to the Street Commissioners the jurisdiction exercised by the Board of Aldermen concerning the use of public ways for the locations of conduits, poles and posts for telephone, telegraph, street railway or illuminative purposes."

Therefore, referring to the Act of 1909, chapter 486, as embodied in Document 118, you will find that the City Council has nothing whatever to do with this. It does not belong to us. It ought not to have been in the ordinance, and that is simply one of the reasons why I objected to the hurried passing of that ordinance. It is full of imperfections, inconsistencies, errors, omissions and matters that do not belong in there. Therefore I raise this point, that this is no place for the communication, that the amendment to the ordinance should not be entertained and that the ordinance which we have already passed is illegal.

President BALLANTYNE—The Chair will rule the point not well taken, and will refer the communication to the Committee on Ordinances.

The matter stood referred to the Committee on Ordinances.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Emily Coburn, for compensation for injuries caused by her being struck by an automobile of the Bath Department.

Willard Welsh, offering to surrender an alleged invalid tax deed of estate 263 West Third street.

H. S. Wheeler, for compensation for a hat ruined by a plank in temporary bridge on Shawmut avenue.

Armstrong Transfer Express Company, for compensation for damage to auto by a defect in Friend street.

George Freece, for personal injuries caused by a defective highway on Harvard street, East Boston.

Augusta Walsh, for compensation for injuries caused by an alleged defect at 685 Tremont street.

Parkman Fund.

Petition of the United Improvement Association that the relation between the Parkman and other funds be taken up.

Executive.

Petitions for sidewalks, viz.:

(Artificial Stone.)

Wood Machine Company, Damrell street, Ward 13.

William A. Gaston, 70-74 Harrison avenue and 9-11A Tyler street, Ward 7.

Boyd & Berry, 10 Draper street, Ward 20.

(Brick.)

Domenico Bonanni, 960 Saratoga street, Ward 1.

R. H. Allen, 421, 420 and 423 Tremont street and 2-22 Chandler street, Ward 10.

Israel Flink, 18-20-22 Lynde street, Ward 8.

Petition of Rev. L. P. McCarthy for permit for certain children under fifteen years of age to appear at Fitton Hall on December 30.

MINORS' LICENSES.

President BALLANTYNE submitted reports on petitions for minors' licenses for five newsboys and one vendor—recommending that the same be granted.

Licenses were granted on the usual conditions.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received.

Placed on file.

NOTICES OF HEARINGS.

Notices were received from the Harbor and Land Commissioners of hearing on December 7, on petitions of City of Boston for license to dredge berth and drive piles east of Fireboat Wharf, and to extend wharf at North End Paving Yard.

Placed on file.

RAILROAD POLICE.

Notice was received from the New York, New Haven & Hartford Railroad that Robert Walsh *et al.* were no longer employed as railroad police officers.

Notice was received from the Police Commissioner of the appointment of Antonio Capano as railroad policeman on the New York, New Haven & Hartford Railroad.

Placed on file.

POLE LOCATIONS, ETC.

Copies of orders were received from the Street Commissioners as follows:

Transfer of one pole of New England Telephone and Telegraph Company to Edison Electric Illuminating Company, on Ruggles street, near Huntington avenue.

To attach wires of Edison Electric Illuminating Company to two poles on Pearl street, Ward 20.

To attach wires of Edison Electric Illuminating Company to five poles on Geneva avenue, Ward 20.

To attach wires of New England Telephone and Telegraph Company to four poles on Arlington street, Ward 25.

To attach wires of New England Telephone and Telegraph Company to five poles on Harvard street, Ward 24.

To erect three poles of New England Telephone and Telegraph Company on Faulkner street, Ward 20.

To attach wires of New England Telephone and Telegraph Company to two poles on Lamson street, Ward 1.

To attach wires of New England Telephone and Telegraph Company to one pole on Massachusetts avenue, Ward 16.

To attach wires of New England Telephone and Telegraph Company to two poles on Polk street, Charlestown.

To erect and to remove three poles of New England Telephone and Telegraph Company on Dunbo street, Ward 25.

To erect one pole of New England Telephone and Telegraph Company on Fort avenue, Ward 19.

To erect two poles of New England Telephone and Telegraph Company on Howard avenue, Ward 16.

To erect three poles of New England Telephone and Telegraph Company on Harold street, Ward 21.

To erect nine poles of New England Telephone and Telegraph Company on Poplar street, Ward 23.

To erect twelve poles of New England Telephone and Telegraph Company on Talbot avenue, Ward 24.

To erect seven poles of New England Telephone and Telegraph Company on Bernard street, Ward 24.

To erect two poles of New England Telephone and Telegraph Company on Bayard street, Ward 25.

To erect one pole of New England Telephone and Telegraph Company on Myrtle street, Ward 11.

THANKS TO CITY COUNCIL.

The following was received:

City of Boston,

City Council, Boston, December 5, 1910.

To the City Council,

Boston, Mass.:

Dear Sirs,—Please allow me to express my sincerest thanks for the expressions of sympathy manifested by the City Council and officials in my recent bereavement in the death of my mother.

Yours sincerely,

TIMOTHY J. BUCKLEY.

Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received of the keeping of explosives at the following locations, and of intention to use said premises for same purpose for the ensuing year, viz.:

Edison Electric Illuminating Company of Boston, 74 Stanhope street, Ward 10.

Chauncey Thomas & Co., Inc., 101 Chestnut street, Ward 11.

Placed on file.

PEDDLERS ON TREMONT STREET.

The following was received:

City of Boston, Police Department,

December 5, 1910.

To the Honorable the City Council:

Gentlemen,—I beg to acknowledge the receipt, through the Superintendent of Police, of a communication addressed to you and by you referred to him, in which the Houghton & Dutton Company, by its treasurer, Alexander McGregor, makes protest against the presence of peddlers in a certain part of Tremont street in the holiday season.

For so many years it has been the custom to allow peddlers of toys and similar small articles suitable for the holidays and especially as gifts for children to stand for the six week days immediately preceding Christmas outside the curbstone at the Granary Burying Ground, but not in front of any private property. Their presence is a source of interest and amusement to the public. The goods which they sell are bought largely by persons who would not take the trouble to go to the stores for them, and the privilege of selling at that time and place puts a little money into the pockets of hundreds of poor people who prove their desire to earn rather than to beg by standing for many long hours daily exposed to frost and storms. They are permitted to make their sales on those particular days in full conformity with the law and under the supervision of the police.

For these reasons I do not feel justified in exercising the authority which the law gives to the Police Commissioner for the suppression of a privilege of such a character and of so many years' standing.

Respectfully,

STEPHEN O'MEARA,

Police Commissioner for City of Boston.

Placed on file.

DEPARTMENT CONSOLIDATIONS.

A communication on Department Consolidations was received and referred to the Committee on Ordinances. (See page 901.)

CONFIRMATION OF APPOINTMENTS.

The President called up unfinished business, viz.: Action on appointments submitted by the Mayor November 21, viz.:

1. John A. McWilliams, to be a Constable of the City of Boston for the term ending April 30, 1911.

2. Francis H. Hughes, Henry J. O'Reilly, Joseph F. Quinton and George W. Wells, to be Weighers of Coal for the term ending April 30, 1911.

Action on appointments submitted by the Mayor November 28, viz.:

3. Mary E. Daley, Michael F. Daley, Joseph A. Kirchgassner, Robert McKenzie and Harold D. Page, to be Weighers of Coal for the term ending April 30, 1911.

Patrick R. Dunn, to be a Measurer of Grain for the term ending April 30, 1911.

Harold D. Page, to be a Measurer of Wood and Bark, Measurer of Grain, Weigher of Boilers and Heavy Machinery and Weigher of Beef for the term ending April 30, 1911.

The question came on confirmation. Committee, Coun. Kenny and Brand. Whole number of ballots cast 6, yeas 6, and the appointments were confirmed.

SALE OF UNCLAIMED BAGGAGE.

President BALLANTYNE offered an order—That the order passed by the City Council November 21, 1910, and approved by the Mayor November 22, 1910, authorizing the sale of unclaimed baggage by the Boston & Maine Railroad, be hereby rescinded.

Ordered, That the Boston & Maine Railroad be hereby authorized to sell, at public auction, on or before May 1, 1911, and after publication of the time and place of sale according to law, the articles left and remaining unclaimed in the passenger station of said company in the City of Boston.

Passed.

OLD SOUTH ASSOCIATION MANAGERS.

Coun. ATTRIDGE offered an order—That Walter Ballantyne and Walter L. Collins be hereby elected as managers of the Old South Association in Boston for the present municipal year.

Passed.

SALARY INCREASE FOR FIREMEN.

Coun. ATTRIDGE offered the following: Whereas, The high efficiency of the Boston Fire Department deserves appreciation and recognition that is consistent with the enlarged scope of its duties and its service in a great and wealthy metropolitan area; and

Whereas, There has been no increase in salaries of members of the Fire Department for twenty-three years; be it therefore

Resolved, That the Fire Commissioner be requested to consider the advisability and expediency of increasing the salaries \$200 annually of all members of the Fire Department who have served five years or more, if sufficient appropriation therefor should be made; and be it further

Resolved, That the Fire Commissioner be requested to consider the advisability and expediency of including in his estimates for the next fiscal year a sum sufficient to allow for the above increase.

The preambles and resolutions were read a second time, and the question came on their adoption.

The resolutions were assigned for two weeks.

TEMPORARY CHAIRMAN, PARKMAN FUND COMMITTEE.

Coun. COLLINS—Mr. President, I am not a member of the Parkman Fund Committee, but, in the absence of our esteemed associate, Coun. Hale, whose illness has been more protracted than the members of this Council had any idea it would be, I move you, sir, in order that the catastrophe which happened last year—when a substantial proportion of the interest of the Parkman Fund reverted to the principal—may not occur again this year, that the President designate another member of that committee as chairman *pro tem.* of the committee, so that the committee may meet and act on matters before it.

The motion was carried, and President BALLANTYNE designated Coun. Brand as chairman *pro tem.* of the Committee on Parkman Fund Income.

Coun. BRAND—Mr. Chairman, it is in accord with my desires and wishes to have a meeting of the committee. I and the other members have hoped for Coun. Hale's return before this; but, as the year is fast passing, some steps should be taken as indicated by his Honor the Mayor. I shall be very glad to call the committee together as early as possible this week.

RECESS TAKEN.

The Council voted at 3.17 p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.39 p. m.

EXECUTIVE.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on message of Mayor and order (referred November 28) for transfer of \$1,000 to appropriation for estate, Massachusetts avenue and Northampton street—that the order ought to pass.

Report accepted; order passed, yeas 7, nays 0.

(2) Report on message of Mayor and order (referred October 31) to transfer \$262.50 to appropriation for Mayor, office expenses—that the order ought to pass.

Report accepted; order passed, yeas 7, nays 0.

(3) Report on petition of Rev. L. P. McCarthy (referred to-day) for permit for certain children under fifteen years of age to appear at Fitton Hall on December 30—that a permit be granted.

Report accepted; permits granted on the usual conditions.

(4) Reports on petitions (severally referred to-day) for sidewalks—recommending the passage of orders that the Superintendent of Streets make sidewalks in front of the following-named estates; said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built as hereinafter specified, the owner to furnish said material, viz.:

Artificial Stone.

Wood Machine Company, Damrell street, Ward 13.

William A. Gaston, 70-74 Harrison avenue and 9-11A Tyler street, Ward 7.

Boyd & Berry, 10 Draper street, Ward 20.

Brick.

Domenico Bonanni, 960 Saratoga street, Ward 1.

R. H. Allen, 421, 420 and 423 Tremont street and 2-22 Chandler street, Ward 10.

Israel Flink, 18, 20, 22 Lynde street, Ward 8.

Reports severally accepted; orders passed.

ANNUITY FOR MRS. NEEDHAM.

Coun. BRAND offered an order—That an annuity of \$300 be allowed and paid as long as she remains unmarried to Mrs. Jennie M. Needham, widow of Charles T. Needham, late a member of the Fire Department, who died from injuries received while in the discharge of his duties as a member of said department; the amount paid under the authority of this order to be charged to the appropriation for Fire Department.

The order was assigned for one meeting.

A QUESTION OF PRIVILEGE.

Coun. BRAND—Mr. President, I arise at this time to a question of personal privilege, and I want to ask the indulgence of the Council for just a few moments.

President BALLANTYNE—Coun. Brand will proceed.

NEXT MEETING.

It was voted, on motion of Coun. KENNY, that when the Council adjourn it be to meet on Monday, December 12, at three o'clock p. m., unless called together before that time by the President.

GENERAL RECONSIDERATION.

Coun. BRAND moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at five o'clock p. m., on motion of Coun. McDONALD.

EFFICIENCY RECORDS OF DETECTIVES.

BASIS FOR PROMOTIONS—MINNEAPOLIS SYSTEM RECOMMENDED—CREDITS ON DAILY RECORDS.

Students of American police administration have for many years criticized the want of proper efficiency records in our police departments. In most police departments no efficiency records whatever are kept, and those few departments which keep efficiency records record only extraordinary police action for which special recognition has been given by the head of department because of the personal risk involved in its performance and penalties inflicted for official misconduct, or for a violation of the rules and regulations of the department, after a trial before a disciplinary authority. The inadequacy of such efficiency records, which note only extraordinary events in the official life of the policeman and do not attempt to keep a record of the officer's daily performance of routine duty, is apparent to all, but as far as the writer is aware no attempt has been made to remedy this defect in the uniformed police forces of this country.

The lack of such efficiency records in the case of the uniformed force is felt particularly when promotions are to be made. The civil service commissions which conduct civil service examinations would be glad to incorporate into their scheme of examination any proper efficiency records which may be kept by the police depart-

ments. Furthermore, the head of department, when called upon to make promotions, would like to consult an efficiency record of the men who are candidates for promotion before making appointments to superior positions in the department. The head of department is frequently a commissioner who has been in office for a comparatively short period of time; he is generally not personally acquainted with the relative efficiency of the men in his department and in every case he would, if he is himself conscientious, like to consult efficiency records of his men, which have been contemporaneously and carefully kept.

However great the need of efficiency records may be in the case of the uniformed police, who have routine duties to perform, the need of such records for the purpose of maintaining the efficiency of the detective force is almost so great as to render their installation indispensable. Detectives have less routine duties to perform; they perform their duties even less under the supervision of their superior officers than uniformed policemen; and the universality of the complaint that many members of our American detective forces are lazy and shirk their official duties would seem to indicate that the absence of efficiency records has in practice the bad results which we would expect to find from a theoretical consideration.

In the city of Washington, in the District of Columbia, the efficiency of the detective force is maintained in the following manner: Detective sergeants are detailed from time to time from the privates of the uniformed force; such a detail being considered a recognition of extra-meritorious work performed while in the uniformed service. If the department fails to realize from these men so detailed upon their being assigned to the detective branch of the service they are again relegated to the ranks. Monthly reports are made by the chief of detectives to the superintendent of police, wherein he gives the number of arrests made by each individual detective, the number of cases held by the courts, the number of cases dismissed, the number of cases *nolle prosequi*, the number of cases pending, the estimated value of the property recovered by each individual detective and the total value of the property recovered during that period. In other words, each man in the service must stand on his own merits and his capacity to do good detective work. There are no special blank forms for these reports as they require only a single communication once a month.

For a city which is so fortunate as to have for its superintendent of police a man of such great experience, ability and efficiency as Superintendent Sylvester of Washington this system undoubtedly works very well in practice. The monthly report from the chief of detectives will show to the conscientious and experienced chief of police whether the detectives have done reasonably good work or whether they have shirked their duties. In a case in which the head of the police department, however, is not as experienced as is Superintendent Sylvester, or where the efficiency records are to be used in connection with civil service examinations for promotion, the system devised by Superintendent Frank T. Corrison of Minneapolis is to be strongly recommended.

In Minneapolis each detective is required to render a daily report, and these reports are tabulated on a large card which is kept on file at police headquarters. Each detective has his own card. This card has numbers from 1 to 31 along the left hand margin, thus allowing one line

for the entries of each day of the month. Along the top of the card are the following column headings: Property recovered, drunks, vagrants, pickups arrested, pickpockets, etc., with criminal records arrested, other prisoners arrested, prisoners fined and sentence suspended, prisoners held for grand jury, prisoners sentenced to city workhouse or county jail, prisoners sentenced to state reformatory, prisoners sentenced to penitentiary, fugitives arrested, letters and telegrams investigated, special duty, remarks.

A fixed number of points is allowed for each kind of service performed by the detective. One point is allowed for the arrest of drunks and vagrants. As a general rule detectives are not expected to arrest such offenders, but circumstances obligate them to make such arrests at times and therefore one point is allowed for such an arrest. Nothing, however, is allowed for the final disposition of these cases since there is no detective work involved therein. Such arrests are made by detectives at times in Minneapolis, because of the fact that plain-clothes men perform reserve duty. When detectives arrest vagrants or pickpockets with criminal records they are allowed three points for each arrest. For the arrest of any other prisoners only a single point is allowed, but additional credit is given for the final disposition of such cases.

When prisoners are fined or sentence is suspended two points of credit are allowed, because these are generally cases of small importance. When the detective presents sufficient evidence to the magistrate to warrant him in holding the prisoner for the grand jury the detective receives five points of additional credit. If the prisoner is sentenced to the city workhouse or county jail the detective receives five points of credit. Ten points of additional credit are given to the detective when a prisoner is sentenced to the penitentiary or the reformatory. Men under thirty years of age convicted of a first offence are usually sent to the reformatory and they can be transferred to the penitentiary at the discretion of the Board of Control. The work of the detective would be the same in the case of a conviction to the reformatory as in the case of a conviction to the penitentiary, it being entirely a matter for the court to decide to which institution a given criminal is to be sent.

For the arrest of a fugitive wanted by the police of another city the detective receives five points of credit and one point of credit is allowed for the investigation of a letter or a telegram. One point is also allowed for special duty on occasions when a detective may be detailed to attend some wedding where valuables are on display, or to some other place of a like character. Furthermore, one point is allowed for the recovery of each \$200 of stolen property.

The general plan of Superintendent Corrison's system of marking is to give credit for securing and presenting the facts of a criminal case to the court and carrying the case to a successful completion. The amount of the credit depends upon the importance of the work performed by the detective. The total number of points earned by each detective is made known to the members of the detective force and serves to stimulate them to added efforts.

Superintendent Corrison's plan is one which is to be strongly commended to the careful consideration of American chiefs of police. It is likely also that it can be adapted for use in connection with the uniformed police forces of American cities.

Municipal Journal and Engineer.

*By Leonard Felix Fuld, LL. M., Ph. D., Examiner, New York Municipal Civil Service Commission.

REPORT OF COMMITTEE ON PENSION AND RETIREMENT SYSTEM FOR CITY EMPLOYEES.

Boston, December 5, 1910.

To the Monthly Conference of Members of the City Council and Heads of Departments:

Your committee, appointed to inquire into the effect on the city finances of the acceptance of chapter 619 of the Acts of 1910, entitled "An Act to Authorize Cities and Towns of the Commonwealth to Establish Retirement Systems for their Employees," report as follows:

SYNOPSIS OF ACT.

The act in question authorizes cities and towns to establish retirement systems for their employees on a basis of substantially equal division of the expenses between the beneficiaries and the municipality. The employees are to be assessed regularly on their wages and salaries at the rate of not less than one, and not more than five per cent, to provide a fund out of which annuities shall be paid to those retired from the service. Exception is made, however, in the case of employees receiving more than \$30 per week. Such persons are not to be assessed on the excess above that amount. That is, employees of this class are all assessed on the flat basis of \$30 per week. Each employee retired under the provisions of the act is to receive an annuity of such amount as his contributions during his period of service, accumulated with interest at 3 per cent, compounded semiannually, will provide for him according to actuarial computation. The city is to supplement this annuity in each case with a pension of equivalent amount. In no case shall the combined amount of annuity and pension be less than \$200. The age of voluntary retirement is fixed at sixty years. That is, employees who have reached that age may retire or may be retired by the Board intrusted with the administration of the act. The age of compulsory retirement is fixed at seventy years. That is, employees who have reached that age must retire or be retired. An additional requirement of fifteen years continuous service is laid down for employees retiring or retired at the age of sixty. Furthermore, employees who have served thirty-five years continuously may retire or be retired at any age.

Participation in the retirement system is optional for present employees. It is obligatory for future employees—those entering the service after the establishment of the retirement system—with these exceptions: Officers elected by popular vote, and employees eligible for a pension from the city for any reason other than membership in the association, are debarred from participation.

In addition to pensions for subsequent service, pensions for prior service are also provided. That is, employees in the service of the city when the pension scheme is established are to receive, in addition to the pension which they may secure through their contributions to the annuity fund, an extra allowance equal to the amount of the annuity that they might have earned for themselves had the scheme been in operation when they entered the service and had they made contributions to the fund from that time in proportion to their current wages or salaries. It should be noted, further, that employees who have reached the age of sixty years when the retirement system was established, and employees who had reached the age of fifty-five years at that

date and also became members of the association, may be retired with pensions for prior service without having completed the otherwise required service period of fifteen years.

The administration of the system is intrusted to a Board of Retirement, consisting of the City Treasurer, *ex officio*, another member chosen by the Retirement Association composed of the participating employees, and a third member selected by the first two or appointed by the Mayor in case of their failure to agree. The Insurance Department of the Commonwealth is given adequate powers of supervision with reference to the actuarial and administrative features of the system.

A referendum clause provides that the system shall not go into operation until it has been accepted, first, by the City Council, and, later, by the voters at a regular municipal election.

METHOD OF CALCULATION.

It is obvious that the cost of such a scheme cannot be calculated accurately in advance. Any estimate can be only approximate. There are several elements of uncertainty that necessarily enter into the calculation. In the first place, it is impossible to tell exactly how many of the present employees would elect to participate in the scheme, as participation is voluntary. Again, the percentage of assessment on wages and salaries is not fixed definitely but may range from 1 to 5 per cent, according to the decision of the Board of Retirement. Also, employees may be classified, with different percentages of contribution for the various classes. Furthermore, the number of employees in the age group sixty to seventy years—that is, between the age of voluntary and that of compulsory retirement—who will retire or be retired cannot be determined. There are minor indeterminable factors that enter into the calculation which need not here be enumerated.

Under the conditions any calculation of cost must be based on certain more or less arbitrary assumptions. For the purpose of making a preliminary calculation, it may be assumed, first, that all present employees will participate. While participation for this class is voluntary, the advantages held out are so attractive that it may reasonably be assumed that all persons now in the service of the city would become members of the Retirement Association. Second, the calculation may be based on the assumption that either the minimum rate of 1 per cent or the maximum rate of 5 per cent, assessment on wages and salaries will be chosen; it seems unnecessary for purposes of a preliminary estimate to calculate the cost for the intervening rates of 2, 3 and 4 per cent. Third, let it be assumed, finally, that all employees of the age of sixty-five or over would retire or would be retired when the system went into operation. This assumption is not altogether arbitrary, but is a reasonable forecast of the probable scope of the retirement system during the first year of operation.

A further question arises regarding the method of calculation to be adopted. The cost for the first year would be comparatively small; the expense would then increase gradually until the system had come into full operation. Your committee has thought it sufficient for purposes of preliminary forecast to indicate the probable cost for the first year and for the sixth year of operation.

The contributions to be made by the city are defined in the act as follows:

"Every month the city or town shall contribute such amount as the Board of

Retirement may determine to be necessary to pay current pensions for subsequent service, . . ."

"Every year in February, the city or town shall contribute an amount equal to the surplus arising from annuity deposits. In case there should be a deficiency arising from such annuity deposits, instead of a surplus, then the city or town shall make good such deficiency."

"Every month the city or town shall contribute such amount to the Board of Retirement that may be determined to be necessary to pay current pensions for prior service . . ."

"Every month the city or town shall contribute such amount as the Board of Retirement may determine to be necessary to insure the minimum payments provided for . . ."

The amount of possible contributions to make up a surplus or a deficit arising from annuity deposits cannot be determined in advance. There would be no payment whatever on this account for the first year, as there would be no previous annuity deposits to give rise either to a surplus or a deficit. For the fifth year, moreover, the amount would be small in any event. This element in the cost may then be left out of account as practically negligible for purposes of the present calculation.

Furthermore, in calculating the cost of the system it is not necessary to distinguish between payments on account of pensions for prior service and for subsequent service. The obligation entailed upon the city is the same in both cases. That is, in the case of persons having a claim for pensions for subsequent service the city pays an amount equal to the annuity earned by the employees. In case of persons having a claim for pensions for prior service the city pays an amount equal to the annuity that would have been earned by the employee had the system been in operation when he entered the service. It is not necessary, therefore, in calculating the expense of the act for the first year or for later years to distinguish between prior and subsequent service.

The first step in estimating the cost of the system is to obtain certain data regarding the employees of the city. It is necessary to know the number of persons on the pay roll, their ages, wages or salaries and periods of service. In February, 1909, an enumeration of the persons then employed by the city who were not eligible for pensions under existing legislation was made by the department of statistics. The returns of this census, comparatively recent as it was, furnish a basis for calculating the probable cost of the proposed retirement system, according to the assumptions previously indicated.

The total number of such employees on the pay roll at the time of this enumeration was 5,767. The number, sixty-five years of age and over, who would be retired during the first year of operation, according to the assumption that has been made, was 477. The additional number, sixty to sixty-four years of age, who would be retired during the first five years of operation was 522.

COST FOR FIRST YEAR.

The number of employees sixty-five years of age and over, to be retired during the first year, is 477. The total amount paid this group in wages and salaries—exclusive of all amounts exceeding \$30 a week, or \$1,560 per year, which are not assessable for annuity and pension purposes under the act—is \$321,956.74.

The annual contributions of the employees to be retired under the act would then amount to \$3,219.56 at the rate of 1 per cent. The average period of service of this group is twenty-one years. The annual contributions accumulated at 3 per cent interest, compounded semiannually, would amount in twenty-one years to \$94,638.96. The average age of this group is sixty-eight years. The accumulated contributions would at that age provide annuities, according to the American mortality tables, at 3 per cent, amounting to \$11,293.43. If the maximum assessment rate of 5 per cent were chosen, the amount would be \$56,467.15. These totals represent the amounts required to pay pensions for prior service, proportionate to the annuities hypothetically earned on the 1 per cent and 5 per cent basis, respectively.

The additional amounts required to insure the minimum payments provided for in the act, at the rate of \$200 for each retired employee, must next be calculated. If the rate of assessment were only 1 per cent, the additional amount would be very large proportionately, as only a few of the annuities would reach the minimum figure. It appears, indeed, that only three of the 477 retired employees would have contributed a sum sufficient to provide an annuity of \$200. The amount due the other 474, on the minimum basis of \$200, each, would be

Pensions for prior service
Minimum payments
Expenses of administration

Total

COST FOR SIXTH YEAR.

The cost after five years may be calculated, according to similar assumptions, as follows:

The number of employees in the age group sixty to sixty-four who would retire or be retired during the first five years of the operation of the system is 522. The amount of wages and salaries of this group is \$390,991.01. A 1 per cent assessment on this would amount to \$3,909.91. Accumulated at 3 per cent interest, compounded semiannually, this would yield \$114,931.53 after twenty-one years. This would provide annuities amounting to \$13,714.98. At the maximum rate of 5 per cent the amount would be \$68,574.90.

The additional amounts required to provide minimum payments, calculated according to the methods used in making the estimates for the first year, allowance being made for the contributions to the annuity fund by this group during the average period of service subsequent to the establishment of the pension system, would be, on a 1 per cent basis, \$92,192.06; on a 5 per cent basis,

Pensions and minimum payments as previously calculated for first year
Additional pension payments calculated for all persons retired during next five years
Additional minimum payments calculated for all persons retired during next five years

Allowance for reduction of pension roll by death

Expenses of administration

Total

"GROSS" AND "NET" COST.

It should be remembered that these amounts are only approximations of the probable cost, based on certain assumptions and on certain averages. We believe, however, that they represent

\$94,800. Their accumulated contributions would provide only \$11,135.02. This would leave a deficit of \$83,664.98, representing the amount required to insure the minimum payments on a 1 per cent basis.

If the rate of assessment were 5 per cent, the additional amount would be much smaller, as a larger proportion of the annuities would reach the minimum figure. The number who would have contributed enough to provide an annuity of \$200, would be 141. The sum required to cover the minimum allowances for the remaining 336 would be \$67,200. This group would have earned, on a 5 per cent basis, annuities amounting to \$22,856.70. The deficit to make up the minimum payments would then amount to \$44,343.30.

The expenses of administration may be estimated approximately as follows:

One actuary.....	\$3,000
Clerks and stenographers.....	14,000
Rent of offices.....	2,000
Office furnishings.....	1,000
Printing, books and stationery..	3,000
Contingent.....	2,000

\$25,000

According to these estimates, the total amount which the city would pay in the first year of operation of the pension system would be as follows:

	At 1 Per Cent.	At 5 Per Cent.
	\$11,293 43	\$56,467 15
	83,664 98	44,343 03
	25,000 00	25,000 00
	<u>\$119,958 41</u>	<u>\$125,810 45</u>

\$46,560.30. Adding to the foregoing totals for pension and minimum payments the amounts payable for pensions entered upon the first year, previously calculated, we should have as total pension and minimum payments for the sixth year, on a 1 per cent basis, \$200,865.45; on a 5 per cent basis, \$215,945.65. But in estimating the expense for the sixth year, allowance should be made for the reduction of the pension roll by mortality. At the age of sixty-five the average mortality is forty per 1,000, according to the American mortality tables. Making allowance at this rate, which is obviously the minimum that could be taken, we should have a reduction in the pension roll in five years of five times 4 per cent, or 20 per cent. This would amount to \$40,173.09 for the 1 per cent total and \$43,189.13 for the 5 per cent total. Finally, it may be assumed that the expense of administration would increase, perhaps, 10 per cent in five years.

On the basis of the foregoing calculations, the cost for the sixth year would be as follows:

	At 1 Per Cent.	At 5 Per Cent.
	\$94,958 41	\$100,810 45
	13,714 98	68,574 90
	92,192 06	46,560 30
	\$200,865 45	\$215,945 65
	40,173 09	43,189 13
	\$160,692 36	\$172,756 52
	27,500 00	27,500 00
	<u>\$188,192 36</u>	<u>\$200,256 52</u>

with reasonable closeness the pecuniary outlay that would be entailed by the adoption of the proposed retirement system.

The foregoing figures, it should further be remarked, show only the gross expenses

of the retirement system, as it may be termed. In order to determine the net effect of the system on the city's finances, it would be necessary to take account of the savings that might be expected to result from the establishment of the system. These savings might be effected in three ways: First, through elimination of the direct waste of money paid in wages and salaries to aged employees who have outlived their usefulness; second, through stoppage of the indirect loss entailed through the slow pace forced upon the rest of the workers by the presence of inefficient veterans; third, through the positive gain resulting from the substitution of younger men for the retired veterans and the increase of efficiency that might be promoted by the retirement system. Obviously the effects of the system in these various directions cannot be measured in advance. To what extent the economies indicated would actually be realized in practice must remain a matter of opinion until the experiment has been tried. Your committee is unable, therefore, to present an estimate of the net cost of the proposed retirement system.

AMOUNT OF PENSIONS.

Inquiries have been made by interested parties regarding the amounts of retirement allowances that would be received by pensioners. The following examples throw light on this question:

1. A person entering the employment of the city at age of twenty-five, serving thirty-five years, at an average salary of \$600, and retiring at age of sixty, would be entitled, on the basis of a 1 per cent rate of contribution, to an annuity of \$32.38. As this amount doubled by the pension would be less than the minimum, \$200, fixed in the act, such a person would receive that minimum. On the basis of a 5 per cent rate, he would be entitled to an annuity of \$161.90, which, doubled by the pension, would make an allowance of \$323.80.

2. For a salary of \$900, under similar conditions as regards age and service, the allowances would be as follows:

	1 Per Cent Basis.	5 Per Cent Basis.
Annuity.....	\$48 57	\$242 85
Pension.....	48 57	242 85
Total.....	<u>\$97 14</u>	<u>\$485 70</u>

3. For a salary of \$1,200:

	1 Per Cent Basis.	5 Per Cent Basis.
Annuity.....	\$64 76	\$323 80
Pension.....	64 76	323 80
Total.....	<u>\$129 52</u>	<u>\$647 60</u>

4. For a salary of \$1,500:

	1 Per Cent Basis.	5 Per Cent Basis.
Annuity.....	\$80 95	\$404 75
Pension.....	80 95	404 75
Total.....	<u>\$161 90</u>	<u>\$809 50</u>

It should be noticed that the minimum contribution rate of 1 per cent would not in any case yield a sufficient amount of annuity to cover the minimum payment.

F. SPENCER BALDWIN,
CHARLES H. SLATTERY,
J. ALFRED MITCHELL,
Committee.

GARBAGE WRAPPED UP.

In Minneapolis greater cleanliness is secured in the handling of garbage by a city ordinance that requires the householder to wrap it up in bundles with paper.

PROCEEDINGS OF SCHOOL COMMITTEE.

Dec. 5, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4.55 o'clock P.M.
Present: Messrs. Brock, Ellis, Lee, Magenis and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

WITHDRAWAL OF AN APPOINTMENT.

A communication was received from the Superintendent, under date of Dec. 5, 1910, withdrawing the appointment on probation of William H. Ryan, as assistant in the Lyman District, at his request, to take effect Dec. 6, 1910.
Placed on file.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation, as reported by the Superintendent, and laid over at the last meeting.

The appointments were approved

STUDY OF SPANISH IN THE HIGH SCHOOLS

A communication was received from His Honor the Mayor, under date of Dec. 3, 1910, stating that various communications have been received at his office suggesting that the teaching of Spanish in the high schools of Boston, particularly in the High School of Commerce, be extended, and requesting information relative to the number of pupils in the High School of Commerce, and in the other high schools, now taking up the study of Spanish, and whether steps have been taken to point out to the pupils the importance of acquiring a practical knowledge of the language which prevails throughout almost the whole of North and South America, outside of the United States, Canada, and Brazil.

Referred to the Superintendent for consideration and report.

COMPLAINT OF FRANK M. ZOTTOLI

A communication was received from His Honor the Mayor, under date of Nov. 22, 1910, transmitting a complaint addressed to him by Frank M. Zottoli that his son had been refused admission to the Cushman School in the Hancock District except through a basement toilet which Mr. Zottoli alleges to be an improper and unsuitable means of entrance to the school.

Placed on file, and the Secretary directed to make suitable reply to His Honor the Mayor.

HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

The following communications relative to a site for the proposed High School of Commerce and School Administration Building were received:—

CITY OF BOSTON.

SCHOOLHOUSE DEPARTMENT.

Nov. 28, 1910.

Mr. Thornton D. Apollonio,
Secretary, School Committee,
Mason street, Boston.

Dear Sir:—

The Board of Schoolhouse Commissioners have this day voted to notify the Board of Street Commissioners to take, by right of eminent domain, Fort Hill Square as a site for the High School of Commerce and School Administration Building, and in compliance with Chapter 46 of the Acts of 1909, this Board respectfully asks the approval of the School Committee.

Very truly yours,

Charles Logue, Chairman.

STREET DEPARTMENT.

City Hall, Boston, Nov. 28, 1910.

Mr. David A. Ellis,

Chairman Boston School Committee.

Dear Sir:—

At the recent meeting in the Mayor's Office, regarding the proposed site for the

High School of Commerce at Fort Hill Square, one of the principal objections to this site was the noise which arises from the granite block pavement at present laid in this square. There are various methods of remedying this drawback, however, among which I might mention the possibility of covering the present granite block paving with a coating of asphalt. This would be the cheapest remedy, at an estimated cost of \$6000. Secondly, the present pavement could be removed entirely, and wood block paving substituted, at a cost of about \$18,000. Thirdly, a soft granite block could be substituted for the present hard granite, which would decrease the noise very materially, and meet with no objection from the teaming interests. The cost of this would be, approximately, the same as that of wood block.

Respectfully,

L. K. Rourke,

Superintendent of Streets.

BOSTON CHAMBER OF COMMERCE,

Dec. 3, 1910.

David A. Ellis, Esq.,

Chairman School Committee,
Boston, Mass.

Dear Sir:—

The Executive Committee of the Boston Chamber of Commerce has again unanimously declared its opposition to the location of the High School of Commerce in Fort Hill Square, and in conformity with its instructions to voice the opposition of the Chamber of Commerce, I enclose herewith statement as to the reasons therefor.

Your careful consideration of these reasons is urgently requested, and I specially direct your attention to the fifth reason, with reference to the noise, as this alone should be a controlling one so far as this location is concerned.

Yours very truly,

Bernard J. Rothwell,
President.

The objections of the Chamber of Commerce to the proposed site are:—

1st. That it is unwise and sets an unfortunate precedent for the city to take any part of its few small parks and breathing spaces for building purposes. One building alone abutting Fort Hill Square is to house twelve hundred employees; probably an equal number is employed in the other buildings surrounding the Square. These workers occupy these buildings as many hours as they occupy their residences, and therefore the deprivation of light and air which this little Park affords is equally as important as it would be if located in the centre of their homes.

If the city once enters upon this policy there is no indisputable reason why other breathing spaces, such as Louisburg Square, Union Park, Copley Square, Chester Park (Massachusetts Avenue), Rutland Square, Central Square, East Boston; Winthrop Square, Charlestown; Independence Square, South Boston; Walnut Park, Roxbury, or any one of the open spaces within the city limits, should not be utilized for municipal building purposes, whether it be schools, gymnasiums, baths, district courts, or other public utilities.

When some two years ago it was proposed to use a small portion of the Charles River Embankment near Leverett street for a similar purpose, the entire West End was up in arms, although the area to be occupied formed but a comparatively small portion of a large, open space fronting a broad expanse of water and abutting on a wide thoroughfare.

2nd. That the attempt to build upon Fort Hill Square will lead to slow and vexatious litigation, real estate owners, generally, and practically every occupant of property abutting Fort Hill Square having remonstrated in writing against the proposed building. Therefore the erection of the school building, for which a crying, immediate need exists, will be indefinitely postponed, to the serious loss of the hundreds of pupils seeking, but unable to gain admission.

3rd. If the city has the right to confiscate this Park, it is economically unsound to place thereon a school building, for which land can be provided at a cost not exceeding two hundred thousand dollars, whereas the assessed value of Fort Hill Square Park is four hundred and eighty thousand dollars. Therefore, if it is to be condemned, the city should sell it at its real value of five hundred thousand dollars, or more, use two-fifths of this amount in purchasing a suitable lot for the High School of Commerce, and appropriate the balance for other necessary municipal purposes.

4th. That Fort Hill Square is in a steadily increasing turmoil of heavy teaming throughout the day. A count made by a representative of the Chamber of Commerce with a registering counter between the hours of nine and eleven A.M. on Thursday, Dec. 1, showed ten hundred and seventy-six vehicles entering the Square, in most cases heavily laden.

The report of this representative of the Chamber shows a considerable congestion, compelling frequent stoppage of traffic, thereby increasing the need of a non-slipping pavement. Any form of noiseless pavement would be seriously conducive to slipping and would thus largely impair the usefulness for teaming purposes not merely of the thoroughfare surrounding the Square itself, but also of the adjoining streets, and in this way would be highly injurious to the commercial interests.

It is believed that the noise resulting from this large volume of traffic and from the operation of the Elevated Railway in close proximity, would make the proper conduct of classes practically impossible, even if all windows were to be kept tightly closed—in itself, a highly undesirable feature.

In addition, there is a large fire engine and hook and ladder house situated on the Square, which contributes frequently to the noise and excitement. The erection of a building in the centre of the Square would affect its operations, while the introduction of any noiseless and slippery pavement would seriously jeopardize the safety of the firemen, the horses and the apparatus in getting under way because of the curves as well as right angle turns which would immediately be encountered. It was clearly shown at the time of the great Boston fire that this open space was a most valuable barrier to an extensive conflagration, and it is located in a district that is regarded as specially hazardous.

5th. While this location would be convenient to the business men, whose identification with the School is of paramount importance, it would be highly inconvenient and inaccessible for a large majority of the pupils attending; in this respect being even more unsatisfactory than the site which was proposed in the Back Bay Fens.

The only close connection by cars, either elevated or surface, is via Atlantic Avenue, upon which the service of through trains is comparatively infrequent.

The location is remote from either the Washington Street Tunnel or the Tremont Street Subway, which are the main arteries of North and South traffic—the directions in which the school population lies. To the great majority of the boys coming from Roxbury, Dorchester and Jamaica Plain, access to this location would be slow and inconvenient.

Finally, the modern tendency is decidedly toward utilization of school buildings in the evening, as well as in the day, either as educational, neighborhood or civic centres. The Fort Hill Square location would effectively prevent any such evening use for either purpose.

To sum up, the single recommendation for this lot is that it can possibly be had for nothing beyond the cost of litigation. From every other point of view it is undesirable, and therefore the Chamber of Commerce is strongly opposed to the placing of the new High School of Commerce on that site.

While not the only possible one a site universally agreed to be desirable has been suggested on the corner of Ferdinand Street and Grenville Place, off Columbus Avenue, directly facing the Cadets Armory, on the line of the proposed Arlington Street improvement, and close by the new Abraham Lincoln School, the largest in Boston, the surroundings all tending toward something in the nature of a civic centre.

The development of Columbus Avenue is quite sure to be along lines that will bring the same class of pavement as is laid between Winter Street and Park Square on Tremont and Boylston Streets.

This lot is well located both for the High School of Commerce and for the Administration Offices of the School Committee and Schoolhouse Commission, which the act of the Legislature provides for. It is central and easy of access both to pupils and to the business men who are identified with the school.

It can probably be secured at a lower net cost than two hundred thousand dollars, and the location of the new High School of Commerce in that vicinity will tend toward the much needed development of the city in that direction. Unless a more

satisfactory site can be chosen it would seem that this site should be selected.

With earnest desire to cooperate with the Mayor in every wise economy the Chamber of Commerce believes that obvious serious objections and permanent disadvantages should not be ignored in the interest of a "Penny wise, pound foolish" policy, which in the end would prove to be a costly blunder.

Severally laid on the table.

Also a communication from James J. Haines, under date of Dec. 4, 1910, containing various reasons, historical and otherwise, for the preservation of Fort Hill Square in its present form.

Laid on the table.

KINDERGARTEN ROOMS FURNISHED FOR REGULAR GRADE WORK.

A communication was received from the Board of Schoolhouse Commissioners, under date of Nov. 30, 1910, stating that the orders passed at the meeting of Oct. 3, 1910 (see pp. 153, 154), with reference to fitting up Room one of the kindergarten in the Cushman School-house, Hancock District, and the kindergarten room in the Christopher Columbus School-house, Eliot District, with furniture for regular grade work, have been attended to and all the changes contemplated and covered by the two orders have been complied with.

Placed on file.

DEATH.

The Superintendent reported the death of the following named teacher:—

Hancock District—Mary G. Ruxton, assistant, Dec. 2, 1910.

Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:—

(To Retire from the Service.)

Girls' High School—Harriet D. Buckingham, assistant, Dec. 31, 1910.

Harvard District—Eliza A. Maguire, first assistant, kindergarten, Nov. 30, 1910.

Accepted.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SPECIAL ASSISTANTS.

Cheverus District—Elizabeth A. Burns, Dec. 1 to Dec. 6, 1910, inclusive.
Comins District—Violet E. Brown, Elinor G. Cowan, Sept. 14 to Sept. 23, 1910, inclusive; Roxana L. Johnston, Oct. 25, 1910, one day.

Eliot District—Mae D. Benzaquin, Nov. 29 to Dec. 6, 1910.

Lewis District—Helen P. Gorman, Nov. 21, 1910, three days.

Lyman District—Florence M. Hawes, Nov. 11, 1910, one day.

Phillips Brooks District—Rose M. Biggi, Dec. 1, 1910.

Roger Wolcott District—Theresa F. Long, Nov. 29, 1910, one day; Grace E. Russell, grade teacher, Nov. 1 to Nov. 18, 1910, inclusive.

Approved.

TEMPORARY TEACHERS.

Mechanic Arts High School—John H. H. Glover, junior-master, (vice David H. Fulton resigned). Dec. 5, 1910.

Wells District—Mary E. Carrigan, assistant, (vice Laura W. Cook, temporarily assigned to High School of Practical Arts.) Dec. 6, 1910.

Sewing—Kathleen E. Coughlan, teacher, (vice Mary E. Patterson, resigned.) Dec. 1, to Dec. 19, 1910, inclusive; Mary F. Dutton, (three-fifths time) teacher, (vice Evelyn F. Lally, appointed on probation.) Jan. 2, 1911.

Placed on file.

ON PROBATION.

(From the Eligible List.)

Girls' High School—Ralph C. Bean, junior-master, Jan. 2, 1911.

Dearborn District—Sidney T. H. Northcott, sub-master, Jan. 2, 1911.

Lyman District—Anna E. Shields, assistant, Dec. 6, 1910.

Sewing—Kathleen E. Coughlan, teacher, Dec. 20, 1910.

Approved, under a suspension of the rules.

(By promotion.)

Washington District—James M. Murdock, sub-master, (from first assistant, grammar) Jan. 2, 1911.

Laid over.

EVENING SCHOOLS.

Term of 1910-11.

South Boston Evening Commercial High School—Edwin F. A. Benson, assistant, Oct. 19 and Nov. 22, 1910 (two evenings); John E. J. Kelley, assistant, Nov. 22, 1910 (one evening).

Eliot Evening School—Elsie M. Crispin, assistant, Nov. 21, 1910, (one evening).

Hancock Evening School—Annie P. Guinee, assistant, Nov. 23, to Dec. 16, 1910, inclusive.

Wells Evening School—Elizabeth P. Brennan, assistant, Nov. 30, 1910.

Central Evening Industrial School—John W. Raymond, Jr., assistant, Nov. 21, 1910.

Approved.

(Under a License.)

Central Evening Industrial School—Francis A. Brown, William F. O'Regan, Daniel G. Town, assistants, Nov. 21, 1910.

Approved.

TRANSFERS.

Eliot District—Frances A. McMahan, assistant, to the same position in the Gaston District, Nov. 23, 1910.

Approved.

ATTENDANTS IN KINDERGARTENS.

Longfellow District—(Longfellow Kindergarten) Dorothy Bismaw, Sept. 14 to Sept. 17, 1910, three days.

Wells District—(Chambers St. Kindergarten, St. Andrew's House) Minnie Herrick, Sept. 14, 1910; (Mayhew Kindergarten) Rose Levi, morning and afternoon, Sept. 14, 1910; (Winchell Kindergarten) Bessie Rubin, Sept. 14, 1910.

Placed on file.

CONFIRMATIONS.

The following confirmations were submitted by the Superintendent:—

Normal School—Laura S. Plummer, first assistant, head of department.

Adams District—Sarah G. Stowers, assistant.

Bennett District—Jennie A. Drew, assistant.

Bowditch District—Evelyn M. O'Bryan, assistant.

Dwight District—Annie E. Dennis, Elizabeth A. Donahue, assistants.

Edward Everett District—Cecelia H. O'Brien, assistant.

Eliot District—Teresa E. Driscoll, Margaret E. McMahon, assistants.

Everett District—Edith F. Russell, assistant, kindergarten.

Frothingham District—Lella E. Boles, Grace F. Cunningham, assistants.

George Putnam District—Ellen M. Ford, assistant.

Hancock District—Florence M. Remon, assistant.

Harvard District—Annie L. Donovan, assistant.

Hyde District—Mary E. Brennan, assistant.

Lawrence District—Emma Britt, first assistant in charge.

Lewis District—Josephine P. Patten, assistant.

Longfellow District—Mary E. Shea, assistant.

Lowell District—Clare S. English, assistant, kindergarten; Christina W. MacLachlan, assistant.

Lyman District—John J. Murray, Joseph A. Taylor, assistants.

Mather District—Frances G. Dixon, assistant.

Norcross District—Margaret M. Kenner, assistant; Clara E. McIntosh, assistant, kindergarten.

Oliver District—Henry F. Bennett, Helen E. Foster, first assistant, kindergarten; Margaret A. Phelps, assistant.

Oliver Wolcott District—Eugene C. Fisher, Campbell, assistant, kindergarten; Esther L. Green, Mary M. Gordon, Frederick A. Gunderson, John D. Yates, assistants.

Phillips Brooks District—Martha L. Ireland, Caroline G. Tunis, assistants.

Quincy District—Mary A. A. Haverty, Elizabeth L. Pfendergast, Elizabeth J. Turnbull, assistants; Edith C. Johnson, first assistant, kindergarten.

Roger Wolcott District—Mary L. Barry, assistant.

Thomas N. Hart District—Catherine L. Levins, assistant.

Washington Allston District—Bessie E. Warren, assistant.

Wendell Phillips District—Marie E. McCue, Winifred M. Folan, assistants.

Approved.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence was granted each of the following-named teachers for the terms specified:—

Dorchester High School—Jane E. Gormley, assistant, Nov. 8, 1910.

High School of Commerce—John M. Gallagher, instructor, Nov. 22 and 23, 1910, two days, without pay.

High School of Practical Arts—Margaret G. Moore, industrial instructor, Nov. 3, 1910, one-half day; Margaret L. Ryan, clerical assistant, Nov. 16, 1910.

Roxbury High School—Marion W. Clark, assistant, from Nov. 11 to 16, 1910, inclusive.

West Roxbury High School—Esther W. Bates, assistant instructor, Nov. 28, 1910, one-half day; Ellen F. O'Connor, special assistant instructor in drawing, from Nov. 1 to 30, 1910.

Abraham Lincoln District—Josephine A. Power, assistant, from Nov. 1 to 30, 1910.

Adams District—Lydia A. Buxton, assistant, Nov. 9, 1910 (P.M.).

Bennett District—Helena D. Smith, assistant, Nov. 28, 1910.

Bigelow District—Katharine C. McDonnell, assistant, Nov. 16, 1910, one-half day; James F. Rockett, assistant, Nov. 29, 1910, one-half day.

Blackinton District—Minnie Goldsmith, assistant, Nov. 21, 1910, one-half day.

Bowdoin District—Annetta F. Armes, assistant, from Nov. 11 to 15, 1910.

Chapman District—Edna L. Black, assistant, kindergarten, Nov. 28, 1910; Marietta Duncan, first assistant in charge, from Oct. 7, 1910, to Jan. 1, 1911.

Cheverus District—Harry Brooks, sub-master, Oct. 4, one-half day, and Oct. 13, 1910.

Dearborn District—Lily B. Atherton, master's assistant, from Nov. 7 to 30, 1910, inclusive.

Dillaway District—Annie E. Mahan, first assistant in charge, Nov. 3, 1910.

Dudley District—Ellen M. Fiske, first assistant, kindergarten, Nov. 22, 1910; Elizabeth F. Johnson, assistant, Nov. 11, 1910.

Dwight District—Georgina E. MacBride, assistant, from Nov. 4 to 8, 1910.

Eliot District—Mary E. Hanney, master's assistant, Nov. 14, 1910; Mary E. Hughes, assistant, from Oct. 17 to Nov. 30, 1910;

Celia V. Leen, assistant, from Nov. 16 to 17, 1910; Katherine G. O'Donnell, assistant, from Oct. 1 to Nov. 30, 1910; Annie E. Regan, assistant, Nov. 17 and 18, 1910; John J. Sheehan, sub-master, Nov. 16, 1910.

Everett District—Ethel M. Rowland, assistant, from Nov. 1 to 30, 1910, without pay; Helen J. Scott, assistant, from Nov. 21 to 23, 1910, without pay.

Francis Parkman District—Mabelle E. Lounsbury, assistant, from Sept. 20 to Dec. 23, 1910.

Frederic W. Lincoln District—E. Cecelia Mackin, assistant, Nov. 16, 1910; Daisy E. Welch, assistant, Nov. 3, 1910, one-half day.

Frothingham District—Florence O. Brock, assistant, Nov. 10, 1910; Margaret A. Merrin, assistant, Nov. 28, 1910.

Gaston District—Anna E. Somes, assistant, from Nov. 1 to Dec. 23, 1910; Jennie G. Carmichael, assistant, Nov. 7, 1910, one-half day.

Gilbert Stuart District—Anna M. McMahon, assistant, Nov. 28, 1910, without pay.

Hancock District—Margaret Mulligan, assistant, Nov. 14, 1910; Catherine C. O'Connell, assistant, Nov. 1, 1910; Mary G. Ruxton, assistant, from Oct. 24 to Dec. 2, 1910; Agnes G. Ryan, assistant, from Nov. 21, 1910 to Jan. 1, 1911.

Horace Mann School—Sadie W. Jenkins, assistant, Nov. 16, 1910.

Hugh O'Brien District—Hilda Williamson, assistant, Oct. 4 and 13, 1910.

John A. Andrew District—Margaret C. Regan, assistant, Nov. 15 and 16, 1910, one and one-half days.

Lawrence District—Annie E. George, assistant, from Nov. 21 to 23, 1910, two and one-half days; Florence Herbsman, assistant, Oct. 3, 4 and 14, 1910.

Longfellow District—Mary A. McCarthy, assistant, Nov. 16, 1910, one-half day.

Lowell District—Ethelyn Hallstrom, assistant, from Nov. 1 to 30, 1910.

Lyman District—Eva L. Morley, assistant, from Dec. 1, 1910, to Jan. 1, 1911; Mary A. Stillman, assistant, from Nov. 8 to 18, 1910; Mary E. Williams, first assistant in charge, from Nov. 22 to 29, 1910, two and one-half days.

Martin District—Annie A. Doran, assistant, Nov. 15 and 16, 1910.

Minot District—Katherine M. Adams, assistant, Nov. 28 and 29, 1910.

Oliver Hazard Perry District—Julia G. Leary, assistant, Nov. 16, 1910, one-half day.

Oliver Wendell Holmes District—Anna L. Cronin, assistant, Nov. 10 and 28, 1910; Joanna G. Keenan, assistant, Nov. 28, 1910; Katharine C. Kelley, assistant, Nov. 28, 1910.

Phillips Brooks District—James H. Gormley, sub-master, Nov. 15, 1910, one-half day.

Prescott District—Mary R. FitzGerald, assistant, Nov. 7, 1910; Julia F. Sawyer, assistant, from Nov. 1 to Dec. 23, 1910; Hattie L. Todd, assistant, from Nov. 1 to Dec. 1, 1910.

Quincy District—Alton C. Churbuck, sub-master, Nov. 8, 1910, one-half day; Ellen L. Collins, assistant, Nov. 3, 1910, one-half day; Marion L. Dally, assistant, Nov. 17, 1910, one-half day; Lavina M. Grimes, assistant, Nov. 9, 1910.

Rice District—Mattie H. Jackson, assistant, Nov. 28, 1910, without pay.

Robert G. Shaw District—Ellen G. Earnshaw, first assistant, kindergarten, from Nov. 21 to Dec. 17, 1910; Alice E. Farrington, master's assistant, from Dec. 1, 1910, to March 1, 1911.

Roger Wolcott District—Louise L. Carr, assistant, Nov. 16, 1910; Julia R. O'Brien, assistant, Nov. 8, 1910, one-half day.

Sherwin District—Elizabeth B. Walton, master's assistant, Nov. 28, 1910.

Thomas Gardner District—Agnes Keefe, assistant, from Nov. 1, 1910, to Jan. 1, 1911.

Thomas N. Hart District—Mary I. Hamilton, first assistant, kindergarten, Nov. 17 and 18, 1910, two days.

Warren District—Caroline A. Meade, assistant, Nov. 3, 1910, one-half day.

Washington District—Mary C. Locke, assistant, Nov. 22, 1910.

Wells District—Alice Dunn, assistant, from Nov. 1 to 11, 1910; Annie E. Flanagan, assistant, Nov. 14, 1910, one-half day; Hazel P. Gore, assistant, Nov. 29, 1910, one-half day; Ellen F. Jones, assistant, Nov. 22, 1910, one-half day; Mary F. O'Neil, assistant, Nov. 16, 1910, one-half day.

William E. Russell District—Elizabeth E. Curley, first assistant, kindergarten, Nov. 16, 1910; Mary G. Ellis, assistant, Nov. 28, 1910, one-half day.

Manual Training—Celia B. Hallstrom, instructor, from Nov. 1 to 11, 1910; Alice L. Lanman, assistant instructor, from Nov. 18 to 30, 1910.

Hygiene—Helena M. Daly, assistant nurse, Nov. 19, 1910, one-half day, without pay.

Sewing—Helen L. Burton, teacher, from Dec. 1, 1910, to Jan. 1, 1911; Kate Farlin, teacher, Nov. 9, 1910, one-half day; Margaret T. McCormick, teacher, from Nov. 1 to 7, 1910, three and one-half days; Lizzie A. Thomas, teacher, from Dec. 1, 1910, to March 1, 1911.

Cookery—Althea Lindenberg, teacher, Nov. 22, 1910, one-half day.

On the report of the Superintendent, and under a suspension of the rules, leave of absence without loss of pay, was granted each of the following named teachers for the terms specified:—

Brighton High School—Ida M. Curtis, assistant, Nov. 17 and 18, 1910; George F. Hatch, special instructor, drawing and manual training, Nov. 17 and 18, 1910.

Charlestown High School—Philip Goodrich, junior master, Nov. 17, 1910.

Dorchester High School—George M. Morris, special instructor in drawing and manual training, Nov. 18, 1910.

East Boston High School—Walter H. Naylor, special instructor in drawing and manual training, Nov. 18, 1910.

Horace Mann School—Amy M. Pleadwell, assistant, Nov. 17, 1910.

Jefferson District—Helen C. Laughlin, assistant, Nov. 2, 1910.

Wendell Phillips District—Gertrude M. Dimick, assistant, Nov. 17 and 18, 1910.

Sewing—Lillian M. Dunbar, teacher, Nov. 17, 1910.

Cookery—Emily H. Hawes, teacher, Nov. 17, 1910.

Drawing and Manual Training—Theodore M. Dillaway, director, Nov. 17 (one-

half day) and Nov. 18, 1910; John C. Brodhead, assistant director, Nov. 18, 1910.

Assistants in Drawing, Nov. 17 and 18, 1910: Helen E. Cleaves, Grace E. Hackett, Estelle E. Potter, Grace A. Reed, Harriet F. Smith.

Instructors in Manual Training: Mary C. Barstow, Nov. 18, 1910; Frank Carter, Nov. 17 and 18, 1910; James C. Clarke, Nov. 17 and 18, 1910; Florence P. Donelson, Nov. 17 and 18, 1910; Mary I. Donlan, Nov. 18, 1910; William A. England, Nov. 17 and 18, 1910; Grace J. Freeman, Nov. 18, 1910; Olive I. Harris, Nov. 18, 1910; I. Virginia Lyons, Nov. 17 and 18, 1910; Margaret A. Mahony, Nov. 17 and 18, 1910; Mary J. Marlow, Nov. 17 and 18, 1910; Anna M. Pond, Nov. 18, 1910.

Assistant Instructors in Manual Training—Sarah M. Aldrich, Nov. 18, 1910; Mary H. Baker, Nov. 17 and 18, 1910; Florence O. Bean, Nov. 18, 1910; Mabel E. Bemis, Nov. 18, 1910; Sheba E. Berry, Nov. 17 and 18, 1910; Louise H. Billings, Nov. 18, 1910; Ella L. Bresnehan, Nov. 18, 1910; Ada C. Brownell, Nov. 18, 1910; Cornelia D. Burbank, Nov. 17 and 18, 1910; Jessie L. Burns, Nov. 17, 1910; Ellen F. Coffin, Nov. 17 and 18, 1910; Katharine L. Colbert, Nov. 18, 1910; Mary E. Davin, Nov. 17 and 18, 1910; Eva G. Davis, Nov. 18, 1910; Mary G. Davis, Nov. 17 and 18, 1910; Della E. Donahue, Nov. 18, 1910; Helen Ekstrom, Nov. 18, 1910; Madeline E. Fisher, Nov. 18, 1910; Martha E. Hall, Nov. 17 and 18, 1910; Bessie D. James, Nov. 18, 1910; Sallie C. Johnson, Nov. 18, 1910; Elise Jonsson, Nov. 18, 1910; Nellie M. Noan, Nov. 18, 1910; Effie Owen, Nov. 17 and 18, 1910; Fannie B. Prince, Nov. 17 and 18, 1910; Karin Sellman, Nov. 18, 1910; L. Gertrude Sprague, Nov. 17 and 18, 1910; Helen F. Veasey, Nov. 17 and 18, 1910; Helen I. Whittemore, Nov. 17 and 18, 1910; Sarah I. Wilson, Nov. 17 and 18, 1910.

Wells Evening School—Charles E. Harris, principal, Monday evening, Nov. 28, 1910.

On the report of the Superintendent, and under a suspension of the rules, leave of absence, without pay, was granted the following named teacher for the term specified:—

Henry L. Pierce District—Eleanor L. Rand, assistant, kindergarten, from Jan. 2 to June 15, 1911.

On the report of the Superintendent, the following leave of absence was cancelled from the date stated, at the request of the teacher:—

Cheverus District—Harriet G. Jones, assistant, Nov. 14, 1910.

DESIGNATION OF A TEACHER.

A communication was received from the Superintendent, under date of Dec. 5, 1910, reporting the following designation of a teacher to serve in the position indicated, until such time as it shall be filled otherwise in accordance with the rules and regulations:—

Chapman District—Clara A. Otis, assistant, as acting first assistant in charge, to take effect Oct. 7, 1910, vice Marietta Duncan, absent on leave.

Placed on file.

ASSIGNMENT OF A TEACHER TO FRANKLIN PARK SCHOOL.

A communication was received from the Superintendent, under date of Dec. 5, 1910, reporting the following assignment of a teacher of the Oliver Wendell Holmes District to serve in the Franklin Park School, to the rank and to take effect on the date stated:—

Nellie M. Durgin, assistant, Nov. 14, 1910. Placed on file.

MINORS' LICENSES.

A communication was received from the Superintendent, under date of Dec. 5, 1910, reporting that, subject to the approval of the Board, he had granted minors' licenses as follows:—

To sell newspapers 53
To black boots 4
Issue of licenses authorized accordingly.

The Superintendent reported that he had revoked the licenses of four minors to sell newspapers, for violation of the conditions under which said licenses were granted.

Approved.

RETIREMENT OF A TEACHER ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named

teacher be retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908 as amended by Chapter 617 of the Acts of 1910, the date of retirement and rate of pension to be as herein-after specified:

Gaston District—Mary E. Patterson, length of service 33 years, Dec. 1, 1910, \$312. Passed, a majority of the Board voting in the affirmative.

EXPENDITURES BY CHIEF JUDGE NEWSBOYS' TRIAL BOARD FOR POSTAGE.

On motion of the Superintendent, it was ORDERED, That the Chief Judge of the Newsboys' Trial Board is hereby authorized to incur expense for postage from Dec. 1, 1910, to Nov. 30, 1911, to an amount not to exceed one dollar (\$1.00) per month, and that said Chief Judge be directed to present his bills for such expenditure to the Business Agent not later than Dec. 1, 1911.

CHRISTMAS VACATION, DEPARTMENT OF SCHOOL HYGIENE.

The Superintendent offered the following:—

ORDERED, That the assistant directors of physical training and athletics, instructor and assistant instructors in athletics, supervising nurse and assistant nurses are hereby allowed a vacation at Christmas corresponding to that of other day school teachers and members of the supervising staff, in addition to the summer vacation which they are allowed under the rules.

Passed, under a suspension of the rules.

SPECIAL INSPECTOR, ISSUING OF AGE AND SCHOOLING CERTIFICATES.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to appoint, subject to the approval of the School Committee and the Civil Service Commission, a special inspector, in connection with the issuing of age and schooling certificates.

A communication was received from the Superintendent, under date of Dec. 5, 1910, reporting that, subject to the approval of the Board and with the approval of the Civil Service Commission, he had provisionally appointed James Burrier, special inspector in connection with the issuing of age and schooling certificates, to take effect Dec. 6, 1910.

Placed on file, and the appointment approved.

On motion of the Superintendent, it was ORDERED, That the salary of the special inspector in connection with the issuing of age and schooling certificates is hereby fixed at the rate of one dollar and fifty cents (\$1.50) per calendar day of service.

CHANGE IN NAME OF ADAMS DISTRICT.

On motion of the Superintendent, it was ORDERED, That the name of the Adams District is hereby changed to Samuel Adams District, to take effect Jan. 1, 1911.

PUBLIC SCHOOL MEMBERSHIP, OCT 31, 1910.

A communication was received from the Superintendent, under date of Dec. 5, 1910, containing a statement of the total membership of all the public day schools including the Normal, high, Latin, elementary grades, kindergartens, Horace Mann and Spectacle Island schools and the Trade School for Girls, which on Oct. 31, 1910, was 101,610, a net loss compared with the corresponding date of last year amounting to 71 pupils.

The gains and losses summarized are as follows:—

School	Gain.	Loss.
Normal School.....	9	..
High and Latin Schools.....	1215	..
Elementary Grades.....	..	903
Kindergartens.....	..	420
Horace Mann School.....	..	10
Spectacle Island School.....	..	5
Trade School for Girls.....	43	..

The falling off in the elementary grades occurs almost entirely in the first grade, although a slight loss occurs in the fourth

and fifth grades. The other grades show a substantial gain. In connection with the reduction in the size of the first grade attention is called to the requirement put into operation this fall for the first time that applicants for admission to the schools furnish certificates of age. The attendance in kindergartens has been affected by the fact that the minimum age at which pupils may be admitted to them has been changed from 3½ years to 4 years.

The membership of the schools on Oct. 31, 1909 and 1910, was as follows:—

School	1909.	1910.
Normal School.....	221	239
High and Latin Schools.....	11,648	12,883
Elementary Grades.....	83,772	82,869
Kindergartens.....	5,651	5,231
Horace Mann School.....	150	150
Spectacle Island School.....	13	8
Trade School for Girls.....	226	260
Totals.....	101,681	101,610

Appended to the foregoing statement was a tabulation of the membership on Oct. 31, 1910, by schools and districts.

Placed on file.

HIGH SCHOOL PUPILS TAKING COLLEGE COURSE.

On motion, it was ORDERED, That the Superintendent be requested to report the number of pupils in each high school who are taking the College Course.

AMENDMENT TO REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows: Section 296, Paragraph 10. Insert the words "and in evening industrial schools" after the word "schools" in the sixth line. Strike out the words "and the same provision shall apply to classes in ship draughting and in clay modeling in evening industrial schools" so that the paragraph shall read as follows:—

Sect. 296, Paragraph 10. Teachers shall be dismissed at the close of any month in which the average attendance shall have fallen below the number authorizing their employment, or earlier at the discretion of the Superintendent; provided, however, that in the evening high schools and in evening industrial schools where there is but one class in any subject that class may be continued until the close of the term unless the number of pupils therein shall fall below ten.

Section 296. Add the following paragraph:

Paragraph 13. In each evening industrial school class having an average attendance of more than fifteen pupils, one second assistant may be employed at the discretion of the Superintendent.

Laid over.

SALARY OF SECOND ASSISTANTS, EVENING INDUSTRIAL SCHOOLS.

The Superintendent offered the following:—

ORDERED, That the rate of compensation of second assistants in evening industrial schools during the term 1910-11 is hereby established at two dollars and fifty cents (\$2.50) for each evening of actual service, to take effect Dec. 6, 1910.

Laid over.

EVENING MEETINGS OF CONTINUATION CLASS GRADUATES.

On motion of the Superintendent, it was ORDERED, That the use of a room in the Central Evening Industrial School by the graduates of the 1910 Dry Goods Continuation Class, for the purpose of holding bi-monthly meetings of said class upon the evenings of the first and third Mondays of each month during the school year 1910-11, is hereby authorized, said meetings to be conducted under the supervision of the Assistant Principal of the Central Evening Industrial School and without expense to the city for instruction.

ADDITIONAL SUB-MASTER, DUDLEY DISTRICT.

The Superintendent offered the following:—

ORDERED, That an additional sub-master is hereby authorized in the Dudley

District, for the school year 1910-11, to take effect Jan. 2, 1911.

Passed, under a suspension of the rules.

VOCATIONAL GUIDANCE.

On motion of the Superintendent, the order passed at the last meeting (see p. 136) authorizing the Superintendent to assign Louis P. Nash, sub-master in the Washington Allston District, on half time during the remainder of the present school year to investigate and report practical plans for the establishment of vocational guidance of pupils in the public schools, and the order providing for the appointment of an additional special assistant in the Washington Allston District in consequence of the assignment of Mr. Nash were rescinded.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to assign Louis P. Nash, sub-master in the Washington Allston District, during the remainder of the present school year to investigate and report practical plans for the establishment of vocational guidance of pupils in the public schools.

On motion of the Superintendent, it was ORDERED, That during the time that Louis P. Nash is assigned to other than his regular work, the appointment of an additional temporary sub-master in the Washington Allston District is hereby authorized.

REVISED SCHEDULE OF RATING FOR JANITORS.

The communication received from the Janitors' Association at the last meeting (see p. 184) submitting a proposed revision of the present schedule for rating janitors, was taken up for consideration, and a hearing granted a committee of the Janitors' Association thereon. Certain modifications of the proposed schedule were agreed to as acceptable both to the Board and to the Janitors' Association and the following revised schedule of rating was adopted to take effect as of Dec. 1, 1910:—

To ascertain the rating of a janitor on a scale of 1000 points, multiply the total of the marks given by the Schoolhouse Custodian for each factor, by the indicated multiplier, and the sum of the amounts thus determined, divided by 10, will produce the rating of the janitor in points.

Factors	Schoolhouse Custodian	Multiplier	Total points
Care of building above			
Basement.....	100	25	2,500
Care of basement.....	100	5	500
Care of sanitariums.....	100	5	500
Care of grounds.....	100	5	500
Care and operation of heating and ventilating apparatus.....	100	30	3,000
Estimate of character.....	100	10	1,000
Length of service.....	100	20	2,000
Total.....		100	10,000

*This mark to be given to janitor longest in service, when promotions are under consideration. Other candidates in proportion.

Principals' markings to be on the plan of, Excellent — Good — Passable — Unsatisfactory.

No janitor who has a rating of less than 640 points by the Schoolhouse Custodian, exclusive of length of service, and a mark of Unsatisfactory by the Principal, shall be eligible for promotion.

Markings to be made in June and December of each year, and copies thereof furnished janitors in order that they may have an opportunity to remedy their failings before the next marking.

APPROPRIATIONS AND EXPENDITURES, SUPPLIES AND INCIDENTALS.

A communication was received from the Business Agent, under date of Dec. 1, 1910, submitting a statement of the appropriations, expenditures, and balances for each of the items of the appropriation for supplies and incidentals up to and including the Dec. 1 draft.

Placed on file.

APPROPRIATIONS AND EXPENDITURES TO DEC. 1, 1910.

A communication was received from the Business Agent, under date of Dec. 1, 1910,

submitting a statement showing the appropriations, expenditures and balances of the first eleven months of the current financial year, the total expenditures, and expenditures for the corresponding eleven months of the financial year 1909-10, with the increases and decreases in the several items.

Placed on file.

TRANSFERS OF UNEXPENDED BALANCES.

A communication was received from the Business Agent, under date of Dec. 3, 1910, recommending that as there will be deficits in one or more items of the annual appropriation order and unexpended balances in others, authority be granted him to make such transfers as may be necessary.

Placed on file, and in accordance with the foregoing recommendation, it was

ORDERED, That the Business Agent is hereby authorized to transfer any unexpended balances from any of the items of the annual appropriation order to any other item in the same order.

TRANSPORTATION OF BOSTON PUPILS ATTENDING SCHOOLS OF WINTHROP.

A communication was received from the Business Agent, under date of Dec. 1, 1910, stating that the town of Winthrop is transporting three pupils, residents of Deer Island, from Point Shirley to the Shirley-street School, daily, at a cost of two and one-half cents per trip for each pupil, and recommending that authority be granted to reimburse the town of Winthrop for the above expense.

Placed on file, and in accordance with the foregoing recommendation, it was

ORDERED, That the Business Agent be authorized to pass for payment bills of the town of Winthrop for reimbursement for money expended in transporting children, residents of Deer Island, from Point Shirley to the Shirley-street School at an expense not exceeding two and one-half cents per pupil per trip.

PROTECTION OF CITY PROPERTY FROM DANGER IN CONNECTION WITH MOVING PICTURE EXHIBITIONS.

A communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, stating that school-houses are now used to a considerable extent for giving moving picture exhibitions, and because the danger of fire on account of the use of moving picture machines is considerable, he believes that the city should be protected by requiring that each person giving the exhibition furnish a surety bond or insurance policy in such amount as the School Committee may determine.

Referred to a special committee consisting of Messrs. Brock and Magenis for consideration and report.

JANITORSHIP, CUDWORTH SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, stating that he had temporarily transferred David Falconer, janitor of the Austin and Old East Boston High School-houses, to fill the vacancy in the janitorship of the Cudworth School-house and Portables Nos. 14, 68 and 110, caused by a year's leave of absence granted Oliver E. Wood, and recommending that he be appointed to this position during the absence of Mr. Wood, said appointment to take effect Nov. 13, 1910.

Placed on file, and the temporary transfer of David Falconer approved, to take effect on the date stated.

JANITORSHIP, BENJAMIN POPE SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, submitting a list of applicants for transfer to the janitorship of the Benjamin Pope School-house and Portables Nos. 16, 36 and 63, and recommending the transfer of Michael Glasheen, janitor of the Noble Annex School-houses and Portable No. 61, who stands at the head of the list, to the position to take effect Dec. 11, 1910.

Placed on file, and the transfer of Michael Glasheen to said position approved, to take effect on the date stated.

TRANSFER OF PORTABLE NO. 32, AND APPOINTMENT OF JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, reporting that Portable No. 32, recently located in the yard of the Washington School-house, has been removed, and the janitor service ceased Nov. 9, 1910. Placed on file.

A further communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, stating that Portable No. 32 has been transferred to the Oliver Wendell Holmes School-yard, and recommending that Winthrop B. Robinson, janitor of the Oliver Wendell Holmes School-house, be appointed janitor of this portable, said appointment to take effect Nov. 25, 1910.

Placed on file, and the appointment of Winthrop B. Robinson to said position approved, to take effect on the date stated.

COMPLAINT AGAINST A JANITOR REFERRED TO TRIAL BOARD.

A communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, recommending that certain matters of complaint against a school janitor be referred to the Trial Board for consideration.

Placed on file, and the recommendation adopted.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Dec. 5, 1910, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for such services, as follows:—

Benjamin Pope School-house and Portables Nos. 16, 36 and 63—Dennis J. Lenehan temporarily transferred from the Parkman School-house, Nov. 27, 1910. Amount due for services rendered Nov. 27 to Dec. 5, 1910, inclusive, \$23.53.

Common-street School-house—Michael Keefe, acting janitor, reappointed Dec. 2, 1910. Amount due for services rendered Nov. 23 to Dec. 5, 1910, inclusive, \$17.05.

Harvard Hill School-house—Charles Timmins, acting janitor, reappointed Nov. 27, 1910. Amount due for services rendered Nov. 23 to Dec. 5, 1910, inclusive, \$22.06.

Mt. Vernon-street School-house and Portable No. 106—Charles Devney, acting janitor, reappointed Nov. 23 and Dec. 3, 1910. Amount due for services rendered Nov. 23 to Dec. 5, 1910, inclusive, \$26.76.

Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses, and Portables Nos. 42, 102 and 105—Ira M. Jacobs, acting janitor, reappointed Dec. 2, 1910. Amount due for services rendered Nov. 23 to Dec. 5, 1910, inclusive, \$61.23.

Parkman School-house—Henry T. Brennan, acting janitor, temporarily appointed Nov. 27, 1910. Amount due for services rendered Nov. 27 to Dec. 5, 1910, inclusive, \$16.42.

William L. Garrison School-house—Henry T. Brennan, acting janitor, reappointed Nov. 23, 1910. Amount due for services rendered Nov. 23 to 26, 1910, inclusive, \$10.73.

Old East Boston High and Austin School-houses—Henry J. Mahoney, acting janitor, appointed Nov. 13—reappointed Nov. 23 and Dec. 3, 1910. Amount due for services rendered Nov. 13 to Dec. 5, 1910, inclusive, \$72.48.

Placed on file, and the reappointments approved.

On motion, it was ORDERED, That for services rendered as acting janitors of various school-houses, payments be made, as follows:—

To Henry T. Brennan, William L. Garrison School-house, from Nov. 23 to 26, 1910, inclusive, ten and 73-100 dollars (\$10.73).

To Henry T. Brennan, Parkman School-house, from Nov. 27 to Dec. 5, 1910, inclusive, sixteen and 42-100 dollars (\$16.42).

To Charles Devney, Mt. Vernon-street School-house and Portable No. 106, from Nov. 23 to Dec. 5, 1910, inclusive, twenty-six and 76-100 dollars (\$26.76).

To Ira M. Jacobs, Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses and Portables Nos. 42, 102 and 105, from Nov. 23 to Dec. 5, 1910, in-

clusive, sixty-one and 23-100 dollars (\$61.23).

To Michael Keefe, Common-street School-house, from Nov. 23 to Dec. 5, 1910, inclusive, seventeen and 5-100 dollars (\$17.05).

To Dennis J. Lenehan, Benjamin Pope School-house and Portables Nos. 16, 36 and 63, from Nov. 27 to Dec. 5, 1910, inclusive, twenty-three and 58-100 dollars (\$23.53).

To Henry J. Mahoney, Old East Boston High and Austin School-houses, from Nov. 13 to Dec. 5, 1910, inclusive, seventy-two and 48-100 dollars (\$72.48).

To Charles Timmins, Harvard Hill School-house, from Nov. 23 to Dec. 5, 1910, inclusive, twenty-two and 6-100 dollars (\$22.06).

CLERICAL ASSISTANCE FOR BOARD OF SUPERINTENDENTS.

On motion, it was ORDERED, That the employment of an additional assistant in the office of the Secretary to render clerical assistance to the members of the Board of Superintendents is hereby authorized.

SALARIES OF MESSENGERS, AUDITOR'S OFFICE.

On motion, it was ORDERED, That the salary of Walter T. Walsh, messenger in the Auditor's Department, be established at five hundred and forty dollars (\$540) per annum to take effect Dec. 1, 1910, and until otherwise ordered.

On motion, it was ORDERED, That the salary of William F. Butler, messenger for the School Committee attached to the Auditor's Department, be established at four hundred and twenty dollars (\$420) per annum to take effect Dec. 1, 1910, and until otherwise ordered.

TEMPERATURE OF CLASS-ROOMS.

A communication was received from the Director of School Hygiene, under date of Nov. 29, 1910, in response to the action taken at the meeting of Nov. 7, 1910 (see p. 174), with reference to the placing of thermometers in school rooms, reporting that an investigation carried out for a number of days shows that two thermometers, placed respectively at a level at the seat of a child and at a level of the teacher standing on a platform, showed a difference in temperature of from one to six degrees Fahrenheit. In other rooms, thermometers placed in such a position so as to be struck by the current of in-coming warm air, registered a much higher temperature than thermometers placed in other parts of the room. Furthermore, thermometers placed near windows on outside walls register from three to five degrees Fahrenheit lower than thermometers placed on the inner wall of the same room.

The proper position of a thermometer in the school room is unquestionably on the inner walls placed so that no current of air forced into the room shall strike the thermometer directly. Each class-room should have two thermometers placed on opposite sides of the room on the inner walls. No room temperature should vary more than three degrees Fahrenheit with thermometers so placed. The best height for placing thermometers should be between 4 and 4½ feet from the floor in rooms twelve feet high. A dial thermometer, well tested, should be adopted in order that the reading might be more accurately recorded. The reading of the ordinary thermometer is often recorded erroneously by children, who, on account of their height, have to read the column of mercury in the thermometer from below or from above.

The Schoolhouse Commission has recently installed thermometers of a metallic back which has an advantage in that the warping of the wooden back in the ordinary thermometer interferes greatly with the accuracy of the registration.

Placed on file, and the Secretary directed to transmit a copy thereof to the Board of Schoolhouse Commissioners requesting that said Board equip new buildings with thermometers in accordance with the recommendation of the Director of School Hygiene; that he also transmit a copy to the Business Agent with a request for an estimate of the cost of equipping old school buildings with a satisfactory type of thermometer; also that a copy be transmitted to the Schoolhouse Custodian for his information and guidance with respect to the placing and care of thermometers in school rooms.

APPOINTMENT OF WOMEN TO THE POSITIONS OF MASTER AND SUB-MASTER IN MIXED SCHOOLS.

A communication was received from the Masters' Assistants' Club, asking that women be appointed to the positions of master and sub-master in mixed schools, and that a position of rank and salary equal to that of sub-master in boys' schools be created for women in girls' schools.

Laid on the table.

TRANSPORTATION OF PUPILS, ROBERT G. SHAW DISTRICT

A petition was received through the master of the Robert G. Shaw District from a large number of parents of children attending the Robert G. Shaw School from that portion of the district known as Spring street, that car-fare be furnished for the transportation of these pupils twice a day, and that if necessary the petitioners be granted a hearing on the subject.

Laid over, and the Secretary directed to notify the petitioners that they will be granted a hearing at the next meeting of the Board at 5:30 o'clock P.M.

PETITION FOR INCREASE IN SALARY OF WOMEN TEACHERS IN ELEMENTARY SCHOOLS.

A petition was received signed by the Chairman of the Committee on Increase of Salary of Women Teachers in Elementary Schools, under date of Dec. 5, 1910, that the School Committee take under formal consideration the question of increasing the present salaries to an amount that will be a just equivalent for efficient labor, conforming more reasonably to the demands of the present cost of living, and to the salary schedule of other cities.

Laid on the table.

PAYMENT OF JANITOR FEE FOR MEETINGS OF PARENTS' ASSOCIATIONS AND OTHER ACTIVITIES.

The committee, consisting of the Secretary, the Business Agent, and the Schoolhouse Custodian, to whom were referred at the meeting of Nov. 7, 1910 (see p. 176), various communications relative to the payment of janitors for services rendered in connection with parents' meetings and other activities held in school buildings, submitted a report thereon.

Laid over.

A communication was received from William M. Kendrick, Secretary of the Janitors' Association, under date of Dec. 5, 1910, stating that at a meeting of the Janitors' Association of the Boston Public Schools held on Nov. 26, 1910, a vote was passed requesting the School Committee to amend the wording of its vote of Nov. 22, 1910, relating to parents' meetings held in the evening so that the schedule finally adopted shall apply to all meetings held between Nov. 22 and date of adoption of said schedule.

Laid over.

EVENING SCHOOL AT MEETING HOUSE HILL.

A communication was received from Margaret M. Donovan, under date of Oct. 19, 1910, suggesting that an evening school be established in the vicinity of Meeting House Hill in order that women and girls of Dorchester might have an opportunity of attending the millinery and dressmaking classes without going to South Boston and Roxbury.

Referred to the Superintendent for consideration and report.

SCREEN IN BASEMENT OF CUSHMAN SCHOOL.

On motion, it was ORDERED, That the Board of Schoolhouse Commissioners be requested to erect a suitable screen in the basement of the Cushman School-house.

COURSE FOR NURSES IN SCHOOL FOR SOCIAL WORKERS.

On motion, it was ORDERED, That the Director of School Hygiene is hereby authorized to take part with other organizations employing visiting nurses in arranging with the School for Social Workers for a course of afternoon lectures to be attended by such of the school nurses as desire to attend, and to expend for that purpose a sum not exceeding \$50.

NAMING OF SCHOOL-HOUSES.

Dr. Scannell presented a written report, under date of Dec. 5, 1910, with respect to the naming of certain school-houses, containing the following recommendations:

That the elementary school building on Appleton street in the Rice District be named the George Bancroft School;

That the proposed new elementary school building in the Roger Wolcott District be named the Mary Lyon School;

That the proposed new elementary school building in the Edward Everett District, situate at Savin Hill, be named the John Lothrop Motley School.

The report was accepted, and the recommendations laid over.

SCHOOL SAVINGS SYSTEMS.

The report on School Savings Systems submitted by Mr. Brock at the meeting of Nov. 7, 1910 (see p. 175) was, at the request of that member, withdrawn.

AMENDMENTS TO REGULATIONS.

The following order was offered:—
ORDERED, That the regulations be amended as follows:

Section 218, paragraph 3. Strike out the paragraph and substitute in place thereof the following:—

3. No pupil shall be absent a part of any session for the purpose of receiving instruction elsewhere, provided that this regulation in so far as it relates to high schools, may be suspended in individual cases by the assistant superintendent in charge.

Insert the following paragraph to be numbered 4.

4. No pupil shall leave before the close of the session, without the consent of the teacher.

Laid over.

The order offered by the Superintendent at the meeting of Nov. 22, 1910 (see p. 182), amending section 201, with reference to the dates of the beginning and closing of the school year, was taken up and passed.

The following order was offered:—
ORDERED, That the regulations be amended as follows:—

Section 229. Add the following paragraph:—

4. No teacher shall sell or encourage the sale to pupils of tickets to any amusement or entertainment not officially sanctioned by the Board or conducted under school auspices in school buildings.

Passed, under a suspension of the rules.

ADJOURNMENT.

The Board adjourned at 6.45 o'clock P.M.
Attest:—

THORNTON D. APOLLONIO,
Secretary.

NEW PLAYGROUND IDEA.

Hitherto the Manchester Corporation, Manchester, Eng., has experienced a difficulty in finding suitable playing places for children in the crowded portions of the city, but the Paving and Highways Committee has now hit upon a plan which it is thought may meet the difficulty to some extent. The proposal is to take up the heavy stone setts in the back streets and replace them with a new sanitary asphalt whereon the children can run about and play to their hearts' content without the danger of being knocked down by passing vehicles.

ASKS CITY TO PAY HUDSON-FULTON DEBTS.

Herman Ridder appeared before the Board of Aldermen, New York, and spoke in favor of the granting of \$20,000, to pay old bills incurred by the Hudson-Fulton Commission. In the course of the talk Alderman Dowling asked where the money originally appropriated and subscribed had "all gone to".

REPORT ON CAR SERVICE.

In response to numerous complaints made to the Mayor's office regarding street car service in the subway and at different points on the surface, the Mayor directed Mr. Mooney of the Bureau of Information to investigate conditions and the following report has been submitted:

TUESDAY, NOVEMBER 29, 1910.

At the Brattle Street Subway, between the hours of 4.30 and 6 o'clock p. m., the crowd going to Cambridge, Chelsea, Revere and Lynn get into this station, and when the cars arrive they push and crowd each other around like a football rush. The station is partitioned off, so that only two cars can be filled at a time without crowding through a little five-foot passage where two more cars can be filled. This station could be remodeled at a small expense, and a sign board—like one at Park street—put in, which would go far toward relieving the congestion.

WEDNESDAY, NOVEMBER 30, 1910.

The cars going out Washington street were crowded at 1.05 and 1.35 this morning. The 2 a. m. car for Norfolk street, arriving at Northampton street at 2.18 a. m., had five passengers standing on the front platform and eight on the back platform and was crowded inside. It was snowing hard at the time; the Ashmont car arriving at the same hour, all of the seats being taken, people standing both in and outside.

Thirty-three cars marked Pleasant street ran through the subway on the above night, between the hours of seven and eight o'clock p. m., and in all they carried 67 passengers from the Boylston Street Station to Pleasant street, going south.

Time.	Passengers.	Time.	Passengers.	Time.	Passengers.
7.02	2	7.18	1	7.38	3
7.03	2	7.19	2	7.39	5
7.04	0	7.21	2	7.42	1
7.05	0	7.22	0	7.44	5
7.06	4	7.27	0	7.47	9
7.08	0	7.28	0	7.49	3
7.09	1	7.32	2	7.50	0
7.09	2	7.33	1	7.55	1
7.15	3	7.35	7	7.56	6
7.16	2	7.36	1	7.58	0
7.17	1	7.37	1	7.59	0

All the Tremont street cars that leave this station after 7.40 are filled with people going to the Castle Square Theater and other places beyond the end of the subway, and if some of the Pleasant street cars would run to Dover street, or around through Tremont, Dover and Shawmut avenue, it would accommodate people going to the Castle Square Theater, the Scenic Temple, the Armory Athletic Club, the Grand Opera House, the Grand Theater and the Columbia Theater, also the new theater going up just beyond Berkeley street on Tremont. It would only take a little longer and could be done without any extra help.

FRIDAY, DECEMBER 2, 1910.

The cars that left Adams square at 1.05 a. m. arrived at Northampton street about 1.15, and all three of them were crowded inside and out.

The car running in town from Northampton street at 1.15 had every seat taken, with passengers standing inside the car and on both platforms. Sixteen people were standing inside the car.

Every night between 10.30 and 11.30 p. m. all Dorchester cars running via Upham's Corner are crowded, and often passengers are riding on the steps and fenders on the rear of the cars.

SATURDAY, DECEMBER 3, 1910.

The Ashmont car, arriving at Northampton street at 1.20 a. m., on above night, was so crowded that a motorman and a policeman, who could not crowd on the car, were riding outside the doors, on the steps on the closed side of the car. Both platforms, and also the inside of the car, were so crowded that not another person could get aboard.

The Norfolk street car, arriving at the same time, was also crowded and had people standing on the platforms and inside the car.

The Warren street car had every seat taken and three people standing inside and six outside on the platforms.

SUNDAY, DECEMBER 4, 1910.

Cars arriving at Northampton street at 1.20 a. m. were crowded. Norfolk street car had people on steps on both sides of the car and on the fenders. Ashmont car was filled and had people standing on both platforms and inside the car. The Warren street car had a good crowd, three people standing inside the car and four on the platforms.

MONDAY, DECEMBER 5, 1910.

Between 7.30 and 9 o'clock a. m. only four cars arrived at Northampton street elevated station, via Northampton street, that were not crowded and had people on both platforms.

Car at 8.18, Meeting House Hill; car at 8.29, Blue Hill avenue; car at 8.45, Edward Everett square; car at 8.47, Edward Everett square; were not crowded.

PUBLICITY FUNDS FOR CITIES.

Here are the amounts that have been provided for publicity purposes in ten cities of the country, an average of \$40,000 each:

Buffalo, \$100,000; Poughkeepsie, \$50,000; Memphis, \$50,000; Des Moines, \$30,000; Huntington, W. Va., \$25,000; Parkersburg, W. Va., \$25,000; Portland, \$50,000; Houston, Texas, \$35,000; Minneapolis, \$20,000; St. Paul, \$15,000.

CHICAGO MAY BUY LAKE FRONT.

Chicago has a Women's City Club, with 1,000 members already enrolled, the club following after the city men's clubs. Municipal ownership of the lake front is the cry of the women just now, and if they succeed in their campaign, the unsightly docks will be removed, recreation piers will be erected and art will go hand in hand with utility upon the lake shore.

NEW YORK'S ARMY OF EMPLOYEES.

The roster records of the pay roll bureau show that in 1909 there were 54,965 employees in the city government of New York as against 50,054 in 1908. This does not include teachers, etc., in department of education, or employees in county offices.

TAXATION OF LAND VALUES IN AMERICAN AND FOREIGN CITIES.

One of the phenomena of this age is the attraction of population to cities. Not only is man gregarious or social in his instincts, but the subdivision of labor and complexity of exchange, which denote our advancing civilization, compel men to live and labor together in large numbers in order to produce the greatest results. In so doing they but follow the line of least resistance, *i. e.*, seek to satisfy their desires with the least exertion.

This congregation of vast numbers has projected new problems which an advancing civilization must solve. Among other questions for the cities to solve are those pertaining to the raising and disbursing of the huge revenues required for the complex activities of the modern city. The city fathers, ever following the line of least resistance, have bonded the cities, borrowed money almost to the constitutional limit, and piled up huge debts for posterity to cancel or to stagger under as best it may.

But the people clamor for more public improvement, more and better streets, walks, parks, public buildings, etc., and the question arises: "Where is the needed revenue to come from?"

Already the burden on private improvements, occupations and business is becoming too grievous to be borne. Improvement and business is checked, in fact well-nigh throttled. The followers of the Prophet of San Francisco are at hand with the solution. They would tap the inexhaustible public reservoir of land values. For thirty years they have dinned into the ear of the tax-gatherer the refrain: "Tax land values and relieve industry." Now that the tax-gatherer is at the end of his rope, since industry is burdened to its full capacity, he is beginning to hearken to this appeal to tax land values, which in all lands is becoming a live issue.

In American cities land values are already taxed, but on the same basis as improvements and personal property. However, little progress has been made in the practical work of exempting labor products and confining taxation to the privilege of land-holding.

Some fifteen years or more ago the little town of Hyattsville, Md., a suburb of Washington, exempted improvements for one year, and increased the tax rate on land values, with the result that more buildings were erected during the year than in the five years preceding. But the state courts decided against the experiment, and the town dropped back to the old rut.

A crude attempt to place the burden of public improvement on the beneficiary of such improvement, the land-owner, is in operation in many American cities in the form of special taxes for street, sidewalk and park improvements assessed against abutting property owners.

In the cities of New York State the Ford Franchise Tax Law calls for the assessment of the franchises of public service corporations as real estate. The franchise value of a public service corporation enjoying highway privileges is essentially land value. It is the capitalized value of the exclusive use of the public streets for a certain purpose.

In many American states and cities there is a growing demand for the exemption of factories, occupations and personal property. Such exemption would shift a larger part of the tax burden on to real estate values. To a more limited extent there is agitation for partial exemption of improvements from taxation.

The principle of the taxation of land

values has received wider recognition in Canada, where a number of cities have ceased to tax improvements. Vancouver, the metropolis of British Columbia, a city with a population of about 80,000, has no tax on improvements. It is enjoying one of the greatest real estate and building booms on record anywhere. Nanaimo, the center of the coal mining industry of the province, also exempts improvements. The capital, Victoria, and all the other municipalities in the province, assess improvements at 50 per cent or less of their value, while the law calls for full value assessment of land. Edmonton, the capital of the adjoining prairie province of Alberta, which a few years ago was a Hudson Bay Company trading post, now thriving metropolis of 30,000 and boasting skyscrapers and business houses out of all proportion to its size, has exempted improvements for a number of years. Two hundred and fifty municipalities and townships in the Province of Ontario have petitioned parliament for power to assess land values at a higher rate than improvements. The citizens of Toronto voted two to one in favor of exempting dwellings from taxation to the extent of \$700, but the City Council refused to sanction the proposal.

But the greatest progress in the direction of the taxation of land values has been made in Britain's antipodean colonies. In 1896 the Parliament of New Zealand granted to the local taxing bodies power to exempt improvements from taxation. Nearly half of the counties, municipalities and road districts of the colony have since made such exemption. In 1891 the personal property tax was abolished throughout the colony. So that now the industries of New Zealand are burdened less than any European or American country. The people of New Zealand are the wealthiest on the globe, their per capita wealth being a third greater than that of the people of the United States, while wealth is more generally diffused. It has been said of that country that it has neither millionaires nor paupers.

The state of New South Wales, Australia, exempts from taxation improvements in all the shires and in practically all the municipalities except the capital, Sydney, which is expected soon to take the same step. As a result of this shifting of taxation from industry to land values a great building boom is in progress throughout the country, and all lines of business are stimulated. Wages are rising, and there is little of the usual unemployed problem. Immigration has attained large proportions, but labor is still so scarce that the state parliament has appropriated the sum of £200,000 to assist working people into the country.

In South Africa the city of Durban, the port of Natal, has enjoyed the equivalent of the taxation of land values, so far as its residence section is concerned, for a number of years. The City owns its residence section, and lets the land to the citizens on periodical lease.

Germany's Chinese port of Kiau-Chow, now one of the great trade emporiums of the Orient, has for years raised all its revenues from land values, the authorities appropriating two-thirds of the ground rent. The principle has proved so successful that the German Empire is applying it to other colonies.

The states and municipalities of the German Empire now raise £125,000,000 annually in taxes on land values by means of unearned increment tax, royalties, etc. Of this sum the imperial government proposes to take 6 per cent, or £7,500,000.

In the United Kingdom the general elections were fought over a budget which contained three provisions for the taxation of land values. These features of the budget in all probability saved the Liberal party from defeat and the country from disaster. The taxation of land values is the burning issue, and is the only alternative to a protective tariff with its inevitable train of privilege, graft, public corruption and pauperism.

Over 500 local taxing bodies of the kingdom, including London, Glasgow, Liverpool and Manchester have petitioned parliament for power to make land values the basis of local taxation. This petition will probably be granted, so soon as parliament can clear the way, *i. e.*, repeal the Lord's right of veto, and carry out the valuation of land under the budget.

The Italian cities levy a special tax on vacant lots, this tax in the city of Rome being 3 per cent on a full valuation. The object of the tax is to break the strangle hold of land monopoly, and give industry opportunity to expand. Improvements are exempt from taxation for a period of two years.

Progress along these lines is being made in Paris and Vienna and in the Swiss and Swedish municipalities.

The taxation of land values is receiving much consideration in Norway, and Japan, and is being debated in the municipal councils of Calcutta and Johannesburg.

Senor Canalejas, the new premier of Spain, says:

"I am navigating the same waters as is the English government. With a view to increasing production and equitably redistributing taxation, I propose to apply the English theory of unearned increment to land, and to suppress the *octroi* duties,"

As Count Tolstoy says:

"The taxation of land values is the next great step in the progressist movement of the world."

Reverting to America, there is a little colony on Mobile Bay, comprising somewhere near 1,000 souls, where only land values are taxed. This colony of Fairhope meets all state and county taxes out of its ground rents, and expends the balance in public improvements for the equal benefit of all its citizens. This is approaching the ideal condition which when generally adopted throughout the civilized world will abolish war, pestilence and poverty and make possible the realization of that lofty ideal, the brotherhood of man.—*Joseph Fels in "The American City."*

TO EXTEND PARK OVER RAILROAD TRACKS.

New York, N. Y.—Residents of Riverside Drive are making protests against the noises and odors in their section of the city, to which the New York Central Railroad is the principal contributor, with automobiles playing a secondary part. Coincidentally with this protest it is announced that Dock Commissioner Calvin Tomkins and Park Commissioner Charles B. Stover will soon submit combined plans for dealing with the situation to the Board of Estimate and Apportionment. The plan is to roof over the railroad extending the natural slope of the park, adding thirty acres to its area. A driveway and walk would be built along the margin. The railroad would not be cut off from the water front and would be allowed to fill in land for additional tracks in return for privileges which it gives up.—*Municipal Journal and Engineer.*

CITY DESIGN AND TRANSPORTATION.

Cologne is one of the German cities which own and operate their street railway systems. The lines are under the management of M. Wattman, who has made a special study of the relations existing between streets, street railways and urban development, and many of his views were expressed in a paper on city design and transportation read before the International Street and Interurban Railway Association at Brussels in September. An abstract of his opinions as expressed in that article is given below.

One of the marked characteristics of the last few decades in Europe and America is the more rapid growth of city than country population. The attractions which a city affords to those of leisure, the opportunities which it offers to the working classes and the advantages which it provides to manufacturers are making city residence very desirable to all classes. In fact, this has become so distinctly the case that municipal questions are among the most important sociological problems of the age. The most serious of these problems is the housing of the inhabitants. Even the well-to-do can afford to occupy only a small ground area and are obliged to live in most cases in apartments rather than individual houses. The congestion in the poorer sections of the city is necessarily far greater and in the poorest districts municipal authorities are often unable to secure the thorough enforcement of even the most elementary laws of health and sanitation. The impossibility of lateral expansion has forced an expansion upward, with the inevitable deprivation to a large proportion of the population of the amount of light and air which the laws of health require. The ultimate effect of this, especially upon children, cannot be negligible.

A great need of our large cities is the reduction of this evil through lateral expansion, made possible only by adequate and rapid transportation. The development of electric railways provides a possible solution of this problem because it increases enormously the space available for city expansion. It is difficult to determine the proportion of people who use the electric cars to go from one point to another within the city in preference to other means of movement, but a few figures which have been compiled will be of interest. These were obtained by making a record of the number of persons traveling in tramway cars, in other vehicles, by bicycles and on foot, on typical days, past different important points in the cities mentioned.

A record taken at two important points in Copenhagen during November, 1907, shows: Number in vehicles, 3,181; on bicycles, 4,153; foot passengers, 22,289; in tramway cars, 12,000. In other words, the tramway cars carried 29 per cent of the total number of the persons passing the two points considered. At Aix-la-Chapelle during a fête on July 19, 1909, a record was made at ten different points and it was found the number of persons traveling in the tramway cars was 259,574, or almost 50 per cent. In Dresden a similar record was made in 1908 at one of the principal bridges connecting the two parts of the city, and over 50 per cent were found traveling by electric cars. A record made September 18, 1908, in Lucerne showed 20 per cent. In Cologne a count made on two bridges crossing the Rhine showed only 12 per cent foot passengers and 88 per cent tramway passengers.

It would seem almost self-evident that municipal authorities and engineers would obtain the advice of the representatives of

their local railway systems whenever new portions of the city are laid out so as to determine the best way of serving these sections by tramways. Somewhat strange to say, this is rarely done. Of the 73 companies which have replied to an inquiry on this subject 60 stated that they possess no influence with the municipal authorities in regard to this matter and are never consulted when new streets are laid out. Twelve companies reported that they are consulted in regard to the transportation features in work of this kind when it is supposed that they have an interest in furnishing the service. Finally the officers of ten tramways, for the most part municipal enterprises, are asked regularly to assist in the establishment of plans of this kind. This condition of affairs undoubtedly explains the very grave errors made in the offices of municipal architects when it comes to providing transportation facilities in new districts. Undoubtedly the intentions of these architects are the best, but by ignoring what in a sense is the most important and vital part of city planning they make mistakes which forever handicap and hamper the district which they have laid out. Among the points which municipal architects through ignorance of the practical conditions of electric railway operation are apt to overlook are the following: Width of roadway; position of tracks in the streets; facilities for the establishment of car houses so as effectively to serve the different lines operated by them; facilities for turnouts and crossovers; locations of crossings, and number of railway lines required to serve the communities of different size.

Modern ideas in city planning, very wisely, no longer favor the old idea of the rectangular arrangement of a city with all streets either parallel to or at right angles to each other. Such streets not only give an impression of monotony but their busy corners constitute serious obstacles to the circulation of traffic. Two streams of pedestrians, carriages, bicyclists, electric cars, etc., one on the cross street, the other on the longitudinal street, are forced into the narrow confines of a crossing no broader than each of the streets which meet at that point. The result is not only danger but a cause of delay to all.

Modern city architects seek not only to give their creations a picturesque appearance by avoiding so far as possible the interminable perspective presented by a long and straight street, but also to arrange the crossings of the important thoroughfares in such a way as to avoid congestion. The former effect is accomplished by interrupting the straightness of the streets by angles or turns, and by the introduction of squares and plazas, and the latter by providing broad thoroughfares at intervals, still further widening them where they cross other important streets. These broad thoroughfares naturally become the commercial streets of the city, whereas the cross streets are naturally better suited for residential purposes. In the latter greater liberty can be taken in departing from straight lines, whereas the business streets should be arranged so as to facilitate traffic as far as possible. It is indispensable, however, in all work of this character for the engineer or commissioner in charge to realize that the new city or portion of the city which he is designing is not merely a work of art. It is primarily an object of utility and will lose its value if its artistic features hamper or obliterate its useful qualities. Some of the more important of these points, so far as they concern transportation by electric cars, will now be discussed.

The first consideration is the width of the streets. With tracks in the middle of the street and room on each side for one line of carriages the streets should have a width of from 33 to 35 feet when the width of the car is about 7 feet. Cars can make a maximum speed of 10 miles per hour on such streets even if there is considerable traffic, and if the street was slightly wider could make from 11 to 12 miles per hour. It is much better, however, to have the space on each side of the track wide enough to admit the passage of two vehicles side by side or the passage by one carriage of another standing close to the curb. This means a width of street of from 50 to 55 feet, and if the vehicle traffic does not trespass too frequently on the space reserved for the cars the latter can operate at from 12 to 15 miles per hour.

The next step is to provide more or less of a reservation for the cars. This plan will greatly reduce collisions between cars and vehicles. Accidents of this kind can be divided into two classes,—one in which the vehicle is crossing the track from a side street and the other in which the vehicle is struck from behind by the car. Of these, the former is not only much less common, because the driver of the vehicle is in a position to see an approaching car, but the consequences are apt to be less serious because the driver is less liable to be pitched forward onto the tracks. A collision between a carriage and a car going in the same direction is impossible if the tracks are on a reservation. When laid in this way, the maximum speed of the cars can be 20 miles per hour and if the precautions described later are adopted there is no reason why the speeds cannot be raised to 25 miles per hour with no more danger than at present. Such reservations can be paved, as on Bismarckstrasse in Berlin, or turfed, as on Hartenbergerstrasse. The cost of track construction and track maintenance on reservations of this kind is, of course, less than in paved streets, because T-rails on wooden ties can be used.—*Engineering Record.*

CHARTER AMENDMENTS IN SAN FRANCISCO.

The proposed list of thirty-eight charter amendments, voted upon last week in the northern metropolis, brought out a large vote, a total of over 45,000. Extraordinary discrimination was shown by the voters, as for example, one amendment carried by a vote of 42,048 to 2,122, while another was defeated 29,630 to 8,863. Eighteen amendments carried, while twenty were defeated. All salary raises were defeated, except those increasing the pay of supervisors to \$200 a month and increasing a number of salaries in the recorder's office. The most valuable amendments among those that carried were those providing for a nonpartisan direct primary and a nonpartisan ballot. These carried by enormous majorities. The initiative, referendum and recall carried by a close vote. The terms of most officials are changed from two to four years, property owners are required to keep unaccepted streets in repair, the city is given right to purchase the tangible property of the grantee of any franchise, and the wages of all laborers employed on city work, either by contract or by the city direct, must receive a minimum of \$3 per day.

The city of Paris is now publishing a municipal journal which is known as Bulletin Municipal Officiel, De La Ville De Paris. It is published weekly and is a booster for all worthy public improvements.

OFFICIAL DIRECTORY.

MAYOR'S OFFICE.

Room 27, City Hall. Tel. Fort Hill 3000.
JOHN F. FITZGERALD, *Mayor*.
WILLIAM A. LEAHY, *Secretary*.
RICHARD F. FIELD, *Assistant Secretary*.
Amusement License Division—JOHN M. CASEY.

CITY COUNCIL.

WALTER BALLANTYNE, *President*, 224 Dudley street, Roxbury.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, DECEMBER 17, 1910.

No. 51

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as

to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, December 19, at 3 p. m.

Meeting of School Committee, Monday, December 19, at 5.30 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

A hearing will be held on the petition of Carstenson Brothers for leave to occupy a wood and corrugated iron building for four horses on Marginal street, between Lewis and Orleans streets, Ward 2, on Thursday, December 22, 1910, at 10 a. m., in the office of the Board of Health, 11 Old Court House.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, DECEMBER 20, AT 11 O'CLOCK.

Gasolene.—Nathan C. Harrison, 84 Melville avenue; Blake Motor Company, 17 Renfrew street.

Pole Locations.—New England Telephone and Telegraph Company, to erect eleven poles on Bloomfield street, between Greenbrier street and Geneva avenue; to erect twelve poles, Dakota street, between Greenbrier street and Geneva avenue; to erect eleven poles, Lindsey

street, between Greenbrier street and Waldeck street; to erect three poles, Middle street, east of Dorchester avenue, Ward 15; Edison Electric Illuminating Company, to erect three poles, Holman street; to erect one pole, Hooker street, Ward 25; New England Telephone and Telegraph Company, to erect four poles on Temple street, Ward 23.

Also on the following petitions: Henry F. Sears, to project three balconies from 86 Beacon street; Louis Segel, marquise, from building 362 Blue Hill avenue.

TUESDAY, DECEMBER 27, AT 11 O'CLOCK.

A public hearing on petition of the Old Colony Street Railway Company for alterations and additions on Washington street, at Grove street, Ward 23.

Pole Locations.—Edison Electric Illuminating Company, to attach to two poles of New England Telephone and Telegraph Company on Faneuil street; to attach to four poles of New England Telephone and Telegraph Company on Harvard street; New England Telephone and Telegraph Company, to attach to three poles of the Edison Electric Illuminating Company on D street; to erect two poles on Mt. Vernon street, Ward 5; to erect five poles on St. Margaret street, Ward 16.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

CEMETERY DEPARTMENT.

Advertises for proposals for galvanized wire railing for use at Mount Hope Cemetery. Blank forms for proposals may be obtained at the office of the trustees, Room 76, City Hall. Bids to be filed at same office.

Bids close Monday, December 19, at 2 p. m.

STREET DEPARTMENT (Lamp Division).

Advertises for proposals for furnishing, maintaining and operating approximately 10,000 gas or electric lamps, for a period of 10 years from January 31, 1911. Bids to be filed at the office of the Superintendent of Streets, City Hall.

Bids close Saturday, December 24, at 12 m.

STREET DEPARTMENT (Sanitary Division).

Advertises for proposals for repairing the roofs of the city stables in North Grove street yard. Blank forms for proposals may be obtained at the office of the Superintendent of Streets. Bids to be filed at same office.

Bids close Friday, December 23, at 12 m.

Advertises for proposals for repairing the roofs of the city stables at the south sanitary yard, Albany street. Blank forms for proposals may be obtained at the office of the Superintendent of Streets. Bids to be filed at same office.

Bids close Friday, December 23, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending December 15, 1910:

AUDITING DEPARTMENT.

Designation of Julien C. Haynes to act as auditor at such times as the City Auditor may be absent during the four weeks beginning Monday, December 12, 1910.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Appointment of Neil Kelly (patient), as choreman at new building, at \$18 a month.

ENGINEERING DEPARTMENT.

Designation of Frank A. McInnes to perform the duties of Acting City Engineer during the four weeks beginning December 14, 1910.

FINANCE COMMISSION.

Increase in the compensation of Miss A. Vivian Grant, stenographer, from \$10 a week to \$50 a month.

HEALTH DEPARTMENT.

Appointment of Joseph P. Henchy as a clerk in this department at an annual salary of \$624.

HOSPITAL DEPARTMENT.

To Fill Vacancies.

Permanent.—Leon A. Dion, orderly, \$25 per month; Helenus McColl, orderly, \$25 per month; Colin B. MacLean, back gate porter, \$30 per month; Miram Brousky, ward maid, \$12 per month; Acora Johansen, ward maid, \$15 per month; Nettie Crow, ward helper, \$14 per month; Margretta Sherrard, chambermaid, \$15 per month.

Temporary.—Gertrude E. Hildreth, post graduate nurse, \$20 per month.

The following employees have had increase of wages:

Mary Doherty, laundress, \$18 to \$20 per month; Ellen Cronin, laundress, \$18 to \$20 per month; Lina Emberg, laundress, \$18 to \$20 per month; Margaret McLaughlin, laundress, \$18 to \$20 per month; Michael J. Donnelly, orderly, \$30 to \$35 per month; Bertram Sanders, orderly, \$25 to \$30 per month; Joseph J. Qualters, stableman, \$40 to \$45 per month; Emma J. Baldwin, nurse, \$8.33 to \$12.50 per month; Alice Birtwell, nurse, \$5 to \$8.33 per month.

INFIRMARY DEPARTMENT.

Almshouse and Hospital, Long Island.

To fill vacancies.—Margaret McNair, nurse, \$10 per month; Ella P. Richardson, nurse, \$10 per month.

Increase in salary.—Mary E. Flynn, nurse, \$10 to \$12 per month.

OVERSEERS OF THE POOR DEPARTMENT.

Increase in the salary of James Gallagher, engineer for this department, from \$900 to \$1,000 per year.

PENAL INSTITUTIONS DEPARTMENT.

Appointment of Cornelius F. Galvin to the position of night officer at Gut at a salary of \$480 per year.

Appointment of Thomas F. Colahan to the position of night officer at the House of Correction at a salary of \$480 per year, to fill vacancy caused by the promotion of Joseph D. Sullivan.

PUBLIC BUILDINGS DEPARTMENT.

Appointment of Mr. John Logue as a carpenter in this department with compensation of \$4 per day.

SCHOOLHOUSE DEPARTMENT.

Extension of period of employment of Daniel L. Flanagan as a temporary roofing inspector to December 31, 1910.

STREET DEPARTMENT (Highway Division).

Increase in the salary of Henry J. McGuinness, a clerk in the Highway Division, from \$800 to \$1,000 per year.

Increase of the wages of Joseph A. Coyle, carpenter in the Highway Division, from \$3 to \$3.50 per day.

STREET DEPARTMENT (Sewer Division).

Increase of wages of George E. Phalan, an inspector in the Sewer Division of this department, from \$3 to \$3.50 per day.

TREASURY DEPARTMENT.

Designation of Benjamin S. Turner to serve as Acting City Treasurer at such times as the City Treasurer may be absent during the four weeks commencing December 13, 1910.

WATER DEPARTMENT.

Appointment of Charles Gallagher to the position of chauffeur in the Water Department with pay at the rate of \$2.75 per day.

Increase in the pay of Michael P. Welch, plumber, from \$2.75 to \$3 per day.

Increase in the pay of Frank T. McCarthy, meter tester and repairer, from \$2.50 to \$3 per day.

OVERTIME ALLOWED.

Assessing Department.

James Roster, Jr., \$43.25 for overtime work on abatements.

Election Department.

For the week ending Thursday, December 15, 1910, as follows:

Alexander L. Brown, assistant registrar, 3 days at \$4, \$12; Joseph A. Calkins, Jr., assistant registrar, 3 days at \$4, \$12; John J. Capelle, assistant registrar, 3 days at \$4, \$12; Thomas F. Delehanty, assistant registrar, 3 days at \$4, \$12; John W. Dolan, assistant registrar, 3 days at \$4, \$12; Frank J. Enos, assistant registrar, 3 days at \$4, \$12; Allan H. Farnham, assistant registrar, 3 days at \$4, \$12; William M. Humphreys, assistant registrar, 3 days at \$4, \$12; William T. Jones, assistant registrar, 3 days at \$4, \$12; Paul D. Kane, assistant registrar, 3 days at \$4, \$12; William E. Mahoney, assistant registrar, 3 days at \$4, \$12; Reginald H. Mair, assistant registrar, 3 days at \$4, \$12; Michael F. McLaughlin, assistant registrar, 3 days at \$4, \$12; Christopher C. Mitchell, assistant registrar, 3 days at \$4, \$12; John F. Monahan, assistant registrar, 3 days at \$4, \$12; George H. Norton, assistant registrar, 3 days at \$4, \$12; Michael J. O'Day, assistant registrar, 3 days at \$4, \$12; Henry L. Pelkus, assistant registrar, 3 days at \$4, \$12; John H. Quinlan, assistant registrar, 4 days at \$4, \$16; Charles H. Snow, assistant registrar, 4 days at \$4, \$16; Frank A. Sughrue, assistant registrar, 3 days at \$4, \$12; William H. Tighe, assistant registrar, 3 days at \$4, \$12; Edmund Weber, assistant registrar, 3 days at \$4, \$12.

Health Department.

For the following persons employed in the Milk Inspection Division of this department:

Edward Kelly, $\frac{1}{2}$ day at \$3, \$1.50; Patrick H. Gannon, $3\frac{1}{2}$ days at \$3, \$10.50; John J. Graham, $3\frac{1}{2}$ days at \$3, \$10.50.

Hospital Department.

For the week ending Thursday, December 8, 1910:

East Boston Roll.—Michael Fitzgerald, day porter and tending furnace, $\frac{1}{2}$ week at \$16 per week, \$2.67; William Cooney, night porter and tending furnace, $\frac{1}{2}$ week at \$16 per week, \$2.67.

Haymarket Square Roll.—Edward G. Reed, porter and tending furnace, $\frac{1}{2}$ week, at \$16 per week, \$5.35.

Park Department.

For the week ending Thursday, December 8, 1910:

William H. Allen, foreman, $1\frac{1}{2}$ days at \$3.25, \$5.69; George W. H. Timson, time-keeper, 2 days at \$2.50, \$5; Joseph P. Howe, gardener and greenkeeper, $\frac{1}{2}$ day at \$2.25, \$0.56; John F. Murphy, storekeeper, 1 day at \$2.25, \$2.25; Bernard J. Conley, machinist, $\frac{1}{2}$ day at \$3, \$2.25; George H. Conner, chauffeur, $2\frac{1}{2}$ days at \$2.25, \$6.19; Charles Walters, gardener, 1 day at \$3, \$3; Robert Coulsey, gardener, $\frac{1}{2}$ day at \$2.75, \$0.34; Edward T. Bean, gardener, 1 day at \$2.50, \$2.50; James H. Kelley, janitor, 1 day at \$2.50, \$2.50; Jeremiah J. Downey, laborer and playground keeper, 1 day at \$2.25, \$2.25; Thomas Dillon, chauffeur, 1 day at \$3, \$3; John J. Regan, boy and chauffeur, $\frac{1}{2}$ week at \$9 per week, \$1.50; Mary McLaughlin, matron, $\frac{1}{2}$ week at \$10 per week, \$1.43; James Galvin, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; Moses A. Coulter, laborer, 1 day at \$2.25, \$2.25; Matthias Costello, laborer, 1 day at \$2.25, \$2.25; Martin Duran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.97; William Fallon, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Thomas Ganley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Patrick J. Kielty, laborer, 1 day at \$2.25, \$2.25; James M. Kennedy, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; Charles Lennon, laborer, 1 day at \$2.25, \$2.25; Thomas McDowell, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; John F. McKernan, laborer, 2 days at \$2.25, \$4.50; John Morgan, laborer, 1 day at \$2.25, \$2.25; Andrew Rourke, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; John J. Tatten, Jr., steam roller engineer, 1 day at \$2.50, \$2.50; Charles A. Hogan, clerk, $1\frac{1}{2}$ days at \$2.50, \$4.69; Patrick McKenzie, powderman and gardener, 1 day at \$3.25, \$3.25; James O'Brien, teamster, $\frac{1}{2}$ week at \$14.79 per week, \$2.11; James Cronin, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; Patrick Glennon, 2d., laborer, park keeper, 1 day at \$2.25, \$2.25; Lawrence F. Kilroy, stableman, 1 day at \$2.25, \$2.25; William Locke, laborer, 1 day at \$2.25, \$2.25; Patrick O'Rourke, laborer, 1 day at \$2.25, \$2.25; Cornelius J. Shields, laborer, 1 day at \$2.25, \$2.25; William J. Shruhan, laborer, 1 day at \$2.25, \$2.25; John Welsh, laborer, 1 day at \$2.25, \$2.25; Michael McNulty, subforeman, $1\frac{1}{2}$ d. at \$3.25, \$3.66; Martin Earley, laborer, $\frac{1}{2}$ d. at \$2.25, \$1.13; Michael Gorman, laborer, $\frac{1}{2}$ day at \$2.25, \$0.56; Redmond Quirk, laborer, 1 day at \$2.25, \$2.25; Julius Weidner, subforeman, 1 day at \$3.25, \$3.25; John J. Abbott, laborer, 1 day at \$2.25, \$2.25; Patrick Connolly, 1st., laborer, 1 day at \$2.25, \$2.25; Michael Downs, laborer, 1 day at \$2.25, \$2.25; Maurice Downey, laborer, 1 day at \$2.25, \$2.25; John Higgins, 2d., laborer, 1 day at \$2.25, \$2.25; John Hennessey, laborer, 1 day at \$2.25, \$2.25; Michael Murphy, laborer, 1 day at \$2.25, \$2.25; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; James D. Edgeworth, subforeman, 1 day at \$3.75, \$3.75; John E. Johnson, mason, $\frac{1}{2}$ day at \$3, \$2.63; Michael P. McDonald, mason, $\frac{1}{2}$ day at \$3, \$2.63; William E. Connell,

laborer, $1\frac{1}{4}$ days at \$2.25, \$3.94; Thomas Garvin, laborer, 1 day at \$2.25, \$2.25; Patrick Glennon, 1st., laborer, 1 day at \$2.50, \$2.25; Timothy Hagan, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; Matthew Horgan, laborer, $\frac{5}{8}$ day at \$2.25, \$1.41; Bernard T. McNulty, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.94; Michael O'Neill, laborer and park keeper, 2 days at \$2.25, \$4.50; Thomas A. Callahan, laborer and assistant in care of building, $\frac{1}{2}$ day at \$2.50, \$1.25; Robert Doherty, laborer, 1 day at \$2.25, \$2.25; Michael Lally, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Hugh Greeran, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; George T. Cunniff, laborer, $\frac{3}{4}$ day at \$2.25, \$1.69; Patrick J. Owens, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John P. Kelly, subforeman, 1 day at \$3.25, \$3.25; John Brennan, laborer, 1 day at \$2.25, \$2.25; John E. Daley, laborer, 1 day at \$2.25, \$2.25; Thomas J. McDonough, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William Fanning, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Alexander J. Murray, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Martin Corcoran, laborer, 1 day at \$2.25, \$2.25; Michael Connelly, laborer, 1 day at \$2.25, \$2.25; Michael O'Toole, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.91; Patrick J. Shields, laborer, 1 day at \$2.25, \$2.25; Lizzie V. Wallace, matron, 1 day at \$1.50, \$1.50.

Street Department (Highway Division).

For the week ending Thursday, December 8, 1910:

William Concannon, paver, $\frac{1}{2}$ day at \$3, \$1.50; Andrew T. Roach, weigher, 1 day at \$2.50, \$2.50; William L. Carty, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Michael T. Cuddy, subforeman, $\frac{1}{2}$ day at \$3.50, \$1.75; Francis P. Aieta, clerk, 1 day at \$2.50, \$2.50; James J. Sullivan, messenger, 1 day at \$3, \$3; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Fred A. Breen, inspector, 1 day at \$3, \$3; James A. Keveney, inspector, $\frac{1}{2}$ day at \$3, \$2.25; John J. Hayes, inspector, $\frac{3}{4}$ day at \$3, \$2.25; Charles E. Sheehee, inspector, $\frac{1}{2}$ day at \$3, \$0.75; Patrick H. Connolly, inspector, 1 day at \$3, \$3; William J. Lynch, inspector, 1 day at \$3, \$3; Dwight L. Hubbard, junior assistant engineer, 1 day at \$4.50, \$4.50; Hiram R. Chubbuck, junior assistant engineer, $1\frac{1}{4}$ days at \$4.50, \$5.63; George L. Grainger, instrumentman, $1\frac{1}{4}$ days at \$3, \$3.75; Frank O. Holmes, instrumentman, 1 day at \$3.50, \$3.50; John V. Corbett, rodman, $1\frac{1}{4}$ days at \$2.50, \$3.13; Ed. J. Fitzgerald, inspector, $1\frac{1}{2}$ days at \$3, \$4.50; James D. Gorman, inspector, 1 day at \$3, \$3; Frank J. Hason, inspector, $\frac{1}{2}$ day at \$3, \$1.50; George W. Jepson, inspector, 1 day at \$3, \$3; Thomas W. H. Kelly, inspector, 1 day at \$4, \$4; John J. Hayes, inspector, $\frac{3}{4}$ day at \$3, \$2.25; Timothy Fitzmaurice, inspector, $\frac{3}{4}$ day at \$3.50, \$2.63; Richard H. McHugh, assistant drawtender, 1 day at \$2.19, \$2.19; and 66 laborers, \$133.45.

Timothy Sullivan, stableman, 1 day at \$3, \$3; Walter J. Holland, driver, 1 day at \$2.75, \$2.75; Jere Brosnahan, stableman, 1 day at \$2.50, \$2.50; James F. McIntire, stableman, 1 day at \$2.25, \$2.25; Dennis J. Donahue, watchman, 1 day at \$2.25, \$2.25; James J. Lyng, watchman, 1 day at \$2.25, \$2.25; Patrick Dolan, stableman, 1 day at \$2.25, \$2.25.

Street Department (Sanitary Division).

For the week ending Thursday, December 8, 1910:

J. F. Coffey, stableman, 1 day at \$2.50, \$2.50; Daniel Connor, stableman, 1 day at \$2.50, \$2.50; J. E. Crowley, wharfinger, 1 day at \$3, \$3; J. J. Flanagan, stableman, 1 day at \$2.50, \$2.50; John Gallagher, stableman, 1 day at \$2.50, \$2.50; George

McColgan, stableman, 1 day at \$2.50, \$2.50; Michael Wade, stableman, 1 day at \$2.50, \$2.50.

D. J. O'Brien, inspector, $\frac{1}{2}$ day at \$3, \$1.50; P. J. Sullivan, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Joseph Wolter, blacksmith, $\frac{3}{4}$ day at \$3.50, \$2.41; W. H. Rowe, clerk, 1 day at \$3, \$3; D. T. Mahoney, inspector, $\frac{1}{4}$ day at \$3, \$0.75; J. J. Mullen, inspector, $\frac{1}{4}$ day at \$3, \$0.75; G. H. O'Donnell, inspector, $\frac{1}{4}$ day at \$3, \$0.75; F. A. Sullivan, inspector, $\frac{1}{4}$ day at \$3, \$0.75; J. F. Coffey, stableman, $\frac{1}{4}$ day at \$2.50, \$0.63; J. H. Boyle, horseshoer, $\frac{3}{4}$ day at \$3.16, \$2.38; J. J. Murray, horseshoer, $\frac{3}{4}$ day at \$3.16, \$2.38; E. J. Hardy, scowman, 1 day at \$2.50, \$2.50; Michael Sullivan, scowman, $2\frac{1}{2}$ days at \$2.50, \$6.25; Daniel Collins, mate, $1\frac{1}{4}$ days at \$3, \$5.25; John Pomeroy, engineer, $2\frac{1}{2}$ days at \$3.50, \$3.06; James Riley, fireman, $2\frac{1}{4}$ days at \$2.83, \$2.48; James Kelly, fireman, 1 day at \$2.83, \$2.83; and 89 laborers, \$97.34. James J. Shea, driver, 2 days at \$2.50, \$5; J. A. English, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; William M. Gorman, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; J. F. Mullen, inspector, $\frac{1}{2}$ day at \$3, \$1.50; William V. Quinn, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; J. J. Moynihan, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; Richard Sheehan, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; P. F. Logan, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; J. H. Nolan, inspector, $1\frac{1}{2}$ days at \$2.50, \$3.75; J. H. Riley, inspector, 1 day at \$2.50, \$2.50; William Grant, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; E. F. Henneberry, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Harry Keenan, inspector, $\frac{1}{2}$ day at \$3, \$1.50; J. N. Brennan, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; Timothy Conway, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Dennis Crowley, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; J. P. Kelley, inspector, 1 day at \$3, \$3; R. H. Hill, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; F. J. Dowd, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; F. L. Norton, inspector, 1 day at \$2.50, \$2.50; John Fee, subforeman, 1 day at \$3, \$3; M. J. Concannon, acting foreman, 1 day at \$3, \$3; Joseph F. Mello, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; Michael Mullen, stableman, 1 day at \$2.50, \$2.50; Michael McClellan, stableman, 1 day at \$2.50, \$2.50; Nicholas Beigh, inspector, $\frac{1}{2}$ day at \$3, \$1.50; L. O. Cloudman, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; M. F. Daly, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; John Fitzgerald, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Patrick J. Nee, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Thomas Rice, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; S. A. Sawyer, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; Patrick Sweeney, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; John J. Carey, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; Thomas L. Tucker, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; Maurice Cashman, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; Thomas J. Gargan, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Jonas Hoff, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Charles Noon, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; Thomas F. Stanton, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; Fred W. Annis, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Frank DiPesa, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; J. J. Murphy, subforeman, $\frac{1}{2}$ day at \$3, \$1.50; P. J. McNulty, inspector, $\frac{1}{2}$ day at \$3, \$1.50; C. F. Collins, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Charles P. Hobbs, stableman, 1 day at \$2.50, \$2.50; Joseph M. Kenney, stableman, $\frac{1}{2}$ day at \$2.25, \$1.13; H. J. McCarron, watchman, 1 day at \$2.50, \$2.50; Patrick J. Rinn, stableman, 1 day at \$2.25, \$2.25; E. J. Noonan, inspector, $\frac{1}{2}$ day at \$3, \$1.50; C. J. Scanlan, inspector, $1\frac{1}{4}$ days at \$2.50, \$4.38; Richard Welch, inspector, $\frac{1}{2}$ day at \$3, \$1.50; D. J. Griffin, inspector, $2\frac{1}{4}$ days at \$2.50, \$5.94; D. J. Sullivan, driver, 2 days at \$2.50, \$5; James J. Farrell, inspector, 2 days at \$2.50, \$5; F. H. Wilson, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; H. C. Mosman, inspector, $\frac{1}{2}$ day at \$2.50, \$1.25; Thomas

Cook, stableman, $\frac{1}{4}$ day at \$2.25, \$0.28; and 221 laborers, \$335.62.

Street Department (Sewer Division).

For the week ending Thursday, December 8, 1910:

C. F. Young, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Frank Johnson, yardman, 1 day at \$2.50, \$2.50; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; Nathan F. O'Neil, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; Edward Doherty, bracer, 1 day at \$2.50, \$2.50; Edward Gibbons, bracer, 1 day at \$2.50, \$2.50; Thomas Glennon, inspector, 1 day at \$3.50, \$3.50; John Flaherty, yardman, 1 day at \$2.50, \$2.50; H. J. Moynihan, subforeman, 2 days at \$3.50, \$7; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; Michael J. Hughes, machinist, $\frac{1}{2}$ day at \$3.52, \$2.64; Patrick Thornton, laborer, $\frac{1}{2}$ day at \$2.50, \$1.88; Charles R. Palmer, engineer, $1\frac{1}{4}$ days at \$4.66, \$5.83; 53 laborers, \$120.38.

Water Department (Distribution Division).

For the week ending Thursday, December 8, 1910:

William Abbott, engineer, 1 day at \$3, \$3; Robert McLaughlin, fireman, 1 day at \$2.83, \$2.83; John Austin, watchman, 1 day at \$2.50, \$2.50; Robert A. Barry, watchman, 1 day at \$2.25, \$2.25; Thomas A. Gorman, foreman, 1 day at \$2.75, \$2.75; Charles J. Parks, foreman, 1 day at \$2.50, \$2.50; Patrick Cassidy, 1st, foreman, 1 day at \$2.25, \$2.25; Michael H. Dwyer, foreman, 1 day at \$2.25, \$2.25; Dennis McGowan, foreman, 1 day at \$2.25, \$2.25; Daniel J. Buckley, foreman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, foreman, 1 day at \$2.25, \$2.25; John McNulty, laborer, 1 day at \$2.25, \$2.25; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 1 day at \$2.75, \$2.75; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; Humphrey D. Sullivan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50; Michael Galvin, watchman, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; Eugene T. Shea, watchman, 1 day at \$2.25, \$2.25; Owen Lynch, laborer, 1 day at \$2.25, \$2.25; John J. Gallagher, pipe-layer, 1 day at \$2.50, \$2.50; Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Charles J. McKenna, emergency man, 1 day at \$2.25, \$2.25; Michael C. White, emergency man, 1 day at \$2.25, \$2.25; Daniel J. Hefferman, emergency man, 1 day at \$2.25, \$2.25; Timothy J. Kelleher, emergency man, 1 day at \$2.75, \$2.75; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1 day at \$2.75, \$2.75; James Donovan,

stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Raffaele Curcio, teamster, 1 day at \$2.25, \$2.25; William A. O'Connor, inspector, $\frac{1}{2}$ day at \$2.75, \$1.03; Patrick J. Kelly, inspector, $3\frac{7}{8}$ days at \$2.95, \$10.14; Richard P. Collins, inspector, $\frac{5}{16}$ day at \$2.75, \$0.86; Michael C. Sullivan, plumber, $\frac{3}{4}$ day at \$2.50, \$0.94; Martin Dunlap, plumber's helper, $\frac{3}{8}$ day at \$2.25, \$0.84; Charles M. Driscoll, plumber, $\frac{1}{8}$ day at \$2.75, \$0.23; Patrick Lawless, plumber's helper, $\frac{1}{8}$ day at \$2.25, \$1.83.

Water Department (Income Division).

For the week ending Thursday, December 8, 1910:

J. J. Callahan, laborer, $2\frac{3}{4}$ days at \$2.50, \$5.70; P. J. Clougherty, laborer, $\frac{3}{16}$ day at \$2.25, \$0.42; J. H. Cullen, plumber, $\frac{1}{8}$ day at \$3, \$0.56; O. J. Gilloon, plumber, $\frac{1}{4}$ day at \$3, \$0.75; J. J. Mahoney, laborer, $\frac{5}{16}$ day at \$2.25, \$0.70; T. McAuliffe, laborer, $\frac{3}{8}$ day at \$2.25, \$0.63; J. H. O'Brien, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; D. J. Rull, Jr., plumber, $2\frac{3}{4}$ days at \$3, \$6.84; P. A. Russell, laborer, $\frac{1}{2}$ day at \$2.25, \$1.41; J. J. Shea, laborer, $\frac{5}{16}$ day at \$2.25, \$0.70; J. Sullivan, laborer, $\frac{1}{8}$ day at \$2.25, \$1.27; T. J. Sullivan, plumber, $\frac{1}{16}$ day at \$3, \$0.94.

CONTRACTS AWARDED.

Combination Ladder Company, \$3,748, \$4,495, \$4,650; Waite-Robbins Motor Company, Inc., \$4,200, \$4,400; D. P. Nichols Company, \$4,500; Webb Motor Fire Apparatus Company, \$4,650; Dodge Motor Vehicle Company, \$5,000; Arthur L. Waugh, \$5,200; American La France Fire Engine Company, \$5,500; Knox Automobile Company, \$5,500, \$5,600; James Boyd & Brother, Inc., \$6,250.

The proposal of D. P. Nichols Company was objected to as it had not been placed in the proposal box with the other bids.

STREET DEPARTMENT (Sewer Division).

On December 12 the Mayor approved a contract with Luke D. Mullen for building pipe sewers and drains in Dyer and Ufford streets, Dorchester. Bids on this work, opened December 5, were as follows:

Luke D. Mullen, \$2,128.95; Murphy & Dolan, \$2,242.01; Daniel De Pietro, \$2,443.56; George Regan, \$2,580.71; D. M. Biggs & Co., \$2,717.58; John McCourt & Co., \$2,940.46; J. B. O'Rourke & Co., \$3,080.11.

Estimated quantities:

Five cubic yards earth excavation below grade; 10 cubic yards earth excavation above grade; 25 cubic yards rock; 5 cubic yards gravel; 2 M. feet B. M. spruce lumber for sheeting; 1 M. feet B. M. spruce lumber for platforms; 100 linear

feet 6-inch pipe underdrain; 197 linear feet 12-inch pipe sewer in Dyer street; 371 linear feet 8-inch pipe sewer in Dyer street; 280 linear feet 8-inch pipe sewer in Ufford street; 187 linear feet 12-inch pipe surface drain in Dyer street; 288 linear feet 10-inch pipe surface drain in Dyer street; 295 linear feet 10-inch pipe surface drain in Ufford street; 50 linear feet 6-inch pipe house drain; 20 linear feet existing drains removed; 10 linear feet existing drains relaid; 10 linear feet existing drains in main trench removed; 20 linear feet existing house drains relaid; 10 linear feet existing drains other than house drain; 1 Y placed; 5 cubic yards concrete; 5 manholes on sewer; 6 manholes on surface drain; 1 invert rebuilt.

Discount of 68 per cent on \$1,411 worth of pipe.

Engineer's estimate, \$2,490.12.

On December 12 the Mayor approved a contract with Luke D. Mullen for building pipe sewer and drains in Norfolk street, Dorchester. Bids on this work, opened December 5, were as follows:

Luke D. Mullen, \$733.84; George Regan, \$919.87; J. B. O'Rourke & Co., \$1,122.54; Commonwealth Construction Company, \$1,126.09; John McCourt & Co., \$1,136.28; R. Cartullo, \$1,299.75.

Estimated quantities:

Two cubic yards earth excavation below grade; 10 cubic yards earth excavation above grade; 100 cubic yards rock; 2 cubic yards gravel; 1 M. feet B. M. spruce lumber for sheeting; 50 linear feet 6-inch pipe underdrain; 225 linear feet 12-inch pipe sewer; 20 linear feet 6-inch pipe chimneys; 55 linear feet existing sewer removed; 6 linear feet house drain relaid; 6 linear feet catch-basin drain relaid; 6 linear feet existing drain in main trench relaid; 6 linear feet existing drain outside of main trench relaid; 6 linear feet existing catch-basin drain outside of main trench relaid; 6 linear feet existing drains other than catch-basin drain relaid; 1 cubic yard concrete; 1 manhole; 1 invert rebuilt.

Discount of 68 per cent on \$294 worth of pipe.

Engineer's estimate, \$935.83.

On December 12 the Mayor approved a contract with Daniel De Pietro for building a pipe sewer in Mallon road, Dorchester. Bids on this work, opened December 6, were as follows:

Daniel De Pietro, \$782.92; William J. Rafferty & Co., \$956.30; George J. Regan, \$962.70; John E. Gill, \$979.36; D. M. Biggs & Co., \$1,021.85; John McCourt & Co., \$1,121.02; R. Cartullo, \$1,405.03.

Estimated quantities:

One cubic yard earth excavation below grade; 1 cubic yard earth excavation above grade; 25 cubic yards rock; 1 cubic yard gravel; 100 feet B. M. spruce lumber for sheeting; 582 linear feet 10-inch pipe sewer; 1 Y placed; 1 cubic yard concrete; 4 manholes; 1 cubic yard brick masonry.

Discount of 68 per cent on \$540 worth of pipe.

Engineer's estimate, \$1,128.35.

On December 12 the Mayor approved a contract with Luke D. Mullen for building a pipe sewer in Arbutus street, Dorchester. Bids on this work, opened December 5, were as follows:

Luke D. Mullen, \$744.97; George Regan, \$779.89; Murphy & Dolan, \$780.41; Daniel De Pietro, \$838.72; J. B. O'Rourke & Co., \$853.01; John McCourt & Co., \$1,125.62.

Estimated quantities:

Two cubic yards earth excavation

below grade; 2 cubic yards earth excavation above grade; 50 cubic yards rock; 2 cubic yards gravel; 1 M. feet B. M. spruce sheeting; 380 linear feet 8-inch pipe sewer; 14 linear feet existing sewer removed; 6 linear feet house drain relaid; 6 linear feet existing drain relaid other than house drain; 10 linear feet existing house drain relaid; 10 linear feet existing drain relaid other than house or catch-basin drain; 2 cubic yards concrete; 4 manholes.

Discount of 68 per cent on \$145 worth of pipe.

Engineer's estimate, \$821.50.

On December 14 the Mayor approved the sale of one old Worthington pump from the pumping station at Calf Pasture to the Power Equipment Company. Bids on this pump, opened December 5, were as follows:

Power Equipment Company, \$1,400; Roxbury Iron and Metal Company, \$901.50; Thomas Butler & Co., \$886; John Hallett, \$825; T. J. Kelly and Son, \$776; M. Perry, \$748; William S. Nolan, \$726; William H. Perry Company, \$655; James Young, \$531.

On December 15 the Mayor approved a contract with the Richard T. Green Company for repairing sludge dumping scow. Bids on this work, opened December 8, were as follows:

Richard T. Green Company, \$1,997; Richard F. Keough, Jr., \$3,125.

On December 15 the Mayor approved a contract with the West Roxbury Trap Rock Company for building pipe sewers and drains in Willow street, West Roxbury. Bids on this work, opened December 9, were as follows:

West Roxbury Trap Rock Company, \$3,754.80; Antony Cefalo, \$4,025.25.

Estimated quantities:

Fifty-five cubic yards earth excavation below grade; 10 cubic yards earth excavation above grade; 150 cubic yards rock; 60 cubic yards gravel; 10 M. feet B. M. spruce lumber for sheeting; 1 M. feet B. M. spruce lumber for platform; 800 linear feet 6-inch pipe underdrain; 450 linear feet 10-inch pipe sewer in Willow street; 452 linear feet 10-inch pipe sewer in Centre street; 350 linear feet 10-inch pipe sewer in Centre street; 195 linear feet 8-inch pipe sewer in Centre street; 78 linear feet 6-inch pipe chimneys; 20 linear feet existing drain relaid; one slant in manhole; 10 cubic yards concrete; eight manholes on sewer.

Discount of 60 per cent on \$1,600 worth of pipe.

Engineer's estimate, \$4,065.60.

CLAIMS.

On December 12 the Mayor approved the following awards made by the committee on claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

Peter Connolly, \$116.25, injuries received while in employ of Sewer Division.

William J. Coughlin, \$75, damage to team and stock of goods caused by collision with coal wagon of Fire Department.

John Holloran, \$27, injuries received while in employ of Sanitary Division.

John Maccario, \$50, injuries to his wife, Angelina, who was struck by a rope on boat at South Ferry.

Israel Barron, \$65, action to recover for damages to property at 88 Devon street caused by break in water main and overflow on Geneva avenue.

Winifred A. Finn, \$125, action to recover for personal injuries caused by pile of ashes left by city steam roller on Ruthven street.

Otto E. Zaugg, \$25, action to recover for damages to person and property caused by defective paving opposite 401 Charles street.

CONTRACTS AWARDED.

SUPPLY DEPARTMENT.

On December 12 the Mayor approved a contract with the W. P. Whittemore Company for furnishing oats, shorts and corn in the East Boston, Charlestown, city proper, Roxbury, Dorchester, West Roxbury and Brighton districts, and for furnishing hay and straw in the Roxbury, Dorchester and West Roxbury districts, for the month of December. Bids on these goods, opened November 30, were as follows:

Elizabeth W. P. Penhallow.....	75 00
Heirs or devisees of Helen S. Prince.....	50 00
	\$5,725 00

Estimated cost of sewer construction... \$11,601 00
Estimated cost of street construction... 1,500 00

\$13,101 00

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the superintendent have been approved by the Mayor:

Edmond O'Connell, Sanitary Division, 5½ days at \$2.25, \$12.38.
Michael Driscoll, Sanitary Division, 2½ days at \$2.25, \$5.63.
John Harkins, Sanitary Division, 5 days at \$2.25, \$11.25.
James Murtagh, Sanitary Division, 3 days at \$2.25, \$6.75.
James McGuinness, Sanitary Division, 6 days at \$2.25, \$13.50.
Michael C. O'Hare, Sanitary Division, 8 days at \$2.25, \$18.
William McGlynn, Sanitary Division, 6 days at \$2.25, \$13.50.
Charles McColgan, Sanitary Division, 14 days at \$2.25, \$31.50.
Buonaventura Raimondi, Sanitary Division, 4 days at \$2.25, \$9.
John D. Rollo, Sanitary Division, 5 days at \$2.25, \$11.25.
John Sullivan, Sanitary Division, 4 days at \$2.25, \$9.
David Pyne, Sanitary Division, 30 days at \$2.25, \$67.50.
William Waters, Sanitary Division, 23 days at \$2.25, \$51.75.
Patrick Craven, Sanitary Division, 22 days at \$2.25, \$49.50.
Frank J. Munster, Sanitary Division, 30 days at \$2.25, \$67.50.
Patrick Slaman, Sanitary Division, 2 days at \$2.25, \$4.50.
Thomas Stanton, Sanitary Division, 8 days at \$2.25, \$18.
John F. Curley, Sewer Division, 14 days at \$2.25, \$31.50.
James J. Cusick, Sewer Division, 5 days at \$2.25, \$11.25.
John Gallagher, Ferry Division, 1 day at \$2.83, \$2.83.

FREE MUNICIPAL CONCERTS.

The Music Department has arranged the following free municipal concerts for the week ending December 24:

DECEMBER 20, LOWELL SCHOOL, JAMAICA PLAIN.

Miss Victoria McNally, soprano; Mr. Frank H. Eaton, flutist.

PROGRAM.

Overture, "The Mill on the Cliff," Reissiger.
"Liebesgefluster," Andrie.
Aria from "Don Carlo," "O Fatal Dower," Verdi.
Mrs. McNally.
Selection from "Der Freischutz," Weber.
Solo for flute, "Grand Fantasia," Demersseman.
Song, "Irish Love Song," Lang.
Mrs. McNally.
March from "Scenes Pittoresques," Massenet.

Trio concert at Girls' Latin School, Wednesday evening, December 21, 1910.

DECEMBER 22, CHARLESTOWN HIGH SCHOOL, MONUMENT SQUARE.

Miss Ida McCarthy, soprano; Mr. Barthold Silberman, violinist.

PROGRAM.

Prelude to "Cavalleria Rusticana," Mascagni.
Andante from Quartet in F#, von Dittersdorf.
"Romanza" from "Cavalleria Rusticana," Mascagni.
Miss McCarthy.
Selection from "Carmen," Bizet.
Violin solo, "Legende," Wieniawski.
Mr. Silberman.
Song, "I Know a Lovely Garden," D'Harleat.
Miss McCarthy.
Hungarian dance in G Minor, Brahms.

An important feature of these concerts are lectures by Professor Louis C. Elson, who explains and interprets the program rendered.

Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

The wisdom of varying the general character of these concerts has been strongly urged upon the trustees during former years, with the result that arrangements have been made for giving a series of "trio" concerts at regular intervals in the different halls throughout the city. This new departure was inaugurated at the Dorchester High School last Thursday evening, with the following program:

PROGRAM.

"Moderato" from Trio in B Major, Rubenstein.
Vocal selections:
"There Sits a Bird on Every Tree," Foote.
"Wiegandied," Strauss.
"Love has Wings," Rogers.
Mrs. Rice.
Solo for pianoforte, "Fantasie Impromptu," Chopin.
"Elegia Scherzo" from Trio in D Minor, Arensky.
Solos for the violin:
"The Swan," Saint-Saens.
"Humoresque," Dvorak.
"Paroles du Cœur," Massart.
Vocal selections:
"The Nightingale has a Lyre of Gold," Whelpley.
"Morning Hymn," Henschel.
"Norwegian Love Song," Clough-Leigher.
Mrs. Rice.
"Allegro Moderato" from Trio in A Minor, Chaminade.
Soloists: Mrs. Cora Gooch Brooks, pianist; Mr. William Howard, violinist; Mr. Paul M. Brown, violoncellist; assisted by Mrs. Alice Bates Rice, Soprano.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight O'Clock.

1910.
Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.

March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

LAND-TAKING FOR SCHOOL PURPOSES.

The Mayor has approved a vote of the Board of Street Commissioners, taken after consultation with the Law Department and on its advice, assessing damages to the estate of Joseph Schiaffino, occasioned by a taking made for school-house purposes on Ashley and Blackinton streets, East Boston, in the sum of \$4,000.

PERMISSION TO SELL.

FIRE DEPARTMENT.

The Mayor has granted to the Fire Commissioner permission to sell old horses to an amount not exceeding \$500, the same to be in part payment for new horses.

APPOINTMENTS AND CONFIRMATIONS.

APPOINTMENT.

The following appointment has been made subject to confirmation by the Board of Civil Service Commissioners:
December 15, Salem D. Charles to be a Street Commissioner.

DON'TS—FOR TENEMENT DWELLERS.

The Tenement House Department of New York has issued a bulletin containing some excellent suggestions to flat dwellers, and request the co-operation of all persons in keeping buildings in a clean and sanitary condition. Observance of the following rules will create better, safer and healthier living conditions and save tenants much trouble and disturbance.

DON'T put anything on fire escapes, around the ladder leading to roof scuttle, or obstruct fire exits.

DON'T cover the ladder or stair openings in floors of fire escapes. Your lives and your children's depend on free egress in case of fire.

DON'T throw garbage, ashes or refuse out of windows, on roof or into the courts, shafts, yard, cellar, halls or other public parts of the building.

DON'T fail to keep floors, walls or surfaces around water-closets clean. Always flush bowls thoroughly.

DON'T leave damp rags, mops, wet papers or other disease-breeding articles under sinks or other plumbing fixtures, and keep the space under and around these fixtures dry and clean. Many diseases can be averted by cleanliness and by the absence of foul matter in and around living apartments.

DON'T place curtains or hangings over glass panels in doors or over transoms or windows in partitions. Windows and transoms are expressly provided for lighting and ventilating your rooms. By covering them over you defeat the purpose for which they are intended.

DON'T shut all windows—keep them partly open at the top and bottom to allow a current of air to reach your sleeping rooms in all seasons. Remember, light and ventilation mean health to you and yours.

DON'T deface the walls and woodwork in halls and rooms.

DON'T pour tea leaves, coffee grounds,

greasy water or any other matter which may stop up pipes, into sinks, wash tubs or stationary wash stands.

Please understand that your co-operation will directly benefit you and yours and will make your own homes desirable, comfortable and healthful.

If these "don'ts" are heeded by those to whom they are addressed, it will go far toward bringing about those conditions of health and comfort that the Tenement House Department was organized to further.

CITY OF BOSTON.

PROPOSALS FOR GALVANIZED WIRE RAILING.

The Board of Trustees of the Cemetery Department invite bids for galvanized wire railing at Mount Hope Cemetery, and giving bond of a surety company in \$1,000. Only bids made on forms obtained at their office, 76 City Hall, and signed by the bidder and there left before 2 p. m., Monday, December 19, 1910, with a certified check for \$500, payable to and to be the property of the city if the bid is not carried out, will then and there be publicly opened and read. Duplicate bids, without check, must also be delivered to the City Auditor before the time specified for opening of bids. The trustees reserve the right to reject any or all bids. The bid should be inclosed in an envelope, sealed, and marked "Bid for Railing at Mount Hope Cemetery."

CHARLES E. PHIPPS,
JACOB R. MORSE,
ALBERT W. HERSEY,
FREDERICK E. ATTEAUX,
JOHN J. MADDEN.
Cemetery Trustees.

(Dec. 17.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING ROOFS OF STABLES, SHEDS, ETC., SOUTH SANITARY YARD.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing the roofs of the stables, sheds, etc., at the south sanitary yard, Albany street, opposite Newton street, city proper, and giving bond therefor of a surety company, approved by the superintendent, in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Repairing Stables, Albany Street," and left at the said office of the Superintendent of Streets before 12 m. on Friday, December 23, 1910, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROUKEE,
Superintendent of Streets.
Boston, December 15, 1910. (Dec. 17)

READVERTISEMENT.

CITY OF BOSTON.

PROPOSALS FOR REPAIRING ROOFS OF STABLES, SHEDS, ETC., WEST SANITARY YARD.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing the roofs of the stables, sheds, etc., at the west sanitary yard, North Grove street, city proper, and giving bond therefor of a surety company, approved by the superintendent, in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Repairing Stables, North Grove Street," and left at the said office of the Superintendent of Streets before 12 m. on Friday, December 23, 1910, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LOUIS K. ROUKEE,
Superintendent of Streets.
Boston, December 15, 1910. (Dec. 17.)

FINANCE COMMISSION.

BOSTON, December 7, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—In a communication from the Mayor to the Finance Commission, dated October 11, 1910, his Honor asked the commission to consider whether it would be advisable for the City Council to accept chapter 527 of the Acts of 1910, which, if accepted, requires the Massachusetts Highway Commission to "lay out, take charge of and construct as a state highway Washington street in that part of the City of Boston called West Roxbury, from La Grange street to Metropolitan avenue, at a width of not less than 100 feet, except that the street may be of a different width for 150 feet, or thereabout, at that part where the said street connects with Metropolitan avenue, if the said commission shall so determine." The Finance Commission has considered the subject thus referred by the Mayor and submits its report herewith.

The subject requires the consideration of three main questions:

1. Is it necessary to construct a road 100 feet wide, of the boulevard type, with a space in the middle reserved for the exclusive use of the street railway as the act provides?

2. Would the construction of the road under the terms of chapter 527 of the Acts of 1910 place upon the City of Boston a greater burden than it ought to assume?

3. Can the city's financial interests be protected better and the needs of the district in question be served as well under another plan as under the Act of 1910?

I. THE QUESTION OF NECESSITY.

1. The demand for an improvement of Washington street, between La Grange street and Metropolitan avenue, is justified by existing conditions. The Finance Commission, with its engineer, Mr. Guy C. Emerson, made an examination of this portion of the street and concluded that it was too narrow to accommodate properly its team and pedestrian traffic, because a large portion of the street is occupied by a double track street railway. At some points there is not space enough to permit a vehicle to pass outside of the tracks. There are very steep grades, and for the greater portion there are no sidewalks.

2. The fact that the street from the Dedham line to La Grange street is 100 feet wide, from Forest Hills to Metropolitan avenue 60 feet wide, and in the intervening portion not exceeding 35 feet in any part, including the width of sidewalks, furnishes an additional reason for widening the intervening portion so as to make one thoroughfare from Forest Hills to Dedham of more nearly uniform width.

3. It does not seem necessary, however, that the street from Forest Hills to Dedham should be 100 feet wide throughout. Nor is it contemplated so far as the Finance Commission knows. The plan seems to have been to widen the street between the Dedham line and Metropolitan avenue, where the traffic is comparatively slight, and to leave at its present width that part of the street between Forest Hills and Metropolitan avenue where the traffic is much greater.

4. There was no need of constructing that part of the street from the Dedham line to La Grange street at a width of 100 feet. This is obvious to anyone familiar

with the locality and the amount of travel on this part of the street. The fact was recognized by the Highway Commission, as appears in the following extract from its report to the Legislature in January of the present year.

"When the commission made its report under the resolve of 1907, showing a width of one hundred feet for location and boulevard construction, it was not made because the commission thought that that form of construction was necessary, or that such a width would be required to accommodate travel, certainly for many years, but because it understood that the city of Boston desired that width and form of construction.

"The act of the Legislature requiring the building of the road provided in section 7 that this act should not take effect until it was accepted by the City Council of Boston; and the act was accepted by the City Council, thereby indicating that Boston's representatives desired and required a highway of that width and that form of construction."—*House Document 145.*

5. Nor is there any apparent need of boulevard construction at a width of 100 feet, with a reserved space for street cars, in that portion of the street now under consideration, that is, from La Grange street to Metropolitan avenue. The Highway Commission, in the report previously referred to, set forth certain reasons which may possibly be regarded as justifying such construction, but the Finance Commission believes that these reasons are not convincing. The Highway Commission say:

"It is self-evident that, as the extension which the commission is now required to report upon is nearer the city than the road already built, a boulevard form of construction, with a reservation for car tracks in the middle, is equally necessary over the extension; and that, if the highway were laid out as a single roadway, with no reservation in the center, it would not conform to the plan and cross-section of the highway already constructed."

As the Highway Commission say, it is as necessary to have a boulevard form of construction, with a reservation for car tracks in the middle, in the case of the extension as it was for the section already constructed; but apparently there was no actual necessity for such construction in either case. The first extract from the Highway Commission's report, quoted above, shows that they thought such construction unnecessary for the section between the Dedham line and La Grange street; and the following extracts from the same report seem to show conclusively that it is not necessary for the extension.

"A traffic census was taken by the commission this year upon all the state highways in the Commonwealth, including the state highway in Boston herein referred to. Actual count of the vehicles for one week in August showed a total of only 486 vehicles a day of all kinds over this road. Of this number 124 were automobiles and 362 were horse-drawn vehicles.

"A second count was made in October, for a week, which showed an even smaller number of vehicles per day, there being only 340 of all kinds, 229 of which were horse-drawn and 111 were automobiles.

"As compared with fully one-third of the state highways in the Commonwealth, in all the various counties, this number of vehicles per day is relatively small. It is only from one-half to one-third the number of vehicles that are accommodated in other places by state highways of ordi-

nary width, to wit: 15 feet of macadam with 3-foot gravel shoulders on each side, making a 21-foot roadway in all.

"While the territory in the vicinity of the proposed new highway will undoubtedly build up, being near Boston, the traffic returns certainly indicate that, so far as the present traffic is concerned, there is no necessity for the boulevard construction which the commission was required to lay out by the Act of 1907. It would also seem to indicate that there would be no necessity for such construction merely for the purpose of accommodating travel for many years to come.

"In presenting the estimate that is herein contained, the commission does not wish to be understood as recommending the construction of the highway, or as stating that, if the highway is to be constructed, a boulevard form of construction 100 feet wide is necessary; but it has drawn its plans and presents its estimates upon the assumption that the Legislature desires an estimate for a continuation of the same kind of construction as was required under the Act of 1907."

It is true that if the extension has no street railway reservation in the middle it will not conform to the plan of the section already constructed. This fact, however, ought not to be given a controlling influence. One error ought not to make another error necessary. The street railway company received benefits from the reservation as it diminished the chances of collision of its cars with other vehicles and with pedestrians, and thus saved the expenses of litigation and damages. But the City of Boston has received comparatively little benefit from the reservation, though it paid as its share of the entire cost of construction, including interest, \$85,414.09, and all of the land damages, amounting to \$39,468, a total of \$124,882.09, whereas the railway company, which was not legally liable under the Act of 1907 for any part of the cost of the section already built (and will not be liable under the Act of 1910 for any part of the cost of the extension), has paid only \$3,505, and that to the contractor in order to provide better ballast and finish for its reserved space than was being provided under his contract with the Highway Commission.

Moreover, the advantage of having the extension conform to the plan of the section already constructed seems to have been given more consideration than the city's financial interests. The city cannot afford to pay for what it does not need, and a 100-foot road is not needed, as has already been shown. The boulevard form of construction at the width of 100 feet must stop somewhere, and it would seem better to have it stopped at La Grange street than at Metropolitan avenue. No one familiar with the city's financial condition would seriously advocate extending it from Metropolitan avenue to Forest Hills, though there would be much greater reason for doing so than to provide for it between La Grange street and Metropolitan avenue.

Finally, the æsthetic gains from such construction do not justify the large loss of money involved. The plan of the Highway Commission is to begin to narrow Washington street at a point about 150 feet south of Metropolitan avenue so as to prevent an abrupt change of width from 100 feet to 60 feet at the junction of that avenue and Washington street. The same æsthetic effect can be produced by beginning to narrow Washington street at La Grange street, going north until a 60-foot width is reached.

In view of the foregoing considerations

the Finance Commission answers the first question in the negative.

II. DOES THE ACT PLACE TOO GREAT A BURDEN ON THE CITY?

1. The Act is a special one which does not give the city the benefit of the more liberal provisions of the general laws relating to state highways. Under the latter the county in which the road lies would pay one-fourth of the cost, and the state the remainder, for which the state would later be reimbursed through the state tax which it levies on all the cities and towns in the Commonwealth. Under such laws the City of Boston would pay one-fourth of the cost of construction of any state highway in Suffolk County (as it would pay the entire share of the county), and it would pay also 34.1 per cent of the remainder (its share of the state tax at the present rate), its total payments amounting to 50.57 per cent of the entire

cost of construction. The state would pay the land damages unless the City Council voted to authorize the Mayor, under the Revised Laws chapter 47, section 9, to indemnify the state from land damages and costs. But under the terms of the special act under consideration the city would have to pay for this section of the road (as in the case of the section already constructed under chapter 574 of the Acts of 1907) five-eighths of the cost of construction, which with its share of the state tax would amount to 75.28 per cent of the whole, and all of the land damages besides. In other words, the city would be charged about 50 per cent more for construction than under the general laws, besides bearing the entire cost of land damages estimated at \$52,000.

The cost under the special act, including land damages, as compared with the cost under the general laws, excluding land damages, is as follows:

	Under Special Act.	Under General Law.	Excess Charged to Boston Under Special Act.
Cost of construction.....	\$70,000 00	\$70,000 00	
Boston's share, including the state tax:			
Amount.....	52,701 00	35,402 50	\$17,298 50
Per cent.....	75 28	50 57	
Total cost of construction and land damages, \$122,000.			
Boston's share of total.....	104,701 00	35,402 50	69,298 50
State's share of total.....	17,299 00	86,597 50	
Percentage of total cost:			
Boston.....	85 8	29 02	
State.....	14 2	70 98	

2. The history of the state highway construction and the share of the cost which Boston has paid, or will ultimately pay, throws light on the question whether Boston should bear so large a portion as 85.8 per cent of the total cost of the proposed extension. Boston, under its obligation to pay the entire portion of Suffolk County, has been charged with about 52 per cent of the cost of the state highways in Chelsea and Revere. It has already paid \$40,500.21 for the .96 miles and .58 miles in Chelsea and Revere, respectively; and \$124,882.09, including land damages of \$39,468, for the 1.4 miles within its own limits; a total of \$165,382.30, for which it received less than a mile and a half of roadway.

Boston's expenditures for state highways in Suffolk County is insignificant, however, in comparison with its total expenditures and liability for state highways throughout the Commonwealth. In a table prepared by an expert accountant which, with an explanatory letter, is appended hereto, it appears that from 1893, when the State Highway Commission was established, to 1910, the state has issued bonds for state highways amounting to \$6,310,000, of which amount Boston was liable for \$2,270,771, or more than one-third of the whole. There are certain factors which may reduce its liability, as shown in the explanatory letter previously referred to, but it is believed that the figures are substantially accurate.

What has Boston received in return, beyond its share of the general benefit which results from improved roads throughout the state? It has received

1.4 miles of the 784.63 miles of state highways or less than one-fifth, of 1 per cent of the total mileage; it has paid under a special act, nearly the whole cost of the 1.4 miles within its limits; and it has paid or become chargeable with a liability of about two and a quarter millions, or more than one-third of the cost of all state highways for which the Commonwealth has issued bonds. A glance at the map appended hereto will show the great extent to which the state highway system has been developed outside of Boston and the comparatively slight expense of such development within the city's limits.

Some municipalities, or the residents therein, have paid part or all the cost of constructing certain state highways. The Highway Commission is unable to state the amount of these direct contributions. They have reduced the share of the cost of highways which Boston would otherwise have to bear, but have not reduced its liability on the bonds issued by the state. It is true that Boston should pay a just share of the cost of state highways, as the law was intended to provide roads in communities which could not afford expensive construction. In such cases, unless help were given by the state, the proper development of the general highway system would have been difficult, if not impossible. Yet, after making due allowance for these considerations, it is not just that Boston should pay over 85 per cent of the cost of the proposed state highway within its own limits.

In view of the foregoing considerations the Finance Commission answers the second question in the affirmative.

III. CAN A BETTER ALTERNATIVE BE PROVIDED?

In the opinion of the engineer of the Finance Commission, a copy of whose report is hereto annexed, the portion of the street between La Grange street and Metropolitan avenue would answer every practical demand if its width were increased to 60 feet. The street, between Forest Hills square and Ashland street, where the traffic is much greater than in the portion in question, is only 60 feet wide, yet it is adequate for all needs. In his opinion a 60-foot road between La Grange street and Metropolitan avenue will be ample for all needs for a long term of years. He states that the city has a 60-foot right of way for the portion of Washington street under consideration, and the street could be widened to 60 feet without requiring additional land-takings. An estimate of the cost of rebuilding to the width of 60 feet has been furnished the Finance Commission by the City Engineer's Department, a copy of which is hereto annexed, which shows a probable cost of \$47,500 for the work. If the city increased the width of the street to 60 feet at its own expense, it would cost \$57,201 less than if it proceeded under the special act.

There appears to be no sound reason, however, why the city should not successfully petition the Highway Commission to construct the extension at a width of 60 feet under the terms of the general highway acts. If the petition were granted, the cost to the city would be reduced to about \$24,023 or \$80,678, less than the cost under the special act under consideration. The cost to the state under this arrangement would be \$24,477, or only \$6,178 more than it would pay under the special act for the wider street. In this connection it should be noted that the Highway Commission in their report to the Legislature, dated January 8, 1907, consented on the fact that the Board of Aldermen of the City of Boston had never petitioned the Highway Commission for the laying out of a state road in the city. Since the date of that report the city has petitioned for the laying out of a highway from Columbia road to King square, Dorchester, but favorable action was not taken on the petition.

The Finance Commission therefore answers the third question in the affirmative.

The commission recommends:

1. That the City Council refuse to accept chapter 627 of the Acts of 1910.
2. That the city petition the Highway Commission to construct the extension at a width of 30 feet under the terms of the general highway acts.

Respectfully submitted,

THE FINANCE COMMISSION.

by JOHN A. SULLIVAN,
Chairman.

APPENDIX A.

November 14, 1910.

HON. JOHN A. SULLIVAN,

Chairman Boston Finance Commission.

DEAR SIR,—Pursuant to your request the following table is presented to cover the information desired by you as to bonds issued by the Commonwealth for state highways each year since 1893 (there being none during that year), the percentage of the state tax paid each year by the City of Boston, and the proportion of the bond issue of each year which is thus charged to the city:

CORRECTED TO DEC. 31, 1909.

G. F. ATKINSON & COMPANY, MAP PUBLISHERS, BOSTON

YEAR.	Bond Issue.	Percentage of State Tax Paid by City.	Amount Charged to City.
1894.....	\$300,000	36.575	\$109,725 00
1895.....	400,000	35.928	143,712 00
1896.....	600,000	35.928	215,568 00
1897.....	700,000	35.928	251,496 00
1898.....	300,000	35.778	107,334 00
1899.....	400,000	35.778	143,112 00
1900.....	400,000	35.778	143,112 00
1901.....	350,000	36.128	126,448 00
1902.....	375,000	36.128	135,480 00
1903.....	400,000	36.128	144,512 00
1904.....	300,000	36.005	108,015 00
1905.....	250,000	36.005	90,012 50
1906.....	300,000	36.005	108,015 00
1907.....	360,000	35.97	129,492 00
1908.....	495,000	35.97	178,051 50
1909.....	380,000	35.97	136,686 00
	\$6,310,000		\$2,270,771 00

Respectfully submitted,

EDWIN S. MORSE,
Public Accountant.

November 16, 1910.

HON. JOHN A. SULLIVAN,
Chairman Boston Finance Commission:

DEAR SIR,—In accordance with your request that I should look further into the subject of my report of the 14th instant in order to learn if there are any factors in the matter which might change the amount for which the City of Boston is liable, as shown by the above mentioned report, the following is submitted:

The State Treasurer informed me that the amount for which the City of Boston was liable each year and the total amount, as shown by my report is approximately correct, and any change therefrom would be made by several factors of which no accurate figures could be given.

At the office of the State Auditor I went into the matter at some length, and there learned that the following factors would have some influence on the amount which the city would actually pay:

1. Possible change in the proportion of the state tax paid by the city during the time covered until the bonds mature. This changes every three years, and the present year is 34.18, which would materially reduce the present liability.

2. Premiums on bonds sold would have some influence, but how much could not be estimated with any degree of accuracy.

3. Earnings of securities held in the sinking fund.

4. Possible, but not probable, income from some source which may be apportioned among the various sinking funds. For instance, a portion of the amount obtained by the state from the United States several years ago on war claims was thus divided.

The last three factors, and there may be some others, enter into the sinking fund and have more or less influence on the sinking fund requirements and the amount of the state tax.

If the words "charged to the city" in my former report should be changed to "for which the city was liable" the wording would be better, and from all

the information obtainable I am of the opinion that the figures are approximately correct as showing the original amount for which the city was liable.

The actual liability of the city on December 1, 1909, may be shown as follows:

Total amount of State Highway Bonds issued.....	\$6,310,000 00
Amount paid on State Highway Bonds.....	110,500 00
Amount outstanding, State Highways Bonds.....	\$6,199,500 00
Amount of Sinking Fund.....	1,698,892 72
Net liability December 1, 1909.....	\$4,500,607 28

Respectfully submitted,

EDWIN S. MORSE,
Public Accountant.

APPENDIX B.

STREET DEPARTMENT, CITY HALL,
BOSTON, November 19, 1910.HON. JOHN A. SULLIVAN,
Chairman Boston Finance Commission:

DEAR SIR,—In answer to your request of November 12, kindly note inclosed estimate of the Acting City Engineer of the cost of constructing Washington street, West Roxbury, between La Grange street and Metropolitan avenue.

Respectfully,

L. K. ROURKE,
Superintendent of Streets.

CITY OF BOSTON,

ENGINEERING DEPARTMENT.

50 CITY HALL, November 17, 1910.

MR. L. K. ROURKE,
Superintendent of Streets:

DEAR SIR,—In compliance with your request, dated November 14, 1910, the following preliminary estimate has been prepared:

Washington street, Ward 23, La Grange street to Metropolitan avenue, 60-foot street, length, 4,168 feet.

Grading, 6-inch macadam roadway,

flagging crosswalks, 3 feet granite block gutters, edgestones and crushed stone sidewalks:

8,400 cubic yards earth excavation, at \$0.50.....	\$4,200
2,300 cubic yards ledge excavation, at \$1.75.....	4,025
7,900 linear feet straight edgestones, at \$0.97.....	7,663
450 linear feet circular edgestones, at \$1.42.....	639
3,000 square yards granite block paving, at \$2.20.....	6,600
300 square yards flagging, at \$4.40.....	1,320
7,500 square yards macadam, at \$0.80.....	6,000
8,300 square yards crushed stone sidewalks, at \$0.60.....	4,980
1,700 linear feet wooden fence, at \$0.50.....	850
	\$36,277
Engineering and contingencies.....	3,723
	\$40,000
Rights to slope—about.....	7,500
	\$47,500

NOTE.—No land-takings will be necessary to construct a street 60 feet in width.

This estimate is for surface construction only, and does not include the cost of house sewers or surface drainage.

Yours truly,

F. A. McINNES,
Acting City Engineer.

APPENDIX C.

BOSTON, November 25, 1910.

HON. JOHN A. SULLIVAN,
Chairman Boston Finance Commission:

DEAR SIR,—I return herewith the letter of his Honor Mayor Fitzgerald, dated October 11, in which he asks the commission to consider the advisability of the City Council accepting the provision of chapter 527 of the Acts of 1910, under which the Highway Commission is directed to lay out and construct the portion of Washington street in West Roxbury, from La Grange street to Metropolitan avenue, a distance of 4,168 feet.

As you are aware, Washington street furnishes the direct route through the West Roxbury district from Providence, and the towns lying between Providence and Boston, to Boston. The portion of this street lying between Forest Hills and Ashland street is also the main artery for traffic between the City of Boston proper and the various West Roxbury districts. The Acts of 1907, chapter 574, provided for the reconstruction of the street by the Massachusetts Highway Commission between the Dedham line and La Grange street, a distance of approximately 7,381 feet, at a cost of \$165,000, under the same conditions as are specified for the portion under consideration, which forms an extension of that portion already built toward Boston.

Washington street bears toward the West Roxbury district almost exactly the same relation that did Blue Hill avenue toward the Dorchester district at the time it was constructed as a boulevard. The traffic is of a similar character, being for the portion beyond Ashland street very largely of pleasure vehicles. Between Metropolitan avenue and La Grange street the street is very narrow, has two car tracks, and is dangerous from the fact that there is not sufficient room for teaming traffic between the sides of the street and the car tracks. It has very steep grades and for the greater portion of the distance no sidewalks. There is no doubt that this street should be constructed with greater width of roadway and sidewalks whenever funds for the purpose are available.

The general width of the portion of Washington street under consideration,

between Metropolitan avenue and La Grange street, seems to be approximately thirty-five feet, including sidewalks, where located. The street is irregular, however, on account of the fact that there are no curbstones, and fences for only a small portion.

The portion between Metropolitan avenue and Cornell street has a roadway for vehicles of approximately twenty-nine feet, including car tracks, with a sidewalk on the westerly side six feet in width. The car tracks are on the easterly side of the street, leaving a space of about three feet wide between the outside track and the easterly fence.

Between Cornell street and the private way known as Cottage avenue, near the car stables, the tracks are in the center of the street, with two 10-foot macadam roadways, a total width of 35 feet. There are no sidewalks in this portion. Between Cottage avenue and La Grange street the tracks are on the westerly side of the street, with a 13-foot macadam roadway on the easterly side and no sidewalks.

The ultimate development of the West Roxbury district will undoubtedly require, both on account of the needs of traffic and from an æsthetic standpoint, a much wider street than the present one between Forest Hills square and the Dedham line. The portion of Washington street between Forest Hills square and Metropolitan avenue at the present time has a width of roadway of 40 feet and sidewalks of 10 feet, making a total width of 60 feet. The portion of the street between Forest Hills square and Dudley street also has about the same average measurements, although the street is also somewhat obstructed by the posts of the Boston Elevated structure in places.

The present 60-foot roadway between Forest Hills square and Ashland street is ample for all present needs, although this portion of the street carries a much larger traffic than the portion under consideration for widening, as the greater portion of the traffic going to West Roxbury leaves Washington street at Ashland street.

It is evident from the reports of the Massachusetts Highway Commission that they do not consider boulevard construction necessary. They state in their report of January 11, 1910, printed as House Document No. 145, that the commission does not wish to be understood as recommending the construction of the highway, or as stating that if the highway is to be constructed, boulevard form of construction 100 feet wide is necessary.

The commission also gives statistics of the traffic on the street for one week in August and one week in October, showing for the week in August a total of 486 vehicles of all kinds per day, 124 being automobiles and 362 horse-drawn vehicles. For the week in October 340 vehicles of all kinds per day, 229 of which were horse-drawn and 111 automobiles.

The commission also calls attention to the fact that in other places state highways with a 21-foot roadway accommodate a much greater number of vehicles. The above statements of the Highway Commission are important as indicating actual conditions, but they are not exactly fair, as they evidently did not take into consideration the street car traffic, which is considerable at the present time and likely to have a great increase, especially in the summer season, as the territory in the neighborhood of Washington street develops for building purposes and the reservation of the Metropolitan Park Commission, near La Grange street, becomes more fully utilized.

In my opinion, however, boulevard construction is not necessary for the demands

of traffic at the present time, and a street of similar dimensions to the portion between Forest Hills square and Metropolitan avenue will be ample for all needs for a long term of years. Whenever boulevard construction becomes necessary, in my opinion it should begin at Forest Hills square and be extended south, rather than at La Grange street and extended north. At the present time the city has a 60-foot right of way for the entire length of the part of Washington street under consideration, and the estimate received from the Acting City Engineer shows that the portion between Metropolitan avenue and La Grange street could be constructed with a 40-foot roadway and 10-foot sidewalks for approximately \$47,500, including land damages. This estimate is for surface construction only. In addition thereto a sum estimated as \$53,400 will be necessary for the construction of sewers and storm drains, making a total immediate cost for the street of \$100,900. As regards the expense for the sewers, however, \$19,550 is estimated on account of an outlet for the surface drainage of the street, and this portion of the cost should not be entirely charged to Washington street, as it will be of use and be necessary for the ultimate development of other streets lying between Washington street and the outlet. The cost of sewers will be practically the same, whether the street is constructed as a 60-foot street or as a boulevard 100 feet wide.

The proposal to develop Washington street, in accordance with the provisions of the special act, at a cost to Boston of about \$104,500, places a much larger portion of the cost on the City of Boston than would construction under the general highway act, under the provisions of which Boston would pay approximately 52 per cent of the cost, including the share for Suffolk County. As Boston pays, through its state tax, a very large percentage of the cost of state highways beyond its territorial limits, it does not seem fair that it should be discriminated against in regard to the construction of the proposed state highway within its territorial limits.

In my opinion, the future needs of the City of Boston for a long term of years will be provided for by the construction of Washington street as a 60-foot street with a 40-foot roadway, although it might be advisable to increase the width of the roadway to, say, 45 feet by narrowing the sidewalks somewhat. Efforts should be made to have this roadway constructed in accordance with the provisions of the general Metropolitan Highway Act, the cost to Boston for such construction being approximately \$24,700, exclusive of the cost of the sewerage works. Failing to obtain the construction by the state authorities, the street should be constructed by the Street Commissioners from their annual loan, in which case the cost would be approximately as estimated by the City Engineer, that is, \$47,500, exclusive of sewer construction. If the street should be constructed by the Street Commissioners from their annual loan it is doubtful if, under the existing conditions, any considerable amounts of betterments could be assessed.

Respectfully yours,
GUY C. EMERSON,
Consulting Engineer.

BOSTON, December 10, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—The Finance Commission submits herewith a report upon the

system under which the facts of births, marriages and deaths in the City of Boston are obtained, recorded and published.

The system is defective as two departments, the Registry and Health Departments are engaged in the work; one duplicates to a large extent the efforts of the other, and important parts of the work are badly done by both departments. By permitting a division between two departments of work which should be performed by one department, the city has suffered financial loss through unnecessary duplication, and the readers of the conflicting reports of the two departments have become hopelessly confused. The reports have been further diminished in value by long delay in publication. Thus, the reports of the Health and Registry Departments for the year 1908, though required by ordinance to be published before March 1, 1909, were delayed until March and May of 1910, respectively, the former having been overdue thirteen, the latter fifteen months; and the report of neither department for 1909 has yet been published though now more than nine months late.

It is the duty of the Health Department to receive the original returns of deaths. It is the duty of the Registry Department to obtain and record the facts as to births, marriages and deaths and to publish in its annual report a statement of the number thereof recorded during the previous year. But instead of publishing a mere statement of the number, as the city ordinance requires, the Registry Department regularly publishes elaborate statistics of all three classes of vital phenomena, though statistics of one class (deaths) are also regularly published by the Health Department.

The defects of a system which thus permits the duplication by the Registry Department of the mortality statistics published by the Health Department, and prevents the latter from taking full control of the work or receiving, recording, analyzing and publishing the facts as to births, marriages, and deaths, were called to the attention of the city government nearly two years ago by the former Finance Commission, and also by a special committee which was appointed by that commission to study certain questions relating to the public health. (Finance Commission Report, Vol. II., pp. 53-104, inclusive.) But beyond the promised elimination of the elaborate mortality tables in the Registry Department's report for 1909, nothing has been done to remedy such defects.

The committee referred to consisted of the late Charles Harrington, M. D., Secretary of the State Board of Health, John W. Bartol, M. D., John T. Bottomley, M. D., Mr. X. Henry Goodnough, Chief Engineer of the State Board of Health, and Mr. John Koren, statistician. In its report the committee commented as follows upon the work of the Health and Registry Departments with respect to mortality statistics.

In respect to vital statistics the local situation is anomalous from the point of view both of economy and efficiency. A double registration is made of deaths, one by the Board of Health and the other by the Registry Department. The statistical tale of deaths is twice-told, for it appears in the annual report of both departments; in both it is the same in substance if not in form. The sheer waste caused by such duplication is self-evident. The double registration is unnecessary; but the double presentation of mortality statistics is singularly confusing as well as expensive. (Finance Commission Report, Vol. II., p. 76.)

Another expert recently employed by the present Finance Commission, Mr.

Frederick S. Crum, a statistician of the Prudential Insurance Company, has made similar comments on the defects of the system, and has also pointed out numerous discrepancies in the reports of these two departments.

In his report to the commission, dated August 29, 1910, a copy of which is hereto annexed, he points out the following discrepancies in the department reports for 1908, "as only a few of the many."

ITEMS.	Registry Department.	Health Department.
Total deaths	11,756	11,776
Increase over 1907	48	90
Estimated population, 1908	628,483	617,075
Crude death rate	18.70	19.08
Deaths, 1872-1908	(See pp. 242, 243)	Many differences (p. 4.)
Male deaths, 1908	6,198	6,214
Female deaths, 1908	5,558	5,562
White deaths, 1908	11,389	11,439
Colored deaths, 1908	307	337
Native-born deaths	7,687	7,641
Foreign-born deaths	3,633	* 4,135
Decedents of native parentage	3,944	* 2,573
Decedents of foreign parentage	7,012	* 6,189 or * 7,393
Deaths by months:		
January	1,058	1,048
February	977	977
March	1,007	1,072
April	1,064	1,045
May	1,018	1,072
June	789	799
July	965	962
August	1,058	1,051
September	943	954
October	914	915
November	858	861
December	1,015	1,020
Deaths from phthisis	1,130	1,094
Deaths from phthisis, laryngeal and general tuberculosis		
Pneumonia	1,617	1,299
Bronchitis	262	226
Cancer	556	628
Apoplexy and cerebral hemorrhage	588	557
Congenital debility, etc.	707	687
Violent deaths	781	787

* See Table 15.

In the tables of deaths from 1872 to 1908, inclusive, the two reports agree as to four and disagree as to the other thirty-three years.

Mr. Crum makes the following just comment on these figures:

"There are so many discrepancies in the mortality returns of Boston as published in the annual reports of the Health and Registry Departments that it is impossible for an impartial critic to accept either set of facts as representing the truth. Certainly, both reports are not accurate, and the differences are so numerous and various as to force one to conclude that both are inaccurate. The public must reach the same conclusion after paying twice for the printing of what should be the same statistics."

The Finance Commission believes that the present duties of the Registry Department with respect to the returns and publication of deaths could be transferred to the Health Department with great advantage to the public service. It is not enough to discontinue the publication of mortality statistics in the Registry Department's report. The reform should be carried farther so as to give the Health Department complete control of the return and registration of deaths as well as the publication of statistics; and the reform should not stop even there. The duties of the Registry Department in relation to births and marriages could with similar advantage be transferred to the Health Department. That department should have exclusive control of the reception, registration, and publication of the facts as to births, marriages and deaths, instead of being confined as at present to the publication of death statistics. The experts already referred to recommended the consolidation of these duties in the Health Department. Thus the special committee appointed by the former Finance Com-

mission recommended the creation of a division of vital statistics in the Board of Health, which "should be given all the duties relating to the registration of marriages, births and deaths now devolving upon the Registry Department." The recommendation was based upon the committee's belief that "the registration of vital statistics is the basis upon which the whole structure of sanitary science and practice must rest"; that "the death returns should be made to the Health Department, there to be recorded, tabulated and analyzed" because it is the department charged with the study of disease and the means of prevention; that "the registration of births should likewise be in the hands of the Health Department, because it is in touch with the physicians who make the returns, because it can check returns of births of infants by returns of deaths of infants, and because it is in position accurately to separate stillbirths from deaths"; that the registration of marriages should also be in the hands of the Health Department, as "marriages belong quite as much as births and deaths in a consideration of the movement of population, and in all our social problems a knowledge of this factor is demanded"; that these three factors "belong to the same group of vital phenomena and should not be considered apart"; and, finally, that "the experience of many important cities (such as New York, Rochester, Buffalo, Cincinnati, Providence, Atlanta, New Orleans and others) proves that the best results are obtained when marriages, births and deaths are registered by an official in the Health Department." (Finance Commission Report, Vol. II., pp. 74-76, inclusive.)

Similar conclusions have been reached by Mr. Crum, as shown in his report to the Finance Commission. He says:

"Since the returns of sickness cases and

of deaths yield the fundamental knowledge upon which intelligent health work must rest, it is inconceivable that a Health Department should simply turn them over to another department for compilation, analysis and eventual publication; and to charge two departments with the same functions is not only theoretically absurd, but results, as has been shown, in waste and errors. . . . There is no theoretical reason why statistics of births and marriages should not (also) be collected, classified and compiled under the direct supervision and control of the Health Department. A strong burden of proof rests upon anyone who thinks otherwise, for all the best practice places this function with the Health Department."

Efficiency, not economy, is the principal advantage of the changes herein suggested; but a saving sufficient to merit the careful consideration of the city government could be effected by abolishing the Registry Department and transferring its powers and duties to the Health Department. The work of the Registry Department has been largely increased by the present Registrar, not by the addition of statutory duties, but by the voluntary assumption of the duty of presenting vital statistics in a series of tables, many of which are needlessly elaborate and some of which are altogether useless. As a result, the total expenses of the department have increased in the last ten years from \$25,951.53 to \$34,584.11, and the pay roll from \$16,544.37 to \$22,353.72.

The saving which could be effected by the consolidation is shown in a report made to the Finance Commission, under date of November 8, 1910, by Mr. F. R. Carnegie Steele, an expert employed by the commission to examine the organization and methods of the Registry Department. He states that the methods of the department involve unnecessary work, that more employees are retained than are needed, and that the abolition of the department and transfer of its duties would save the city \$15,000 a year. The saving which the elimination of mortality statistics in the report for 1909 should have effected has not been made, as the department's force has been reduced by only one clerk in the past year, and that by voluntary resignation. He calls particular attention to the wasteful method of copying entries over and over again in the various stages of the department's work, and also to the fact that the Health Department has recently installed a mechanical tabulating system (the equipment consisting of a hand-punch, an automatic card-sorting machine and an automatic tabulating machine), by means of which vital statistics are classified and computed with "remarkable rapidity and simplicity and absolute accuracy." He, like the other experts, recommends the transfer of the department's duties to other departments.

The commission believes that the defects of the existing system can be overcome, that the public will be better served, and that a needless waste of the city's money can be stopped by abolishing the Registry Department and transferring its powers and duties to the Health Department. The future reports of the Health Department should be free from such defects as have appeared in the reports of the Registry and Health Departments, and from which, as Mr. Crum states, "The general public, at whose expense both reports are published, can derive only one lasting impression . . . namely, that they typify needless municipal waste."

The commission concurs in his opinion

that "Boston faces a great opportunity to render a large service to the country by establishing a model bureau of vital statistics and even improving upon the best of existing patterns"; and trusts that the opportunity will be promptly embraced, for the importance of accurate vital statistics can hardly be exaggerated as they relate to the fundamental vital phenomena of society, namely, births, marriages and deaths. The careful record of all that pertains to such phenomena and their accurate measurements may be described as taking a survey of the community in respect to its growth, health and general well-being physically and, to some extent, morally. Statistics of births reveal not only an advance or retrogression in population, but the very elements of population, besides being a primary factor in the measurement of infant mortality and its prevention. Statistics of marriages are a necessary supplement to a thorough understanding of statistics of births, and when associated, as they should be, with statistics of divorce they illuminate the conditions of that institution upon which our whole social structure is built—the family.

There is, however, another important aspect of matters pertaining to vital statistics which should not be overlooked. The official indices and records of births, marriages and deaths are, as it were, the official "family records" of the citizens. They are important not only to genealogists, historians and conveyancers, but to all the people. Questions concerning the devolution of personal, as well as real property, the legitimacy of children, the enforcement of child labor laws, the disabilities of minors, the right of suffrage, the adjustment of insurance and pensions and numerous other relations of life depend upon these records for their solution. It is essential, therefore, that they should be kept with completeness and minute accuracy in regard to names and dates, that they should deal intelligently with the problems arising in connection with foreign names, that persistence should be shown in filling up existing gaps, and that they should be thoroughly indexed and readily accessible. Considerable technical skill is necessary to meet these requirements, but there is no reason why the Health Department cannot keep up and care for the official records in such a manner as to meet adequately all the important demands made upon these records for nonstatistical as well as for statistical purposes. Yet, in order to guard against a possible tendency to neglect those aspects of the records of births, marriages and deaths, other than medical, the ordinance transferring the work to the Health Department should duly emphasize and adequately provide for this aspect of the work.

The commission recommends:

1. That an ordinance be passed providing for the abolition of the Registry Department and the transfer to the Health Department of its powers and duties relating to births, marriages and deaths, including the work of completing the records prior to 1849; and also the duty of keeping certain records described in section 4 of chapter 314 of the Acts of 1894 and in sections 12 and 13 of chapter 35 of the Revised Laws.

2. That a division of records and statistics be created in the Health Department, and that the powers and duties transferred to the Health Department, as above recommended, be exercised through an official to be known as the Registrar of Records, who shall have direct charge of the division thus created.

3. That the ordinance be made to take effect upon the first Monday in February, 1911, and that all arrangements for the transfers be completed before that date.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

BOSTON, December 10, 1910.

To the Honorable the City Council:

GENTLEMEN,—There is now pending before your honorable body for acceptance or rejection an act authorizing the establishment of a retirement system for public employees, namely, chapter 619 of the Acts of 1910.

The Finance Commission respectfully submits the following reasons why the act should not be accepted:

1. The commission believes that the only retirement system which can be justified on grounds of economy is one which would relieve the city of the loss caused by the retention of day laborers who by reason of age have become so infirm as to be incapable of rendering in service a full equivalent for the wages they receive. There is no "effective provision, however, for the compulsory retirement of superannuated laborers now in the service of the city, and accordingly the act fails to accomplish the only object which would justify its acceptance." The claim that pensions based on prior service would be sufficient inducement to the older employees to join the association has no foundation in fact, as even the wages which the day laborers receive are more than three times as much as the amount of pension provided by the act.

The intimation which has been given by certain advocates of the act, that employees who declined to become members of the association would be coerced, is contrary to the spirit of the act. Moreover, such coercion cannot be effected because of the protection afforded employees in the classified service by chapter 314 of the Acts of 1909 and chapter 500 of the Acts of 1910.

2. In the opinion of the commission there is less reason for pensioning of clerks and salaried officials above the grade of clerks than there is for pensioning laborers. The present act would permit the pensioning of such highly paid officials as the Corporation Counsel, the Superintendent of Streets and the City Auditor, the first of whom receives \$9,000 and the two latter \$7,500 each per annum. It is highly improbable that such officials would retire in order to obtain the pension provided by the act, but there is no reason why a pension should be paid to them in the event of their being retired on compulsion. If the present act should take effect this year one of these officials could be retired immediately and another could be retired in 1914, as both would have completed thirty-five years of service, on these dates respectively. Either of these officials upon retirement under this provision would be able to engage in private occupations which would afford large salaries, and still draw a pension from the city.

3. A careful examination of the act shows that it is full of defects, which of themselves require its rejection. For example, its successful operation depends upon the establishment of a Board of Retirement, to whom the management of the system is intrusted. This board is to consist of three members, namely, the City Treasurer, one member chosen by

the association, and a third person chosen by the first two, or if they do not agree, by the Mayor. The second member is to be elected "within thirty days after the date when the retirement system is declared established," but apparently there will be no members legally qualified in the election at that time for the act does not provide a means by which the present employees of the city could become members of the association prior to the time at which the election would be held. Moreover, persons who enter the employment of the city after the retirement system is established cannot become members until the expiration of thirty days, and therefore cannot become members until thirty-one days after the system is established, or one day after the time when the election is required to be held.

There would, therefore, seem to be no association to choose the second member, and the third member could not be chosen until after the second member was chosen. It is possible that a court might regard the thirty-day limitation as directory and not mandatory but in that event there would be uncertainty and confusion, as to the date at which the election might legally be held. If on the other hand, the court held the provision to be mandatory no board of retirement could be chosen, and the act would therefore become absolutely worthless.

This defect is admitted by the advocates of the act. Thus Professor Baldwin, at the recent conference at City Hall, said:

"That matter was taken under consideration by the committee. There appears to be a real inconsistency in the act at that point. Either the time for qualification or disqualification under the act must be shortened, or the time within which the meeting or organization must be held must be lengthened. It will be necessary to amend the act in that respect. That is an inconsistency which escaped the attention of the commission which sat for months on this measure, the Committee on Legal Affairs and the Committee on Ways and Means at the State House. It is one of those mistakes which frequently crop up in matters of this kind." (See *City Record* of December 10, 1910, page 902.)

4. There are grave dangers in the provisions as to the membership of the Board of Retirement. It is given absolute power, without right of appeal, to fix percentages from 1 per cent to 5 per cent, to establish different classes of annuitants and pensioners and to retire or refuse to retire employees without regard to the wishes of the heads of departments. It will become a part of the employment system of the city. No such power over the city employees should be given to an outside tribunal. Its effect upon the service would be demoralizing. But if given, the Board should be composed of men beyond the reach of political influences. Under the provisions of this act such men are not likely to be secured.

5. In section 1, paragraph (f), the following language is used: "The words 'continuous service' mean uninterrupted employment, with this exception—a lay-off on account of illness, or reduction of force; and a leave of absence, suspension or dismissal followed by reinstatement within a year, shall not be considered as breaking the continuity of service." Although the wording is so clumsy that its interpretation is uncertain, much as in the famous "semicolon" case, it is probable that (as in that case) the words

"followed by reinstatement within one year" would be held not to modify the sentence prior to the semicolon,—in other words, not to apply to employees who are laid off on account of illness or reduction of force. In that case there is no provision as to the length of time of the lay-off, which might be for many years or for several long periods at different times. The existing provision therefore might give rise to controversies and expensive litigation.

Again, an employee discharged for misconduct or insubordination does not lose his right to a pension if he is reinstated within a year. One discharged for such cause should not be reinstated at all. This provision would operate to the city's detriment. The sentimental considerations arising out of the employee's previous service and payments to the retirement fund, reinforced by political influence, would make it difficult to discharge an offending employee in the first instance — or, if discharged, to refuse him reinstatement within the year. It would make the claim of the incompetent or insubordinate employee to continue in the service even more like a vested right than it now is,—the exact opposite of the effect a well-drawn Pension Act should have.

6. Section 6 (2) (B) omits to make provision for the payment of an annuity to a member who has served fifteen years and has reached the age of sixty, and has been retired by the Board, though those who retire voluntarily are provided for. Although the person so retired against his will would be entitled under section 6 (2) (A) to the return of his deposits with regular interest, he would not be entitled to an annuity, nor to a pension based upon subsequent service, as a succeeding paragraph — (C) (a) — makes the right to such pension depend on the right to an annuity.

This was perhaps intended to secure automatic retirement at sixty by putting a premium on such retirements when voluntary. But many employees reaching sixty, and presumably no longer worth a full day's pay, will prefer that pay to the annuity and pension which they would secure by voluntary retirement, and since there is no provision for notice to them before they are involuntarily retired, many will either be improperly kept upon the pay roll, or else, in ignorance of the act and for no fault of theirs, will be liable to forfeit both annuity and pension.

7. There are several violations of the principle of equal contribution by the city and the retirement association. Instead of requiring substantially equal contributions as the public has been given to understand the act provides, the city must pay the entire expense of the administration of the system, which is estimated at \$25,000 a year. The city is also required to contribute an amount equal to the surplus from annuity deposits, and if there should be a deficiency, instead of a surplus, to make up such deficiency. Again, if any portion of the money appropriated by the city for the expense of administering the system is not used for such purposes, it shall be carried to the contingent fund and, if the Board so votes, thence transferred to any other fund provided by the act. Thus it may be used for the benefit of the association. If the City Treasurer's estimate of the amount needed for administration expenses is excessive, the city should be repaid the unused portion. The association should not receive the benefit of the treasurer's mistake at the expense of the city.

8. Some of these defects are admitted by the advocates of the act but they urge that no harm will follow the acceptance of the act by the City Council and later by the voters at the election, as its defects can be remedied by amendment in the next Legislature. This is a singular proposition to advance to a City Council which, under the terms of the act, is authorized to reject it for any reason which in its judgment requires such action. It was not intended by the Legislature that the City Council should accept the act if they thought it an imperfect or dangerous one, then pass it on to the people, and then, if adopted by the people, have it passed on to the Legislature to remedy its defects. If the act is accepted by the Council in the hope that after its adoption by the people the Legislature will remedy its defects, the Council may not get an opportunity to pass upon the act again. Moreover, the Legislature might not make the required amendments. At all events, the people of the city should not be compelled to bear the financial and other burdens of two elections on the same measure. Above all, the peoples' representatives should not submit as stamped with their approval a measure which they know to be defective even though they hope to see the defects remedied later. Any representative who does so would be open to the accusation of having deceived his constituents. Honesty to the public would require that in such a case the question to be placed upon the ballot should read as follows:

"Shall an act passed by the general court in the year 1910, entitled 'An Act authorizing the cities and towns of the Commonwealth to establish retirement systems for their employees,' be accepted with the understanding that it is now fatally defective in several particulars but may or may not be improved by subsequent legislation?"

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

PROVIDING LUNCHES FOR SCHOOL CHILDREN.

At a recent meeting of the London Education Committee a special report was presented, calling attention to the present system of supplying meals to necessitous children which is now in force in both Council and nonprovided schools.

Five methods of supplying the meals are now adopted: (1) Buildings are hired by the Council, or lent free of charge, for use as dining centers, and food is supplied ready cooked by caterers; (2) children attend coffee houses; (3) food is supplied by the cookery centers of the Council, and in some cases is consumed at the cookery centers, and in other sent to dining centers; (4) children attend dining centers, where the food is cooked on the premises; (5) school halls are used as dining centers, the food being supplied by caterers.

The first and third methods are regarded as satisfactory, but the coffee house system is not recommended, and as far as possible is to be discontinued. Difficulties have arisen in connection with the fourth, and in regard to the fifth the committee is in favor of the more extended use of school halls as dining centers.

It is proposed to employ supervisors where voluntary help is not available, and the services of assistant teachers, or retired teachers, are to be engaged in connection with the duties of these offices. It is estimated that the ultimate cost of the new scheme will be about \$16,100.

PROFESSOR BALDWIN'S REPLY TO RECOMMENDATIONS OF FINANCE COMMISSION.

BOSTON, December 13, 1910.

HON. JOHN A. SULLIVAN,
*Chairman of the Finance Commission,
City of Boston:*

MY DEAR SIR,—My attention has been directed to the communication addressed by the Finance Commission to the City Council under date of December 10. As chairman of the Board of Trustees of the Statistics Department of the city and secretary of the State Commission on Old Age Pensions, which framed the original draft of the act now under consideration, I have a twofold interest in this measure, and I venture accordingly to offer some comments on the reasons given by the Finance Commission for urging upon the City Council the rejection of the act.

1. The first objection set forth in this communication is that the act makes no effective provision for the compulsory retirement of superannuated laborers now in the service of the city, and accordingly fails to accomplish the only object which would justify its acceptance. Permit me to point out that provision for the retirement of inefficient veterans now in the service should not be the sole or main object of a properly constructed pension measure. The primary purpose should be to provide for the regular retirement of aged employees in the future. Provision for the worn-out employees in the service at the time the act goes into effect is secondary and incidental. The latter necessity arises from the neglect to adopt a retirement measure at an earlier date. If a retirement system that would gradually take care of the employees on a contributory basis in the future were adopted now, the superannuation problem would be solved in the course of time, even if the system made no provision whatever for worn-out employees now on the pay roll. That is why I term such provision secondary and incidental to the main object of instituting a plan that will provide systematically for the retirement of all employees in the future.

Now, the main object of a well organized retirement system would be effectively accomplished by the proposed measure. The secondary object would, in my judgment, be attained in the case of a majority of the old employees now on the pay roll through the offer of pensions for prior service. As I have elsewhere argued, it is highly improbable that any employee with a long period of prior service to his credit would throw away this gratuity by refusing to join the association. If, however, any employee took this extraordinary course, he could then be discharged from the service without compunction on the part of the authorities. Such person, by declining to avail himself of the benefits of the retirement system, would assume all responsibility for his plight.

The Finance Commission argues in reply: "The claim that pensions based on prior service would be sufficient inducement to the old employees to join the association has no foundation in fact, as even the wages which the day laborers receive are more than three times as much as the amount of pension provided by the act." The amount of pension is here referred to as though it were a fixed sum, but, in fact, the amount would vary widely according to the rate of contribution fixed by the Board of Retirement, the rate of wages of the employee and his

period of service. It seems to me that for an aged employee who, at the longest, could count upon only a few additional years of service, the prospect of an annual gratuity of at least \$200 would be an exceedingly strong inducement to "take a chance" under the act. I should be interested to have the Finance Commission explain how the case of the present veteran could be dealt with more effectively under any contributory system. Direct coercion would seem to be unconstitutional, and indirect coercion is condemned in the communication of the commission.

2. The commission holds that there is less reason for pensioning clerks and salaried officials above the grade of clerks than there is for pensioning laborers. It may be true that there is less reason for pensioning the former class, but it is also true that some provision for this class is an essential feature of an effective system of municipal pensions. The receipts of a good salary is not in itself a guarantee that an employee will make due provision for his old age. The commission neglects in this connection to note the important fact that the proposed measure contains a restriction with regard to the amount of salary that may be retained for pension purposes. It provides, namely, that employees receiving more than \$30 weekly shall not be assessed on the excess above that amount. This provision prevents a high salaried employee from piling up a large pension claim against the city. The maximum amount of allowance, including annuity and pension, that a \$9,000 man could obtain by thirty-five years of service would be slightly more than \$800. This restriction deprives the objection in question of much of its force.

3. The commission declares: "A careful examination of the act shows that it is full of defects which of themselves require its rejection." The only example cited in support of this sweeping assertion is the wording of the provisions relating to the organization of the Retirement Association. As employees are given sixty days within which to signify their intentions regarding participation in the plan, and as the meeting for the election of the member of the Board of Retirement is to be held within thirty days after the establishment of the system, the commission concludes that the act does not provide a means by which the present employees could become members of the association prior to the time at which the election would be held; and further, that if the court held the thirty days' limitation to be mandatory, no Board of Retirement could be chosen and the act would therefore become absolutely worthless. At the recent monthly conference, I expressed the opinion that these provisions should be amended; but even as they stand, they do not prevent the formation of the Retirement Board. The provision for the election of the second member of the Board reads:

"The second member shall be a member of the Association elected by the latter within thirty days after the date when the retirement system is declared established . . . in a manner to be determined by the local election commissioners or the officers corresponding thereto."

The Election Commissioners could, under this provision, fix the date for the first meeting of the association and send notices to the employees informing them that those who became members before that date, by giving notice to the commissioners of their desire to do so, could vote for a member of the Board. Such procedure would be entirely legal under

the act. The alleged defect has been magnified unduly into an insuperable barrier to the organization of the Retirement Board, whereas it is simply a minor imperfection easily remediable by amendment.

4. The commission finds "grave dangers" in the provisions relating to the Board of Retirement. It is disturbed because the Board is given power, without right of appeal, to fix percentages, to establish classes of employees and to retire or refuse to retire "without regard to the wishes of the heads of departments." The commission holds that no such power over the city employees should be given to an "outside tribunal." It is inconceivable that the Board would exercise its powers without regard to the wishes of the heads of departments. It seems, moreover, a curious characterization to term a Board made up of the City Treasurer, an employee elected by the Retirement Association and another chosen by these two or appointed by the Mayor an "outside tribunal." The argument of the commission on this point impresses one as far-fetched and fanciful—trumped up for bogey purposes.

5. The wording of the definition "continuous service" in the act is termed "so clumsy that its interpretation is uncertain." To any layman understanding the rudiments of punctuation the meaning is perfectly clear. It requires a peculiarly perverted legal mind to read into it any other meaning than the one obviously intended. In this connection the point is made that an employee discharged for misconduct or insubordination does not lose his right to a pension if he is reinstated within a year, and that the sentimental considerations arising out of the employee's previous service and payments to the Retirement Fund, reinforced by political influence, would make it difficult to discharge an offending employee, or, if discharged, to refuse him reinstatement within a year. Apparently the commission has failed to note the clause providing that the contributions of employees leaving the service before becoming entitled to a pension shall be refunded. All the money paid in by an employee discharged for misconduct would be paid back to him and his account with the Retirement Fund would be closed. Even if reinstated within a year he would have lost once for all the claim to annuity and pension on his previous service. Reinstatement would simply enable him to count the prior years toward the fifteen years' service period required for retirement at sixty. Under the conditions, pressure for reinstatement could hardly be appreciably greater under the operation of the act than it is at present.

6. It is maintained that the act makes no provision for the payment of an annuity and pension to a member who has served fifteen years and has reached the age of sixty and has been retired by the Board, though those who retire voluntarily are thus provided for. The clause in question reads: "Every member who reaches the age of sixty years and has been in the continuous service of the city or town for fifteen years immediately preceding, and then or thereafter retires . . . shall receive an annuity . . ." There can be little doubt that the word "retires" would be held by the courts to cover the case of a person retiring by vote of the Board as well as of one retiring of his own volition. The opinion of eminent counsel has been obtained to this effect. The narrow interpretation placed upon the clause by the commission is strained to the point of quibbling. If necessary,

however, the words "or is retired" could be inserted after "retires." These words are, in fact, found in the original draft of the act as it came from the Old Age Pension Commission. In some way they were dropped out in the passage of the bill through the Legislature.

7. The commission finds several violations of the principle of equal contribution by the city and the Retirement Association. In the first place, the city must pay the entire expense of the administration of the system. This is true. It was held by the Old Age Pension Commission and by committees of the Legislature to be right and fair that the city should bear the expenses of administration. There is nothing absolutely inviolable and unalterable about the principle of equal contributions. Again, the city is required to contribute an amount equal to the surplus from annuity deposits, and if there should be a deficit instead of a surplus, to make up such deficiency. Instead of being a violation of the principle of equal contributions this provision is based squarely on that principle. The Finance Commission seems to have misunderstood its import. Conference with an actuary would doubtless clear up the confusion. Finally, the commission objects to the provision that if any portion of the money appropriated by the city for the expense of administering the system is not used for such purpose it shall be carried to the Contingent Fund and, if the Board so votes, thence transferred to any other fund provided by the act. The provision regarding transfer of such unused surplus to any other fund is not mandatory. The Board might hold the same for future expenses or might use it for pension payments at its discretion. It is hard to see anything dangerous or highly objectionable in this permissive provision.

8. The act is characterized in the final paragraph of the communication as "fatally defective in several particulars." This is a wild exaggeration. The act was carefully drawn. It has been passed upon by actuarial and legal experts and is entirely workable without amendment. Any changes that may reasonably be called for are of minor importance. It is not necessary to hold up the acceptance of the act until the Legislature can attend to these trifling details.

I have given more attention to the objections raised by the Finance Commission than their intrinsic importance deserves. They are overdrawn to the last degree. The report shows evidence of extreme prejudice at every turn. Instead of giving the project open-minded consideration and candid criticism, the Finance Commission has raked it for flaws with a fine-tooth comb. Were it not for the source from which the objections come they might well be ignored or dismissed with the contemptuous treatment appropriate to their captious character. The spectacle of a body created to safeguard the financial interests of the city sandbagging in this fashion a measure that would do more than any other now before the public to promote economy and efficiency in the municipal service is peculiarly edifying. The whole performance has an unsavory suggestion of partisan pettifoggery.

Very respectfully,

F. SPENCER BALDWIN.

LIGHTING PHILADELPHIA'S STREETS.

It costs a million and a third a year to light the streets of Philadelphia, and the chief of the electric bureau of that city favors the establishment of a municipal plant.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 12, 1910.

Regular meeting of the City Council, held in the City Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Curley and Hale.

The Council voted, on motion of Coun. BRAND, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514 of the Acts of 1894, viz.:

Thirty-five traverse jurors, Superior Civil Court, First Session, to appear January 2, 1911.

Henry Gray, Ward 19; Eric W. Johnson, Ward 1; Thomas J. Terrell, Ward 1; Ernst A. Giesser, Ward 16; William J. Buckner, Ward 16; Michael Butler, Ward 2; George H. Martin, Ward 16; John McNeice, Ward 5; Michael J. Cotter, Ward 22; Solomon Levy, Ward 16; Amos B. M. Kingsley, Ward 21; Frank A. Winterson, Ward 25; William P. Ferguson, Ward 15; Daniel J. Tobin, Ward 15; James A. Stewart, Ward 15; Raymond M. Crosby, Ward 11; Joseph E. Burke, Ward 16; Jacob Holt, Ward 23; Charles A. Adams, Ward 24; Jeremiah J. Walsh, Ward 19; Wilford H. Cushing, Ward 8; Oscar R. Burkett, Ward 17; Edward F. Waldron, Ward 15; Edward Howard, Ward 9; William W. Nickerson, Ward 14; George Penhorn, Ward 22; Michael A. Driscoll, Ward 1; William J. Thompson, Ward 20; James L. Cook, Ward 24; George H. Gibby, Ward 1; Patrick Murphy, Ward 25; Albert C. Haley, Ward 13; Simon J. Gerroir, Ward 15; John S. Bradbury, Ward 16; Adam Schneider, Ward 7; Edward P. McFarland, Ward 19; William O. Taylor, Ward 11; Frank W. Brown, Ward 8; Frederick C. Dawson, Ward 21; George A. Mitten, Ward 16; Thomas W. Little, Ward 5; Louis Gordon, Ward 9; John Higgins, Jr., Ward 5; John McGaffigan, Ward 6; William H. Carroll, Ward 21; John V. Ronan, Ward 24; Henry Burnett, Ward 1; Patrick Edmond Fogarty, Ward 19; Louis Pinansky, Ward 16; David Hannigan, Ward 13; Randall Good-nough, Ward 23; William J. Martin, Ward 2; Charles R. Young, Ward 24; David H. Posner, Ward 6; John Scannell, Ward 15; William G. Steele, Ward 21; John J. Broderick, Ward 23; George W. D'Arcy, Ward 24; John A. Mullin, Ward 24; Otto J. Hildebrandt, Ward 15; Eugene H. Buckley, Ward 20; John A. Kennedy, Ward 22; George Perlstein, Ward 9; James Roche, Ward 5; George S. Eiffer, Ward 16; Harry W. Moore, Ward 8; Edward J. Dowling, Ward 17; George A. Haley, Ward 9; Patrick H. Reilly, Ward 2; John A. Holland, Ward 21.

Thirty-five traverse jurors, Superior Civil Court, Third Session, to appear January 2, 1911.

William J. Killion, Ward 21; Hugh B. Clancy, Ward 23; Michael C. A. Guiney, Ward 5; Fred G. Fish, Ward 23; James Meade, Ward 3; Bernard Dorey, Ward 24; Charles F. W. Oedel, Ward 23; George W. Vaillant, Ward 11; George C. Powers, Ward 16; Richard H. Rogers, Ward 24; Charles S. Barker, Ward 24; William H. Robinson, Ward 7; Patrick J. Callan, Ward 18; Thomas J. Mc Morrow, Ward 22; Thomas F. Kean, Ward 24; Walter H. Sanderson, Ward 14; John W. Saladine, Ward 20; William Adler, Ward 22; Arthur Hoyt, Ward 23; George W. B. Breed, Ward 17; James F. Walker, Ward 15; William Bennett, Ward 2; George A. Kelley, Ward 19; Horace F. Thompson, Ward 20; Richard S. Donlan, Ward 24; William Cookley, Ward 9; Patrick J. Ryan, Ward 15; George F. Myer, Ward 24; James V. Whidden, Ward 20; Max Simon, Ward 11; Henry G. Weiler, Ward 7; Patrick Wall, Jr., Ward 14; William G. Waterhouse, Ward 24; George W. Cobleigh, Ward 23; Charles E. Morris, Ward 24.

Thirty-five traverse jurors, Superior Civil Court, Fourth Session, to appear January 2, 1911.

Hyman Simon, Ward 6; Edward Wormser, Ward 10; John T. Hannon, Ward 20; Henry L. Wein, Ward 21; William White, Ward 22; Roswell D. Gerrish, Ward 14; Francis Phillips, Ward 11; Samuel R. Field, Ward 16; Willard Fernald, Ward 14; Mark Abrams, Ward 17; Clare P. Sibley, Ward 10; William A. Carrier, Ward 1; Lewis A. Belyea, Ward 24; Daniel F. Coleman, Ward 20; John Driscoll, Ward 24; William T. Tegan, Ward 11; Henry F. Coles, Ward 21; James G. Walsh, Ward 16; Adolph Gottesman, Ward 18; John H. Gavin, Ward 24; Edward Graham, Ward 7; Morrill A. Smith, Ward 11; Frank W. Dunn, Ward 25; Robert C. McDonald, Ward 21; Thomas Haddock, Ward 20; Thomas Boyd, Ward 2; Edward W. Ryan, Ward 20; John J. Garrity, Ward 4; Thomas H. Mitchell, Ward 23; Harlow B. Daly, Ward 24; James H. Robinson, Ward 18; Peter F. Tobin, Ward 3; Conrad G. Hampe, Ward 15; Harry E. Buckland, Ward 25; Nicolay C. Plett, Ward 22.

Thirty-five traverse jurors, Superior Civil Court, Fifth Session, to appear January 2, 1911.

Albert Stone, Jr., Ward 11; Louis E. Keenan, Ward 14; Anders G. H. Stenberg, Ward 24; James D. McGrady, Ward 19; Everett E. Pierce, Ward 19; Horatio L. Gould, Ward 3; Harold H. Fogg, Ward 24; Thomas F. Wall, Ward 2; Elmer E. Brown, Ward 10; George F. Mullen, Ward 23; Michael A. O'Leary, Ward 22; Daniel J. Moynihan, Jr., Ward 13; James H. Dowd, Ward 9; Louis

Ohrenberger, Ward 14; Thomas W. Brenn, Ward 19; Arthur F. Austin, Ward 25; Edmond L. Smith, Ward 18; Robert E. Sargent, Ward 24; Theodore A. Finn, Ward 3; Edwin M. Marden, Ward 1; James E. Young, Ward 17; Alton H. Sherman, Ward 25; Edwin D. Mead, Ward 11; Dwight R. McNeil, Ward 9; Pasquale Romano, Ward 6; Algernon H. Draper, Ward 24; George W. Mooney, Ward 3; Stephen C. Wells, Ward 1; Peter H. Galligan, Ward 14; James Walsh, Ward 14; Albert E. Barnes, Ward 4; Jacob J. Young, Ward 23; Michael D. Shea, Ward 15; G. Anton Hirschauer, Ward 22; George Vezina, Ward 19.

Thirty-five traverse jurors, Superior Civil Court, Sixth Session, to appear January 2, 1911.

George W. Pope, Ward 20; Lewis S. Hodgdon, Ward 19; Thomas McGovern, Ward 24; George A. Dean, Ward 1; Willard H. Dresser, Ward 20; Perley P. Ray, Ward 20; Thomas Devine, Ward 16; James B. Perkins, Ward 9; William J. Rose, Ward 20; Peter Granara, Ward 6; William R. Morrissey, Ward 20; Harry Harris, Ward 25; Bernhard Nustedt, Ward 22; Thomas Curwen, Ward 19; Henry H. Berry, Ward 20; James T. Gallagher, Ward 20; Francis P. Keenan, Ward 3; John A. McGowan, Ward 18; George M. Hayden, Ward 25; Lawrence A. Fregeau, Ward 18; Joseph J. Griffin, Ward 18; William Boyd, Ward 20; Edward A. Williams, Ward 15; Frank P. Dacey, Ward 8; Thomas E. Havey, Ward 23; Joseph T. McGahie, Ward 1; Fred W. Bailey, Ward 11; Franz H. Kamp, Ward 22; William H. Sanders, Ward 9; Charles P. Renfrew, Ward 20; Martin E. Touhy, Ward 15; Arthur R. Johnson, Ward 23; Charles H. Pierce, Jr., Ward 9; Robert Peterson, Ward 2; John J. McCaffrey, Ward 16.

Thirty-five traverse jurors, Superior Civil Court, Seventh Session, to appear January 2, 1911.

George Williams, Ward 17; Harry B. Hammond, Ward 25; Haven J. Hillard, Ward 22; Henry P. Brady, Ward 23; John J. Holoham, Ward 21; Joseph Lichtenstein, Ward 21; Eugene R. Glass, Ward 20; Harry Spring, Ward 15; David J. Delany, Ward 24; Daniel Rooney, Ward 15; Thomas A. Quinn, Ward 20; William Thomas Cole, Ward 14; Daniel McDonald, Ward 20; George R. Clark, Ward 24; Thomas McLaughlin, Ward 17; Frank E. McDowell, Ward 24; Alvah H. Whitten, Ward 24; Samuel Gugenheimer, Ward 10; William F. Stewart, Ward 11; Michael Vaughan, Ward 17; James E. Pray, Ward 15; John P. Bagley, Ward 20; Joseph M. Mahoney, Ward 1; Thomas F. Finnegan, Ward 3; William H. Steadfast, Ward 2; Edward McIntosh, Ward 14; John B. Kelley, Ward 17; John H. Hickman, Ward 13; Gustaf Lindquist, Ward 2; Harry A. White, Ward 16; James J. Shaw, Ward 15; Matthew Cummings, Ward 24; Charles J. Morton, Ward 24; Oscar H. Borgette, Ward 20; George H. Rose, Ward 25.

LOAN FOR HOSPITAL BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1910.
To the City Council:

I beg to transmit for your information a letter from the president of the Board of Hospital Trustees, requesting a loan appropriation of two hundred ninety-seven thousand eight hundred dollars (\$297,800) for new buildings, changes and additions at the South Department. These buildings, as the letter states, will be constructed on the ground lately purchased from the Robert Treat Paine estate.

Respectfully,
JOHN F. FITZGERALD, Mayor.

The Boston City Hospital,
Boston, December 2, 1910.

Hon. John F. Fitzgerald,

Mayor of the City of Boston:

Dear Sir,—At a meeting of the Board of Trustees to-day the matter of an appropriation for the construction of buildings on the ground lately purchased from the Robert Treat Paine estate was considered.

The constant increase in the population of the City of Boston necessarily increases the number of infectious diseases. During the past three years the city has suffered so much from these vexatious diseases that the South Department has been overcrowded for a portion of each year. Its normal capacity is 250 patients, but the stress has been so great that at times this number has been increased to 400 to the detriment of the welfare of the patients. In addition to this the city has been obliged to board out a great many patients at the Haines Hospital and other institutions during the time mentioned, which is not only detrimental to the public health, but adds materially to the expense of caring for the patients over the cost to the hospital management within its sphere.

It is therefore of the utmost importance that adequate provision should be made for the treatment of this class of diseases and to properly take care of all applicants ill with diphtheria, scarlet fever and measles.

It is a source of satisfaction to the trustees that Boston was the first city to establish a separate hospital for infectious diseases. Your Honor may possibly remember that about three years ago, during your former administration, an appeal was made to you for a measles pavilion. You gener-

ously and with a full appreciation of the importance of this ward recommended the necessary sum for its erection. This Measles Pavilion has accomplished a great deal of good and has filled a long-felt want, for until its erection there was no place to send a patient ill with measles.

The trustees feel, therefore, that your Honor, as well as the honorable City Council, will recognize the importance of enlarging the accommodations at the South Department at the earliest possible moment. After carefully considering the matter and going over several plans that have been submitted for their inspection, the trustees most respectfully ask your Honor to recommend a loan appropriation of \$297,800 for new buildings, changes and additions at the South Department, approximated as follows:

Changes in East Pavilion.....	\$6,000
Changes in West Pavilion.....	6,000
Additional story to laundry building.....	14,800
New six-story ward building.....	196,000
Alterations to Paine buildings.....	33,000
Connecting corridors, pipes and tunnels.....	20,000
Yard wall.....	8,000
Contingent and administrative expenses.....	14,000
	<u>\$297,800</u>

The trustees, fully appreciating your Honor's great interest in the hospital and your co-operation for the welfare and alleviation of the sick, and especially for those unfortunately stricken with contagion, ask you kindly to recommend to the honorable Council the appropriation of the above mentioned sum.

I have the honor to remain, on behalf of the trustees,

Respectfully yours,
A. SHUMAN,
President Board of Trustees.
Referred to the Committee on Finance.

PETITION OF MRS. RYAN.

The following was received:

City of Boston,
Office of the Mayor, December 12, 1910.
To the City Council:

I beg to forward the inclosed communication from the Fire Commissioner, relating to the petition of Mrs. Margaret J. Ryan, widow of the late Chief Ryan, for a pension, with certain papers containing information necessary to the formation of a correct judgment in this case. Permit me to call your attention to section 3 of chapter 107 of the Acts of 1880, which provides that "for the purpose of carrying out the provisions of the foregoing sections the Fire Commissioner may, with the approval of the Mayor, expend such sums as may be specially appropriated therefor by the City Council for the relief of widows or children of members of the Fire Department who have been killed in the execution of their duty or have died from the effects of injuries received in the execution of their duty."

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Headquarters Fire Department,
December 7, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir,—I have the honor to forward for the consideration of the City Council the papers in the case of Mrs. Margaret J. Ryan, widow of the late Chief Ryan of this department.

Mrs. Ryan has applied to this office for a pension. I find upon investigation that previous to any action by this office all pensions to widows of firemen have been ordered first by the City Council.

Very respectfully,
CHARLES D. DALY,
Commissioner.

27 Bennett Street, Brighton.

Charles D. Daly, Esq.,

Fire Commissioner, City of Boston:

Dear Sir,—I wish to make application for a pension, as I believe the death of my husband, District Chief John F. Ryan, was caused by injuries received while in discharge of his duty.

Respectfully yours,
MARGARET J. RYAN.

September 26, 1910.

(Annexed were the various doctors' reports on the subject of injuries to the late District Chief Ryan.)

Referred to the Executive Committee.

WORK ON CHELSEA BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1910.

To the City Council:

I respectfully transmit the accompanying letter from Mr. Frederic H. Fay, assistant engineer, to Mr. Louis K. Rourke, Acting City Engineer, recommending that the sum of ten thousand dollars (\$10,000) be appropriated for preliminary work upon the proposed Chelsea North temporary bridge.

The accompanying order has my hearty approval and that of the Acting City Engineer.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Engineering Department,
December 5, 1910.

Mr. L. K. Rourke,
Acting City Engineer:

Dear Sir,—In the matter of the proposed Chelsea North temporary bridge I suggest that you urge the immediate appropriation of ten thousand dollars to cover preliminary engineering work, which should be begun at once if the bridge is to be built during the working season of 1911. The situation is as follows:

The Secretary of War has notified the city that the needs of navigation require the widening of the passageway for vessels through the Chelsea North Bridge, connecting Charlestown and Chelsea. To comply with these requirements, and at the same time to avoid interruption to highway travel at this important river crossing, it is necessary to construct a temporary bridge at one side of the existing bridge. License to build a temporary bridge has been granted by the Secretary of War upon certain conditions, among which are those that the draw span shall be of the bascule type and that it shall afford a channelway for vessels 125 feet wide in the clear.

The bascule type of draw, which is prescribed, is much the most economical type for a single wide channel. The development of large span bascule draws has been due to engineers who have given years to the study of the problems involved and have patented the essential and economical features of their designs. To-day the only practicable and economical way to build a bascule draw of such size as is required for the Chelsea North temporary bridge is to make use of some patented design.

It is understood that an appeal will be made to the next Legislature for the early passage of an act apportioning the cost of the temporary bridge upon all communities and public service corporations benefited; but whatever the outcome of the appeal, the temporary bridge must be built. Unless the city has its plans and specifications ready and is prepared to place contracts as soon as legislation is secured it will not be possible to complete the bridge during the working season of 1911. The sum of ten thousand dollars is required to pay for the plans of the whole bridge and for the patent rights for the draw span. This expenditure of ten thousand dollars should be authorized at once that the plans may be prepared in season to permit the construction of the bridge during the coming year.

Respectfully,
FREDERIC H. FAY,
Assistant Engineer.

Ordered, That the sum of ten thousand dollars (\$10,000) be, and hereby is, appropriated to be expended by the City Engineer for preliminary work upon Chelsea North temporary bridge, and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city for said amount.

Referred to the Committee on Finance.

EXPENDITURES BY CIVIL SERVICE COMMISSION.

City of Boston,
Office of the Mayor, December 12, 1910.

To the City Council:

Under section 11, chapter 486, of the Acts of 1909, which refers to sections 9 and 10, "The Civil Service Commission is authorized to incur in carrying out the foregoing provisions such reasonable expense as may be approved by the Governor and Council, the same to be paid by the Commonwealth, which upon demand shall be reimbursed by the City of Boston." The accompanying order, which is forwarded with the necessary documents from the state departments, provides for the payment of a bill of four hundred dollars (\$400) incurred by the Civil Service Commission in the investigation of the qualifications of certain persons appointed by me as heads of city departments or municipal boards. As the statute is mandatory upon this point it would seem to be necessary for your honorable body to pass the order as approved.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Commonwealth of Massachusetts,
Boston, December 2, 1910.

Mr. J. Alfred Mitchell,
City Auditor, Boston, Mass.:

Dear Mr. Mitchell,—I am in receipt of a letter from the Auditor of the Commonwealth certifying that, under the provisions of sections 9, 10 and 11, of chapter 486 of the Acts of the year 1909, four hundred dollars (\$400) has been expended from and charged to the appropriation for Civil Service Commissioners, clerks and expenses.

Therefore, as provided in section 11 of said chapter 486, I ask that the City of Boston reimburse the Commonwealth to the extent of \$400.

Please have check made payable to the Commonwealth of Massachusetts and mail to me.

Yours very truly,
ELMER A. STEVENS,
Treasurer.

Ordered, That the expenses incurred by the Civil Service Commission under the provisions of sections 9, 10 and 11 of chapter 486 of the Acts of the Legislature of 1909, amounting to four hundred dollars (\$400), be charged to the Reserve Fund.
Passed.

AMENDMENT TO ORDINANCE.

The following was received:

City of Boston,
Office of the Mayor, December 12, 1910.

To the City Council:

I beg to recommend the passage of the accompanying ordinance amending section 26 of chapter 9 of the Ordinances for 1910. This change is recommended by the Water Commissioner, whose letter on the subject is appended hereto.

Section 26 of chapter 9 of the Ordinances of 1910, as originally drafted was an exact copy of section 5 of chapter 42 of the Revised Ordinances, which contained the inaccuracy which the present amendment is intended to remove.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
In the Year Nineteen Hundred and Ten.
An Ordinance Concerning Payments for Water.
Be it ordained by the City Council of Boston, as follows:

Section 26 of chapter 9 of the Ordinances of 1910 is hereby amended by striking out the word "occupancy" in the fourth line, and inserting in place thereof the word "ownership," and by striking out the word "occupant" in the sixth line, and inserting in place thereof the word "owner," so that the first sentence of said section as amended shall read as follows: Said commissioner, whenever the water has been shut off from any premises because the bill for water has not been paid, and there is a change in the ownership of said premises, may let the water on again without waiting for the payment of the amount due from the former owner.

Referred to the Committee on Ordinances.

COST OF SUBWAY UNDER TRACKS.

City of Boston,
Office of the Mayor, December 12, 1910.

To the City Council:

In compliance with the request contained in an order of your honorable body, passed at its meeting of November 14, "that the Superintendent of Streets, through his Honor the Mayor, make an estimate of the cost of constructing a subway under the New York, New Haven & Hartford Railroad Company's tracks, at the end of Bay street, making a public passageway through to Savin Hill Beach," the Superintendent of Streets has prepared an estimate, which is contained in the accompanying letter.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Street Department,
December 6, 1910.

To the Honorable the Mayor:

Re inclosed order of the City Council, you are respectfully informed that the estimated cost of constructing a subway under the New York, New Haven & Hartford Railroad Company's tracks, at the end of Bay street, is \$4,500, not including any allowance for land damage. While the proposed subway would make a public passageway through to Savin Hill Beach, as suggested in inclosed order, it would also appear to be of decided value to the New York, New Haven & Hartford Railroad, for the reason that it would provide a connection between their station for out-bound travel and their station for in-bound travel.

Respectfully,
L. K. ROURKE,
Superintendent of Streets.
Referred to the Committee on Finance.

METHODS OF SETTLEMENT CLERKS.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1910.

To the City Council:

At a meeting of your honorable body held November 14, 1910, it was ordered "that his Honor the Mayor be requested to investigate the method of procedure pursued by settlement clerks in the Overseers of the Poor Department." Councilor Curley, who introduced this order, instances a letter written by Settlement Clerk W. E. Butler to Mrs. M. J. Toland. An explanation of the circumstances attending the writing of this letter and some facts pertinent to the general subject are given in the appended communications from Chairman William P. Fowler and Settlement Clerk Butler.

Respectfully,
JOHN F. FITZGERALD, Mayor.

City of Boston,
Board of Overseers of the Poor,
Boston, December 5, 1910.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,—The inclosed report from our settlement clerk at the City Hospital is forwarded for your information.

Very truly yours,
WILLIAM P. FOWLER,
Chairman.

The Boston City Hospital,
Boston, November 28, 1910.

Benjamin Pettee,

Secretary Overseers of the Poor:
Dear Sir,—In the performance of their duties in determining the place of settlement of patients and applicants for admission to the Boston City Hospital, it is the custom of the settlement clerks to learn whether the applicant is able to pay for his own care and treatment. If they are able the executive assistant at the hospital is requested to give a bill to the applicant if he has no settled residence; and in case he has the superintendent has ordered that bill shall be sent to his place of domicile. If they fail to pay within a reasonable time they are communicated with in regard to payment. If it appears to the settlement clerks that the person has sufficient means, and he refuses payment, he is informed that in default of payment within a certain time his bill will be placed in the hands of the City Collector. A majority of such instances are state cases.

In the case of Charles Harrigan: He was admitted October 1, 1910; his history was taken and he was found to be a "U. S. case," and as he stated he was unable to pay his bill the State Board of Charity was notified as required by law. Under date of October 7, 1910, the following communication was received from them:

State Board of Charity,
Boston, October 7, 1910.

Mr. W. E. Butler,
Agent Overseers of the Poor,
Boston City Hospital, Boston:

Dear Sir,—We are informed by the U. S. Commissioner of Immigration that Mrs. M. J. Toland, 54 Myrtle street, Boston, aunt of Charles Harrigan, notice of October 3, will pay his hospital bill. Kindly advise me if arrangement has been made to that end.

Respectfully yours,
J. F. LEWIS,
Superintendent.

We therefore requested a bill sent to Mrs. Toland, which was done. After waiting for several days, during which time no payment was made, Mrs. Toland was visited and promised to make arrangement at the hospital for the payment of her nephew's bill. It is also understood that her written undertaking to pay this bill is in the hands of the Immigration Office. Shortly after this visit the following letter was sent, to avoid any misunderstanding:

Boston City Hospital,
November 4, 1910.

Mrs. M. J. Toland,
54 Myrtle Street, Boston:

Dear Madam,—I trust you will be able to make a substantial payment on account of your nephew, Charles Harrigan, admitted to this hospital October 1, 1910, to-morrow, or Monday at the latest, as otherwise the immigration officials are likely to deport him.

Yours very truly,
W. E. BUTLER,
Settlement Clerk.

After receiving this letter Mrs. Toland came to this office and gave us to understand at that time that she was unable to pay, and denied that she had made the statement that she would pay Charles Harrigan's hospital bill. She was referred to William W. Henderson, assistant visitor of the State Board of Charity, who has charge of the U. S. cases. She has never since called upon him.

Biaggio D'Agostino, another U. S. case, was admitted October 26, 1910. The immigration office requested to be informed when he was ready to be discharged as they were to deport him. We are informed by Dr. Holt, the Assistant Superintendent of the City Hospital, that he was discharged to them November 25, 1910. This is only a sample case to show that it is necessary for the settlement clerks to have a direct understanding with the parties who agree to pay for U. S. cases in order that they may have no opportunity for complaint against this office.

It is imperative that the settlement clerks have the support of the Overseers of the Poor Department, as well as of the Mayor and the City Council, in order to determine the exact legal status of applicants it is occasionally necessary to ask more or less embarrassing questions relative to the legitimacy of children, marriages, etc., which would often put the city to large and unnecessary expense unless truthfully determined.

I am in receipt of the following communication from the State Board of Charity:

State Board of Charity,
Boston, November 25, 1910.

Mr. W. E. Butler,
Settlement Clerk, City of Boston,
Boston City Hospital, Boston:
Dear Sir,—In the future in all United States

charges where there is a promise made by relatives or friends to pay, will you kindly cause an investigation to be made at the home of alleged party who is to pay, at an early date, and advise me immediately of the result. This division is of opinion that letters requesting payments are not a sufficient effort to collect, especially in the cases of kindred liable, as you cannot in this way determine their ability to pay, and that is the point to be determined before payment should be made from public funds.

Respectfully yours,
J. E. LEWIS,
Superintendent.

This has no bearing on the above matter, but it is the desire of this office that you may know under what difficulties we labor with the State Board of Charity and the increased amount of work which this means for the settlement office.

Very respectfully yours,
W. E. BUTLER,
Settlement Clerk.

Placed on file.

APPOINTMENT BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, December 12, 1910.
To the City Council:
Subject to confirmation by your honorable body, I hereby appoint George P. Thomas (94 Albion street, Ward 9) a Weigher of Coal for the term ending April 30, 1911.

Respectfully,
JOHN F. FITZGERALD, Mayor.
Laid over under the law.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

William J. Ryan, for compensation for damages by a fire engine.

L. H. Daloz, for compensation for damage to automobile caused by an alleged defect in Hancock street.

Catherine Crosbie, for compensation for damage to property, 86 Devon street, by break in water main on Geneva avenue, November 18, 1907.

Mrs. Richard Power, for compensation for injuries and death of her husband, formerly employed in the Sanitary Division.

Louisa C. Biggio, for compensation for injuries caused by an alleged defect in front of 7 Boardman street, East Boston.

Executive.

Mary H. Burgess, for permit for children under fifteen years of age to appear at Roxbury Neighborhood Home Hall on evenings of December 13 and 14.

Massachusetts Homoeopathic Hospital, to be refunded \$140 paid for entrance to sewer.

SIDEWALK SCHEDULE.

A communication was received from the Superintendent of Streets concerning the cost of constructing brick sidewalks in front of estates on Wenham street, Ward 23, with the following order:

That the persons named in the within schedule be, and they hereby are, charged and assessed with one-half the sums set to their respective names as their proportional parts of the cost of constructing brick sidewalks in front of their estates on said street, and the same as ordered to be certified and notice given to the parties aforesaid, said amounts being \$517.87.

The order was passed.

APPROVAL OF CHANGES.

Notices were received from the Board of Railroad Commissioners of approval of plans 28042 and 28044 of Boston Elevated Railway Company, showing proposed changes at Sullivan Square Station, and of approval of plan 35067 of Boston Elevated Railway Company, showing proposed changes in plan of station at Green street.

Placed on file.

POLE LOCATIONS.

Copies of orders were received granting permission to the New England Telephone and Telegraph Company to erect and to remove one pole on Morton street, Ward 24, and to erect and to remove one pole on Washington street, Ward 25.

Placed on file.

APPROVAL OF APPOINTMENT.

Notice was received from the Civil Service Commission of approval of appointment of Louis B. Ginsburg as Children's Institutions Trustee.

Placed on file.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received. Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received of the keeping of explosives at the following locations, and of intention to use said premises for same purpose for the ensuing year, viz.:

Max Brummel, 522 Commonwealth avenue.
J. C. Coleman & Sons Company, 1620 Tremont street, Ward 19.
Placed on file.

ABOLITION OF REGISTRY DEPARTMENT.

A report was received from the Finance Commission relative to the abolition of the Registry Department and was referred to the Executive Committee. (See page 929.)

RETIREMENT SYSTEM, CITY EMPLOYEES.

A communication was received from the Finance Commission in regard to the proposed retirement system for city employees and was referred to the Executive Committee. (See page 931.)

STATE HIGHWAY, WEST ROXBURY.

A communication was received from the Finance Commission relative to the widening out of Washington street, West Roxbury, and was referred to the Executive Committee. (See page 925.)

CONFIRMATION OF APPOINTMENTS.

President BALLANTYNE called up Nos. 1 and 2, unfinished business, viz.:

Action on appointments submitted by the Mayor December 5, 1910, viz.:

1. Frederick J. Lundy, to be a Constable of the City of Boston for the term ending April 30, 1911.

2. Patrick R. Dunn, to be an Inspector of Pressed or Bundled Hay and Straw for the term ending April 30, 1911.

The question came on confirmation. Committee—Coun. Collins and Buckley. Whole number of ballots cast 5, yeas 5, and the appointments were confirmed.

SOLDIERS' RELIEF.

Coun. BUCKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of December.

Report accepted; order passed.

APPROPRIATION FOR ZOO, ETC.

Coun. BRAND submitted a report on message of the Mayor (referred December 5) transmitting the amount of Parkman Fund available—that the message be placed on file and recommending the passage of the following:

Ordered, That \$119,000 be appropriated from the income of the Parkman Fund for the current year to be expended under the direction of the Park Commissioners, and at their discretion, on the building of a Zoological Garden at Franklin Park and an Aquarium at Marine Park.

Report accepted; message placed on file and order passed, yeas 7, nays 0.

INFORMATION FROM BOSTON DISPOSAL COMPANY.

Coun. ATTRIDGE offered an order—That the City Clerk communicate with the Boston Disposal Company, which has made a bid for the disposal of city garbage, and request it to submit to the City Council a list of names of its officers, administrative, executive and legal, also a list of stockholders in said company and their places of residence, and the amount of capital stock of said company.

Passed.

PAYMENT TO CHARLES W. KELLY.

Coun. KENNY offered an order—That the sum of five dollars (\$5) be paid to Charles W. Kelly for services rendered to City Council at Brighton High School, February 16, 1910, said sum to be charged to City Council, incidental expenses.

Passed.

COST OF CONSTRUCTING MARSH STREET.

Coun. BRAND offered an order—That the Street Commissioners be requested to make an estimate of the cost of constructing Marsh street, from Granite avenue to Highland avenue, Ward 24, Dorchester.

Passed.

SEWER, TENEAN STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to make an estimate of the cost of constructing a sewer through Tenean street, Ward 24, Dorchester.

Passed.

CONTINUANCE OF LOOP TRAINS.

Coun. BRAND offered an order—That the Boston Elevated Railway Company be requested, through his Honor the Mayor, to continue the "shuttle" or loop trains now running on Atlantic avenue between North and South Stations and Beach street to Castle street, to connect with the main tunnel line, and that a station be erected at that point for the convenience of passengers.

The order was read a second time and the question came on its passage.

The order was passed.

A QUESTION OF PRIVILEGE.

Coun. KENNY—Mr. President, I rise to a question of personal privilege. I desire to offer a few remarks in connection with a hearing held on Monday last of the Mayor, City Council and heads of departments.

President BALLANTYNE—Coun. Kenny may proceed.

RECESS.

On motion of Coun. COLLINS the Board voted at 4.29 p. m. to take a recess, subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President BALLANTYNE at 5.08 p. m.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on petition of Mary H. Burgess (referred to-day) for a permit for children under fifteen years of age to appear at Roxbury Neighborhood Home Hall on evenings of December 13 and 14—that permit be granted.

Report accepted; permit granted on the usual conditions.

(2) Report on petition of Julian Codman *et al.* (referred October 22) for payment for work as dog catchers done for the city—recommending the passage of the following:

Ordered, That there be allowed and paid to Julian Codman, Huntington Smith and Frank J. Sullivan the sum of \$141.47 each, being for work done as dog catchers from May 1 to June 20, 1910, inclusive, forty-three days at \$3.29 per day, making a total of \$424.41, the same to be charged to income from dog licenses.

Report accepted; order passed.

ANNUITY FOR MRS. RYAN.

Coun. BRAND offered an order—That an annuity of \$300 be allowed and paid, as long as she remains unmarried, to Mrs. Margaret J. Ryan, widow of the late Chief John F. Ryan, late a member of the Fire Department, who died from injuries received while in the discharge of his duties as a member of said department; the amount paid under the authority of this order to be charged to the appropriation for Fire Department.

The order was referred to the Executive Committee.

PAYMENT TO MRS. NEEDHAM.

On motion of Coun. BRAND No. 3, special assignment, was taken up:

3. Ordered, That an annuity of \$300 be allowed and paid, as long as she remains unmarried, to Mrs. Jennie M. Needham, widow of Charles T. Needham, late a member of the Fire Department, who died from injuries received while in the discharge of his duties as a member of said department; the amount paid under the authority of this order to be charged to the appropriation for Fire Department.

The order was referred to the Executive Committee for investigation.

LETTER OF SYMPATHY TO COUN. HALE.

Coun. ATTRIDGE—Mr. President, I move you, sir, at this time that the City Clerk be directed to send a letter of sympathy to our colleague in the Council, Matthew Hale, who has been ill for some time, expressing our wish that he will soon regain his health and that we may in the near future again see him in Boston, attending to his municipal and other duties.

Coun. KENNY—I second that motion, Mr. President.

The motion was carried.

GENERAL RECONSIDERATION.

On motion of Coun. KENNY general reconsideration of all action taken to-day was refused.

Adjourned, on motion of Coun. BRAND, at 5.11 p. m., to meet on Monday, December 19, at 3 p. m., unless sooner called together by the Chair.

WILL WORK FOR LEGISLATIVE HARMONY.

At the annual meeting of the National Civic Federation, January 12, 13 and 14, 1911,—great national problems will be considered and committees organized to propose legislation.

Program includes discussion upon regulation of combinations and quasi-public utilities, compensation for industrial accidents and mediation and arbitration laws.

Federation's compensation department will present draft for model uniform state law—constitutional features now being considered by uniform commissioners in thirty-two states.

Application of Canadian arbitration law to industrial disputes concerning street railways and other municipal utilities through uniform state laws will be considered.

The eleventh annual meeting of the National Civic Federation will be held January 12, 13 and 14, 1911, in New York City. The state councils, organized by the Federation during the past year to promote the unification and co-ordination of state and Federal laws, will hold their first national meeting in conjunction therewith. In addition there will be special meetings of the various departments of the Federation. The important topics of the hour, in which the Federation has been especially interested and which will be considered, are:

Regulation of Corporations and Combinations.

Regulation of Railroads and Municipal Utilities.

Compensation for Industrial Accidents, Arbitration and Conciliation.

The announcement of the meeting thus describes the program:

TRUSTS AND COMBINATIONS.

"State and Federal Regulation of Corporations" and questions dealing with the limitations of combinations in restraint of trade, whether in manufacturing, finance, labor, agriculture or other fields, will be considered at this meeting. A feature of this part of the program will be a thorough exposition of the new act which went into effect in Canada, May 1, 1910. This act provides that upon application of six citizens who complain against a corporation a judge may order that a commission of three be named, one member by the complainants, one by the corporation and the third by the two thus selected. The commission is required to make an extended inquiry and publish a report, which must be accepted by the corporation within ten days upon penalty of a fine of \$1,000 a day.

The regulation of combinations in England will also be described.

RAILWAY REGULATION.

The need of uniformity in state regulation of railroads and other public utilities, the co-ordination of the laws governing the state railroad commissions and the Interstate Commerce Law, made evident at the recent hearings on the railroad rate question, and also the regulation of public utilities by commissions will be discussed.

The controversy over the proposition to increase railroad rates, now before the Interstate Commerce Commission, is of tremendous concern not only to the stockholders, merchants, manufacturers and other shippers, but also to the three million employees working on the railroads and in the shops of the railroad supply manufacturers. It indirectly concerns the millions of depositors in savings banks and policy holders in insurance companies which are large investors in railroad securities.

COMPENSATION FOR INDUSTRIAL ACCIDENTS.

A proposed uniform bill on compensation for industrial accidents will be presented for consideration. This measure is the result of a year's careful study of the question by a committee composed of members of official state compensation commissions, the Commissioners on Uniform State Laws of thirty-two states, representatives of the American Bar Association in eighteen states, representative employers, labor men and social experts. In no subject is there greater need for uniform state action than in the matter of compensation for industrial accidents. This is clearly proven by the increased cost of insurance resulting under the application of the New York compensation law which in some cases has doubled the rate, and which, if generally applied, would work hardship on New York employers who have to compete with employers in other states.

LAWS REGULATING LABOR DISPUTES.

In view of the recent street railway strikes in Philadelphia and Columbus and the express strike in New York City, there will be considered questions of special interest to the public at this time, to wit: How far is the Canadian Conciliation and Arbitration Act applicable to and desirable for the United States? Can the state laws on mediation and arbitration be made effective in handling industrial disturbances in general? Shall special legislation be advocated, applying to street railways and other municipal utilities? Shall the Erdman Act, which is so effective in the case of interstate railways, be extended to telegraph, telephone and express companies?

There is an interminable conflict between the states themselves on some matters and between the states and the Federal Government on others, in respect to many of the vital problems of the day which can only be terminated by legislation framed after serious and sane consideration. It is clear that there are many questions with which the states alone can and should deal through uniform action; there are other questions with which only the Federal Government can deal effectively; and still others in which co-ordination of effort between the states and nation is essential, the only test being

which control is the more desirable and effective from the standpoint of public welfare?

The importance of this situation to all business, commercial and industrial institutions is clearly recognized when we consider that our larger corporations—such as the railroads, telegraph, insurance, banking and trust companies and, in fact, so far as taxation is concerned, all manufacturing concerns whose plants are in different states—are subject to forty-six masters, each with a mind quite different from that of the others.

The diversity of state laws on ordinary commercial matters, such as warehouse receipts, bills of lading and negotiable notes, the urgent need for a uniform bill on compensation for industrial accidents, and, in fact, all labor legislation relating to hours and conditions of employment for men, women and children, the interminable law's delay arising from lack of uniformity in court procedure, the conflict between the states and the Federal Government on the question of pure food and drugs, the urgent need for an approximate uniformity in the laws governing the building of good roads, and the regulation of dairy products (both of which are being urged by farmers' organizations), give emphasis to the seriousness of our present chaotic legislative situation.

To promote harmony between these clashing interests the National Civic Federation is organizing councils in every state in the Union, composed of representative men from the commercial, manufacturing, mercantile, banking, insurance, and professional interests. Delegations of the state councils will attend the annual meeting and determine upon a definite program and method of work.

PASTEURIZING MILK.

New York City is establishing through its Health Department depots all through the congested residence district for the pasteurization of milk and its distribution. At each depot there are doctors and nurses in attendance who take the opportunity to talk over with the mothers who come to get milk there care of babies and health matters generally. This is a step toward the institution of free medical attendance, which will be part of the municipal system of the future—possibly within ten years.—*Pacific Outlook.*

NEW SYSTEM OF TUNNELING.

At a cost of something over a million dollars a tunnel of steel and concrete for the street car lines to go under the Chicago river at La Salle street is being constructed on top of the water. When it is done it will be sunk to the bottom of the river by a system of chains and derricks. The work cannot be done until after navigation closes for the winter.—*Pacific Outlook.*

UNUSED TUNNEL.

With all its traffic difficulties and congestion of local passengers, New York City has had lying idle for two years a new tunnel under the East River at Forty-second street, tied up because of some legal question as to the rights of the Interurban Company.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, DECEMBER 24, 1910.

No. 52

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

BY SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as

to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, January 2, at 3 p. m.

Meeting of School Committee, Wednesday, December 28, at 4 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, DECEMBER 27, AT 11 O'CLOCK.

A public hearing on petition of the Old Colony Street Railway Company for alterations and additions on Washington street, at Grove street, Ward 23.

Pole Locations.—Edison Electric Illuminating Company, to attach to two poles of New England Telephone and Telegraph Company on Faneuil street; to attach to four poles of New England Telephone and Telegraph Company on Harvard street; New England Telephone and Telegraph Company, to attach to three poles of the Edison Electric Illuminating Company on D street; to erect two poles on Mt. Vernon street, Ward 5; to erect five poles on St. Margaret street, Ward 16.

TUESDAY, JANUARY 10, AT 11 O'CLOCK.

Gasolene.—The Renim Specialty Company, 37 Parkman street, Ward 25.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

PUBLIC BUILDINGS DEPARTMENT.

Advertises for proposals for installing electrical apparatus, wiring, fixtures, gas fitting, etc., in the Curtis Hall Building, Jamaica Plain. Blank forms for proposals may be obtained at the office of the superintendent, Room 30, Old Court House. Bids to be filed at same office.

Bids close Friday, December 30, at 12 m.

SCHOOL COMMITTEE.

Advertises for proposals for furnishing tools for the machine shops in the Mechanic Arts High School. Blank forms for proposals may be obtained at the office of the auditor, 168 Tremont street, Room 53. Bids to be filed at same office.

Bids close Thursday, January 5, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for installing electrical system in Prescott boiler house annex, Polk street, Charlestown. Blank forms for proposals may be obtained at the office of the commissioners, 120 Boylston street. Bids to be filed at same office.

Bids close Friday, December 30, at 12 m.

Stevens, chauffeur, 1 day at \$3, \$3; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1 day at \$2.75,

\$2.75; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Thomas Lavery, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, 1 day at \$2.25, \$2.25; Isaac Saperstein, repairer, $2\frac{1}{2}$ days at \$2.50, \$6.48; Michael Mulloy, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.84; William Loneragan, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.84; John Begley, pipe layer, $\frac{7}{8}$ day at \$2.75, \$1.20; John Geary, pipe layer, $\frac{7}{8}$ day at \$2.50, \$1.09; Cornelius Sullivan, 2d, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; Robert J. Doyle, plumber, $\frac{7}{8}$ day at \$3, \$0.56; Timothy F. Murphy, repairer, $\frac{7}{8}$ day at \$2.25, \$0.42; Michael Ronan, teamster, $1\frac{3}{4}$ days at \$2.25, \$2.67; Hugh Campbell, repairer, $\frac{1}{2}$ day at \$2.50, \$1.33; Michael F. Daly, 2d, laborer, $\frac{1}{2}$ day at \$2.25, \$1.33; Matthew J. O'Neill, laborer, $\frac{1}{2}$ day at \$2.25, \$1.20; Patrick C. Waters, laborer, $\frac{1}{2}$ day at \$2.25, \$1.20; Mathew Brennan, inspector, $\frac{1}{2}$ days at \$3, \$5.63; Richard P. Collins, inspector, $\frac{1}{2}$ day at \$2.75, \$0.52; Patrick J. Kelly, inspector, $\frac{1}{2}$ day at \$2.95, \$2.02; Jeremiah P. Scanlon, inspector, $1\frac{1}{2}$ days at \$2.75, \$4.13; Cornelius Hegarty, repairer, $\frac{7}{8}$ day at \$2.50, \$1.09; John Coyne, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; John H. Murphy, laborer, $\frac{7}{8}$ day at \$2.25, \$0.98; Bernard Flanagan, plumber, $\frac{7}{8}$ day at \$3, \$1.31; Edward P. Sullivan, teamster, $\frac{7}{8}$ day at \$2.25, \$0.98; John Furey, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.80; James McMahon, laborer, $1\frac{1}{4}$ days at \$2.25, \$3.80; William Collins, repairer, 13 days at \$2.50, \$32.50.

Water Department (Income Division).

For the week ending Thursday, December 15, 1910:

J. J. Callahan, laborer, $\frac{3}{4}$ day at \$2.50, \$1.80; P. J. Clougherty, laborer, $\frac{1}{4}$ day at \$2.25, \$0.28; J. H. Cullen, plumber, $\frac{1}{2}$ day at \$3, \$1.13; M. J. Dinneen, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; T. J. Dolan, plumber, $\frac{1}{2}$ day at \$3, \$0.38; B. Magee, carpenter, $\frac{1}{2}$ day at \$3.50, \$0.44; J. J. Mahoney, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; T. McAuliffe, laborer, $\frac{1}{2}$ day at \$2.25, \$0.77; D. J. Rull, Jr., plumber, $\frac{3}{4}$ day at \$3, \$2.16; J. J. Shea, laborer, $\frac{1}{4}$ day at \$2.25, \$0.84; J. Sullivan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.83; T. J. Sullivan, plumber, $\frac{3}{4}$ day at \$3, \$1.13.

* CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending December 22, 1910:

Cemetery Department.

On December 20 the Mayor approved a contract with the Wright Wire Company for furnishing about 1,675 feet of galvanized wire railing, 6 feet high, to cost \$1,842.50. They were the only bidders.

Fire Department.

On December 16 the Mayor approved a contract with the Gutta Percha and Rubber Manufacturing Company for 1,250 feet of $2\frac{1}{2}$ -inch 4-ply "Maltese Cross" rubber fire hose, coupled in 50-foot lengths, with capped ends, at \$1.25 per foot. Total, \$1,562.50.

The Mayor has approved a contract with the Combination Ladder Company for 1,250 feet of 4-ply, $2\frac{1}{2}$ -inch "White Anchor" rubber fire hose, coupled in 50-

foot lengths, with capped ends, at \$1.49 per foot. Total, \$1,862.50. Bids on these goods, opened November 30, were as follows:

	2,500 Feet $2\frac{1}{2}$ -inch Rubber Hose. Per Foot.
Boston Belting Company.	\$1 00—4-ply.
Boston Woven Hose and Rubber Company.	98—Union Brand. 1 08—Colonial Brand.
Enterprise Rubber Company.	1 15.
C. C. C. Fire Hose and Rubber Company.	94—4-ply.
Combination Ladder Company.	1 49—White Anchor. 1 23—Goodrich Anchor.
Gutta Percha and Rubber Manufacturing Company.	1 25—Maltese Cross. 1 75—Baker Fabric.

STREET DEPARTMENT (Highway Division).

On December 16 the Mayor approved a contract with Lawler Brothers for repairing Neponset Bridge. Bids on this work, opened December 12, were as follows:

Lawler Brothers, \$1,523; M. S. Kelliher, \$1,525.95; William H. Ellis, \$1,755.50; George T. Rendle, \$1,838; Rendle & Stoddard, \$2,067.

WITHOUT ADVERTISING.

FIRE DEPARTMENT.

In view of the representations contained in the following statement, the Mayor has approved a contract, made without advertising, with the Combination Ladder Company, for the purchase of one 75-foot aerial ladder truck to cost \$4,950.

"The reason for not advertising for bids is that the two firms whose apparatus meets the requirements of this department have already submitted propositions to this office, and I consider the above the more satisfactory.

CHARLES D. DALY,
Commissioner."

ADDITIONS AND ALLOWANCES TO CONTRACTS.

The following additions to and allowances on contracts have been approved by the Mayor:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Addition, amounting to \$55, on contract with C. F. Brown for Women's Cottage Ward Building, on account of staining outside shingles. Original contract, \$8,040; total additions, \$1,667.80; contract as standing, \$9,707.80.

SCHOOLHOUSE DEPARTMENT.

Addition, amounting to \$48.25, on contract with Pierce & Cox at Girls' High School, on account of piecing out angle-iron frames supporting lavatory bowls. Original contract, \$2,993; total additions, \$48.25; contract as standing, \$3,041.25.

Addition, amounting to \$157.50, on contract with Whiton & Haynes Company for the William Lloyd Garrison School, on account of furnishing and putting in shelving in storeroom. Original contract, \$55,600; total additions, \$899.50; total deductions, \$4,818; contract as standing, \$51,681.50.

Addition, amounting to \$166.60, on contract with the W. A. Snow Iron Works, Inc., for Prescott School, on account of

additional work on doors. Original contract, \$2,377; total additions, \$166.60; contract as standing, \$2,543.60.

Addition, amounting to \$74, on contract with Pierce & Cox for furnishing and installing copper-lined tank. Original contract, \$3,330; total additions, \$209.06; total deductions, \$10.06; contract as standing, \$3,529.

Addition, amounting to \$583.90, on contract with A. Varnerin Company for Samuel Adams School, on account of miscellaneous items. Original contract, \$89,446; total additions, \$1,238.40; contract as standing, \$90,684.40.

Addition, amounting to \$121.50, on contract with A. Varnerin Company, Inc., for the Samuel Adams School, on account of excavating and laying additional cast-iron drain pipe. Original contract, \$89,446; total additions, \$1,359.90; contract as standing, \$90,805.90.

Deduction, amounting to \$65, on contract with William Crane for Girls' High School, on account of saving in change for enamel finish. Original contract, \$105,880; total additions, \$487; total deductions, \$9,615; contract as standing, \$96,752.

Addition, amounting to \$95.40, on contract with Pierce & Cox for William Lloyd Garrison School, on account of furnishing and installing tank with fittings complete. Original contract, \$3,980; total additions, \$193.18; total deductions, \$350; contract as standing, \$3,823.18.

PETITIONS GRANTED.

The following petitions granted by the Board of Street Commissioners have been approved by the Mayor:

Pole Locations.—To attach wires: New England Telephone & Telegraph Company, to poles of the Edison Electric Illuminating Company, 8 on Morton street, from Canterbury street; 3 on St. Alphonsus street, between Conant street and Longwood avenue; 1 on Parker street, third from Centre street, Ward 22; Edison Electric Illuminating Company, to poles of the New England Telephone & Telegraph Company, 5 on Walk Hill street, near Almont street, Ward 24; 3 on Warren street, near Allston street, Ward 25; 2 on Norfolk street, north of Astoria street, Ward 24. To erect poles: New England Telephone & Telegraph Company, 1 on Saratoga street, west from Brooks street; 1 on Princeton street, east from Putnam street; 18 on Everett street, between Lincoln street and Western avenue; 1 on Lincoln street, opposite Everett street; 3 on Brentwood street, between Everett and Athol streets. To erect and remove poles: New England Telephone & Telegraph Company, 1 on Elm street, corner Erie street; 1 on Washington street, north of Baker court, Ward 24; Edison Electric Illuminating Company, 1 on Walk Hill street, southeast of Wachusett street.

Signs.—D. J. Holland Company, 18 Hanover street; the M. Press Company, 987 Parker street.

Illuminated Signs.—Charles Celeste, 33 Causeway street; Peter Di Stefano, 44 Maverick square; American Lunch and Tea Room, 164A Tremont street; Beacon Trust Company, 3 South Market street; Nicholas De Simone, 373 Hanover street; Edward Levine, corner Hayward place and Harrison avenue.

Gasolene, etc.—Anso Company, 46 Cornhill; Nathan C. Harrison, 84 Melville avenue.

Guy Posts.—Bernard W. Marcus, 327 Huntington avenue.

Street Railway Location.—West End Street Railway Company, alterations, Post Office square, Congress and Water streets.

CLAIMS.

On December 19 the Mayor approved the following awards made by the committee on claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Counsel:

Joseph Goodnow, employee of the Highway Division, \$24.75, for loss of time on account of injury on September 17, 1910.

Sarah T. Havey, \$150, on account of personal injuries caused by defect at 439 Broadway, December 19, 1907.

John H. Loughan, administrator of the estate of John Lynch, \$100, on account of personal injuries caused by kick of a horse, resulting in death, while employed in the Park Department, June 19, 1906.

Charles Maguire, employee of the Highway Division, \$250.88, for time lost on account of injuries received from dumping load of crushed stone, May 2, 1910.

Margaret Waters, \$250, for personal injuries caused by defective sidewalk corner of Jenkins and Dorchester streets, April 5, 1910.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances made by the Superintendent have been approved by the Mayor:

John C. Fitzgerald, Sanitary Division, 30 days at \$2.25, \$67.50; Thomas E. Keenan, Sanitary Division, 9 days at \$2.25, \$20.25; Daniel H. Prior, Sanitary Division, 19 days at \$2.25, \$42.75; Daniel J. Leary, Highway Division, 14 days at \$2.25, \$31.50; Joseph A. Hennessey, Highway Division, 18 days at \$3.50, \$63; James J. McCluskey, Sanitary Division, 6 days at \$2.25, \$13.50.

WATER DEPARTMENT.

The following allowances made by the commissioner have been approved by the Mayor:

John W. Kelly, Distribution Division, 13 days at \$2.25, \$29.25.

FREE MUNICIPAL CONCERTS.

The Music Department has arranged the following free municipal concerts for the week ending December 31:

DECEMBER 27, FANEUIL HALL.

Miss Marguerite Gallagher, soprano; Mr. Tafley Mauch, cornetist.

PROGRAM.

Prelude to "Cavalleria Rusticana," *Mascagni.*
 "The Mill," from String Quartet, "Die Schöne Mullerin," *Raff.*
 Aria from "Carmen," Act III., *Bizet.*
 Miss Gallagher.
 First movement from Symphony in G Minor, *Mozart.*
 Solo for cornet, "Concert Waltz," *Bender.*
 Mr. Mauch.
 Song, "At Parting," *Rogers.*
 Miss Gallagher.
 Overture to "Tancredi," *Rossini.*

DECEMBER 29, KNIGHTS OF HONOR HALL, ROSLINDALE.

Mr. Clarence H. Wilson, baritone; Mr. Tafley Mauch, cornetist.

PROGRAM.

Overture to "The Barber of Seville," *Rossini.*
 Petite Valse, "Un Petit Rien," *Bohm.*
 Aria from "Oratorio of Samson," "Honor and Arms," *Handel.*
 Mr. Wilson.
 Selection from "Faust," *Gounod.*
 Solo for cornet, "Concert Waltz," *Bender.*
 Mr. Mauch.
 Song, "The Old Black Mare," *Squire.*
 Mr. Wilson.
 "Allegretto" from "Ballet Suite," *Gounod.*

DECEMBER 30, FORD HALL, ASHBURTON PLACE.

Mrs. Gertrude Holl, soprano; Mr. Frank H. Eaton, flutist.

PROGRAM.

Overture to "The Marriage of Figaro," *Mozart.*
 "The Mill," from String Quartet, "Die Schöne Mullerin," *Raff.*
 Recitative and Polonaise from "Mignon," *Thomas.*
 Mrs. Holt.
 Fantasia from "La Boheme," *Puccini.*
 Solo for flute, "Grand Fantasia," *Demersseman.*
 Mr. Eaton.
 Song, "Delight," *Luckstone.*
 Mrs. Holt.
 Finale, "The Erl King," *Schubert.*

An important feature of these concerts are lectures by Professor Louis C. Elson, who explains and interprets the program rendered.

Tickets may be obtained at the office of the Music Department, 43 Tremont street, Room 905, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

CHAMBER CONCERTS.

On Friday evening, at the South Boston High School, the third of the first group of "Chamber Concerts" was rendered before a large audience.

The production of "Chamber Concerts," while not a new idea in the musical world, is a step taken by the Music Department for promoting a greater interest in music. This action has been contemplated for years, and it is now deemed expedient to make the experiment in view of the fact that the audiences at the municipal concerts have reached that stage of appreciation and interest which indicate a desire for a further advancement.

While other large municipalities are striving to encourage and develop the idea of musical education by means of public support, none have as yet realized the results shown in this city. New York, San Francisco, Newark, Chicago and other large cities are to-day following the plan instituted by Boston.

The Chamber Concert is rendered by three instrumentalists, assisted by a vocal soloist. Thus affording an opportunity to demonstrate the value of the three instruments used, both in their independent character and in the ensemble. The piano, hitherto unused in our orchestral work, is employed and the subtle passages in the nocturnes, sonatas, etc., are interpreted in an artistic and delicate manner.

As a result the audience becomes more fully acquainted with the detailed uses of each instrument and the part that each takes in producing the harmony.

The vocal soloist is given a better opportunity to display his talent in the rendering of groups or collections of numbers of different schools, and thereby demonstrate to advantage the possibilities of a well trained voice.

This is the idea that underlies the advancement from orchestral to chamber concerts. While each section of the city will have the regular number of orchestral concerts allotted them as in the past, there will be in addition concerts of the trio character.

Beginning in January the trio concerts will be given at regular intervals in each section throughout the city. The tickets as for the orchestral concerts are free and may be obtained in the usual manner.

The results of the first three "Chamber Concerts" have been very gratifying. The overflowing hall of the Dorchester High School, where 1,100 people listened

with an interest full of appreciation, made it evident that the public approved the innovation.

It is the intention of the trustees to secure the services of Signor Antonio Turello, a celebrated double bass performer, who is in this country on a visit. He will be heard at one or more of our concerts. Signor Turello renders on the double bass selections originally written for violin or cello and he has achieved wonderful results on the instrument.

Organ recitals to be conducted at various churches throughout Boston are under consideration.

PERMISSION TO SELL.

FIRE DEPARTMENT.

The Mayor has granted to the Fire Commissioner permission to sell 3,942 pounds old lead cable and 3,797 pounds old dry cable to C. C. Blaney for 4½ cents per pound, this being the highest competitive bid for the same.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight O'Clock.

1910.
 Dec. 29. Famous Teachers of Music during Ten Centuries; their Methods and their Books. Leo R. Lewis. On occasion of the meeting of the Music Teachers' National Association.
 1911.
 Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.
 Jan. 12. *Photography in relation to Illustration. J. Horace McFarland.
 Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.
 Jan. 26. *The Paper and Binding of Books. Cedric Chivers.
 Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.
 Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.
 Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.
 Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.
 March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.
 March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.
 March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.
 March 23. Switzerland and the Rhine. Henry Warren Poor.
 March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

* Under the auspices of the Society of Printers.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight O'Clock.

1911.
 Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).
 Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
 March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
 April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

MARRIOLA PAVING BLOCKS.

Marriola is a shrub growing in the desert regions of Texas. It contains some rubber, and the pulp when subjected to pressure is very hard and will not absorb water. It is proposed to make paving blocks out of this pulp mixed with some asphalt. The tests show it to be almost indestructible.

FINANCE COMMISSION.

BOSTON, December 17, 1910.

To the Honorable the City Council:

GENTLEMEN.—On December 13 the Finance Commission received from Prof. F. Spencer Baldwin, secretary of the state commission which framed the original draft of the act to pension city and town officials (Acts of 1910, chapter 619), a communication which questioned certain statements in the Finance Commission's recent report to the City Council upon the said act.

Professor Baldwin's position is that the act, though admitted by himself to be defective, should be accepted by the City Council and by the people later in the hope that its defects will be remedied by the incoming Legislature. The Finance Commission, on the other hand, believes that the City Council should not rely upon the hope of future amendments by the Legislature, but should reject the act rather than expose the city to the danger of controversies, law suits and serious financial loss.

The commission believes it unnecessary to restate its position as to all the defects in the act, as it has carefully considered Professor Baldwin's letter and is unable to change its attitude respecting any of the defects pointed out in its original report on this subject.

There are several statements and admissions in Professor Baldwin's letter, however, which seem to require comment.

He says that the commission cites but one example in support of the "sweeping assertion" that the act is full of defects, and yet he considers and attempts to answer no less than seven of the commission's criticisms of the act.

He admits that the words "or is retired," which appeared in the original draft of the act as it came from the Old Age Pension Commission, were in some way dropped out in the passage of the bill through the Legislature and hence do not appear in section 6 (2) B, but adds that if necessary these words could be restored by an amendment to the act. That is the trouble, and the trouble is typical of the act as a whole. Professor Baldwin and the other advocates of the act intended one thing, but the act provides something else.

He states that the provisions of the act would not prevent the election of the second member of the Retirement Board, as he believes the date of the election for the second member could be fixed by the Election Commissioners later than thirty days after the establishment of the retirement system. But the statute expressly provides that the election shall be held within thirty days after the establishment of the system and the Election Commissioners have no power to fix the date for a later period.

He does not make a sufficient answer to the commission's statement that grave dangers exist in the provisions relating to the Board of Retirement. He does not deny the existence of these dangers, but says that "it is inconceivable that the Board would exercise its powers without regard to the wishes of the heads of departments." It is certainly not inconceivable to anyone who is familiar with political methods. No such dangerous power should be given.

In this connection the commission desires to call the attention of the City Council to a still further financial danger.

By section 4 (2) it is provided that the members of the Board of Retirement "shall be reimbursed out of the contingent fund for any expense or loss of salary

or wages which they may receive through service on the Board." No power is given, however, to any tribunal other than the Board itself to fix the amount of the loss which its own members may claim to have sustained.

By the same section (4) the Board is given power "to employ such clerical or other assistance as may be necessary for the fulfillment of its purposes." By section 5 (1) the city "shall appropriate annually such an amount as may be necessary to defray the whole expense of administration according to estimates prepared by the treasurer," and by section 6 (1) "in case the amount appropriated for the expense fund in any year should prove insufficient the city shall appropriate in the following year such additional sum as may be required to cover the deficit."

There is thus absolutely no limit upon the extravagance of the Board. Under the new charter amendments heads of departments are criminally liable if they intentionally exceed their appropriations, but this Board (over whose members there is no power of removal anywhere) is expressly given full liberty to spend what it pleases, and if it exceeds its appropriation the city next year must make up the deficit.

With a political board an overloaded pay roll would be more than a possibility. The commission believes that this danger is a real one, and like others already pointed out is not properly characterized as a "quibble" or a "wild exaggeration."

Professor Baldwin seems to concede the truth of the Finance's Commission's statement that there is less reason for pensioning clerks and salaried officials above the grade of clerks than there is for pensioning laborers, but he says that the receipt of a good salary is not in itself a guaranty that an employee will make due provision for his old age. The commission believes that the city is not bound to insure its high salaried officials against their own improvidence, but that it is a grave injustice to require relatively low paid private employees to bear additional taxes to provide against such improvidence.

Finally, the commission believes that Boston should not be singled out to experiment with a defective act. There are now only four cities in the state, including Boston, which can possibly accept the act during the present year, and the effort to secure its acceptance seems to be concentrated upon Boston. In twenty-eight of the other twenty-nine cities of the state the act was not accepted by the City Council and therefore was not submitted to the people at the municipal elections held during the present month. In one of the twenty-nine cities, New Bedford, the act was accepted by the Council and it was accordingly submitted to the people at the municipal election. The people, however, rejected it overwhelmingly, the vote for rejection being 6,568 and for acceptance only 2,232.

Respectfully submitted,

THE FINANCE COMMISSION,

by JOHN A. SULLIVAN,

Chairman.

PROFESSOR BALDWIN'S REPLY
TO RECOMMENDATIONS OF
FINANCE COMMISSION.

BOSTON, December 19, 1910.

To the Honorable the City Council:

GENTLEMEN,—I received a copy of the communication addressed to you to-day by the honorable chairman of the Finance

Commission, John A. Sullivan, Esq. I have not had time to give this communication extended examination, but I find in it, on first reading, some statements upon which I wish to offer comment. The communication defines my own position as follows:

"Professor Baldwin's position is that the act, though admitted by himself to be defective, should be accepted by the City Council and by the people later in the hope that its defects will be remedied by the incoming Legislature."

This statement is not entirely fair to me. My position is that any defects now existing in the act are of minor importance and do not justify delay in its acceptance. If the City of Boston must wait, before establishing a retirement system, until an absolutely letter-perfect draft of an act is submitted, in which no slight flaw can be found by the most ingenious legal critic, then the city will never have a retirement system. In fact, any act that might finally be adopted and put into operation would without the slightest question require later perfecting amendments in the light of experience with the working of the system. As for the act now under consideration, its alleged defects are insignificant. They are not of such a character as to interfere with the successful working of the plan. They are easily remediable by legislation and it is absurd to argue or imply that the Legislature would not promptly enact such minor amendments as might be proposed at the beginning of the next session. By neglecting to act upon the measure at this time the City Council would take the risk of postponing indefinitely the solution of the retirement problem. If the whole matter is thrown back into the arena of preliminary discussion there will be serious risk either that no retirement system whatever may be established, with resulting continuance of the present waste in the service, or that some noncontributory plan involving needlessly heavy expense to the city may be forced through the Legislature. The risk of postponement seems greater than any risk of action.

The commission remarks that I considered in my letter no less than seven criticisms of the act, while maintaining that the commission had cited only one example in support of the sweeping assertion that the act was full of defects. The example in question was, in fact, the only one expressly cited in the communication of the commission. The other points of criticism taken up in my letter related to objections not presented by the commission as illustrating defects in the act. My reply to the "sweeping assertion" was based directly on the commission's own statement of a single example.

In connection with the point raised as to the words "or is retired," the commission quotes my remarks that if necessary those words could be restored by an amendment, and adds: "That is the trouble; and the trouble is typical of the act as a whole." Here again the commission exaggerates. The "trouble" in this clause is not at all serious. In my previous communication I argued that the insertion of the words in question was not necessary, although it might be desirable in the interests of precision. Nor is the "trouble" here typical of the act as a whole, for this is the only instance of an omitted phrase that could give rise to misinterpretation of the intent of the act.

With respect to the provisions for the election of the second member of the Retirement Board, the commission represents me as stating that the meeting for

such election could be fixed by the Election Commissioners later than thirty days after the establishment of the retirement system. I made no such statement and had no such thought. I did intimate that the meeting could be called within the thirty-day period, notwithstanding the provision that employees shall have sixty days in which to declare their intention as regards membership, and I am still of that opinion. The commission has misunderstood my statement on this point.

The commission advances another reason for its contention that the provisions relating to the Retirement Board involve financial danger, and remarks in this connection that I did not make a sufficient answer to the commission's previous statement on this point. I characterized the previous statement as "far-fetched and fanciful—trumped up for boggy purposes," and the additional reason impresses me as of the same character.

I cannot see that the argument in my previous letter has been shaken by the commission's rebuttal. I regret that the commission did not issue the second communication in time so that I might have been able to give it thorough consideration and make detailed reply before to-day's meeting of the council. I am glad, however, to observe that the tone of this communication indicates that the commission is now disposed to give this subject serious and courteous treatment, instead of dismissing the whole plan in the flippant fashion of their first communication to the council.

Very respectfully,
F. SPENCER BALDWIN.

A TUNNEL STREET.

A tunnel street now under discussion in New York is not only a novelty in municipal engineering but is also a most convincing proof of the important part the subway railway plays in the daily lives of the people in its vicinity. Owners of property in the neighborhood of West One Hundred Ninety-first street, Manhattan, have to climb a considerable hill and then descend deep shafts to reach the subway, and they therefore, suggested the possibility of constructing a tunnel from Broadway to a new subway station at One Hundred Ninety-first street. It was originally proposed to make it 18 feet wide and 14 feet high, but since the city's engineers have been looking into the project the dimensions have been reduced to about 12 by 12 feet. It will be about 800 feet long, and its cost is estimated at less than \$100,000. The tunnel will not interfere with other uses of the property through which it will pass and it is expected that the required easement will cost comparatively little. The owners of property in the vicinity believe that the tunnel will be so advantageous to them that they can afford to pay the entire cost of the acquisition of the easement and actual construction. This also is a somewhat novel position for real estate owners to take, for they usually hold that the expenses of all improvements should be met by the city, since the latter will speedily recoup itself by higher taxes.—*Engineering Record.*

NEW SUBWAY SYSTEM.

The extensions proposed for the New York subway include 44.2 miles of tunnel or 133 miles of single track. The original or existing subway is 25 miles long with 81.2 miles of single track. The new system calls for the excavation of 9,158,000 cubic yards of earth and the use of 1,865,000 cubic yards of concrete.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 19, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair. Absent—Coun. Hale.

The Council voted, on motion of Coun. BRAND, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894, viz.:

Twenty-two grand jurors, Superior Criminal Court, to appear January 2, 1911, viz.:

Alonzo H. Conant, Ward 22; Frank J. McGarry, Ward 5; Louis W. York, Ward 23; John J. Connelley, Ward 20; James A. Lynch, Ward 14; Edward S. Durgin, Ward 17; Timothy Ford, Ward 5; Lewis L. Bates, Ward 1; Clemens Hucksam, Ward 17; Ralph W. Welch, Ward 20; Christian Hoehle, Ward 22; William J. Cummings, Ward 3; Peter B. Farrell, Ward 25; Edgar F. Hathaway, Ward 20; Lee E. Gould, Ward 24; Jesse M. Deane, Ward 11; Thomas P. Freeman, Ward 12; Michael Walsh, Ward 24; Luke F. Norton, Ward 24; Henry A. Hulse, Ward 22; Patrick J. Daley, Ward 12; William J. Ellis, Ward 20.

Forty-one traverse jurors, First Session, Superior Criminal Court, to appear January 4, 1911, viz.:

Charles Stokinger, Ward 19; James T. Waite, Ward 14; Edward W. Gormley, Ward 23; Peter H. Henderson, Ward 23; Gratian R. Johnson, Ward 1; Aaron Dangel, Ward 20; Burton C. Chase, Ward 12; John H. Benson, Ward 2; Henry H. Levenson, Ward 8; Martin O'Toole, Ward 15; John H. Nay, Ward 23; Bernard W. Kenney, Ward 20; George F. Hatheway, Ward 11; Thomas T. Rayner, Ward 11; James J. Corliss, Ward 15; John J. Galvin, Ward 20; John H. Cavanagh, Ward 20; Gilbert H. Ryan, Ward 22; William T. Holmes, Ward 1; William Cahill, Ward 24; Leon A. Thomas, Ward 17; Copel Levenson, Ward 21; James Gillespie, Ward 2; William H. Selby, Ward 18; Louis Gold, Ward 12; John Martin, Ward 17; Georg Seeber, Ward 3; Charles E. Peatfield, Ward 20; John E. Welsh, Ward 19; Edward J. Goodman, Ward 21; Thomas E. Murray, Ward 16; Patrick J. Leary, Ward 3; Lorenzo Trafton, Ward 15; James H. Fitzpatrick, Ward 22; John P. Courtney, Ward 22; Charles J. Lynch, Ward 11; Thomas H. Cassin, Ward 23; Daniel J. Danahy, Ward 12; Bernard Gallagher, Ward 24; John J. Flynn, Ward 23; John J. Lynch, Ward 9.

Forty-one traverse jurors, Second Session, Superior Criminal Court, to appear January 4, 1911, viz.:

William F. Talbot, Ward 10; Godfroid Charron, Ward 17; John Murray, Ward 10; Andrew Walsh, Ward 16; John E. Kearney, Ward 19; Daniel Bowden, Ward 5; Thomas F. Connor, Ward 22; Frank E. Hoffman, Ward 17; Ernest Keepers, Ward 16; William L. Gifford, Ward 20; Edmund A. Lowd, Ward 17; John O'Connor, Ward 12; Leo C. Fandrey, Ward 14; Charles E. Oliver, Ward 11; John E. Cook, Ward 23; Archibald Gillies, Ward 4; Charles H. Meaney, Ward 20; Anton Peterson, Ward 23; Frederick L. Rich, Ward 17; William T. Henderson, Ward 20; Fred A. Bucknam, Ward 6; Francis M. Scully, Ward 17; John J. Hanley, Ward 11; Frank E. Walter, Ward 2; Florentine Puffer, Ward 20; Warren A. Higgins, Ward 22; Joseph O'Brien, Ward 12; John C. Welton, Ward 17; John N. Wirth, Ward 22; C. Willard Bigelow, Ward 11; Frank T. Hull, Ward 20; Christopher Dawe, Ward 1; Andrew Johnson, Ward 24; John F. Sullivan, Ward 2; Walter Adlard, Ward 16; Frank Halloran, Ward 13; John H. Bidwell, Ward 24; James F. O'Neill, Ward 4; John M. Brauneis, Ward 23; Joseph A. Tighe, Ward 16; George H. Fuller, Ward 25.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments, viz.:

- (1) Frank H. Cowin (509 Columbia road, Ward 20), a Constable of the City of Boston for the term ending April 30, 1911.
- (2) Lindsey W. Churchill (369 Winthrop street, Winthrop, Mass.), Harry Rosenthal (34 Clifton street, Ward 17) and George T. Wood (11 Union street, Somerville, Mass.), to be Weighers of Coal for the term ending April 30, 1911.
- (3) George T. Wood (11 Union street, Somerville, Mass.), a Measurer of Wood and Bark for the term ending April 30, 1911.

Severally laid over under the law.

CERTIFICATES FOR SOLICITORS.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1910.
To the City Council:

I beg to transmit the accompanying letter from Mr. Louis Starr, which proposes that certificates or cards of identification be issued to solicitors of aid or contributions for causes that may be deemed

reputable by the authorities charged with the duty of investigating such cases.

Respectfully,
JOHN F. FITZGERALD, Mayor.

December 15, 1910.

Honored Sir,—Knowing your interest in every civic movement for the good of our city, I beg to submit to you a brief plan for the regulation of public soliciting schemes for charitable and other purposes.

We have something like twelve hundred organized charities here in Boston, besides many hundreds more of benefits and special occasions. Connected with them is an army of solicitors which constantly invade the business offices and homes of our city, appealing for funds and support.

Why not organize this work by establishing a sort of "Clearing House" at City Hall, under the supervision of some department of the city? Let there be a "Bureau of Information," with a card index having a compact history of every kind of begging scheme, this bureau to have authority to issue a card of identification to solicitors of worthy causes and without which no one will be allowed to seek funds from any business house or canvass the general public.

In other cities organized plans have worked great advantage along these lines, removing distrust and giving confidence to worthy charities, while rooting out schemes organized for the benefit of the solicitor. In some cities it has been found that over 60 per cent of soliciting schemes were fraudulent.

Such a plan would not cost over \$10,000 a year and would save business and professional men from \$100,000 to \$200,000 every year. I trust you may take this matter under advisement and that something may be done to relieve this constantly increasing annoyance and loss. Such a movement would be highly commended by all citizens and meet with hearty public support.

Very respectfully yours,
LOUIS STARR.

Hon. John F. Fitzgerald,
Mayor of the City of Boston,
City Hall, Boston, Mass.
Referred to the Executive Committee.

CHILDREN ON STREETS.

The following was received:

City of Boston,
Office of the Mayor, December 19, 1910.
To the City Council:

In accordance with the promise contained in my message addressed to your honorable body at its meeting of December 5 to forward the report and recommendations of the Police Commissioner upon a suggestion from a committee of the Boston Home and School Association prohibiting children under fourteen years of age from frequenting certain districts of the city after nine o'clock in the evening, I beg to transmit the accompanying letter from the commissioner.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Police Department,
December 8, 1910.

William A. Leahy, Esq., Secretary:

Dear Sir,—I beg to acknowledge receipt of your letter of December 6, in which by direction of his Honor the Mayor you ask me to "express an opinion upon the advisability of passing the ordinance recommended in the inclosed communication from a committee of the Boston Home and School Association—an ordinance that would prohibit all children under fourteen years of age from frequenting the business section of the city after nine o'clock in the evening." You inclose also "several reports from investigators, describing conditions as they found them in the downtown streets during the late hours of the evening."

Your inquiry applies to one of many aspects of a subject on which I expressed myself in my annual report for 1906, following the passage that year of the so-called juvenile laws, in these terms:

"The commissioner cannot yet express an opinion as to the actual effects of the laws upon the children themselves; but his sincere hope is that they may check the tide of juvenile disregard for law and order which he considers the most difficult and important problem now confronting the police of Boston."

In the four intervening years the opinion then expressed has undergone no change. Therefore it is because of no failure on my part to appreciate the importance of the matter that I have said repeatedly to ladies and gentlemen who have called upon me with reference to the passage of a "curfew" law or ordinance that until I could see the actual draft of such proposed law or ordinance I could not express an opinion as to its usefulness or its practicability. No such draft has ever been shown to me and none accompanies the documents which you forward with your letter.

The presence in the streets after nine o'clock in the evening of boys and girls under fourteen years of age is common to all parts of the city, and the calls for a remedy are quite as numerous in Dorchester and other semisuburban sections as elsewhere. Special investigations were not needed for proof of a condition whose existence no one has ever questioned. The remedy is one thing; but as far as my knowledge goes no person who has faith in the nine o'clock "curfew" as a check to

this evil has ever offered a draft of an ordinance under which the Boston police might act.

I beg to suggest that the first step in the direction desired by the petitioners should be the preparation by a competent lawyer of a draft of an ordinance which might be submitted to the Mayor and the City Council. I have not made a special study of the subject from a legal standpoint, but practical experience as Police Commissioner enables me to say without such study that the lawyer who undertakes to draw the ordinance will need to consider among many questions the following:

1. The area within which the prohibition on children shall be in effect. The petition from the Boston Home and School Association suggests "the business district of the city as defined in the police manual." But that district was established for a wholly different purpose, namely, the exclusion of hawkers and peddlers in business hours. Many parts of the city in which it is especially objectionable that children should spend their time at night are far outside its limits. This fact is emphasized by the choice of localities in several instances made by investigators whose reports are under consideration.

2. The circumstances exempting a child from the operation of the ordinance, such as the company he is in, distance from home, reasons for his being abroad, etc.

3. An ordinance creating an offence is worthless without a penalty for violation: and a fine is the only penalty which the city has the power to prescribe. But under the laws of the state, a child who is not fourteen years of age cannot be made to pay a fine and neither can his parents be made to pay it for him. A court may consider an offence deserving of a fine and may undertake to impose it, but should no one come forward with the money the offender under fourteen must be released unconditionally or on probation.

4. A large proportion of the children abroad in the streets after nine o'clock are so young, from ten years downwards, for instance, that they are practically independent of legal control and penalty, no matter what offence they may commit. A good many of such ages were seen and reported upon by the investigators.

These considerations and others of a like character should be taken into account in drawing an ordinance. Should a draft be made and should my opinion of its provisions be requested I shall give it with pleasure.

Respectfully,

STEPHEN O'MEARA,

Police Commissioner for the City of Boston.

Referred to the Committee on Ordinances.

RETIREMENT SYSTEM FOR EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1910.

To the City Council:

I beg to transmit a communication addressed by Prof. F. Spencer Baldwin, executive secretary of the Old Age Pension Commission, to the chairman of the Boston Finance Commission, on the subject of the report of the latter body upon chapter 619 of the Acts of 1910, known as An Act Authorizing Cities and Towns to Establish Retirement Systems for Their Employees, and the report of the special committee appointed to consider the effects of the adoption of this act to the monthly conference of members of the City Council and the heads of departments.

Respectfully,

JOHN F. FITZGERALD, Mayor.

For this communication see page 932 of the *City Record* of December 17.

Referred to the Executive Committee.

PURCHASE OF LIGHTING EQUIPMENT.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1910.

To the City Council:

I beg to transmit a communication from the Superintendent of Streets, recommending that a loan order of \$310,000 for the purchase of lighting equipment be utilized in the event of the acceptance of Item E in a recent set of proposals for the lighting of the city streets, and a second loan order of \$75,000 for the construction of an incinerator in the Brighton district, be adopted by your honorable body.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Street Department,
Boston, December 15, 1910.

To the Honorable the Mayor:

As you are aware, we are asking for bids for doing a part of the city street lighting. These bids will be opened on December 24, 1910. Item D calls for the furnishing and installation of approximately 10,000 gas lamps with incandescent mantle burners. Item E calls for furnishing and installing approximately 10,000 gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices. Under these two items, if it is deemed to the advantage of the city, the city may

purchase the equipment and do its own lighting. I do not think that there is any fund available at present to make this purchase, in case the bids should show that it would be to the advantage of the city to do so. If Item D were accepted it is estimated that the cost of the equipment would be in the neighborhood of \$185,000. If Item E were accepted, which is in line with the recommendations of the Finance Commission, it is estimated that the equipment would cost approximately \$310,000. It would appear to me to be wise for the City Council to appropriate \$310,000, so that the parties contemplating bidding under Items D and E may know that the money is available if their bid is accepted. If Items A, B and C were accepted this appropriation could be returned to the general funds of the city. I would further recommend that the honorable City Council appropriate \$75,000 for the construction of an incinerator in the Brighton district, to destroy all the city refuse in this district. Respectfully,

L. K. ROORKE,

Superintendent of Streets.

The communication was declared referred to the Committee on Finance.

Coun. CURLEY—Mr. President, I would most respectfully move reconsideration of that reference, and if that motion prevails I will move reference to the Executive Committee.

Reconsideration was declared lost. Coun. CURLEY doubted the vote and asked for the yeas and nays.

Reconsideration was declared carried, yeas 3, nays 2.

Yeas—Coun. Buckley, Curley, Kenny—3.

Nays—Coun. Attridge, Ballantyne—2.

Coun. CURLEY—Mr. President, I most respectfully move reference of this matter to the Executive Committee.

Coun. KENNY—Mr. President, when I entered the room and answered to my name I supposed I was responding to a roll call. May I inquire what the vote was?

President BALLANTYNE—On reconsideration of reference of a message to the Committee on Finance.

Coun. KENNY—May I inquire further just what the matter was?

(The Clerk read the message.)

Coun. KENNY—May I under the circumstances, understanding now what the matter is, ask to have my vote changed to "no"?

President BALLANTYNE—With unanimous consent the councilor will be allowed to change.

Coun. CURLEY—Mr. President, I object. I understand that the motion before the body is reference to the Executive Committee.

President BALLANTYNE—The question comes on the motion made by Coun. Curley that this matter be referred to the Executive Committee. That failing, another motion would be in order to send it to the Committee on Finance.

Coun. KENNY—Mr. President, I sincerely trust that the motion will not prevail, but that the matter will be referred, as originally, to the Committee on Finance.

Coun. Kenny's motion to refer to the Committee on Finance was declared carried.

Coun. CURLEY doubted the vote and asked for the yeas and nays.

The matter was referred to the Committee on Finance, yeas 3, nays 2.

Yeas—Coun. Attridge, Ballantyne, Kenny—3.

Nays—Coun. Buckley, Curley—2.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Sadie Stone, for a hearing on her claim on account of an accident at corner Ashland and Chambers streets.

Wolf Helman, for hearing on his claim on account of a defective highway.

Joseph H. Patterson, to be paid wages for time lost on account of an accident.

Jessie Murphy, for compensation for injuries received on Meridian Street Bridge November 22, 1910.

John J. Lahey, to be refunded money paid for treatment at the City Hospital, said amount having been previously paid.

Lorenzo D. Perkins, to be reimbursed the expense of a suit brought against him for his acts while deputy master at the House of Correction, Deer Island.

Executive.

Petitions for children under fifteen years of age to appear at places of amusement, viz.:

Helen Guest, for children to appear at Horticultural Hall on evening of December 16 and afternoon of December 17.

Leonora E. Scully, for children under fifteen years of age to appear at Bethel Church on December 22.

Harriet Brackett, for children to appear at North End Union Hall on January 13, 1911.

CLERK HIRE.

W. T. A. Fitzgerald, Register of Deeds, submitted a report in accordance with the provisions of section 33, chapter 22, of the Revised Laws, cer-

tifying that certain persons have been employed in his office from November 21 to December 19, and that work had been performed to the amount of \$3,119.72.

Referred to the Committee on County Accounts.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted by the Secretary of the Commonwealth was received. Placed on file.

NOTICE OF APPOINTMENT.

Notice was received from the Mayor of the appointment of Salem D. Charles as Street Commissioner, a certified copy of the same having been delivered to the Civil Service Commissioners on December 15.

Placed on file.

STORAGE OF GASOLINE.

Notice was received from the Armstrong Transfer Express Company, Troy and Albany streets, Ward 9, of the keeping of gasoline in said building, and of intention to use for same purpose for the ensuing year.

Placed on file.

OLD AGE PENSIONS.

Communications were received on the subject of old age pensions, and were referred to the Executive Committee. (See page 944.)

INFORMATION CONCERNING BOSTON DISPOSAL COMPANY.

The following was received:

Boston, Mass., December 19, 1910.

To the City Council:

A copy of the order adopted by your body on December 12, requesting the Boston Disposal Company to submit "a list of names of its officers, administrative, executive and legal, also a list of stockholders in said company and their place of residence, and the amount of the capital stock of said company" has been sent to me by the City Clerk. I can only state in reply that the Boston Disposal Company is not yet an existing corporation but only a prospective one, as was made clear in the bid which was submitted on behalf of the proposed organization when public proposals were called for two months ago by the Superintendent of Streets.

The information asked for cannot, therefore, be furnished, as the proposed corporation has no officers or stockholders as yet, and my own relation to it is only that of a prospective incorporator or organizer, in case the city decides that it would be willing to make a contract with such a corporation upon the general lines proposed in our bid.

If such steps are taken on behalf of the city as to warrant the incorporation of the company, I am sure that its organizers will be ready to furnish the City Council all such information as is called for by the order, as it will be the policy of the company, composed, as it will be, of responsible Boston business men, to deal with the city and the public in the most frank and open manner.

Yours respectfully,

FRANK H. PAYNE.

Placed on file.

CONFIRMATION OF APPOINTMENT.

The Council proceeded to consider No. 1, unfinished business, viz.:

Action on appointment submitted by the Mayor December 12, 1910, viz.:

1. George P. Thomas, to be a Weigher of Coal for the term ending April 30, 1911.

The question came on confirmation. Committee—Coun. Brand and Buckley.

Whole number of ballots cast 5, yeas 5, and the appointment was confirmed.

PLAYGROUND, JAMAICA PLAIN.

Coun. BRAND offered an order—That the Superintendent of Public Grounds be authorized to hire for playground purposes during the current year the Goodwin estate on Carolina avenue, Jamaica Plain, and to pay therefor the sum of one dollar and the taxes assessed on said estate for the present year, the amount so paid to be charged to the appropriation for Public Grounds Department. Passed.

COASTING ON STREETS.

Coun. BRAND offered an order—That the Board of Street Commissioners be requested to allow coasting during the present winter, under such restrictions as the Police Commissioner may deem proper to impose, in the following-named streets:

Division 1. (North End.)

Hull street, between Snow Hill and Salem streets, Charter street, between Salem and Unity streets, Snow Hill street, between Hull and Prince streets, Margaret street, entire length.

Division 3. (West End.)

Branch, Allen, Brighton, Spring, Poplar, North Grove, Billerica, Pitts and Norman streets, and Chambers street, between Poplar and Spring streets.

Division 5. (South End.)

Albany street, between Way and Dover streets.

Division 6. (South Boston.)

West Fifth street, between Dorchester and E streets, West Sixth street, between Dorchester and E streets, Dorchester street, between West Third street and the water front, Silver street, between Dorchester and C streets, F street, between West Third and West First streets.

Division 7. (East Boston.)

Sumner street, between McCormick square and Jeffries Point, Lamson street, between Sumner and Maverick streets, Brooks street, between Lexington and Saratoga streets, Glendon, Homer Horace, Pope and Breed streets.

Division 9. (Roxbury and Dorchester.)

Ambrose, Laurel, Belden, Fountain, Marshfield, Dewey, Hazelwood, Wyoming, Fairland and Holborn streets, Moreland street east of Blue Hill avenue, Forest street, between Vine street and Mt. Pleasant avenue, Whiting street, between Warren and Winthrop streets, Devon street, easterly from Blue Hill avenue, West Cottage street, between Blue Hill avenue and Dudley street.

Division 10. (Roxbury.)

Haskins, Hillside, Minden, Norfolk and Phillips streets, Chestnut avenue and Highland street, between Fort avenue and Cedar street.

Division 11. (Dorchester.)

Bailey, Bellevue, Ashmont, Dix, Denny, Pope's Hill, Maxwell, Morton, Richfield, Sumner, Trull, Train and Wales streets, Woodlawn avenue, Grampian way and Tremlett street.

Division 12. (South Boston.)

East Broadway, between N and P streets, Dorchester street, between East Third street and the water front, East Third street, between N and P streets, East Fifth street, between I and K streets, East Seventh street, between G and H streets, M street, between East Third and East First streets, Silver street, between G and Dorchester streets, H street, between Emerson and East First streets, I street, between Broadway and East First street.

Division 13. (West Roxbury.)

Adelaide, Boylston, Cornwall, Eggleston, Florence, Newburg, Newbern, Ridge, Rockwood, Walter, and Mt. Vernon streets, Belmont terrace, Chestnut avenue and Spring Park avenue, between Enfield street and Chestnut avenue.

Division 14. (Brighton.)

Newton, Union, Foster, Everett, Hobart, Saunders, Pomeroy, Parsons, Mansfield, Brooks, Dustin and Ridgmont streets, and Bigelow street at the easterly end.

Division 15. (Charlestown.)

Eden street.
Passed.

CONSOLIDATION OF DEPARTMENTS.

Coun. KENNY offered an order—That the Corporation Counsel be requested to draft and submit to the City Council an ordinance transferring the powers and duties of the Public Grounds, Bath and Music Departments to the Park Department.

(The order was read at request of Coun. Curley.)
Coun. CURLEY—Mr. President, I most respectfully move that further consideration be referred to the Committee on Ordinances.

Coun. Curley's motion to refer to the Committee on Ordinances was declared lost. Coun. CURLEY doubted the vote and asked for the yeas and nays.

The Council refused to refer the order to the Committee on Ordinances, yeas 3, nays 4:

Yeas—Coun. Brand, Buckley, Curley—3.
Nays—Coun. Attridge, Ballantyne, Collins, Kenny—4.

The order was passed.

INCREASED SALARIES FOR FIREMEN.

Coun. KENNY called up No. 2, special assignment, viz.:

2. Whereas, The high efficiency of the Boston Fire Department deserves appreciation and recognition that is consistent with the enlarged scope of its duties and its service in a great and wealthy metropolitan area; and

Whereas, There has been no increase in salaries of members of the Fire Department for twenty-three years; be it therefore

Resolved, That the Fire Commissioner be requested to consider the advisability and expedi-

ency of increasing the salaries \$200 annually of all members of the Fire Department who have served five years or more, if sufficient appropriation therefor should be made; and be it further

Resolved, That the Fire Commissioner be requested to consider the advisability and expediency of including in his estimates for the next fiscal year a sum sufficient to allow for the above increase.

Coun. KENNY—Mr. President, I want to suggest that this is a matter of so much importance, it is so vital a matter, that the Council should not be called upon to act unless it is satisfied that it is acting strictly within its rights under the charter. Therefore, in order that we may know just what our status is in this regard, I move that the resolution be referred to the Executive Committee with instructions that it procure the opinion of the Corporation Counsel as to the legality of any action taken by the City Council which attempts to fix wages or salaries of employees in the city departments.

Coun. Kenny's motion was carried.

RECESS TAKEN.

The Council voted at 3.49 p. m., on motion of Coun. BRAND, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber at 4.16 p. m., and were called to order by President BALLANTYNE.

HEARING TO VETERAN.

The City Council gave a hearing to Mr. Patrick J. Curley, a civil war veteran, employed as carpenter in the Public Buildings Department, on the charge that he had been under the influence of intoxicating liquor at certain times, that he had been guilty of insubordination, and that he was not competent to perform the grade of work required in the department. The hearing was given under section 1, chapter 500, Acts of 1910, and acts in amendment thereof and in addition thereto.

William J. Higgins, Esq., of the Law Department, appeared for Superintendent of Public Buildings M. J. Fish, and Francis J. Horgan, Esq., appeared for Mr. Curley.

President BALLANTYNE announced that the Council would take the matter under advisement.

Later in the session Coun. Buckley's motion to dismiss the charges against Mr. Patrick J. Curley was carried.

COUNTY ACCOUNTS.

Coun. ATTRIDGE, for the Committee on County Accounts, submitted a report on pay roll of Register of Deeds (referred to-day) to the amount of \$3,119.72—that the same be approved.

Report accepted; pay roll approved and ordered paid.

EXECUTIVE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on papers (severally referred to-day) concerning the pension of city and town officials—that said papers be placed on file, viz.:

Message of Mayor and communication from Prof. F. Spencer Baldwin to John A. Sullivan, chairman of Finance Commission, concerning the old age pension act.

Communication from Finance Commission to City Council concerning Professor Baldwin's communication on the old age pension act.

Communication from Prof. F. Spencer Baldwin in answer to communication from John A. Sullivan, chairman of Finance Commission.

Message and communication from Mr. Louis Starr, proposing that certificates or cards of identification be issued to solicitors of aid or contributions for causes that may be deemed reputable by the authorities charged with the duty of investigating such cases.

Reports severally accepted; said communications placed on file.

(2) Report on report of Committee on Ordinances (referred November 14) concerning ordinance regulating sale of articles by junk dealers, etc.—recommending the passage of an ordinance in the following new draft:

City of Boston.

In the Year Nineteen Hundred and Ten.

An Ordinance Concerning Junk Dealers, etc. Be it ordained by the City Council of Boston, as follows:

Section 44 of chapter 45 of the Revised Ordinances of 1898 is hereby amended by striking out all of said section and substituting the following new section to read as follows:

Section 44. No such shopkeeper holding a license from the police commissioner as a dealer in second-hand articles shall permit to be sold any article purchased or received by him until at least a period of thirty days from the date of its purchase or receipt has elapsed. Nor shall dealers in, and keepers of shops for the purchase, sale, or barter of junk, or old metals permit to be sold any article purchased or received by him until at least a period of one week from the date of its purchase or receipt has elapsed.

Report accepted; ordinance assigned to the next meeting on motion of Coun. CURLEY.

(3) Reports on petitions (severally referred to-day) for permits for children under fifteen years of age to appear at various places of amusement—that leave be granted, viz.:

Leonora E. Scully, for children to appear at Bethel Church on December 22.

Harriet Brackett, for children to appear at North End Union Hall on January 13, 1911.

Helen Guest, for children to appear at Horticultural Hall on evening of December 16 and afternoon of December 17.

Reports severally accepted, permits granted under usual conditions.

(4) Report on message of Mayor and communication from W. T. A. Fitzgerald, Register of Deeds (referred October 31), relative to additional fireproof fittings for Registry of Deeds office, having considered the subject, that his Honor the Mayor be requested to submit an order transferring \$9,000 from the Reserve Fund for said work, to be expended under the supervision of the Superintendent of Public Buildings.

Report accepted; said recommendation adopted.

NOTICE OF ELECTION.

President BALLANTYNE offered an order—That the City Clerk be directed to give notice, by advertising the same as required by law, that meetings of the male citizens of this city, qualified to vote for city officers, will be held in the several polling places designated for the purpose by the Board of Election Commissioners on Tuesday, the 10th day of January, 1910, to give in their votes for three members of the City Council and for two members of the School Committee; and also to give in their votes "Yes" or "No" in answer to the following question: "Shall licenses be granted for the sale of intoxicating liquors in this city?"

The City Clerk is also directed to give notice, as aforesaid, that meetings of the female citizens of this city, qualified to vote for School Committee of the City of Boston, will be held on the same day and in the same places, to give in their votes for two members of the School Committee.

The polls at said meetings will be opened at six o'clock a. m. and closed at four o'clock p. m.
Passed.

GENERAL RECONSIDERATION.

Coun. McDONALD moved general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

ANOTHER RECESS.

Coun. KENNY—Mr. President, I have just had word from one of the Mayor's secretaries that he is preparing an order which will require some action on the part of the Council to-day, with reference to the construction of a fire house on Albany street. The appropriation already made is insufficient to construct the building, and the Mayor is now preparing an order for us calling for an additional appropriation. The matter is one of very great emergency, and I think the Council should take a recess for a few minutes pending the arrival of the order from the Mayor.

The Council took a recess, subject to the call of the Chair, at 5.43 p. m., and was called to order by President BALLANTYNE at 6.15 p. m.

ADDITIONAL APPROPRIATION. REPAIR SHOP.

The following was received

City of Boston,

Office of the Mayor, December 19, 1910.

To the City Council:

I beg to recommend the passage of the accompanying loan order appropriating an additional \$20,000 for Fire Department, repair shop.

A communication from the Fire Commissioner, urging the appropriation of this additional sum, is appended hereto for your information.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston.

Headquarters Fire Department,

December 16, 1910.

Hon. John F. Fitzgerald, Mayor:

Sir—In response to the advertisement for bids for the new repair shop for this department the three lowest bids received were:

A. B. Carter.....	\$97,000
J. F. Griffin Company.....	99,416
A. Varnerin Company.....	99,631

A. The appropriation now stands it would be impossible to accept any of these bids.

The need for the repair shop is a matter of such urgent necessity that I respectfully ask that the City Council appropriate \$20,000 in addition to the \$90,000 already appropriated, in order that this department may proceed at once in the rebuilding of the shop.

Very respectfully,

CHARLES D. DALY,
Commissioner.

Ordered, That an additional sum of \$20,000 be appropriated, to be expended under the direction of the Fire Commissioner, for Fire Department, repair shop, and that to meet said appropriation the City Treasurer be authorized, with the approval of the Mayor, to issue bonds or certificates of indebtedness of the city to said amount.

The question came upon the passage of the order accompanying the message.

Coun. BRAND—Mr. President, I move you, sir, that this matter be laid on the table until the next meeting, pending the receipt of this information.

Coun. Brand's motion to assign to the next meeting was lost.

The order was read once and passed, yeas 7, nays 1, Coun. Curley voting nay.

President BALLANTYNE—The order will have its second reading and passage two weeks from this date.

MATTERS BEFORE FINANCE COMMITTEE.

Coun. BRAND offered an order—That the chairman of the Committee on Finance be requested to call a meeting of that committee to consider all matters now pending before it before the next meeting of this Council.

Coun. KENNY—Mr. President, I rise to a point of order, that under the rules of this Board matters referred to a committee are to be heard at a meeting of the committee called by its chairman.

President BALLANTYNE—The Chair will rule the point not well taken. There is a rule of this Board that says that committees shall report within three weeks unless given further time, and I think the order is quite in order.

The order was declared passed and Coun. COLLINS doubted the vote.

The order was passed, yeas 6, nays 0:

Yeas—Coun. Ballantyne, Brand, Buckley Collins, Curley, McDonald—6.

FINANCE.

Coun. KENNY, for the Committee on Finance, submitted the following:

(1) Report on message of Mayor and order (referred December 12) for loan of \$10,000 for Chelsea Bridge North, temporary—that the order ought to pass.

Report accepted; order read once and passed, yeas 7, nays 1, Coun. Curley voting nay.

The order will take its second reading after fourteen days have expired.

(2) Report on message of Mayor and order (referred November 14) relative to loan for \$250,000 for Chelsea Bridge North, temporary—that the order ought not to pass, without prejudice.

Coun. KENNY—Mr. President, I would like to say in this connection that we have made this report in view of the fact that the Mayor is about to petition the Legislature for legislation which may affect that appropriation. If the desired legislation is obtained there will be a reapportionment of the expense, which will affect the appropriation necessary to do the work. We make this report now because time is running against the order—not that we are adverse to the order itself, but to save our rights. If later on it is expedient to pass that order, I understand that the Council is quite prepared to do so. At the present time, however, we make that report.

The report was accepted and the order rejected.

THE NEXT MEETING.

On motion of Coun. ATTRIDGE it was voted that when the Council adjourns it be to meet two weeks from to-day, January 2, at 3 p. m., unless sooner called together by the President.

Adjourned, on motion of Coun. BRAND, at 7.08 p. m.

NEW MUNICIPAL SERVICE IN ST. LOUIS.

The citizens of Boston, who for years have been accustomed to accept every municipal service or convenience as a matter of course, may be surprised to learn that in St. Louis the householders have until now been compelled to assist in the handling and disposal of garbage.

Back yard collections of garbage have begun and hereafter citizens will not be forced to assist in the handling of garbage. There are some exceptions to the rule, but they are few. Where there is a rear alley or easy access from the front to a spot between 50 and 75 feet from the street line, the drivers will do the work. Otherwise the cans must be placed on the street as formerly. Collections will be made in the hotel sections six times a week; in the fire district three times and but twice in other parts of the city.

USE OF BLUE AND RED GUM FOR PAVING.

Most of the city of Melbourne, Australia, is paved with wooden block of red gum. Some of this has lasted for over twenty years and is still in good condition. Some blue gum is now being used for the streets.

CITY OF BOSTON.

PROPOSALS FOR TOOLS.

The School Committee of the City of Boston invites proposals for furnishing and delivering tools for machine shop in the Mechanic Arts High School, Belvidere street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$300. Only proposals obtained at the office of the Auditor of the School Committee, 168 Tremont street, Room 53, signed by the bidder, and left before 4 o'clock p. m. of Thursday, January 5, 1911, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate; the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The School Committee reserves the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

WILLIAM J. PORTER,
(Dec. 24.) Auditor of the School Committee.

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 11 o'clock Wednesday, December 28, for the hay, grain and straw needed in the different departments for January, 1911. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test 40 to 42 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Wednesday, December 28, 1910, at 11 a. m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
(Dec. 24.) Superintendent of Supplies.

READVERTISEMENT.

CITY OF BOSTON.

INSTALLING ELECTRICAL APPARATUS, WIRING, FIXTURES, GAS FITTING, ETC., IN THE CURTIS HALL BUILDING, JAMAICA PLAIN, WARD 22.

The Superintendent of Public Buildings of Boston, Mass., invites proposals for installing electric apparatus, wiring, fixtures, gas fitting, etc., in the Curtis Hall Building, Jamaica Plain, Ward 22, according to plans and specifications, and giving a bond of a surety company therefor, satisfactory to the superintendent, in the sum of \$1,500, to secure due performance of the contract and the full protection of the city. Only proposals which may be obtained at the office of the Superintendent of Public Buildings, Room No. 30, Old Court House, Boston, filled out, signed by the bidder, and left before 12 o'clock m. of Friday, December 30, 1910, at said office, with a certified check on a Boston bank for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the duplicate, without check, to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best for the city's interest.

M. J. FISH,
(Dec. 24.) Superintendent of Public Buildings.

CITY OF BOSTON.

NOTICE TO PHYSICIANS, MIDWIVES AND PARENTS.

Physicians, midwives and parents can obtain blanks for return of births on application at this office, or they will be mailed on request.

REVISED LAWS, CHAPTER 29.

(Extracts from Sections 1, 3 and 6.)

SECTION 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

SECT. 3. Physicians and midwives shall, on or before the fifth day of each month, report to the clerk of each city or town a correct list of all children born therein during the preceding month at whose birth they were present. . . . The fee of the physician or midwife shall be 25 cents for each birth so reported.

SECT. 6. Parents, within forty days after the birth of a child, shall cause notice thereof to be given to the clerk of the city or town in which such child is born.

All births in Boston to be reported to this office.

E. W. MCGLENEN, Registrar.
(Dec. 24-Jan. 7, 14, 21.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building elementary school, Roger Wolcott District, Norfolk street, Mattapan, Boston, Mass., and giving bond of a surety company therefor in the sum of \$20,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, January 3, 1911, at said office, with a certified check for \$2,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages. (C. K. Cummings, architect.)

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
(Dec. 24.) Commissioners.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for moving and setting up portable buildings in new locations in school yards, Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, December 30, 1910, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
(Dec. 24.) Commissioners.

CITY OF BOSTON.

TO ELECTRICAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing electrical system in Prescott boiler house annex, Polk street, Charlestown, Boston, Mass., and giving bond of a surety company therefor in the sum of \$1,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, December 30, 1910, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
(Dec. 24.) Commissioners.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

PROCEEDINGS OF SCHOOL COMMITTEE.

Dec. 19, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4.10 o'clock P. M., the Chairman presiding.

Present: Messrs Brock, Ellis, Lee, Magenis and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENT OF A TEACHER.

The Chairman stated the question was on approving the appointment of a teacher on probation, as reported by the Superintendent, and laid over at the last meeting.

The appointment was approved.

TRANSPORTATION OF BOSTON PUPILS ATTENDING SCHOOLS OF WINTHROP.

The following communication was received:—

CITY OF BOSTON.

Office of the Mayor.

Dec. 12, 1910.

School Committee,
Mason street,
Boston, Mass.

Gentlemen:

In returning, with my signature, the enclosed order passed by your honorable board, I desire to take the opportunity to point out the essential injustice of this arrangement. The city of Boston is charged by the town of Winthrop for the transportation and tuition of three children, residents of Deer Island, who are sent to the Winthrop schools, but the entire share of the county expense of Suffolk County, which would properly be paid by Winthrop, is assumed by the city of Boston. It would seem that a realization of this debt might have led the officials of that town to furnish desk room to these three children without insisting so rigidly upon payment for the travelling expenses thereby incurred.

Yours very truly,
John F. Fitzgerald,
Mayor.

Placed on file, and the Secretary directed to acknowledge the receipt thereof, and to inform His Honor the Mayor that the School Committee quite agrees with him that a disproportionate part of the county expenses falls upon the City of Boston, but it knows of no practicable way of dealing with this matter in any other manner than it has done.

INDEPENDENT INDUSTRIAL SCHOOL IN PRINTING AND BOOKBINDING.

A communication was received from the State Board of Education, under date of Dec. 13, 1910, stating that at the regular monthly meeting of that Board held on Dec. 9, 1910, the following vote was passed:

VOTED, That the State Board of Education approve, under the authority vested in it by the laws of the Commonwealth, the proposed independent industrial school in printing and bookbinding as organized by the School Committee of the City of Boston in accordance with memoranda submitted on Oct. 19, 1910; that the Board instruct the Commissioner to notify the Boston School Committee that the location, courses and methods of instruction of the school, if carried out as submitted, will be approved by the Board for the first year, without prejudice on the part of the Board to a subsequent revision of its views as to the proper courses and methods of instruction; and that the Board appoint the members from time to time of the Boston School Committee its legal representatives for the maintenance of said school.

Placed on file, and the Secretary directed to inform the State Board of Education that the School Committee will be glad to conduct this school in such manner as may be approved by said Board.

TEMPORARY HEATING OF BLACKINTON AND GIRLS' HIGH ADDITIONS.

A communication was received from the Board of Schoolhouse Commissioners, under

date of Dec. 12, 1910, stating that an arrangement has been made subject to the approval of the School Committee and with the approval of the Schoolhouse Custodian, whereby the contractors for the additions to the Blackinton School-house and the Girls' High School-house will make good to the city the amount of fuel consumed by the present plants in the main buildings in heating these additions which the contractors are required to do for the purpose of drying them out.

Approved and placed on file.

RENTAL OF HALL, ELIOT SCHOOL BUILDING.

A communication was received from the Board of Schoolhouse Commissioners, under date of Dec. 14, 1910, reporting that that Board has agreed to increase the rental of the hall in the Eliot School Building, Jamaica Plain, and occupied for a manual training room, from \$25 to \$35 per month, which includes heat, light, janitor's service and the use of all equipment.

Placed on file.

DEATH.

The Superintendent reported the death of the following named principal, who had been retired on pension:—

Emerson District—J. Willard Brown, master emeritus, Dec. 6, 1910.

Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:—

(To retire from the Service.)

Mary Hemenway District—A. Olive Wigley, assistant kindergarten, Dec. 23, 1910.

Sewing—Clara L. Dorr, teacher, Dec. 31, 1910.

Quincy Evening Elementary School—Bertha Hazard, principal, Jan. 6, 1911.

Accepted.

On motion of the Superintendent, it was

ORDERED, That the action of the School Committee on Nov. 22, 1910, whereby the resignation of Helen L. Burton, teacher of sewing, was accepted to take effect Dec. 31, 1910, is hereby rescinded.

RETIREMENT.

The following retirement of a teacher, to take effect Dec. 3, 1910, because of marriage, was reported by the Superintendent:—

Trade School for Girls—Mabel G. Rice, aid.

Placed on file.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SPECIAL ASSISTANTS.

Adams District—Elizabeth M. McLaughlin, Dec. 19, 1910.

Dearborn District—Stella M. Ives, Nov. 28 to Dec. 5, 1910, inclusive.

George Putnam District—Helen P. Gorman, Dec. 1, 1910.

Hancock District—Elinor G. Cowan, Dec. 2, 1910.

Harvard District—Grace E. Russell, kindergarten, Dec. 5, 1910.

Hugh O'Brien District—Helen M. Bulle, Oct. 3 to Dec. 5, 1910, inclusive.

Prescott District—William H. Ryan, Dec. 6, 1910.

Approved.

TEMPORARY TEACHER.

Washington Allston District—Roger A. Powers, sub-master (vice Louis P. Nash specially assigned), Dec. 12, 1910.

Placed on file.

ON PROBATION.

(From the Eligible List.)

Hancock District—Annie P. Guinee, assistant, Dec. 20, 1910.

Prescott District—William H. Ryan, assistant, Jan. 2, 1911.

Sewing—Mary F. Dutton, teacher, Jan. 2, 1911.

Manual Training—Grace M. Sawyer, Jennie G. Cook, assistant instructors, Jan. 2, 1911.

Approved, under a suspension of the rules.

(By Promotion.)

Dudley District—Hugh J. McElaney, sub-master (from assistant), Jan. 2, 1911.

Samuel Adams District—Helen L. Denison, first assistant in charge (from assistant), Jan. 2, 1911.

Laid over.

EVENING SCHOOLS.

Term of 1910-11.

Central Evening High School—Lester S. Hart, assistant, Dec. 9, 1910.

Approved.

PRINCIPAL.

Quincy Evening School—Allan L. Sedley, Jan. 9, 1911.

Laid on the table.

ATTENDANTS IN KINDERGARTENS.

Phillips Brooks District—(Hull Kindergarten) Annie First, Sept. 15 to Oct. 6, 1910, fourteen days; Elizabeth Lubelsky, Sept. 15 to Oct. 8, 1910, sixteen days.

Prescott District—(Polk Street Kindergarten) Grace T. Garrity, Sept. 14 to Sept. 23, 1910, seven days.

Placed on file.

CONFIRMATIONS.

The following confirmations were submitted by the Superintendent:—

English High School—Harry E. Bryant, Joseph P. Cady, instructors.

Girls' High School—Amy V. Kingston, assistant.

Adams District—Angela M. L. Brown, assistant kindergarten; Clara B. Cochran, Mary E. Kennedy, first assistants kindergarten; Asnes G. Cotter, Agnes G. Gunning, Mary M. Hayes, assistants; Edith G. Hunter, assistant, kindergarten.

Christopher Gibson District—Mary B. Cashman, assistant.

Dearborn District—Mary J. O'Neill, assistant.

Dudley District—Gladys G. Davie, assistant.

Dwight District—Bessie C. MacBrine, assistant.

Francis Parkman District—Alice E. McMurrugh, assistant.

Frederic W. Lincoln District—Susie L. Fitz, assistant.

Frothingham District—Margaret M. O'Connor, assistant.

George Putnam District—Katherine E. Hurley, Myrtle W. Webster, assistants.

Gilbert Stuart District—Lillian A. Smith, assistant, kindergarten.

Hancock District—Kathryn E. G. Barry, Mary G. Coyle, assistants.

Hugh O'Brien District—Carolyn B. Supple, Mary J. Hynes, assistants.

John A. Andrew District—Ethel M. Jones, assistant, kindergarten.

Lawrence District—Florence Herbsman, assistant.

Lewis District—Louise M. Fitzpatrick, assistant.

Lyman District—Mary A. G. Jones, Mary E. Keenan, Mary E. Lowder, assistants.

Mary Hemenway District—Florence M. Fogarty, assistant.

Phillips Brooks District—Alice G. Kelley, assistant; Amy E. Lang, first assistant, kindergarten; Margaret M. Riley, assistant, kindergarten.

Prescott District—Gertrude E. Welch, assistant.

Quincy District—Leanna A. Hicks, Ruth E. York, assistants, kindergarten; Gertrude P. Tobin, assistant.

Rice District—Emma A. Brust, Alma M. Nilson, assistants.

Sherwin District—Katherine E. Hurley, assistant.

Wells District—Martha E. Daniels, Margaret R. Kenneally, Eileen A. Sweeney, assistants.

Wendell Phillips District—Katharine W. Moffat, Mary T. Sherry, assistants.

Manual Training—Mary I. Donlan, instructor.

School Hygiene—Blanche G. Wildes, assistant nurse.

Approved.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence was granted each of the following-named teachers for the terms specified:—

Charlestown High School—Agnes C. Flynn, special assistant instructor, commercial branches, Dec. 5, 1910.

Bunker Hill District—Cora V. Enwright, assistant, from Jan. 2 to May 1, 1911; Annie B. Hunter, assistant, Dec. 14, 1910.

Dillaway District—Florence A. Fitzsimmons, first assistant, kindergarten, Dec. 6, 1910.

Francis Parkman District—Mabelle E. Lounsbury, assistant, from Dec. 23, 1910, to Feb. 24, 1911.

Hancock District—Mary J. Murray, assistant, Dec. 1, 1910, one-half day.

Harvard District—Grace M. Broaders, assistant, Nov. 7, one-half day, and Nov. 8, 1910; Elizabeth Desmond, assistant, Nov. 2, 1910, one-half day; Sarah V. Porter, assistant, Nov. 2, 1910, one-half day.

Henry L. Pierce District—Anne M. Covey, assistant, Dec. 12, 1910, A.M.; Frances L. Easer, assistant, Dec. 9, 1910.

Horace Mann School—Amy M. Pleadwell, assistant, Dec. 20, 1910.

Lowell District—Ethelyn C. Hallstrom, assistant, from Dec. 1 to 23, 1910.

Mather District—Elizabeth V. Cloney, assistant, from Jan. 16 to 31, 1911.

Oliver Wendell Holmes District—Aloyse B. Tierney, assistant, Dec. 2, 1910, one-half day.

Prince District—Laura K. Hayward, first assistant in charge, from Dec. 8, 1910, to March 1, 1911; Inez A. Hunt, assistant, from Dec. 1 to 31, 1910, inclusive.

Washington Allston District—Alice A. Swett, first assistant, grammar, Nov. 11, 1910, one-half day; Annabelle L. Troupe, assistant, Nov. 16, 1910, one-half day.

School Hygiene—Mary A. Didham, assistant nurse, Dec. 15, 1910, one-half day, without pay; Mary G. Kenny, assistant nurse, Dec. 12, 1910, one-half day.

On the report of the Superintendent, and under a suspension of the rules, leave of absence, without loss of pay, was granted the following-named teacher for the term specified:—

Department of Music—Blanche Tibbits, assistant, Nov. 21, 22 and 23, 1910, two and one-half days.

On the report of the Superintendent, leave of absence for rest, under the provisions of section 317 of the regulations, was granted the following-named teacher for the term specified:—

Prince District—Abbie E. Wilson, assistant, from Sept. 1, 1911, to Aug. 31, 1912.

On motion of the Superintendent, it was

ORDERED, that the leave of absence for study, under the provisions of Section 317 of the regulations, granted to Rose A. Carriagan, an assistant in the Normal School, from Sept. 1, 1910 to Feb. 1, 1911, be and hereby is extended to March 1, 1911.

On motion of the Superintendent, it was

ORDERED, That the following leaves of absence, granted at the meetings of Nov. 7, 1910, and Dec. 5, 1910, respectively, are hereby rescinded:—

Mather District—Grace R. Hallet, assistant, kindergarten, Oct. 6, 1910, to Jan. 1, 1911, without pay.

Henry L. Pierce District—Eleanor L. Rand, assistant, kindergarten, from Jan. 2 to June 15, 1911, without pay.

Designation of Teachers.

A communication was received from the Superintendent, under date of Dec. 19, 1910, reporting the following designation of teachers to serve in the positions indicated, until such time as they shall be filled otherwise in accordance with the rules and regulations:—

Dillaway District—Julia E. Dickson, assistant, as acting first assistant in charge (vice Anna M. Balch, absent on leave), to take effect Sept. 15, 1910.

Prince District—Katherine L. Campbell, assistant, as acting first assistant in charge (vice Laura K. Hayward, absent on leave), to take effect Dec. 8, 1910.

Robert G. Shaw District—Mary E. Alkern, assistant, as acting master's assistant (vice Alice E. Farrington, absent on leave), to take effect Dec. 1, 1910.

RETIREMENT OF TEACHERS ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teachers be retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908 as amended by Chapter 617 of the Acts of 1910, the dates of retirement and rates of pension to be as hereinafter specified:—

Christopher Gibson District—Helen L. Burton, length of service 23 years, Dec. 31, 1910, \$291.20.

Prescott District—Hattie L. Todd, length of service 32 years, Dec. 31, 1910, \$312.

Passed, a majority of the Board voting in the affirmative.

EMPLOYMENT OF ASSISTANTS, SPECIAL CLASS, HYDE DISTRICT.

On motion of the Superintendent, it was ORDERED, That the employment as an additional assistant in the special class in the Hyde district, beginning Oct. 6, 1910, of Grace R. Hallet, an assistant, kindergarten, in the Mather district, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient, Miss Hallet to be paid at the same rate as if she were teaching as an assistant, kindergarten, in an elementary school.

On motion of the Superintendent, it was ORDERED, That the employment as an additional assistant in the special class in the Hyde District, beginning Jan. 2, 1911, of Eleanor L. Rand, an assistant, kindergarten, in the Henry L. Pierce district, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient, Miss Rand to be paid at the same rate as if she were teaching as an assistant, kindergarten, in an elementary school.

EMPLOYMENT OF ADDITIONAL ASSISTANT, SPECIAL CLASS, BIGELOW DISTRICT.

On motion of the Superintendent, it was ORDERED, That the employment as an additional assistant in the special class in the Bigelow District, beginning Jan. 2, 1911, of Mary F. O'Meara, assistant, kindergarten, in the Christopher Gibson district, is hereby authorized for such portion of the school year 1910-11 as the Superintendent may deem expedient, Miss O'Meara to be paid at the same rate as if she were teaching as an assistant, kindergarten, in an elementary school.

TEMPORARY TRANSFER OF ASSISTANT.

On motion of the Superintendent, it was ORDERED, That during the temporary assignment of Eleanor L. Rand to the Hyde District, her place in the Henry L. Pierce District be filled by the transfer from the Lawrence District of Blanche G. F. Horner.

TEMPORARY CLERICAL ASSISTANT, COMMITTEE OF VOCATIONAL GUIDANCE AND THE COMMITTEE ON ELEMENTARY SCHOOL-HOUSE PLANS.

A communication was received from the Superintendent, under date of Dec. 19, 1910, reporting that, subject to the approval of the Board and with the approval of the Civil Service Commission, he had appointed Edith M. Dolan, temporary clerical assistant to the Committee on Vocational Guidance and the Committee on Elementary School-house Plans, to take effect Dec. 9, 1910.

Placed on file, and the appointment approved.

CLASS IN FREE HAND DRAWING, EVENING INDUSTRIAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That a class in free hand drawing is hereby established as a part of the Evening Industrial School, said class to be conducted in the English High School Building, Montgomery Street., on Monday, Wednesday and Friday evenings.

COURSE IN AUTOMOBILE AND CARRIAGE BODY DESIGN, CENTRAL EVENING INDUSTRIAL SCHOOL.

On motion of the Superintendent, it was ORDERED, That with the approval of the State Board of Education, a course in

automobile and carriage body design, French rule, is hereby authorized for the Central Evening Industrial School.

EXPENDITURE FOR PRINTING AND DISTRIBUTING ADVERTISING MATTER, EVENING INDUSTRIAL SCHOOLS.

On motion of the Superintendent, it was

ORDERED, That the Director of Evening and Continuation Schools is hereby authorized to expend an amount not exceeding five dollars (\$5) for printing and distributing advertising matter, relative to the Evening Industrial School and Branches of 1910-11, said amount being in addition to the amount authorized Oct. 3, 1910.

EVENING SCHOOL AT MEETING HOUSE HILL.

A communication was received from the Superintendent, under date of Dec. 19, 1910, to whom was referred for consideration and report at the last meeting (see p. 196) a petition that an evening school be established in the Meeting House Hill District, reporting that the facts would not appear to warrant the establishment of such a school, and in substantiation of this opinion, submitting a report from the Director of Evening and Continuation Schools.

Placed on file, and the Secretary directed to notify the petitioner accordingly.

PAYMENT TO INSTRUCTORS, SPECIAL COURSES IN CONNECTION WITH PROMOTIONAL EXAMINATIONS.

On motion of the Superintendent, it was

ORDERED, That Arthur L. Gould be paid fifty-six dollars (\$56) for services as instructor in the special course of instruction for teachers conducted in connection with the promotional examinations of 1910.

On motion of the Superintendent, it was

ORDERED, That Alice M. Barton be paid fifty-two dollars (\$52) for services as instructor in the special course of instruction for teachers conducted in connection with the promotional examinations of 1910.

ADDITIONAL COMPENSATION, ACTING SUB-MASTER.

On motion of the Superintendent, it was ORDERED, That Joseph A. F. O'Neil be paid eight dollars (\$8) for extra services as acting sub-master in the Thomas N. Hart District from Sept. 14 to Oct. 14, 1910.

LABORATORY ASSISTANTS, ENGLISH HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment of laboratory assistants in the English High School, from Dec. 1, 1910, to Nov. 30, 1911, at an expense not to exceed five hundred dollars (\$500) is hereby authorized, the expense thereof to be charged to the appropriation for salaries of instructors.

LABORATORY ASSISTANTS, GIRLS' HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment of laboratory assistants in the Girls' High School, from Dec. 1, 1910, to Nov. 30, 1911, at an expense not to exceed five hundred dollars (\$500) is hereby authorized, the expense thereof to be charged to the appropriation for salaries of instructors.

TELEPHONE EXPENSE, DEPARTMENT OF DRAWING AND MANUAL TRAINING.

On motion of the Superintendent, it was ORDERED, That the Department of Drawing and Manual Training is hereby authorized to incur expense for telephone calls from Dec. 1, 1910, to Nov. 30, 1911, to an amount not to exceed thirty dollars (\$30), and that the director of said department be required to present his bills for such calls to the Business Agent not later than Dec. 1, 1911.

AMENDMENT TO REGULATIONS.

The Superintendent offered the following:—

ORDERED. That the Regulations be amended as follows:—

Section 432. Strike out the section and insert in place thereof the following:—

Sect. 432. The supervisor of licensed minors shall give attention to the enforcement of the regulations governing licensed minors, and may perform such duties as special truant officer as may from time to time become necessary. He shall keep a record of his doings, especially of all cases of children investigated or in any way acted upon by him, and shall submit an annual report to the Superintendent of Schools.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED. That the Regulations be amended as follows:—

Section 291, paragraph 13. Add the following:—

In each high and Latin school, except the Mechanic Arts High School, having an average number belonging of twelve hundred and sixty or more, one master, who shall be head of a department, may be appointed instead of a junior master to which the school is entitled under the regulations.

Laid over.

ADVANCEMENT OF PUPILS ACCORDING TO QUALIFICATIONS.

The following report was received, under date of Dec. 9, 1910, from the Board of Superintendents to whom was referred Nov. 22, 1910 (see p. 185), a communication from the Mount Hope Citizens' Association, transmitting a vote of said association with reference to the advancing of pupils in the public schools according to their respective qualifications and not by fixed rule:

The Board of Superintendents desires to put itself on record as heartily in accord with the principles set forth in the vote of the Mount Hope Citizens' Association and would report that the size of rooms and division into classes are not controlling forces in the promotion of pupils. The regulations provide that promotions of pupils from grade to grade may be made at any time by the principal of the district, with the approval of the assistant superintendent in charge. Since the elementary school course of study has been reduced to eight years, it may be safely said that pupils are pushed forward as rapidly as is for their advantage.

Placed on file, and the Secretary directed to transmit a copy thereof to the Mount Hope Citizens' Association.

APPOINTMENT OF A VOCATIONAL ASSISTANT, HIGH SCHOOL OF PRACTICAL ARTS.

A communication was received from the Board of Superintendents, under date of Dec. 16, 1910, recommending the passage of accompanying amendments to the rules and regulations to provide for the appointment of a vocational assistant in the High School of Practical Arts, and the salary to be established for the position.

The following order was offered:—

ORDERED. That the rules and regulations be amended as follows:—

Section 138, paragraph XI. Insert the following paragraph to follow the paragraph describing the requirements for industrial instructors:—

For vocational assistant in the High School of Practical Arts: Either a diploma from a college or university approved by the Board of Superintendents, or from an institution of as high a grade, and evidence of three years' experience in teaching, a satisfactory portion of which shall have been in a vocational school; or, graduation from a high school and a normal school approved by the Board of Superintendents, and evidence of five years' experience in teaching, a satisfactory portion of which shall have been in a vocational school.

Section 291, paragraph 13. Insert the following to immediately follow the provision for additional teachers in the High School of Practical Arts:

In the High School of Practical Arts there may also be appointed one vocational assistant.

Passed, under a suspension of the rules.

On motion, it was

ORDERED. That the salary of the vocational assistant in the High School of Practical Arts be established at the following rate for the year ending August 31, 1911:

First year, \$1020; annual increase, \$72; maximum, \$1236.

PLAY AND MANUAL TRAINING, FIRST THREE GRADES OF THE ELEMENTARY SCHOOLS.

A communication was received from the Board of Superintendents, under date of Dec. 16, 1910, in response to the orders passed by the Board at its meeting on June 20, 1910 (see p. 124), submitting a detailed report with regard to the experiments conducted in a number of classrooms of the first three grades with respect to play and manual training, and the devoting of the last hour of the afternoon session of such classes to free play out of doors.

Laid on the table, and the Secretary directed to transmit a copy thereof to each member of the Board.

SPELLING AND MENTAL ARITHMETIC CONTESTS IN ELEMENTARY SCHOOLS.

The following report was received, under date of Dec. 9, 1910, from the Board of Superintendents, to whom was referred May 16, 1910 (see p. 92), for consideration and report, a communication from the Sub-Master of the Hugh O'Brien School with reference to contests by pupils of that district in spelling and mental arithmetic:—

The Board of Superintendents is of the opinion that as an exclusive method of instruction in spelling and mental arithmetic, contests have serious defects; but that as an occasional or temporary device, contests have marked advantages. The Board of Superintendents does not, therefore, make any constructive recommendation in regard to contests, but suggests that they be used as heretofore where conditions indicate that they will be useful.

Placed on file, and the Superintendent requested to encourage the continuance in elementary schools of contests in spelling and mental arithmetic, especially group contests, to such extent as he may deem advisable.

CLERICAL ASSISTANCE FOR BOARD OF SUPERINTENDENTS.

A communication was received from the Secretary, under date of Dec. 19, 1910, reporting in pursuance of the order passed at the last meeting (see p. 195) the provisional appointment, subject to the approval of the Board and with the approval of the Civil Service Commission, of Alice G. Clifford as assistant in his office to render clerical assistance to the members of the Board of Superintendents, to take effect Dec. 19, 1910.

Placed on file, and the appointment approved.

REPORTS OF THE TRIAL BOARD.

A report was received from the Trial Board, under date of Dec. 19, 1910, to whom was referred at the meeting of Dec. 5, 1910 (see p. 194), a complaint made by the Schoolhouse Custodian against a certain janitor, stating that it finds the complaint made to be justified by the fact, and admitted by the janitor. Further, that the Trial Board does not consider the matter of sufficient gravity to make it advisable to embody in public records the name of the janitor or the nature of the complaint, more especially as assurances have been given by the janitor concerned that no similar occurrence will hereafter arise. The Trial Board therefore recommends that it be authorized, to reprimand this janitor, and to notify him that he will not be eligible for promotion for the term of one year beginning Jan. 1, 1911.

Placed on file, and the recommendation adopted.

A report was received from the Trial Board, to whom was referred at the meeting of Nov. 22, 1910 (see p. 184), charges of neglect of duty preferred by the Schoolhouse Custodian against Samuel T. McClenan, janitor of the Nathaniel Hawthorne and neighboring school buildings, stating that the Board finds the specific charge of neglect of duty to be sustained, and it is admitted to be true by the janitor; and recommending that Mr. McClen-

nan be suspended without pay for a period of sixty days, to take effect as of Nov. 4, 1910, and that he be regarded as not eligible for promotion for a period of one year beginning Jan. 1, 1911.

Placed on file, and the recommendation adopted.

RESIGNATIONS OF JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Dec. 19, 1910, transmitting the resignations of Robert S. Scott, janitor of Wyman Portable No. 45, to take effect Dec. 1, 1910, and of John H. Crafts, janitor of Plummer Portables Nos. 30, 67, 93, 94 and 95, to take effect Dec. 17, 1910.

Placed on file, and the resignations accepted.

JANITORSHIP, NOBLE SCHOOLHOUSE.

A communication was received from the Schoolhouse Custodian, under date of Dec. 19, 1910, submitting a list of applicants for transfer to the janitorship of the Noble and Noble Annex School-houses and Portable No. 61, and recommending the transfer of George J. Hurley, janitor of the Albert Palmer School-house and Portable No. 62, who stands at the head of the list, to the position, to take effect Dec. 25, 1910.

Placed on file, and the transfer of George J. Hurley to said position approved, to take effect on the date stated.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Dec. 19, 1910, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for such services, as follows:—

Benjamin Pope School-house and Portables Nos. 16, 36 and 63—Dennis J. Lenehan, transfer extended Dec. 7 and 17, 1910. Amount due for services rendered Dec. 6 to 10, 1910, inclusive, \$13.10.

Commodore John Barry School-house—John Timmins temporarily transferred Dec. 18, 1910. Amount due for services rendered Dec. 18 and 19, 1910, inclusive, \$6.13.

Common-street School-house—Michael Keefe, reappointed Dec. 12, 1910. Amount due for services rendered Dec. 6 to 19, 1910, inclusive, \$18.36.

Cudworth School-house and Portables Nos. 14, 63 and 110—Timothy D. Murphy, temporarily appointed Nov. 11, 1910. Amount due for services rendered Nov. 11 and 12, 1910, inclusive, \$5.60.

Harvard Hill School-house—Charles Timmins, reappointed Dec. 7, 1910, and 17, 1910. Amount due for services rendered Dec. 6 to 19, 1910, inclusive, \$23.76.

Mt. Vernon-street School-house and Portable No. 106—Charles Devney, reappointed Dec. 13, 1910. Amount due for services rendered Dec. 6 to 19, 1910, inclusive, \$28.82.

Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses, and Portables Nos. 42, 102, and 105—Ira M. Jacobs, reappointed Dec. 12, 1910. Amount due for services rendered Dec. 6 to 19, 1910, inclusive, \$65.94.

Noble, Noble Annex School-houses and Portable No. 61—Henry T. Brennan, temporarily appointed Dec. 8, reappointed Dec. 13, 1910. Amount due for services rendered Dec. 8 to 19, 1910, inclusive, \$32.19.

Old East Boston High and Austin School-houses—Henry J. Mahoney, reappointed Dec. 13, 1910. Amount due for services rendered Dec. 6 to 19, 1910, inclusive, \$44.12.

Parkman School-house—Henry T. Brennan, reappointed Dec. 7, 1910. Amount due for services rendered Dec. 6 and 7, 1910, \$3.65. John Bresnahan, appointed Dec. 8, 1910, reappointed Dec. 18, 1910. Amount due for services rendered Dec. 8 to 19, 1910, inclusive, \$21.89.

Robert Swan School-house—Dennis J. Lenehan, temporarily transferred Dec. 11, 1910. Amount due for services rendered Dec. 11 to 19, 1910, inclusive, \$20.93.

Samuel Adams School-house—Michael Glasheen temporarily transferred Dec. 8, 1910. Amount due for services rendered Dec. 8 to 10, 1910, inclusive, \$10.48. John Timmins temporarily transferred Dec. 11, 1910. Amount due for services rendered Dec. 11 to 17, 1910, inclusive, \$24.48.

Frank Linnahan temporarily transferred Dec. 18, 1910. Amount due for services rendered Dec. 18 and 19, 1910, \$6.99.

Placed on file, and the reappointments approved.

On motion, it was
ORDERED, That for service rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Noble, Noble Annex School-houses and Portable No. 61, from Dec. 8 to 19, 1910, inclusive, thirty-two and 19-100 dollars (\$32.19).

To Henry T. Brennan, Parkman School-house, from Dec. 6 to 7, 1910, inclusive, three and 65-100 dollars (\$3.65).

To John Bresnahan, Parkman School-house, from Dec. 8 to 19, 1910, inclusive, twenty-one and 89-100 dollars (\$21.89).

To Charles Deyney, Mt. Vernon-street School-house and Portable No. 106, from Dec. 6 to 19, 1910, inclusive, twenty-eight and 82-100 dollars (\$28.82).

To Michael Glasheen, Samuel Adams School-house, from Dec. 8 to 10, 1910, inclusive, ten and 48-100 dollars (\$10.48).

To Ira M. Jacobs, Nathaniel Hawthorne, Howard-avenue, Howard-avenue Annex School-houses, and Portables Nos. 42, 102 and 105, from Dec. 6 to 19, 1910, inclusive, sixty-five and 94-100 dollars (\$65.94).

To Michael Keefe, Common-street School-house, from Dec. 6 to 19, 1910, inclusive, eighteen and 36-100 dollars (\$18.36).

To Dennis J. Lenehan, Benjamin Pope School-house and Portables Nos. 16, 36 and 63, from Dec. 6 to 10, 1910, inclusive, thirteen and 10-100 dollars (\$13.10).

To Dennis J. Lenehan, Robert Swan School-house, from Dec. 11 to Dec. 19, 1910, inclusive, twenty and 93-100 dollars (\$20.93).

To Frank Linnehan, temporarily transferred, from Dec. 18 to 19, 1910, inclusive, six and 99-100 dollars (\$6.99).

To Henry J. Mahoney, Old East Boston High and Austin School-houses, from Dec. 6 to 19, 1910, inclusive, forty-four and 12-100 dollars (\$44.12).

To Timothy D. Murphy, Cudworth School-house and Portables Nos. 14, 68 and 110, from Nov. 11 to 12, 1910, inclusive, five and 60-100 dollars (\$5.60).

To John Timmins, Commodore John Barry School-house, from Dec. 18 to 19, 1910, inclusive, six and 13-100 dollars (\$6.13).

To John Timmins, Samuel Adams School-house, from Dec. 11 to 17, 1910, inclusive, twenty-four and 48-100 dollars (\$24.48).

To Charles Timmins, Harvard Hill School-house, from Dec. 6 to 19, 1910, inclusive, twenty-three and 76-100 dollars (\$23.76).

COMPLAINT AGAINST A JANITOR REFERRED TO TRIAL BOARD.

A communication was received from the Schoolhouse Custodian, under date of Dec. 19, 1910, reporting that a sectional boiler had been damaged by carelessness of the janitor in charge, and recommending that he be censured and declared ineligible for promotion for the space of one year.

Referred to the Trial Board to make immediate and full investigation on the matter.

LIGHTED CHRISTMAS TREES FORBIDDEN.

A communication was received from the Schoolhouse Custodian, under date of Dec. 19, 1910, stating that the Board of Fire Underwriters has warned the public generally of the danger of having lighted Christmas trees in houses, and calling attention to the danger attending this practice in many kindergartens and primary classes.

Placed on file, and the Secretary directed to notify the various principals of schools and districts not to permit lighted Christmas trees in class-rooms.

CLOSING OF SCHOOLS, CHRISTMAS VACATION.

On motion, and under a suspension of the rules, it was

ORDERED, That the public schools close for the Christmas vacation not earlier than 12 o'clock, noon, on Thursday, Dec. 22, nor later than the end of the afternoon session of the same day, at the discretion of the individual principals.

EQUIPMENT AND WORK OF PRE-APPRENTICE SCHOOL FOR PRINTING AND BOOKBINDING.

A communication was received from the Advisory Committee of the Pre-Apprentice School for Printing and Bookbinding, under date of Dec. 14, 1910, stating that it has made a thorough investigation of the

equipment and work of both the printing and binding departments of this school, and enclosing two reports thereon, and stating further that in the opinion of the committee the efficiency of the school will be improved by furnishing additional equipment which should be installed at the earliest possible date; in the meantime and following the installation of this new equipment, the advisory committee will submit detailed recommendations regarding the course of instruction.

Referred to the Board of Schoolhouse Commissioners with the recommendation that the equipment, as recommended by the Advisory Committee of this school, be furnished by said Board.

NAMING OF SCHOOL-HOUSE IN HONOR OF LEWIS BENTON BATES.

A petition was received, signed by many citizens of East Boston, that the new school-house to be erected in the Lyman District, be named the Lewis Benton Bates School, accompanied by communications to the same effect from Frank C. Wood and George S. Webster, of the East Boston Improvement Association.

Placed on file, and the Secretary directed to call the matter to the attention of the Board when the naming of this school shall be taken up for consideration.

USE OF SCHOOL BUILDINGS FOR THE BETTERMENT OF THE DISTRICT BY VARIOUS ORGANIZATIONS.

A communication was received from the Mount Hope Citizens' Association, under date of Dec. 9, 1910, stating that at a meeting of that Association held on Dec. 2, 1910, a letter was received from the United Improvement Association as to the use of school-houses by various organizations, and it was voted that any local improvement, parents, or similar organizations, engaged in work for the betterment of their district should be allowed to use the school buildings.

Placed on file, and the Secretary directed to reply to the effect that the Board already allows the use of school buildings for purposes named in the communication subject to reasonable regulations.

MORNING LUNCHES IN ELEMENTARY SCHOOLS.

A communication was received from the Boston Home and School Association, under date of Dec. 19, 1910, relative to the furnishing of morning lunches to the pupils in various elementary schools.

Laid on the table.

BUSINESS AGENT, ACTING AUDITOR.

On motion, it was
ORDERED, That the Business Agent is hereby directed to assume the duties of the Auditor on Jan. 1, 1911, and until otherwise ordered.

On motion, it was
ORDERED, That the Business Agent be directed to furnish an additional bond in the sum of ten thousand dollars (\$10,000) for the faithful performance of his duty as acting Auditor, a reasonable amount as premium on said bond to be paid at the expense of the City.

On motion, it was
ORDERED, That the Business Agent be allowed and paid additional compensation at the rate of \$720 per annum during his discharge of the duties of Auditor to take effect Jan. 1, 1911, and until otherwise ordered.

COMPLAINT OF FRANK M. ZOTTOLI.

A communication was received from Frank M. Zottoli, under date of Dec. 6, 1910, with further reference to his complaint received at the meeting of Nov. 22, 1910 (see p. 185), with reference to the admission of his son through the basement entrance of the Cushman School.

Placed on file.

CONDITIONS OF TENEMENTS AND IMPROVEMENT THROUGH THE CHILDREN.

A communication was received from the Secretary of the Massachusetts Civic

League, under date of Dec. 15, 1910, with reference to the conditions in many of the tenements in Boston, from the standpoint of general cleanliness, light and ventilation, and suggesting that the only way to bring about permanent remedies of the evils of these conditions, is to educate the children in the schools as to the results of bad conditions and the opposite results of good conditions, and further suggesting that a primer be prepared and every child in the schools taught its contents in such a way as to make it possible for the child to thoroughly absorb the principles brought out.

Referred to the Board of Superintendents.

EXAMINATION OF CANDIDATES FOR ITALIAN SPEAKING TRUANT OFFICER'S POSITION.

On motion, it was

ORDERED, That there be paid to H. H. Vaughan, the sum of \$35 for services and expenses rendered and incurred by him in connection with the examination of candidates for appointment to the position of truant officer conversant with Italian.

The Secretary was directed to extend the thanks of this Board to Professor J. D. W. Ford for gratuitous services rendered by him and his assistants in connection with the examination of candidates for appointment to the position of truant officer conversant with Italian.

APPROVAL OF PAY ROLLS AND BILLS.

On motion, it was

ORDERED, That the pay rolls and bills, both regular and special, for the month of January, 1911, prepared and certified to by the Business Agent, be approved on behalf of this Board by Mr. Brock, or in the event of his absence by Mr. Ellis.

TUITION OF NON-RESIDENT PUPILS, CONTINUATION SCHOOLS.

On motion, it was

ORDERED, That the order establishing the rate of tuition for non-resident pupils attending the Continuation Schools, passed at the meeting of Nov. 22, 1910 (see p. 183), is hereby rescinded.

SALARY OF ENGINEER, MECHANIC ARTS HIGH SCHOOL.

A communication was received from Charles L. Drew, engineer of the Mechanic Arts High School-house, under date of Dec. 8, 1910, applying for an increase in salary.

Placed on file.

TRANSFER OF UNEXPENDED BALANCE OF PENSION APPROPRIATION.

On motion, it was

ORDERED, That of the \$66,194.65 appropriated March 16, 1910, for the payment of pensions to teachers under the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, the further sum of \$4946.77, being the unexpended balance of said appropriation, be paid to the Treasurer of the permanent pension fund for investment by the Board of Trustees of said fund, in accordance with the provisions of said acts, said amount, in the opinion of the School Committee, not being needed for the purpose of paying pensions to teachers during the financial year ending Jan. 31, 1911.

HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

A communication was received from the Secretary of the Business Men's Advisory Committee of the High School of Commerce, under date of Dec. 9, 1910, enclosing the following resolution which was passed at a meeting of that committee held on Dec. 8, 1910:—

RESOLVED, That the Business Men's Advisory Committee of the High School of Commerce reaffirms its previously expressed opinion favoring the erection of the new school building in the immediate vicinity of Park Square. The controlling view of the Committee in dealing with this question is that the location of the school should be in or near the business district, and believing that the limited scope of its duties as a purely advisory body precludes

its now taking part in further discussion of the subject, is of the opinion that the selection of a suitable site for the school, within or closely contiguous to the city's business district, should be left to the discretion of the School Board and School-house Commission, within whose jurisdiction the solution of the question specifically and definitely belongs.

Laid on the table.

A communication was received from the Secretary of the Boston Board of Fire Underwriters, under date of Dec. 15, 1910, stating that their attention has been called to the fact that if the new High School of Commerce is established in Fort Hill Square it will be necessary to lay a smooth pavement upon the Square and in the adjoining streets, and the Executive Committee of the Board of Fire Underwriters desired to put itself on record as opposed to such action because of the delay to the fire apparatus, three companies being directly located in the Square, and to the Boston Protective Department in starting out for a fire.

Laid on the table, and the Secretary directed to ascertain the attitude of the various teaming associations with regard to changing the present pavement in Fort Hill Square to soft granite, wood or asphalt.

RELATION OF SCHOOL NURSES TO OTHER NURSES AND SOCIAL WORKERS.

The report of the Advisory Committee on School Hygiene received at the meeting of Nov. 22, 1910 (see p. 184), with reference to the relation of school nurses to other nurses and social workers, was taken from the table and placed on file.

On motion, it was

ORDERED, That the Director of School Hygiene be directed to secure the fullest possible co-operation of the school nurses with other organizations that may be of benefit to the children.

That the basis of such co-operation be that nurses shall attend to nursing work and to any necessary instruction of parents in the physical care of their children, while in cases of cruelty, or neglect, or of need for material relief or for other forms of social assistance, the proper agencies shall in each case be notified.

Specifically the co-operation shall include the following items:—

All tubercular children shall be referred to the Boston Consumptives Hospital Trustees.

Wherever there is nurses' work to be done in a family visited that the school nurses themselves cannot fully and properly attend to, they shall inform the family or the family physician in regard to any other organization, such as the Instructive District Nursing Association, from which the needed assistance may be obtained.

Whenever there seems to be need of material relief, whether for the purchase of glasses or braces, or for any other reason, and whenever there is cruelty, neglect, or other social condition calling for assistance, the nurse shall call the matter to the attention of the appropriate social or charitable organization. There should be no case of a child needing glasses who has not got them or been put in a way to get them.

NAMING OF SCHOOL-HOUSES.

The Board took up for consideration the report submitted by Dr. Scannell at the last meeting (see p. 196), containing the following recommendations with regard to the naming of new school-houses:—

That the elementary school building on Appleton Street in the Rice District be named the George Bancroft School;

That the proposed new elementary school building in the Roger Wolcott District be named the Mary Lyon School;

That the proposed new elementary school in the Edward Everett District, situate at Savin Hill, be named the John Lothrop Motley School.

The report was placed on file, and the recommendations adopted by a unanimous vote.

SALARY OF SECOND ASSISTANTS, EVENING INDUSTRIAL SCHOOLS.

The order laid over at the meeting of Dec. 5, 1910 (see p. 192), with reference to the salary of second assistants in evening industrial schools was taken up and passed.

AMENDMENTS TO REGULATIONS.

The order laid over at the meeting of Dec. 5, 1910 (see p. 192), amending section 296 of the regulations, with respect to the number of teachers allowed in the Evening Industrial School, was taken up and passed.

The order laid over at the meeting of Dec. 5, 1910 (see p. 196), amending section 218 of the regulations with respect to the absence of high school pupils for the purpose of receiving instruction elsewhere, was taken up and passed.

DEATH OF DR. JAMES A. McDONALD.

The Board unanimously directed that the following entry be made upon its minutes:—

The School Committee of the City of Boston desires to place upon its records a brief tribute to the memory of the late Dr. James A. McDonald, who rendered many years of faithful and efficient service as a member of the former School Committees of Charlestown and of Boston.

The respect and esteem in which Dr. McDonald was held by his neighbors and friends in Charlestown, and the confidence they reposed in him, were no less than he enjoyed from his associates upon successive School Committees. His absolute integrity and sincere devotion to the interests of the public school system were never questioned, while his personal characteristics, his warm heartedness, his loyalty in friendship were such as to endear him to those with whom he came into personal contact.

The School Committee tenders to Mrs. McDonald and to the other members of the family its respectful and sincere sympathy, and trusts that their memories of a devoted husband and father, a faithful public servant, and an upright citizen will be a solace to them in the hours of affliction.

TRANSPORTATION OF PUPILS, ROBERT G. SHAW DISTRICT.

The petition laid over at the meeting of Dec. 5, 1910, from parents of children attending the Robert G. Shaw School, from that portion of the district known as Spring Street, that car-fare be furnished for the transportation of these pupils twice a day (see p. 195), was taken up and the Board proceeded to grant a hearing to the petitioners on the subject.

At the conclusion of the hearing the Chairman stated that the Board would take the matter under further and careful consideration.

USE OF GROUNDS IN REAR OF SOUTH BOSTON HIGH SCHOOL.

The communication received from the South Boston Citizens' Association and laid over at the meeting of Nov. 22, 1910 (see p. 185), protesting against the use of the grounds in the rear of the South Boston High School as a public playground was taken up, and the Board proceeded to grant a hearing to a committee representing the Association, consisting of Messrs. E. P. Barry, M. J. Mahoney, J. H. Means and S. W. Johnson; School-house Commissioner Perkins and Headmaster Small being also present.

At the conclusion of the hearing, the aforesaid communication was placed on file, and on motion it was

ORDERED, That the Board of School-house Commissioners be requested to erect a suitable fence, or some other similar type of protection, around the grounds of the South Boston High School.

On motion, it was also

ORDERED, That the Schoolhouse Custodian be requested to instruct the janitor of the South Boston High School-house to exercise due care to see that the grounds of that school are kept in proper and clean condition.

MECHANIC ARTS HIGH SCHOOL, PROPOSED REVISION OF COURSE OF STUDY.

On motion, it was

ORDERED, That the attention of the members of the Advisory Committee on the Mechanic Arts High School be called to that part of the recent report of President Maclaurin of the Massachusetts Institute of Technology relative to said school, and that the Superintendent be in-

structed to make a reannouncement of the following order passed by this Board on Sept. 7, 1909:—

ORDERED, That the Superintendent be requested to advise pupils entering the Mechanic Arts High School that it is the intention of the School Committee to revise the course of study of that school to the end that it shall prepare its pupils for industrial efficiency, and not for entrance to college or higher technical institutions.

ADJOURNMENT.

The Board adjourned at 7 o'clock P. M. to meet on Wednesday, Dec. 28, 1910, at 4 o'clock P. M.

Attest:—

THORNTON D. APOLLONIO,

Secretary.

CITIZEN COOPERATION IN STREET CLEANING.

Benjamin Franklin, citizen of Philadelphia, took great personal interest in such matters as fire protection, street lighting, street paving and street cleaning. In his day, if the householder or shopkeeper did not clean the street in front of his doorway, it was not cleaned.

"One day," he says in his autobiography, "I found a poor industrious man was willing to undertake keeping the pavement clean by sweeping it twice a week, carrying off the dirt from before all the neighbors' doors, for the sum of sixpence per month, to be paid by each house. I then wrote and printed a paper setting forth the advantages to the neighborhood that might be obtained by this small expense. . . . I sent one of these papers to each house, and in a day or two went around to see who would subscribe an agreement to pay these sixpences; it was unanimously signed and for a time well executed. This raised a general desire to have all the streets paved, and made the people more willing to submit to a tax for that purpose."

This seems to have been the first instance of street cleaning by contract in Philadelphia. The incident from Franklin's experience is more interesting, however, as illustrating citizen cooperation in its original simplicity.

The citizen is likely to lose sight of the fact that the establishment of a governmental agency to do certain things, such as cleaning the streets, is only a means of cooperation, and does not shift the responsibility entirely from the citizen to the governmental agent. The citizen has a right to expect his agent to do his work as well as it can be done with the support he receives from the citizen—and no better.

Now, what can the citizen do to help keep the city clean? First, he must pay for it. One city official says that if Philadelphia would pay \$4,000,000 instead of a little over \$1,000,000 for street cleaning, "every curbstone would be manicured."

In the second place he can help, if he will be as scrupulously careful in keeping his own premises in good order and preventing ashes, waste paper or store sweepings from reaching the street, as he expects city employees to be in their work.—*Municipal Journal and Engineer*.

CONDEMNING UNSANITARY DWELLINGS.

In the lower district of Binghamton, New York, there are many dwellings which the health authorities have condemned as unsanitary, and they must be vacated. They are beneath the water line, and a good deal of the year have standing pools in their cellars and dampness all around the yard. Much disease comes from these conditions.

OFFICIAL DIRECTORY.

MAYOR'S OFFICE.

Room 27, City Hall. Tel. Fort Hill 3000.
JOHN F. FITZGERALD, *Mayor*.
WILLIAM A. LEAHY, *Secretary*.
RICHARD F. FIELD, *Assistant Secretary*.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, DECEMBER 31, 1910.

No. 53

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as

to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park, and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, January 2, at 3 p. m.

Meeting of School Committee, Monday, January 2, at 4 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

PUBLIC HEARINGS.

The Board of Street Commissioners will give public hearings on the days specified on the following petitions:

TUESDAY, JANUARY 10, AT 11 O'CLOCK.

Gasolene.—The Renim Specialty Company, 37 Parkman street, Ward 25.

On petitions of Annie B. Matthews *et al.*, for leave to erect two marqueses on building numbered 511 Washington street, both on the West street side of said building; and for leave to project twelve balconies from the above building, two on the Washington street side and ten on the West street side.

TUESDAY, JANUARY 17, AT 11 O'CLOCK.

Keeping, etc., of Explosives.—George S. Saunders, 168 Washington street; Frye, Phipps & Co., 23 Pearl street; Eastern Drug Company, 14 Fulton street.

Costello, inspector, from \$1,200 to \$1,300 per annum; Thomas F. Haley, inspector, from \$1,200 to \$1,300 per annum; James Friel, inspector, from \$1,200 to \$1,300 per annum; Martin F. Ryder, inspector, from \$1,200 to \$1,300 per annum; John F. Flanagan, stenographer, from \$1,100 to \$1,200 per annum; James J. Ward, inspector, from \$1,000 to \$1,100 per annum; James W. Collins, inspector, from \$1,000 to \$1,100 per annum; John A. Richardson, inspector, from \$1,000 to \$1,100 per annum.

OVERTIME ALLOWED.

Hospital Department.

For the week ending Thursday, December 22, 1910:

Main Department.—John J. McHale,

head fireman, 14 hours at \$0.37½, \$5.25; William J. Robbins, jobber, 6 hours at \$0.33½, \$2; Christopher Mullen, plumber's helper, 14 hours at \$0.072 ½, \$1.03.

Park Department.

For the week ending Thursday, December 22, 1910:

W. H. Allen, foreman, 1½ days at \$3.25, \$5.69; Michael McNulty, subforeman, 1 day at \$3.25, \$3.25; George W. H. Timson, timekeeper, 2 days at \$2.50, \$5; Joseph P. Howe, gardener and greenkeeper, 1½ days at \$2.25, \$4.22; John F. Murphy, storekeeper, 1 day at \$2.25, \$2.25; Bartholomew M. Ryan, blacksmith, 1½ days at \$3, \$3.38; John F. Carlin, plumber, ½ day at \$3, \$0.38; Bernard J. Conley, machinist, ½ day at \$3, \$2.25; George H. Conner, chauffeur, 2½ days at \$2.25, \$6.19; Edward J. Moriarty, machinist, ½ day at \$3, \$0.75; Malachi Kenney, ironworker, ½ day at \$2.50, \$0.31; William E. Fischer, gardener, 3½ days at \$3, \$10.13; Ed. T. Bean, gardener, 1 day at \$2.50, \$2.50; John Travers, gardener, ¾ day at \$2.25, \$1.69; James H. Kelley, janitor, 1 day at \$2.50, \$2.50; J. J. Downey, laborer and playground keeper, 1 day at \$2.25, \$2.25; Thomas Dillon, chauffeur, 1 day at \$3, \$3; John J. Regan, boy chauffeur, ¼ week at \$9, \$3.19; Mary J. McLaughlin, matron, ¼ week at \$10, \$1.43; Moses A. Coulter, laborer and yardman, 1 day at \$2.25, \$2.25; William E. Connell, laborer, ½ day at \$2.25, \$1.13; Martin Cosgrove, laborer, 1½ days at \$2.25, \$3.09; Peter F. Dolan, laborer, 1½ days at \$2.25, \$3.38; Thomas Ganley, laborer, ½ day at \$2.25, \$1.13; Michael Hurley, laborer, 1 day at \$2.25, \$2.25; Patrick J. Kieley, laborer, 1 day at \$2.25, \$2.25; Charles Lennon, laborer, 1 day at \$2.25, \$2.25; John F. Maguire, laborer, 1 day at \$2.25, \$2.25; Samuel J. Moran, laborer, ½ day at \$2.25, \$1.97; Patrick F. McNamara, laborer, 2½ days at \$2.25, \$5.63; John Morgan, laborer, 1 day at \$2.25, \$2.25; James F. Prendergast, laborer, 1½ days at \$2.25, \$3.09; Bernard J. Fay, teamster, ¼ week at \$15.37, \$2.20; John J. Tatten, Jr., fireman, ¾ day at \$2.50, \$0.94; Alice Timmins, matron, 2 days at \$1.50, \$3; James J. McManus, laborer, 1½ days at \$2.25, \$3.09; Charles A. Hogan, timekeeper, 1½ days at \$2.50, \$4.38; Patrick McKenzie, gardener, 1 day at \$3.25, \$3.25; Patrick Glennon, 2d, laborer and playground keeper, 1 day at \$2.25, \$2.25; Lawrence F. Kilroy, laborer and stableman, 1 day at \$2.25, \$2.25; Patrick O'Connell, laborer, 1 day at \$2.25, \$2.25; Patrick O'Rourke, laborer, 1 day at \$2.25, \$2.25; Cornelius J. Shields, laborer, 1 day at \$2.25, \$2.25; John Welsh, laborer, 1 day at \$2.25, \$2.25; Hugh J. Bagley, laborer, ½ day at \$2.25, \$1.13; Michael A. Martin, laborer, 1 day at \$2.25, \$2.25; Julius Weidner, subforeman, 1 day at \$3.25, \$3.25; John J. Abbott, laborer and playground keeper, 1 day at \$2.25, \$2.25; Patrick Connolly, 1st, laborer and playground keeper, 1 day at \$2.25, \$2.25; Maurice Downey, laborer and playground keeper, 1 day at \$2.25, \$2.25; John Higgins, 2d, laborer and playground keeper, 1 day at \$2.25, \$2.25; John Hennessey, laborer and playground keeper, 1 day at \$2.25, \$2.25; Michael Murphy, laborer and playground keeper, 1 day at \$2.25, \$2.25; Thomas J. Delaney, watchman, 1 day at \$2.50, \$2.50; James D. Edgeworth, subforeman, 1 day at \$3.75, \$3.75; John E. Johnson, mason, ¼ day at \$3, \$0.38; Michael J. Carroll, laborer, ¼ day at \$2.25, \$0.56; Patrick Cain, laborer, 1 day at \$2.25, \$2.25; Thomas Garvin, laborer, 1 day at \$2.25, \$2.25; Patrick Glennon, 1st, laborer, 1 day at \$2.25, \$2.25; James P.

Hennessey, laborer, 1 day at \$2.25, \$2.25; B. T. McNulty, laborer, $\frac{1}{4}$ day at \$2.25, \$1.69; Michael O'Neill, laborer and park keeper, 2 days at \$2.25, \$4.50; Margaret Mulhern, matron, 1 day at \$1.50, \$1.50; Thomas A. Callahan, laborer and assistant in care of building, $\frac{1}{2}$ day at \$2.50, \$1.25; Robert Doherty, laborer, 1 day at \$2.25, \$2.25; Michael Lally, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; John O'Brien, 1st, laborer, 1 day at \$2.25, \$2.25; Hugh Greenan, laborer, 1 day at \$2.25, \$2.25; George T. Cuning, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.94; Patrick J. Owens, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Nicholas Roache, laborer, 1 day at \$2.25, \$2.25; William J. Memery, laborer, 1 day at \$2.25, \$2.25; John Younie, watchman, 1 day at \$2.50, \$2.50; John P. Kelly, subforeman, 1 day at \$2.25, \$3.25; John E. Daley, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; William Fanning, laborer, $\frac{1}{2}$ day at \$2.25, \$1.13; Martin Corcoran, laborer, 1 day at \$2.25, \$2.25; Michael Connely, laborer, 1 day at \$2.25, \$2.25; Charles Walters, gardener, 1 day at \$3, \$3; William Fallon, laborer, $2\frac{1}{2}$ days at \$2.25, \$5.91; Patrick J. Shields, laborer and playground keeper, 1 day at \$2.25, \$2.25; Lizzie V. Wallace, matron, 1 day at \$1.50, \$1.50.

Public Buildings Department.

John F. Swift, electrician, 37 hours at \$4 per day, \$18.50; John Logue, carpenter, 27 hours at \$0.50 per hour, \$13.50.

Street Department (Highway Division).

For the week ending Thursday, December 15, 1910, as follows:

James Byrne, paver, $\frac{1}{2}$ day at \$2.75, \$1.38; William Concannon, paver, $\frac{1}{2}$ day at \$3, \$1.50; Andrew T. Roach, weigher, 1 day at \$2.50, \$2.50; William L. Carty, inspector, $\frac{1}{2}$ day at \$3, \$1.50; Michael T. Cuddy, subforeman, 1 day at \$3.50, \$3.50; Robert J. Mason, messenger, 1 day at \$2.50, \$2.50; Charles E. Sheehy, inspector, $\frac{1}{4}$ day at \$3, \$0.75; George W. Jepson, inspector, $\frac{1}{4}$ day at \$3, \$2.25; Jeremiah Brosnahan, stableman, 1 day at \$2.50, \$2.50; Timothy Sullivan, stableman, 1 day at \$2.25, \$2.25; Patrick Dolan, stableman, 1 day at \$2.25, \$2.25; Daniel Donahue, watchman, 1 day at \$2.25, \$2.25; James J. Lyng, watchman, 1 day at \$2.25, \$2.25; James F. McIntire, watchman, 1 day at \$2.25, \$2.25; D. J. Holland, drawtender, $\frac{1}{2}$ day at \$3.29, \$1.65; P. F. Murphy, machinist, $\frac{1}{2}$ day at \$3.52, \$1.76; sixty-seven laborers \$143.92, and seven assistant drawtenders, \$17.53.

Street Department (Sanitary Division).

For the week ending Thursday, December 22, 1910:

Michael Wade, stableman, 1 day at \$2.50, \$2.50; George McColgan, stableman, 1 day at \$2.50, \$2.50; John Gallagher, stableman, 1 day at \$2.50, \$2.50; Cornelius Spellicy, horseshoer, $10\frac{1}{2}$ hours at \$3.16 $\frac{2}{3}$ per day, \$4.15; John Rowan, horseshoer, $10\frac{1}{2}$ hours at \$3.16 $\frac{2}{3}$ per day, \$4.15; Thomas M. O'Leary, assistant blacksmith, $\frac{2}{3}$ day at \$2.50, \$0.94; Joseph Wolter, assistant blacksmith, $\frac{2}{3}$ day at \$3.50, \$1.31; James, J. Flannagan, stableman, 2 days at \$2.50, \$5; W. H. Rowe, clerk, 1 day at \$3, \$3; Daniel Connors, stableman, 1 day at \$2.50, \$2.50; James E. Crowley, wharfinger, 1 day at \$3, \$3; John F. Coffey, stableman, 1 day at \$2.50, \$2.50; D. T. Mahoney, inspector, $\frac{1}{4}$ day at \$3, \$0.75; F. A. Sullivan, inspector, $\frac{1}{4}$ day at \$3, \$0.75; J. H. Boyle, horseshoer, $14\frac{1}{2}$ hours at \$3.16 $\frac{2}{3}$ per day, \$5.74; J. J. Murray, horseshoer, $14\frac{1}{2}$ hours at \$3.16 $\frac{2}{3}$ per day \$5.74; E. J. Hardy, scowman,

3 days at \$2.50, \$7.50; Michael Sullivan, boatman, $3\frac{1}{2}$ days at \$2.50, \$8.75; D. J. Collins, mate, $4\frac{1}{2}$ days at \$3, \$12.75; John Pomeroy, engineer, $2\frac{1}{2}$ days at \$3.50, \$10.06; James Riley, fireman, 3 days at \$2.83 $\frac{1}{3}$, \$8.50; James Kelly, fireman, 1 day at \$2.83 $\frac{1}{3}$, \$2.83, and 66 laborers, \$105.50.

James J. Shea, driver, 1 day at \$2.50, \$2.50; William V. Quinn, inspector, 1 day at \$3, \$3; J. P. Kelley, inspector, 1 day at \$3, \$3; M. J. Concannon, subforeman, 1 day at \$3, \$3; William Batts, stableman, 1 day at \$2.50, \$2.50; Michael Mullen, stableman, 1 day at \$2.50, \$2.50; P. J. O'Rourke, stableman, 1 day at \$2.50, \$2.50.

Michael McClellan, stableman, 1 day at \$2.50, \$2.50; Thomas Rice, driver, 1 day at \$2.50, \$2.50; Patrick Sweeney, driver, 1 day at \$2.50, \$2.50; M. Cashman, driver, $\frac{1}{2}$ day at \$2.50, \$1.25; Charles Noon, driver, 1 day at \$2.50, \$2.50; Thomas F. Stanton, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; F. W. Annis, driver, $1\frac{1}{2}$ days at \$2.50, \$3.75; F. H. Wilson, inspector, 1 day at \$2.50, \$2.50; Charles P. Hobbs, stableman, 1 day at \$2.50, \$2.50; H. J. McCarron, watchman, 1 day at \$2.50, \$2.50; C. J. Scanlan, inspector, $1\frac{1}{2}$ days at \$2.50, \$4.69; James J. Farrell, inspector, 2 days at \$2.50, \$5; and 64 laborers, \$172.97.

Street Department (Sewer Division).

For the week ending Thursday, December 22, 1910:

W. E. Flynn, inspector, 1 day at \$3.50, \$3.50; Robert Noonan, laborer, $\frac{1}{2}$ day at \$2.50, \$1.25; Frank Johnson, yardman, 1 day at \$2.50, \$2.50; Dennis Burke, bracer, 1 day at \$2.50, \$2.50; Richard F. Moore, watchman, 1 day at \$2.50, \$2.50; Thomas McDonald, yardman, $\frac{1}{2}$ day at \$2.75, \$1.38; Michael Duffee, engineer, 1 day at \$3, \$3; Nathan F. O'Neil, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75; Thomas Hughes, sewer cleaner, $\frac{1}{2}$ day at \$2.75, \$1.38; John Flaherty, yardman, 1 day at \$2.50, \$2.50; Peter Ducie, watchman, 1 day at \$2.50, \$2.50; H. J. Moynihan, inspector, $1\frac{1}{2}$ days at \$3.50, \$5.25; Joseph P. Driscoll, laborer, 1 day at \$2.50, \$2.50; and 49 laborers at \$2.25, \$106.88.

Water Department (Distribution Division).

For the week ending Thursday, December 22, 1910:

William Abbott, engineer, $2\frac{1}{2}$ days at \$3, \$6.38; Robert McLaughlin, fireman, 1 day at \$2.83, \$2.83; John Austin, watchman, 1 day at \$2.50, \$2.50; Thomas A. Gorman, foreman, 1 day at \$2.75, \$2.75; Charles J. Parks, watchman, 1 day at \$2.50, \$2.50; Patrick Cassidy, 1st, watchman, $2\frac{1}{2}$ days at \$2.25, \$4.78; Michael H. Dwyer, watchman, 1 day at \$2.25, \$2.25; James F. Black, repairer, 1 day at \$2.50, \$2.50; Daniel J. Buckley, watchman, 1 day at \$2.25, \$2.25; Patrick J. Gorman, watchman, 1 day at \$2.25, \$2.25; John McNulty, laborer, $1\frac{1}{2}$ days at \$2.25, \$3.94; James F. Donovan, watchman, 1 day at \$2.25, \$2.25; Patrick H. McCarthy, watchman, 1 day at \$2.25, \$2.25; William Regan, watchman, 1 day at \$2.25, \$2.25; John Cummings, repairer, 1 day at \$2.75, \$2.75; John Buckley, watchman, 1 day at \$2.25, \$2.25; James J. Hayes, watchman, 1 day at \$2.25, \$2.25; William P. Kilty, watchman, 1 day at \$2.25, \$2.25; Daniel J. Donovan, watchman, 1 day at \$2.25, \$2.25; Humphrey D. Sullivan, watchman, 1 day at \$2.25, \$2.25; David McCarthy, gateman, 1 day at \$2.50, \$2.50; Dennis McCarthy, gateman, 1 day at \$2.50, \$2.50; James M. Synnott, gateman, 1 day at \$2.50, \$2.50;

Michael Galvin, watchman, 1 day at \$2.25, \$2.25; John Rogers, watchman, 1 day at \$2.25, \$2.25; Patrick Joyce, watchman, 1 day at \$2.25, \$2.25; Eugene T. Shea, watchman, 1 day at \$2.25, \$2.25; Hugh Cauley, pipe layer, 1 day at \$2.50, \$2.50; Martin Burke, pipe layer, 1 day at \$2.50, \$2.50; Morgan Donahue, emergency man, 1 day at \$2.25, \$2.25; Thomas Douglas, emergency man, 1 day at \$3, \$3; Michael Fleming, emergency man, 2 days at \$2.25, \$4.50; John J. Broderick, emergency man, 1 day at \$2.25, \$2.25; Michael J. Carney, emergency man, 1 day at \$2.25, \$2.25; John Doherty, 2d, emergency man, 1 day at \$2.50, \$2.50; Patrick Douglas, 2d, emergency man, 1 day at \$2.50, \$2.50; Michael Grady, emergency man, 1 day at \$2.25, \$2.25; Daniel J. Heffernan, emergency man, 1 day at \$2.25, \$2.25; Jeremiah Looney, emergency man, 1 day at \$2.25, \$2.25; Moses McCue, emergency man, 1 day at \$2.25, \$2.25; Michael C. White, emergency man, 1 day at \$2.25, \$2.25; Timothy J. Kelleher, chauffeur, 1 day at \$2.75, \$2.75; Jerome H. Moore, chauffeur, 1 day at \$3, \$3; George F. W. Stevens, chauffeur, 1 day at \$3, \$3; John Cahill, stableman, 1 day at \$2.25, \$2.25; James J. Connors, stableman, 1 day at \$2.75, \$2.75; James Donovan, stableman, 1 day at \$2.25, \$2.25; John C. McCarthy, stableman, 1 day at \$2.25, \$2.25; John F. McCauley, stableman, 1 day at \$2.25, \$2.25; Michael Noonan, stableman, 1 day at \$2.25, \$2.25; Michael O'Leary, stableman, 1 day at \$2.25, \$2.25; Dennis Shea, stableman, 1 day at \$2.25, \$2.25; Peter Welch, stableman, $1\frac{1}{2}$ days at \$2.25, \$3.09; David Leo, teamster, $1\frac{1}{2}$ days at \$2.25, \$2.67; Edward S. Farmer, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Hugh Campbell, repairer, $\frac{1}{2}$ day at \$2.50, \$2.03; Michael F. Daly, 2d, laborer, $\frac{1}{2}$ day at \$2.25, \$1.83; William Lonergan, laborer, $\frac{1}{2}$ day at \$2.25, \$1.83; Michael Mulloy, laborer, $\frac{1}{2}$ day at \$2.25, \$1.83; Isaac Saperstein, repairer, $\frac{1}{2}$ day at \$2.50, \$2.03; Patrick J. Kelly, inspector, $1\frac{1}{2}$ days at \$2.95, \$5.71; Patrick Coleman, laborer, $2\frac{1}{2}$ days at \$2.25, \$4.64; James McMahon, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; John Furey, laborer, $1\frac{1}{2}$ days at \$2.25, \$2.53; George Greer, plumber, $\frac{1}{4}$ day at \$2.75, \$0.69; James Murphy, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; John J. Barry, repairer, $\frac{1}{4}$ day at \$2.50, \$1.88; Raffaele Curcio, teamster, $\frac{1}{2}$ day at \$2.25, \$0.14; Cornelius Hegarty, repairer, $\frac{1}{4}$ day at \$2.50, \$0.63; George O'Donnell, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; John Coyne, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; Edward Sullivan, teamster, $\frac{1}{4}$ day at \$2.25, \$0.56; Thomas Williams, teamster, $\frac{1}{2}$ day at \$2.25, \$0.70.

*One day omitted week of December 15, 1910.

Water Department (Income Division).

For the week ending Thursday, December 22, 1910:

J. J. Callahan, laborer, $3\frac{2}{3}$ days at \$2.50, \$8.20; P. J. Clougherty, laborer, $\frac{1}{2}$ day at \$2.25, \$0.42; J. H. Cullen, plumber, $\frac{2}{3}$ day at \$3, \$2.34; M. J. Dinneen, laborer, $\frac{1}{2}$ day at \$2.25, \$0.77; T. J. Dolan, plumber, $\frac{1}{2}$ day at \$3, \$1.03; O. J. Gilloon, plumber, $\frac{1}{2}$ day at \$3, \$1.03; J. J. Mahoney, laborer, $\frac{2}{3}$ day at \$2.25, \$1.76; T. McAuliffe, laborer, $\frac{1}{2}$ day at \$2.25, \$1.27; M. M. McGrath, laborer, $\frac{1}{4}$ day at \$2.25, \$0.56; D. J. Rull, Jr., plumber, $3\frac{3}{4}$ days at \$3, \$9.84; P. A. Russell, laborer, $\frac{3}{4}$ day at \$2.25, \$0.35; J. J. Shea, laborer, $\frac{1}{2}$ day at \$2.25, \$2.11; Daniel Sullivan, laborer, $\frac{1}{2}$ day at \$2.25, \$0.28; J. Sullivan, laborer, $\frac{3}{4}$ day at \$2.25, \$1.76; T. J. Sullivan, plumber, $\frac{1}{2}$ day at \$3, \$2.81; M. P. Welch, plumber, $\frac{1}{2}$ day at \$3, \$0.38.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending December 29, 1910:

STREET DEPARTMENT (Sewer Division).

On December 21 the Mayor approved a contract with the Charles J. Jacobs Company for building pipe surface drains in Litchfield street, Brighton. Bids on this work, opened December 9, were as follows:

Charles J. Jacobs Company, \$3,077.55; Antony Cefalo, \$3,587.21; Murphy & Dolan, \$3,634.86; Luke D. Mullen, \$4,236.50; T. H. Connolly, \$4,599.16; John McCourt & Co., \$4,771.21.

Estimated quantities:

Ten cubic yards earth excavation below grade; 20 cubic yards earth excavation above grade; 25 cubic yards rock; 5 cubic yards gravel; 10 M. feet B. M. spruce lumber for sheeting; 0.5 M. feet B. M. spruce lumber for platforms; 200 linear feet 6-inch pipe underdrain; 220 linear feet 24-inch D. S. pipe surface drain; 625 linear feet 20-inch D. S. pipe surface drain; 365 linear feet 18-inch pipe surface drain; 137 linear feet 12-inch pipe surface drain; 160 linear feet 10-inch pipe catch-basin drain; 100 linear feet existing drains relaid; 5 cubic yards concrete; 7 man-holes built; 14 catch-basins built.

Discount of 72 per cent on \$1,250 worth of pipe; discount of 70 per cent on \$2,425 worth of pipe. Engineer's estimate, \$3,966.45.

WITHOUT ADVERTISING.

SCHOOLHOUSE DEPARTMENT.

In view of the representations contained in the following communication, the Mayor has approved a contract, made without advertising, with the American Architectural Iron Works for erecting and completing a fire escape on the Quincy School, Tyler street, the estimated amount being \$3,070.

SCHOOLHOUSE DEPARTMENT,
December 23, 1910.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,—In explanation of the accompanying request to award a contract to the American Architectural Iron Works in the sum of \$3,070 for erecting fire escape on the Quincy School, I would say that the Board advertised and received proposals on October 28, based on drawings made in this office, and with the following results:

A. B. Robbins Iron Company, \$3,948; Chelmsford Foundry Company, \$4,311; W. A. Snow Iron Works Company, \$4,377; Smith & Lovett, \$4,758; American Architectural Iron Works, \$4,875.

The Board considered the figures too high and asked each and every concern who figured to submit to the Board a plan showing the erection of a fire escape on the above building of their own design, together with their estimate, and with the following result:

American Architectural Iron Works, \$3,070; G. W. & F. Smith, \$3,239; Smith & Lovett, \$3,250; W. A. Snow Iron Works Company, \$3,524; A. B. Robbins Iron Company, \$3,657.

The Board believes it would be to the best interests of the city to award the contract to the American Architectural Iron Works without advertising.

Very truly yours,

CHARLES LOGUE,
Chairman.

SUPPLY DEPARTMENT.

The Mayor has approved a contract, made without advertising, with Stephen J. Moran to furnish one limousine body, paint and repair chassis, retemper and replace springs on Mayor's car, for the sum of \$1,814.

WIRE DEPARTMENT.

The Mayor has approved a contract, made without advertising, with the Buick Motor Company, for furnishing one Model 17 touring car, including top, glass front, wind shield and Prestolite gas tank, for the sum of \$1,500.

PERMISSION TO CONSTRUCT.

The Mayor has granted to the Superintendent of Streets authority to do the following work with the department force, without advertising:

To build, with the department force, a sanitary sewer of 10-inch earthen pipe in private land and Robinson court, Dorchester district, the estimated cost being \$1,000; to build, with the department force, a sanitary sewer of 10-inch earthen pipe, a surface drain of 12-inch and 10-inch earthen pipe and two catch-basins in Kerwin street, between Talbot avenue and Bernard street, Dorchester, the estimated cost being \$1,723.

"This work can, in my opinion, be as advantageously done by day labor method as any work now necessary.

"Public necessity and convenience require that this work be done after November 15, for which your authority is requested.

L. K. ROURKE,
Superintendent of Streets."

To redeck, resheathe and put new sidewalks on Dorchester avenue drawbridge at an estimated cost of \$1,000.

"This is maintenance work and can, in my opinion, be done as advantageously by day labor as any work now necessary.

"I recommend that this permission be granted.

L. K. ROURKE,
Superintendent of Streets."

ARCHITECTS' COMPETITION FOR MEMORIAL TO GEORGE F. PARKMAN.

The Music Department has issued an invitation to the architects of Boston to take part in an open competition for the position of architect of the bandstand to be erected on Boston Common as a memorial to the late George F. Parkman.

Professor F. W. Chandler of the Massachusetts Institute of Technology has been retained to act as a special adviser on the material submitted and to assist in the selection of architects for the competition.

EXAMINATIONS FOR TEACHERS AND NURSES.

During the week beginning Monday, January 30, examinations will be held in the Normal School, Huntington avenue, of candidates for certificates of qualification to serve as teachers and nurses in the public schools of Boston. Circulars containing detailed information with respect to these examinations may be obtained on application to Mr. Thornton D. Apollonio, Secretary of the School Committee, rooms Mason street.

CLAIMS.

On December 28 the Mayor approved the following awards made by the Committee on Claims of the City Council, said awards having been approved by the heads of departments involved and by the Corporation Council.

James J. Brock, \$185, compensation for extra labor and material on contracts for work on Rutherford avenue in 1907.

Katie Daley, \$350, personal injuries caused by a depression in sidewalk at 131 London street, East Boston, June 6, 1910.

Dudley H. Dorr, \$22.20, damage to property 3 Otisfield street, Dorchester, caused by water entering premises from a leak in water main in Elm Hill Park, October 17 1910.

Mrs. Agnes Erlandson, \$250, personal injuries caused by a hole in sidewalk in front of estate 35 Jenkins street, South Boston, August 2, 1910.

Percival Lowell, \$110, damage to property 3 and 4 North Market street, by failure to reconnect drain pipe with new sewer after it was laid.

Laurence Minot, \$64.40, damage to property 15-41 Broadway Extension, caused by stopping up of sewer, week ending July 23, 1910.

John J. Murphy, \$25, injury to horse caused by projecting paving where it joins macadam on Massachusetts avenue, near railroad bridge, on October 10, 1909.

William F. Powers, employee of Sanitary Division, \$9, back pay due him for inability to work on account of personal injuries received while in the performance of his duty.

St. Thomas School Society, \$52.44, damage to property 13 St. Joseph street, Jamaica Plain, caused by break of sewer connections in the spring of 1909.

Star Brewing Company, \$50, injury to horse caused by falling through manhole catch-basin, opposite 482 Bremen street, East Boston, November 16, 1908.

Helen M. Tucker, \$104.60, repairs on drain made necessary by the laying of a sewer at 272 Washington street, Dorchester.

RECONVEYANCE OF PROPERTY.

The Mayor, acting under authorization of the City Council, has executed a quit-claim deed to Benjamin Lancy of a parcel of land situated on Common and Warren streets, and containing 1,356 square feet, more or less. This land was originally taken by the city as part of a school-house site, but the Board of Schoolhouse Commissioners having given official notice that it is no longer required for that purpose, it has been reconveyed to the former owner.

STREET COMMISSIONERS.

The Mayor has approved a vote of the Board of Street Commissioners, taken after consultation with the Law Department and on its advice, in the matter of damages occasioned to the estate of James W. Longa, by the laying out of Kilton street, Dorchester, assessing damages in the sum of \$25, with taxable costs; the city assuming the betterment assessment amounting to \$83.29 levied against the estate on account of said improvement.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

The following allowances, made by the superintendent, have been approved by the Mayor:

Mathew Doyle, Sanitary Division, 24 days at \$2.25, \$54; Patrick Joyce, Sanitary Division, 11 days at \$2.25, \$15.75; Henry R. Nickerson, Sanitary Division, 14½ days at \$2.25, \$32.63.

CONDEMNATION OF BUILDING.

The building numbered 18 River street, Ward 11, has been condemned as unsafe. The owner has been notified several times to take measures to secure it, but without result.

FREE MUNICIPAL CONCERTS.

The Music Department has arranged the following free municipal concerts for the week ending January 7.

The department has been fortunate in securing the services of Senor Antony Torello, the contrabassist, for the concert to be given on the evening of January 3 at the Dorchester High School, Codman square, Dorchester.

The young Senor Torello (for he is but a youth of twenty-five) was born in San Saturin de Noya in the province of Catalonia. At the age of ten years he began the study of the double bass according to the teachings of Bottesini. At the age of fourteen years Torello appeared as a soloist and his success was such that at the early age of twenty-two, after a public competition for contrabass soloist, we find him proclaimed the first contrabassist in the Grand Lyceum Theater of Barcelona, with the result of his appointment to the chair of contrabass at the conservatory of her Majesty Queen Isabella.

Since that time Senor Torello has traveled extensively and has won an enviable position in the world of music.

He will be heard in the following program, accompanied by Mr. J. A. Baumgartner, pianist:

PROGRAM.

- Overture, "Turandot," Lachner.
 "Erklarung," from String Quartet, "Die Schone Mullerin," Raff.
 Solo for contrabass, "Air and Variations," Torello-Bottesini.
 Senor Torello.
 Selections for vocal trio:
 a. "Barcarolle," from "Gently Float," from "The Tales of Hoffman," Offenbach.
 b. "My Honey," Lynnes.
 Misses Lawson.
 Minuet for strings, Bolzani.
 Solo for contrabass, "Grand Fantasie," Valls.
 Senor Torello.
 Finale, "The Erl King," Schubert.
 Soloists.—Senor Antony Torello, contrabassist; Miss Esther Lawson, Miss Marion Lawson and Miss Violet Lawson, trio.

CHAMBER CONCERT.

On Wednesday evening, January 4, at the Chapman School, Eutaw and Marion streets, East Boston, a chamber concert will be given with the following program:

PROGRAM.

- "Allegro," from Trio, op. 1, No. 1, Beethoven.
 Vocal selections:
 a. "Who is Sylvia?" Schubert.
 b. "Sweet on Thy Slumbering Ear," Chase.
 c. "Yeoman's Wedding Song," Pomiatowski.
 Solo for pianoforte, "Paraphrase on 'Rigoletto,'" Verdi-Liszt.
 a. Andante } from Trio, op. 49, Mendelssohn.
 b. Scherzo }
 Solos for violin;
 a. "Guitarre," Moszkowski.
 b. "En Regard le Ciel," Godard.
 c. "Perpetuum Mobile," Ries.
 Vocal selections:
 a. "Mother o' Mine," Tours.
 b. "Absent," Metcalf.
 c. "Rolling Down to Rio," German.
 Andante and Finale from Trio, op. 42, Gade.
 Soloists.—Miss Ida McCarthy, pianist; Mrs. Olive Whiteley Hilton, violinist; Mrs. Anna Howe Hunting, violoncellist; assisted by Mr. William H. O'Brien, baritone.

JANUARY 6, ROXBURY HIGH SCHOOL, WARREN STREET, ROXBURY.

PROGRAM.

- Overture, "William Tell," Rossini.
 "The Mill," from String Quartet, "Die Schone Mullerin," Raff.
 Aria, "Toreador," from "Carmen," Bizet.
 Mr. Capelloni.
 Andante from Symphony in C Minor, Beethoven.
 Fantasie for cello, "O Cara Memoria," Servais.
 Mr. Brown.
 Song, "Sognai," Tessarin.
 Mr. Capelloni.
 Finale, "The Erl King," Schubert.
 Soloists.—Virginia Capelloni, baritone; Paul M. Brown, violoncellist.

The following schedule of concerts has been arranged for the month of January. Other "Chamber Concerts" will be added to the list during the month.

- January 4, Chapman School, East Boston, Chamber Concert.
 January 6, Roxbury High School, Orchestral Concert.
 January 9, West Roxbury High School, Chamber Concert.
 January 10, Dorchester High School, Orchestral Concert.
 January 11, Ford Hall, Chamber Concert.
 January 13, Franklin Union, Orchestral Concert.
 January 17, Girls' Latin School, Orchestral Concert.
 January 19, South Boston High School, Orchestral Concert.
 January 24, West Roxbury High School, Orchestral Concert.
 January 26, Faneuil Hall, Orchestral Concert.

An important feature of the orchestral concerts are lectures by Prof. Louis C. Elson, who explains and interprets the program rendered.

Tickets may be obtained at the office of the Music Department, 43 Tremont street, Room 905, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

PUBLIC LIBRARY LECTURES.

Free public lectures with lantern illustrations to be given in the lecture hall of the Boston Public Library. No tickets are required. The entrance is from Boylston street only. The doors will be opened at seven o'clock and closed when the hall is filled.

LIBRARY COURSE.

Thursday Evenings at Eight O'Clock.

1911.
 Jan. 5. Holland and the Art of the Dutch. Elizabeth Fullick.
 Jan. 12. * Photography in relation to Illustration. J. Horace McFarland.
 Jan. 19. The Land of the Shamrock. Minna Eliot Tenney.
 Jan. 26. * The Paper and Binding of Books. Cedric Chivers.
 Feb. 2. Joan of Arc. Rev. Thomas I. Gasson, S. J.
 Feb. 9. Historic Cathedrals of England (Canterbury, Durham and Westminster). George N. Cross.
 Feb. 16. Beautiful New Brunswick and Historic Quebec. Minna Eliot Tenney.
 Feb. 23. The Palace of Urbino. Italian Home Life in the Fifteenth Century. Annie Beecher Scoville.
 March 2. The English Homes of Shakespeare's Day. Annie Beecher Scoville.
 March 9. Housing Problems: Houses at moderate Rents. J. Randolph Coolidge, Jr.
 March 16. Along White Mountain Trails and Paths. John Ritchie, Jr.
 March 23. Switzerland and the Rhine. Henry Warren Poor.
 March 30. Recent Masterpieces of Sculpture. Edmund von Mach.

* Under the auspices of the Society of Printers.

FIELD AND FOREST CLUB COURSE.

Monday Evenings at Eight O'Clock.

1911.
 Jan. 9. Winter and Sea Birds. Herbert K. Job (state ornithologist of Connecticut).
 Feb. 13. Illustrated Lecture. Edward F. Bigelow, Ph. D. (author of "How nature should be taught").
 March 13. Illustrated lecture. Dr. Francis H. Rowley (president of the Massachusetts Society for the Prevention of Cruelty to Animals).
 April 10. Useful Birds of Farm, Field and Forest, and how we can protect them. Edward H. Forbush (state ornithologist of Massachusetts).

NUT TREES IN PARKS.

The parks in Fort Worth, Texas, contain a number of pecan trees in good bearing, and this year the commissioners have decreed nutting days for the boys to their great joy. Perhaps our own park commissioners in their planting of trees could put in some nut groves, containing not only the varieties that are grown commercially here, but also trees that are grown back east, like butternut, walnut and hickory, which might be induced to produce out here.—*Pacific Outlook*.

IMPROVING HARBOR IN CONJUNCTION WITH GOVERNMENT.

Buffalo, N. Y.—Corporation Counsel Hammond will, within a week or ten days, submit complete records of the title to the property proposed to be converted into a turning basin for vessels at the junction of the Buffalo creek and the Blackwell canal and the final step by the city toward the accomplishment of this needed improvement will have been taken. The remaining steps must then be taken by the government, which is expected to begin the actual dredging operations as soon as it is in possession of a clear title to the property.

CITY OF BOSTON.

PROPOSALS FOR BUILDING A REPAIR SHOP FOR THE FIRE DEPARTMENT.

Proposals for building a repair shop, corner of Albany and Bristol streets, according to plans and specification which can be obtained at this office, will be publicly opened and read at 12 o'clock noon January 7, 1911, at the office of the Fire Commissioner, Bristol street. Proposals must be sealed and marked "Proposal for Constructing a Repair Shop for the Fire Department," and made in duplicate, the one containing a certified check for \$2,000 sent to this office, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening bids. The successful bidder will be required to furnish a bond for \$40,000 of an approved surety company doing business in Massachusetts. The Fire Commissioner reserves the right to reject any and all bids or to award the contract as he deems best.

CHARLES D. DALY,
 Fire Commissioner.

(Dec. 31.)

CITY OF BOSTON.

REGISTRY DEPARTMENT,
 No. 5 Old Court House.

NOTICE TO PHYSICIANS, MIDWIVES AND PARENTS.

Physicians, midwives and parents can obtain blanks for return of births on application at this office, or they will be mailed on request.

REVISED LAWS, CHAPTER 29.

(Extracts from Sections 1, 3 and 6.)

SECTION 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

SECT. 3. Physicians and midwives shall, on or before the fifth day of each month, report to the clerk of each city or town a correct list of all children born therein during the preceding month at whose birth they were present. . . . The fee of the physician or midwife shall be 25 cents for each birth so reported.

SECT. 6. Parents, within forty days after the birth of a child, shall cause notice thereof to be given to the clerk of the city or town in which such child is born.

All births in Boston to be reported to this office.

E. W. MCGLENEN, Registrar.

CITY OF BOSTON.

PROPOSALS FOR FURNISHING TEAMS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for furnishing double and single teams and extra men in Districts Nos. 1, 2, 3, 4, 5, 6-9, 7, 8 and 10 from time to time, as may be needed, between February 1, 1911, and January 31, 1912, and giving bond therefor of a surety company approved by the superintendent in the sum of one thousand dollars (\$1,000) for each district, to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Furnishing Teams," and left at the said office of the Superintendent of Streets before 12 m. on Tuesday, January 17, 1911, with a certified check for one hundred dollars (\$100) for each district or nine hundred dollars (\$900) for all the districts, payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he deems best.

LOUIS K. ROURKE,

Superintendent of Streets.

Boston, December 29, 1910. (Dec. 31-Jan. 7.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

ARCHITECTS' COMPETITION.

Architects in independent practice in the City of Boston who desire to take part in an open competition for the position of architect of the bandstand to be erected on the Boston Common as a memorial to the late George F. Parkman are invited to submit the following:

First.—State what your professional education has been, the number of years you have been engaged in your profession, and the number of years you have practiced independently.

Second.—Give a list of buildings erected by you during the last five years, naming in each case the owner and the contractor or contractors.

Third.—Submit a set of working drawings of one of these buildings, preferably of one of a decorative or monumental type.

Fourth.—If an architect submits any other material than that noted above he will not be considered by the departments.

Prof. F. W. Chandler has been employed to act as professional adviser, and he will examine the material submitted, and will advise the departments in the selection of architects for the competition.

Replies to this invitation are to be addressed to Prof. F. W. Chandler, Massachusetts Institute of Technology, Boston, and received not later than January 4, 1911. The information and drawings to be delivered to Mr. W. C. Brooks, Chairman of the Music Department, 43 Tremont street not later than January 9, 1911.

(Dec. 31.)

CITY OF BOSTON.

PROPOSALS FOR CLEANING SEWERS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for cleaning sewers in the following streets, viz., Public Alley No. 444, from Hereford street about 560 feet westerly, city proper; Winthrop street, between Blue Hill avenue and Fairland street, Roxbury; Tremont street, from Roxbury Crossing to Linden Park street, Roxbury; South Huntington avenue, between Huntington avenue and Colburn street, Roxbury; Lansdowne street, between Brookline avenue and Ipswich street, Roxbury, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Friday, January 6, 1911, with a certified check for three hundred dollars (\$300), payable to and to be the property of the city if the proposal is not carried out, will, at said hour and place, be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Cleaning Sewers."

Superintendent of Streets.
Boston, December 29, 1910. (Dec. 31.)

CITY OF BOSTON.

PROPOSALS FOR TEAMING EDGESTONES AND FLAGGING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for teaming edgestones and flagging from the South End paving yard, 636 Albany street, between February 1, 1911, and January 31, 1912, and delivering same on any street within the city limits when ordered to do so by the superintendent. The successful bidder will furnish a bond of a surety company approved by the superintendent. The contractor will furnish his own proposal and leave same at said office before 12 o'clock m. of Wednesday, January 11, 1911, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out; the proposals will, at said hour and place, be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he may deem in the best interests of the city. For further information regarding these proposals call at the office of the superintendent. The proposal should be inclosed in an envelope, sealed and marked "Proposal for Teaming Edgestones and Flagging."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 29, 1910. (Dec. 31.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING ASPHALT.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing asphalt pavement in any street in Boston, not under guarantee, when ordered to do so by the Superintendent of Streets, between February 1, 1911, and January 31, 1912, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder, and left at said office, before 12 o'clock m. of Tuesday, January 10, 1911, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The Contractor will furnish his own specification and attach same to the proposal. The undersigned reserves the right to reject any or all proposals, or to award the contract as he may deem in the best interests of the city, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposal should be inclosed in an envelope, sealed, and marked "Proposal for Repairing Asphalt Pavements."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 29, 1910. (Dec. 31.)

CITY OF BOSTON.

PROPOSALS FOR TEAMING COAL TO FERRYBOATS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for teaming coal from coal pockets at the North or South Ferry, East Boston side, and delivering same to ferryboats at North or South Ferry, East Boston side, between February 1, 1911, and January 31, 1912, and giving bond therefor of a surety company approved by the superintendent. The contractor will furnish his own proposal and leave same at said office before 12 o'clock m. of Tuesday, January 10, 1911, with a certified check for one hundred dollars (\$100), payable to and to be the property of the city if the proposal is not carried out; the proposal will at said hour and place be publicly opened and read, it being understood that the contractor will remove the ashes. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any and all proposals, or to award the contract as he may deem in the best interests of the city. For further information regarding these proposals call at the office of the superintendent. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Teaming Coal."

BOSTON PUBLIC SCHOOLS.

Examinations of candidates for certificates of qualification to serve as teachers and nurses in the public schools of Boston will be held in the Boston Normal Schoolhouse, Huntington avenue, near the Fenway, during the week beginning Monday, January 30, 1911.

Circulars containing detailed information with respect to these examinations may be obtained by application to the undersigned.

THORNTON D. APOLLONIO,
Secretary School Committee.
(Dec. 31.)

CITY OF BOSTON.

CITY ELECTION.

City Clerk's Office, December 27, 1910.
In accordance with the provisions of chapter 560 of the Acts of 1907, and any amendments thereof, notice is hereby given that meetings of the male citizens of this city, qualified to vote for city officers, will be held in the several polling places designated for the purpose by the Board of Election Commissioners, on

TUESDAY, THE TENTH DAY OF JANUARY, 1911.

and all such citizens will on said date, in the several precincts in which they are entitled to vote, give in their votes for three members of the City Council and for two members of the School Committee.

They will also give in their votes "Yes" or "No" in answer to the following question:

"Shall licenses be granted for the sale of intoxicating liquors in this city?"

Notice is also hereby given to such female citizens of this city as are qualified to vote for the purpose to assemble at the same time and places and give in their votes for two members of the School Committee.

The polls at said meetings will be opened at six o'clock a. m., and closed at four o'clock p. m.

Attest: JOHN T. PRIEST,
(Dec. 31-Jan. 7.) City Clerk.

CITY OF BOSTON.

PROPOSALS FOR WEIGHING AND VENDING MACHINES IN FERRYHOUSES.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for the privilege of placing weighing and vending machines in the four headhouses of the Ferry Division, between February 1, 1911, and January 31, 1912, and giving a bond approved by the superintendent. The bidder will furnish his own proposal and submit a price for each machine and the number to be placed in each headhouse, and leave same at said office before 12 o'clock m. of Tuesday, January 10, 1911, with a certified check for one hundred dollars (\$100), payable to and to be the property of the city if the proposal is not carried out. The bids will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals, or to award the contract as he may deem in the best interests of the city. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Weighing and Vending Machines."

LOUIS K. ROURKE,
Superintendent of Streets.
Boston, December 29, 1910. (Dec. 31.)

CITY OF BOSTON.

TO FIRE ESCAPE CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting fire escape on Warren School, Pearl and Summer streets, Charlestown, Boston, Mass., and giving bond of a surety company therefor in the sum of \$1,500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Monday, January 9, 1911, at said office, with a certified check for \$800, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trade unions' rate of wages.

CHARLES LOGUE,
JOHN F. KENNEDY,
CHARLES B. PERKINS,
Commissioners.
(Dec. 31.)

CITY OF BOSTON.

TO METAL FURNITURE CONTRACTORS.

The Superintendent of Public Buildings of Boston, Mass., invites proposals for furnishing new metal furniture, etc., for the Suffolk County Registry of Deeds, in the Courthouse, Pemberton square, Boston, according to plans and specifications, and giving a bond of a surety company therefor, satisfactory to the superintendent, in the sum of \$2,500, to secure due performance of the contract and the full protection to the city. Only proposals which may be obtained at the office of the Superintendent of Public Buildings, Room 30, Old Court House, Boston, filled out, signed by the bidder, and left before 12 o'clock m. of Monday, January 16, 1911, at said office, with a certified check on a Boston bank for \$500, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best for the city's interest.

M. J. FISH,
(Dec. 31.) Superintendent of Public Buildings.

SLUM CLEARANCES AT LIVERPOOL.

A REVIEW OF THE LIVERPOOL HOUSING POLICY.

Mr. John Burns, President of the Local Government Board, visited Liverpool recently to lay the foundation stone of one of the blocks of workmen's dwellings which the Corporation's Housing Committee is building on the Bevington street area, which is situated in the north of the city, about three-quarters of a mile from the town hall. Liverpool has had an unenviable reputation for the extent and the squalor of its slums, but in recent years the activity of the corporation has shown some proportion to the necessities of the case, and some of the worst quarters of the city have been completely transformed. No fewer than eighteen demolition and rehousing schemes have been carried out at a cost of \$5,000,000 (which, at present means a rate of 1 cent on the dollar to the Liverpool citizen), and there are now 2,300 corporation dwellings, occupied by about 11,500 people, of whom not less than 80 per cent are drawn from houses or cellars which have been done away with on sanitary grounds. The Bevington street scheme is the largest the corporation has yet attempted. There are to be fifteen blocks, containing 226 flats and cottages, and intended to accommodate a population of more than 1,300. The total cost of site and buildings is estimated at a little over \$500,000.

In view of recent controversies respecting housing procedure, the experience of Liverpool provides some interesting lessons for local authorities engaged in similar work. The gigantic nature of the task in which the corporation has been involved will be gathered from the fact that in the year 1864 it is estimated that no less than 22,000 insanitary houses existed in the city. In the passing of the Liverpool Sanitary Amendment Act, 1864, through Parliament, it was stated that these insanitary houses were comprised in 3,173 courts, the average number of houses for each court being very nearly six, and the average number of persons occupying each house being above six, and that one-fifth of the entire population of the then borough inhabited these places.

No town in the kingdom possesses such extensive powers for dealing with this class of property as are possessed by Liverpool. The powers of the Sanitary Amendment Act, 1864, may be briefly summarized as under:

1. The medical officer of health can report to the council that certain houses (specifying them) are unfit for human habitation.

2. The council, after approving the report, must send the same to the Clerk of the Peace, and notice of the report must be given to the owners of the properties included therein.

3. The report is then brought before the grand jury at quarter sessions, who after hearing evidence, and viewing the property, decide whether or not the houses mentioned in the report are insanitary and ought to be demolished. If they decide in favor of demolition, their doing so is called a "Presentment."

4. The owners have a right of appeal to quarter session from the decision of the grand jury.

When the properties have been presented by the grand jury they are acquired by agreement or arbitration in the same manner as under the Housing of the Working Classes Act, 1890, save that under the Local Act the owner has a right to elect to retain the site and to be compensated only for demolition of the buildings.

The advantages of proceeding under the Local Act are:

1. The simplicity, dispatch and cheapness of obtaining a presentment by the grand jury that certain houses are unfit for human habitation and ought to be demolished.

2. The fact that the corporation has the conduct of the whole of the proceedings without the necessity of having to apply to the Local Government Board for a provisional order.

The disadvantages of proceeding under the Local Act are:

1. The owners can elect to retain the site.

2. No properties other than those used for habitation can be acquired, and then only such as are in themselves insanitary.

From a consideration of these two obvious disadvantages it would, at first sight, appear that it might be difficult to obtain a large area suitable for rebuilding, and that the corporation might be saddled with a number of isolated plots of land which could not be utilized, and might be difficult to dispose of. In general practice, however, it has been found the corporation has been enabled to purchase the sites, and in some few cases where it has not been able to do this it was afterwards enabled to acquire the sites by agreement under Part III. of the Housing of the Working Classes Act, 1890. On the whole this act has worked exceedingly well for the city, and has been of immense advantage in dealing with insanitary property. In all, eighteen presentments have been made by the corporation under the Local Act, the first being dated January 13, 1865, and the last June 8, 1904. In fact, it was not until the year 1902 that the corporation adopted the Housing of the Working Classes Act, 1890 (Part I.), for the purpose of dealing in a more comprehensive manner with large unhealthy areas.

The following summary shows in a condensed form the methods employed in dealing with the number of insanitary houses previously mentioned:

Number dealt with under the Local Act of 1864 by presentment, about.....	9,000
Number dealt with owing to the demolition of certain houses to provide separate yard space, water supply and sanitary accommodation for surrounding houses.....	1,500
Demolished for trade and other purposes by private enterprise, about.....	5,000
Number dealt with by various improvement schemes under the Housing of the Working Classes Act since 1902.....	1,720
Number which the medical officer of health reported as existing on December 31, 1909.....	4,150
	21,370

Between 1869 and 1890 the corporation erected three large blocks of dwellings, viz., St. Martin's Cottages, Victoria Square Dwellings, and Juvenal Street Dwellings. These contained 494 tenements, accommodating about 2,000 persons. The demolition of such a large amount of insanitary property had naturally caused a considerable displacement of population. This population consisted almost exclusively of the very poorest of the poor, and as private enterprise could not be relied upon to provide for such a class, especially at rents approximating to what they had been in the habit of paying, viz., from 60

cents to 85 cents per week, and as the previous dwellings were not restricted to any particular class of tenant, the corporation decided in 1896 that in future all dwellings erected by it should be reserved exclusively for tenants who had been dispossessed.

The total cost of the work of demolition and housing up to December 31, 1909, amounted to \$4,903,695. Of this amount there is a balance still owing of \$3,729,165. Deducting the net rents of the dwellings from the charges for interest and sinking fund on the balance of debt leaves a sum of about \$172,300, which amount is charged to the rates, and is equivalent to slightly under 1 cent on the dollar thereon. The areas selected by the Housing Committee for the erection of dwellings are those areas which in bygone years, and up to the time of their demolition, were most notoriously insanitary.

Under the Housing Committee's control there are at present some 2,300 dwellings occupied by about 11,500 people, and it may be estimated that not less than 80 per cent of the occupiers of the old insanitary areas are now housed in the new dwellings. The rate of mortality in the new dwellings taken as a whole has already dropped to twenty-seven, and a most remarkable decline is observed in the deaths from tuberculosis; the rate in the new dwellings having dropped to 19, which is lower than the rate for the districts in which the dwellings are situated.

Since 1902 the corporation has dealt with three large areas under Part I. of the Act of 1890, viz., the Hornby street and Burlington street areas in the north end of the city and the upper Main street area in the south. The two former areas adjoin one another, and are in close proximity to the Bevington street area. At the present time the Housing Committee is dealing with six unhealthy areas, viz., Bevington street, Beau street, Holly street, Frank street, Grafton street and Saltney street, in respect of which improvement schemes were made by the City Council in 1907. The whole of the properties comprised in these areas have been acquired, and rebuilding operations are proceeding in respect of three of them, viz., Bevington street, Saltney street and Grafton street.

The periods for which the loans are granted are 80 years in respect of land and 60 years in respect of buildings. The charge for interest and installments of principal for the first year after the money is borrowed will be \$56,100. This sum will be diminished annually by the proceeds of the investment of the annual installments of the principal. This annual charge, however, will be further reduced by the estimated net receipts from the rents of the properties proposed to be erected, which, based on the rents at present fixed by the committee, would probably amount to \$15,100 per annum. The net cost to the corporation, therefore, on the total expenditure of \$1,127,500 for the purchase of the sites and the erection of dwellings thereon is equivalent to a little over 2 mills in the dollar on the rates.

BEVINGTON STREET AREA.

The Bevington street area was scheduled as an "unhealthy area" in 1907, and the number of houses which it contained was 295. Of these 267 were insanitary, while the remainder were houses or business premises not occupied by persons of the working class. The insanitary houses were of the back-to-back type, situated in narrow and ill-ventilated courts, and the sanitary arrangements were very defective.

The total contents of the area was 17,989 square yards, and the freehold of the land and buildings, including trade compensation, was acquired at a total cost of \$260,000.

The area as rebuilt will retain the existing lines of streets, with one exception. In every instance the old building lines will be amended by either straightening or setting back from the old position and the widths of streets will in no case be less than 36 feet.

The new dwellings will comprise 15 blocks, containing 226 tenements, which, it is estimated, will accommodate 1,372 persons. There will be 52 self-contained cottages of five rooms each, 27 four-roomed, 70 three-roomed, and 77 two-roomed dwellings, together with a superintendent's house and office and six shops.

There will be two types of dwellings erected, the one being the flat or tenement type, and the other the self-contained cottage type. This latter type is a new departure in Liverpool housing work, and is much in the nature of an experiment, the desire being to enable the dispossessed to have more the idea of an Englishman's home than sentiment can give in the large blocks of tenement dwellings. Naturally, they will also serve a different type of tenant than has hitherto been provided for and whom, it is believed, is requiring attention in this neighborhood.

Another feature of this area is the provision of two large playgrounds, one for boys and one for girls, with a center portion laid out as a garden with bandstand and two shelters. The band garden covers 1,000 square yards, while the playgrounds are both 1,200 square yards, and are fitted with suitable gymnastic apparatus, such as swings, giant strides, and see-saws, and at the entrance to each ground a drinking fountain will be placed. These grounds will be open till dusk each evening, and will be under the control of the Housing Committee and the manager of the dwellings. As may be imagined, in an area of this size there is a demand for suitable shops, and this will be met by the provision of six at certain main corner sites, these being provided with house accommodation as in the private dwellings.

The tenements will be arranged in three-story blocks, all being approached by main staircases 8 feet, 4 inches wide, leading direct from the street, and serving balconies running right and left along the front of the blocks, and leading to the front doors of the tenements.

SMOKE NUISANCE IN PITTSBURG.

No city in the Union is more in earnest about getting rid of its smoke nuisance than Pittsburg, a city that has long been famous for its dingy atmosphere. A recent report of the health department of that city describes the crusade that has been carried on which has resulted in putting in 414 smoke abating devices at a cost of about a million dollars. There are three smoke inspectors steadily on the job.

SUB-SIDEWALK SPACE.

Chicago will enjoy a very considerable increase of revenue through a recent decision of the Supreme Court of Illinois that the city is entitled to charge rental on space under the sidewalk used by the abutting property. As nearly all such space has been used by the buildings in the business district — heretofore without much question — and as in most cases it is absolutely essential in the economy of the building, the rental returns to the city should be very large. — *Pacific Outlook*.

REFUSE DISPOSAL AT GLASGOW.

At Glasgow, Scotland, as in most cities in Great Britain, household rubbish was formerly kept in ash pits, but these were abandoned and galvanized cans substituted beginning with 1900, and up to May 31, 1909, 11,906 pits had been abolished and replaced by 39,365 cans. The rubbish is taken to nine different depots where portions fit for sale are separated from the lighter and unsalable parts, the latter being incinerated in furnaces which create steam for power purposes.

Soft street sweepings, largely of organic matter, are tipped into brick tanks with sloping bottoms fitted with perforated draining plates, and in a few days the material becomes solid enough to be transferred to a railway car. The corporation owns 700 railway cars which it uses for carrying the refuse over the various systems.

The domestic refuse is separated by revolving screens, as are also the dry sweepings from paved streets. The finer particles which fall through the screen are mixed with the moist matter above referred to and the whole taken in railway cars to the incinerator. The coarser matters are dropped by the screen onto an endless carrier which takes them to furnaces; but from this carrier everything of value is picked off, such as iron, bottles, bones, tin cans, etc.

Old tins and galvanized and enameled articles produce a substantial revenue. All old tin articles are now detinned and the remaining steel is pressed into solid billets by hydraulic power. At each station there is an inexpensive furnace for removing tin and solder. The power for operating the presses for compressing the scrap iron is obtained from the heat of the incinerators, which power is also used for crushing clinker and for lighting the destructor building, stables and offices. In 1909 the clinker yielded a revenue of \$81,916; tins and galvanized buckets and light iron yielded \$26,249; scrap iron, \$38,675; waste paper, \$32,694, and bottles, \$1,279. Prior to 1897 the clinker was considered to be of no value and was carried to the country at a cost of 24 cents per ton. Builders now use it for concrete work and pay a substantial price for the same.

In 1900 the system of collecting waste paper by means of old bags issued to business premises and the better class of dwelling houses was inaugurated. By this method the paper is delivered clean and consequently more valuable than if taken from rubbish cans, and also much nuisance is avoided. The revenue from this source last year was \$3,200.

All domestic refuse and garbage from hotels, restaurants, etc., is collected during the night concurrently with the street sweeping done by the sweeping machines. The street sweepings collected during the day are deposited in bins sunk in the pavement at regular intervals and these are emptied nightly and collected by the same carts which remove the sweepings left by the sweeping machines. Private streets and rear courts are, after sweeping, cleansed by use of 1½-inch hose attached to fire hydrants. The proprietors of these properties are assessed two cents for each \$4.86 (a penny a pound) of annual rental to meet the expense of this work.

After a heavy snowstorm, in order to avoid disorganization of the street traffic and great inconvenience to the public, the snow is removed without delay. Salt is used to melt the snow on the street railway tracks and is followed shortly afterwards by the sweeping machine, which spreads the brine created by the

action of the salt on the snow over the entire width of the street, thereby rendering it possible to clean the streets quickly. The snow and slush are then rapidly carted and tipped into the rivers Clyde and Kelvin or onto the most convenient of the various dumps around the outskirts of the city.

The collection and disposal of garbage and other refuse are under the direct supervision of the superintendent of the cleansing department of the corporation.

In general, the cities and towns throughout Scotland have well-regulated cleansing departments similar to that of Glasgow, with the exception that the smaller towns and villages have no furnaces for destructive purposes. Some consume their garbage at county furnaces and others are obliged to cart it into the country. — *Municipal Journal and Engineer*.

LONDON STREET TRAFFIC.

Street traffic conditions in London have been analyzed by Mr. L. A. Legros in a paper on the development of road locomotion in recent years, read before the Institution of Mechanical Engineers on November 18. It is remarkable on account of some bold predictions based on figures of the classes of vehicles now in use in London. The author estimates that the horse-drawn street car will practically disappear from London by the end of 1912, the horse omnibus by the end of 1913, the hansom cab by the end of 1913, and the four-wheeler before the end of 1921. The latter is likely to stay until that time because it carries trunks as well as passengers. All of these types of vehicles he considers offenders against public convenience, in that they prevent by their slow movement the utmost utilization of streets. It is his opinion that on streets having the heaviest traffic no vehicles should be allowed during the busy hours of the day unless capable, when fully loaded, of exceeding a definite minimum speed. Congestion of traffic generally takes place in districts where land values are high, and Mr. Legros considers the condition anomalous that there exists, for tenants pay extremely high rates for offices in the same localities where traffic regulations put a premium on very slow vehicular movements. While few engineers will care to indulge in such prophetic views of travel regulation in the near future, it cannot be denied that in the largest cities a better regulation of traffic by keeping slow-moving wagons from them would be decidedly useful. The matter is an important one to the engineer, because of the very narrow width of many of these important streets. It is practically impossible to enlarge the roadways and consequently it is necessary to manage traffic better. Anybody who has witnessed the way in which a stream of vehicles will be held up while a dray slowly turns around in a narrow crowded street does not need to be told that good regulations can accomplish a great deal in the way of increasing the usefulness of such thoroughfares. — *Engineering Record*.

BRISTOL DOCKS.

The Bristol City Council discussed at a recent meeting a special report on the management and the future of the docks in Bristol and at Avonmouth and Portishead. It was resolved to introduce certain changes in dock policy and to make the present general manager consulting officer, with a view to appointing a new general manager experienced in docks, railways and shipping. The trade of the port has substantially increased of late.
